We have audited Audrain County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Audrain County, Missouri's major federal programs for the years ended December 31, 2017 and 2016. Audrain County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Audrain County, Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Audrain County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Audrain County, Missouri's compliance.

Opinion on Each Major Federal Program

In our opinion, Audrain County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2017 and 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2017-001. Our opinion on each major federal program is not modified with respect to these matters.

Audrain County, Missouri's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Audrain County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of Audrain County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Audrain County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Audrain County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

AUDRAIN COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal award activity of Audrain County, Missouri for the years ended December 31, 2017 and 2016. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2017 and 2016.

AUDRAIN COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2017 AND 2016

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of Auditors’ Report Issued: Unmodified

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported
- Noncompliance material to financial statements noted? Yes X No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be Reported in accordance with Uniform Guidance section 200.516? X Yes No

Identification of Major Programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
20.205	Highway Planning and Construction Cluster

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

None noted

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2017-001. Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Justice, U.S. Department of Transportation

Pass-Through Grantor: Missouri Department of Public Safety, Missouri Department of Transportation

Federal CFDA Number: 16.738, 20.205

Program Title: Edward Byrne Memorial Justice Assistance Grant, Highway Planning and Construction

Pass-through Entity Identifying Number: 2015-JAG-001, BRO-B004(38), BRO-B004(41), BRO-B004(42)

Award Year: 2016 and 2017

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The schedules of expenditures of federal awards (SEFA) reported by the County in the 2016 and 2017 annual budget documents contained errors in amounts of federal expenditures reported. Expenditures of the Highway Planning and Construction program were understated by \$119,439 in 2016 and \$107,330 in 2017, and the expenditures of the Edward Byrne Memorial Justice Assistance Grant were understated by \$34,782 in 2016.

Cause: The County reported only 80% of the expenditures of the Highway Planning and Construction grants, however, the County qualified for 100% reimbursement of expenditures with federal funds from the Missouri Department of Transportation. The expenditures reported for the Edward Byrne Memorial Justice Assistance Grant in 2016 included only two of the six months of expenditures claimed for reimbursements under award 2015-JAG-001 during the year. The amounts of expenditures reimbursed by the JAG grant were included on the same line item as non-grant expenditures in the general ledger, which resulted in additional calculations needed to arrive at the number to report on the SEFA.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2017 and 2016.

Recommendation: We recommend that the County implement procedures to ensure that the SEFA accurately states the expenditures of federal awards of the County each year.

County Response: We feel we have procedures in place at this time, but will try to improve. In past audits the amount reported for Federal Bridges has always been reported at 80% as the 20 % was soft match. Going forward if that amount is required to be reported we will do so.

AUDRAIN COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Audrain County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

2015-001: Documentation of the County's internal controls has not been prepared. This finding initially occurred in the 2012-2013 audit.

Status: This finding is considered to be resolved.

2015-002: There is no formal fraud risk assessment in place. This finding initially occurred in the 2012-2013 audit.

Status: This finding is considered to be resolved.

2015-003: Cash and fund balance was not being accurately tracked within the accounting system. The county is however, tracking cash and fund balance on spreadsheets outside the accounting system. This finding initially occurred in the 2012-2013 audit.

Status: This finding is considered to be resolved.

2015-004: The Sheriff's bank accounts did not have formal bank reconciliations.

Status: This finding is considered to be resolved.

**Community Improvement
Districts**

CITIZENS SUMMARY

Findings in the review of Community Improvement Districts

Significant Weaknesses Exist in the State's CID Laws	Significant changes to the state's Community Improvement District (CID) laws are necessary to protect taxpayers. State law allows a CID to be formed and taxes and assessments to be imposed without adequate public scrutiny or sufficient public protections. State law also allows sales taxes to be imposed without voter approval and for significant conflicts of interest to potentially occur. CID imposed sales taxes do not have to be disclosed to the public and CID reporting compliance requirements are incomplete and lack enforcement power. State law allows CIDs to overtax the public and remit the excess taxation to conflicted parties. Annual reports of statewide CID sales tax collections and distributions published by the Department of Revenue (DOR) do not include taxes distributed to all districts.
Weaknesses Exist in Sales Tax Administration	The sales tax administration system in place at the DOR does not adequately track sales tax district boundaries, and the DOR does not have adequate procedures in place to ensure district sales taxes are correctly administered, charged, collected, and disbursed.
Noncompliance with Statutory Requirements	CIDs have routinely not complied with state laws regarding budget preparation, annual financial and performance reporting, Sunshine Law compliance, and holding an annual meeting. We determined 11 of the 15 (73 percent) CIDs reviewed did not properly adopt budgets or did not properly provide prepared budgets to the municipalities. Prepared budgets were also often incomplete and sometimes not approved timely. CIDs consistently failed to provide required annual financial reports to the State Auditor's Office and annual performance reports to the Department of Economic Development. We determined 3 of the 15 (20 percent) CIDs reviewed did not comply with the Sunshine Law by failing to prepare board meeting minutes with all required information. We identified 4 of the 15 CIDs did not hold an annual meeting during 2017 as required.

Due to the nature of this report no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly,
and
Joel W. Walters, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain aspects of the state's Community Improvement District (CID) laws and certain information related to a selection of CIDs, in fulfillment of our duties under Chapter 29, RSMo. Due to the increasing number of CIDs in the state, and the significant amount of public money collected and spent by such districts, state laws establishing CIDs are a significant issue to taxpayers. The scope of the audit included, but was not limited to, the year ended December 31, 2017. The objectives of our audit were to:

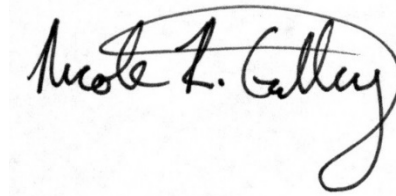

1. Evaluate internal controls over significant management and financial functions related to CIDs.
2. Evaluate compliance with certain legal provisions related to CIDs.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions related to CIDs.
4. Evaluate potential changes needed in state laws governing CIDs.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Since there is no central agency charged with oversight of CIDs, we could not obtain views of responsible officials for the findings, conclusions, and recommendations outlined in findings 1 and 3 of the Management Advisory Report. We obtained the views of responsible CID officials and municipality officials and included them in the report where appropriate.

For the areas audited, we identified (1) deficiencies in internal controls over management and financial functions related to CIDs, (2) significant non-compliance with legal provisions related to CIDs, (3) significant weaknesses in CID management practices, and (4) significant weaknesses in the state laws for CIDs.

The accompanying Management Advisory Report presents our findings arising from our statewide audit of CIDs.

Community Improvement Districts

Introduction

Background

The Community Improvement District Act was established in 1998 and allows for the formation of community improvement districts (CIDs) under Sections 67.1401 to 67.1571, RSMo. CIDs are separate legal entities, either a political subdivision or a not-for-profit corporation, which are established to pay for either public improvements or private projects. The projects are generally financed by these districts through a sales and use tax, special assessment, or real property tax. As of December 31, 2017, approximately 428 CIDs existed throughout the state. During 2017, CIDs received more than \$74.3 million in revenues statewide.

Formation

According to Section 67.1411, RSMo, the governing body of any municipality or county may establish one or more CIDs in the manner provided in the Community Improvement District Act. Section 67.1461.1(16), RSMo, establishes powers of the district and allows the district to provide assistance to or to construct, reconstruct, install, repair, maintain, and equip various public facilities or improvements.

Figure 1 shows the total number of CIDs formed across the state each calendar year from 1999 to 2017 for the 411 CIDs that responded to our questionnaire.

Figure 1: Number of CIDs formed by calendar year, 1999 to 2017

Source: Prepared by the State Auditor's Office (SAO) using data from questionnaires submitted to each CID in existence as of December 31, 2017.

The process of establishing a CID is initiated by the filing of a petition with the governing body where the proposed district is located. Such a petition must be signed by (1) property owners collectively owning more than 50 percent of the assessed value of the real property within the boundaries of the

Community Improvement Districts Introduction

proposed district and (2) more than 50 percent per capita¹ of all real property owners within the boundaries of the proposed district.

A petition to form must also include (1) a legal description of the proposed district, including a map illustrating the district boundaries; (2) the name of the proposed district; (3) a notice that the signatures of the signers may not be withdrawn later than 7 days after the petition is filed with the municipal clerk; (4) a 5-year plan stating a description of the purposes of the proposed district, the services it will provide, the improvement it will make and an estimate of costs of these services and improvements to be incurred; (5) a statement as to whether the district will be a political subdivision or a not-for-profit corporation, including the name of the not-for-profit corporation; (6) if the district is to be a political subdivision, a statement as to whether the district will be governed by a board elected by the district or whether the board will be appointed by the municipality; (7) if the district is to be a political subdivision, the number of directors to serve on the board; (8) the total assessed value of all real property within the proposed district; (9) a statement as to whether the petitioners are seeking a determination that the proposed district, or any legally described portion thereof, is a blighted area;² (10) the proposed length of time for the existence of the district; (11) the maximum rates of real property taxes, and, business license taxes in the county seat of a county of the first classification without a charter form of government containing a population of at least 200,000, that may be submitted to the qualified voters³ for approval; (12) the maximum rates of special assessments, and respective methods of assessment that may be proposed by petition; (13) the limitations, if any, on borrowing capacity of the district; (14) the limitations, if any, on the revenue generation of the district; (15) other limitations, if any, on the powers of the district; (16) a request that the district be established; and (17) any other items the petitioners deem appropriate.

Section 67.1421, RSMo, requires the municipal clerk to determine if the petition substantially complies with the requirements and for the governing body of the municipality in which the proposed district is located to hold a public hearing before the governing body can adopt an ordinance approving the petition and establishing a district as set forth in the petition.

¹ As defined by Section 67.1401, RSMo, per capita is one head count applied to each individual, entity or group of individuals or entities having fee ownership of real property within the district.

² As defined by Section 67.1401, RSMo, a blighted area is an area which (1) by reason of the insanitary or unsafe conditions, deterioration of site improvements, or the existence of conditions which endanger life or property by fire and other causes retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals or welfare in its present condition and use; or (2) has been declared blighted or found to be a blighted area pursuant to Missouri law.

³ As defined by Section 67.1401, RSMo, a qualified voter is registered voters or the owners of one or more parcels of real property located within the district.

Community Improvement Districts Introduction

Governance

CIDs are governed by a board of directors. If a district is a political subdivision, the district shall be governed by a board consisting of at least 5 but not more than 30 directors. Directors must be (1) at least 18 years old, (2) be either (a) an owner of real property or of a business operating within the district or (b) a registered voter⁴ residing within the district, and (3) any other qualifications set forth in the petition establishing the district. If there are fewer than 5 owners of real property located within a district, the board may be comprised of up to 5 legally authorized representatives of any of the owners of real property located within the district. The board can either be elected or appointed, as provided in the petition. After the district's formation has been approved, the board has the authority to carry out the purposes and provisions of the Community Improvement District Act.

If the district is a not-for-profit corporation, the election and qualification of members to the board of directors must be in accordance with Missouri's Nonprofit Corporation Act (Chapter 355, RSMo).

Allowable projects

CIDs have the powers to provide assistance to or to construct, reconstruct, install, repair, maintain, and equip any of the following public improvements:⁵

- Pedestrian or shopping malls and plazas.
- Parks, lawns, trees, and any other landscaping.
- Convention centers, arenas, aquariums, aviaries, and meeting facilities.
- Parking lots, garages, or other facilities.
- Paintings, murals, display cases, sculptures, and fountains.
- Any other useful, necessary, or desired improvement.

CIDs also have the power to demolish and remove, renovate, reconstruct, or rehabilitate any building or structure owned by a private property owner if the area is declared to be blighted.⁶

⁴ As defined by Section 67.1401, RSMo, a registered voter is a person(s) who resides within the district and whom are qualified and registered to vote pursuant to chapter 115.

⁵ Section 67.1461.1(16), RSMo.

⁶ Section 67.1461.2(1), RSMo.

Community Improvement Districts Introduction

Funding methods

State law allows CIDs 4 different methods to generate revenue:

1. Sales and Use Tax - Any district formed as a political subdivision may impose by resolution a district sales and use tax of up to one percent on retail transactions, subject to exceptions cited in state law.
2. Real Property or Business License Tax - The district may levy by resolution a tax upon real property or on any business located within the boundaries of the district, provided no such resolution shall be final nor shall it take effect until the qualified voters approve the tax that the resolution seeks to impose. The district may levy a real property tax rate lower than the tax rate ceiling approved by qualified voters and may increase that lowered tax rate to a level not exceeding the tax rate ceiling without approval of the qualified voters.
3. Special Assessments - A district may levy by resolution one or more special assessments against real property within its boundaries, upon receipt of an in accordance with a petition signed by (1) owners of real property collectively owning more than 50 percent by assessed value of real property within the boundaries of the district, and (2) more than 50 percent per capita of the owners of all real property within the boundaries of the district.
4. To fix, charge, and collect fees, rents, and other charges for use of any of the following:
 - The district's real property, except for public rights-of-way for utilities.
 - The district's personal property, except in a city not within a county.
 - Any of the district's interest in such real or personal property, except for public rights-of-way for utilities.

The majority of CIDs are funded with sales tax. Special assessments and property taxes are funding methods used by approximately 13 percent of the districts. Figure 2 breaks down the percentage of CIDs by funding method for CIDs formed through December 31, 2017, that responded to our questionnaire.

Community Improvement Districts Introduction

Figure 2: Percentage of CIDs, by
funding method

Source: Prepared by the SAO using data from questionnaires submitted to each CID in existence as of December 31, 2017. Information was not available for 17 districts.

Abolishment

Under state law, upon receipt of a proper petition and after notice of a public hearing, any district may be terminated by ordinance adopted by the governing body of the municipality prior to the expiration of its term if the district has no outstanding obligations. Upon expiration or termination of a district, the assets of such district shall be distributed in accordance with the plan for dissolution as approved by ordinance. The municipality is to make every effort for the assets of the district to be distributed in such a manner so as to benefit the real property that was formerly a part of the district.

Scope and Methodology

The scope of our audit included, but was not limited to, the year ended December 31, 2017. Our methodology included gathering information regarding the CIDs established through discussions with various officials from the Department of Economic Development (DED) and the Department of Revenue (DOR) and reviewing information maintained by those agencies. We sent questionnaires to districts using contact information provided by or obtained from the DED, DOR, SAO, and municipalities. We requested the geographic location of the district, the district's fiscal year, estimated total project costs, estimated revenues when the district was formed, the life of the district, the proposed funding method, when collection of revenues started, district's liabilities/unpaid project costs, businesses/properties within the district, board members, and other information.

To gain an understanding of the legal requirements governing CIDs, we reviewed applicable state laws and interviewed individuals from the DED and DOR.

Community Improvement Districts Introduction

We also selected 15 CIDs across the state to review in more detail. The districts selected and their approving municipalities are:

District Name	Approving Municipality
76 Entertainment CID	Branson
BaratHaven CID	Dardenne Prairie
Independence Events Center CID	Independence
Capital Mall CID	Jefferson City
Hope Valley CID	Joplin
12th & Wyandotte CID	Kansas City
Ward Parkway Shopping Center CID	Kansas City
Park Ridge CID	Lee's Summit
Miner Gateway CID	Miner
North Oaks Plaza Shopping Center CID	Northwoods
2317 Belt CID	St. Joseph
East Hills CID	St. Joseph
Downtown St. Louis CID	St. Louis
Liberty Commons CID	St. Robert
Black Mountain CID	Van Buren

During 2017, the SAO performed individual audits of the BaratHaven CID,⁷ the Independence Events Center CID,⁸ the Ward Parkway Shopping Center CID,⁹ and the North Oaks Plaza Shopping Center CID.¹⁰ These districts were also included in our review of additional detail during this audit.

During our review of these districts, our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; testing selected transactions, and performing on-site inspections and observations. These districts were not selected due to any known issues or concerns, and are considered representative of the entire population of CIDs throughout the state.

⁷ SAO, *BaratHaven Community Improvement District*, report number 2017-121, issued October 2017.

Community Improvement Districts

Management Advisory Report

State Auditor's Findings

1. Significant Weaknesses Exist in the State's CID Laws

Significant changes to the state's Community Improvement District (CID) laws are necessary to protect taxpayers. State law allows for the formation of a CID and the imposition of taxes without adequate public scrutiny, sufficient public protections, or voter approval. Without adequate public scrutiny, district petitions are approved without a well-defined purpose for extended, and even perpetual, timeframes. State law also allows for significant conflicts of interest within the governance structure of the districts, giving significant oversight responsibilities to developers and property owners. As a result, there is an increased risk of districts not acting in the public's best interest. State law also does not ensure adequate transparency or sufficient reporting requirements, allows excess taxation without oversight, and does not contain adequate abolishment provisions.

1.1 Districts formed and taxes imposed without public scrutiny or public protections

State law allows a CID to be formed and taxes and assessments to be imposed without adequate public scrutiny or sufficient public protections. As of December 31, 2017, the state had approximately¹¹ 428 CIDs that collected \$74.3 million in taxes and assessments from the public during calendar year 2017. Estimated project costs¹² at the time of formation provided by 396¹³ CIDs totaled more than \$2.2 billion.

A petition must be filed with the municipal clerk in order for a district to be established. State law¹⁴ requires the petition to contain certain elements, including, but not limited to:

- The legal description of the district, including a map illustrating the district boundaries.
- A 5 year plan stating the purposes of the district, the services to be provided, any improvements to be made, and an estimate of the costs to be incurred.
- The method for selecting the board.

¹¹ We do not know the exact number of CIDs in existence because there is no requirement in state law for the State Auditor's Office (SAO) to be notified upon the creation of a district. See section 1.4.

¹² Based on survey questionnaires completed by CIDs. Some districts provided the total estimated project costs while other districts provided the estimated costs for the first 5 years of the district. Therefore, the total estimated project cost is likely significantly higher than reported.

¹³ Not all CIDs returned their questionnaire to the SAO. Additionally, several that returned the questionnaire did not know the estimated project cost when the district was formed. Therefore, we do not know the estimated project costs for all 428 CIDs.

¹⁴ Section 67.1421.2(3), RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

- A statement as to whether the petitioners are seeking a blighted designation for the district.
- The proposed length of time for the existence of the district.

The municipality is required to hold a public hearing and then may adopt an ordinance to establish the district.¹⁵

Municipalities do not perform adequate scrutiny

While state law requires the approval of the municipality, there are no provisions requiring the municipality to perform an evaluation to ensure a district is in the best interest of the public before adopting the ordinance establishing it. As a result, municipalities do not always provide adequate scrutiny to ensure a district benefits the public.

According to representatives from the City of Kansas City and the City of St. Louis, their municipalities perform a review to ensure the petition contains all the elements required by state law. The representatives also indicated the petition for the district to form would be approved unless they identified statutory compliance issues. As of December 31, 2017, the City of Kansas City and the City of St. Louis were the approving municipalities for approximately 55 and 60 CIDs, respectively. Additionally, representatives from 6¹⁶ of the 12 (50 percent) municipalities¹⁷ we interviewed indicated they only ensured the petition was compliant with state law. Based on this information, the majority of districts created are not scrutinized by public officials to evaluate the merits of the district and to ensure the district benefits the public even though state law allows them to do so.

Amending state law to require municipalities evaluate the proposed district to ensure it appropriately benefits the public will provide more assurance districts created are in the best interests of the public. In the absence of a law change, municipalities must provide more critical review of district petition documents to ensure the interests of the public are considered.

State law does not require district purpose to be well defined

State law does not require district petition documents contain a well-defined purpose. While state law requires the petition to state the general purpose of the district, the estimated costs to be incurred, and the proposed length of time the district will be in existence, district petition documents do not always specifically define these parameters. As a result, districts are allowed to form with vague purposes.

¹⁵ Section 67.1421.4, RSMo.

¹⁶ City of Branson, City of Independence, City of Jefferson City, City of Kansas City, City of St. Louis, and the City of Van Buren.

¹⁷ We attempted to interview the 13 municipalities that approved the formation of the 15 CIDs selected for further review as documented in the Scope and Methodology section above; however, the City of Northwoods failed to respond to our inquiries.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

We looked at the petition documents for the 15 CIDs reviewed and determined 10¹⁸ of them (67 percent) did not have a well-defined purpose. For example, the petition documents stated the tax revenues could be used for "payment or reimbursement of any other costs or expenses permitted by the CID Act" or some other non-specific purpose.

Requiring the CID petition to better define the purpose of the district would provide better information to the municipality evaluating the merits of the district to ensure the district is in the best interest of the public.

Allowable life of districts not limited, resulting in excessive lifespans as well as perpetual districts

State law does not limit the allowable life of a CID and does not require the expected timeframe stated in the petition to be a defined period. As a result, districts typically have excessive lifespans, and in many cases have perpetual lifespans. Our survey determined the average lifespan for districts with a defined life is 31 years. In addition, the survey determined the state has 75 districts with no defined lifespan.

Requiring the CID petition to have a reasonable and defined lifespan would help the municipality reevaluate whether the district is in the best interests of the public on a periodic basis. Having a defined lifespan would also allow the municipality additional oversight opportunity and would help ensure the district was fulfilling its stated purpose. Without a defined and reasonable lifespan, excessive and unnecessary taxation can occur and CID funds would be at an increased risk of misappropriation.

Districts can be established to pay TIF liabilities

A review of established CIDs identified districts created with the sole purpose of paying down tax increment financing (TIF) liabilities, thereby ensuring the developer is repaid for TIF reimbursable costs sooner than otherwise would occur. We determined 2¹⁹ of the 15 (13 percent) CIDs reviewed are associated with a TIF. These arrangements can involve most CID revenues going toward the TIF, instead of only 50 percent like other economic activity taxes. State law already includes funding mechanisms for developers to be reimbursed for TIF projects but developers/property owner(s) are establishing CIDs to provide additional funding for TIF projects.

It is not clear if state law intended the formation of CIDs for this purpose.

No assessment of economic impact required

No estimate of the economic impact of a potential district is required prior to formation. An economic analysis of a potential district would include an analysis of the projected revenues the district would generate over time. This

¹⁸ 12th & Wyandotte CID, 2317 Belt CID, Black Mountain CID, Capital Mall CID, East Hills CID, Hope Valley CID, Miner Gateway CID, North Oaks Plaza Shopping Center CID, Park Ridge CID, and Ward Parkway Shopping Center CID.

¹⁹ Liberty Commons CID and East Hills CID.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

information would allow the municipality evaluating the petition to determine the economic activity anticipated if the CID is established. Such information is commonly required for economic development programs. For example, prior to a TIF district being approved, a developer is statutorily required to provide information pertaining to the development's potential economic impact to the community.²⁰ Similarly, at the state level, the Department of Economic Development (DED) requires the assessment of the estimated cost/benefit of proposed projects for some tax credit programs.²¹

Requiring a developer/property owner to demonstrate the estimated economic impact a potential project will generate provides assurance the investment of public monies is in the public's best interest.

No 'but for' determination required

There is no requirement that the developer/property owner(s) provide a 'but for' determination to establish a CID when the project involves a private asset. This determination is typically required to provide assurance that the project involving a private asset would not be possible 'but for' the public incentive being requested. Such a determination is required by statute to establish a TIF district,²² and is required by the DED when evaluating projects applying for state Business Use Incentives for Large Scale Development Program incentives.²³

Requiring a 'but for' determination provides the public some assurance the awarding of public incentives to a project for a private asset is necessary for the development to proceed, and helps ensure the public incentives granted are in the public's best interest.

Conclusion

State law requires municipalities to approve the petition to form a CID. However, state law does not require CID petition documents to include a well-defined purpose, does not require the lifespan of a district to be limited or specifically defined, and does not require any estimate of how much revenue will be collected or an evaluation of the merits of the district. As a result, districts are collecting an unspecified amount of taxes or assessments for undefined purposes for an unknown period of time. State law allows municipalities the flexibility to modify the structure of CIDs, including ensuring the projects are well defined, and the lifespan of the district is limited before forming the district. Municipalities can review the project to ensure the same project is not already receiving public assistance. The municipalities

²² Section 99.810.1(1), RSMo.

²³ Section 100.760(4), RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

can also perform an assessment to ensure the district benefits the public before forming the district. However, our survey results indicate municipal officials are generally not utilizing their oversight capabilities when reviewing district petitions. Once a district is formed, the municipality has limited or no recourse if the district is not structured with adequate public protections, and districts can exist and tax the public for an infinite number of years. Clarifying state law to require petition documents to include more specific language of the district's purpose and lifespan would be in the best interest of taxpayers.

1.2 Public vote not required to impose CID sales tax

State law allows sales taxes to be imposed without voter approval. During the year ending December 31, 2017, 314 CIDs received sales tax revenue totaling approximately \$57 million.

A significant portion of CID sales taxes are not approved by a vote of the public. State law requires a CID sales tax to be approved by the qualified voters of the district after approved by the district board.²⁴ However, the majority of the districts do not contain registered voters, which allows the developer/property owner to essentially impose the tax. State law allows district boundaries to be customized so as to intentionally not include registered public voters, creating "micro" taxing districts in many cases. Only 14 percent of the districts imposing a sales tax that responded to our survey had registered voters, which would require a public vote to impose a tax. The developer/property owner(s) maintain a controlling interest in the board of directors for a majority of the districts. For those districts that imposed a sales tax and responded to our inquiry, the developer/property owner has a controlling interest on the board for 234 of the 287 (82 percent) districts statewide, and for 11²⁵ of the 12 (92 percent) districts²⁶ we reviewed. As a result, the overwhelming majority of CID sales taxes are not approved by the general public, but rather by the developer/property owner(s).

Allowing developers/property owners and local governments to form special "micro" taxing districts and impose taxes without a public vote is inconsistent with how other sales taxes are imposed. Municipalities and other taxing districts are typically required by state law to put any proposed sales taxes to a public vote. A simple majority vote in favor of the tax is necessary to put it into effect.

²⁶ Sales taxes are not imposed for 3 of the 15 districts we reviewed.

Community Improvement Districts
Management Advisory Report - State Auditor's Findings

1.3 State law allows for
significant conflicts of
interest

State law allows for significant conflicts of interest to occur at CIDs. Approximately 83 percent of district boards are controlled by the developer/property owner(s). These developer controlled boards are responsible for procuring any construction work necessary, services to be performed, and oversight of other CID-related expenses. As a result, there is a significant risk of improper and related party transactions.

Boards are not required to
include anyone independent

State law does not require anyone independent of the developer/property owner(s) to be on the board of directors if no registered voters reside within the district. While state law allows the municipality to dictate the make-up of the board before the municipality forms the district, the majority of municipalities do not require independent representation prior to approving the petition. As a result, many of the district boards do not include anyone independent of the developer/property owner. Based on our survey, the developer/property owner has a controlling interest in approximately 83 percent of district boards and 62 percent of district boards do not include anyone independent of the developer/property owner. As a result, developers/property owners find themselves with conflicting interests when representing the CID board. For example, a cooperative agreement we reviewed between the developer, the city and the district²⁷ was signed by the same individual as both the Chairman of the CID Board and the developer.

Requiring someone independent of the developer/property owner(s) to be on the board of directors would provide additional assurance the district is being subjected to appropriate oversight and is acting in the best interest of the public.

Competitive procurement for
most services is not required

State law does not require CID boards to competitively procure construction contracts or the majority of the services paid for with public monies.²⁸ Since there are no requirements to ensure the independence of the CID board, there is a higher risk of developer/property owner(s) awarding construction or service contracts to themselves or other related party contractors without allowing other non-related entities to submit proposals for the contracts. We identified numerous instances of contracts being awarded or payments being made to related parties:

- The Downtown St. Louis CID did not competitively procure management services. Instead, the district paid a not-for-profit organization with representatives on the CID Board more than \$1.6 million for management services from July 2016 to June 2017. A conflict of interest exists

²⁷ Park Ridge CID.

²⁸ Sections 8.285 through 8.291 and 8.675 to 8.687, RSMo, require political subdivisions to competitively procure architectural and engineering services and construction management services; respectively.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

between the district and the not-for-profit organization since (1) the two organizations share the same President and CEO, (2) the Chair and Vice Chair of the not-for-profit organization are ex officio members of the CID Board, and (3) the Chair and Vice Chair of the CID Board are ex officio members of the not-for-profit organization's Board of Trustees. The petition filed creating the district requires the CID to contract with the not-for-profit organization for management and to staff day-to-day operations. The CID then entered into a management agreement with the not-for-profit organization allowing the organization to determine the amount of reimbursement as long as it is within the budget of the CID and records are available for the CID Board to review.

- The Independence Events Center CID²⁹ did not competitively procure administrative services and instead contracted with the City of Independence, which had a controlling interest in the Board, to administer the district. The district paid more than \$110,000 annually since 2013 for services that other districts procure for less than \$15,000 annually.
- Ward Parkway Shopping Center CID did not competitively procure construction management services worth \$1.2 million. Instead, members of the Board of Directors approved payments for these services to their employer.
- The North Oaks Plaza Shopping Center CID did not competitively procure parking lot repair services worth approximately \$85,000. The district made payments for these services to a company owned by a Board member.
- The Park Ridge CID did not competitively procure lawn and landscaping services and paid more than \$75,000 for these services in 2017. The district made payments for these services to a company owned by the Chairman of the Board.
- The Black Mountain CID Board leased land from members of the Board for 3 years at a total cost of \$31,600 for signage for a business within the boundaries of the district. The sign being leased was constructed in 2000 with no lease payments being made to the property owners/Board members until the CID payments were made from 2015 through 2018. Board members could not explain how they determined the lease rate.

Based on survey responses submitted by 396 CIDs, districts across the state are anticipating spending more than \$2.2 billion in project costs. Requiring

²⁹ The Independence Events Center CID is the largest CID in the state in terms of sales tax collection.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

competitive procurement of construction and other services would provide assurance the lowest and best bidder was selected and would be in the public's best interest. Transportation Development Districts (TDD) are already required by state law to competitively procure construction contracts in excess of \$5,000.³⁰

1.4 Inadequate transparency to the public

State law does not impose sufficient sales tax and reporting transparency requirements on CIDs. CIDs do not have to disclose the rate of the district sales tax publically at all retail locations within the CID. In addition, CIDs are not required to notify the SAO when they are formed. State law does not impose adequate reporting requirements on CIDs and there is no penalty for not filing the required reports to the public entities.

Sales taxes are not disclosed
to the public

There is no requirement in state law to notify the public of the additional sales tax imposed by a CID. As a result, taxpayers may not be aware of the additional tax they are paying to fund the district. Sales taxes are the planned source of revenues for 358 of the 411³¹ districts (87 percent) that responded to our survey.

Informing the public of the additional sales tax charged within the district would increase transparency. State law already requires the rate of a TDD sales tax to be prominently displayed at the cash register area at each retail location in the TDD.³²

Reporting requirements are
insufficient and lack
enforcement mechanisms

State law does not impose adequate notification and reporting requirements on CIDs. The law also lacks enforcement mechanisms when CIDs fail to meet statutory reporting requirements. We identified the following concerns:

- CIDs are allowed to form without notifying the SAO of their formation. The SAO has authority to audit CIDs³³ and is also required to monitor CIDs to help ensure the districts comply with the financial reporting requirements imposed on all political subdivisions.³⁴
- State law does not impose sufficient financial reporting requirements on CIDs. State law imposes some reporting requirements, including submitting (1) a proposed annual budget to the governing board of the municipality,³⁵ (2) an annual performance report to the municipal clerk

³⁰ Section 238.252(2), RSMo.

³¹ Representatives of 411 CIDs responded to our questionnaire and provided their planned source of revenue. No additional information is known for districts that did not respond.

³² Section 238.280, RSMo.

³³ Section 67.1471.5, RSMo.

³⁴ 15 CSR 40-3.030(5) and Section 105.145, RSMo.

³⁵ Section 67.1471.2, RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

of the approving municipality and the DED, and (3) an annual financial report to the SAO.³⁶ However, these reporting requirements do not include other important information, such as:

- the funding method.
 - revenues received to date.
 - reimbursable costs by type to date.
 - anticipated reimbursable costs by type.
 - unpaid reimbursable costs.
 - current estimated years until abolishment.
- State law does not have a mechanism to ensure the CIDs provide the reporting already required to the DED and the municipalities. We identified significant noncompliance with reporting requirements (see section 3.2).

Requiring CIDs to report the rate of sales tax imposed, to notify the SAO upon formation, to provide additional reporting, and adding a mechanism to state law to increase reporting compliance would increase transparency and allow the public to be better informed of these districts. Municipalities already have to report the formation of a CID to the DED³⁷ and TIF information to the Department of Revenue (DOR).³⁸ In addition, state law already imposes fines as a mechanism to ensure reporting. For example, state law effective August 28, 2017,³⁹ imposes fines to political subdivision for noncompliance with financial reporting requirements and requires those fines to be paid to local school districts.

1.5 Excess taxation without oversight

State law allows CIDs to overtax the public and remit the excess taxation to conflicted parties. Additionally, state law does not require an audit by the SAO before a district can abolish.

Excess taxation occurs and benefits conflicted parties

State law does not require a district to rescind its funding mechanism once the district expenses have been paid, resulting in excess taxation of the public. State law⁴⁰ requires the excess taxation to go towards the real property that

³⁶ 15 CSR 40-3.030(5) and Section 105.145, RSMo.

³⁷ Section 67.1421.6, RSMo.

³⁸ Section 99.865, RSMo.

³⁹ Section 105.145.9 to 105.145.11, RSMo.

⁴⁰ Section 67.1481.5, RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

was formerly part of the district and may result in conflicted parties benefiting from the excess taxation.

For example, the Eureka South I-44 CID Board was controlled by the municipality and abolished in November 2014. Prior to abolishment, the district overcharged the public by more than \$120,000. These funds were remitted to the city and placed in the Road Fund. The city-controlled district failed to rescind the sales tax and special assessment timely and as a result, the city received the excess taxation windfall from the district.

Another example involves the Kansas Battlefield CID in Springfield that satisfied its debt in March 2015. However, due to a lack of planning, the sales tax was not rescinded until January 1, 2016, which resulted in the taxpayers being over taxed by approximately \$225,000. This excess taxation resulted in a windfall to the local municipality.

Ensuring any excess taxes collected during the closeout of a CID do not go to the entity that provides oversight would help reduce the conflict of interest faced by those charged with oversight. In addition, as previously noted, fines imposed on political subdivisions for noncompliance with financial reporting requirements are to be paid to local school districts. Similarly requiring any over collections of sales tax revenue remaining after abolishment to be remitted to local school districts would remove the conflict of interest a board or local municipality may face.

Lack of oversight of abolishment

State law does not require a district to be audited by the SAO prior to abolishment. State law⁴¹ requires a district to be file a petition with the local municipality and the governing body of the municipality to adopt an ordinance in order for a district to be abolished.

Requiring a CID to be audited by the SAO prior to abolishing would provide assurance the district's assets exceed its liabilities and the board has a plan in place for the dissolution of assets. State law⁴² already requires an audit by the SAO in order for a TDD to abolish.

1.6 Lack of reporting transparency

Annual reports of statewide CID sales tax collections and distributions published by the DOR do not include taxes distributed to all districts. The DOR redacts the amount of sales tax distributed to CIDs that include less than 6 retailers. As a result, sales tax distributions for 2017 for 109 of 314 districts (35 percent), totaling approximately \$5.4 million, are redacted from publicly available DOR reports and the appendix.

⁴¹ Section 67.1481.2, RSMo.

⁴² Section 238.275.3, RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

State law⁴³ requires annual financial reports, including the amount of receipts, of every political subdivision of the state to be filed with the SAO. State law⁴⁴ also requires these financial reports to be public records. DOR officials assert Section 32.057, RSMo, supersedes this language, and the amount of money collected for CIDs with fewer than 6 businesses must be protected from disclosure to the general public so as not to disclose private taxpayer information. While the recent law change to improve financial reporting compliance of political subdivisions will improve the transparency of CIDs, this change will not resolve the DOR's interpretation of the law that results in public reports of CID distributions being redacted. To comply with DOR's reporting restrictions, some sales tax distribution amounts to individual CIDs are redacted in the appendix because the sales tax information presented in the appendix was obtained from the DOR. However, the total statewide distribution amount presented in DOR reports and our appendix includes all CID sales taxes distributed by the DOR.

Clarification to state law is necessary to ensure the completeness of the distribution reports published by the DOR, and to ensure the transparency of CID tax distributions statewide.

Recommendations

The General Assembly consider amending state law to:

- 1.1 Require municipalities to perform an evaluation of petitioned CIDs and document their results to ensure a district is in the best interest of the public before adopting an ordinance establishing it. In addition, state law should be amended to require the CID's purpose and lifespan be well-defined in the district petition documents. State law should also be amended to require an assessment of economic impact be prepared and presented and require the developer/property owner(s) provide a 'but for' determination to establish a CID when the project involves a private asset. Consideration should also be given to clarifying state law regarding establishing CIDs to repay TIF reimbursable costs.
- 1.2 Require a public vote of the citizens to impose a CID sales tax.
- 1.3 Require a representative of a public entity to be on the board of directors. Also, require CIDs to competitively procure construction contracts and other major services.
- 1.4 Require districts to notify the public of the additional sales tax imposed by a CID and require the approving municipality to notify

⁴³ Section 105.145.2, RSMo.

⁴⁴ Section 105.145.7, RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

the SAO of a district's formation. In addition, state law should impose more detailed reporting requirements on CIDs and establish a mechanism to ensure CIDs provide required reports to the state and appropriate municipality.

- 1.5 Require districts to rescind their funding mechanism(s) once obligations have been repaid and ensure excess taxation does not benefit conflicting parties. In addition, require an audit of CIDs by the SAO prior to abolishment.
- 1.6 Clarify if sales tax distribution amounts by the DOR should be available to the public.

Auditee's Response

Due to no state or local entity having oversight or management responsibilities over CIDs on a statewide basis, no management response can be obtained. The views of any applicable municipalities, or individual CID board members were obtained as appropriate and considered as part of our audit fieldwork.

2. Weaknesses Exist in Sales Tax Administration

The sales tax administration system in place at the DOR does not adequately track sales tax district boundaries, and the DOR does not have adequate procedures in place to ensure district sales taxes are correctly administered, charged, collected, and disbursed. As a result, our review of the collection and remittance of district sales taxes identified errors for 10 of the 12⁴⁵ (83 percent) districts reviewed for sales tax compliance. Most errors noted involved issues with the department's inability to accurately recognize CID boundaries. This condition was reported to the DOR in previous SAO audits of TDDs in 2017 and Sales and Use Tax procedures in 2015.⁴⁶ During the year ended December 31, 2017, the DOR disbursed \$56.9 million in sales taxes to CIDs.

When a CID enacts a sales tax the DOR requires the district to submit specific documentation to the department including, but not limited to (1) the name of the district imposing the tax; (2) percentage of tax increase; (3) a list of business names, addresses, and Missouri sales tax identification numbers of businesses located in the district, and (4) a map showing street names and district boundaries. DOR personnel will verify the information provided by the district, update the department's tax system, which includes the geographic information system (GIS), and inform the district of the effective date of the tax. The DOR makes available monthly distribution detail reports to each district. These reports provide a listing of open businesses within the

⁴⁵ Only 12 of 15 districts selected for additional review were funded by a sales tax.

⁴⁶ Report 2017-020, *Transportation Development Districts*, issued in April 2017, and report 2015-080, *Sales and Use Tax*, issued September 2015.

Community Improvement Districts
Management Advisory Report - State Auditor's Findings

district and a detailed breakdown of the CID sales tax remitted to the district by retailer.

Businesses inside the districts are not remitting CID sales taxes to the DOR In 3 of the 12 (25 percent) districts reviewed,⁴⁷ we identified a total of 4 businesses inside district boundaries charging the CID sales tax but not remitting those taxes collected to the DOR.

For example, CID taxes were collected by a business within the designated district boundaries of the Capital Mall CID. While the business charged the additional district sales tax, the business did not remit the tax to DOR.⁴⁸ Neither DOR personnel nor the sales tax system identified this business as being within the boundaries of the district, and therefore had not identified this business as being noncompliant. We confirmed with DOR personnel that this business is within the district boundaries, but they indicated the district did not provide notification this business was within the district boundaries. The CID did not elect to receive the monthly distribution reports from the DOR that would have allowed district officials to identify they were not receiving sales taxes from the business.

Businesses inside the districts are not charging the CID sales tax In 9 of the 12 (75 percent) districts reviewed,⁴⁹ we identified a total of 16 businesses within the district boundaries not charging the CID sales tax and thus did not remit such collections to the DOR.

For example, CID taxes were not being charged by a business within the designated district boundaries of the Hope Valley CID. DOR personnel indicated the business was not in their system as being inside the district boundaries because the business owners indicated on their initial sales tax application that it was not in the district. After SAO inquiries with district officials, they notified the DOR that the business should be collecting the tax. Since the DOR failed to recognize this business as being within the district boundaries, the business did not charge the additional district sales tax and did not remit the district sales tax to the DOR.

Neither DOR personnel nor the sales tax system identified that this business was within the boundaries of the district and should be charging the additional district sales tax and remitting this district sales tax to the DOR. Even though DOR personnel utilize a GIS to determine the political subdivisions a business is in, they rely upon the business and/or district to inform them of businesses within the district boundaries. CID officials were aware this

⁴⁷ Capital Mall CID, East Hills CID, and Independence Events Center CID.

⁴⁸ Follow up action to determine the status of any sales taxes collected but not remitted is beyond the scope of our audit. This matter was referred to the DOR for follow up.

⁴⁹ 76 Entertainment CID, Black Mountain CID, Capital Mall CID, East Hills CID, Hope Valley CID, Independence Events Center CID, Liberty Commons CID, North Oaks Plaza Shopping Center CID, and Ward Parkway Shopping Center CID.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

Businesses outside the districts are charging district sales tax

business was within the boundaries of the district and should have been charging the additional district sales tax; however, they failed to identify the business was not included on the monthly DOR reports that detail the breakdown of sales taxes remitted each retailer.

In 2 of the 12 (17 percent) districts reviewed,⁵⁰ we identified a total of 2 businesses not within the district boundaries charging the CID sales tax.

For example, CID taxes were collected by a business that was approximately 1 mile outside the designated district boundaries of the Miner Gateway CID. DOR personnel indicated when this business opened, the business provided the department with an address and informed them the business was within the boundaries of the district. The DOR coded the business as being within the boundaries of the district without confirming the location of the business and the district's boundaries. The business was actually outside the district boundaries and had no legal authority to collect the district sales tax based on our review of the district. The business remitted the additional district sales tax collected to the DOR and the DOR remitted the taxes to the district. Neither DOR personnel nor the department's sales tax system identified this business was not within the boundaries of the district and had no legal authority to charge the additional district sales tax. The CID was not aware this business was charging the additional district sales tax because the district chose not to receive the monthly DOR distribution reports.

In addition, a business located approximately 4 miles outside the boundaries of the Independence Events Center CID charged the CID sales tax. DOR personnel indicated they registered this business as a business within the boundaries of the district based on a sales tax return filed by the business. The business had no legal authority to collect the district sales tax based on our review of the district. Neither DOR personnel nor the department's sales tax system identified this business was not within the boundaries of the district and had no legal authority to impose the additional district sales tax.

Conclusion

The DOR imposes requirements on taxing districts, including CIDs, which are beyond what the DOR requires of cities and counties. Special taxing districts in the state are required to notify the DOR when new businesses are added, which is not required of large political subdivisions like cities and counties. DOR officials indicate the department's system is capable of identifying the applicable tax rates that should be charged by a new business in a city or county, but for smaller taxing districts, such as CIDs, the entity is responsible for monitoring for new businesses and notifying the DOR.

⁵⁰ Independence Events Center CID and Miner Gateway CID.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

State law⁵¹ requires the DOR to perform all functions incident to the administration, collection, enforcement, and operation of the district sales tax. The DOR has a fiduciary duty to the public to ensure taxes are administered correctly and to detect and prevent improper taxation.

Recommendation

The DOR implement controls to prevent or detect improper taxation.

Auditee's Response

The Missouri Department of Revenue provided the Missouri State Auditor's office (SAO) detailed financial and business location reports for twelve Community Improvement Districts (CIDs). Errors were identified for ten of the CIDs reviewed. There are approximately 795 unique businesses within those 10 CIDs. The SAO discovered issues with 22 businesses, representing a 97 percent accuracy rate. The DOR has addressed all issues contained in the report and made necessary corrections to those businesses.

In September 2017, the department began using a new Integrated Tax System which interfaces with the Sales Tax Rate Geographic Information System (STRGIS). When registrations are completed, the interface with STRGIS systematically provides department staff a rate and location code associated with the business address. This will help the department identify if the address is within a district, even when the taxpayer reports they are not within a district. In the previous tax system, at the time of registration, department employees had to perform a manual check for the address in STRGIS. In some instances this manual review did not occur, resulting in incorrect registrations. This improvement should result in greater accuracy.

The DOR continues to work closely with the Office of Administration - Information Technology Services Division to ensure accurate and timely updates are made to STRGIS. In addition, in response to House Bill 1858 passed in the most recent legislative session, the department will begin working with political subdivisions to view the addresses currently located within their boundaries.

Reports that provide a list of the open businesses registered within the district and monthly distributions from each business within the CID are available to each CID free of charge. Prior to implementation of the Integrated Tax System, political subdivisions were provided one free report per year, and charged \$35 for each subsequent report requested by the CID. The department has notified CIDs of the availability of these reports.

The department requests updates from the CIDs as new businesses are added or if their taxing boundaries change. The department also requires other political subdivisions, including cities and counties, to notify the department

⁵¹ Section 32.087.6, RSMo.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

of new businesses as a result of annexations or if they identify any discrepancies on their reports. The department's ability to provide accurate rate for each district is limited by the completeness of information provided by each CID. It is common for districts to have undeveloped areas without addresses at the time the district is formed. If the district does not provide notification of new businesses within the district, the department does not have the ability to identify specific businesses when the boundaries do not encompass the entire city or county.

Auditor's Comment

Due to incorrect boundaries in DOR's mapping system, sales tax errors were identified in 10 of the 12 (83 percent) districts reviewed, which includes 5 districts with multiple errors. Given the significant error rate found in districts reviewed as part of the audit, improper taxation is likely occurring in other special taxing districts throughout the state.

3. Noncompliance with Statutory Requirements

CIDs have routinely not complied with state laws regarding budget preparation, annual financial and performance reporting, Sunshine Law compliance, and holding an annual meeting.

3.1 Annual budgets

CIDs routinely do not comply with state laws requiring budgets be reported to municipalities, contain certain information, and be adopted timely.

Lack of transparency to
municipalities

We determined 11 of the 15 (73 percent) CIDs reviewed did not properly adopt budgets or did not properly provide those budgets to the municipality.

- Four⁵² CIDs did not prepare an annual budget for the fiscal year 2017.
- Two⁵³ CIDs prepared a fiscal year 2017 budget but failed to provide the budget to the municipality.
- Five⁵⁴ CIDs failed to submit their annual budget to the municipality within the timeframe required by state law. These CIDs submitted their fiscal year 2017 budget to the municipality between 29 to 169 days after the statutory deadline.

Section 67.010.1, RSMo, requires political subdivisions to prepare an annual budget. Section 67.1471.2, RSMo, requires CIDs to submit a proposed budget

⁵² Black Mountain CID, Hope Valley CID, Liberty Commons CID, and Miner Gateway CID.

⁵³ 12th & Wyandotte CID and North Oaks Plaza Shopping Center CID.

⁵⁴ 2317 Belt CID, BaratHaven CID, Capital Mall CID, Independence Events Center CID, and Ward Parkway Shopping Center CID.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

Budgets were incomplete

to the governing body of the municipality between 180 and 90 days prior to the first day of the fiscal year.

We determined 5 of the 9⁵⁵ (56 percent) CIDs reviewed prepared incomplete budgets.

- The budgets for 2⁵⁶ CIDs did not contain a budget message or a general budget summary.
- The budgets for 2⁵⁷ CIDs did not contain a comparative statement of actual and estimated revenues and expenditures for the preceding 2 years.
- The budget for 1⁵⁸ CID did not contain a budget message, budget summary, or contain a comparative statement of actual estimated revenues and expenditures for the preceding 2 years.

Section 67.010.1, RSMo, requires a CID board to present a budget with a complete financial plan to include a budget message describing the important features of the budget and major changes from the preceding year, comparative statement of estimated revenues and expenditures for the preceding 2 years, and a general budget summary.

Budgets were not approved timely

We determined 2⁵⁹ of the 11 (18 percent) CIDs⁶⁰ reviewed that adopted a budget did not adopt their budgets timely. Those CIDs adopted their budget at least 45 days after the statutory deadline.

Section 67.1471.3, RSMo, requires CID boards to adopt an annual budget no later than 30 days prior to the start of the CIDs fiscal year.

3.2 Annual reports

CIDs consistently failed to provide required reports to the SAO and DED.

⁵⁵ We could only review the budgets for 9 of the 15 CIDs because the Black Mountain CID, Hope Valley CID, Liberty Commons CID, and Miner Gateway CID failed to adopt a budget. The Downtown St. Louis CID and Park Ridge CID are not-for-profit established CIDs, and Section 67.010, RSMo, does not apply to not-for-profit CIDs.

⁵⁶ 12th & Wyandotte CID and North Oaks Plaza Shopping Center CID.

⁵⁷ 76 Entertainment CID and Capital Mall CID.

⁵⁸ 2317 Belt CID.

⁵⁹ Capital Mall CID and Ward Parkway Shopping Center CID.

⁶⁰ We could only review the timelines of approving budgets for 11 of the 15 CIDs because the Black Mountain CID, Hope Valley CID, Liberty Commons CID, and Miner Gateway CID failed to prepare a budget, and therefore could not adopt a budget in an annual Board meeting.

Community Improvement Districts Management Advisory Report - State Auditor's Findings

Annual financial report	For their most recent fiscal year, we determined 92 of the 403 ⁶¹ (23 percent) CIDs failed to provide an annual financial report to the SAO and 39 of the 403 (10 percent) submitted their report late.
Annual performance report	Based on DED records, the compliance rate on performance report requirements is low. For their most recent fiscal year, we determined 163 of the 430 ⁶² (38 percent) CIDs failed to provide an annual performance report to the DED and 65 of the 430 (15 percent) CIDs submitted their report after the statutory deadline. Only 202 of 430 districts (47 percent) timely filed the required performance reports with the DED.

Section 105.145, RSMo, requires all political subdivision, including CIDs, to file annual financial statements with the SAO. 15 CSR 40-03.030(5) requires a CID to submit the annual financial statements to the SAO within 6 months following the end of the fiscal year. Additionally, Section 67.1471.4, RSMo, requires a CID to submit an annual performance report to DED within 120 days after the end of the fiscal year.

3.3 Sunshine Law

We determined 3 of the 15 (20 percent) CIDs reviewed did not comply with the Sunshine Law by failing to prepare Board meeting minutes with all required information. We identified the following errors:

- Two⁶³ CIDs failed to indicate the Board members present and absent in the minutes.
- One⁶⁴ CID failed to indicate where the meeting was held in the minutes.
- One⁶⁵ CID failed to indicate the time the meeting was held in the minutes.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body, including, but not limited to, a record of any votes taken at such meetings. The minutes shall include the date, time, place, members present, members absent, and a record of any votes taken.

⁶¹ Seventeen CIDs were established as not-for-profit organizations, which are not required to submit annual financial reports. Eight CIDs were established in 2017 and did not have to submit a financial report until after our review period.

⁶² DED indicated 430 CIDs were active as of January 23, 2018.

⁶³ 2317 Belt CID and Black Mountain CID.

⁶⁴ Black Mountain CID.

⁶⁵ East Hills CID.

Community Improvement Districts
Management Advisory Report - State Auditor's Findings

3.4 Annual meetings

We determined 4⁶⁶ of the 15 (27 percent) CIDs reviewed did not hold an annual meeting during 2017.

Section 67.1471.3, RSMo, requires CID boards to hold an annual meeting.

Recommendations

CID Boards:

- 3.1 Ensure compliance with state law by adopting a budget, submitting the budget timely to the municipality, including all information in the budget required by state law, and adopting the budget by the deadline established by state law.
- 3.2 Ensure annual financial reports and performance reports are filed with the appropriate entities within the time frames established by state law.
- 3.3 Ensure meeting minutes include all the information required by the Sunshine Law.
- 3.4 Ensure compliance with state law by holding at least one meeting of the Board of Directors annually.

Auditee's Response

Due to no state or local entity having oversight or management responsibilities over CIDs on a statewide basis, no management response can be obtained. The views of any applicable municipalities, or individual CID board members were obtained as appropriate and considered as part of our audit fieldwork.

⁶⁶ Black Mountain CID, Hope Valley CID, Liberty Commons CID, and Miner Gateway CID.

R Amount redacted. The Department of Revenue (DOR) asserts that the amount of money collected for CIDs with fewer than 6 businesses must be protected from disclosure to the general public citing Section 32.057, RSMo.

X The CID did not return a completed survey.

N/A Not Applicable

(1) Information was obtained from the DOR and is on a calendar year basis.

(2) Information was obtained from entity survey information filed with the SAO.

(3) No revenues collected as of December 31, 2017.

(4) The CID reported no estimated project cost on survey information filed with the SAO.

(5) The CID reported estimated project cost only for the initial year.

(6) The CID has stopped collections.

(7) The CID revenue was not reported to the SAO for the CID's 2017 fiscal year as of June 25, 2018.

(8) The CID reported estimated project cost was for the first 5 years.

(9) The CID has been abolished/terminated.

(10) Use tax revenue amount; this amount was obtained from the DOR and is on a calendar year basis.

(11) Property tax revenue amount; this amount was obtained from the CID's 2017 financial statements and is based on the CID's fiscal year end. Fiscal year ends vary by CID.

(12) Special assessment revenue amount; this amount was obtained from the CID's 2017 financial statements and is based on the CID's fiscal year end. Fiscal year ends vary by CID.

(13) Use tax and special assessment revenue amounts; these amounts were obtained from the DOR and the CID's 2017 financial statements, which are based on the CID's fiscal year end. Fiscal year ends vary by CID.

(14) Use tax and property tax revenue amounts; these amounts were obtained from the DOR and the CID's 2017 financial statements, which are based on the CID's fiscal year end. Fiscal year ends vary by CID.

(15) Property tax, amusement sales tax, hotel/motel and restaurant/meals tax revenue amounts; all amounts were obtained from the CID's 2017 financial statements. Fiscal year ends vary by CID.

(16) Special assessment revenue amount for the 2017 calendar year. Calculated using information obtained from CID.

(17) Special assessment revenues, use tax redacted.

(18) Real property tax and special assessment revenues.

(19) The CID did not report estimated projects costs on the survey information filed with the SAO; however, the CID reported actual project costs on survey information filed with the SAO. This amount represents the actual project costs.

(20) Interest revenue, obtained from the CID's 2017 financial statements, which are based on the CID's fiscal year end. Fiscal year ends vary by CID.

(21) Rental and other revenues, obtained from the CID's 2017 financial statements, which are based on the CID's fiscal year end. Fiscal year ends vary by CID.

Office of Missouri State Auditor
Nicole Galloway, CPA

Department of Revenue
Sales and Use Tax

CITIZENS SUMMARY

Findings in the review of the Department of Revenue - Sales and Use Tax

Collection of Local Sales Taxes	The computerized mapping system administered by the Department of Revenue (DOR) to assign tax rates to local taxing jurisdictions for motor vehicle sales tax transactions does not always provide accurate information to taxpayers.
Refunds	State law does not require vendors to return sales and use tax refunds and related interest to the original purchaser when applicable, resulting in a windfall for the vendor. The General Revenue Fund does not receive reimbursement from local funds for their proportionate share of interest paid on refunds of sales and use taxes.
Other Sales and Use Tax Issues	The DOR does not adequately capture and track information regarding some sales and use tax exemptions. State laws allowing retailers to retain a portion of sales taxes collected if they remit to the DOR in a timely manner result in state and local governments forgoing significant revenues, are more generous to businesses than surrounding states, and significantly benefit the state's largest retailers. The General Assembly has not passed legislation to allow Missouri to participate in the Streamlined Sales and Use Tax Agreement, costing the state millions in potential sales tax revenue.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Joel W. Walters, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax collections, as required by Sections 32.087 and 67.525, RSMo, and in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2017, 2016, and 2015. The objectives of our audit were to:

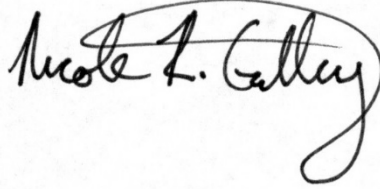

1. Evaluate the department's internal controls over significant management and financial functions.
2. Evaluate the department's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; analysis of comparative data obtained from internal sources; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Revenue, sales and use tax collections.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Department of Revenue

Sales and Use Tax

Management Advisory Report - State Auditor's Findings

1. Collection of Local Sales Taxes

The computerized mapping system administered by the Department of Revenue (DOR) to assign tax rates to local taxing jurisdictions for motor vehicle sales tax transactions does not always provide accurate information to taxpayers. As a result, the DOR cannot ensure it is collecting the correct amount of local sales taxes and fully meeting the statutory requirement for the administration, collection, enforcement, and operation of local sales taxes imposed by state law. During the year ended June 30, 2017, the DOR collected approximately \$351 million in local sales taxes from motor vehicle sales tax transactions.

Background information

When a taxpayer purchases a vehicle, the taxpayer is required to title the vehicle and pay motor vehicle state and local sales taxes at a contract license office or the central license office. These transactions are processed by license office personnel in the Titling and Registration Intranet Processing System (TRIPS). This system is linked with DOR's computerized mapping system. Based on the address of the taxpayer, the DOR's computerized mapping system assigns the address of the taxpayer a local site code in the TRIPS. This local site code identifies the applicable local sales tax rate to be charged to the taxpayer. If the mapping system is unable to provide a local site code or if the taxpayer disagrees with the recommended local site code, license office personnel are required to ask the taxpayer to identify the local tax jurisdiction in which the taxpayer lives. The license office personnel can then change the local site code for the motor vehicle sales tax transaction in the TRIPS and must provide one of the following reasons in the TRIPS to support the change:

- Tax receipt - License office personnel review the property tax receipt for county, city, and/or district taxes paid by the taxpayer.
- Letter from tax jurisdiction - License office personnel review the letter from the tax jurisdiction indicating the location of the taxpayer's address.
- None - The DOR will research if the change is appropriate.
- Other - License office personnel will enter the justification for the change (for example, contacted the county collector, verified with the county assessor, etc.)

According to DOR procedures, all local site codes in the computerized mapping system will be changed when justification has been witnessed by license office personnel or the DOR has confirmed a local site code change was appropriate. Once the change is confirmed as appropriate, department personnel forward the address to the Office of Administration - Information Technology Services Division (OA-ITSD) for entry into the department's computerized mapping system. Updating the mapping system should ensure the correct local site code and local sales tax rate are identified for any future transactions involving that address in the TRIPS.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

The state has 15 counties¹ where DOR officials acknowledge the mapping system is not sufficient for determining proper sales tax rates for addresses. Rather, the DOR uses other means to verify the local sales tax rate, such as contacting the applicable county assessor's office or reviewing online maps, to determine the local tax jurisdictions for addresses.

Incorrect local site codes

During our audits of several contract license offices conducted during 2017, we noted 3 instances where license office personnel had changed the local site code in the TRIPS on a motor vehicle sales tax transaction for an address, but the DOR had not updated the computerized mapping system to reflect the correct local site code. We discussed these transactions with DOR personnel during the license office audits and they indicated the computerized mapping system would be updated to reflect the correct local site codes. However, during this audit, we reviewed these transactions again and determined the system had not been updated.

We performed an additional review of 60 motor vehicle sales tax transactions where the local site code had been changed by license office personnel during the year ended June 30, 2017. For 43 of the 60 transactions reviewed (72 percent), local site codes had not been updated in the DOR's computerized mapping system. Common reasons for these transactions having local site code changes include: a tax receipt provided by the taxpayer; a letter from the tax jurisdiction, verification with county assessor; and the personal knowledge of license office personnel. During the year ended June 30, 2017, the DOR collected approximately \$33.8 million in local sales taxes from motor vehicle sales tax transactions for which license office personnel had changed the local site code.

System limitations

DOR personnel indicated system limitations prevented the local site codes from being updated in the computerized mapping system. For example, for some addresses, such as those in the 15 counties previously mentioned, the OA-ITSD would enter the correct local site code, but the local site code would not update because the system did not recognize the validity of the address. Therefore, the DOR eventually stopped working those addresses because it was time prohibitive and both the DOR and OA-ITSD had determined nothing could be done to update the system.

In addition, in September 2016, the DOR stopped forwarding addresses to the OA-ITSD in anticipation of implementing a new computerized mapping system and planned to restart the process once the new system was operational. The new system was implemented in September 2017, and the

¹ The counties are Benton, Camden, Cedar, Crawford, Douglas, McDonald, Madison, Maries, Miller, Ozark, Pulaski, Schuyler, Shannon, Stone, and Webster.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

DOR and OA-ITSD are currently working on how addresses need to be provided by the DOR to update the new system.

Conclusion

DOR procedures indicate all local site codes in the computerized mapping system will be changed when justification has been witnessed; however, department personnel cannot ensure they are assigning proper local sales tax rates to all taxpayers due to limitations within the system. Section 32.087.6, RSMo, requires the DOR to perform all functions incident to the administration, collection, enforcement, and operation of local sales taxes imposed by state law. Since the DOR is unable to ensure it is assigning proper local sales tax rates to all taxpayers, this statutory requirement cannot be fully met and the DOR cannot ensure the correct amount of local sales taxes are collected.

Recommendation

The DOR should ensure addresses are assigned the correct local site code in the computerized mapping system, taxpayers are charged the correct local sales tax rate, and the correct amount of local sales taxes are collected as required by state law.

Auditee's Response

The Department of Revenue's computerized system relies heavily on tax data sent by local jurisdictions; however, all taxing jurisdictions do not have robust addressing systems that pinpoint the 'exact' address in some instances. To the extent possible, the department will make changes accordingly when local site codes can be verified.

2. Refunds

Under Missouri law, vendors are not required to return sales and use tax refunds to the original purchaser when applicable, and local funds are not charged a proportionate share of interest paid on refunds of sales and use taxes.

2.1 Refunds to the original purchaser

State law does not require vendors to return sales and use tax refunds and related interest to the original purchaser when applicable, resulting in a potential windfall for the vendor. In addition, in many instances, the vendor may not be able to identify the original purchasers to whom the refunds are due, further increasing the likelihood of a windfall. The DOR distributed sales and use tax refunds, including interest, of approximately \$36 million, \$41 million, and \$27 million during fiscal years 2017, 2016, and 2015, respectively.

Vendors collect sales and use taxes from their customers and remit the taxes to the DOR. Section 144.190, RSMo, authorizes the DOR to issue sales and use tax refunds due to an overpayment of these taxes. For some refunds the vendor is the original purchaser. Other refunds are the result of vendor reporting errors, incorrect quarter-monthly filer estimates, or other circumstances in which sales and use taxes should be retained by the vendor.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

However, in many cases, the refund is the result of an over collection of tax by the vendor and the refund is due back to the original purchaser.

Section 144.190, RSMo, allows for various refunds to be issued on sales and use taxes paid to the DOR. However, this section does not state refunds must be returned to the original purchaser when the refund is the result of the original purchaser overpaying taxes due. In addition, a vendor may not be able to identify the original purchaser in some cases, such as cash transactions or other point of sale settings where purchaser name or contact information is not captured. In these situations, the vendor would be unable to forward the refund to the original purchaser and would receive the windfall refund.

The legislature partially addressed this issue in 2012 by updating Section 144.190.4, RSMo, to allow the original purchaser to submit a refund claim directly to the DOR for sales or use taxes paid to a vendor and remitted to the DOR. However, if both the vendor and the original purchaser file for the refund, the DOR will pay the refund to the first filer, and vendors are not required to distribute any refunds to the original purchasers.

Additional legislation is needed to ensure sales and use tax refunds are returned to the original purchaser. This legislation should address how the refund should be handled when the original purchasers cannot be identified.

2.2 Interest paid on refunds from local funds

The General Revenue Fund (GRF) does not receive reimbursement from local funds for its proportionate share of interest paid on refunds of sales and use taxes.

Based on the percentage of distributions to local funds to total distributions to state and local funds (exclusive of the GRF), interest payments of approximately \$21,000, \$297,000, and \$293,000 should have been allocated to local funds during fiscal years 2017, 2016, and 2015, respectively, and are due to the GRF from local funds.

Sales and use tax refunds are issued from the GRF. To reimburse the GRF, adjustments are automatically made in the DOR tax system for the principal and interest amount of the refunds due from other state funds and the principal amount of the refunds due from local funds. However, adjustments are not automatically made to local funds for the interest paid on sales and use tax refunds.

Although DOR officials previously agreed local funds should pay their proportionate share of interest paid on refunds, they have been unable to develop any alternatives for recovering this interest from local governments. In the response to our prior audit recommendation, they indicated this requirement was included in the request for proposal for a new computerized integrated tax system, with this process scheduled for implementation when

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

the sales and use tax portion of the new system was installed. However, this portion of the new system, installed in September 2017, does not currently have the capability to calculate applicable interest reimbursements to the GRF. DOR personnel indicated this requirement in the new system still needs to be developed.

Similar conditions
previously reported

Similar conditions were noted in at least our seven previous audit reports.

Recommendations

- 2.1 Continue to support legislation that would require sales and use tax refunds and related interest to be returned to the original purchaser. Such legislation should also address whether a refund should be made when the original purchaser is not known.
- 2.2 Continue to work with the vendor to ensure the new integrated system has the capability to calculate the reimbursement to the GRF for local funds' proportionate share of interest paid on sales and use tax refunds.

Auditee's Response

- 2.1 *Section 144.190.4, RSMo, allows purchasers to submit a refund claim for sales or use taxes paid to a vendor directly to the Department of Revenue. If legislation is passed that requires all refunds to be returned to the original purchaser, the department will incorporate those provisions into our refund processing procedures.*
- 2.2 *The department implemented sales and use tax in the integrated system in September 2017. The complexity related to apportioning refund interest to local government accounts prevented the department from implementing this provision prior to the September 2017 release. In addition, the amount paid in refund interest has steadily declined over the last few years and the cost of state resources needed for development and testing may outweigh the actual savings to state funds. The department logged a request with our vendor for a future review of this process.*

3. Other Sales and Use Tax Issues

Our prior audit report (No. 2015-080, *Sales and Use Tax*, issued in September 2015) included concerns and recommendations relating to sales and use tax exemptions, timely sales and use tax discounts, and internet sales. In October 2017, we issued Report No. 2017-113, *Cost of Tax Incentives and Exemptions*. That report included findings covering the issues summarized in the following sections.

Sales and use tax
exemptions

The DOR does not adequately capture and track information regarding some sales and use tax exemptions. As a result, the fiscal impact of each sales tax exemption and the cumulative fiscal impact of all sales tax exemptions on state and local revenues cannot be determined.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Findings

Timely sales and use tax discounts

State laws, allowing retailers to retain a portion of sales taxes collected if they remit the taxes to the DOR timely, result in state and local governments forgoing significant revenues, are more generous to businesses than surrounding states, and significantly benefit the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly (GA) the amount of timely sales and use tax discounts taken by businesses.

Internet sales

The GA has not passed legislation to allow Missouri to participate in the Streamlined Sales and Use Tax Agreement (SSUTA), costing the state millions in potential sales tax revenue. Implementation of the SSUTA would allow Missouri to collect a portion of online sales taxes the state is currently forgoing.²

Complete findings, recommendations, and auditee responses are contained in that report.

² On June 21, 2018, the United States Supreme Court ruled in *South Dakota v. Wayfair, Inc.*, 585 U.S. ____ (2018), that states may charge tax on purchases made from out-of-state sellers, even if the seller does not have a physical presence in the taxing state. This decision overturned *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992), which restricted state taxation of interstate commerce. The DOR is currently reviewing the recent Supreme Court ruling to determine if any administrative or legislative changes are needed in Missouri.

Department of Revenue

Sales and Use Tax

Organization and Statistical Information

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution as the central collection agency for state revenues. The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies. DOR responsibilities include:

- 1) Administering and collecting state taxes and fees, including sales and use tax, motor vehicle sales tax, and highway use tax.
- 2) Collecting certain taxes and fees for local governments, including local sales and use tax.
- 3) Titling and licensing motor vehicles, trailers, and boats.
- 4) Licensing motor vehicle operators.

The DOR consists of 3 divisions, the General Counsel's office, and the Director's office.

Motor Vehicle and Driver Licensing Division: The division consists of 3 bureaus. 1) The Motor Vehicle Bureau issues titles and registers motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft. The bureau also issues registration certificates to motor vehicle and salvage dealers and leasing companies. 2) The Driver License Bureau issues, renews, suspends, revokes, and reinstates driver and nondriver licenses and driving permits. The bureau processes and maintains records relating to license issuance, traffic violation point assessments, failure to appear in court for traffic violations, and administers the alcohol and abuse laws for alcohol/drug offenders. 3) The License Offices Bureau manages the operations of the contract license offices throughout the state. These local offices provide driver licensing and motor vehicle services and are operated by individuals or businesses approved through the state of Missouri bid process. This division collects motor vehicle sales and use taxes.

Taxation Division: This division consists of 4 bureaus which collect taxes and administer state tax law. 1) The Business Tax Bureau administers sales and use, financial institutions, insurance premiums, franchise, excise, cigarette and other tobacco products, motor fuel, corporate income, withholding, and county taxes and fees. 2) The Personal Tax Bureau administers individual income, partnership, fiduciary, and estate taxes. 3) The Collections and Tax Assistance Bureau provides tax assistance to individuals and businesses and performs appropriate procedures for unpaid tax liabilities. 4) The Field Compliance Bureau audits businesses both in-state and out-of-state to ensure compliance with Missouri's tax laws.

Administration Division: This division consists of 3 bureaus. 1) The Personnel Services Bureau is responsible for the DOR's personnel matters, forms, process improvements, administrative policies and procedures, training, and written communications. 2) The Financial Services Bureau is

Department of Revenue
State and Local Sales and Use Tax
Organization and Statistical Information

responsible for all accounting, procurement, and banking activities. 3) The General Services Bureau is responsible for coordinating space and location needs, telecommunications, safety issues, maintenance, and improvement of the work environment within the DOR.

General Counsel's Office: This office ensures DOR compliance with law and internal policies, advises the director and divisions on legal matters relative to the DOR, and represents the DOR in courts and administrative tribunals. This office consists of 2 bureaus. 1) The Criminal Tax Investigation Bureau investigates and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to sales, withholding, and income tax. 2) The Compliance and Investigation Bureau conducts investigations involving allegations of fraud relating to motor vehicle sales tax, titling and registration, odometer, and motor fuel sales tax as well as cigarette tax fraud, driver's license fraud and license plate fraud. The bureau also ensures the compliance of motor vehicle dealers, salvage businesses, and marine dealers with statutes and licensure regulations. In addition to external investigations, the bureau conducts internal audits and investigations of the DOR and contract license offices.

Director's Office: This office includes the Director, Chief Operating Officer, and key administrative staff responsible for the overall guidance and direction of the DOR. This office includes the Public Information Office and the Legislative Office. The Public Information Office develops and maintains positive media and public relations for the DOR. The Legislative Office serves as the department's liaison to the General Assembly. The office provides technical assistance, develops fiscal and revenue estimates on proposed legislation and monitors the progress of bills through the Legislature.

The Directors of Revenue from July 2014 through June 2017 include:

John R. Mollenkamp, (Acting) April 2013 to November 2014
Nia Ray, December 2014 to August 2016
John R. Mollenkamp, (Acting) August 2016 to January 2017
Dale (Wood) Miller, (Acting) January 2017 to March 2017

In April 2017, Joel W. Walters was appointed Director.

Appendix E

Department of Revenue Sales and Use Tax Description of Sales and Use Tax Funds and Accounts

Sales and use tax receipts collected from businesses, motor vehicle sales tax receipts collected from businesses and individuals, and highway use tax receipts collected on vehicles purchased outside of Missouri but titled in Missouri, are deposited into various state and local funds. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax.

For operating purposes, the Department of Revenue (DOR) has been charged with the responsibility of administering transactions in the funds and accounts listed below.

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

General Revenue Fund: This fund, authorized by Section 144.700, RSMo, receives a general 3 percent state sales and use tax. State sales tax is collected pursuant to Section 144.020, RSMo, and state use tax is collected pursuant to Section 144.610, RSMo. Retail sales of food are exempt from this 3 percent tax as defined in Section 144.014, RSMo. This fund also receives payments from common carriers in interstate air transportation, as authorized by Section 144.807, RSMo. In addition, the General Revenue Fund pays all motor vehicle sales tax refunds and receives motor vehicle sales tax collections as reimbursement from other state funds for their applicable share of the refunds.

Aviation Trust Fund: This fund, authorized by Section 144.805, RSMo, receives sales and use tax on aviation jet fuel from common carriers. These taxes are paid as a result of exemptions to General Revenue sales tax. The exemptions are a result of direct-pay agreements between common carriers and the DOR.

Conservation Commission Fund: This fund, authorized by Article IV, Section 43(a), Missouri Constitution, receives collections of the 0.125 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

State Highways and Transportation Department Fund: This fund received 75 percent of the collections from the 4 percent highway use tax during fiscal years 2013 and 2012. Effective July 5, 2013, the highway use tax was repealed and all motor vehicle transactions are now assessed a sales tax as authorized by Section 144.020, RSMo, which goes into the State Road Fund and the State Road Bond Fund. This fund continues to receive some residual highway use tax collections.

Parks Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

School District Trust Fund: This fund, authorized by Section 144.701, RSMo, receives collections from a 1 percent state sales and use tax and receives 12.5 percent of collections from the 4 percent motor vehicle sales tax. This tax is collected pursuant to Section 144.701, RSMo, and Article IV, Section 30(b)2, Missouri Constitution, respectively.

Soil and Water Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

State Road Bond Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution (Amendment 3), receives 37.5 percent of the collections from the 4 percent motor vehicle sales tax.

State Road Fund and State Transportation Fund: These funds, authorized by Article IV, Section 30(b), Missouri Constitution, receive 37.5 percent of the collections from the 4 percent motor vehicle sales tax, which is deposited 36.5 percent to the State Road Fund and 1 percent to the State Transportation Fund.

Local Funds

Actual tax proceeds for local funds are deposited into interest-bearing bank accounts until distributed. Subsequently 99 percent of the collections and earned interest are distributed to the various political subdivisions with the remaining 1 percent going to the General Revenue Fund for a collection fee, except for the Local Fuel Tax and Bond Trust Fund, which has no collection fee withheld from distributions to the fund. The DOR has sole responsibility for maintaining and disbursing fund resources for all local funds.

Local Fuel Tax and Bond Trust Fund: This fund receives 12.5 percent of the collections from the 4 percent motor vehicle sales tax, pursuant to Section 144.020, RSMo. In addition, this fund receives collections from the motor fuel tax authorized by Section 142.803, RSMo.

Local Sales and Use Tax Trust Fund:

This fund:

- Receives collections generated from local sales taxes imposed by local political subdivisions, as authorized by Chapters 66, 67, 70, 92, 94, 162, 190, 238, 321, and 644, RSMo.
- Receives collections generated by a use tax, authorized by Section 144.757, RSMo, based on the local sales tax in effect, upon all transactions subject to taxes imposed under Sections 144.600 to 144.745, RSMo, except as otherwise provided. Net taxes and interest are subsequently distributed to the counties and cities.
- Receives collections from motor vehicle sales and use tax paid under protest. Protested motor vehicle sales and use taxes and the related earned interest, are either returned to the taxpayer or remitted to the state and the appropriate political subdivisions, based upon decisions reached by the DOR, the Administrative Hearing Commission, or various courts.
- Receives collections from local sales and use taxes paid under protest. These monies are either returned to the taxpayer or remitted to the state and the appropriate political subdivisions, based upon decisions reached by the DOR, the Administrative Hearing Commission, or various courts.
- Receives collections from Web/Internet based sales and use tax filings. These collections are paid through ACH debit transactions initiated by the taxpayer through a DOR approved service provider. The DOR transfers the collections to the appropriate state and local funds after processing the corresponding sales tax returns.

- Receives unidentified sales and use tax collections when these collections are unable to post to the automated Missouri Integrated Tax System (MITS). When these collections become identifiable, they are posted to MITS and are then transferred to the appropriate sales tax funds.

Custodial Accounts

The DOR has been charged with the responsibility of administering transactions in the custodial accounts. Except for the Protested Sales Tax General Revenue Account and Sales Tax Bond Account held by the State Treasurer, actual custody of accounts' resources rests with the DOR. Collections for the custodial accounts held by the DOR are deposited in interest-bearing bank accounts.

Compliance Clearing Account: This account receives tax payments from taxpayer audits. The DOR holds these payments in this account pending final audit review. Depending on the results of the audit review, the DOR transfers the tax payment to the appropriate state and local funds or issues a refund to the taxpayer.

Motor Vehicle Clearing Account: This account receives collections from motor vehicle agent offices and the central office for various taxes and fees. These receipts are subsequently transferred to various state and local funds.

Protested Sales Tax General Revenue Account: This account receives the 3 percent General Revenue Fund portion of the state sales taxes paid under protest. These protested monies are deposited in the General Revenue Fund. However, these protested monies are reported by the DOR in this account.

Sales Tax Bond Account: The DOR receives cash bonds posted by taxpayers as authorized by Section 144.087, RSMo. All bond collections are deposited in the General Revenue Fund and reported by the DOR in this account. Cash bonds and related interest are to be refunded to the taxpayer after 1 year if the taxpayer is determined to have satisfactory tax compliance and if the bond was posted before January 1, 1984. If the bond was posted on or after January 1, 1984, the Attorney General has determined that no interest should be refunded. In the event of uncollectible sales tax liabilities, the bonds and related interest, if any, are forfeited to the DOR which subsequently distributes the monies to the state and the appropriate political subdivisions.

Office of Missouri State Auditor
Nicole Galloway, CPA

Shannon County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Shannon County

Financial Condition and Sales Tax Rollback	The General Revenue Fund is in poor financial condition, and the county has not sufficiently reduced the property tax levy to offset 50 percent of sales tax monies received resulting in approximately \$333,000 of excess property taxes collected that were not sufficiently adjusted in subsequent years.
County Collector's Controls and Procedures	The County Collector has only filed 1 annual settlement, out of the 11 required by law, since taking office in March 2007. The County Collector does not prepare bank reconciliations and lists of liabilities or maintain a running checkbook balance. Collections received by the County Collector are not disbursed timely.
Property Tax System	The County Clerk does not prepare or verify the accuracy of the current and delinquent tax books.
Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not perform documented supervisory reviews of detailed accounting and bank records. The Sheriff's office has not remitted net proceeds to the County Treasurer from the inmate commissary account for deposit into the Inmate Prisoner Detainee Security Fund, and the County Commission has not established that fund. Receipt slips were not issued for some receipts, and deposits are not always made timely or intact. The Sheriff maintains a concealed carry weapon bank account outside the county treasury. Commissary inventory records are not accurate.
Public Administrator's Annual Settlements	The Public Administrator did not include \$17,747 in paychecks received by 5 wards on their annual settlements filed during the year ending December 31, 2017.
County Boards	The Senate Bill 40 Board Treasurer does not prepare bank reconciliations. The County Commission did not hold a public hearing and approve the Senate Bill 40 or the Senior Services property tax rates. The County Commission does not appoint individuals to fill vacancies on the Senate Bill 40 Board as required by state law.
Personnel Policies, Leave Records, and Conflict of Interest	County officials do not always follow personnel policies or update the policies when related procedures change. The County Clerk does not maintain leave records for county employees and does not ensure leave is accrued in accordance with county policy. The Northern District Associate Commissioner supervises his brother, a Northern District road and bridge employee, which presents a conflict of interest.
Capital Assets	Procedures and records to account for county property are not adequate.

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	16
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Shannon County

We have audited certain operations of Shannon County in fulfillment of our duties under Section 29.230, RSMo. In addition, Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, has been engaged to audit the financial statements of Shannon County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

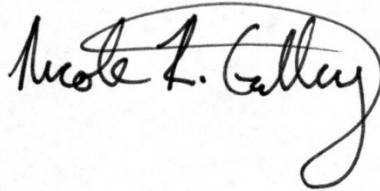

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Shannon County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

	Tori L. Brandt, MBA

Shannon County Management Advisory Report State Auditor's Findings

1. Financial Condition and Sales Tax Rollback

The General Revenue Fund is in poor financial condition, and property tax reductions were not sufficient to offset 50 percent of sales tax monies received.

1.1 Financial condition

The financial condition of the General Revenue Fund continues to be weak. Disbursements exceeded receipts in 3 of the last 4 years and, according to the 2018 budget, are projected to exceed receipts for 2018. The General Revenue Fund has significant liabilities not reflected in the cash balances shown in the county budget. As discussed in our prior audit, the General Revenue Fund owed \$139,898 to the Special Road and Bridge Fund for excess administrative transfers and incorrect payment of payroll taxes from the Special Road and Bridge Fund for non-road and bridge department employees. The General Revenue Fund still owed \$20,298 to the Special Road and Bridge Fund at December 31, 2017. The County Commission did not budget to pay any of the amount owed to the Special Road and Bridge Fund in 2018.

The following table shows the ending cash balances for the General Revenue Fund over the last 4 years and the projected ending cash balance for 2018 (as reported in the county's budget documents), the adjustments to account for the amount owed to the Special Road and Bridge Fund, and the adjusted ending cash balances.

General Revenue Fund Year Ended December 31,					
	2018 Budgeted	2017 Actual	2016 Actual	2015 Actual	2014 Actual
Ending Cash Balance	\$ 889	121,562	46,420	174,438	238,406
Amount Owed to Special Road and Bridge Fund	(20,298)	(20,298)	(57,598)	(88,748)	(139,898)
Adjusted Ending Cash Balance	\$ (19,409)	101,264	(11,178)	85,690	98,508

These cash balances do not take into account an additional liability of approximately \$333,000 caused by an insufficient reduction of the property tax levy (see section 1.2).

The County Commission and County Clerk indicated they are aware of the General Revenue Fund financial concerns. In 2017, voters rejected sales taxes for law enforcement and road maintenance.

It is essential the County Commission continue to address the condition of the General Revenue Fund both in the immediate and long-term future. To ensure the financial condition of the General Revenue Fund is improved, the County Commission should reduce spending as much as possible, evaluate controls

Shannon County
Management Advisory Report - State Auditor's Findings

and management practices to ensure efficient use of county resources, and attempt to maximize all sources of revenue.

1.2 Reduction of property tax
levy

The county has not sufficiently reduced the property tax levy to offset 50 percent of sales tax monies received resulting in excess property taxes collected that were not sufficiently adjusted in subsequent years. At December 31, 2013, the total insufficient property tax reduction was approximately \$260,000. The amount has since increased by more than \$73,000, and at December 31, 2017, the insufficient reduction was approximately \$333,000. In 2017, the County Commission elected to assess a property tax rate higher than allowed per the County Clerk's sales tax rollback calculation because the County Commission had concerns that severe flooding in early 2017 would negatively impact tourism and sales tax revenues for the county in the summer of 2017.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Shannon County voters enacted a one-half of 1 percent general sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement and in the following year calculate any excess property taxes collected based upon actual sales taxes collected. Any excess should be included as an adjustment in the next year's property tax levy calculation to ensure property taxes are reduced in the subsequent year by the amount of the excess collection.

Similar conditions
previously reported

A similar condition to section 1.1 was noted in our 3 prior audit reports. A similar condition to section 1.2 was noted in our prior audit report.

Recommendations

The County Commission:

- 1.1 Closely monitor the financial condition of the General Revenue Fund and take the necessary steps to improve the financial condition of the fund. The County Commission should also perform long-term planning and ensure receipts are maximized and disbursements are closely monitored.
- 1.2 Work with the County Clerk to reduce property tax levies for 50 percent of sales tax revenue and develop a plan to correct for the accumulation of prior years' insufficient property tax levy reductions.

Auditee's Response

- 1.1 *The County Commission will attempt passing sales tax issues in the future to address the need for additional revenues. The County Commission will budget to pay the remaining \$20,298 to the Special Road and Bridge Fund from the General Revenue Fund. Budgets will be monitored in an attempt to reduce spending as much as possible.*

Shannon County
Management Advisory Report - State Auditor's Findings

1.2 *The County Commission will attempt to reduce the property taxes if possible.*

2. County Collector's Controls and Procedures

2.1 Annual settlements

Controls and procedures in the County Collector's office need improvement. The County Collector's office collected approximately \$3.2 million in property taxes and other receipts during the year ended February 28, 2018.

The County Collector is consistently not performing one of her main responsibilities, which also violates state law. The County Collector has only filed 1 annual settlement, out of the 11 required by law, since taking office in March 2007. That annual settlement, for the year ended February 28, 2014, was prepared with guidance from the State Auditor's Office. The County Collector indicated she cannot get her monthly settlements to properly compile into an annual settlement.

Because the County Collector does not file annual settlements, the County Clerk is unable to ensure taxes charged and credited to the County Collector each year are accounted for properly, and the County Clerk and County Commission are unable to verify the County Collector's accounts.

To help ensure the validity of tax book charges, collections, and credits, and for the County Clerk and County Commission to properly verify these amounts, it is imperative the County Collector file annual settlements. Section 139.160, RSMo, requires the County Collector to annually settle with the County Commission the accounts of all monies received from taxes and other sources. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector and the County Clerk to certify the amounts to the state. Such procedures are intended to establish checks and balances related to the collection of property taxes.

2.2 Bank reconciliations and liabilities

The County Collector does not prepare bank reconciliations and lists of liabilities or maintain a running checkbook balance.

At our request in January 2018, the County Collector began reconciling her bank account to monthly collections, starting with the November 2017 collections. In March 2018, the County Collector prepared a list of liabilities as of February 28, 2018. At February 28, 2018, the reconciled bank balance was \$157,833 and known liabilities were \$147,402, resulting in an unidentified balance of \$10,431. The County Collector did not attempt to investigate differences between liabilities and the reconciled bank balance.

Without preparing monthly bank reconciliations and lists of liabilities, and maintaining cumulative book balances there is less assurance receipts and disbursements have been properly handled and recorded. In addition, accounting and bank errors may not be detected and corrected timely. Further,

Shannon County Management Advisory Report - State Auditor's Findings

without regular identification and comparison of liabilities to the reconciled bank balance, there is less likelihood errors will be identified and the ability to both identify liabilities and resolve errors is diminished. Various statutory provisions provide for the disposition of unidentified monies.

2.3 Distributions

Collections received by the County Collector are not disbursed timely. For example, monthly collections from December 2017, January 2018, and February 2018 were each distributed approximately 1.5 months after the end of the month. Collections for these months totaled approximately \$2.3 million or approximately 72 percent of total collections for the year ended February 28, 2018.

Section 139.210, RSMo, requires all collections to be distributed to the political subdivisions by the fifteenth day of the following month. In addition, timely and proper distribution of property tax collections to the political subdivisions is important because the political subdivisions rely on property tax revenues to fund operations. Further, pursuant to Section 50.380, RSMo, the County Collector may be subject to penalties for failure to timely disburse monies.

Similar conditions previously reported

A similar condition to section 2.1 was noted in our 2 prior audit reports and a similar condition to section 2.2 was noted in our 4 prior audit reports.

Recommendations

The County Collector:

- 2.1 Prepare and file annual settlements in accordance with state law. In addition, the County Commission should ensure the annual settlements are filed and are carefully and fully examined to ensure the tax book charges and credits are accurately reported.
- 2.2 Ensure monthly bank reconciliations and lists of liabilities are prepared and reconciled, and maintain cumulative book balances for the bank account. Any differences between accounting records and reconciliations should be promptly investigated and resolved. In addition, if any monies remain unidentified, the monies should be disbursed in accordance with state law.
- 2.3 Ensure monies are disbursed timely in accordance with state law.

Auditee's Response

The County Collector provided the following responses:

- 2.1 *The annual settlement for the year ended February 28, 2018, has been prepared and will be filed.*
- 2.2 *This recommendation has been implemented.*

Shannon County
Management Advisory Report - State Auditor's Findings

2.3 *Monies are now being disbursed monthly.*

The County Commission provided the following response:

2.1 *The County Commission will work with the County Collector to ensure annual settlements are filed. The County Commission will review the annual settlements to ensure the settlements report accurate information.*

3. Property Tax System

As indicated in our prior audit report, the County Clerk does not prepare or verify the accuracy of the current and delinquent tax books. The County Collector uses the property tax system to prepare the current tax books based on assessed valuations provided by the County Assessor and tax levies provided by the County Clerk. The County Clerk does not adequately review the tax books, which should include verification of individual entries in the tax books and recalculating tax book totals and charges. Failure to prepare and/or review the tax books and test individual tax statement computations may result in errors or irregularities going undetected.

Sections 137.290 and 140.050, RSMo, require the County Clerk to extend the current and delinquent tax books and charge the County Collector with the amount of taxes to be collected. If it is not feasible for the County Clerk to prepare the tax books, at a minimum, the accuracy of the tax books should be verified and approval of the tax book amounts to be charged to the County Collector should be documented.

Recommendation

The County Clerk prepare the current and delinquent tax books, or at a minimum, verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed should be documented.

Auditee's Response

The County Clerk will verify the accuracy of the tax books by having the County Collector print copies from the compact disc (CD) provided by the property tax system vendor.

4. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collects monies for civil paper service, bonds, boarding and transporting prisoners, concealed carry weapon (CCW) permits, inmate monies, and other miscellaneous receipts. The Sheriff collected approximately \$56,000 for the year ended December 31, 2017.

4.1 Segregation of duties and supervisory review

The Sheriff has not adequately segregated accounting duties and does not perform documented supervisory reviews of detailed accounting and bank records. The Sheriff's Office Administrator is responsible for receipting, recording, depositing monies, preparing disbursements, and reconciling the

Shannon County Management Advisory Report - State Auditor's Findings

bank accounts. The Sheriff indicated he reviews the monthly turnover report given to the County Treasurer; however, his reviews are not documented.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential.

4.2 Inmate commissary account

The Sheriff's office has not remitted net proceeds to the County Treasurer from the inmate commissary account for deposit into the Inmate Prisoner Detainee Security Fund, and the County Commission has not established that fund. The inmate commissary account consists of inmate monies and the net proceeds from commissary sales. The inmate commissary account balance was \$11,662 at December 31, 2017.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer.

4.3 Receipting and depositing

Controls and procedures over receipting and depositing need improvement.

- Receipt slips were not issued for \$2,911 of the \$7,476 deposited during our review of receipts and deposits in February and June 2017.
- Deposits are not always made timely or intact. For example, \$562 receipted from June 4, 2017, through July 2, 2017, was not deposited until a \$1,116 deposit was made on July 5, 2017. In addition, \$30 receipted on January 9, 2017, and \$53 receipted on January 25, 2017, was not deposited until February 6, 2017, even though a deposit of \$1,069 was made on January 30, 2017.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of monies received will go undetected.

A similar condition was noted in our prior report.

4.4 CCW bank account

The Sheriff maintains a CCW bank account outside the county treasury.

There is no statutory authority allowing the Sheriff to maintain this account outside the county treasury. Section 50.370, RSMo, requires every county official who receives any fees or other remuneration for official services to pay such monies to the County Treasurer. In addition, Attorney General's

Shannon County Management Advisory Report - State Auditor's Findings

Opinion 45-1992 (April 23, 1992) states sheriffs are not authorized to maintain a bank account for law enforcement purposes separate from the county treasury.

4.5 Commissary inventory

Commissary inventory records are not accurate. The deputy in charge of commissary items does not maintain accurate records of inventory purchased and sold, and inventory remaining on hand. We performed a test of 12 commissary items on March 5, 2018, and noted the quantity on hand did not agree to the inventory records for 5 of the items tested (42 percent).

Loss, theft, or misuse of the commissary inventory may go undetected without adequate inventory records and procedures. Detailed inventory records are necessary to adequately account for commissary inventory.

Recommendations

The Sheriff:

- 4.1 Segregate accounting duties or ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.
- 4.2 Work with the County Commission to establish an Inmate Prisoner Detainee Security Fund, and disburse net proceeds not necessary to meet cash flow needs or current operating expenses to the County Treasurer for deposit into that fund.
- 4.3 Issue receipt slips for all monies received and deposit monies timely and intact.
- 4.4 Transfer the balance of the CCW bank account to the County Treasurer and close the account.
- 4.5 Maintain accurate commissary transaction records and reconcile these records to inventory purchased and sold.

Auditee's Response

The Sheriff provided the following responses:

- 4.1 *The Sheriff has started documenting the review of the accounting and bank records.*
- 4.2 *The Sheriff will work with the County Commission to establish the Inmate Prisoner Detainee Security Fund and will disburse the net proceeds from the commissary into that fund.*
- 4.3 *This recommendation has been implemented.*

Shannon County
Management Advisory Report - State Auditor's Findings

4.4&

4.5 *The Sheriff will implement these recommendations.*

The County Commission provided the following response:

4.2 *The County Commission will establish the Inmate Prisoner Detainee Security Fund as required.*

5. Public Administrator's Annual Settlements

The Public Administrator did not include \$17,747 in paychecks received by 5 wards on their annual settlements filed during the year ending December 31, 2017. The wards' employers give the paychecks to the wards' residential facilities instead of to the Public Administrator. The Probate Clerk indicated there is no court order approving this omission from the settlement. The Public Administrator is the court appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division, and was responsible for the financial activity of 14 wards and estates during the year ended December 31, 2017.

To ensure the financial activity of the wards is accurately and completely reported to the court and to reduce the risk of loss, theft, or misuse of funds, Section 475.270, RSMo, requires the total amount of money or property on hand be reflected on the annual settlements.

Recommendation

The Public Administrator prepare annual settlements that include all financial activity, including paychecks.

Auditee's Response

This audit was based on the previous Public Administrator's annual reports. The current appointed Public Administrator has not filed annual settlements, pertaining to these 5 wards.

It has been common practice of the county to not list wages earned on the annual statements. These funds are paid directly to and used by the wards for personal spending money. These funds are reported to the Social Security Administration and the wards' benefit checks are adjusted according to income earned. The funds are also tracked by W-2s sent to the Public Administrator and are used in filing their annual tax returns by the Public Administrator.

The current Public Administrator is in the process of filing motions with the court to deem how the court wants these funds handled and reported.

6. County Boards

The Senate Bill 40 (SB40) Board does not prepare bank reconciliations, the County Commission did not hold a public hearing and approve the SB40 and Senior Services property tax rates, and the County Commission does not appoint SB40 Board members.

Shannon County
Management Advisory Report - State Auditor's Findings

6.1 SB40 Board bank reconciliations

The SB40 Board Treasurer does not prepare bank reconciliations. At December 31, 2017, the bank account balance was \$184,182 and the book balance was \$182,917, resulting in a difference of \$1,265. This difference was caused by 3 items that had not been recorded in the check register. One item was a \$600 check voided in October 2017, the second item was a \$487 deposit that cleared on December 19, 2017, and the third item was \$178 in monthly interest earned on the bank account during 2017. The Board Treasurer was unaware of these issues until we brought them to her attention in March 2018.

Performing adequate monthly bank reconciliations helps ensure records are accurate and increases the likelihood errors will be identified. Regular reconciliation of the ending bank balance to the ending book balance is necessary to ensure records are in balance.

6.2 Tax rates

The County Commission did not hold a public hearing and approve the SB40 or the Senior Services property tax rates. The property tax rates were approved by the SB40 Board and Senior Citizens' Service Board, respectively; however, these boards do not have the legal authority to set the property tax rates.

Section 137.055, RSMo, states the county governing body shall hold a public hearing prior to approving the tax rates of the county. In addition, the Missouri Supreme Court issued an opinion in the case of *State ex rel. Indus. Services Contractors, Inc. v. County Comm'n of Johnson County*, 918 S.W.2d 252 (Mo. Banc 1996), that there is no statutory authority allowing Senate Bill 40 Boards to set the property tax levy.

6.3 Appointment of SB40 Board members

The County Commission does not appoint individuals to fill vacancies on the SB40 Board as required by state law. Appointments are made by the SB40 Board. The County Commission indicated it was unaware the SB40 Board was appointing its own members.

Section 205.970, RSMo, states that the SB40 Board Chairman shall report vacancies to the County Commission and the vacancies shall be filled by appointments made by the governing body of the county.

Recommendations

- 6.1 The Senate Bill 40 Board ensure the Board Treasurer performs bank reconciliations monthly. Any differences between accounting records and reconciliations should be promptly investigated and resolved.
- 6.2 The County Commission approve the Senate Bill 40 and Senior Services property tax rates in accordance with state law.
- 6.3 The County Commission appoint the Senate Bill 40 Board members in accordance with state law.

Shannon County
Management Advisory Report - State Auditor's Findings

Auditee's Response

The Senate Bill 40 Board provided the following response:

- 6.1 *The Senate Bill 40 Board Treasurer will perform and record monthly bank reconciliations, and retain records indicating that the reconciliations were completed.*

The County Commission provided the following responses:

- 6.2 *The County Commission will include the SB40 Board and Senior Services property tax rates during the county public hearing.*
- 6.3 *The County Commission will appoint SB40 Board members as recommended.*

7. Personnel Policies, Leave Records, and Conflict of Interest

Personnel policies and leave records need improvement, and there is a conflict of interest between the Northern District Associate Commissioner and a road and bridge department employee.

7.1 Personnel policies

County officials do not always follow personnel policies or update the policies when related procedures change. The personnel policies also do not address several key issues.

- County employees are given all their annual leave for the year on January 1, instead of at a monthly rate as allowed by the related personnel policy. We could not find approval of this policy change in the County Commission minutes; however, the County Clerk indicated this change was approved by the County Commission.
- The personnel policies do not address key issues such as work schedules, overtime, and conflicts of interest and related parties (see section 7.3).

Compliance with county policy is necessary to limit any potential liability for annual leave not properly earned and ensures county employees are credited with the leave they have earned. Personnel policies should be updated to provide guidance to county employees, provide a basis for proper compensation, and avoid misunderstandings.

7.2 Leave records

The County Clerk does not maintain leave records for county employees and does not ensure leave is accrued in accordance with county policy. The County Clerk's office also does not review the leave balances of the Sheriff's office and Southern District road and bridge employees for accuracy and compliance with county policy even though those offices provide leave information to the County Clerk.

Shannon County
Management Advisory Report - State Auditor's Findings

Without centralized leave records, the County Commission cannot ensure employees' vacation, sick, and compensatory leave balances are accurate and in compliance with county policy. Centralized records also limit potential disputes over amounts owed when an employee stops working for the county, and help demonstrate compliance with the Fair Labor Standards Act.

7.3 Conflict of interest

The Northern District Associate Commissioner supervises his brother, a Northern District road and bridge employee, which presents a conflict of interest. The Associate Commissioner reviews and approves his brother's timesheet.

To avoid the appearance of a conflict of interest, the County Commission should consider having someone independent review the timesheet of the Northern District Associate Commissioner's brother.

Recommendations

- 7.1 The County Commission and the County Clerk ensure compliance with county personnel policies and revise the personnel policies to be more comprehensive and to reflect changes in current procedures.
- 7.2 The County Clerk maintain leave records for all county employees.
- 7.3 The County Commission avoid the appearance of a conflict of interest by not allowing the Northern District Associate Commissioner to approve his brother's timesheet.

Auditee's Response

The County Commission provided the following responses:

- 7.1 *The County Commission and County Clerk will update the personnel policies.*
- 7.3 *All road employees have knowledge of the hours worked by the Northern Road District Associate Commissioner's brother. No other supervisor would have knowledge of the timesheets for the road and bridge department.*

The County Clerk provided the following responses:

- 7.1 *The County Commission and County Clerk will update the personnel policies.*
- 7.2 *County leave hours will be maintained through the payroll system.*

8. Capital Assets

Procedures and records to account for county property are not adequate. The County Clerk did not request annual physical inventory lists from county officials and those officials have not conducted annual physical inventories or provided inventory lists to the County Clerk as required. In addition, the

Shannon County
Management Advisory Report - State Auditor's Findings

county does not have adequate procedures in place to identify capital asset purchases and dispositions throughout the year, or ensure assets are tagged, identifying them as county property. As a result, the county's capital asset records are not complete and up to date.

Adequate capital asset records and procedures are necessary to ensure effective internal controls, meet statutory requirements, and provide a basis for determining proper insurance coverage. Procedures to track capital asset purchases and dispositions throughout the year and compare to physical inventory results would enhance the county's ability to account for capital assets and potentially identify unrecorded additions and dispositions, identify obsolete assets, and deter and detect theft of assets. In addition, property control tags should be affixed to all property items to help improve accountability and ensure assets are properly identified as belonging to the county. Section 49.093, RSMo, provides that the officer or designee of each county department is responsible for performing annual inspections and inventories of county property used by his/her department and for submitting an inventory report to the County Clerk.

A similar condition was noted in our 4 prior audit reports. Although the County Commission indicated in the prior audit reports it would implement the recommendations, no action has been taken.

Recommendation

The County Commission and the County Clerk work with other county officials to perform annual inventories as required by law, ensure complete and accurate inventory records are maintained, implement procedures for tracking capital asset purchases and dispositions throughout the year, and ensure assets are tagged as county property.

Auditee's Response

The County Commission and County Clerk will implement a program to tag and track capital assets.

Shannon County

Organization and Statistical Information

Shannon County is a county-organized, third-class county. The county seat is Eminence.

Shannon County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 25 full-time employees and 9 part-time employees on December 31, 2017.

In addition, county operations include the Senate Bill 40 Board and the Senior Citizens' Service Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Jeff Cowen, Presiding Commissioner	\$	24,440
Dale Counts, Associate Commissioner		22,440
Herman Kelly, Associate Commissioner		22,440
Melany Williams, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Shelly McAfee, County Clerk		34,000
Jodie R. Brumble, Prosecuting Attorney		41,000
Darrin W. Brawley, Sheriff		39,000
Michelle Shedd, County Treasurer		34,000
Tim Denton, County Coroner		9,500
Teresa Acord, Public Administrator (2)		6,250
Matt Derryberry, Public Administrator (2)		9,375
Susie Needels, County Collector (3), year ended February 28,	34,829	
Jimile J. Voyles, County Assessor, year ended August 31,		32,299

- (1) Compensation is paid by the state.
- (2) Matt Derryberry resigned as Public Administrator in July 2017. Teresa Acord was appointed as Public Administrator in August 2017.
- (3) Includes \$829 of commissions earned for collecting city property taxes.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Gasconade County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Gasconade County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Gasconade, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Gasconade ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 14, 2018, on our consideration of the County of Gasconade’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Gasconade’s internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Gasconade, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1820 by an Act of the Missouri Territory. In addition to the three Commissioners, there are 10 elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, County Surveyor, Circuit Clerk/Recorder of Deeds, Sheriff, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Gasconade County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The financial statements do not include financial data for the County's legally separate component unit, in accordance with accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, the Gasconade County Senate Bill 40 Board has issued separate reporting entity audited financial statements.

The County is also responsible for appointing a majority of the members of the board of the Community Mental Health Services Board but the County's accountability for this organization does not extend beyond making appointments.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes (concluded)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2017 and 2016, for purposes of taxation, was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 157,977,730	\$ 155,400,590
Personal Property	51,379,989	50,415,064
Railroad and Utilities	<u>26,506,445</u>	<u>26,983,160</u>
	<u>\$ 235,864,164</u>	<u>\$ 232,798,814</u>

During 2017 and 2016, the County Commission approved a \$0.4219 and \$0.4278 tax levy, respectively, per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.1556	\$ 0.1615
Special Road and Bridge Fund	<u>0.2663</u>	<u>0.2663</u>
	<u>\$ 0.4219</u>	<u>\$ 0.4278</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting. Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amount of the County's deposits and investments was \$2,087,559.46 and \$2,155,175.37, and the bank balance was \$10,605,598.46 and \$9,697,521.32, respectively. The total bank balance as of December 31, 2017, and December 31, 2016, was insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash Balances</u>	
Deposits and cash equivalents	\$ 2,087,559.46
Total Governmental Funds	<u>2,087,559.46</u>
<u>Statement of Assets and Liabilities Arising from Cash Transactions –</u>	
<u>Agency Funds:</u>	
Deposits	<u>101,799.96</u>
Total Agency Funds	<u>101,799.96</u>
Total Deposits as of December 31, 2017	<u>\$ 2,189,359.42</u>

The carrying values of deposits shown above are included in the financial statements at December 31, 2016, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash Balances</u>	
Deposits and cash equivalents	\$ 2,155,175.37
Total Governmental Funds	<u>2,155,175.37</u>
<u>Statement of Assets and Liabilities Arising from Cash Transactions –</u>	
<u>Agency Funds:</u>	
Deposits	<u>57,269.06</u>
Total Agency Funds	<u>57,269.06</u>
Total Deposits as of December 31, 2016	<u>\$ 2,212,444.43</u>

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2017, and 2016.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2017, and 2016.

III. LONG-TERM DEBT

Capital Leases

On May 17, 2016, the County entered into a lease purchase agreement with Ally Auto Commercial Services Group to finance the purchase of three Dodge Durangos. The total cost was \$86,934 with 12 consecutive quarterly payments of \$7,866.74 and an interest rate of 6.14%. The maturity date is February 17, 2019. These payments are made out of the General Revenue Fund.

On May 16, 2013, the County entered into a lease purchase agreement with Ford Motor Credit for one 2013 Ford Police Interceptor Utility and one 2013 Ford Escape. The total cost was \$50,893 with 12 consecutive quarterly payments of \$4,644.10 and an interest rate of 5.70%. The maturity date is May 16, 2016. These payments are made out of the Sheriff's Law Enforcement Civil Fee Fund.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT (continued)

Capital Leases (concluded)

On September 22, 2014, the County entered into a lease purchase agreement with Ally Bank for four 2014 Dodge Durango vehicles. The total cost was \$109,930 with 36 consecutive monthly payments of \$3,267.14 and an interest rate of 4.44%. Additional principal was added due to the County delaying the first interest payments of \$976. The maturity date is November 22, 2017. The initial payment was made out of the Sheriff's Law Enforcement Civil Fee Fund, and the future payments will be made out of the General Revenue Fund.

As of December 31, 2017, the payment for the capital leases of the County is as follows:

Capital Leases	Balance 12/31/16	Additions	Payments	Balance 12/31/17	Interest Paid
4 Dodge Durango Vehicles	\$ 36,023.08	\$ -	\$36,023.08	\$ -	\$ 821.30
3 Dodge Durango Vehicles	65,659.02		28,073.70	37,585.32	3,393.26
	<u>\$101,682.10</u>	<u>\$ -</u>	<u>\$64,096.78</u>	<u>\$37,585.32</u>	<u>\$ 4,214.56</u>

The future payment for the capital leases as of December 31, 2017, are as follows:

Year Ending December 31,	Interest	Principal	Total
2018	\$ 1,629.45	\$29,837.51	\$ 31,466.96
2019	118.93	7,747.81	7,866.74
	<u>\$ 1,748.38</u>	<u>\$37,585.32</u>	<u>\$ 39,333.70</u>

As of December 31, 2016, the payment for the capital leases of the County is as follows:

Capital Leases	Balance 12/31/15	Additions	Payments	Balance 12/31/16	Interest Paid
1-2013 Ford Police Interceptor & 1-2013 Escape	\$ 9,093.36	\$ -	\$ 9,093.36	\$ -	\$ 194.83
4 Dodge Durango Vehicles	72,740.30	-	36,717.22	36,023.08	1,485.24
3 Dodge Durango Vehicles	-	86,934.00	21,274.98	65,659.02	2,325.24
	<u>\$81,833.66</u>	<u>\$ 86,934.00</u>	<u>\$67,085.56</u>	<u>\$101,682.10</u>	<u>\$ 4,005.31</u>

The future payment for the capital leases as of December 31, 2016, are as follows:

Year Ending December 31,	Interest	Principal	Total
2017	\$ 4,214.56	\$ 64,096.78	\$ 68,311.34
2018	1,629.45	29,837.51	31,466.96
2019	118.93	7,747.81	7,866.74
	<u>\$ 5,962.94</u>	<u>\$101,682.10</u>	<u>\$ 107,645.04</u>

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT (continued)

On November 14, 2012, the County entered into a promissory note with Missouri Department of Natural Resources in the amount of \$17,298.27 with 0% interest and a maturity date of August 1, 2020. The funds are to be used to implement Energy Conservation Measures. These payments are made out of the General Revenue Fund.

The change in long-term debt obligations for the year ended December 31, 2017, is as follows:

Promissory Note	Balance 12/31/16	Additions	Payments	Balance 12/31/17	Interest Paid
MO DNR Loan	\$ 8,210.27	\$ -	\$ 2,272.00	\$ 5,938.27	\$ -
	<u>\$ 8,210.27</u>	<u>\$ -</u>	<u>\$ 2,272.00</u>	<u>\$ 5,938.27</u>	<u>\$ -</u>

As of December 31, 2017, the schedule of future payments for the promissory note of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2018	\$ -	\$ 2,272.00	\$ 2,272.00
2019	-	2,272.00	2,272.00
2020	-	1,394.27	1,394.27
	<u>\$ -</u>	<u>\$ 5,938.27</u>	<u>\$ 5,938.27</u>

The change in long-term debt obligations for the year ended December 31, 2016, is as follows:

Promissory Note	Balance 12/31/15	Additions	Payments	Balance 12/31/16	Interest Paid
MO DNR Loan	\$ 10,482.27	\$ -	\$ 2,272.00	\$ 8,210.27	\$ -
	<u>\$ 10,482.27</u>	<u>\$ -</u>	<u>\$ 2,272.00</u>	<u>\$ 8,210.27</u>	<u>\$ -</u>

As of December 31, 2016, the schedule of future payments for the promissory note of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2017	\$ -	\$ 2,272.00	\$ 2,272.00
2018	-	2,272.00	2,272.00
2019	-	2,272.00	2,272.00
2020	-	1,394.27	1,394.27
	<u>\$ -</u>	<u>\$ 8,210.27</u>	<u>\$ 8,210.27</u>

Line of Credit

On September 14, 2017, the County entered into a line of credit with Peoples Savings Bank of Rhineland in the amount of \$488,000.00, with a 2% interest rate and a maturity of February 1, 2018. The funds are to be used to replace the roof on the County Courthouse. These payments are made out of the General Revenue Fund.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT (concluded)

Line of Credit (concluded)

The change in long-term debt obligations for the year ended December 31, 2017, is as follows:

Promissory Note	Balance 12/31/16	Additions	Payments	Balance 12/31/17	Interest Paid
Line of Credit	\$ -	\$488,000.00	\$ -	\$488,000.00	\$ -
	<u>\$ -</u>	<u>\$488,000.00</u>	<u>\$ -</u>	<u>\$488,000.00</u>	<u>\$ -</u>

As of December 31, 2017, the schedule of future payments for the line of credit of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2018	\$ 1,907.53	\$488,000.00	\$ 489,907.53
	<u>\$ 1,907.53</u>	<u>\$488,000.00</u>	<u>\$ 489,907.53</u>

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2017, and 2016 are as follows:

	2017		2016	
	TRANSFERS IN	TRANSFERS OUT	TRANSFERS IN	TRANSFERS OUT
General Revenue Fund	\$ 106,268.50	\$ -	\$ 99,003.71	\$ -
Special Road and Bridge Fund	-	100,713.03		95,063.89
Union Electric SOP Fund	-	5,555.47		3,939.82
TOTAL	<u>\$ 106,268.50</u>	<u>\$ 106,268.50</u>	<u>\$ 99,003.71</u>	<u>\$ 99,003.71</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs.

Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to have contributions of 4% made by the County if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2017 and 2016, the County collected and remitted to CERF, employee contributions of \$32,535.08 and \$30,039.46, respectively, for the years then ended.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Gasconade County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Gasconade County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

	<u>2017 Valuation</u>
Benefit Multiplier:	1.50%
Final Average Salary:	5 Years
Member Contributions:	0%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	32	13
Inactive employees entitled to but not yet receiving benefits	12	22
Active employees	32	8
	<u>76</u>	<u>43</u>

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of Gasconade County do not contribute to the pension plan. Employer contribution rates are 4.8% (General) and 3.2% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2017.

Actuarial Assumptions

The total pension liability in the February 28, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

Mortality rates were based on the RP-2014 Healthy Annuitant mortality tables, for males and females.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	43.00%	5.29%
Fixed Income	26.00%	2.23%
Real Assets	21.00%	3.31%
Strategic Assets	10.00%	5.73%

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Changes in the Net Pension Liability

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2017.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2018	\$ 141,915	\$ (7,976)
2019	134,750	1,470
2020	35,190	2,549
2021	(53,057)	(13,267)
2022	-	-
Thereafter	-	-
Total	<u>\$ 258,798</u>	<u>\$ (17,224)</u>

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$2,618, respectively, for the years ended December 31, 2017, and 2016.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were two participants at December 31, 2017, contributing a total of \$1,567.44 in fees and no participants at December 31, 2016.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County was involved in pending litigation as of the audit report date. The County's attorneys are vigorously defending the County in these matters. County management believes that such litigation and claims will ultimately be resolved without material financial liability, if any, to the County.

B. Compensated Absences (Vacation and Sick Time)

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. This ranges from getting two weeks after the first year of service. Upon termination from county employment, an employee is reimbursed for unused vacation and overtime, if applicable. All regular full-time employees, working 30

IX. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

B. Compensated Absences (Vacation and Sick Time) (concluded)

hours a week or more, in the County earn four hours of sick leave for each calendar month of employment. Sick leave for new and terminated full time employees is prorated based on when the employee starts or terminates employment during the month. The employee receives one hour of sick leave for each week worked the first and last month of employment. Upon termination from county employment, an employee is reimbursed for unused sick leave, if applicable.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

Subsequent to the year end, the County made one payment on February 1, 2018, on its line of credit with Peoples Savings Bank of Rhineland in the amount of \$26,144.87, of which \$24,237.34 was applied to principal and \$1,907.53 was applied to interest. On February 5, 2018, the line of credit was renewed in the amount of \$463,600 with a 2% interest rate and a maturity of February 1, 2019.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Gasconade, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Gasconade ("County"), Missouri which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 14, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2017-001, 2017-002, 2017-003 and 2014-004)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

June 14, 2018

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

II. FINANCIAL STATEMENT FINDINGS

2017-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Lesa Lietzow) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (573) 486-5427.

2017-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

II. FINANCIAL STATEMENT FINDINGS (continued)

2017-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Lesa Lietzow) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (573) 486-5427.

2017-003 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the offices of the Collector and Treasurer.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The Collector's and Treasurer's offices will continue to be monitored and additional personnel will be added when possible. The Collector and Treasurer's offices undergo regularly scheduled audits through state and private firms, along with crosschecks and monitoring monthly and yearly with County Clerk's Office. The County Collector is Shawn Schlottach and her office phone number is (573) 486-2711, and the County Treasurer Mike Feagan and his office phone number is (573) 486-2411.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

II. FINANCIAL STATEMENT FINDINGS (concluded)

2017-004 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit we noted that the previous Sheriff had held a secret bank account that had not been brought to the attention of the Commissioners, Clerk, or Treasurer of the County. This bank account allegedly had state funds and other funds run through it and that when the previous Sheriff left office the bank account was allegedly closed out without the money being turned over to the County.

Context: During discussions with management, we noted there was a secret bank account that was not monitored by the Commission, Clerk or Treasurer's office. This was a practice of the previous Sheriff and the current Sheriff reported his findings to the FBI and has subsequently turned items over to the State Auditor's office.

Effect: Lack of internal control systems over this account could result in fraudulent purchases and bank overdrafts.

Cause: Previous management had not implemented an internal control system over this secret bank account and failed to include the funds amongst the records of the County.

Recommendation: We recommend that the County and the current Sheriff place internal controls over the purchases the Sheriff's office makes through any of the accounts.

Views of responsible officials and planned corrective actions: The current Sheriff's (John Romanus) office has never had control over this account and has turned over all of his findings along with findings from the FBI to the State Auditor's office. The phone number for the current Sheriff's office is 573-486-3693.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There was no audit performed for the fiscal year ending December 31, 2015, therefore we have no prior year audit findings to report.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

June 14, 2018

To the County Commissioners
The County of Gasconade, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Gasconade (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards
- III. Management Comments

The County's management has provided a written response to the findings in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2017-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Lesa Lietzow) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (573) 486-5427.

2017-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

- 2017-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.
- Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.
- Views of responsible officials and planned corrective actions: The County Clerk's Office (Lesa Lietzow) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. - Condition: Lack of sufficient segregation of duties within the offices of the Collector and Treasurer.
- Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.
- Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.
- Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.
- Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.
- Views of responsible officials and planned corrective actions: The Collector's and Treasurer's offices will continue to be monitored and additional personnel will be added when possible. The Collector and Treasurer's offices undergo regularly scheduled audits through state and private firms, along with crosschecks and monitoring monthly and yearly with County Clerk's Office. The County Collector is Shawn Schlottach and her office phone number is (573) 486-2711, and the County Treasurer Mike Feagan and his office phone number is (573) 486-2411.
- 2017-004 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

2017-004 Condition: During our audit we noted that the previous Sheriff had held a secret bank account that had not been brought to the attention of the Commissioners, Clerk, or Treasurer of the County. This bank account allegedly had state funds and other funds run through it and that when the previous Sheriff left office the bank account was allegedly closed out without the money being turned over to the County.

Context: During discussions with management, we noted there was a secret bank account that was not monitored by the Commission, Clerk or Treasurer's office. This was a practice of the previous Sheriff and the current Sheriff reported his findings to the FBI and has subsequently turned items over to the State Auditor's office.

Effect: Lack of internal control systems over this account could result in fraudulent purchases and bank overdrafts.

Cause: Previous management had not implemented an internal control system over this secret bank account and failed to include the funds amongst the records of the County.

Recommendation: We recommend that the County and the current Sheriff place internal controls over the purchases the Sheriff's office makes through any of the accounts.

Views of responsible officials and planned corrective actions: The current Sheriff's (John Romanus) office has never had control over this account and has turned over all of his findings along with findings from the FBI to the State Auditor's office. The phone number for the current Sheriff's office is 573-486-3693.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 24, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 and 2016 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 14, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

III. MANAGEMENT COMMENTS

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the Commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

4. Receipt Controls	11

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Supply Commissioner
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2008-60, *City of St. Louis, Supply Division*, issued in September 2008, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our ongoing audit of the Supply Division. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Supply Division that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in April 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Supply Division

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Emergency Purchases

Finding Number: 1.A.

Finding: Items purchased as emergency items did not appear to meet the city's definition of an emergency.

Recommendation: The Supply Division work with the Comptroller's office to ensure only emergency purchases that meet the definition of an emergency are approved. In addition, the Supply Division should work with the Mayor and the Board of Aldermen to determine if disciplinary action can be taken against city departments that abuse emergency purchasing procedures.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Since Pamela Kuehling's arrival as Supply Commissioner on September 5, 2017, an explanatory template was created in October to demonstrate when to use which option from the purchasing pathways. The definition of an emergency is copied directly from the charter onto that page. It details when and how to properly use an Emergency Requisition versus other options. A copy of the new Emergency Rules Template can be found in Exhibit D of the Supply Division Policies and Procedures Manual.

In fiscal year (FY) 2017 there were 246 emergency requisitions. In FY 2018 (as of date of this submission) there have been 107 emergency requisitions. This is an estimated annualized reduction of 42 percent.

In all conversations with departments asking to use Emergency Purchases, the Supply Commissioner or Deputy Supply Commissioner verifies the reason for the emergency before signing any paperwork. Some Emergency Requisitions were previously signed "under protest" as the purchases had already been made, and the vendor had to be paid. Several have been rejected in the last 6 months.

Departments were put on notice by Pamela Kuehling and Kerrie Brown (Comptroller's office) that emergency requisitions would be heavily scrutinized going forward.

The Commissioner and Deputy Commissioner have been holding training classes for various departments including the Equipment Services Division, Traffic, Streets, Health, the Assessor's office, Parks, and the St. Louis Agency on Training and Employment. The classes are aimed at how to avoid emergencies and use the purchasing options in the most cost effective manner.

Discipline has been requested by the Supply Commissioner and handed out to at least one department individual responsible for several "unnecessary" emergency requests. Word has spread about the new enforcement of the rules.

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

The Board of Aldermen has not had to be involved at this time. If needed, we will invite their participation in the discussion.

Contact Person: Pamela Kuehling
Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Emergency Purchases

Finding Number: 1.B.

Finding: Items purchased as emergency items did not have an adequately documented justification of the emergency nature of the purchase.

Recommendation: The Supply Division work with the Comptroller's office to ensure all emergency purchases include adequate documentation to justify the emergency.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

For Emergency Requisitions under \$5,000, there is now a form (updated January 31, 2014) filled out and reasons for the emergency purchase are documented. Additional sheets are often used. If the Deputy Supply Commissioner or Supply Commissioner is unsatisfied with the level of documentation, either more is requested or the purchase is denied.

For Emergency Requisitions over \$5,000, the purchase and request to waive advertising requires approval from the Board of Standardization. If any member of the Board of Standardization is unsatisfied with the documentation for any reason, they will not sign and the emergency purchase will not be approved.

Contact Person: Pamela Kuehling

Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title:	Emergency Purchases
Finding Number:	1.C.
Finding:	Items purchased included invoices with dates prior to the creation and approval of the emergency requisition forms.
Recommendation:	The Supply Division work with the Comptroller's office to ensure all emergency purchases are approved prior to initiating the actual purchase, or the reason for initiating the purchase prior to approval is adequately documented.
Status of Finding:	Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

There is no guarantee that an emergency will happen during working hours. If an emergency need is identified at night or on a weekend, the City Charter says that purchases can occur based on the definition of an emergency. The Supply Division follows all city policies and procedures in terms of the approval processes.

Emergencies during the day are handled as recommended. Emergencies occurring during nights or weekends are difficult to comply with due to the City Charter definition. Many of the evening/weekend emergencies do comply, but some cannot (i.e., parts for major water main break, snow blower part needed for runway at airport when it is snowing, etc.). Departments are more aware of the potential for rejection if processes and procedures are not followed.

During Supply Division training, we encourage all departments to follow the recommendations at night and on weekends if possible, but in a true emergency it may not be possible or in the best interests of the citizens of the City of St. Louis to delay service.

Proper documentation is always required.

Contact Person: Pamela Kuehling
Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Emergency Purchases

Finding Number: 1.D.

Finding: Emergency purchases were not bid as required. In addition, purchases did not have letters requesting waiver of advertising of bids.

Recommendation: The Supply Division work with the Comptroller's office to ensure two or three vendor letterhead price quotes are received for all emergency purchases, and letters to waive advertising for bids are received for applicable emergency purchases over \$5,000. If there are valid reasons for not following applicable city policies for such purchases, these reasons should be fully documented.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Please see the answer above relating to bidding. Waiver of advertising request letters are now required before paperwork is processed.

Contact Person: Pamela Kuehling
Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Contract Pricing

Finding Number: 2.A.

Finding: Invoices for some contract purchases included charges for items that were not bid and did not agree to the applicable contracted bid prices.

Recommendation: The Supply Division ensure invoice prices correspond to contract prices before processing the purchasing order in the accounting system.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Before processing the "Invoices Attached" invoice in the city's accounting system, the Account Clerk II locates the contract and verifies that the item is invoiced at the contracted price. If the price is correct, she turns the requisition into a purchase order in the accounting system.

If the invoice price is not correct, the Account Clerk II reports the problem to the Buyer or the Deputy Supply Commissioner for correction. The Buyer contacts the department and/or the vendor to get further information until the situation is rectified. A Rejection Notice form is used to notify the department what is wrong with the invoice so the department can more accurately respond. Although this sometimes causes delays in payments, the prudent use of the city's funds makes it the best practice.

Contact Person: Pamela Kuehling

Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Contract Pricing

Finding Number: 2.B.

Finding: Some invoices did not provide specific pricing information to allow invoices to be verified with contracts for accuracy.

Recommendation: The Supply Division ensure invoices include sufficiently detailed information, such as per unit rates, to allow adequate comparison of the invoice prices to the contract prices.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Forms and checklists have been updated to ensure that invoice prices can be matched with contract prices on "Invoices Attached" paperwork. In one instance, we had two vendors vying for a parts contract and one offered the price list and the other did not. We informed the delinquent bidder that we could not verify their discounted price without a published price list. Although they had refused to provide one to the department for the last several years, the Supply Commissioner was able to get a link to the published price list within 3 hours.

Contact Person: Pamela Kuehling

Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Performance Bonding

Finding Number: 3.

Finding: The city may be limiting available bidders due to the city's performance bonding requirements. The Supply Division required all contractors maintain a performance bond equal to 50 percent of the value of the contract.

Recommendation: The Supply Commissioner work with the Mayor and Board of Aldermen to evaluate the need of performance bonds for various types of contracts and revise the City Code as applicable.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The City Charter was updated on January 9, 2009, to read "The Supply Commissioner may require..." for performance bonding requirements. Board Bill 339 revised Section 5.58.160 of the Revised Code of the City of St. Louis. This was done with the support of the Mayor and the Board of Aldermen.

The number of contracts requiring performance bonds has been reduced from 131 in 2010 to 36 in 2017. One more performance bond will be eliminated in July 2018. As each contract with a performance bond comes up for renewal, the Supply Commissioner will determine the need for the bond, and obtain pricing both with and without performance bond requirements as needed. All bid processes and procedures will be followed in accordance with Supply Division policies.

Contact Person: Pamela Kuehling

Contact Phone Number: (314) 622-4330

City of St. Louis - Supply Division
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Receipt Controls

Finding Number: 4.

Finding: The Supply Division did not maintain an initial record of checks received, and checks were not restrictively endorsed immediately upon receipt. In addition, there was no process to allow for the reconciliation of checks received to checks transmitted.

Recommendation: The Supply Division prepare and maintain an initial record or log of all monies received, restrictively endorse all checks and money orders immediately upon receipt, and transmit receipts to the City Treasurer daily. In addition, the record or log of monies received should be reconciled to amounts transmitted to the City Treasurer.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

All checks and money orders received by the Supply Division are now logged into the Checks Received Log and deposited with the Treasurer's office within 24 hours of receipt. Upon arrival, the check/money order is logged into the Checks Received Log, endorsed with the Supply Division rubber stamp, and then given to the Executive Secretary for processing the Receipt Coding Form and payment to the Treasurer's office.

Periodically, the Supply Commissioner or Deputy Supply Commissioner review the Checks Received Log for the timely processing of all associated documents and initials accordingly.

Information in the Checks Received Log includes line number, date received, received by, check number, date of check, amount of check, check from, check for, disposition 1/date, disposition 2/date, supply control number, treasurer control number, and reviewer's initials.

Summary of Local Government and Court
Audit Findings - Information Security
Controls

CITIZENS SUMMARY

Summary of Local Government and Court Audit Findings - Information Security Controls

User Access Management	Access to certain systems is not adequately restricted. The user access of former employees is not disabled timely. Periodic reviews of users' access to data and other information to ensure access remains appropriate and aligned with job duties are not performed.
User Authentication	Passwords are not required to be changed on a periodic basis. User accounts and passwords for accessing computers and various systems are shared by users. A password is not required to logon and authenticate access to a computer. Passwords are not required to contain a minimum number of characters.
Security Controls	Inactivity controls have not been implemented to lock a computer or system after a certain period of inactivity. Security controls have not been implemented to lock access to a computer or system after a specified number of unsuccessful logon attempts.
Backup and Recovery	Data backups are not stored at a secure off-site location. Periodic testing of backup data is not performed.
Data Management	Data integrity controls to guard against the improper modification or destruction of data and information have not been implemented. The attendance system does not limit the time frame during which changes can be made and there is no review by officials to ensure changes made to current school year attendance records are appropriate.

Because of the nature of this report, no rating is provided.

Audit Reports	9

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

This report was compiled using local government and court audit reports issued by my office between July 2017 and June 2018 (report numbers 2017-060 through 2017-155 and 2018-001 through 2018-043). The objective of this report was to summarize recent information security control issues and recommendations.

The recommendations address a variety of topics including user access management, user authentication, security controls, backup and recovery, and data management. The Appendix lists the 26 reports with findings covering these topics.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name of the State Auditor.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Douglas J. Porting, CPA, CFE
Audit Manager:	Jeffrey Thelen, CPA, CISA

Summary of Local Government and Court Audit Findings

Information Security Controls

Audit Issues

1. User Access Management

1.1 Access rights and privileges

Access to certain systems is not adequately restricted. Access rights and privileges are used to determine what a user can do after being allowed into a system, such as read or write to a certain file. Unrestricted system access allows the capability to make unauthorized changes to records or to delete or void transactions after the transactions have been entered in the system. In addition, adequate supervisory reviews of users are not performed. Access should be limited based on user needs and job responsibilities.

Without adequate user access restrictions, there is an increased risk of unauthorized changes to data and records and of the loss, theft, or misuse of funds.

Recommendation

Ensure user access rights are limited to only what is necessary to perform job duties and responsibilities.

Report Source

2017-069 (Crawford County)
2017-116 (New Madrid County)
2017-128 (Texas County)
2017-132 (St. Clair County)
2018-012 (Stoddard County)

1.2 Terminated employees

The user access of former employees is not disabled timely.

Without effective procedures to remove access upon termination, former employees could continue to have access to critical or sensitive data and records, which increases the risk of the unauthorized use, modification, or destruction of data and information.

Recommendation

Ensure user access is promptly deleted following termination of employment to prevent unauthorized access to computer systems and data.

Report Source

2017-150 (Pemiscot Memorial Health Systems)

1.3 Periodic review of user accounts

Periodic reviews of users' access to data and other information to ensure access remains appropriate and aligned with job duties are not performed. As users' work assignments and job responsibilities change, access rights to data may be added, changed, or removed. Over time, users can accumulate access rights that are no longer necessary, increasing the risk of inappropriate access to data.

Summary of Local Government and Court Audit Findings
Information Security Controls
Audit Issues

Without periodically reviewing user access rights, there is an increased risk that unauthorized alterations of the rights will go undetected or that access rights may not be aligned with current job duties.

Recommendation

Ensure periodic reviews of user access to data and other information resources are performed to ensure access rights remain appropriate and are commensurate with job duties and responsibilities.

Report Source

2017-108 (41st Judicial Circuit/Macon County)
2017-138 (45th Judicial Circuit/Pike County)

2. User Authentication

2.1 Passwords not changed

Passwords are not required to be changed on a periodic basis. As a result, there is less assurance passwords are effectively limiting access to computer systems and data files to only those individuals who need access to perform their job responsibilities. Passwords should be changed periodically to reduce the risk of unauthorized access to and use of systems and data.

Without requiring passwords to be periodically changed, the likelihood that accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

Ensure passwords are periodically changed to prevent unauthorized access to computers and data.

2018-040 (30th Judicial Circuit/City of Seymour Municipal Division)

Summary of Local Government and Court Audit Findings
Information Security Controls
Audit Issues

2.2 Sharing passwords

User accounts and passwords for accessing computers and various systems are shared by users. The security of a password system is dependent upon keeping passwords confidential. By allowing users to share accounts and passwords, individual accountability for system activity could be lost and unauthorized system activity could occur.

Without strong user account and password controls, including maintaining the confidentiality of passwords, the likelihood that accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

Ensure unique user accounts and passwords are required to access computers and data. In addition, ensure users understand the importance of maintaining the confidentiality of passwords.

Report Source

2017-087 (Mercer County)
2017-088 (Moniteau County)

2017-132 (St. Clair County)
2017-144 (Pike County)
2018-027 (Dade County)
2018-028 (37th Judicial Circuit/City of Winona Municipal Division)
2018-040 (30th Judicial Circuit/City of Seymour Municipal Division)

2.3 Password not required

A password is not required to logon and authenticate access to a computer.

Without requiring passwords to access a computer or system, there is no assurance the data or system is protected from unauthorized access and use.

Recommendation

Ensure passwords are required to authenticate access to computer systems and data.

Report Source

2017-065 (Knox County)
2017-068 (Daviess County)
2017-107 (Macon County)
2017-144 (Pike County)

2.4 Password complexity

Passwords are not required to contain a minimum number of characters. Strong passwords are often the first line of defense into a computer or system. As a result, an appropriate minimum character length should be established so passwords cannot be easily guessed or identified using password-cracking mechanisms.

Without enforcing password complexity by requiring a minimum number of characters, there is an increased risk that passwords can be more easily guessed, allowing unauthorized access to data and systems.

Summary of Local Government and Court Audit Findings
Information Security Controls
Audit Issues

Recommendation

Ensure passwords contain a minimum number of characters so they cannot be easily guessed.

Report Source

2018-012 (Stoddard County)
2018-033 (Osage County)

3. Security Controls

3.1 Inactivity control

Inactivity controls have not been implemented to lock a computer or system after a certain period of inactivity. To reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files, users should log off computers when unattended and an inactivity control should be implemented to lock a computer or terminate a user session after a certain period of inactivity.

Without an inactivity control, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendation

Ensure an inactivity control is implemented to lock a computer or system after a certain period of inactivity.

Report Source

2017-065 (Knox County)
2017-068 (Daviess County)
2017-088 (Moniteau County)
2017-107 (Macon County)
2017-109 (City of Lexington)
2017-144 (Pike County)
2018-012 (Stoddard County)
2018-025 (Hazelwood School District)
2018-028 (37th Judicial Circuit/City of Winona Municipal Division)

3.2 Unsuccessful logon attempts

Security controls have not been implemented to lock access to a computer or system after a specified number of unsuccessful logon attempts. Logon attempt controls lock the capability to access a computer or system after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer or system by guessing passwords.

Without effective controls to limit the number of consecutive unsuccessful logon attempts, there is less assurance sensitive data is effectively protected from unauthorized access.

Recommendation

Ensure a security control is implemented to lock access to a computer or system after multiple unsuccessful logon attempts.

---------------	--

4. Backup and Recovery

4.1 Off-site storage

Data backups are not stored at a secure off-site location. Data backups are performed; however, the backups are stored at the same location as the original data leaving the backup data susceptible to the same damage as the original data.

Without storing backup data at a secure off-site location, critical data may not be available for restoring systems following a disaster or other disruptive incident.

Recommendation

Ensure backup data is stored in a secure off-site location.

4.2 Periodic testing

Periodic testing of backup data is not performed. Periodic testing of backups is necessary to ensure the backup process is functioning properly and to ensure all essential data can be recovered.

Without testing the full backup process, management cannot be assured the entire system can be restored when necessary.

Recommendation

Ensure backup data is tested on a regular, predefined basis.

5. Data Management

5.1 Data Integrity

Data integrity controls to guard against the improper modification or destruction of data and information have not been implemented. In addition, audit trail controls to provide evidence demonstrating how a specific transaction was initiated, processed, and recorded have not been established. As a result, critical systems, such as property tax systems do not prevent users from changing the date used to calculate penalties, commissions, and fees. In addition, systems do not have the functionality to generate audit trail reports of voided or deleted transactions.

Without data integrity, and audit trail controls, there is an increased risk of manipulation of data without detection and the loss, theft, or misuse of funds.

Recommendation

Ensure adequate data integrity, and audit trail controls are in place to allow for the proper accountability of all transactions.

Report Source

2017-065 (Knox County)
2017-128 (Texas County)

5.2 Student attendance data

The attendance system does not limit the time frame during which changes can be made and there is no review by officials to ensure changes made to current school year attendance records are appropriate. In addition, an audit trail report of changes made is not generated and reviewed to ensure all changes made to attendance records are accurate and appropriate.

Without limiting the time frame during which changes can be made or reviewing changes made, data is subject to erroneous changes that may significantly affect the reliability of official attendance reports.

Recommendation

Ensure student attendance data is accurately recorded and reported, including restricting the time frame during which changes can be made and ensure an audit trail of changes made to attendance data be prepared and reviewed for accuracy.

NICOLE GALLOWAY, CPA **Missouri State Auditor**

Presiding Judge
Twenty-First Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the City Council
Ferguson, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2017-025, *Twenty-First Judicial Circuit, City of Ferguson Municipal Division* (rated as Poor), issued in April 2017, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the municipal division about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by municipal division and city officials and held discussions with officials to verify the status of implementation for the recommendations. Documentation provided by the officials included daily and monthly reports, receipt and disbursement records, electronic and manual case files, and various other financial records. We also reviewed the Department of Justice Independent Monitor Spring 2018 Semiannual Report filed in the United States District Court for the Eastern District of Missouri on March 30, 2018. This report is a summary of the results of this follow-up work, which was substantially completed during June 2018.

Nicole R. Galloway, CPA
State Auditor

Twenty-First Judicial Circuit

City of Ferguson Municipal Division

Follow-Up Report on Audit Findings - Status of Findings

1. Unaccounted Monies Municipal division receipts totaling at least \$1,426 were unaccounted for. Because some essential records were altered, deleted, or could not be located it could not be determined if additional monies were unaccounted for.

In February 2016, we identified discrepancies between accounting and deposit records for some transactions during the year ended June 30, 2015. We notified the Court Clerk and city personnel of our concerns and made numerous requests for access to additional court records stored at the municipal garage to further evaluate the discrepancies. The municipal division could not provide some requested records. In addition, some internal controls were not in place or were circumvented, making it difficult to determine the validity of some transactions. During our review of available court records, we noted cash receipts totaling \$1,426 were not deposited. We could not readily determine if additional monies were unaccounted for due to inadequate or incomplete records.

The lack of segregation of duties, inadequate controls, and the absence of proper oversight as discussed in the report, contributed to the court not timely detecting these discrepancies. It was apparent municipal division financial activity was not adequately monitored. Due to the court's weak procedures and inadequate or incomplete records, there was no assurance all monies collected were deposited.

Recommendation

The City of Ferguson Municipal Division work with law enforcement officials regarding any possible criminal prosecution related to the unaccounted funds, including restitution. In addition, the division should take a proactive approach to implement adequate controls to prevent and detect the loss or theft of assets.

Status

Partially Implemented

Municipal division officials did not refer the information to law enforcement because they believed the statute of limitations had run out on possible filing of criminal charges. They have implemented some controls, including independent reviews and oversight to prevent and detect the loss or theft of assets. These newly implemented controls are discussed further in other status sections.

-
2. Municipal Division Records The municipal division needed to improve controls and procedures over the division's records.

- 2.1 Court records Municipal division records were not maintained in an accurate, complete, and organized manner. Municipal division personnel documented case information for each defendant on manual dockets, backer sheets, defendant sheets, and the front cover of manual case files as well as in computerized case records maintained in the Case Management System (CMS). However,

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

information recorded on the backer sheets was very inconsistent, often incomplete, and in some cases blank. In addition, documentation such as the citation or ticket, defendant sheets, official notices to appear in court, plea agreements, warrants, and/or bond forfeiture forms were not always maintained in the manual case files and/or were not complete. Manual notations by the Municipal Judge, Prosecuting Attorney, and Assistant Prosecuting Attorneys on defendant sheets or manual working dockets are the official record of the court proceedings; however, these notations were not always documented consistently and did not always indicate who made them. The electronic CMS serves as the official accounting record of the municipal division. Our review identified numerous discrepancies between manual records and electronic records. In addition, municipal division personnel could not locate 3 of 149 case files and 33 of 144 final dockets requested during the audit for comparison to information documented in the CMS. As a result, there was less assurance transactions were properly handled.

Recommendation

The City of Ferguson Municipal Division ensure the proper disposition of cases is documented in manual and electronic records and sufficient documentation is maintained to support all case actions.

Status

Partially Implemented

The municipal division developed new forms and procedures to improve documentation in the manual case records and established independent reviews of manual and electronic records. An assistant court clerk, who is not involved in the receipting or deposit preparation process, reviews all electronic and manual case records as payments are made. We reviewed electronic and manual records for 5 cases and noted sufficient documentation in the case files supporting the majority of case actions. However, copies of warrants issued by the Municipal Judge are only maintained in the manual case files if they have been executed by the police department and returned to court personnel. To support activity recorded in the CMS, the municipal division should keep a copy of all pending, executed, or recalled warrants.

For one of the 5 cases, we noted a \$193 bond was forfeited and disbursed to the city on May 17, 2018, without judicial approval. On May 18, 2018, the defendant plead guilty and asked for the bond to be applied to the fine and court costs. On June 1, 2018, the Municipal Judge signed the plea form and ordered the fine and costs waived because the \$193 bond had already been forfeited and disbursed to the city. This action resulted in the court costs not being disbursed to the appropriate entities. When the defendant plead guilty, the court should have requested the \$193 back from the city and applied it to fines and costs so the costs would have been properly disbursed to all appropriate entities. The Court Clerk said by waving the fines and costs, it was not the court's intent to circumvent the payouts to other entities, it was just easier to handle the transaction in this manner than to request the forfeited

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

bond back from the city. This bond's disposition was not recorded in the CMS until June 20, 2018, after our inquiry.

2.2 Record preservation and access

The municipal division did not ensure court records were maintained in accordance with court operating rules and access to these records was restricted to court personnel only. In addition, the municipal division did not have an adequate system in place to track the location and custody of municipal division records.

The municipal division utilized some upper level rooms in the municipal public works garage to store records related to cases closed before January 1, 2015, as well as court dockets and other financial information. During 2014, this garage sustained water damage from a roof leak and municipal division records were impacted.

Requests for records

In February 2016, we began asking for access to certain case files and court dockets stored in the municipal garage. In March 2016, the Ferguson City Clerk notified the SAO that many of the records damaged by the leak were covered in mold or had been otherwise rendered unreadable. While municipal division and city officials were aware court records were damaged, no one had taken any steps to evaluate the extent of the damage to determine what records could be recovered and the effort required.

In September 2016, the city began the mold remediation process by removing damaged ceiling and wall material. However, because the city had no timeline for remediating the records, the SAO took extraordinary steps and hired a mold remediation company to recover and preserve the court records available and necessary to resume our audit work. The remediation firm completed its work during the week beginning September 26, 2016.

After available requested records were remediated and our review completed, we identified a number of records still missing. After subsequent discussions and search efforts by city personnel, 3 case files and 33 final dockets we requested still remained misplaced.

Site visits

On April 20, 2016, and September 26, 2016, we conducted site visits to the municipal garage and noted the records were not maintained in a secure location within the building. All city employees with access to the building had access to these records, many of which contained confidential personally identifiable information and some of which were required by state law to be considered closed records.

The municipal division did not have adequate procedures in place to track the location and custody of municipal division records. As previously noted, these records were stored at multiple locations within the city. In addition, records were moved during the renovation of the City of Ferguson Police

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

Department/Municipal Court building and were also accessed by various other agencies.

Recommendation

The City of Ferguson Municipal Division ensure case records are maintained in accordance with court operating rules and access to case records is properly restricted. In addition, the municipal division should implement procedures to track the location and custody of municipal division records.

Status

Partially Implemented

At the time of our follow-up meeting, the municipal division had made no efforts to remediate the remaining records stored in the municipal public works garage after the SAO remediated certain records necessary to complete our audit in September 2016. Also, public works personnel still have access to these older records. Access to 2015 through 2018 records is now restricted to court personnel. Records for 2015, 2017, and 2018 are stored in the municipal court building and the 2016 records are stored in the old firehouse, accessible only by court personnel. Beginning with the 2016 records, the municipal division is storing closed case files in protective plastic totes.

3. Case Management System Controls

The municipal division did not have adequate controls and procedures to ensure all case activity was properly recorded in the CMS.

The municipal division had not limited court personnel's ability to perform conflicting duties within the CMS and had not established procedures to provide adequate supervision or review of the work performed by court personnel to ensure transactions were appropriate. In addition, the CMS did not restrict court personnel's ability to modify receipt slips or to adjust fines and court costs on cases after the initial judgment had been entered.

The CMS generates receipt slips in numerical sequence and can be configured to restrict editing of issued receipt numbers. Prior to April 25, 2016, the municipal division had chosen to override this system control and allowed court personnel to modify receipt slip numbers, and to issue the same receipt slip number more than once. In addition, the CMS allowed all court personnel access to modify, void, and/or delete transactions. Also, the CMS allowed court personnel to enter certain codes to change the case status to closed even if a balance was still due on the case, preventing the case from showing up on future dockets.

Recommendation

The City of Ferguson Municipal Division establish controls to limit user access to only those functions necessary to perform assigned duties, restrict the user's ability to modify, edit and/or delete transactions, and work with the CMS vendor to modify disposition codes to prevent the closure of cases with balances due. If proper system controls cannot be achieved, adequate independent reviews of case activity should be performed and any differences investigated and documented.

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

Status

Implemented

The municipal division could not establish the recommended system controls or prevent the closure of cases with balances due. However, the municipal division has developed independent reviews to compensate for the system weaknesses. A third assistant court clerk independent of the receipting and deposit preparation process is reviewing all manual and electronic records each time a payment is made. For all transaction modifications, assistant court clerks must now complete an error report form explaining the error and the correction necessary. The independent assistant clerk and the Court Clerk both review the corrected transaction in the CMS, then sign the form to document their review and approval. The approved form is retained in the case file and a copy is retained in the Court Clerk's office and in the daily receipt binder.

4.1 Accounting Controls
and Procedures -
Segregation of duties
and supervisory review

The municipal division had not adequately segregated accounting duties and adequate supervisory reviews of accounting records were not performed. Two assistant court clerks were primarily responsible for all duties related to collecting court monies, recording and posting this activity to the CMS, and preparing the deposits. All court personnel had the ability to assess and adjust fines and court costs, receipt monies, post noncash transactions, void and delete transactions, and record case dispositions in the CMS. Numerous unauthorized transactions appeared to have been made in the CMS including the dismissal of cases on non-court dates, with no documentation of approval by the Municipal Judge. Also, fines and court costs assessed were not always consistent with the Municipal Judge's orders recorded on the defendant sheet or with the Prosecuting Attorney's recommendation documented on manual working dockets or schedule for amended violations, as applicable.

Recommendation

The City of Ferguson Municipal Division segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Status

Implemented

Two assistant court clerks remain responsible for collecting and recording monies received and preparing deposits; however, they no longer record the assessed fines and court costs unless the case is handled through the Violation Bureau (VB). The Court Clerk records the assessed fines and court costs in the CMS for all cases heard before the Municipal Judge. A third assistant court clerk, who is independent of the receipting functions, performs reviews of court records and payments received, and runs reports to verify the numerical sequence of receipt slips issued. The Court Clerk also reviews deposits, daily receipt reports, and monthly revenue reports.

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

4.2 Accounting Controls
and Procedures -
Violation bureau

Fines and court costs were not always assessed in accordance with the VB schedule. In addition, court personnel did not ensure only authorized violations were handled through the VB.

Recommendation

The City of Ferguson Municipal Division ensure fines and court costs assessed for citations paid through the VB agree to the standard fines and court costs and only authorized violations are handled through the VB.

Status

Implemented

The Municipal Judge is now performing documented reviews of all cases closed through the VB and ensures the amounts paid agree to the standard fines and court costs and that only authorized violations are handled through the VB. He then signs and dates all final dockets and backer sheets.

4.3 Accounting Controls
and Procedures -
Noncash, voided, and
deleted transactions

The municipal division did not ensure noncash transactions were properly documented and had not established procedures for the review and approval of noncash, voided, and deleted transactions in the CMS by persons independent of the receipting process. All court personnel had the ability to record noncash transactions in the CMS. Noncash transactions include community service performed; jail time served; and modification or waiver of fines, court costs, and fees. Most noncash transactions should be supported by a documented judicial order and a record of jail time served signed by a jailer or a report of hours of service from a community service organization attesting to the days spent or hours worked for credit, as applicable.

Recommendation

The City of Ferguson Municipal Division require an independent review and approval of noncash, voided, and deleted transactions posted to the case management system and retain adequate documentation to support those transactions.

Status

Partially Implemented

The municipal division has developed procedures for handling voided and deleted receipts. These procedures include modifying the initial receipt slip amount to \$0 and changing the method of payment to void, issuing a new receipt slip for the correct amount, and completing an error report form explaining the error. This form is signed by the assistant court clerk preparing the form, an independent person verifying the correction, and the supervisor completing the final review. Copies of each completed form are maintained in the applicable case file, the Court Clerk's office, and the daily receipt binder. However, the initial receipt slip issued is not always retained in the case file and the amount of the initial receipt slip subsequently modified is not always documented. The Municipal Judge documents his approval for noncash transactions on the defendant sheets and judicial orders maintained in the case files.

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

5.1 Municipal Division
Procedures - Policies
and procedures

Some operating orders were not dated to show the effective date and many policies and procedures were not in writing.

The Prosecuting Attorney issued three operating orders authorizing court clerks to (1) apply the \$100 bond payment collected toward fines instead of holding it as a bond and to nolle pros (dismiss) certain failure to appear (FTA) cases as part of an amnesty program, (2) nolle pros (dismiss) any FTA cases still open and not adjudicated, and (3) prepare and record recommendations to amend charges for certain violations based on a predefined list of violations and fines. Each order stated it shall remain in effect until withdrawn, revoked, or amended in writing; however, none of these orders or the predefined list were dated or stated an effective date.

The municipal division did not have written policies and procedures in place during our audit period. The Court Clerk was developing written procedures to provide detailed instructions for the assistant court clerks' daily activities; however, a final version had not been approved and communicated to employees as of July 2016. In addition, the municipal division lacked a formal written policy regarding the removal of some previously assessed fees. While the city had repealed the ordinances requiring these fees, a formal judicial order authorizing the deletion of previously assessed fees was not documented.

Recommendation

The City of Ferguson Municipal Division ensure operating orders specify the effective dates, and policies and procedures are in writing and communicated to employees.

Status

In Progress

The Municipal Judge now signs and dates all operating orders. Municipal division officials are currently writing policies and procedures regarding court operations, trial procedures, bonding, etc. in conjunction with the Department of Justice (DOJ) and the Independent Monitor for the Consent Decree. All policies approved will be conveyed to employees and some form of training will be provided.

5.2 Municipal Division
Procedures - Prosecutor
approval

The Prosecuting Attorney did not sign all tickets processed by the municipal division and the Prosecuting Attorney's approval of amended and dismissed tickets was not always clearly documented. In addition, the Prosecuting Attorney did not file an information form with the municipal division for the prosecution of FTA ordinance violations.

Recommendation

The City of Ferguson Municipal Division ensure a citation or information signed by the Prosecuting Attorney is filed for each ordinance violation to be prosecuted. In addition, the municipal division should ensure the Prosecuting Attorney reviews and approves all amended and dismissed tickets.

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

Additionally, plea agreements should be signed by all parties and documented in the case files.

Status

Implemented

The Prosecuting Attorney now signs all citations and informations, and prepares a memo for each case to nolle pros (dismiss), which is forwarded to the municipal division and filed in the applicable case file. All plea agreements are signed by all parties and retained in the case files. The municipal division no longer prepares plea agreements on behalf of the Prosecuting Attorney or enters these agreements into the CMS until they have been accepted and approved by the Municipal Judge.

5.3 Municipal Division
Procedures - Bond
procedures

The police department and the municipal division should work together to account for the numerical sequence of bond forms issued. Cash bond forms, while prenumbered, were not issued in numerical sequence and release-on-recognizance bond forms were not numbered.

Police department personnel normally responsible for issuing bond forms did not issue cash bond forms in numerical sequence. Beginning in September 2014, both the police department and municipal division personnel issued bond forms for a period of time, using forms from the same sequence. Neither the police department nor the municipal division maintained records to track which bond forms were held by each department/division. While, the police department prepared a log of all cash bonds transmitted by the department to the Court Clerk, these logs were not used to account for the numerical sequence of all bond forms issued. The Court Clerk indicated she began printing the bond deposit reports and accounting for the numerical sequence of bond forms as of June 2015, but the resolution of any missing bond forms was not documented.

In addition, the police department issued unnumbered bond forms for individuals released on their own recognizance. A log was not maintained for these forms.

Recommendation

The City of Ferguson Municipal Division work with the police department to ensure prenumbered bond forms are issued for all bonds posted and the numerical sequence of all bond forms is accounted for properly.

Status

Implemented

The police department now issues prenumbered bond forms for all bonds posted. The Court Clerk reviews the sequence of the bond numbers and notifies the police department of any missing numbers.

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

5.4 Municipal Division Procedures - Monthly reports

The Court Clerk did not submit accurate monthly reports of municipal division activity to the state and city. Our review of these reports identified numerous errors related to system programming. These differences occurred because the monthly summary report obtained from the CMS was not accurately set up to include amounts collected for all violations. In addition, payments were not always posted to correct cases and the CMS allowed court personnel to delete transactions as well as backdate transactions to prior period accounting records rather than requiring posting of the transactions in the current period.

In addition, the municipal division did not have procedures in place to ensure the accuracy of court surcharge amounts reported to the city for disbursement. The Court Clerk generates and provides a monthly summary report of court surcharges to the city for use in preparing disbursements to the state and city. Neither the municipal division nor city personnel reconciled this report to the monthly summary reporting form of collections to ensure amounts reported for disbursement were accurate.

Recommendation

The City of Ferguson Municipal Division establish procedures to ensure the accuracy of monthly Municipal Division Summary Reporting Forms. In addition, discontinue making adjustments to prior periods and reconcile amounts received and transmitted to the city for deposit to amounts posted in the municipal division records and city accounting records to ensure collections are properly distributed.

Status

Partially Implemented

At the time of our follow-up meeting, municipal division personnel were still making adjustments to prior periods. While the Court Clerk is now reviewing the monthly Municipal Division Summary Reporting Forms by comparing daily reports to monthly reports, there are no procedures to reconcile amounts received and transmitted to the city for deposit to the amounts posted in the municipal division records and city accounting records.

5.6 Municipal Division Procedures - CMS hierarchy

The municipal division did not disburse collections in accordance with the municipal hierarchy established by court operating rule. The state-approved municipal hierarchy requires disbursement of court costs and surcharges prior to disbursement of restitution, fines, and probation fees. However, when defendants make payments on their cases, the CMS improperly disburses the amounts paid based on the following hierarchy (1) fines; (2) credit card fees, non-prosecution fees, probation fees, restitution, DWI recoupment, warrant recall fees, and letter fees; and (3) court costs and surcharges.

Recommendation

The City of Ferguson Municipal Division work with the CMS programmer to correct the hierarchy parameters within the CMS and implement procedures to ensure payments are disbursed in accordance with state law.

Twenty-First Judicial Circuit
City of Ferguson Municipal Division
Follow-up Report on Audit Findings - Status of Findings

Status

Not Implemented

At the time of our follow-up meeting, the municipal division had not implemented procedures to ensure payments are disbursed in accordance with state law. Municipal division personnel indicated they worked with the CMS programmer to correct the hierarchy parameters within the CMS, but the changes caused other problems to occur and they reverted back to the incorrect hierarchy parameters.

6. Ticket Accountability

The police department, public works code enforcement division, and the municipal division did not maintain adequate records to ensure the numerical sequence and ultimate disposition of all tickets, including arrest notifications, uniform citations, complaints, and housing citations issued for violations of municipal ordinances were accounted for properly.

Recommendation

The City of Ferguson Municipal Division work with the police department and code enforcement division to ensure the numerical sequence and ultimate disposition of all tickets, including arrest notifications, uniform citations, complaints, and housing citations are accounted for properly.

Status

In Progress

The Court Clerk is now providing a monthly report of citations filed with the court to the police department supervisors. While complaint forms are still not prenumbered, a prenumbered arrest notification now accompanies each complaint. In addition, the Court Clerk now maintains the housing citation books and accounts for those citations. The municipal division is currently working with the DOJ on an audit citation policy to monitor tickets and hopes to have it implemented by the end of 2018.

Office of Missouri State Auditor
Nicole Galloway, CPA

City of Bethany

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the Audit of the City of Bethany

Tax Increment Financing	<p>The audit identified concerns with the city's handling of Tax Increment Financing (TIF) project planning, funding, and reporting for the West Interstate Addition - South District (South TIF) and Northwest Interstate redevelopment areas (North TIF). The city did not take steps to ensure all available financing sources required by state law were utilized to finance construction of the South TIF redevelopment project. The lack of this significant source of revenue likely impacted the decisions made by the TIF Commission related to the planned project. The redevelopment projects for both the North and South TIF were poorly planned. For the South TIF, it is unclear what impact the planned project had on development of the economic area since the majority of the development occurred before discussions were held regarding the proposed project. The audit identified problems with reports prepared by the city regarding the progress of each TIF. For both TIFs, new businesses relocating to the areas were not always correctly reported and no estimates or actual amounts of jobs added or retained in the TIF were reported. The city has not held public hearings every 5 years for each TIF project as required by state law.</p>
Water and Sewer Systems Contract	<p>The decision to contract with a private company to operate and maintain the water and sewer systems was not made transparently. All meetings where this topic was discussed from February to April 2015 were closed to the public in violation of state law. Proposals seeking a company to operate and maintain water and sewer systems were not solicited competitively or in compliance with the city code. Board members did not review the formal cost-benefit analysis prepared to evaluate the decision to contract out services to operate and maintain the water and sewer systems before they voted on this change. The analysis prepared contained several flaws that bring into question the reliability of the information presented.</p>
Accounting Controls and Procedures	<p>The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city office personnel are performed. The city absorbs credit card user fees when customers pay utility bills by credit card, rather than charging users a convenience fee. City personnel do not account for the numerical sequence of receipt slips issued from the financial accounting system.</p>
Restricted Assets	<p>The city has not established adequate procedures to ensure restricted monies are expended only for intended purposes. The city imposes assessments against utility funds (gas, electric, water, and sewer) to offset costs incurred by the General Fund for employees/officials doing work related to multiple city funds, along with administrative and overhead costs that pertain to multiple city funds. The allocations of salaries and other expenses to the utility funds are largely based on estimates, rather than actual time spent performing functions or actual usage of materials, supplies, or services by the various utility funds. In August 2015, the Board approved resolutions authorizing the Gas, Sewer, and Solid Waste Funds to loan the Parks Department more than \$1 million as part of a plan to refinance a previous pool bank loan. Utility Funds are restricted for their intended purpose and cannot be used in this manner. The city also expended a significant amount</p>

of Electric Department revenue in support of the Parks Department in recent years.

Utility Controls and Procedures	Rates charged for sewer services have not been established at levels consistent with the costs of providing those services. In June 2015, a \$25 fee was improperly added to sewer billings, in addition to the base rate, to help fund the construction of a new wastewater treatment plant. This fee was established without a public vote, may be in violation of the Hancock Amendment, and has allowed the city to build an excessive Sewer Fund balance. The city code regarding shut off procedures for nonpayment of services gives the City Clerk some discretion when shut offs should occur but does not provide for any oversight of this process. While not specifically authorized by city code, pay agreements are utilized, but are not enforced consistently or reviewed and approved by an independent person. Non-monetary adjustments made to the utility system are not reviewed by an independent person.
Expenditures	City personnel do not always solicit competitive bids or proposals for goods and services as required by the city code. The city did not obtain appraisals prior to selling property or leasing property with the intent to purchase.
Sunshine Law	The city did not ensure compliance with the Sunshine Law for closed meetings.
Budgets and Ordinances	City budgets did not include all statutorily required elements and budget estimates for some funds were unreasonable compared to actual results. The city does not have ordinances related to establishing compensation for city officials and employees.
Electronic Data Security	The city has not established adequate password controls to reduce the risk of unauthorized access to computers and data. The city does not store backup files at an off-site location or periodically test the backup data.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Bethany, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Bethany. We have audited certain operations of the city in fulfillment of our duties. The city engaged Conrad & Higgins, LLC, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended March 31, 2017. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended March 31, 2017. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

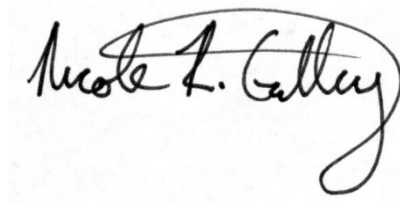

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Bethany.

An additional report, No. 2017-112, *Third Judicial Circuit, City of Bethany Municipal Division*, was issued in October 2017.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA

Audit Staff:	Amanda G. Flanigan, MAcc

City of Bethany

Management Advisory Report

State Auditor's Findings

1. Tax Increment Financing

We identified concerns with the city's handling of Tax Increment Financing (TIF) project planning, funding, and reporting for the West Interstate Addition - South District (South TIF) and Northwest Interstate (North TIF) redevelopment areas.

TIF is an economic development tool that redirects local tax revenues to the redevelopment of eligible properties that are otherwise economically unfeasible. Sections 99.800 to 99.865, RSMo, the Real Property Tax Increment Allocation Redevelopment Act, enables cities to finance certain redevelopment costs with the incremental tax revenue generated by the net increase in assessed valuation, along with a portion (50 percent in this case) of the incremental increases to sales taxes, resulting from the redevelopment. When a TIF plan is adopted, real estate taxes and economic activity taxes in the redevelopment area are frozen at the current level, or base valuation. By applying the real estate tax rate of all taxing districts having taxing power within the redevelopment area to any increased assessed valuation above the base value and by applying 50 percent of any increases to sales taxes over the base year, a tax "increment" is created. The real estate tax increments are referred to as payments in lieu of taxes (PILOTS) and the sales taxes increases are referred to as economic activity taxes (EATS). The PILOTS and EATS collected from the redevelopment areas are deposited by the city into a special allocation fund for each project, although EATS were not collected for the South TIF.

The city approved the South TIF plan in November 1994 by ordinance 916 with the intent to secure financing to construct multiple roads linking Highway 136 on the north with Highway 136 & 69 on the west (37th Street) and to construct and improve utilities within the TIF area using the increased revenue from economic activity generated as provided by the TIF Act. After many changes to the original plans, such as reducing the scope of the project to constructing a single road and determining where the road would be placed and the route it would take, the South TIF project was completed and the project was closed out in November 2017. At that time the PILOTS were no longer collected, and the remaining monies in the special allocation fund were paid to the County Collector-Treasurer for distribution to the various political subdivisions assessing property taxes in the district.

The city approved the North TIF plan in December 2001 by ordinance 1037, and amended the plan in December 2002 with ordinance 1050. The North TIF encompasses an area north of Highway 136, south of Highway 69 Spur, and west of Interstate 35. The city established the project with the intent to secure financing to construct a new road linking Highway 136 on the south with Highway 69 Spur on the north and to construct and improve utilities within the TIF area using the increased revenue from economic activity generated as provided by the TIF Act. The North TIF project has also been completed and the collection of the PILOTS and EATS will stop when the TIF expires on

City of Bethany Management Advisory Report - State Auditor's Findings

December 19, 2024. The city loaned \$543,365 from April through July 2017 to the TIF Commission to finish paying for the project.

The city was designated as the developer for both the North and South TIF. Typically, a private developer would submit an application for TIF funding for a specified development project to the TIF Commission and once approved, the TIF plan would be developed, along with a plan for the financing of the project. For both projects, the financing plan selected was pay-as-you-go, with some portions of the projects being completed as funds became available; however, both projects were delayed for years as funding accumulated. The city's loan to complete the North TIF project will be reimbursed as monies are available. The majority of the work associated with the South TIF project was not completed until sufficient funds had been accumulated.

Our review of the TIF Commission minutes, Board of Aldermen meeting minutes, plans, and related documents identified the following concerns.

1.1 Economic Activity Taxes - South TIF

The city did not take steps to ensure all available financing sources required by state law were utilized to finance construction of the South TIF. EATS were not collected throughout the life of that project as required by state law. Failure to collect this significant source of revenue contributed to construction not starting until August 2017. The city was completely reliant on PILOTS contributed by the various political subdivisions that receive property taxes from land in the redevelopment area. City personnel indicated \$662,035 in city sales taxes were collected from businesses in the South TIF during 2016 and 2017, based on Department of Revenue sales tax records.

PILOTS collected by the County Collector-Treasurer from 1994 to 2017 totaled approximately \$2 million, with approximately \$135,000 being refunded after the \$1.85 million project was complete. The taxing entities contributing property taxes to the project were the city, Harrison County, South Harrison R-2 School District, Harrison County Health Department, Harrison County Community Hospital, Noel T. Adams Ambulance District, and Bethany Township.

While we could not determine the total amount of EATS that should have been collected, based on the figures provided to us by the city for sales taxes collected during 2016 and 2017, we believe the amount not collected was substantial. Several businesses existed in the TIF area prior to its formation, but the base sales tax collections (collections within the TIF area during the year before establishment) were not determined. Several businesses, among them Sonic, Super 8 Hotel, and an Amoco gas station, have moved into the South TIF since its formation and Walmart relocated to a new building while converting to a supercenter. This business development is unlikely a direct result of the planned TIF project because the project was not started and

City of Bethany
Management Advisory Report - State Auditor's Findings

completed until 2017. Since the base sales tax collections were not established, we cannot determine the amount of EATS that would have been generated, but with the development that occurred within the TIF, we can reasonably conclude the amount would have been significant and would likely have impacted the decisions made by the TIF Commission related to the planned project.

The original estimates for the project included in the plan adopted in November 1994 called for the building of roads and public utility improvements, with costs estimated at \$670,000. This plan called for multiple roads to be built that would connect new roads to existing roads. The project ended up being one three-quarter mile road built off of Highway 136 that connects to no other road. Had EATS been collected, the necessary funds to complete the project would have been accumulated much faster, potentially allowing the project to be undertaken sooner and at a lower overall cost, and requiring significantly less PILOTS be contributed by the various taxing entities had the same project been completed. Also, the TIF Commission may have chosen to do a more comprehensive project, similar to what was initially planned, since more project funds would have been available.

To ensure adequate funding is available for future projects the Board should ensure all required revenues are collected on TIF projects. Section 99.845.3, RSMo, requires 50 percent of the total additional revenue from taxes, penalties, and interest, which are imposed by the municipality or other taxing districts, and which are generated by economic activities within the area of the redevelopment project shall be allocated to, and paid by the political subdivision to the Treasurer, who shall deposit such funds in the special allocation fund.

1.2 Planning

The redevelopment projects for both the North and South TIF were poorly planned. For the South TIF, it is unclear what impact the planned project had on the development of the economic area since the majority of the development occurred before discussions were held regarding the proposed project. Project construction of the road did not start until August 2017. Because there is no documentation of any discussions regarding the South TIF during the first 15 years of its life, it is unlikely this project was instrumental in the development of this area. At a minimum, we would have expected to see documentation the TIF Commission was aware of the amount of money that had accumulated and some discussion as to why the project was not moving forward.

Based on our review of TIF Commission minutes, TIF redevelopment plans and related documents, ordinances, and Board of Aldermen meeting minutes, it is apparent that specific financing plans were not in place for either the North or South TIF projects at the time of their formation, although TIF reports indicate pay-as-you-go as the chosen financing plans. While the

City of Bethany Management Advisory Report - State Auditor's Findings

redevelopment plans refer to the projects and include cost estimates, it is clear the city did not intend to immediately proceed with construction of the projects once the TIFs were approved. Although pay-as-you-go is an allowable method of financing a TIF project, considering the purpose of both TIFs is to stimulate development in the area, finding a way to complete the projects early in the life of the TIF would have been beneficial to the redevelopment of these areas.

It is unclear when the TIF Commission was formed because the first set of meeting minutes we received started in 2001. We received no minutes for meetings prior to 2002, other than one meeting in 2001 and none for meetings in 2008, 2009, or 2010. The minutes of a March 2011 meeting include the first documented discussions of any issues related to the South TIF, which by then had existed for 17 years. No official minutes were available for several meetings held in 2012 and 2013, although agendas were available for some or handwritten notes of discussions for others. We noted development in the North TIF was frequently discussed in the TIF Commission minutes; however, engineering proposals to construct the new road in the North TIF were not received until early 2015, 14 years after the 2001 formation of the district.

Section 99.820.2, RSMo, requires a TIF Commission to be established prior to the adoption of an ordinance approving a redevelopment plan. When undertaking such significant projects it is imperative that the Board of Aldermen and TIF Commission ensure such projects are properly planned and steps are taken to further the progress of the project.

1.3 Reporting

We identified problems with the reports prepared by the city regarding the progress of each TIF. While city officials annually filed these reports with the Department of Revenue when required, the reports did not always include all information requested. For example, new businesses relocating to the area were not always correctly reported and the reports for both TIFs consistently included no estimates or actual amounts of jobs added or retained.

Complete and accurate annual reports, in addition to meeting statutory requirements, can serve as a useful management tool for both city leaders and the TIF Commission by reporting progress of the developments. It also assists in informing the public about the status of TIF developments.

1.4 Public hearings

The city has not held public hearings every 5 years for each TIF project as required by state law. We saw no evidence of any public hearings occurring during the life of either of these projects. The City Administrator located an agenda for a public hearing of the TIF Commission scheduled for October 12, 2004, but could not locate minutes of the public hearing.

City of Bethany
Management Advisory Report - State Auditor's Findings

Section 99.865.3, RSMo, states "Five years after the establishment of a redevelopment plan and every five years thereafter the governing body shall hold a public hearing regarding those redevelopment plans and projects created pursuant to Sections 99.800 to 99.865. The purpose of the hearing shall be to determine if the redevelopment project is making satisfactory progress under the proposed time schedule contained within the approved plans for completion of such projects. Notice of such public hearing shall be given in a newspaper of general circulation in the area served by the commission once each week for four weeks immediately prior to the hearing."

Recommendations

The Board of Aldermen:

- 1.1 Ensure revenues are properly collected for any future TIF projects.
- 1.2 Plan for the financing and construction of future TIF projects early in the redevelopment process to ensure the maximum benefit for the community. In addition, ensure there is an active TIF Commission to oversee and manage TIF projects to help ensure the projects are completed timely.
- 1.3 Ensure accurate annual reports are filed with the state for each TIF.
- 1.4 Ensure public hearings are held on TIF redevelopment plans as required by state law.

Auditee's Response

- 1.1 *Revenues are and have been properly collected for the North TIF, an active TIF project, and will be as well for any future TIF projects.*
- 1.2 *The Board concurs that early planning is always a good business practice. One currently vacant TIF Commission seat will be filled at the next Commission public hearing to be held in 2018.*
- 1.3 *The Board agrees that submittal of accurate annual reports is essential and will ensure accurate reports are submitted in the future.*
- 1.4 *The Board has found and provided documentation of 2 public hearings held prior to the TIF formation, and one by the TIF Commission on October 12, 2004. It is believed that the "regular" meetings of the TIF Commission, being open to the public and public noticed, may have been thought to have met this requirement.*

A public hearing on the North TIF will be held in 2018, and again no later than 2023.

2. Water and Sewer Systems Contract

The decision to contract with a private company to operate and maintain the water and sewer systems was not made transparently. In addition, competitive proposals were not solicited and a cost-benefit analysis was not performed in advance to determine if any cost savings would result. During the year ended March 31, 2017 (fiscal year 2017), the city paid a private company approximately \$618,000 for management of the water and sewer systems.

In early 2015, city officials held discussions on possibly contracting out management services of production and distribution of the water and sewer systems. Making this change would eliminate city paid utility employees for these systems and shift the responsibility for operating and maintaining them to a private company. Per the contract, the private company would be responsible for the expense of maintenance and repair of all equipment, physical facilities, and vehicles assigned for its use (up to the base amount specified in the contract), except capital replacement costs, which is defined as all capital replacement and major maintenance/repair expenditures that exceed \$1,000. Capital improvements and major repairs to the systems continue to be the responsibility of the city. Our review of the process followed in making this decision identified various concerns.

2.1 Transparency

The decision to contract with a private company was not made transparently. Based on our review of Board meeting minutes for the time period from February to April 2015, the Board considered and made a decision to shift from operating and maintaining the city's water and sewer systems to contracting these services out to a private company. All the meetings where this topic was discussed during that time period were closed to the public, with the minutes citing personnel issues, Section 610.021 (3), RSMo, as the reason for closing the meetings. That section of law specifically defines personal information as "information relating to the performance or merit of individual employees." We identified no discussions documented in the closed minutes that met this definition, and thus, discussion of this topic in closed session was not allowable by law. These closed meetings were used to discuss the merits of entering into a contract for these services with a private company, discuss the proposals submitted, and approve the selected vendor.

The first mention of this issue was in the minutes of a closed Board meeting held on February 17, 2015, which indicate two vendors submitted initial informal proposals. There is no evidence these initial proposals were sealed as required by the city code and they were not provided for our review. The minutes of a March 2, 2015, closed Board meeting indicate that references were checked and the initial proposals were reviewed by the former Utility Superintendent (he now works for the private company in this same capacity). He informed the Board he had identified no cost savings in either proposal, but suggested clarifying the scope of the services to allow a better comparison of the proposals. Subsequent closed meetings held in March and early April 2015 mention defining the scope of the work, having the companies tour the

City of Bethany
Management Advisory Report - State Auditor's Findings

facilities, and meeting with the Utility Superintendent. Formal proposals were submitted by both companies on April 17, 2015. Both companies were invited to attend the April 20, 2015, closed Board meeting and each gave a presentation and answered questions from the Board. A vote was held in that meeting to select a vendor for the contract.

The first public mention of this decision occurred when the selected vendor was present at the May 4, 2015, Board meeting. Those meeting minutes indicate a member of the audience stated that this was a major change in operations and asked if this issue had been discussed previously in any open session. The former Mayor indicated the change involved city employees and the Board wanted to look into the companies before notifying the public. A formal contract was approved in a public meeting held May 18, 2015.

Under Section 610.022.1, RSMo, before going into a closed meeting a public governmental body must vote to close by a specific reference to the section permitting the disclosure. The Sunshine Law, Chapter 610, RSMo, limits discussions and votes in closed meetings to only those specifically allowed by law and referenced in the vote to close. Votes should only be taken in closed meetings related to allowable topics and would need to be publicly disclosed as soon as possible.

2.2 Competitive bids

Proposals seeking a company to operate and maintain water and sewer systems were not solicited competitively. In addition, the city code specifies sealed bids will be submitted to the City Clerk for any item or service in excess of \$15,000, but does not indicate how the bids will be solicited. It is unclear when the decision to seek proposals occurred because Board meeting minutes do not indicate this information, but city personnel indicated they identified 2 companies that offer those services and contacted them about submitting a proposal. No public advertisement occurred to expand the potential number of proposals that could be obtained. As indicated in section 2.1, the 2 proposals submitted were not sealed and were not opened in a public meeting of the Board, as required by the city code.

Article III, Section 135.070(A).5 of the city code states any bid over \$15,000 shall be sealed and submitted to the City Clerk. All bids will be opened at a scheduled public meeting. All bids will be submitted to the Board at the next regular Board meeting with recommendations from the facilitator. In addition, competitive bidding also helps ensure all parties are given an equal opportunity to participate in city business. Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the city to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration.

City of Bethany Management Advisory Report - State Auditor's Findings

2.3 Cost-benefit analysis

Board members did not review the formal cost-benefit analysis prepared to evaluate the decision to contract out services to operate and maintain the water and sewer systems before they voted on this change. The former Utility Superintendent reported to the Board in the closed meeting held March 2, 2015, that he believed neither proposal being considered would result in any cost savings to the city. The cost-benefit analysis provided to us does not indicate when it was prepared or who prepared it, but the electronic file we received showed a save date of May 1, 2015. City personnel indicated they thought the former City Administrator prepared the analysis. There is no evidence the Board received this information for review and the decision to contract with a specific vendor had already been made by the save date shown for this file.

In addition, our review of the cost-benefit analysis identified several concerns that bring into question the reliability of the analysis. The city compared the total costs of operating the water and sewer systems during fiscal year 2015 to the proposed cost of operating the systems during fiscal year 2016 using the contractor. That comparison showed a cost savings of approximately \$160,000, but did not exclude capital improvements or debt service payments, which were proposed to be significantly less in fiscal year 2016, and are the responsibility of the city. The budget for fiscal year 2016 with the city continuing to operate the systems was only approximately \$20,000 more than the cost of making the change. Excluding debt service costs and capital improvement costs from the analysis indicates it would have actually cost approximately \$20,000 less for the city to continue operating the systems itself.

Closed meetings minutes show factors other than costs, such as personnel matters, were considered before making this change. However, because the value of the contract exceeds \$600,000 per year, making a decision before reviewing a formal cost-benefit analysis is not prudent.

Regular review of utility management services and costs is necessary to ensure the city is receiving these services at a reasonable cost and whether continuing with this arrangement is beneficial to the city.

Recommendations

The Board of Aldermen:

- 2.1 Ensure future contract discussions and the process to select vendors is performed in an open and transparent manner in accordance with state law.
- 2.2 Solicit competitive bids and proposals for all applicable purchases and clarify in the city code how the bids and proposals will be solicited. In addition, follow the city code regarding how bids and proposals will be submitted and presented to the Board.

City of Bethany
Management Advisory Report - State Auditor's Findings

Auditee's Response

2.3 Ensure a cost-benefit analysis, which includes only relevant factors, is prepared timely when making significant management decisions in the future. In addition, a cost-benefit analysis should be performed prior to renewing this contract.

2.1 *The decision to contract with a private company to provide management services of production and distribution of the water and sewer systems was made as a result of numerous personnel issues within the department, and was made after discussions were held with all affected employees. It should be noted that all employees in the department were either retained by the city or hired by the selected contractor. In hindsight, the Board concedes that the decision making process could have been more transparent to the public, but the intent was to protect the employees from undue stress related to a public debate and the Board stands by its decision to contract these services. In the future, the Board will ensure the process of selecting vendors for city services will be performed in an open and transparent manner and in accordance with the law.*

2.2 *The Board will review its purchasing policy and will clarify the Bethany City Code as to how bids and proposals will be solicited. The Board will follow the city code on how bids and proposals will be submitted and presented to the Board.*

2.3 *Though it is not documented, one Alderman believes that he received information containing a cost-benefit analysis at the time the decision was made to contract with a private company. The Board agrees that development of a cost-benefit analysis is a good business practice when making major management decisions and that any such analysis should be documented in the Board minutes. The current contract expires March 31, 2021. The Board will endeavor to ensure that a complete cost-benefit analysis is completed prior to entering into any extension of this contract and future contracts of a similar nature.*

3. Accounting Controls and Procedures

Accounting controls and procedures need improvement.

3.1 Lack of oversight

The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city personnel are performed. The Utility Billing Supervisor and Deputy City Clerk both receipt monies and post transactions to the accounting system, and the Utility Billing Supervisor is also responsible for preparing utility bills,

City of Bethany
Management Advisory Report - State Auditor's Findings

posting adjustments to accounts, and preparing and making deposits. No reviews of the detailed accounting and deposit records are performed by other city personnel or Board members.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and deposit records should be performed.

3.2 Credit card convenience fees

The city allows utility bills to be paid with personal credit cards; however, credit card users are not charged a convenience fee to offset the related costs to the city. Credit card fees, which totaled approximately \$9,800 during fiscal year 2017, are absorbed by the city. In addition, because the fees vary by credit card issuer, the City Treasurer indicated she cannot reconcile the amounts received from credit card companies with the credit card payments made by individuals.

Considering the costs of credit card fees, the city should reconsider if absorbing these costs outweighs the benefits of not charging credit card convenience fees. Absorbing the credit card fee is a possible violation of Article VI, Section 23, Missouri Constitution, which prohibits the granting of public funds to individuals.

3.3 Receipt slips

City personnel do not account for the numerical sequence of receipt slips issued from the financial accounting system. The city's financial accounting system assigns one numerical receipt slip sequence, even though receipt slips are issued by various personnel for different functions, such as court payments, utility payments, and franchise fees. In addition, the accounting system will occasionally skip batches of receipts, which are listed in the daily register as voided. Because voided transactions do not require supervisory approval, are not periodically reviewed by an independent person or supervisor, and are not adequately documented, it is difficult to determine why these transactions occurred.

To ensure all monies received are accounted for properly, personnel should account for the numerical sequence of receipt slips issued through the accounting system. To ensure all voided transactions are valid and to reduce the risk of loss, theft, or misuse of funds, proper documentation should be maintained and someone independent of the receipting and recording function should review and approve these transactions.

Recommendations

The Board of Aldermen:

- 3.1 Segregate the accounting duties of city personnel. If proper segregation cannot be achieved, ensure a documented independent or supervisory review of detailed accounting and deposit records is performed.

City of Bethany
Management Advisory Report - State Auditor's Findings

- 3.2 Consider charging a convenience fee when customers pay by credit card and establish a process for reconciling credit card payments made by customers with amounts received.
- 3.3 Require personnel to account for the numerical sequence of receipt slips issued. In addition, ensure adequate documentation is maintained to support voided transactions and ensure an independent review and approval of these transactions is performed and documented.

Auditee's Response

- 3.1 *The Board agrees that separation of accounting duties is the ideal situation, but realize that with limited staff, the Board may not be able to completely segregate all accounting functions. The Board is developing workable options for spot-check reviews by non-accounting individuals to oversee that proper procedures are being implemented and will have that procedure in place by the next fiscal year.*
- 3.2 *The Board is researching third party providers who will be invited to bid on providing this service, with the goal to have a contract in place by January 1, 2019, if the Board can negotiate a contract that will be advantageous to the city and the citizens of the City of Bethany.*
- 3.3 *The Board is in the process of developing a policy that will address the issues set forth above.*

4. Restricted Assets

The city has not established adequate procedures to ensure restricted monies are expended only for intended purposes.

4.1 Utility Assessments

The city imposes assessments against utility funds (gas, electric, water, and sewer) to offset costs incurred by the General Fund for employees/officials doing work related to multiple city funds, along with administrative and overhead costs that pertain to multiple city funds. The Gas, Electric, Water, and Sewer Funds were assessed \$112,500, \$112,500, \$93,750, and \$56,250, respectively, during fiscal year 2017. We identified concerns with the city's allocation methods.

City personnel provided documentation of how they determine the amounts to charge to each utility for payroll and fringe benefits, and administrative and overhead costs incurred by the General Fund. Timesheets are not prepared by administrative staff to document time spent on particular activities and thus, estimates are used for applicable employees/officials to determine the percentage to allocate. These employees/officials and the estimated percentage of their salary and fringe benefits allocated include the Code Enforcement Officer (50 percent), City Administrator (80 percent), City Clerk (80 percent), Utility Billing Clerk (100 percent), Finance Director (80

City of Bethany
Management Advisory Report - State Auditor's Findings

percent), Inventory Clerk (80 percent), and the Board of Aldermen (50 percent). None of these costs are allocated to non-utility funds operated by the city.

The administrative and overhead costs allocated include maintenance and repairs for equipment and buildings, supplies, utilities, and professional fees and services. These costs are paid by the General Fund and then allocated by charging 20 percent to each utility, rather than the amount of time spent performing each function or the actual usage of materials, supplies, or services by the various utility funds. None of these costs were allocated to other non-utility funds of the city. In addition, the documentation prepared to support the assessment charged in fiscal year 2017 determined the total of the assessments was \$364,228, but the actual amount allocated was \$375,000.

Generally accepted accounting principles and various legal restrictions require receipts and disbursements associated with specific activities be reflected in the fund established to account for those activities. The proper allocation of expenses is necessary for the city to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria, such as the number of hours worked by each employee, and documentation of allocations should be retained.

4.2 Pool Loan

In August 2015, the Board approved resolutions authorizing the Gas, Sewer, and Solid Waste Funds to loan the Parks Department more than \$1 million as part of a plan to refinance a previous pool bank loan. The amount loaned totaled \$1,414,898.

Fund	Amount
Gas	\$ 714,898
Sales Tax (General)	400,000
Sewer	200,000
Solid Waste	100,000
Total	\$ 1,414,898

Board meetings minutes discussing this loan indicate it was made to reduce the Parks Department's interest costs. The interest rate on the bank loan was at 5 percent and the rate on the loan from the utility funds is set at 1.8 percent. Significant reductions to the cash balances of the Gas and Sewer Funds could be detrimental to the ability of these funds to meet current obligations. For the Sewer Fund, the loan also is likely to have contributed to the need to increase rates. In addition, the city did not obtain a written legal opinion regarding using restricted utility monies to make the loan.

City of Bethany Management Advisory Report - State Auditor's Findings

Monies in the Gas, Sewer, and Solid Waste Funds are restricted for their intended purpose and cannot be used for the general operation of the city. These proprietary funds are established to account for the user fees collected and costs associated with each utility separately. This separate accounting is intended to assist the city in monitoring each utility to ensure user fees are set at the level necessary to provide the service and for reasonable reserves. Although there is no defined level for reasonable reserves, it is not reasonable or prudent to set user fees at a level where excessive reserves are accumulated and then used to fund other activities unrelated to the specific utility.

4.3 Ballfield lights

The city has expended a significant amount from the Electric Fund in support of the Parks Department in recent years. The budget for the year ended March 31, 2018, includes a budget message stating "The Electric Department will support the Parks Department as it continues its focus on ballfield improvements." According to city personnel, as of January 12, 2018, the city had spent approximately \$350,000 from the Electric Fund for ballfield lighting projects. Providing subsidies to other city funds from the Electric Fund is not appropriate and should be discontinued.

Revenues of the Electric Fund represent user charges intended to cover the cost of providing the related services. It is not appropriate to subsidize the Parks Department operations with funding from the Electric Fund. As a result of this situation, electric rates may be set higher than necessary to recover actual costs and city electric customers are being required to subsidize Parks Department services.

Recommendations

The Board of Aldermen:

- 4.1 Ensure all expenditures are properly allocated to the various funds and allocations are supported by adequate documentation. For the Electric, Gas, Water, and Sewer Funds, this documentation should include conducting a formal analysis of overhead and services to determine the percentage of costs related to each fund and a formal time study to ensure payroll costs are charged to the appropriate funds.
- 4.2 Repay the Gas, Sewer, and Solid Waste Funds any monies related to the park loan and ensure restricted utility funds are only used for their intended purpose.
- 4.3 Limit expenditures from the Electric Fund to only those necessary to operate the city's electric system and provide services to customers.

Auditee's Response

- 4.1 *An overhead assessment will be performed and utility assessment levels will be carefully reviewed in preparation for development of the 2019 budget.*

City of Bethany
Management Advisory Report - State Auditor's Findings

- 4.2 *The Board will endeavor, as always, to follow generally accepted accounting principles in all financial activities. The Board has been advised that no illegal actions were taken, but understands the Auditor's concerns regarding the use of restricted monies for this purpose. The Board's intent in doing this transaction in this manner was to both save the Park Department money in reduced interest expense on the loan and to maximize revenues for the Utility Funds by getting a better rate of return on the reserve funds. The Board understands that restricted funds should only be spent for their intended purpose, but considering the benefits to both the Utility Funds and the Park Fund, the Board will continue our current arrangement with the Parks Board until all fund monies have been fully repaid, with interest, as agreed.*
- 4.3 *The Board willingly complies with all legal restrictions on the use of these funds.*

5. Utility Controls and Procedures

Utility controls and procedures need improvement.

5.1 Utility rates

Rates charged for sewer services have not been established at levels consistent with the costs of providing those services. In addition, the wastewater fee added to residents sewer bills in April 2015 may violate the Hancock Amendment based on the way it is being charged.

Cash balances of the various utility funds, particularly the Sewer Fund, have been very high in the past few years allowing the city to use these funds to provide subsidies to other city funds (see MAR finding number 4). Prior to the pool loan made in August 2015, the cash balance of the Sewer Fund was approximately \$620,000. After the loan occurred the balance initially declined, but due to rate increases and the added fee, the balance has steadily grown. By December 31, 2017, the Sewer Fund cash balance had grown to more than \$1.8 million, which is approximately 3 times the amount expended annually on operating the sewer system.

The Board approved a sewer rate increase in April 2015. Also, in June 2015 a \$25 monthly fee was added to sewer billings, in addition to the base rate, to help fund the construction of a new wastewater treatment plant. This fee was added based on a study done by the United States Department of Agriculture (USDA) that recommended the city increase the base sewer rate to \$25, in order to allow the city to build up the reserve balance of the Sewer Fund to the level necessary for a loan being sought related to building a new wastewater treatment plant. Rather than increase the base sewer rate, which is based on a percentage of the water rate, the Board elected to add a \$25 wastewater fee to each sewer billing. City officials have publicly stated the

City of Bethany
Management Advisory Report - State Auditor's Findings

fee is required by the USDA, but it was not. The wastewater fee is charged on all sewer bills regardless of sewer usage. This fee was added to sewer customer bills and was established without a public vote, and thus may be a violation of the Hancock Amendment.

After this fee was assessed for 2 years, city officials acknowledged it was generating excessive revenues and obtained USDA approval to reduce it to \$20 monthly starting with June 2017 billings. During fiscal year 2017, Sewer Fund revenues exceeded \$1.1 million, while expenditures were approximately \$580,000, allowing the fund balance to increase by approximately \$500,000, growing to approximately \$1.33 million by March 31, 2017. By April 25, 2018, even with the \$5 decrease in the fee, city records indicate the Sewer Fund cash balance was approximately \$2.1 million. Some of this cash balance is reserved for the new wastewater treatment plant under construction, but the balance available for general sewer expenditures was still considerably higher than the amount spent annually on operating costs. In addition to improperly adding a fee to citizens sewer bills, the city has failed to set the sewer rate at a reasonable level, which would be the amount necessary to provide sewer service and reasonable reserves. A review of the rate should be conducted by preparing a statement of costs to determine the level the rate should be established.

The Missouri Supreme Court in its decision in *Beatty v. Metropolitan St. Louis Sewer District*, 867 S.W.2d 217 (Mo. banc 1993) applied a five-pronged analysis to determine whether a governmental charge was a tax, thus requiring a public vote, or user fee which could be revised without a vote. This court case also indicated that if the analysis did not clearly indicate the charge is a user fee, the issue should be put to a vote. One of the major criteria considered in that case was whether the added fee was based on usage, which it was not, which contributed to the court determining the added fee was in fact a tax. Other criteria typically looked at by the courts include when is the fee paid, who pays the fee, is the government providing a good or service and has that good or service historically and exclusively been provided by the government. Based on the way these criteria were assessed in other cases with similar circumstances, the \$25 wastewater fee would be considered a tax subject to the Hancock Amendment and should have been voted on by the taxpayers.

The Missouri Constitution Article X, Section 22(a), commonly known as the Hancock Amendment, prohibits political subdivisions from increasing existing taxes, licenses, or fees above levels authorized at the time of passage of the Hancock Amendment without voter approval.

Section 67.042, RSMo, provides that fees may be increased if supported by a statement of costs, which shows the increase is necessary to cover costs of providing the service. To ensure utility rates are set to cover the cost of

City of Bethany
Management Advisory Report - State Auditor's Findings

providing the related services, the city should perform and document a detailed cost study of its water and sewer costs, including depreciation, and establish rates to cover the total cost of operations without generating excessive profits.

5.2 Shut off procedures

The city code regarding shut off procedures for nonpayment of services gives the City Clerk some discretion when shut offs should occur but does not provide for any oversight of this process. In addition, the city code does not address the use of pay agreements or how they will be enforced. Currently, the City Clerk allows users to enter into pay agreements to postpone potential service shut off, but the reasons for authorizing the agreements are not documented, and the agreements are not enforced consistently and not reviewed and approved by an independent person.

All utility charges are included on the same billing and the city code states if any billing or charge remains unpaid after the 4th Wednesday of the month, the City Clerk may cause service to be shut off. The City Clerk indicated electric service is typically shut off for nonpayment, but water would be shut off if the customer does not get electric service from the city. The City Clerk stated she does not consider the current month's billing when determining if shut offs or payment agreements are necessary, which is not consistent with the wording of the ordinance. Thirteen of 47 billings reviewed were paid after the 4th Wednesday of the month and there is no evidence utility service was shut off for any of these customers, such as a reconnect charge being added to their account. Several of these users had already entered into pay agreements, but they did not comply with the terms of the agreements. Reasons for not shutting off service were not documented. In addition, no records are maintained of when a user has service disconnected so it is difficult to determine if services were shut off when appropriate.

Article I, Section 715.030(C) of the city code states if any billing or charge remains overdue past the 4th Wednesday of the month, the City Clerk may cause that utility service to be disconnected. It also states the City Clerk may consider previous payment history, time of year, and other factors deemed relevant by the City Clerk. To ensure all customers receive equitable treatment and city revenue is maximized, the city code should specify when a shut off of service is required and when a pay agreement is authorized. For pay agreements, city code should address allowable reasons for the agreements, an approval process, and independent review procedures.

5.3 Non-monetary adjustments

Non-monetary adjustments are not reviewed by an independent person. Non-monetary adjustments are any transactions where monies are not received; however, the account balance has been changed in the accounting records, such as waiving customer late charges, adjusting usage for inaccurate meter readings, or reducing a balance due to water leaks. The Utility Billing Clerk and Deputy Billing Clerk both receipt and post utility payments, and both can

City of Bethany
Management Advisory Report - State Auditor's Findings

also post non-monetary adjustments to the system. Non-monetary adjustments are posted to the system regularly and are not reviewed and approved by an independent person. We reviewed 25 non-monetary adjustments and while each looked appropriate and had supporting documentation, none of them had been approved by an independent person. Because these employees are responsible for collecting utility monies and have the ability to alter or delete individual utility account information, there is an increased risk that unsupported or unauthorized changes can be made in the utility system. The city does not produce reports of non-monetary adjustments for the Board to review and approve.

Non-monetary adjustments should be verified and approved by a person independent of the person posting these transactions to ensure they are legitimate. Because of the risks associated with non-monetary adjustments, the Board should consider monitoring all such transactions.

Recommendations

The Board of Aldermen:

- 5.1 Consult the city attorney to determine if the wastewater fee is allowable and ensure a formal review of sewer rates is performed periodically to ensure revenues are sufficient to cover all costs of providing the service without generating excessive profits.
- 5.2 Revise the city code to clarify when shut off of service is required and ensure the ordinance is followed. In addition, a record of shut offs should be maintained.
- 5.3 Ensure a documented review of all non-monetary adjustments posted to the utility system is performed by an independent person.

Auditee's Response

- 5.1 *The Board has been advised that the wastewater treatment fee is not believed to violate the Hancock Amendment. The City Treasurer and City Auditor will work with the City Attorney to ensure sewer rates are sufficient to meet the city's financial obligations without being excessive. The Board will review the wastewater treatment fee in preparation of the fiscal year 2019 budget to determine/verify its legality. All utility rates, and any fees, will also be reviewed on an annual basis as a part of the budgetary process to ensure compliance with all laws related to such rates and fees.*
- 5.2 *Ordinance 1304, passed by the Board on April 2, 2018, addresses "Payment and Procedure Upon Non-Payment" of city utilities. Implementation of the ordinance has been, and will continue to be, strictly followed. A record of shut offs has been maintained by the City Clerk for the last few months, and will continue.*

City of Bethany
Management Advisory Report - State Auditor's Findings

5.3 *Ordinance 1304, passed April 2, 2018, minimizes the number of non-monetary adjustments. Non-monetary adjustments will be reviewed by non-accounting personnel on a periodic basis.*

6. Expenditures

Controls over city expenditures need improvement.

6.1 Bidding

City personnel do not always solicit competitive bids or proposals for goods and services as required by the city code. We identified several purchases of goods or services where written quotes or proposals were required but they were either not obtained or not retained, including road salt (\$3,225), concrete construction (\$3,808), airport maintenance (\$1,800), and a lifeguard training/operations audit (\$4,008).

We also identified instances where written quotes were not solicited for road work (\$4,000) and water treatment pump repairs (\$2,200). City personnel indicated these purchases were of an emergency nature and therefore not bid, but the reasons were not documented.

Bidding procedures for major purchases provide a framework for economical management of county resources and help ensure the city receives fair value by contracting with the lowest and best bidder. In addition, competitive bidding ensures all interested parties are given an equal opportunity to participate in city business. Article III, Section 135.070(A).3 of the city code states for purchases of goods or services between \$1,500 and \$5,000 three written quotes will be obtained. The city's bid policy does not address emergency purchases; however, city personnel should document reasons for noncompliance with city policy if an emergency purchase is necessary.

6.2 Real estate transactions

The city did not obtain appraisals prior to selling property or leasing property with the intent to purchase. In 2015, city officials were in discussion with a retail corporation to establish a store in Bethany. The corporation was interested in the building, which formerly served as the fire station/community center, and made an agreement with the city to purchase the building and land for \$250,000 in August 2015. No current officials could explain how the sale price was determined and they indicated they contacted the former Mayor to determine if he could provide an explanation, but he could not. The city did not obtain an appraisal of this property.

In June 2015, the city entered into a 5-year lease purchase agreement, totaling \$150,000, for a building that was originally intended to house the Street Department, but currently houses the fire station. An appraisal of this property did not occur and city officials could not explain how the lease purchase price was determined.

City of Bethany
Management Advisory Report - State Auditor's Findings

Because the city did not obtain an appraisal for either property, it is difficult to determine whether the amount paid/received was reasonable and approximated fair market value.

Recommendations

The Board of Aldermen:

- 6.1 Ensure bids are solicited in accordance with the city code. Documentation should be maintained to support specific instances where it is not practical to obtain bids due to an emergency.
- 6.2 Ensure appraisals are performed for any property considered to be bought or sold in the future.

Auditee's Response

- 6.1 *The Board will review the procedures contained in the city's purchasing policy and will clarify, in the policy, emergency purchasing procedures. Additionally, the Board will ensure that all bids are solicited in accordance with the city code.*
- 6.2 *The Board solicits and procures appraisals or Brokers' Professional Opinions (BPOs) for all proposed property purchases and sales. Since July 7, 2016, appraisals or BPOs have been obtained for all properties considered to be bought or sold by the Board.*

7. Sunshine Law

The city did not ensure compliance with the Sunshine Law for closed meetings.

- The Board discussed some items in closed meetings that are not allowed by law. For example, we noted discussions and a vote in a closed meeting regarding the City Administrator's salary and discussion of incentives for volunteer firemen and plans to finish the North TIF project.
- The Board does not make specific reference to the section of law allowing the closure of the meeting when voting to go into a closed meeting. The minutes of the open meeting only make reference to the general topic the meeting is being closed for, such as personnel, legal, or real estate.
- The Board sometimes discussed issues other than the general topic cited in the open minutes for going into a closed meeting. For example, in one closed meeting the Board met with the city's independent auditor to discuss the audit results; however, the open minutes cited personnel issues and legal as the reasons for going into a closed session.

Section 610.021, RSMo, lists the topics that may be discussed in closed meetings and requires discussion in closed meetings be restricted to the allowable topics listed. Section 610.022, RSMo, requires a closed meeting, record, or vote be held only after the vote of each member on the question of

City of Bethany
Management Advisory Report - State Auditor's Findings

closing the meeting and the specific reason for closing the meeting or vote by making specific reference to the specific section of law is to be announced publicly at an open session and entered into the minutes. This section also provides that public governmental bodies shall not discuss any other business during the meeting that differs from the specific reasons used to justify closing such meeting, record, or vote.

Recommendation

The Board of Aldermen ensure only allowable topics are discussed in closed meetings, the specific section of law allowing the closure is announced publicly and recorded in the minutes, and discussions in closed meetings are limited to only those specific reasons cited for closing the meeting.

Auditee's Response

The Board will willingly comply with the legal requirements of the Sunshine Law.

8. Budgets and Ordinances

Budgetary procedures need improvement. In addition, compensation is not set by ordinance.

8.1 Budgets

The Board does not have adequate procedures to prepare or monitor budgets.

City budgets for the fiscal years ended March 31, 2017, and March 31, 2018, did not include all statutorily required elements. The budgets did not include the actual beginning and estimated ending cash balances for any city funds or actual receipts and disbursements for the 2 preceding years. Actual receipts and disbursements are included from 2 years ago, but budgeted amounts are shown for the most recent fiscal year.

In addition, the Board's practice is to budget all available revenue for each fund, which results in unreasonable expenditure budget estimates for some funds. For example, budgeted expenditures for the year ended March 31, 2017, for the Water Fund were \$1,007,910, but actual expenditures were only \$691,591. For the Sewer Fund, budgeted expenditures were \$1,138,260, but actual expenditures were only \$584,467. As a result of this budgeting method, the city has significantly more money than anticipated in several funds. For example, the Water and Sewer Fund cash balances increased by approximately \$870,000 during the year. Because cash balances are not included in the budgets, it is unclear if the Board is actually aware of the cash balance of each fund when approving the budgets. City personnel indicated the budget is prepared in this manner because they believed this method was required to balance the budget.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the format. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific

City of Bethany
Management Advisory Report - State Auditor's Findings

financial expectations for each area of city operations. It also assists in setting tax levies and informing the public about city operations and current finances.

8.2 Compensation ordinances The city does not have ordinances related to establishing the compensation of city officials and employees.

Ordinances documenting approved salary amounts help ensure equitable treatment and prevent misunderstanding. Section 79.270, RSMo, authorizes the Board to fix the compensation of all city officials and employees by ordinance.

Recommendations

The Board of Aldermen:

- 8.1 Prepare annual budgets that contain all information required by state law and ensure budgeted expenditures for each fund are a reasonable approximate of what the Board actually intends to spend from each city fund.
- 8.2 Establish the compensation of all city officials and employees by ordinance.

Auditee's Response

- 8.1 *The Board will make improvements to the budget format and methodology, and will incorporate both in the fiscal year 2019 budget.*
- 8.2 *The Board will comply with legal requirements for establishment of compensation with the fiscal year 2019 budget.*

9. Electronic Data Security

Controls over city computers are not sufficient. As a result, city records are not adequately protected and are susceptible to unauthorized access.

9.1 Passwords

The city has not established adequate password controls to reduce the risk of unauthorized access to computers and data. Passwords are not required to access the city's accounting software.

Passwords are necessary to authenticate access to computers and data, and to reduce the risk of unauthorized access to and use of systems and data. Passwords should be unique, confidential, and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computer data.

9.2 Data Backup

The city does not store backup files at an off-site location. In addition, the city does not periodically test backup data. Failure to store backup data at a secure off-site location results in the data being susceptible to the same damage as the data on the computer.

City of Bethany
Management Advisory Report - State Auditor's Findings

To help prevent loss of information and ensure essential information and computer systems can be recovered, backups should be stored at a secure off-site location and tested on a periodic basis.

Recommendations

The Board of Aldermen:

- 9.1 Require confidential passwords that are periodically changed to prevent unauthorized access to the city's computers and data.
- 9.2 Ensure backup data is stored in a secure off-site location and tested on a regular, predefined basis.

Auditee's Response

- 9.1 &
9.2 *The Board will work with our IT support to effect these changes by January 1, 2019.*

City of Bethany

Organization and Statistical Information

The City of Bethany is located in Harrison County. The city was incorporated in 1860 and is currently a 4th-class city. The city employed 23 full-time employees and 28 part-time employees on March 31, 2017.

City operations include fire protection services, law enforcement services, utilities (gas, electric, water, sewer), street maintenance, and recreational facilities (gym, pool, parks).

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at March 31, 2017, are identified below. The Mayor is paid \$291.67 per month and Aldermen \$100 per month. The compensation of these officials is established by ordinance.

Dick Graner, Mayor
Randy Brejnik, Alderman
Gene Ishmael, Alderman
Steve Miles, Alderman
Todd Williams, Alderman

Other Principal Officials

The City Administrator, City Clerk, Police Chief, and Fire Chief are appointed positions. The City Attorney is a contracted position. The city's principal officials at March 31, 2017, are identified below:

Jonne Slemons, City Administrator
Nita Schroff, City Clerk
Tara Walker, City Attorney
Brian Groom, Police Chief
Jacob Denum, Fire Chief

Financial Activity

Appendixes A-D present a summary of the city's financial activity for the year ended March 31, 2017. We obtained this information from the city's audited financial statement report.

Appendix A

Appendix B

CITY OF BETHANY, MISSOURI
Statement of Revenues, Expenditures, and Changes in Net Position - Governmental Funds
March 31, 2017

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 1,466 political subdivisions required to file a financial report by June 30, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in June 2018, after their filing deadline. The filing status for these 4 entities is presented in summary on page 3 and by individual entity in Appendix B-C.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

June 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 1,466 political subdivisions, other than cities, towns, and villages, with a fiscal year end of December 31, 2017. Cities, towns, and villages have additional filing requirements, and their reporting status is included in a separate report. Of the 1,466 political subdivisions, 1,005 filed an annual financial report by June 30, 2018.

This report also includes the filing status for 4 political subdivisions, other than cities, towns, and villages, that filed their financial report in June 2018, after their filing deadline. Of the 4 political subdivisions, 2 filed their financial report for only a portion of their fiscal year.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the counties, cities, towns, and villages required to file a financial report by June 30, 2018, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for these 257 cities, 12 towns, and 137 villages is presented in summary on page 3 and by individual entity in Appendix A. The filing status for 5 counties is presented in summary on page 4 and by individual entity in Appendix B. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for cities, towns, and villages that filed at least one of the items (financial report, addendum, or certification) in June 2018, after their filing deadline. The filing status for these 21 cities and 1 village is presented in summary on page 4 and by individual entity in Appendixes C to G.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

June 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 257 cities, 12 towns, and 137 villages, with a fiscal year end of December 31, 2017, whose financial report was due by June 30, 2018. Of these entities, 258 filed their financial report timely, while 2 filed their financial report for only a portion of the fiscal year timely. Of the 131 entities required to file an addendum, 77 were filed. Of the 124 entities required to file a certification, 76 were filed.

Monthly Report on Municipal Court and Revenue Filings
June 2018
Executive Summary

This report includes the filing status for the 5 counties, with a fiscal year end of December 31, 2017, whose addendum and certification was due by June 30, 2018. Of these entities, 3 filed their addendum timely, and 3 filed their certification timely.

This report includes the filing status for 21 cities and 1 village that filed at least one of the items (financial report, addendum, or certification) in June 2018, after their filing deadline. Of these entities, 6 filed an annual financial report, 17 filed an addendum, 7 filed a certification.

Office of Missouri State Auditor
Nicole Galloway, CPA

City of Coffey

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the Audit of the City of Coffey

Background

The former City Clerk, Mary L. Browning, was solely responsible for financial accounting functions and records of the city.

In early August 2017, a bank official contacted a member of the Board of Aldermen regarding various and frequent bank fees incurred by the city, numerous transfers between city bank accounts, and a lack of cash being deposited. The Board terminated the former City Clerk on August 2, 2017. The Board then contacted the Daviess County Sheriff and Prosecuting Attorney and requested assistance regarding the suspicious bank activity. The Daviess County Prosecuting Attorney subsequently contacted the State Auditor's Office (SAO) and requested an investigation.

Based on discussions with the Daviess County Sheriff and Prosecuting Attorney regarding missing cash receipts from utility payments and unsupported checks issued to the former City Clerk, the SAO conducted an initial review of these matters under Section 29.221, RSMo. After completion of this review of documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo. On August 16, 2017, the Board passed an ordinance formally requesting and authorizing an audit and the audit began on December 4, 2017.

The SAO is currently working with the Daviess County Sheriff and Prosecuting Attorney regarding criminal prosecution.

Missing Monies and Unsupported and Falsified Transactions

The lack of adequate controls and absence of proper oversight by the Board of Aldermen resulted in missing receipts, improper payments, and over (under) payments going undetected for almost 2 years. Between September 2015 and August 2017, the former City Clerk did not deposit \$33,984 of recorded utility receipts. Improper payroll checks totaling \$24,634 were written to the former City Clerk from the city's water and sewer bank accounts from April 29, 2016, through July 28, 2017. A comparison of the hours reported on timesheets to hours paid according to the payroll reports showed discrepancies and therefore, over (under) payments totaling \$1,556 on 19 of the 42 former City Clerk's regular payroll checks. According to city officials, the former City Clerk created false meeting minutes indicating a special Board meeting was held on February 23, 2017, authorizing a withdrawal from one of the city's savings accounts and subsequent deposit into 3 other city bank accounts; allowing the former City Clerk to conceal a portion of account shortages.

Conflict of Interest, Board Objectivity, Oversight, and Annual Audits

Some activities involving former Alderman Browning created a conflict of interest, and the employment of relatives directly supervised by the Board can compromise the Board's objectivity. Former Alderman Browning created a conflict of interest when he voted to approve salary increases and payroll checks to his wife, the former City Clerk. Despite concerns related to the former City Clerk's handling of disbursements and utility payments and prior audit findings, the Board has not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk. The city does not obtain annual audits as required.

Accounting Controls and Procedures	<p>Significant weaknesses exist in the city's accounting controls and procedures. The city's procedures for receipting and depositing monies are poor. Controls and procedures over bank accounts and reconciliations need improvement. Despite a similar concern in our prior petition audit of the city, the city continues to maintain an excessive number of bank accounts. The former City Clerk did not perform monthly bank reconciliations from March 2017 through July 2017. The Board and the former City Clerk failed to monitor the city's cash balances. Despite a similar concern in our prior petition, city officials do not maintain accurate accounting records and financial statements. The former City Clerk made excessive and unauthorized transfers between various bank accounts, and did not always deposit utility receipts into the proper bank account, which led to commingling of restricted funds. The list of refundable utility deposits was not accurate and not reconciled to the balance of the utility deposit bank account.</p>
Electronic Data Security	<p>Controls over the city's computer are not sufficient. The city has not established adequate password controls to reduce the risk of unauthorized access to the city's computer and data. The City Clerk was not required to change passwords periodically or have a minimum number of characters in the passwords. Security controls are not in place to lock the city's computer after a specified number of incorrect logon attempts or after a certain period of inactivity. The city did not have antivirus software installed on the city's computer to ensure protection of city data. The City Clerk does not store data backup files at an off-site location. The city did not obtain adequate documentation for 2 disbursements pertaining to software technical support services.</p>

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Coffey, Missouri

We have audited certain operations of the City of Coffey as they relate to the city's finances in fulfillment of our duties under Section 29.200.3, RSMo. Due to concerns regarding missing monies and unsupported payments, the State Auditor initiated the audit with the approval of the City of Coffey Board of Aldermen. The scope of our audit included, but was not necessarily limited to, the period from September 14, 2015, through August 2, 2017. The objectives of our audit were to:

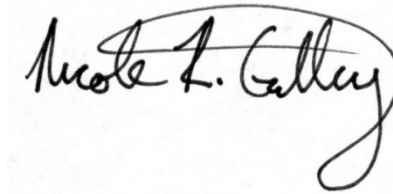

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the amount of missing monies and unsupported payments to the extent possible.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) missing monies and unsupported payments totaling at least \$60,174. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Coffey.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly distinguishable. It is written over a faint, rectangular background.

Audit Staff:	James C. Kayser Troy Tallman

City of Coffey

Introduction

Background

The former City Clerk, Mary L. Browning, was solely responsible for financial accounting functions and records of the city, including receipting and recording payments received, preparing and making deposits, preparing and cosigning checks, and performing bank reconciliations.

In early August 2017, a bank official contacted a member of the Board of Aldermen regarding various and frequent bank fees incurred by the city, numerous transfers between city bank accounts, and a lack of cash being deposited. The Board terminated the former City Clerk on August 2, 2017. The Board then contacted the Daviess County Sheriff and Prosecuting Attorney and requested assistance regarding the suspicious bank activity. The Daviess County Prosecuting Attorney subsequently contacted the State Auditor's Office (SAO) and requested an investigation.

Based on discussions with the Daviess County Sheriff and Prosecuting Attorney regarding missing cash receipts from utility payments and unsupported checks issued to the former City Clerk, the SAO conducted an initial review of these matters under Section 29.221, RSMo. After completion of this review of documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo. On August 16, 2017, the Board passed an ordinance formally requesting and authorizing an audit and the audit began on December 4, 2017.

The city's fiscal year is July 1 through June 30. The scope of our audit included, but was not necessarily limited to, the period from September 14, 2015, through August 2, 2017, the time period during which the former City Clerk was employed. We applied procedures to receipts and disbursements to identify the amount of missing monies and unsupported payments made to the former City Clerk and the methods used to perpetrate and conceal the theft. See Appendixes B and C for details regarding undeposited utility receipts and problems with the former City Clerk's utility account, and Appendixes D and E for details regarding improper payroll payments to the former City Clerk.

City of Coffey

Management Advisory Report

State Auditor's Findings

1. Missing Monies and Unsupported and Falsified Transactions

Utility receipts totaling at least \$33,984¹ were received but not deposited. In addition, unsupported payroll checks totaling \$24,634 were written to the former City Clerk, and payroll records indicate the former City Clerk was overpaid an additional \$1,556.

The lack of adequate controls and the absence of proper oversight by the Board of Aldermen, as discussed throughout this report, resulted in the missing receipts, improper payments, and over (under) payments going undetected for almost 2 years.

Undeposited utility receipts

Between September 2015 and August 2017, the former City Clerk did not deposit \$33,984 of recorded utility receipts (see Appendix B).

The former City Clerk recorded payments to multiple different records and did not ensure payments were consistently and properly recorded to all appropriate records. The former City Clerk recorded payments to the computerized utility system, manual receipt slips, utility billing stubs, utility deposit check register, and utility deposit listing. She also prepared unofficial payment stubs on a blank square of paper for some of the monies received. We compared payments recorded in these records to deposits to determine the amount of undeposited utility receipts. City records indicate approximately 98 percent of the undeposited receipts were cash payments.

The former City Clerk recorded unsupported utility payments for herself totaling \$2,645 (see Appendix C). These utility payments could not be traced to a deposit and are included in the total undeposited utility receipts amount mentioned earlier. The computerized utility system shows payments of \$2,523 (\$2,374 cash and \$149 check) recorded on the former City Clerk's personal utility account. Most of these payments were recorded on the last day of the month or the first day of the following month. It is likely this timing was to record payments just prior to preparation of the next month's utility billings. As a result, the former City Clerk's utility account did not show as delinquent and the possibility of a past due billing being generated was eliminated. In addition, a payment stub (sometimes used to record customer utility deposits) indicated she paid a \$122 deposit. The stub did not indicate a method of payment and we could not trace the payment to a deposit. Utility deposits are not recorded in the computerized utility system.

Improper payroll checks

Improper payroll checks totaling \$24,634 were written to the former City Clerk from the city's water and sewer bank accounts from April 29, 2016, through July 28, 2017 (see Appendix D). The former City Clerk wrote 136 payroll checks to herself during this time period, and 94 (69 percent) of these

¹ Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in Appendixes B, C, D, and E are exact.

City of Coffey
Management Advisory Report - State Auditor's Findings

checks were not supported by a timesheet or payroll report. In addition, 46 of the 94 improper checks were written for even dollar amounts. The remaining 42 checks were associated with a weekly timesheet and/or amounts recorded on payroll reports; however we noted discrepancies as discussed later in the report. The number of checks written to the former City Clerk and the checks written for even dollar amounts should have caused suspicion and alerted the Board to the misappropriation.

The memo line of some of these checks indicated a different payroll period than the city's actual payroll period, and some of the checks were written a few days prior to and after the regular payroll checks. In addition, one of these checks was not accurately recorded in the computerized accounting system (see MAR finding number 3.3). Regular payroll checks were supported by timesheets prepared by the former City Clerk. Timesheets reported hours worked for a typical work week (4 to 6 hours a day on Monday, Wednesday, and Friday) and additional time worked on days of Board meetings and other busy periods (i.e., preparation of utility billings). City payroll checks require 2 signatures, and these improper checks were signed by both the former City Clerk and former Mayor. However, as discussed at MAR finding number 2.2, the former Mayor's practice of signing blank checks in advance allowed the improper payroll checks to occur and go undetected.

Also, \$13,432 of improper payroll payments made during 2016 and \$11,202 of improper payroll payments and \$201 of regular payroll payments made during 2017 were not included on the former City Clerk's W-2 forms and not subject to payroll tax withholdings. The Internal Revenue Service (IRS) requires employers to report all compensation on W-2 forms and withhold and remit income and payroll taxes.

Payroll over (under)
payments

A comparison of the hours reported on timesheets to hours paid according to the payroll reports showed discrepancies and therefore, over (under) payments on 19 of the 42 former City Clerk's regular payroll checks. The former City Clerk was overpaid a net total of \$1,556 from November 2015 through August 2017 (see Appendix E). The over (under) payments occurred because the former City Clerk entered different hours into the payroll report than she recorded as being worked on her timesheets. We determined the over (under) payment amounts assuming the hours recorded on the timesheets signed by the former City Clerk were accurate.

Falsified document

According to city officials, the former City Clerk created false meeting minutes (see Appendix F) indicating a special Board meeting was held on February 23, 2017, authorizing a withdrawal from one of the city's savings accounts and subsequent deposit into 3 other city bank accounts. The Board members signatures affixed to the meeting minutes were copied from another city document and attached to the meeting minutes. The former City Clerk then copied this document and used white out to conceal the line where the original documents were attached. This false document was faxed to the bank

City of Coffey
Management Advisory Report - State Auditor's Findings

by the former City Clerk to authorize the withdrawal and subsequent deposit of city funds. The unauthorized withdrawal and deposit of monies allowed the former City Clerk to conceal a portion of the shortages in the sewer, water, and solid waste bank accounts caused by the undeposited receipts and improper payments.

The falsified meeting minutes indicate 5 Board members and the former City Clerk were present at the special meeting, where the Board approved withdrawing \$1,500 from the city's savings account and depositing \$850 to the sewer bank account, \$300 to the water bank account, and \$350 to the solid waste bank account. Several Board members confirmed no meeting occurred on February 23, 2017, and they did not approve the withdrawal of monies from the savings account. Also, the former City Clerk's timesheets did not report any hours worked on that date for a Board meeting. This withdrawal from the savings account and subsequent deposits into 2 of the bank accounts indicated above, was not recorded in the computerized accounting system by the former City Clerk and the remaining deposit was not recorded until April 24, 2017 (see MAR finding number 3.3).

Overall conclusion

The lack of segregation of duties, inadequate controls, and the absence of proper oversight by the Board, as discussed in the remainder of this report, resulted in undeposited utility receipts, improper payroll checks, and over (under) payments and allowed these problems to occur without detection for almost 2 years. Given the large amount of utility receipts that were not deposited, the large number of and unusual nature of the improper payroll checks, it is apparent city financial activity was not adequately monitored. In addition, the former City Clerk's husband was a member of the Board and approved some of the payments made to his wife, creating a conflict of interest (see MAR finding number 2.1).

Recommendation

The Board of Aldermen work with law enforcement officials regarding criminal prosecution of the undeposited utility receipts, improper payroll checks, payroll over (under) payments, and the falsified meeting minutes, and take the necessary actions to seek restitution. The Board should also ensure payroll taxes are properly withheld and all compensation reported on W-2 forms, and amend W-2 forms for unreported compensation, as appropriate.

Auditee's Response

We will continue to work with law enforcement regarding criminal prosecution and restitution. We will also contact the IRS and Missouri Department of Labor and Industrial Relations to determine the appropriate reporting methods.

City of Coffey
Management Advisory Report - State Auditor's Findings

2. Conflict of Interest, Board Objectivity, Oversight, and Annual Audits

Some activities involving former Alderman Browning created a conflict of interest, and the employment of relatives directly supervised by the Board can compromise the Board's objectivity. Despite similar concerns in our prior petition audit of the city, Report No. 2014-26, released in April 2014, the Board of Aldermen have not established adequate oversight of the City Clerk position or obtained annual audits as required by state law.

2.1 Conflict of interest and objectivity

Former Alderman Browning created a conflict of interest when he voted to approve salary increases and payroll checks to his wife, the former City Clerk. In addition, the current City Clerk is the daughter of 2 of 4 current Board members, and the Board has not established policies and procedures to address employment and supervision of a related employee. As a result, the objectivity and effectiveness of the Board may be compromised.

The February 12, 2016, meeting minutes indicate the Board (including former Alderman Browning) approved a 50 cent per hour salary increase for the former City Clerk. Former Alderman Browning's action of voting to approve his wife's salary increase violated state law. In addition, meeting minutes for 15 monthly meetings between October 2015 and July 2017, indicate the Board (including former Alderman Browning) approved paying bills, which included improper payroll checks and regular payroll checks, some of which included over (under) payments to the former City Clerk (see Appendixes D and E). These 15 monthly meetings include October through December of 2015; February through April and July, August, and October of 2016; and January through May and July 2017. The November 16, 2015, meeting minutes also indicate former Alderman Browning voted to approve adding his wife as an authorized signer on city bank accounts. Former Alderman Browning was not in attendance or abstained from approving salary increases and payments to his wife in the other 7 months.

The Board directly supervises the duties of the City Clerk, who is solely responsible for the financial accounting functions and records of the city as discussed in section 2.2. The supervision of a relative may compromise a supervisor's objectivity when assigning duties, reviewing and approving records and transactions prepared by the related employee, or evaluating employee performance.

Section 105.452.1(4), RSMo, mandates that no elected official of any political subdivision shall favorably act on any matter that is so specifically designed so as to provide a special monetary benefit to such official or his spouse. The Missouri Supreme Court has stated, "A public officer owes an undivided loyalty to the public whom he serves and he should not place himself in a position which will subject him to conflicting duties or expose him to the temptation of acting other than in the best interests of the public." *State ex rel. St. Louis County v. Kelly*, 377 S.W. 2d 328, 332 (Mo. 1964) (quoting 43 Am. Jur., Public Officers, § 266, p. 81). Personal interests in

City of Coffey Management Advisory Report - State Auditor's Findings

business matters of the city create actual or the appearance of conflicts of interest, and a lack of independence could harm public confidence in the Board and reduce its effectiveness.

2.2 Oversight and segregation of duties

Despite concerns related to the former City Clerk's handling of disbursements and utility payments and prior audit findings, the Board has not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation and proper oversight by the Board. There is little assurance city monies have been handled and accounted for properly.

The position of City Clerk has been and remains solely responsible for the record-keeping duties of the city, including receiving, recording, and depositing monies; preparing invoices for payment; maintaining payroll records; preparing and distributing payroll and accounts payable checks; preparing and distributing monthly utility billings; generating utility reports; preparing monthly bank reconciliations; transferring monies between bank accounts; preparing financial reports for Board meetings; and preparing budgets and financial statements. Board members indicated the former Mayor was responsible for reviewing the monthly bank statements and reconciliations; however, based on the various problems reported these procedures were ineffective.

In addition, Board members indicated the former Mayor often signed blank checks in advance. Two signatures are required on checks (typically the Mayor and City Clerk). Signing checks in advance is a significant control weakness, diminishes the control intended by multiple signatures, and allowed the improper payroll disbursements to occur.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board.

2.3 Annual audits

The city does not obtain annual audits as required. The last independent financial statement audit of city finances occurred for the fiscal year ended June 30, 2015. City officials contracted for the audit because of a recommendation in our prior petition audit of the city, but regular audits have not become a routine procedure.

Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system, and the cost of the audit is to be paid from the revenues received from the system.

City of Coffey
Management Advisory Report - State Auditor's Findings

Overall conclusion

The Board's lack of objectivity and proper oversight and failure to establish adequate controls allowed the undeposited utility receipts, improper payroll payments, and payroll over (under) payments to occur and go undetected for almost 2 years. Had proper controls and oversight procedures been in place and an annual audit obtained, some of the problems noted in this report may have been detected more timely and/or prevented.

Recommendations

The Board of Aldermen:

- 2.1 Closely examine city transactions to identify apparent and actual conflicts of interest and adopt procedures to address the employment and supervision of relatives.
- 2.2 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, the Board should not allow any check signers to sign checks in advance.
- 2.3 Obtain annual audits of the waterworks and sewerage system as required by state law.

Auditee's Response

- 2.1 *The Mayor reviews all checks and bills. Additionally, the Mayor and the current City Clerk will sign the timesheets documenting approval. The 2 related Board members will abstain from voting on any transactions related to their daughter, the current City Clerk.*
- 2.2 *The Mayor performs a documented review of the bank statements and reconciliations. The Mayor will not sign any checks in advance and reviews all checks and bills, including timesheets. We review all non-regular bills and question unusual transactions. In the future, the Mayor will review utility and deposit reports and compare them to deposits.*
- 2.3 *We agree and will ensure annual audits are obtained.*

3. Accounting Controls and Procedures

Significant weaknesses exist in the city's accounting controls and procedures.

3.1 Receipting and depositing procedures

The city's procedures for receipting and depositing monies are poor.

- The former City Clerk did not always issue receipt slips for monies received. City officials indicated the former City Clerk's procedure for the collection of monthly utility payments included issuing manual receipt slips, documenting amounts received on payment stubs, and recording receipts in the computerized utility system. The former City

City of Coffey
Management Advisory Report - State Auditor's Findings

Clerk's procedures for the collection of utility deposits included issuing manual receipt slips, documenting amounts received on payment stubs, and recording the deposits on a utility deposit listing or on the utility deposit bank account check register. The former City Clerk did not issue receipt slips for property taxes and franchise fees received.

- All copies of some receipt slips were missing from the receipt books. Also, the top copy of some voided receipt slips was not retained. From September 14, 2015, through August 2, 2017, 8 receipt slips were missing from the receipt books, and the top copy of 10 voided receipt slips were not retained.
- As noted in our prior petition audit, city personnel do not consistently indicate the method of payment, or reconcile the method of payment to the composition of receipts recorded in the computerized utility system or to the deposit. The method of payment was not recorded for 3 utility deposits received totaling \$365.
- The former City Clerk generally made deposits 4 times a month regardless of the amount of monies on hand. Each deposit was typically more than \$1,000. In addition, she did not deposit receipts intact.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of monies will go undetected.

3.2 Bank accounts, reconciliations, and fees

Controls and procedures over bank accounts and reconciliations need improvement.

Number of bank accounts

Despite a similar concern in our prior petition audit of the city, the city continues to maintain an excessive number of bank accounts, resulting in cumbersome record keeping. The city maintains 9 checking accounts (an account for each of the city's 9 funds), a savings account, and 4 certificates of deposit. Several transfers between accounts were necessary to ensure restricted utility collections were held in the appropriate account. The high number of bank accounts may have helped conceal the undeposited utility receipts and the improper payroll checks.

Bank reconciliations

The former City Clerk did not perform monthly bank reconciliations from March 2017 through July 2017.

Overdraft and minimum balance fees

The Board and the former City Clerk failed to monitor the city's cash balances. As a result, the city incurred \$280 in overdraft fees and \$170 in minimum balance fees in the general, sewer, sewer depreciation, solid waste, and utility deposit bank accounts. The city began to incur these fees in November 2016, and they continued until July 31, 2017. A bank official contacted a Board member in early August 2017, regarding the various and

City of Coffey Management Advisory Report - State Auditor's Findings

frequent bank fees incurred, the number of transfers between bank accounts, and the lack of cash being deposited into city bank accounts.

The city may benefit from combining some bank accounts. A high number of bank accounts require additional record keeping and increases the likelihood that errors may occur. The preparation and retention of formal monthly bank reconciliations is necessary to ensure accounting records are accurate and in balance and to identify errors timely. To prevent bank account overdraft and minimum balance charges, city officials should more closely monitor bank account balances.

3.3 Accounting records and financial statements

Despite a similar concern in our prior petition audit of the city, city officials do not maintain accurate accounting records and financial statements.

- Some transactions were not accurately recorded in the computerized accounting system, and the dates recorded on the actual checks differed from those recorded in the computerized accounting system.

As noted in MAR finding number 1, the former City Clerk withdrew \$1,500 from the city's savings account and deposited \$850 in the sewer bank account, \$350 in the solid waste bank account and \$300 in the water bank account, but did not record the \$1,500 withdrawal and \$850 and \$300 deposits in the computerized accounting system. In addition, the \$350 deposited into the solid waste bank account was not recorded in the computerized accounting system until April 24, 2017.

Also, the former City Clerk recorded checks issued to herself incorrectly in the computerized accounting system, and the dates recorded on the actual checks differed from those recorded in the computerized accounting system. For example, the former City Clerk recorded check number 5392 on the sewer account check register on February 17, 2017, for \$303 for the pay period February 1 through February 17, 2017; however, she later voided this transaction. She subsequently recorded a disbursement in this check register (no check number was assigned) dated March 16, 2017, for \$201 for the same pay period of voided check number 5392. Check number 5392 was not actually voided, but was written for \$201 and issued to the former City Clerk. This check cleared the bank on March 17, 2017.

We identified numerous other instances where transfers and disbursements were not properly recorded in the computerized accounting system.

- The semiannual financial statements prepared by the former City Clerk were misleading and significantly inaccurate. For example, the semiannual financial statement for the 6 months ending December 31,

City of Coffey
Management Advisory Report - State Auditor's Findings

2016, overstated the city's cash balances of various checking accounts as follows:

Bank account	Cash Balances	
	per Semiannual Financial Statement	Actual Reconciled Cash Balances
General	\$ 3,307	52
Street	656	207
Water	8,849	230
Sewer	8,946	700
Sewer Revenue	5,084	4,184
Solid Waste	7,060	516
Utility Deposit	5,284	701
Late Fees	3,348	361
Total	\$ 42,534	6,951

- The former City Clerk prepared packets for Board members for each monthly meeting and most information contained in the packets was inaccurate. For example, the former City Clerk prepared a report for the Board showing cash balances for each fund as of May 31, 2017, which reported inaccurate bank balances as follows:

Bank account	Cash Balances	
	per Board Report	Reconciled Cash Balances per Audit
General	\$ 3,466	88
Street	1,151	63
Water	8,941	104
Sewer	8,103	(355)
Sewer Revenue	5,684	4,184
Sewer Depreciation	4,516	501
Solid Waste	7,964	(305)
Utility Deposit	5,401	282
Late Fees	4,258	30
Total	\$ 49,484	4,592

In addition, the June 2017 packet included a listing of May 2017 disbursements showing a total of \$6,231 although actual disbursements totaled \$8,948. Most disbursements listed did not agree to the actual checks written and several checks written to the former City Clerk were not included on the list. However, the Mayor and all 4 Board members (including the former City Clerk's husband) initialed this listing documenting their review.

City of Coffey Management Advisory Report - State Auditor's Findings

As noted in the previous tables, most of the city's bank account balances were depleted over the course of the former City Clerk's employment; however, she falsely reported bank balances to the Board and to the public. The inaccurate bank balances reported showed a slight increase from balances maintained at July 1, 2015, just a few months prior to her employment, consistent with the Board's expectations of the city's financial condition; thus not identifying the large decline in overall account balances.

It is apparent the Board did not review the semiannual financial statements or financial reports and lists of bills included in the packets for accuracy or compare this information to any supporting documents such as invoices, checks written, or bank statements.

The inaccurate financial activity reported to the Board helped conceal shortages in these bank accounts. To be of maximum assistance to the Board and to adequately inform the public, the city's records should accurately report financial activity and account balances.

3.4 Excessive and unauthorized transfers and commingling of restricted funds

The former City Clerk made excessive and unauthorized transfers between various bank accounts, and did not always deposit utility receipts into the proper bank account, which led to commingling of restricted funds. The excessive and unauthorized transfers and incorrect deposits helped conceal shortages in city bank accounts.

- The city's accounting records indicated 60 transfers totaling almost \$45,000 were made between bank accounts during the period September 14, 2015, through August 2, 2017. Eighty percent of these transfers were for small dollar amounts (less than \$1,000). The majority of these transfers were not approved by the Board and inappropriately made from various restricted funds. Appendix A also shows the amount of transfers made during the year ended June 30, 2017.
- The former City Clerk routinely deposited incorrect amounts of utility receipts into the city's bank accounts. For example, the April 18, 2017, utility report indicated total collections of \$922, of which \$408 was for water services, \$384 was for sewer services, \$115 was for solid waste services, and \$15 was late fees and should have been deposited into those respective bank accounts. However, \$347 was deposited into the water bank account, \$320 was deposited into the sewer bank account, \$114 was deposited into the solid waste bank account, \$20 was deposited into the general bank account, \$0 was deposited into the late fees account, and \$121 (the only cash collected) was not deposited.

To ensure restricted monies are used for the intended purpose, monies received should be deposited into the appropriate bank account. In addition, Section 250.150, RSMo, restricts the use of water and sewer monies for operating the systems, payment of bonds, establishment of a reserve,

City of Coffey
Management Advisory Report - State Auditor's Findings

fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems.

3.5 Utility deposits

The list of refundable utility deposits was not accurate and not reconciled to the balance of the utility deposit bank account.

New customers are required to pay a \$122 refundable deposit for homeowners and a \$222 refundable deposit for renters before receiving utility services.

The city's list of refundable utility deposits totaled \$6,253 as of August 2, 2017; however, the bank balance of the utility deposit account was only \$95, a shortage of \$6,158. In addition, the city had 71 utility customers as of August 2, 2017, but only 41 had refundable utility deposits included on the list.

To ensure all utility deposits received from customers are accounted for properly, the Board should review utility deposit records and bank account balances for accuracy.

Recommendations

The Board of Aldermen:

- 3.1 Require receipt slips be issued for all monies received with the method of payment indicated, the composition of receipts be reconciled to the composition of amounts recorded and deposited, receipt slips (including the top copy of voided receipt slips) be retained, and monies received be deposited timely and intact.
- 3.2 Review the number of bank accounts. The Board should also ensure monthly bank reconciliations are prepared and reconciled timely, and any differences are promptly investigated and resolved. The Board should also properly monitor bank account balances to avoid bank fees.
- 3.3 Ensure accounting records and financial reports are accurate. The Board should perform adequate reviews of financial reports and checks written before approving.
- 3.4 Monitor and reduce the number of transfers made between bank accounts and ensure monies received are deposited in the appropriate bank accounts.
- 3.5 Reconcile the utility deposit listing monthly to the utility deposit bank account balance. Any discrepancies should be investigated and resolved.

Auditee's Response

- 3.1 *Manual receipt slips are now issued for all monies received, which indicate the composition of the receipt. Reports now document the*

City of Coffey
Management Advisory Report - State Auditor's Findings

composition of receipts, which are reconciled to deposit slips. All copies of voided receipt slips are now retained, and deposits are now made in accordance with city ordinance, which require funds on hand greater than \$500 to be deposited.

- 3.2 *We will consider consolidating bank accounts. Monthly bank reconciliations are now being performed. The Mayor now reviews the bank reconciliations and ensures no bank fees are being incurred.*
- 3.3 *Monthly financial reports are presented to the Board and are now reviewed by the Board and Mayor and compared to the accounting records for accuracy. In the future, we will review and approve the semiannual financial statements for accuracy. We review all non-regular disbursements and the Mayor reviews all checks he signs and the related bills.*
- 3.4 *Transfers have been minimized, and we will approve all transfers. The Mayor is reviewing bank statements for transfers. The current City Clerk prepares a deposit report that indicates the amount deposited into each restricted fund.*
- 3.5 *The current City Clerk has updated the utility deposit list. We transferred monies into the utility deposit account to cover the shortages. Discrepancies will be investigated and resolved.*

4. Electronic Data Security

Controls over the city's computer are not sufficient. As a result, city records are not adequately protected and are susceptible to unauthorized access or loss of data. In addition, the city made questionable disbursements for software technical support services.

4.1 Passwords

The city has not established adequate password controls to reduce the risk of unauthorized access to the city's computer and data. The City Clerk was not required to change passwords periodically or have a minimum number of characters in the passwords.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed or contain a minimum number of characters, there is less assurance passwords are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of the city's computer and data.

4.2 Security controls

Security controls are not in place to lock the city's computer after a specified number of incorrect logon attempts or after a certain period of inactivity.

City of Coffey
Management Advisory Report - State Auditor's Findings

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

4.3 Antivirus software

The city did not have antivirus software installed on the city's computer to ensure protection of city data. Maintaining adequate antivirus software is critical to a computer's protection.

4.4 Data backup

The City Clerk does not store data backup files at an off-site location. Off-site storage would provide reasonable assurance data could be recovered if necessary. To help prevent loss of information and ensure all essential information and computer systems can be recovered, backup files should be stored at a secure off-site location.

4.5 Software technical support service

The city did not obtain adequate documentation for 2 disbursements pertaining to software technical support services. On October 21, 2016, 2 electronic debit withdrawals, one for \$269.99 and another for \$299.99, were made from the city's general bank account payable to a software technical support service company without detailed invoices. The related invoices only indicate "software technical support service 1 computer" and documented the electronic signature of the former City Clerk indicating she was satisfied with the support services provided. These were the only instances noted where the former City Clerk utilized an electronic signature. The electronic signature was a printed signature and the former City Clerk typically wrote her signature in cursive. Our internet search of the software technical support service company indicated the firm has been associated with several technical support scams. Considering the city has only one computer, it is questionable why 2 payments were invoiced for the same software technical support service on the same day.

Images of canceled checks payable to this vendor were included with the city's bank statements and the check images did not resemble other city checks. One check had a check number that was within the city's check sequence; however, the city had already issued a check with that number (see the first check on the next page). Check number 2510 was not within the city's check sequence. The checks issued to this vendor also had various differences including the payee listed and the format. Neither of the checks included authorized signatures of city officials. The first check image presented is an actual city check and the second and third checks are the check images for payments made for the software technical support services. The city's bank account, routing numbers, and membership number have been redacted.

As noted throughout the report, a proper review by the Board of bank account information and city disbursement records should have identified these unusual transactions. To ensure obligations were actually incurred and amounts paid were proper, all disbursements should be supported by paid receipts, itemized vendor invoices or other detailed documentation; and undergo a careful review process.

City of Coffey
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Aldermen:

- 4.1 Require employees use unique passwords that are confidential, contain a minimum number of characters, and are periodically changed to prevent unauthorized access to the city's computer and data.
- 4.2 Ensure the city's computer has security controls in place to lock after a specified number of incorrect logon attempts and after a certain period of inactivity.
- 4.3 Ensure the city's computer is adequately protected from computer viruses.
- 4.4 Ensure backup files are stored at a secure off-site location.
- 4.5 Maintain adequate supporting documentation for all disbursements.

Auditee's Response

- 4.1 *The current City Clerk is the only employee with computer access and a unique password is required that is kept confidential. Passwords now require a minimum number of characters and are changed quarterly.*
- 4.2 *We have controls now for computer inactivity and will consider controls for incorrect logon attempts.*
- 4.3 *This recommendation has been implemented.*
- 4.4 *Backups are being stored off-site.*
- 4.5 *Adequate supporting documentation will be retained for all disbursements and the Mayor will monitor the bank statements for unusual checks.*

City of Coffey

Organization and Statistical Information

The City of Coffey is located in Daviess County. The city was incorporated in 1965 and is currently a fourth-class city. The city employed 2 part-time employees on June 30, 2017.

City operations include utilities (water, sewer, and solid waste removal).

Mayor and Board of Aldermen

The city government consists of a mayor and a 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at August 2, 2017, are identified below. The Mayor and Board of Aldermen members are paid \$20 per regular meeting. The compensation of these officials is established by ordinance.

Barbara Miller, Mayor (1)
Virgil Griffin, Alderman
William Browning, Alderman (2)
Julia Bayne, Alderwoman
Carolyn Griffin, Alderwoman

(1) Barbara Miller resigned in October 2017, and the Board appointed Ralph Ray as Mayor.
(2) William Browning resigned in September 2017, and the Board appointed Maxine Kennedy as Alderwoman.

Financial Activity and Supporting Documentation

Appendix A is a summary of the city's financial activity for the year ended June 30, 2017. The information was prepared using the city's check registers and bank statements.

Appendixes B, C, D, E, and F provide supporting documentation of undeposited utility receipts, unsupported and undeposited utility payments recorded for the former City Clerk's utility account, improper payroll checks issued to the former City Clerk, over (under) payroll payments made to the former City Clerk, and a falsified document.

	<u>\$ 2,644.65</u>			

(1) The total amount of cash deposited with other monies recorded at these times indicates the former City Clerk's utility payments were not deposited (See Appendix B).

(2) This check was not included in any deposits.

* Utility receipts were recorded in the computerized utility system.

** The payment was recorded on a manual utility payment stub.

February 23, 2017
CITY OF COFFEY
SPECIAL BOARD MEETING MINUTES

Mayor Barbara Miller called the meeting to order at 6:30 p.m.

Council members present: Mayor Barbara Miller, Aldermen Virgil Griffin, William Browning, Julia Bayne and Carolyn Griffin. Others present were Mary Lou Browning, City Clerk.

The council was in an open special session to discuss withdrawing monies from the Savings Account [REDACTED] and apply monies into Water, Sewer and Solid Waste Accounts with BTC Bank.

The Council discussed withdrawing \$1,500.00 from the Savings Account [REDACTED] and apply \$850.00 into the Sewer Fund Account [REDACTED], then apply \$300.00 into the Water Fund Account [REDACTED] and apply \$350.00 into the Solid Waste Account [REDACTED], Julia Bayne made a motion to transfer monies as mentioned and stated above, Carolyn Griffin seconded with all in favor. Voting went as follows: Julia Bayne, Aye; Carolyn Griffin, Aye, William Browning, Aye, and Virgil Griffin, Aye.

The Council unanimously decided to adjourn the Special Meeting.

Meeting adjourned at 6:35 p.m.

Next Meeting is set for March 13, 2017 at 5:00 p.m.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Putnam County Memorial Hospital Board
and
Putnam County Commission
Unionville, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2017-074, *Putnam County Memorial Hospital* (rated as Poor), issued in August 2017, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the hospital's management about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation and held discussions with hospital personnel and board members to verify the status of implementation for the recommendations. Documentation provided by hospital personnel and board members included minutes of meetings, financial records, written contracts and agreements, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during March, April, and May 2018.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name of the State Auditor.

Putnam County Memorial Hospital

Follow-Up Report on Audit Findings

Status of Findings

1.1 Lack of Board Oversight - Management contracts	The Board of Trustees did not perform sufficient due diligence over the process of awarding management contracts and did not adequately document how decisions related to the hiring of management companies were made or retain sufficient documentation to show discussions with legal counsel occurred prior to entering into the contracts.
Proposals not formally requested, procured, or analyzed	The Board entered into management services contracts in April 2012 with Practice Plus, Inc. (Practice Plus), and again in September 2016 with Hospital Partners, Inc. (Hospital Partners). The Board entered into both contracts without requesting formal bids or proposals for such services. Board minutes did not document what, if any, documents or presentations the Board received from the prospective management companies or how or what led to the decision to enter into agreements with these firms.
Lack of adequate documentation to support contract reviews	The Board could not provide adequate documentation to show discussions with legal counsel occurred prior to entering into the management contract with Hospital Partners. The Board signed the agreement without adequate legal counsel input despite the County Commission's offer to pay for legal services and despite the contract being drafted by the entity being contracted with.

As a result of inadequate legal review, the management contract included an indemnity clause. Such a clause left the Board and the hospital potentially liable for any fraudulent or negligent activity of the contractor, which was unusual for a contract of this nature. The contract also omitted basic financial terms defining how much the contractor was to be compensated.

Recommendation

The Board establish procedures to provide sufficient due diligence over the awarding of contracts. The Board should also document how and why final decisions are made in order to support the decision made was in the best interest of the hospital. In addition, the Board should ensure legal counsel perform a formal, documented review prior to entering into future contracts in order to ensure the contracts do not include broad indemnity clauses.

Status

In Progress

The Board has taken steps to improve its oversight of contracts and has obtained legal representation to help ensure any future contracts are adequately reviewed. The Board issued a request for proposals for a new management company with a deadline of May 1, 2018, but received no official responses. However, the Board has been corresponding with a potential vendor who may have an interest in managing the hospital.

In addition, in June 2017 the Board hired an attorney who specializes in healthcare law as the Board's official legal counsel to represent it in all decisions. The attorney will formally review any new contracts the Board is

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

considering, and in the future the Board will sufficiently document how decisions made are in the best interest of the hospital. The attorney's role is to both act in and protect the hospital's best interest for any future agreements or significant operational, management, ownership, or other changes. In March 2018, he reviewed an engagement letter between the hospital and a consulting firm prior to the Board's final approval.

1.2 Lack of Board
Oversight - Oversight
of management
compensation

The Board did not ensure personnel were in place to provide oversight of management company activities, and did not provide sufficient direct oversight of the compensation paid to the companies, including salaries paid to executive administration personnel.

Hospital Partners
compensation and fees

The new CEO, who was also the President of the management company, approved his own salary, and paid his own management company management and accounting fees not specified in the management contract. The contract with Hospital Partners did not contain any compensation terms for the CEO or contain a specific management fee structure for work performed. In addition, the Board did not ensure other hospital officials not associated with the contractor monitored the activity of the management company.

The new CEO initially approved an annual salary for himself of \$160,000 and, over the next 5 months, directed the hospital's human resources personnel to increase his annual salary to \$180,000, and eventually to \$200,000. Board members indicated they were aware the CEO may be included in the hospital's payroll and thus receive a salary; however, the Board Chairman indicated a salary amount for the CEO was not discussed and approved by the Board prior to March 2017, when we discussed this issue with the Board.

The CEO also directed hospital staff to pay management and accounting fees totaling \$360,000 from September 2016 through February 2017 to Hospital Partners, none of which were outlined and defined in the management services contract or discussed in Board meeting minutes. Board members indicated they were not aware the hospital was making these payments although they approved the check register, which includes these expenditures, at each monthly Board meeting.

Recommendation

The Board establish procedures to ensure sufficient oversight of contracts is performed and provide direct oversight of the compensation paid to management companies and executive administration personnel.

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

Status

Partially Implemented

In September 2017, former CEO David Byrns informed the Board that he was retiring and selling his interest in the business to his business partner Jorge Perez, and subsequently resigned as the hospital's CEO. Prior to that, he appointed an administrator to assist with overseeing operations temporarily. In October 2017, the Board appointed long-time hospital employee and former Director of Nursing Gayle Pickens as CEO. If a new management company takes control of hospital operations, the Board intends to retain the CEO in her current position or a similar alternate position so there is proper oversight of the activities of the management company and the Board does not fully relinquish control of day to day operations.

The hospital discontinued paying the monthly management fee to Hospital Partners effective September 12, 2017. However after that date, hospital management continued to approve large wire transfers to Empower HIS LLC for billing fees, and approved wire transfers directly to the accounts of certain laboratories or other vendors associated with Empower HIS LLC without adequate documentation to support the amounts billed. For example, emails from January and February 2018 indicate the Controller of Empower HIS LLC routinely requested up to \$170,000 be wired immediately to his company and two other unknown vendors, without always providing sufficient supporting documentation as to the purpose of the transfer or how the transfer amount was determined. The current CEO indicated she and other personnel with accounting duties were repeatedly instructed by Byrns and his colleagues to follow instructions and directives of management and billing companies and not to ask any questions about the laboratory billings. As a result of the lack of documentation provided to the Board, the Board had little assurance the hospital was retaining the 14 percent of lab revenues allowed after paying approximately 80 percent of lab revenues for laboratory management fees and 6 percent of lab revenues to the billing company per the signed agreements. The hospital terminated the billing agreement with Empower HIS LLC as of April 20, 2018.

The Board's attorney and a consulting firm are currently working to determine if the hospital is owed any additional monies from the management company, laboratory management companies, or billing company. Board members indicated they will ensure any future contracts the hospital enters into include clear and definite terms for fees, expenses, reimbursements, and other forms of compensation.

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

1.3 Lack of Board
Oversight - Laboratory
contracts and
questionable laboratory
billings

The Board did not provide appropriate oversight of laboratory contracts entered into by the CEO/management company President. As a result, the hospital incurred unnecessary payroll costs, and was involved in questionable laboratory billing practices.

Laboratory contract and
payroll costs

In October 2016, the hospital contracted with Hospital Laboratory Partners, LLC¹ (Hospital Lab Partners) to operate all clinical and operational aspects of a clinical laboratory on behalf of the hospital. The Board did not formally approve the contract, did not provide any oversight of the terms of the contract, and was not aware of any of the contract's terms or the hospital's obligations to the contractor. Due to this lack of oversight, beginning in November 2016, the former CEO added payroll expenses of approximately \$68,000 per month for 33 phlebotomists to facilitate laboratory activity, in violation of the contract's terms.

As a result of our inquiries about these payroll expenses, the former CEO stated Hospital Lab Partners had reimbursed the hospital for the costs. However, in verifying this information the former CEO was only able to provide documentation of a journal entry on the hospital's financial system, but could not provide evidence that a check was deposited or monies wired into the hospital's bank account.

Questionable laboratory
billing practices

The hospital's laboratory contract with Hospital Lab Partners resulted in a significant increase of questionable revenues from laboratory billings of health insurance companies.

From November 2016 through February 2017 the hospital paid Hospital Lab Partners \$19.8 million for laboratory billings received. However, as of January 23, 2017, the hospital's Unionville, Missouri lab had not begun processing tests, according to discussions with the former CEO, but billings for the lab had begun immediately upon Hospital Partners signing the management agreement with the Board. Our review of lab billings received by the hospital indicated the originating activity was for out-of-state patients for lab work not conducted in Putnam County.

During the audit, the State Auditor's Office was contacted by the fraud examiner of a private insurance company in Florida that had recently denied claims of approximately \$700,000 from the hospital due to the excessive cost of the claims, a lack of documentation to support the claims, and indications the billings may be fraudulent. This individual referred us to a fraud

¹ Hospital Lab Partners was incorporated in Florida on October 13, 2016, and entered into the Putnam County Hospital laboratory contract on October 20, 2016.

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

investigator for a second, much larger, private insurance company who stated payments of up to \$4.3 million in what the company considered fraudulent claims had been paid to the hospital in recent months. Based on this information, the second insurance company was no longer paying any claims from the hospital because the billings submitted were pass-through billings, which were indicative of a fraud scheme. Continued use of such questionable laboratory billings could leave the hospital at risk.

Laboratory subcontractors

In addition to the lab management fees paid to Hospital Lab Partners, the hospital also paid approximately \$10.6 million in lab management fees without adequate supporting documentation to other subcontracted laboratories from November 2016 through February 2017. Without adequate documentation to support the expenditures there was no assurance the payments were for legitimate hospital business.

Questionable use of
phlebotomy services

The employment of 33 primarily out-of-state phlebotomists to perform pre-laboratory services throughout the country was a questionable practice, and could put the hospital at risk. Based on documentation provided by hospital personnel, the phlebotomists on the payroll work out of various medical practices throughout the country.

It was unclear why the CEO placed staff from 33 different medical practices on the hospital's payroll, however, such practices may not be legitimate, and could put the hospital at risk if questioned.

Recommendation

The Board recover payments made to laboratory-related staff and ensure laboratory contract terms are followed going forward, and provide additional oversight of laboratory activity to ensure activity being billed is appropriate.

Status

In Progress

The questionable laboratory billings are no longer occurring at the hospital. The Board terminated the management agreement with Hospital Partners, Inc. as of February 28, 2018, and terminated the billing agreement with Empower HIS LLC as of April 20, 2018. The hospital is currently performing billing duties in house with plans to issue a request for proposal for a new billing company in the near future. According to the Board, the hospital's legal counsel is continuing to research all agreements, contracts, and other correspondence established during the time Hospital Partners, Inc. managed operations and will take appropriate measures to recover any monies due to the hospital if there are any.

The Board removed all out-of-state phlebotomists from the hospital's payroll effective October 31, 2017. We found no indication the management company had reimbursed the hospital for the cost of these personnel, though the Board's attorney is considering this issue as part of his ongoing

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

investigation. According to the hospital's accounting records, the hospital paid approximately \$2.3 million to Empower HIS LLC, \$2.2 million to Hospital Laboratory Partners, LLC, and \$18.4 million to at least 10 other labs for billing and lab management fees from July 1, 2017 through April 30, 2018.

Similar laboratory billing practices to those discussed in the audit report have resulted in ongoing litigation between major private insurers and entities and individuals related to Hospital Partners. In a complaint filed in the U.S. District Court for the Northern District of Georgia, insurers allege Jorge Perez, Vice President of Hospital Partners, assisted "in the management of [a] pass-through billing scheme" at Chestatee Regional Hospital² located in Georgia causing plans to reimburse improper laboratory claims totaling approximately \$111 million. The complaint also states had the claims been billed to the plans directly by the laboratory or the other non-participating laboratories where the testing was performed, many of the claims would not have been paid, and those that were would have been paid at substantially lower rates. A similar practice at the former Campbellton-Graceville hospital in Florida resulted in one lab receiving about \$25 million in improper reimbursements. In 2015, a former laboratory company agreed to pay \$256 million to the U.S. Department of Justice to resolve allegations that it billed Medicare "many millions of dollars' worth" of urine drug testing claims that were "not reasonable and necessary or that were furnished pursuant to prohibited referrals" in violation of the Anti-Kickback Statute, 42 U.S.C. § 1320a-7b(b), and other statutes.

The hospital has made efforts to increase legitimate lab activity. In an effort to continue to provide lab services and increase revenues, the hospital is processing approximately 20 lab specimens per day for a small hospital based in Arkansas, in addition to any activity generated from the hospital or the clinic. The hospital does not bill insurers directly for the services performed for the Arkansas hospital, but generates revenue through billing that hospital for services provided.

2. Financial Condition

The hospital was in extremely poor financial condition. According to discussions with the hospital's Controller, accounting firms had been unwilling to perform a financial statement audit of the hospital in recent years due to a lack of resources for payment.

The hospital's financial condition had steadily declined since we reported similar concerns in our 2 year-end December 31, 2011, audit report of Putnam County.³ In addition, several prior financial statement audit reports, including

² Complaint (Mar. 28, 2018), *Blue Cross and Blue Shield of Georgia, Inc., et al. v. DL Investment Holdings. LLC, et al.* N.D. Ga. (No. 1:18 CV 01304).

³ Report No. 2012-058, *Putnam County*, issued in June 2012.

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

the audit report for the year ended June 30, 2014, identified a going concern issue with the hospital (conditions and events given rise to substantial doubt about the entity's ability to continue).

The hospital's audited and unaudited financial information indicated net position had been consistently negative and continued to worsen, and the hospital had continued to operate at a deficit since at least the year ended June 30, 2013.

For the year ended June 30, 2016, actual revenues totaled \$7.5 million, or approximately 49 percent of the \$15.2 million budgeted revenues. In addition, although the hospital expended only \$11.1 million of the \$15.4 million expenditure budget, actual expenditures exceeded actual revenues by approximately \$3.6 million.

As the hospital's financial condition continued to worsen, hospital management began using tax anticipation notes and promissory notes to obtain funding to pay hospital expenses. From 2011 to 2015, hospital management financed funding of \$1,410,000 through various tax anticipation notes and promissory notes.

Accounts receivable and
accounts payable

The hospital had high levels of uncollectible accounts receivable, while at the same time experiencing high accounts payable balances. As of June 2016, accounts receivable totaled approximately \$5.5 million, of which 76 percent, or approximately \$4.2 million, remained uncollected after 120 days. According to the hospital's financial report, nearly \$3.6 million of the accounts receivable were likely uncollectible.

In addition, the Board meeting minutes indicated the hospital was extremely behind in making payments to vendors. As of June 2016, the hospital calculated it took, on average, 379 days to make payments to vendors and current accounts payable totaled approximately \$7.9 million.

After Hospital Partners began providing management services for the administration of the hospital in September 2016, the accounts payable were significantly reduced and the hospital entered settlement agreements.

Statewide performance
comparison

We obtained statewide hospital data from the Missouri Department of Health and Senior Services to evaluate the performance of the hospital relative to statewide averages of other critical access hospitals (CAH). Our analysis determined that despite an occupancy rate of 37.5 percent, which was higher than the statewide CAH average of 32.2 percent, the hospital generates revenues per bed and governmental revenues per Medicare discharge at a significantly lower rate than other peer hospitals.

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

CPA audits and cost reports

The hospital did not receive an independent CPA audit for fiscal year 2015 or 2016. In addition, the hospital did not submit required annual cost reports to the Centers for Medicare and Medicaid Services during this time period.

The lack of an independent CPA audit limited the reliability of financial information available to the Board for budgeting and planning purposes. In addition, the untimely completion and submission of cost reports to CMS could present significant potential liabilities to the hospital.

Recommendation

The Board better monitor the financial condition of the hospital and continue to explore all options to improve the hospital's financial condition, including a review of federal billing procedures, to ensure the healthcare needs of Putnam County citizens continue to be met.

Status

In Progress

The hospital's financial condition continues to be a concern. While the hospital's bank account balances improved while Hospital Partners was managing the hospital, balances have since returned to their original levels. See Figure 1 for a graph of hospital revenues and cash balances from May 2016 to April 2018.

Figure 1 : Revenues and cash balance, May 2016 to April 2018 (in millions)

Source: Hospital bank statements

Hospital Partners took over hospital operations in September 2016. As shown in the chart, the hospital's revenues and bank balance increased significantly shortly thereafter beginning in November 2016. Monthly revenues reached a high of nearly \$20 million in May 2017 before falling off sharply upon the release of our audit report in August 2017. As the chart shows the majority of the revenue coming into the hospital during this period did not remain in the hospital's bank account. As discussed previously, the majority of these revenues were transferred out to laboratory and management contractors.

Putnam County Memorial Hospital
Follow-up Report on Audit Findings
Status of Findings

Subsequent to the audit release, both revenues and the cash balance returned to similar levels as November 2016 and prior months; therefore, the laboratory billing arrangement questioned in the audit did not put the hospital in a significantly better financial position in the long term. The Board has worked to reduce the hospital's long and short term liabilities, and accounts payable were current (less than 30 days) as of February 2018. The only remaining significant long-term liability is a bond issuance that requires payments through 2033, and hospital personnel indicated the property and sales tax monies collected have generally been enough to make these annual debt service payments.

To help address the financial condition the Board signed an engagement letter with a consulting firm in March 2018 to provide various accounting and consulting services "including, but not limited to, (1) analysis of management arrangement and financial position and (2) identifying and analyzing options for an alternative management arrangement and sale and/or lease options." The Board indicated the consultant may also help determine the status of compliance with critical documentation or other requirements associated with federally funded healthcare, consult with the Board on ways to increase revenues or decrease expenses, and perform an assessment of potential or actual demands and/or claims from insurance companies and monitor the status of recoupments of overpayments due, if applicable.

To increase revenues, the Board continues to perform lab testing for another hospital at a competitive rate and is exploring the potential to market the hospital as a qualified substance abuse medical stabilization (detox) facility, which would potentially increase the number of inpatient bed days. Due to the ongoing opioid crisis at the local, state, and national level, Board members indicate they feel very strongly about the need for this service because they have noted an extreme shortage of doctors in the northern half of Missouri with credentials to prescribe the most commonly used prescription medication for treating opioid withdrawals (Suboxone). The hospital employs two doctors who have these prescribing rights. Patients would then be seen in the outpatient clinic to monitor their medical status. The Board is investigating this option as a possible pilot project and has been in discussions with the Missouri General Assembly and Missouri Department of Mental Health, as well as providers of counseling or other behavioral services.

Based on the lawsuits referred to in Section 1.3, there is more than a remote risk of the hospital facing similar types of lawsuits from insurance companies but the probability of that occurring and the timing is not determinable. This risk, coupled with the hospital being heavily reliant on federal sources of patient service revenue like Medicaid and Medicare, could quickly destabilize the hospital's financial condition if lawsuits are filed or reductions occur in these programs.

CITIZENS SUMMARY

Findings in the audit of the Department of Conservation

Director Compensation	The Missouri Department of Conservation's (MDC) practice of providing compensatory time to the MDC director provides the director unnecessary additional benefits; and this practice, along with the terms and administration of a separation and release agreement, provided the former Director significant additional benefits after his termination. In total, the MDC provided over \$120,000 in additional benefits to the former Director after his termination.
Compensatory Time Policies	The MDC has not established limits on employee accruals for one type of compensatory time, resulting in an accumulated balance of approximately \$2.4 million as of June 30, 2017. The MDC grants compensatory time to top level supervisory and managerial staff, such as deputy directors and division chiefs. These practices are inconsistent with policies of other state agencies, and appear unnecessary and/or costly.
Commission Flights	As noted in previous audits, the MDC's practice of transporting commissioners and employees for commission-related business via airplane results in questionable and excessive expenses to taxpayers.
Reemployed Retirees	As noted in a previous audit, the MDC does not have adequate procedures to ensure retirees reemployed part-time are being properly classified. As a result, some reemployed retirees may have been incorrectly classified as working in non-benefit eligible positions, and therefore, erroneously received their retirement payments while reemployed.
Travel Meals	Despite recommendations in our prior audit and an MDC internal audit, the MDC has not established limits for employee meal purchases while traveling as required by state travel regulations and executive order, and some meal costs exceeded the Office of Administration established per diem rates.
Real Estate Appraisal Services	MDC procedures do not provide for adequate verification or assurance amounts billed to the MDC for real estate appraisal services comply with statewide contract pricing.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Conservation Commission
and
Sara Parker Pauley, Director
Department of Conservation
Jefferson City, Missouri

We have audited certain operations of the Department of Conservation in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2017 and 2016. The objectives of our audit were to:

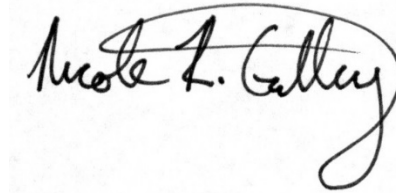

1. Evaluate the department's internal controls over significant management and financial functions.
2. Evaluate the department's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Conservation.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written between the first and last names.

Department of Conservation

Management Advisory Report

State Auditor's Findings

1. Director Compensation

The Missouri Department of Conservation's (MDC) practice of providing compensatory time to the MDC director provides the director unnecessary additional benefits; and this practice, along with the terms and administration of a separation and release agreement, provided the former Director significant additional benefits after his termination. In total, the MDC provided over \$120,000 in additional benefits to the former Director after his termination.

The MDC's separation and release agreement (the agreement) with former Director Robert Ziehmer had significant weaknesses. The agreement (1) was not supported by documented justification of need or purpose, (2) included excessive compensation that was not a prudent use of MDC resources or in the best interest of Missouri taxpayers, (3) lacked clear and definite terms and conditions, and (4) deviated from MDC policy and standard practices for state employee terminations. The former Director's termination was effective July 15, 2016. While not explicitly stated in the agreement, the former Director remained on the payroll and continued to receive salary payments and benefits for approximately 10 months after termination at his final director annual salary of about \$140,000.¹ After termination, the former Director received the following benefits in addition to the value of his maximum payable annual leave balance of approximately \$22,600: (1) approximately \$76,000 for compensatory time earned during his 20 years of employment, (2) over \$19,300 for various other benefits earned after termination, including annual leave, holiday pay, and paid health insurance premiums, (3) approximately \$5,600 for annual leave in excess of the maximum allowed payout, and (4) additional credited service for future retirement benefits (MDC cost of approximately \$19,800).

The agreement stated, "To ensure an amicable parting, the Parties wish to compromise, resolve and settle, finally and forever, any claims and causes of action that were or could have been asserted by the Employee against MDC. . . ." The agreement, which overrides MDC policy, stated the former Director would (1) resign and could no longer act on the MDC's behalf as of July 15, 2016, (2) remain on the MDC's payroll solely for the purpose of using his accrued annual leave and compensatory time balances, (3) be removed from the payroll upon exhausting his accrued leave balances, and (4) remain eligible to participate in the MDC's employee benefit plan until removed from the MDC's payroll. The agreement specified he would be paid his full compensatory time balance as of June 1, 2016. At the time of his termination, the former Director's compensatory time balance was 1,129 hours (valued at about \$76,000 based on his equivalent hourly rate of pay) and his annual leave

¹ Equivalent to \$67.31 hourly (annual salary of \$140,000 divided by 2,080 hours).

Department of Conservation
Management Advisory Report - State Auditor's Findings

balance was 419 hours (valued at about \$22,600² based on his equivalent hourly rate of pay).

The Conservation Commission appointed a new director effective November 2016.

1.1 Director compensatory time

The MDC's practice of providing compensatory time to the director is unnecessary based on the nature and requirements of the position. In addition, the agreement to pay the former Director for all accrued compensatory time was not consistent with MDC policy and cost the state approximately \$76,000.

The former Director began his career at the MDC in 1996. He served in various positions until he was ultimately appointed director effective November 2009. His compensatory time balance was 720 hours at the time he became director and 1,129 hours at the time of his termination. He used approximately 88 hours of compensatory time during the year prior to his termination. The current Director's compensatory balance was 206 hours at July 1, 2017, and she used 16 hours of compensatory time in her first 8 months in the position.

Compensatory time earned

As discussed in Management Advisory Report (MAR) finding number 2, MDC policies provide compensatory time to employees exempt from the Fair Labor Standards Act (FLSA) at a rate of 0.5 hour or 1 hour for each hour worked in excess of a 40-hour work week; however, providing such compensatory time to the director is an unnecessary cost to the state. Similar to any other state agency or department director, there are times the director must perform his or her duties over and above the normal 40 hour work-week, and the general expectation is the extra time worked should be covered by the director's annual salary. No other state agency or department director earns compensatory time; therefore, it is unreasonable to provide this additional benefit to the MDC director.

Compensatory time paid

The MDC's agreement to pay the former Director for his compensatory time balance was not consistent with MDC policy and cost the state approximately \$76,000.

The former Director remained on MDC payroll subsequent to his termination until his compensatory time and annual leave balances were exhausted. Payments for his compensatory time balance of 1,129 hours totaled approximately \$76,000 (1,129 hours at \$67.31 per hour). This compensatory time, earned throughout his 20 years of employment, was paid entirely at his

² Maximum payable annual leave balance of 336 hours, per MDC policy.

Department of Conservation
Management Advisory Report - State Auditor's Findings

higher director rate of pay although only approximately 36 percent of the balance was earned while he was Director.

According to the MDC's Human Resources Policy, employees who are exempt from the FLSA will not be paid for compensatory time earned at any time, including termination or retirement, except in unique circumstances such as out-of-state firefighting.

Additional concerns with the MDC's compensatory time policies are discussed in MAR finding number 2.

1.2 Former Director's separation agreement

The compensation provided to the former Director through the agreement appears questionable and unnecessary. In total, after his termination, the former Director was provided various benefits costing the MDC an estimated \$120,700.

Table 1.1: Estimated cost of
benefits provided

Type of Benefit	Amount
Accrued compensatory time	\$ 76,000
Additional benefits earned ¹	19,300
Excess annual leave payments	5,600
Additional credited service ²	<u>19,800</u>
	\$ 120,700

¹See Table 1.2 below.

²MDC contributions to the retirement system for future retirement benefits.

This level of compensation appears excessive for an "at-will" director position and is not in the best interest of the MDC or taxpayers. The MDC did not prepare documentation supporting the purpose or need for the agreement. MDC officials indicated this was a "confidential personnel matter," and the establishment of the agreement was well within the Commission's powers.

The agreement did not clearly define the process for payout of accrued annual leave and compensatory time balances, and the MDC's administration of the payout provided the former Director additional benefits over and above the compensation specified in the agreement, and significantly more than he would have received if policies and standard procedures were followed. Instead of making a lump sum payment to the former Director for his compensatory time and annual leave balances, which is the standard practice for terminated state employees, the MDC retained him on the payroll as an active employee until these balances were exhausted. Each semi-monthly pay period, the MDC reduced his annual leave and/or compensatory balances by about 87 hours, until these balances were zero. The former Director remained on the MDC's payroll until May 23, 2017, approximately 10 months after his termination. During this 10-month period, he continued to receive regular

Department of Conservation
Management Advisory Report - State Auditor's Findings

semi-monthly paychecks and earn benefits of an active employee although he was no longer performing any work on behalf of the MDC and had accepted full-time employment in the private sector.

The agreement specified the former Director would remain on the MDC's payroll after termination solely for purposes of using his annual leave and compensatory time balances and he would be removed from the payroll after exhausting these balances. However, the agreement did not state how long he should remain on payroll or whether he should continue to earn the benefits of an active employee. The only benefit addressed in the agreement was the Missouri Conservation Employee Benefit Plan. The agreement stated the former Director would be eligible to participate in this plan while on payroll after termination, but it did not state whether the MDC or the former Director would pay his health insurance premiums. It appears the Commission intended to pay the accrued annual leave and compensatory balances over a period of time, but the Commission was not provided with, and did not discuss, the additional costs of retaining him on the payroll as an active employee.

Additional benefits earned
and paid after termination

Because the former Director remained an active employee on the payroll after termination, he earned additional annual leave and holiday pay, further extending his time on the payroll to a total of 10 months. The following table shows the additional benefits earned and paid to the former Director during the 10-month period.

Table 1.2: Additional benefits
earned

Type of Benefit	Hours	Rate	Total
Annual leave	140	\$ 67.31	\$ 9,423
Holiday pay	88	67.31	5,923
Health insurance premiums ¹	n/a	399.10	<u>3,991</u>
			\$ 19,337

¹The amount shown is the semi-monthly employer's share. He remained on the MDC's insurance plan for 5 months (10 pay periods) before he voluntarily terminated his coverage in December 2016.

As shown in the table, during this period, the former Director continued to accrue 7 hours of annual leave semi-monthly, and received holiday pay for 11 state holidays. In addition, the MDC paid the former Director's health insurance premiums for 5 months.

State agencies use the Statewide Advantage for Missouri (SAMII) integrated financial and human resource management system for processing payroll. According to the SAMII Human Resource Policies and Procedures Manual, the standard practice when an employee terminates from a state agency is to liquidate his or her compensatory and annual leave balances by issuing a check for a lump sum after the termination date. MDC officials indicated they typically follow these procedures when an employee terminates, but could not

Department of Conservation
Management Advisory Report - State Auditor's Findings

	<p>explain why the MDC deviated from standard practice for paying the balances to the former Director.</p>
Excess annual leave payments	<p>Because the former Director remained on the payroll as an active employee instead of receiving a lump sum payout, he was paid his entire accumulated annual leave balance of 419 hours, instead of the maximum annual leave accrual of 336 hours, a difference of 83 hours. As a result, the former Director received approximately \$28,200 for his accumulated annual leave balance instead of approximately \$22,600, an increase of approximately \$5,600.</p> <p>The MDC's Human Resources Policy states "upon leaving the department, employees may be paid for the unused annual leave up to the maximum amount they may retain." For the former Director's years of service, the policy provides a maximum leave accrual of 336 hours.</p>
Additional credited service	<p>In addition to the paid benefits shown above, the former Director continued to accrue credited service toward future retirement benefits while remaining on the payroll as an active employee after termination.</p> <p>During the 10 months he remained active on the state payroll after his termination, the former Director received additional months of credited service with the Missouri State Employee Retirement System (MOSERS). During this period, the MDC made contributions totaling approximately \$19,800 to the MOSERS on behalf of the former Director. If the MDC had paid the former Director a lump sum for accrued compensatory time and annual leave at the time of his termination, he would not have received the additional 10 months of service credit and the MDC would have saved \$19,800.</p> <p>Benefit-eligible MDC employees earn service credit in the MOSERS as defined by Sections 104.010.1(16) and 104.1003.1(9), RSMo. Sections 104.1021 and 104.1018, RSMo, provide that employees stop earning credited service when they are no longer employed in a covered position. As noted above, the agreement did not specify the former Director would continue accruing MOSERS service credit after his termination, and it is unreasonable that he was allowed to continue accruing service credit when he was no longer performing any work for the MDC.</p>
Conclusion	<p>Article IV, Section 42, of the Missouri Constitution requires the Conservation Commission to appoint a director. The MDC's Human Resources Policy indicates employment with the department is "at-will", and based on the condition of mutual consent, the employee or the MDC can terminate the employment relationship at any time, for any reason, with or without cause or notice.</p>

Department of Conservation
Management Advisory Report - State Auditor's Findings

Separation and release agreements should be reasonable and necessary and supported by adequate documentation justifying the need for the agreement. To prevent unnecessary additional costs, the MDC should review the propriety of including additional compensation in separation and release agreements and refrain from future arrangements similar to the agreement with the former Director. If providing additional compensation and/or benefits is necessary, the terms of the compensation and/or benefits should be clearly detailed in the agreement.

Recommendations

The MDC:

- 1.1 Discontinue the practice of providing compensatory time to the MDC director.
- 1.2 Reconsider the appropriateness and need for separation and release agreements in the future, and ensure such agreements are supported by justifiable and documented reasons and include clear and definite terms. Ensure additional compensation and benefit terms included in separation and release agreements are in the best interest of the MDC and taxpayers. The MDC should notify the MOSERS of the credited service awarded to the former Director after termination.

Auditee's Response

- 1.1 *At the Conservation Commission's direction, in April 2017 the department undertook a review of all compensation and benefits, including paid leave. In October 2017, the Commission took steps to address compensatory time balance concerns, which will go into effect July 1, 2018. The existing COMPS leave category will be replaced with a new leave category for staff that will be expunged on an annual basis and will not be paid out upon termination or retirement.*
- 1.2 *The Commission believes that the separation and release agreement was appropriate, and the terms and conditions were in the department's best interest. The department provided all required information to MOSERS as with any other employment separation.*

Auditor's Comment

- 1.2 The MDC notified the MOSERS when the former Director was taken off of the payroll, not when he terminated employment. Notifying the MOSERS of the 10 months of credited service awarded the former Director after termination is necessary to ensure any needed adjustments to his retirement benefit can be made.

2. Compensatory Time Policies

The MDC has not established limits on employee accruals for one type of compensatory time, resulting in an accumulated balance of approximately \$2.4 million as of June 30, 2017. Also, the MDC grants compensatory time

Department of Conservation
Management Advisory Report - State Auditor's Findings

to top level supervisory and managerial staff, such as deputy directors and division chiefs, who are exempt from the FLSA.³ These practices are inconsistent with policies of other state agencies, and appear unnecessary and/or are costly to the state.

According to MDC records, approximately 1,200 MDC employees had compensatory time balances totaling 116,500 hours valued at over \$2.9 million as of June 30, 2017. The compensatory time balances of those employees averaged 98 hours, and ranged from less than 1 hour to 1,068 hours per employee. As shown in Table 2.1 below, only about \$241,000 of the \$2.9 million (8 percent) total compensatory time liability is required to be provided to employees under the FLSA, while the remaining \$2.7 million (92 percent) is provided by the MDC over and above FLSA requirements. Compensatory time balances increased by 17 percent during the audit period, from approximately 99,800 hours as of June 30, 2015, to about 116,500 hours as of June 30, 2017. MDC officials indicated the increase is attributed to many factors including (1) expansion of chronic wasting disease testing, (2) increase in staff and/or staff hours allocated to wilderness firefighting in other states, (3) emergency maintenance and repair at MDC recreational areas and/or facilities, and (4) other unexpected natural disasters such as flooding.

Compensatory time policies

The MDC's Human Resources Policy provides three types of compensatory time to employees. The first type is provided to employees in non-exempt positions in accordance with the FLSA. The other two types of compensatory time are provided to employees in exempt and/or non-exempt positions, over and above the FLSA requirements. The three types of compensatory time include the following:

- Compensatory Non-Exempt time (COMPN) may be earned by all employees in non-exempt positions subject to the FLSA. COMPN is earned at a rate of 1.5 hours for every hour physically worked over 40 hours in a workweek. Employees may not accrue more than 240 hours of COMPN at any point in time as mandated by the FLSA.
- Compensatory Exempt time (COMPE) may be earned by employees in positions exempt from the FLSA. COMPE is earned at a rate of 0.5 hours for every hour physically worked over 40 hours in a workweek. Employees may not use more than 80 hours of COMPE in a calendar

³ The FLSA establishes minimum wage, overtime pay, recordkeeping, and youth employment standards affecting employees in the private sector and in federal, state, and local governments. MDC salaried employees occupy either non-exempt or exempt positions according to guidelines established under the FLSA, which depend on the nature of work performed. All hourly positions are considered non-exempt.

Department of Conservation
Management Advisory Report - State Auditor's Findings

year, and employees must forfeit any COMPE balance remaining at December 31st of each calendar year.

- Compensatory Straight time (COMPS) may be earned by all employees, regardless of whether they are in non-exempt or exempt positions. COMPS is earned at a rate of 1 hour for every hour physically worked over the expected number of hours in a workweek containing a state holiday or other type of special leave (bereavement leave, jury duty, military duty, and special leave). For example, if an employee physically works 40 hours during a week containing a holiday, he/she would earn 8 hours of COMPS for the 8 hours worked in addition to the expected 32 hours. There is no limit on the amount of COMPS that can be earned or accrued.

The policy states exempt employees will not be paid for compensatory time earned at any time, including termination or retirement, except in unique circumstances, such as out-of-state firefighting. All exceptions require written justification by the division and approval by the director.

Below is a summary of the MDC employee compensatory time balances and related liabilities, by type, as of June 30, 2017.

Table 2.1: Compensatory time balances

Type	Number of Hours		Total	Liability
	Non-Exempt Employees	Exempt Employees		
COMPEN	11,675	944 ¹	12,619	\$ 241,000
COMPE	-	10,818	10,818	298,000
COMPS	26,341	66,722	93,063	2,406,000
Total	38,016	78,484	116,500	\$ 2,945,000

¹Some employees in exempt positions as of June 30, 2017, earned COMPEN hours while working in non-exempt positions; therefore, they have both COMPEN and COMPE balances.

2.1 COMPS limits

The MDC has not established limits on the amount of COMPS that can be earned or accrued. By not limiting COMPS hours, the MDC has accrued a COMPS liability of approximately \$2.4 million as of June 30, 2017, that comprises about 82 percent of the total compensatory time liability.

As noted in Table 2.1, about 93,000 hours were COMPS hours. Of these 93,000 hours, approximately 26,300 were accrued by employees in non-exempt positions. The MDC is liable for either paying these hours upon employee termination or providing these hours as leave time during employment. For the approximately 66,700 hours accrued by employees in exempt positions, MDC policy prohibits payment for the hours upon termination, but the MDC is still liable for any hours used as leave time during employment.

Department of Conservation
Management Advisory Report - State Auditor's Findings

To determine the potential impact COMPS limits would have on compensatory time liabilities, we reviewed individual employee COMPS balances as of June 30, 2017. We noted 393 employees had COMPS balances exceeding 80 hours, and estimated the MDC liability for COMPS would be reduced to \$1.1 million (a reduction of \$1.3 million) if the COMPS accrual was limited to 80 hours per employee. We noted 88 employees had COMPS balances exceeding 240 hours and estimated the liability for COMPS would be reduced to \$2 million (a reduction of \$400,000) if the COMPS accrual was limited to 240 hours per employee.

We reviewed compensatory time policies at 6 randomly selected state agencies, including 3 merit⁴ agencies and 3 non-merit agencies.⁵ All 6 agencies have established policies that either limit compensatory time accruals or require any compensatory time not used to be forfeited at the end of the year for all or most employees. These policies help minimize the agencies' compensatory time liabilities. Without limiting compensatory time accruals, the MDC could experience increases to already significant liabilities, strains on financial resources, and/or difficulties sufficiently budgeting for future liabilities.

2.2 Top level exempt positions

Granting compensatory time to top level supervisory and managerial staff, such as deputy directors and division chiefs, appears unnecessary and costly.

Our review of individual employee compensatory balances as of June 30, 2017, noted the MDC employees with the highest total compensatory time balances included two deputy directors and a division chief. Together, these 3 exempt employees had compensatory time balances totaling over 3,000 hours, an average of about 1,000 hours per employee. A significant portion of the MDC's compensatory time liability could be reduced if compensatory time was not offered to top level employees who are exempt from the FLSA.

Section 13(a)(1) of the FLSA provides an exemption from overtime (compensatory) pay for employees who are employed in a bona fide executive, administrative, or professional capacity. State merit agencies are required to comply with 1 CSR 20-5.010(1)(C) which states, "Work authorized by an appointing authority for top level supervisory, managerial and administrative staff and for persons employed in a very responsible professional, technical or consultative capacity which causes the employee to

⁴ The Missouri Merit System is a personnel system established by law that governs the appointment, promotion, transfer, layoff, removal, and discipline of employees of certain agencies.

⁵ Merit agencies: Department of Natural Resources, Department of Health and Senior Services, and Department of Social Services. Non-merit agencies: Department of Higher Education, Department of Labor and Industrial Relations, and Department of Elementary and Secondary Education.

Department of Conservation
Management Advisory Report - State Auditor's Findings

exceed forty (40) hours in pay status during a workweek, shall not be compensated except in unusual circumstances as determined by the appointing authority." While the MDC is not a merit agency subject to these requirements, it is unreasonable for the MDC to provide compensatory time to top level exempt employees when such compensation is not provided to most other state employees in similar positions.

Recommendations

The MDC:

- 2.1 Establish limits on accruals of COMPS.
- 2.2 Amend the compensatory time policy to disallow compensatory time to top level FLSA-exempt supervisory and managerial staff.

Auditee's Response

At the Conservation Commission's direction, in April 2017 the department undertook a review of all compensation and benefits, including paid leave. In October 2017, the Commission took steps to address compensatory time balance concerns, which will go into effect July 1, 2018. The existing COMPS leave category will be replaced with a new leave category for staff that will be expunged on an annual basis and will not be paid out upon termination or retirement.

3. Commission Flights

The MDC's practice of transporting commissioners and employees for commission-related business via airplane results in questionable and excessive expenses to taxpayers. Commission-related business includes flights for regularly scheduled commission meetings, legislative activities, training and networking events, speaking engagements, and other purposes. Transportation of commissioners and employees by car instead of plane would have resulted in significant cost savings.

As previously noted in Report No. 2015-003, *State Flight Operations*, issued in January 2015, the MDC does not ensure passenger flight services represent the most efficient method of travel and regularly flies commission members to commission meetings held across the state. During the 2 years ended June 30, 2017, MDC flight records show 36 one-way and/or round-trip flights for the purpose of transporting commissioners and/or employees to 18 commission meetings held across the state.

The MDC owns and operates 3 passenger planes (1 with a pressurized cabin) and a helicopter, all of which are located in Jefferson City. The pressurized passenger plane is shared with the Missouri Department of Transportation (MoDOT). The other aircrafts can be used for passenger transport but are primarily used for various purposes to further the MDC's mission, including deer telemetry, fire patrol, wildlife code enforcement, and other research and resource management purposes. Since the prior audit, the MDC has

Department of Conservation
Management Advisory Report - State Auditor's Findings

discontinued the practice of using charter flights for commission-related business.

Transporting commissioners who reside in various cities across the state requires the use of multiple flights to gather individual commissioners and/or employees for commission meetings. The four commissioners who served during the 2 years ended June 30, 2017, were from Jefferson City, Columbia, St. Louis, and Sikeston. During this period, the MDC held 11 commission meetings in Jefferson City or Columbia and 7 meetings in other locations, including Van Buren, Winona, West Plains, St. Charles, Ashburn, Hannibal, and Salem. The number of flights per meeting depended on the meeting location. There was at least one flight for each meeting, and an average of two flights per meeting. As previously noted in the *State Flight Operations* report, the state of Missouri has numerous state commissions and boards, but the MDC and the MoDOT were the only state agencies that regularly flew commissioners and employees to commission meetings and for other commission-related business. Commission members of other state commissions and boards typically receive motor vehicle mileage reimbursement to cover travel costs.

The MDC has not analyzed and compared the costs of transporting commissioners and employees for commission-related business via plane versus car. The MDC developed a trip optimizer form to evaluate the costs of various methods of travel, but does not require it to be used for travel by high ranking officials including commissioners, the director, or deputy directors. Using hourly flight operating rates calculated by the MDC at our request, we estimated and compared the cost of flying versus driving for several commission meetings. The MDC's hourly flight operating rates include direct and indirect costs such as fuel, repairs, pilot salary and benefits, insurance, training, and various other costs for each plane. In this analysis, which did not include personnel costs,⁶ we noted the cost of driving (mileage reimbursement) was always significantly less than the cost of flying as shown by the following examples:

- In December 2015, the MDC flew a commissioner on the pressurized plane round-trip from Stuttgart, Arkansas to Jefferson City, Missouri. We estimate transportation by car would have cost approximately \$300 and transportation by aircraft cost approximately \$5,500, a difference of about \$5,200. Also, there was no documentation supporting why a commissioner was transported from out of state.

⁶ Our analysis did not include the cost of MDC employee time. MDC commissioners are not compensated.

Department of Conservation
Management Advisory Report - State Auditor's Findings

- In June 2017, the MDC flew a commissioner on the pressurized plane one-way from Sikeston, Missouri to Chesterfield, Missouri to attend a commission meeting in St. Charles, Missouri. We estimate transportation by car would have cost approximately \$50 and transportation by aircraft cost approximately \$2,400, a difference of about \$2,350.
- In July 2015, the MDC flew a deputy director on a non-pressurized plane round trip from Jefferson City, Missouri to Mountain View, Missouri to attend a commission meeting held in Van Buren, Missouri. We estimate transportation by car would have cost approximately \$100 and transportation by aircraft cost approximately \$800, a difference of about \$700.

Although Article IV, Section 40(a), of the Missouri Constitution requires the MDC commissioners to receive necessary traveling expenses, it does not require they travel by aircraft. Operation of state-owned aircraft is governed by state policy (SP-8) with the purpose to "ensure aircraft under the control of the state of Missouri are utilized in the most efficient and effective manner in the conduct of state business." The state aircraft policy indicates the department should consider the following factors prior to authorizing the flight. The flight should be (1) a necessary and reasonable means to achieve the business purposes of the agency; (2) the most efficient manner of travel considering cost, value of staff time, security, and required timeliness of travel completion; and (3) tied directly to the achievement of a clear business objective. The MDC should evaluate these factors and the costs of travel by aircraft versus car to determine if travel by aircraft is reasonable and necessary.

Recommendation

The MDC reevaluate the necessity of providing state plane transportation to commissioners and personnel for commission-related business.

Auditee's Response

The department disagrees with the suggestion that use of aircraft for transportation is not cost effective. Conservation commissioners serve without compensation by providing thousands of hours of volunteer time attending meetings and representing all areas in the state. In addition to their volunteer duties as commissioners, these dedicated individuals are fully engaged in their own professions. The efficiency of travel by plane has enabled these commissioners to participate in Conservation business meetings, department events, and public meetings throughout the state.

The bulleted examples indicating "the cost of driving was always significantly less than the cost of flying" do not include the value of staff or Commission time. The example calculations only include mileage reimbursement and do not include the amount of time savings for either the Deputy Director or Commissioners.

Department of Conservation
Management Advisory Report - State Auditor's Findings

Since fiscal year 2018, a trip optimizer has been used for all employee transportation flights including deputy directors and the director. The trip optimizer includes the salaries of the employee(s) being transported in the calculation, thereby including the value of staff time when doing a comparison. To date, the optimizer reflects over \$12,000 in efficiencies when including the value of staff time. A similar analysis was done for fiscal year 2017 with \$10,000 in efficiencies calculated.

4. Reemployed Retirees

As previously noted in Report No. 2014-021, *Reemployment of State Retirees*, issued in March 2014, the MDC does not have adequate procedures to ensure retirees reemployed part-time are being properly classified. As a result, some reemployed retirees may have been incorrectly classified as working in non-benefit eligible positions, and therefore, erroneously received their retirement payments while reemployed. During the 2 years ended June 30, 2017, according to MDC records, 34 reemployed retirees worked in part-time, non-benefit eligible MDC positions. Of these 34 retirees, 26 retired from the MDC and 8 retired from other agencies.

Various state laws require most state retirees reemployed in benefit-eligible positions normally requiring 1,040 or more hours per year to have their retirement payments suspended while reemployed.⁷ According to MDC officials, for budgetary purposes the MDC defines work year as fiscal year. Determining compliance with the various state laws and evaluating whether part-time employees are properly classified can be difficult because the law is based on position requirements rather than actual hours worked. While a position may normally require less than 1,040 hours per year, there are reasons why a retiree may work 1,040 or more hours in a year, such as projects with expedited timelines, project extensions, employee illnesses, or delays in hiring replacements.

Retirees who worked more than 1,040 hours

Our review found 9 of the 34 retirees (26 percent) worked 1,040 or more hours during one or both fiscal years during the 2 years ended June 30, 2017 (fiscal year 2016 and/or fiscal year 2017). Of these 9 retirees, 6 retirees worked more than 10 percent over that threshold (1,144 hours or more), and worked between 1,186 and 1,384 hours in a fiscal year.

MDC officials indicated the department generally prohibits hiring retirees as full-time employees, and only hires retirees in part-time, non-benefit eligible positions. The MDC's salary administration policy states retirement benefit payments may be stopped if a MOSERS or MPERS retiree is rehired as an

⁷ This does not include retirees of the Missouri Department of Transportation and Highway Patrol Employees' Retirement System Closed Plan (MPERS), Judicial Closed Plan, and the Administrative Law Judges and Legal Advisors' Plan.

Department of Conservation
Management Advisory Report - State Auditor's Findings

employee and works 1,000 hours or more. Therefore, these individuals must be limited to less than 1,000 hours of hourly employment. However, the MDC has not established centralized procedures to monitor for compliance with MDC policy or state law. MDC officials indicated because all reemployed retirees are hired in non-benefit eligible positions, there has been no demonstrated need for central office personnel to monitor actual hours worked for purposes of monitoring retirement benefits. The MDC delegates this responsibility to individual supervisors and instructs supervisors to monitor hours worked by retirees to ensure they do not consistently exceed annual limits.

Because the MDC delegates the monitoring responsibilities to supervisors and does not maintain records regarding the monitoring, MDC central office personnel were unable to explain why the 9 reemployed retirees were allowed to work more than 1,040 hours during fiscal year 2016 and/or fiscal year 2017.

Potential improper
classification

Some of the 9 retirees may have been improperly classified and received retirement payments while reemployed, when not eligible to do so. We selected 3 of the 9 reemployed retirees (each worked more than 1,040 hours during both fiscal years 2016 and 2017), and talked to their immediate supervisors about their monitoring procedures. Each of the supervisors indicated they had monitored the employees' hours worked and they were aware the employees had worked more than 1,040 hours; however, they did not maintain documentation supporting their monitoring or the reasons the employees were allowed to work in excess of annual limits. The supervisors indicated these employees were in positions that typically require less than 1,040 hours per year, but unusual circumstances occurred each year that required them to work additional hours. These circumstances included special and/or urgent projects and employee vacancies.

MDC officials indicated annual hourly employment memorandums prepared by supervisors for each part-time employee, and signed by the employee and supervisor, serve as formal evaluations of positions and support the continued classification of positions as non-benefit eligible. However, for these 3 retirees, the hourly employment memorandums completed for fiscal year 2017, showed 2 retirees were in positions classified as "976 to 1,300 hours" and 1 retiree was in a position classified as "1,601 hours and above." Supervisors were not able to explain why the forms stated these employees were expected to work, or could work, more than 1,040 hours. Arrangements with reemployed retirees to work more than 1,040 hours, or that include ranges of hours that exceed 1,040 hours, appear to violate state law requiring retirees reemployed in positions normally requiring 1,040 or more hours annually to be classified as benefit eligible and for retirement payments to be suspended while employed.

Department of Conservation
Management Advisory Report - State Auditor's Findings

Conclusion

When a retiree working in a non-benefit eligible position works 1,040 hours or more in a year, the MDC should determine whether (1) the employee has exceeded this limit due to short-term, unforeseen circumstances and should continue to be classified as non-benefit eligible, or (2) the position has effectively changed and should be reclassified as benefit eligible. MOSERS guidance distributed to all state agency human resource representatives in May 2014 states if a retiree returns to work in a position that is ongoing or permanent and normally requires the person to work 1,040 or more hours per year, the position should be reported as benefit-eligible and the MOSERS will stop the retiree's retirement benefit. The MDC needs to improve procedures regarding reemployment of retirees to reduce the risk of noncompliance with laws and to provide for fair and equitable treatment of retirees and state employees. Such procedures should require centralized monitoring of actual hours worked and documented evaluations of instances when retirees in non-eligible positions work more than 1,040 hours in a year.

Recommendation

The MDC establish procedures to ensure benefit eligibility classifications for reemployed retirees are proper. The MDC should perform a formal review of all existing employment arrangements with reemployed retirees. If it is determined a retiree has been incorrectly classified or the nature of a position has changed, the MDC should make corrections to ensure compliance with state laws, and consult with the MOSERS and/or the MPERS as appropriate.

Auditee's Response

As stated during our conversations with the State Auditor's Office, all retirees returning to work in hourly positions are classified as non-benefit eligible, and are expected to work less than 1,000 hours per year as specified in policy. The department will improve our communication and procedures regarding reemployment of retirees to ensure centralized monitoring of actual hours worked and clear documentation of rare instances when retirees are required to work more than 1,000 hours per year.

5. Travel Meals

Despite recommendations in our prior audit and an MDC internal audit, the MDC has not established limits for employee meal purchases while traveling as required by state travel regulations and executive order, and some meal costs exceeded the Office of Administration (OA) established per diem rates.

Employees pay for most travel expenses, including meals for themselves and other employees, with department-issued procurement cards. Receipt slips supporting each meal purchase are attached to monthly procurement card statements and reviewed by the employee's supervisor and Administrative Services division personnel prior to payment. Expenditures for employee meals while on travel status totaled about \$915,000 during the 2 fiscal years ended June 30, 2017.

Department of Conservation
Management Advisory Report - State Auditor's Findings

The MDC's travel policy states travel expenses should be reasonable and necessary and comply with current State of Missouri Travel Regulations; however, the policy does not include any dollar limits on meal purchases for employees on travel status. State travel regulation, 1 CSR 10-11.010(4), states, "Departmental regulations shall not grant expenses that are not allowed under the state of Missouri travel regulations or policies established by the commissioner of administration." The state travel policy (SP-6) issued by the OA establishes standard policies and limits for state employee meal purchases while on travel status. The policy allows agencies to (1) pay the statewide meal per diem established by the OA, (2) pay a meal per diem that is lower than the statewide meal per diem, or (3) reimburse the employee for the actual meal expenses incurred, not to exceed the statewide meal per diem. However, the MDC has not adopted any of these options, and allows employees to purchase meals without any limits.

Since the MDC pays actual meal expenses without limit, the MDC could pay more than allowed by the state travel policy for some meals. We reviewed 19 meal purchases made by employees on travel status. For 13 of the 19 meal purchases (68 percent), statewide per diem rates were exceeded by \$1 to \$8 per meal, with an average excess of about \$4.

A 2015 MDC internal audit of in-state meal purchases recommended the MDC establish reasonable meal limits that are advisory in nature and would trigger additional supervisory review and approval when exceeded. The internal audit reviewed over 1,600 meals and determined average meal costs of \$9.20 for breakfast, \$10.61 for lunch, and \$16.22 for dinner; and found the highest meal cost was about \$39. The statewide per diem limits (except certain metropolitan areas) were \$6, \$10, and \$18, for breakfast, lunch, and dinner, respectively. MDC officials indicated they considered, but did not implement, recommendations to set limits from our prior audit and the internal audit because they believe overall the MDC saves costs by paying actual meal costs versus paying statewide per diem rates. In addition to complying with state travel regulations and executive order, establishing meal limits would help further minimize these costs.

Executive Order No. 92-6 Section (1)(B) requires all state boards and commissions to maintain a policy governing travel rules and regulations equivalent to (or substantially equivalent to) rules established by the OA. Limits for meal expenses while traveling, such as state per diem rates, could help ensure such payments are reasonable, control costs, and ensure compliance with Executive Order No. 92-6. Without meal limits, there is an increased risk meal purchase amounts will continue to exceed maximums established by state travel regulations and employees and supervisors will have differing views on what is reasonable and necessary.

Department of Conservation
Management Advisory Report - State Auditor's Findings

Recommendation

The MDC establish employee travel meal policies that are substantially equivalent to those for state agencies as required by Executive Order No. 92-6 and state travel regulations.

Auditee's Response

The department has reviewed the travel meal policies and in-state meal purchases. The review found the use of purchasing cards for meals results in significant cost savings for the department when compared to the state per-diem meal rate. The State Auditor's comparison did not consider rebates the department receives on the purchasing card, which would increase the savings. The department will continue to review in-state meal purchases to ensure continued savings through the use of the purchasing card.

Auditor's Comment

The MDC is not complying with Executive Order No. 92-6 Section (1)(B) or the State of Missouri Travel Regulations which require the MDC to set meal limits. Without limits, there is a risk that meal purchase amounts will continue to exceed maximums allowed by state travel regulations and may not be reasonable.

6. Real Estate Appraisal Services

The MDC does not have adequate controls and procedures to monitor payments for real estate appraisal services. Procedures do not provide for adequate verification or assurance amounts billed to the MDC for appraisal services comply with statewide contract pricing. The MDC spent about \$80,700 for real estate appraisal services for the 2 fiscal years ended June 30, 2017.

For real estate purchases requiring an appraisal, the MDC obtains one or two appraisals for each property, depending on the estimated value of the property. MDC officials indicated they select appraisers by obtaining at least two price quotes from appraisers on state contracts. The state contracts include daily and hourly rates for appraisal services based on region, travel expenses, and legal testimony. The price quotes are informal, are not binding, and are not always documented.

For 7 of 8 (88 percent) real estate appraisal invoices reviewed, the MDC did not require the real estate appraisal companies to submit sufficiently detailed invoices to support amounts billed. While the state contracts provide the daily rates for appraisal services by region and hourly rates for travel costs, the invoices submitted by the real estate appraisal companies only showed a total cost and did not detail the number of hours or days the services were provided. Three real estate appraisal companies billed the MDC \$17,500 for these 7 appraisals. We requested additional documentation from the MDC including original price quotes received; however, the MDC could provide no additional documentation.

Department of Conservation
Management Advisory Report - State Auditor's Findings

Without adequately monitoring invoices and bills received from real estate appraisal companies, including obtaining sufficiently detailed invoices, the MDC lacks assurance amounts paid to appraisers are proper and comply with state contract pricing.

Recommendation

The MDC establish procedures to monitor real estate appraisal invoices for compliance with state contract rates and require appraisers to submit sufficiently detailed invoices of services provided, including number of days and/or hours worked and rates charged.

Auditee's Response

In January 2018, MDC implemented a practice of requiring appraisers to provide detailed invoices.

Department of Conservation

Organization and Statistical Information

The Department of Conservation is constitutionally created pursuant to Article IV, Sections 40(a) and 46. The general functions of the department are to control, manage, restore, conserve, and regulate all bird, fish, game, forestry, and wildlife resources of the state. At June 30, 2017, the department owned 808,946 acres and leased or managed another 204,362 acres of land in the state.

The department is headed by a four-member bipartisan commission, appointed by the Governor with the advice and consent of the Senate. Commissioners serve without compensation for staggered 6-year terms.

Commission Members at June 30, 2017

Commissioner	Term Expires
James T. Blair, IV ¹	July 1, 2017
Marilynn J. Bradford	July 1, 2019
David W. Murphy	July 1, 2019
Don C. Bedell	July 1, 2021

¹This position is vacant as of May 18, 2018.

The Commission appoints a director who serves as the administrative officer of the Department of Conservation. The director appoints other employees and is assisted by 3 deputy directors with programs carried out by the divisions of fisheries, forestry, wildlife, protection, private land services, resource science, outreach and education, design and development, administrative services, and human resources.

Robert L. Ziehmer served as Director from November 2009 to July 15, 2016. Sara Parker Pauley was appointed Director effective November 1, 2016. At June 30, 2017, the department had 1,395 salaried employees and 517 hourly employees.

Atchison County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Atchison County

Sheriff's Controls and Procedures	The Sheriff's office does not issue receipt slips for paper service fees received, post these fees to the paper service fee log, restrictively endorse checks, or deposit these monies until the papers are served. Jail personnel do not use prenumbered bond forms, and prenumbered receipt slips are not issued for bonds paid by credit card. In addition, bonds received are not posted to the spreadsheet prepared by office personnel to track deposits and disbursements.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Atchison County

We have audited certain operations of Atchison County in fulfillment of our duties under Section 29.230, RSMo. In addition, McBride, Lock and Associates, LLC, Certified Public Accountants, has been engaged to audit the financial statements of Atchison County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

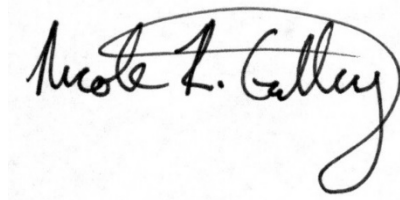

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our finding arising from our audit of Atchison County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Atchison County Management Advisory Report State Auditor's Findings

1. Sheriff's Controls and Procedures

Some controls and procedures in the Sheriff's office need improvement. The office processed paper service fees, concealed carry weapon permits, bonds, and other miscellaneous receipts totaling approximately \$91,000 during the year ended December 31, 2017.

1.1 Receipting

The Sheriff's office does not issue receipt slips for paper service fees received, post these fees to the paper service fee log, restrictively endorse checks, or deposit these monies until the papers are served. During a cash count performed on April 19, 2018, we identified 3 checks, totaling \$155, for paper service fees that were not receipted, posted to the paper service fee log, or restrictively endorsed. In addition, receipt slip numbers are not posted to the paper service log to help ensure all fees collected have been accounted for properly.

Failure to implement adequate receipting procedures over paper service fees increases the risk that loss, theft, or misuse of monies received will go undetected. Procedures should be established to ensure receipt slips are issued immediately for all paper service fees received, the receipt slip number is posted to the paper service fee log, checks are restrictively endorsed immediately upon receipt, and all monies are deposited timely.

1.2 Bonds

Jail personnel do not use prenumbered bond forms, and prenumbered receipt slips are not issued for bonds paid by credit card. In addition, bonds received are not posted to the spreadsheet prepared by office personnel to track deposits and disbursements. The disbursement of each bond is recorded in this spreadsheet, but because the individual bonds received and related receipt slip numbers are not posted to the spreadsheet, there is less assurance all bonds were handled appropriately.

Failure to implement adequate receipting procedures over bonds increases the risk that loss, theft, or misuse of monies received will go undetected. Procedures should be established to ensure prenumbered bond forms or receipt slips are issued for all bonds received, and receipt slip numbers are posted to a bond log.

Recommendations

The Sheriff:

- 1.1 Issue receipt slips for all monies immediately upon receipt, post receipt slip numbers to the paper service fee log, restrictively endorse all checks immediately upon receipt, and deposit all monies timely.
- 1.2 Issue prenumbered bond forms or prenumbered receipt slips for all bonds received and post receipt slip numbers to a bond log.

Auditee's Response

- 1.1 *A receipt slip will be issued for paper service checks immediately upon receipt, endorsement will be applied when received, and they*

Atchison County
Management Advisory Report - State Auditor's Findings

will now be deposited upon receipt. A refund will be issued if service is prohibited for any reason. A photocopy of the check will be attached to the service and the receipt slip number will be added as part of the paper service log.

- 1.2 *Presently, our bond forms come from 2 sources. The court supplies hard copy forms and our software contains the identical form within the booking program. Neither form is prenumbered. It is my hope our software provider will be able to prenumber our computerized bond forms. Then in the instance a pre-filled hard copy form comes from the court, we would populate the digital form with the court's information. Additionally, presently we can only use our software version of the bond form if the individual bonding is incarcerated. Many arrestees are brought in from the weigh scales, interstate, or randomly with active warrants and those individuals are able to bond so they are never incarcerated. Our software provider also has to be capable of correcting that issue. As yet we have not received a reply to our requests from our software provider. We are also inquiring other counties as to their process.*

In the meantime and/or if our software provider cannot accommodate our request, we will use a bond log which will incorporate the following: Receipt slip number and form (cash, check, credit card, surety, personal recognizance) from our one-write receipt slips, name of the bonded, amount of the bond, case number the bond is associated with, the county/municipality the bond is to be directed to, and state of the county/municipality. The bonds will not be prenumbered but the one-write receipt slip will be chronological and all the pertinent information will be trackable.

As Sheriff, I track and monitor all overall procedures within my office and monthly reports are delivered to the County Commission and County Treasurer. Even though the Auditor's report shows there were no actual financial discrepancies, one can always learn from this process and we look forward to implementing these new recommendations within the Sheriff's office for additional control and preventive measures.

Atchison County

Organization and Statistical Information

Atchison County is a county-organized, third-class county. The county seat is Rock Port.

Atchison County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 32 full-time employees and 14 part-time employees on December 31, 2017.

In addition, county operations include the Senate Bill 40 Board, the Senior Citizens' Services Board, and the Enhanced Enterprise Zone Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Curtis Livengood, Presiding Commissioner	\$	38,709
Richard C. Burke, Associate Commissioner		36,691
James Quimby, Associate Commissioner		36,691
Eliza Beasing, Recorder of Deeds		41,766
Susette M. Taylor, County Clerk (1)		58,018
Brett Hurst, Prosecuting Attorney		65,270
Dennis D. Martin, Sheriff		61,194
Debbie True, County Treasurer		53,726
Shawn Minter Jr., County Coroner		16,827
Teresa Jayne Scott, Public Administrator		31,283
Diane Livengood, County Collector (2), year ended February 28,	68,042	
Lori Brown Jones, County Assessor, year ended August 31,		54,455

- (1) Includes \$2,649 of commissions earned for preparing city property tax books.
(2) Includes \$12,416 of commissions earned for collecting city and drainage district property taxes.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 11 political subdivisions required to file a financial report by May 31, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in May 2018, after their filing deadline. The filing status for these 13 entities is presented in summary on page 3 and by individual entity in Appendix B-E.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

May 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 11 political subdivisions, other than cities, towns, and villages, with a fiscal year end of November 30, 2017. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 11 political subdivisions, 9 filed an annual financial report by May 31, 2018.

This report also includes the filing status for 13 political subdivisions, other than cities, towns, and villages, that filed their financial report in May 2018, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the cities required to file a financial report by May 31, 2018, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 2 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for cities, towns, and villages that filed at least one of the items (financial report, addendum, or certification) in May 2018, after their filing deadline. The filing status for these 34 cities and 1 village is presented in summary on pages 3-4 and by individual entity in Appendixes B to F.

Nicole R. Galloway, CPA
State Auditor

Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

May 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 2 cities with a fiscal year end of November 30, 2017, whose financial report was due by May 31, 2018. Of these entities, 1 filed their financial report timely. One entity was required to file an addendum and a certification, which were filed.

This report includes the filing status for 34 cities and 1 village that filed at least one of the items (financial report, addendum, or certification) in May

Office of Missouri State Auditor
Nicole Galloway, CPA

Thirtieth Judicial Circuit
City of Seymour
Municipal Division

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Thirtieth Judicial Circuit - City of Seymour Municipal Division

Accounting Controls and Procedures	The municipal division has not adequately segregated accounting and record-keeping duties, and neither the Municipal Judge nor city personnel performed supervisory or independent reviews of accounting and bank records. The Court Clerk does not periodically review accrued costs owed to the municipal division. The municipal division and the city have little assurance that the law enforcement training surcharge was properly used in compliance with state law.
Municipal Division Procedures	Municipal division case records are not maintained in an accurate, complete, and organized manner. The Municipal Judge does not always approve the final disposition of cases brought before the court or the fines handled through the Violation Bureau. The Municipal Judge's approval of dismissed tickets is not always documented. The municipal division and the police department do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly. The Municipal Judge has not issued a court order for the schedule of fines and court costs to be collected on tickets paid through the Violation Bureau. The Court Clerk does not file a monthly report of cases heard with the city.
Electronic Data Security	The municipal division has not established adequate passwords controls to reduce the risk of unauthorized access to computers and data. Security controls are not in place to lock computers after a specified number of incorrect logon attempts.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge
Thirtieth Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Seymour, Missouri

We have audited certain operations of the City of Seymour Municipal Division of the Thirtieth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the fiscal year ended June 30, 2017. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.
2. Evaluate the municipal division's and city's compliance with certain legal provisions.
3. Evaluate the municipal division's compliance with certain court rules.
4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

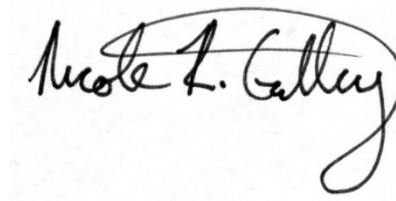

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) noncompliance with court rules, and (4) no noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Seymour Municipal Division of the Thirtieth Judicial Circuit.

A petition audit of the City of Seymour, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Thirtieth Judicial Circuit

City of Seymour Municipal Division

Management Advisory Report - State Auditor's Findings

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the fiscal year ended June 30, 2017, the municipal division collected \$19,553 in fines, court costs, and bonds.

1.1 Segregation of duties and oversight

The municipal division has not adequately segregated accounting and record-keeping duties, and neither the Municipal Judge nor city personnel performed supervisory or independent reviews of accounting and bank records.

The Court Clerk and Utility Clerk share duties and both employees are primarily responsible for duties related to collecting court monies, recording and posting these monies in the case management system, and preparing deposits to the city's bank account. The City Clerk generally reconciles the bank account.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include accounting for the numerical sequence of receipt slips and ensuring monies received have been accounted for properly.

1.2 Accrued costs

The Court Clerk does not periodically review accrued costs owed to the municipal division. The case management system tracks accrued costs and can produce a report of balances due; however, the Court Clerk does not print and review this report to identify cases needing additional collection efforts or are potentially uncollectible. As of June 30, 2017, accrued costs recorded in the case management system totaled \$26,948. However, based upon a comparison performed between manual case records and the accrued costs report, the accuracy and completeness of the report is questionable. For example, 5 cases totaling \$922 were dismissed by the Prosecuting Attorney between June 9, 2015, and November 8, 2016, but the accrued costs report indicated that amount was still due for these cases.

Once a case has been dismissed by the Prosecuting Attorney and approved by the Municipal Judge, the Court Clerk enters the change in the case management system. Although she enters case dismissals in the system as they occur, she was unaware the fines and court costs were not being waived automatically by the system. Additionally, in approximately March 2017, the majority of cases filed prior to 2014 were considered uncollectible by the Municipal Judge and, as a result, he directed the Court Clerk to begin closing these cases and disposing of the records. However, the case management system still showed amounts due of \$21,342 from 162 cases filed between 1996 and 2013. As a result, accrued costs are overstated. The Municipal Judge did not formally document his directive to the Court Clerk.

Thirtieth Judicial Circuit
City of Seymour Municipal Division
Management Advisory Report - State Auditor's Findings

Proper and timely monitoring of receivables is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. In addition, proper monitoring is necessary to provide information to the Municipal Judge and to determine appropriate handling when amounts are deemed uncollectible.

1.3 Law enforcement training surcharge

The municipal division and the city have little assurance that the law enforcement training surcharge was properly used in compliance with state law. The city did not establish a separate fund and/or accounting for surcharge collections, is not accounting for the monies expended, does not know what has been spent or the remaining balance, and cannot demonstrate usage of surcharge funding complied with statutorily intended purposes.

During the fiscal year ended June 30, 2017, the municipal division deposited surcharge monies totaling \$330 into the city's bank account. The city passed an ordinance to assess the \$2 surcharge in March 1983. Section 488.5336.2, RSMo, requires these surcharge funds be used only for the training of law enforcement officers.

To ensure compliance with applicable state laws, separate funds and/or accounting of receipts and related disbursements associated with specific activities or restricted usage should be maintained.

Recommendations

The City of Seymour Municipal Division:

- 1.1 Segregate accounting duties or ensure documented supervisory reviews of detailed accounting and bank records are performed.
- 1.2 Establish procedures to routinely generate and review the accrued costs list, ensure proper follow up on amounts due, and provide information to and work with the Municipal Judge regarding amounts deemed uncollectible. Also, the Municipal Judge should ensure future directives are properly documented.
- 1.3 Work with the city to ensure surcharges collected for the law enforcement training surcharge are adequately tracked or deposited into a separate bank account and expended for statutorily allowed purposes.

Auditee's Response

- 1.1 *The City Clerk will oversee and independently review the municipal division's accounting and bank records, including receipt slips by number and all other monies received, and will document her review.*
- 1.2 *It is the order of the court that the Court Clerk present to the Municipal Judge all cases where there are uncollected fines and for which no payment has been made in 3 years. The Judge will review*

Thirtieth Judicial Circuit
City of Seymour Municipal Division
Management Advisory Report - State Auditor's Findings

and determine whether additional collection efforts should be made, or whether the fines and court costs should be deemed uncollectible. If the fines are determined to be uncollectible, then the Judge will note that determination in writing on the case docket, and the Court Clerk shall deduct the total of those fines and court costs from the total accrued fines and court costs.

- 1.3 *The municipal division will pay that part of the court costs collected for law enforcement training into a separate bank account set up by the city for the purpose of segregating and tracking these monies.*

2. Municipal Division Procedures

Municipal division procedures need improvement.

2.1 Municipal division records

Municipal division case records are not maintained in an accurate, complete, and organized manner. The Court Clerk documents case activity for each defendant on computerized docket sheets maintained in the case management system. In addition, the Court Clerk maintains case files that include copies of the ticket, manual docket (backer sheet), bond information (if applicable), and court related correspondence (e.g., summons, warrants, and attorney communication). For each defendant, the Municipal Judge will generally document case activity on the court docket while court is in session, sign the court docket, and provide it to the Court Clerk for record-keeping purposes. Information recorded on the manual docket was often incomplete, inaccurate, and, in most cases, blank. The original charge did not agree between manual and electronic records for 4 tickets, and case activity (e.g., cost assessed, amended, dismissed, and warrant activity) did not agree between manual and electronic records for 8 tickets.

Supreme Court Operating Rule 4.08 requires municipal divisions to maintain a docket or backer sheet for each case. All information regarding the case should be documented including, but not limited to, a copy of the ticket, case number, defendant name, sentence, bond information, warrant information, and disposition of the case. Accurate recording of the case information is necessary to properly account for the municipal division's financial activity. Failure to implement adequate case entry procedures increases the risk that loss, theft, or misuse of funds will go undetected and municipal division records will contain errors.

2.2 Case dispositions

The Municipal Judge does not always approve the final disposition of cases brought before the court or the fines handled through the Violation Bureau (VB). In addition, the Municipal Judge's approval of dismissed tickets is not always documented.

Thirtieth Judicial Circuit
City of Seymour Municipal Division
Management Advisory Report - State Auditor's Findings

The Court Clerk records the case activity and final disposition of each case in the case management system. Our review of 50 tickets noted 6 (12 percent) tickets did not have the Municipal Judge's approval of final disposition documented on either the court docket or the manual docket.

To ensure the proper disposition of all cases has been entered in the municipal division records, the Municipal Judge should sign the court docket to indicate approval of the recorded disposition.

2.3 Ticket accountability

The municipal division and the police department do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

The police department transmits all tickets issued, including voided tickets, to the Court Clerk. The Prosecuting Attorney will determine whether to dismiss a ticket or file it with the court. When the Prosecuting Attorney files the case with the court, the Court Clerk will process the ticket in the case management system. However, there are no procedures or records to account for the numerical sequence and ultimate disposition of all tickets issued to ensure tickets have been handled properly.

Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the municipal division and police department cannot ensure all tickets are properly submitted for processing. A record should be maintained to account for the ultimate disposition of each ticket to decrease the risk of loss, theft, or misuse of funds.

2.4 Violation bureau schedule

The Municipal Judge has not issued a court order for the schedule of fines and court costs to be collected on tickets paid through the VB. Police officers typically provide a copy of the schedule of fines and court costs with the ticket issued to each defendant. Without a court order authorizing the schedule and no effective date documented on the schedule, it was unclear when the current VB schedule was effective.

Supreme Court Rule No. 37.49(d), requires the Municipal Judge to establish a schedule of fines and court costs for each offense by court order.

2.5 Report of cases heard

The Court Clerk does not file a monthly report of cases heard with the city. Without such a report, the city cannot effectively monitor municipal division activity and ensure monies are properly remitted.

Supreme Court Operating Rule 4.29 and Section 479.080.3, RSMo, require the Court Clerk to prepare a monthly report of all cases heard in the municipal division court. The report is to be verified by the Court Clerk or Municipal Judge and filed with the city.

Thirtieth Judicial Circuit
City of Seymour Municipal Division
Management Advisory Report - State Auditor's Findings

Recommendations

The City of Seymour Municipal Division:

- 2.1 Ensure the proper disposition of cases is documented in manual and electronic records and sufficient documentation is maintained to support all case actions.
- 2.2 Ensure the Municipal Judge signs all court dockets, and reviews and approves all dismissed tickets.
- 2.3 Work with the police department to ensure the numerical sequence and ultimate disposition of all tickets are accounted for properly.
- 2.4 Establish the Violation Bureau schedule by court order.
- 2.5 Ensure a monthly report of cases heard in the municipal division is prepared and filed with the city in accordance with state law and Supreme Court Operating Rule.

Auditee's Response

- 2.1 *This problem has been corrected, and all activities for any case are recorded on the court docket. The Judge and Court Clerk will review each case to ensure that the written records and electronic records are the same.*
- 2.2 *This problem has been corrected. It is the policy of the court that all dockets be presented to the Judge for approval, and the Judge's approval is to be noted in writing by signature or initials.*
- 2.3 *The Court Clerk and Police Chief are working together to ensure that all tickets can be accounted for by number.*
- 2.4 *The court has established the fine and court costs for certain offenses in a Violations Bureau. This list has been published in several places and is followed. The Judge has now signed and dated this list and declared it to be an order of this court.*
- 2.5 *This report is now being prepared by the Court Clerk and delivered to the city, the Municipal Judge, and to OSCA on a monthly basis.*

3. Electronic Data Security

Controls over municipal division computers are not sufficient. As a result, municipal division records are not adequately protected and are susceptible to unauthorized access or loss of data.

3.1 Passwords

The municipal division has not established adequate password controls to reduce the risk of unauthorized access to computers and data. The Court Clerk, Utility Clerk, and City Clerk share the same user identification and password to access the computer used to receipt and record all payments

Thirtieth Judicial Circuit
City of Seymour Municipal Division
Management Advisory Report - State Auditor's Findings

entered into the case management system. In addition, the clerks are not required to change the password periodically.

Passwords are necessary to authenticate access to computers. The security of computer user identifications and passwords is dependent upon keeping them confidential and requiring users to enter their password when switching users. However, since passwords do not have to be periodically changed and are shared between employees, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential, and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

3.2 Security controls

Security controls are not in place to lock computers after a specified number of incorrect logon attempts.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The City of Seymour Municipal Division:

- 3.1 Require employees maintain confidential passwords that must be periodically changed.
- 3.2 Ensure municipal division computers have security controls in place to lock each computer after a specified number of incorrect logon attempts.

Auditee's Response

- 3.1 *The court has now ordered all employees to maintain a unique password, which is changed every 90 days.*
- 3.2 *The court has now directed the Court Clerk to consult with the computer vendor in order to automatically lock each computer after four incorrect logon attempts.*

Thirtieth Judicial Circuit

City of Seymour Municipal Division

Organization and Statistical Information

The City of Seymour Municipal Division is in the Thirtieth Judicial Circuit, which consists of Benton, Dallas, Hickory, Polk and Webster Counties. The Honorable Michael Hendrickson serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division does not utilize OSCA's statewide automated case management system known as JIS. Instead, the municipal division utilizes Summit, an automated case management system provided by Data Technologies, Inc., which has been approved for use in municipal divisions by the State Judicial Records Committee.

Personnel

At June 30, 2017, the municipal division employees were as follows:

Title	Name
Municipal Judge	Kenneth Thompson
Court Clerk	Melissa Fox
Prosecuting Attorney	Paul Link

Financial and Caseload Information

	Year Ended June 30, 2017
Receipts	\$19,553
Number of cases filed	274

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	\$ 12.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Sheriff's Retirement	3.00

CITIZENS SUMMARY

Findings in the audit of Sixteenth Judicial Circuit - City of Sugar Creek Municipal Division

Accounting Controls and Procedures	Neither the Municipal Judge nor city personnel perform adequate supervisory or independent reviews of accounting functions and court records. Municipal division receipts are not transmitted timely to the city for deposit. Adjustments posted in the electronic case management system are not properly documented and the municipal division has not established procedures to ensure adequate supporting documentation is maintained to support these adjustments. The municipal division has not established a formal administrative plan for the collection of court debt and does not adequately monitor accrued costs, including fines, court costs, and incarceration costs.
Municipal Division Procedures	Procedures related to municipal division monthly reporting, organization and retention of records, Prosecuting Attorney approval, warrants issued, and fine and court cost assessment need improvement. The Court Clerk did not submit accurate monthly reports of municipal division activity to the Office of State Courts Administrator. Municipal division records are not maintained in an accurate, complete, and organized manner and in accordance with court operating rules. The Prosecuting Attorney does not sign all tickets processed by the municipal division and the Prosecuting Attorney's approval of amended and dismissed tickets is not always clearly documented. The Municipal Judge does not sign all warrants issued. The municipal division does not assess certain fines and court costs in compliance with state law.
Ticket accountability	Neither the city police department nor the municipal division has developed adequate procedures to account for the numerical sequence or ultimate disposition of tickets issued.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

NICOLE GALLOWAY, CPA

Missouri State Auditor

Presiding Judge
Sixteenth Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Sugar Creek, Missouri

We have audited certain operations of the City of Sugar Creek Municipal Division of the Sixteenth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended September 30, 2016. The objectives of our audit were to:

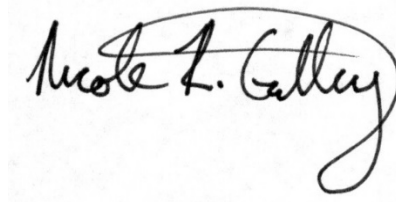

1. Evaluate the municipal division's internal controls over significant financial functions.
2. Evaluate the municipal division's and city's compliance with certain legal provisions.
3. Evaluate the municipal division's compliance with certain court rules.
4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) noncompliance with court rules, and (4) no noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Sugar Creek Municipal Division of the Sixteenth Judicial Circuit.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Audit Staff:	Austin T. Olson

Sixteenth Judicial Circuit

City of Sugar Creek Municipal Division

Management Advisory Report - State Auditor's Findings

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. For the year ended September 30, 2016, the municipal division's electronic case management system (CMS) indicated fines, court costs, and bond collections totaled approximately \$321,179.

1.1 Oversight

Neither the Municipal Judge nor city personnel perform adequate supervisory or independent reviews of accounting functions and court records. Proper segregation of duties within the municipal division is not possible because the Court Clerk is the only full-time municipal division employee.

The Court Clerk is responsible for all duties related to collecting court monies, recording and posting these monies to the CMS, transmitting fines and court costs to the city for deposit into the city's operating account, and depositing and disbursing bond monies in the municipal division's bond account. Additionally, the Court Clerk is responsible for posting manual case information, including case activity and the assessment of fines and court costs into the CMS, reconciling the bond account activity monthly, and preparing monthly financial reports. Also, bonds collected by the police department are transmitted to the Court Clerk for further processing.

Neither the Municipal Judge nor other city personnel independent of the cash custody and record-keeping functions provides an adequate independent or supervisory review of the work performed by the Court Clerk. The city's review of monies transmitted by the municipal division is limited to ensuring the total amount receipted in the city's financial accounting system agrees to the total amount transmitted to the city for deposit. Neither city personnel or the Municipal Judge account for the numerical sequence of receipt slips issued or compare the amounts recorded in the CMS to the amounts transmitted to ensure all amounts collected are transmitted to the city for deposit.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by implementing documented supervisory or independent reviews of accounting records and electronic case information.

1.2 Transmittal procedures

Municipal division receipts are not transmitted timely to the city for deposit. Our review of municipal division receipt and city deposit records noted monies collected in May 2016 and May 2017 for fines and court costs were typically transmitted to the city for deposit once a week, and cash receipts in excess of \$100 were held up to 7 days before being transmitted.

Failure to transmit collections timely increases the risk of loss, theft, or misuse of monies going undetected. Section IV.C of the Sugar Creek

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

Municipal Court Operating Order Number 1 requires the Court Clerk to deposit or transmit all municipal division receipts on a daily basis, or when the amount on hand reaches \$100.

1.3 Adjustments

Adjustments posted in the CMS are not properly documented and the municipal division has not established procedures to ensure adequate supporting documentation is maintained to support these adjustments.

Adjustments include the reduction or non-assessment of fines and court costs in which the amounts due are changed or not assessed in the CMS. Some examples of adjustments include credit for community service performed; jail time served; and modification or waiver of fines, court costs, and fees. Most adjustments should be supported by a judicial order amending the defendant's debt owed and a record of jail time served signed by a jailer or a report of hours of service from a community service organization attesting to the days spent or hours worked for credit, as applicable. Three of 60 cases reviewed did not have a written judicial order or other documentation to support the Court Clerk's adjustments posted in the CMS.

Adequate documentation of adjustments are necessary to help ensure such transactions are appropriate and reduce the risk of errors, loss, theft, or misuse of funds.

1.4 Accrued costs

The municipal division has not established a formal administrative plan for the collection of court debt and does not adequately monitor accrued costs, including fines, court costs, and incarceration costs.

The municipal division accepts partial payments from defendants; however, formal payment plans are not documented or signed by the defendant. The municipal division also does not maintain a listing of accrued costs and cannot produce a complete listing of accrued costs from the CMS.

Proper and timely monitoring of receivables is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. In addition, proper monitoring is necessary to provide information to the Municipal Judge and determine appropriate handling when amounts are deemed uncollectible. Also, payment agreements signed by the defendant formalize the liability to the municipal division and could aid in the collection of amounts due.

Recommendations

The City of Sugar Creek Municipal Division:

- 1.1 Ensure independent reviews are performed of accounting records and electronic case records.
- 1.2 Ensure receipts are transmitted to the city timely.

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 1.3 Ensure adequate documentation is retained to support all adjustments posted to the CMS.
- 1.4 Establish procedures to monitor accrued costs and obtain signed payment plans from all defendants.
- 1.1 *While we have never had any problems with monies missing, we accept the auditor's recommendation and will ensure documented independent reviews are performed of accounting and electronic case records on a periodic basis.*
- 1.2 *We agree with this recommendation and have modified Municipal Court Operating Order Number 1 to require the Court Clerk to deposit or transmit all municipal division receipts semi-weekly or when the cash amount on hand exceeds \$500.*
- 1.3 *A judicial order is now being obtained prior to posting any adjustments to a case in the CMS. Additionally, other documentation to support these adjustments will be maintained in each case file. A monthly report of adjustments to the CMS is now being printed and reviewed by the Municipal Judge.*
- 1.4 *We agree with this recommendation and will establish procedures to monitor accrued costs. In addition, we are now requiring all payment plans to be signed by the defendant.*

2. Municipal Division Procedures

2.1 Monthly reports

Procedures related to municipal division monthly reporting, organization and retention of records, Prosecuting Attorney approval, warrants issued, and fine and court cost assessment need improvement.

The Court Clerk did not submit accurate monthly reports of municipal division activity to the Office of State Courts Administrator (OSCA). As a result, municipal division activities were incorrectly reported to the state.

The Court Clerk generates the monthly Municipal Division Summary Reporting Form from the computerized CMS, showing caseload information, warrant information, and collection amounts entered into the CMS. This monthly report is submitted to the OSCA.

Our review of these monthly reports identified numerous errors related to system programming. Caseload information for 162 cases was not included in monthly summary reports due to inaccurate and/or incomplete violation reporting codes programmed in the CMS. In addition, the following table presents actual amounts distributed compared to distribution amounts reported to OSCA for the fiscal year ended September 30, 2016.

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

Distributions	Actual	Reported	Over/(Under) Reported
Fines	\$ 243,081	256,024	12,943
Court costs	20,499	17,152	(3,347)
Court surcharges	24,691	24,793	102
Warrant fees	5,931	0	(5,931)
DWI recoupment	900	900	0
Bond forfeitures	6,608	0	(6,608)
Total	\$ 301,710	298,869	(2,841)

These differences in distributions reported occurred because the monthly summary report obtained from the CMS was not accurately programmed to include amounts collected for warrant fees or bond forfeitures and did not include all amounts collected for court costs in reported distributions. These differences were not detected because the Court Clerk had not adequately reviewed these reports or identified these programming errors. Our review of May 2017 activity identified similar issues. In addition, the Court Clerk did not reconcile the monthly summary report information to amounts received and transmitted to the city for deposit or to the activity posted in the municipal division records. After we informed the Court Clerk of these discrepancies, she worked with the CMS programmer to investigate and correct the programming errors.

Missouri Supreme Court Operating Rules 4.28 and 4.29 and OSCA instructions require submission of monthly reports of caseload information and disbursements to the OSCA and the city. Reports are to be submitted by the 15th of the month following the reporting month and include all activities occurring since the last report. To ensure accurate information is reported to the OSCA, the municipal division should establish procedures to generate accurate monthly Municipal Division Summary Reporting Forms. Such procedures should include ensuring monthly reports include all activities of the entire month, and reconciling amounts received and deposited or transmitted to the activity posted in municipal division records.

2.2 Municipal division records

Municipal division records are not maintained in an accurate, complete, and organized manner and in accordance with court operating rules. The Court Clerk documents case information for each defendant on backer sheets maintained in manual case files as well as the computerized docket maintained in the CMS. However, information recorded on the backer sheets was inconsistent and often incomplete. In addition, documentation such as official notices to appear in court, plea agreements, warrants, and/or bond forfeiture forms were not always maintained in the manual case files. Manual notations by the Municipal Judge or Prosecuting Attorney on backer sheets are the official record of the court proceedings; however, these notations were not always documented consistently. The electronic CMS is

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

the official accounting record of the municipal division. Our review identified numerous discrepancies between manual and electronic records, including some fines and court costs assessed in the CMS did not agree to fines and court costs assessed on manual records.

Supreme Court Operating Rule No. 4.03 requires the official court record consist of all documents filed from the initiation to final termination of the case. Supreme Court Operating Rule No. 4.08 requires municipal divisions to maintain a docket or backer sheet for each case. All information regarding the case should be documented including, but not limited to, a copy of the ticket, case number, defendant name, sentence, bond information, warrant information, and disposition of the case. Accurate recording of the case information and retention of applicable records is necessary to properly account for the municipal division's financial and case activity and reduce the risk that loss, theft, or misuse of funds will go undetected and municipal division records will contain errors.

2.3 Prosecutor approval

The Prosecuting Attorney does not sign all tickets processed by the municipal division and the Prosecuting Attorney's approval of amended and dismissed tickets is not always clearly documented.

- The Prosecuting Attorney allows the Court Clerk to maintain and use her signature stamp on all tickets filed with the division. Our review of 60 cases noted the Prosecuting Attorney's clear authorization to file charges was not always present. While most tickets retained in case files contained the Prosecuting Attorney's facsimile signature, there was no indication these tickets were each subsequently reviewed and approved by the Prosecuting Attorney.
- The Prosecuting Attorney's authorization to amend or dismiss tickets is not always clearly documented. The Court Clerk maintains the "defective equipment" and "dismissed" stamps used by the Prosecuting Attorney to document her amendment or dismissal of a ticket. While only the Prosecuting Attorney is authorized to apply the stamp, she does not initial to verify her use of it. As a result there is less assurance the Prosecuting Attorney personally authorized all amendments or dismissals.
- When an alternative arrangement is agreed upon between the defendant and the Prosecuting Attorney, these arrangements are not adequately documented. A plea agreement, signed by both parties, is necessary to document the amended charges and fines and court costs. None of the 14 cases reviewed involving a plea agreement contained documentation of the approved agreement.

The ability of the Court Clerk to apply the Prosecuting Attorney's signature by facsimile stamp without a review by the Prosecuting Attorney is a

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

significant control weakness, and increases the possibility of tickets being handled improperly and the risk of loss, theft, or misuse of monies going undetected. Additionally, effective November 1, 2016, the practice of the Court Clerk applying the Prosecuting Attorney's signature is not in compliance with court operating rules.¹ Missouri Supreme Court Rules 37.34 and 37.35 state all ordinance violations shall be prosecuted by information, be in writing and signed by the prosecutor, and filed with the municipal division. The Prosecuting Attorney's review, documented with her signature, is needed to provide assurance proper cases and charges are filed with the municipal division. Additionally, to ensure the proper disposition of all cases has been entered in the municipal division records, the Prosecuting Attorney should sign or initial all amended or dismissed cases to indicate review and approval and plea agreements, signed by both parties should be documented indicating the defendant's acceptance.

2.4 Warrants

The Municipal Judge does not sign all warrants issued. The Municipal Judge has authorized the Court Clerk to issue warrants for certain types of charges, including non-appearance, failure to pay fine and court costs, failure to pay fine for parking ticket, or domestic violence, after she applies the municipal judge's facsimile signature stamp. However, according to Supreme Court Rules 37.04A and 37.45, "Warrants are signed **only** by judges unless the exception of a **specific** warrant ordered by a judge to be signed by a clerk is applicable." (emphasis in original) To ensure warrants are properly issued in accordance with Supreme Court rules, the Municipal Judge should sign warrants or provide specific written authorization for each warrant ordered by the Judge to be signed by the Court Clerk.

2.5 Fines and court costs

The municipal division does not assess certain fines and court costs in compliance with state law. We identified the following concerns:

- The municipal division charges a \$50 fine for each seat belt violation. During the fiscal year ended September 30, 2016, 185 seat belt violations were filed in the municipal division. Section 307.178, RSMo, states a fine not to exceed \$10 may be imposed, and no court costs shall be imposed, on any person for a seat belt law violation.
- The municipal division charges a \$98.50 fine and \$26.50 in court costs for all violations associated with headlight usage, including failure to use headlights due to weather conditions or fog. Section 307.040,

¹ Effective November 1, 2016, the Missouri Supreme Court amended Supreme Court Rule 37.04, adding an appendix that established 10 minimum operating standards for municipal courts. The 7th standard prohibits court personnel from performing functions for the municipality that constitute an actual or apparent conflict of interest. Work performed by court personnel on behalf of law enforcement or the prosecuting attorney is cited in the rule as one example of an actual or apparent conflict of interest.

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

RSMo, states a fine not to exceed \$10 may be imposed, and no court costs shall be imposed, for any headlight violation due to weather or fog.

- The municipal division does not assess or collect the \$3 Sheriffs' Retirement surcharge in compliance with state law. Sections 57.955.1 and 488.024, RSMo, require a surcharge of \$3, payable to the Sheriffs' Retirement Fund, be assessed and collected in all civil actions filed and in all criminal cases including violations of any county ordinance or any violation of criminal or traffic laws, including infractions. Attorney General Opinion 20-2013 (April 17, 2013) concluded municipal courts must collect this fee in municipal ordinance violation cases.

The municipal division should ensure fines and court costs are assessed in accordance with state law.

Recommendations

The Sugar Creek Municipal Division:

- 2.1 Establish procedures to ensure the accuracy of monthly Municipal Division Summary Reporting Forms.
- 2.2 Ensure the proper disposition of cases is documented in manual and electronic records and sufficient documentation is maintained to support all case actions.
- 2.3 Ensure a ticket or information signed by the Prosecuting Attorney is filed for each traffic or ordinance violation to be prosecuted. In addition, the municipal division should ensure the Prosecuting Attorney reviews and approves all amended and dismissed tickets. Also, plea agreements should be signed by all parties and be documented in the case files.
- 2.4 Ensure warrants are signed by the Municipal Judge or documentation of the Municipal Judge's authorization to issue a specific warrant is obtained.
- 2.5 Review all fines and court costs to ensure amounts are assessed in accordance with state law and begin assessing and collecting the \$3 Sheriffs' Retirement surcharge on all applicable cases.

Auditee's Response

- 2.1 *Programming errors identified with the monthly Municipal Division Summary Reporting form have been corrected. We have established procedures to reconcile monthly reports of collections to the monthly Summary Reporting forms submitted to OSCA to ensure amounts reported are accurate.*

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

- 2.2 *We will ensure adequate documentation to support all actions is retained in the case file and will ensure manual and electronic case entries are in agreement.*
- 2.3 *We will ensure the Prosecuting Attorney reviews and approves all tickets prior to charges being filed with the court. In addition, the court has implemented procedures requiring the Prosecuting Attorney, defendant or defendant's attorney, and the Municipal Judge to sign all plea agreements. The court will ensure adequate documentation is obtained from the Prosecuting Attorney for all tickets dismissed.*
- 2.4 *We have established procedures to ensure compliance with this recommendation.*
- 2.5 *We have worked with the city to amend city ordinances related to certain seatbelt and headlight usage violations to ensure compliance with state law. However, the Municipal Judge believes the Sheriff's Retirement surcharge is unconstitutional and will not assess this surcharge on cases filed in the municipal division.*

3. Ticket Accountability

Neither the city police department nor the municipal division has developed adequate procedures to account for the numerical sequence or ultimate disposition of tickets issued.

The police department maintains records to track ticket books assigned to each officer, however, neither the police department nor the municipal division had procedures in place to account for the numerical sequence of all tickets issued or to ensure the transmittal of all issued tickets to the municipal division. In addition, the police department did not record the disposition of unused or voided tickets.

Our review of a comprehensive list of all ticket numbers entered into the CMS during the year ended September 30, 2016, identified approximately 660 tickets within these sequences that were not included. Sequence gaps may occur because tickets have been voided, were forwarded to the county prosecutor for prosecution, or were issued before or after fiscal year 2016. We selected 25 tickets within these sequence gaps for further review and noted the following issues.

- Neither the municipal division nor police department personnel could locate 4 of the 25 tickets selected.
- The Court Clerk incorrectly entered the ticket information into the CMS for 1 of the 25 tickets.

Sixteenth Judicial Circuit
City of Sugar Creek Municipal Division
Management Advisory Report - State Auditor's Findings

- Police department personnel voided 11 of these 25 tickets; however, they did not follow consistent procedures for the handling of these tickets. For example, 7 of the 11 tickets were not mutilated and all copies were not retained and forwarded to the municipal division. Also, supervisory review and approval was not documented for any of the tickets voided and 10 of the 11 tickets did not have documentation explaining why they had been voided.

In April 2017, the police department began issuing most uniform citations for traffic violations electronically through mobile ticketing. However, manual ticket books are still issued to each officer to use for ordinance violations or if the mobile ticketing system is not working. The implementation of mobile ticketing should reduce the occurrence of skipped numbers in ticket sequences and help both the police department and court more easily track all tickets issued and account for the ultimate disposition.

Section VIII.D of Sugar Creek Municipal Court Operating Order Number 1 requires the Court Clerk to work jointly with the police department to account for all traffic tickets in numerical sequence and maintain a record of the disposition of all tickets assigned and issued by the police department. Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the police department and the municipal division cannot ensure all tickets are properly submitted for processing. A record should be maintained to account for the ultimate disposition of each ticket to decrease the risk of loss, theft, or misuse of funds. In addition, to ensure all voided tickets can be properly accounted for, written policies and procedures should be prepared for the handling of voided tickets.

Recommendation

The City of Sugar Creek Municipal Division work with the police department to ensure the numerical sequence and ultimate disposition of all tickets, including voided tickets, is accounted for properly.

Auditee's Response

In conjunction with the police department, the municipal division has implemented procedures to ensure the numerical sequence and ultimate disposition of all tickets is accounted for properly.

Sixteenth Judicial Circuit

City of Sugar Creek Municipal Division

Organization and Statistical Information

The City of Sugar Creek Municipal Division is in the Sixteenth Judicial Circuit, which consists of Jackson County. The Honorable John M. Torrence serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division does not utilize OSCA's statewide automated case management system known as JIS. Instead, the municipal division utilizes Incode, an automated case management system provided by Tyler Technologies, Inc., which has been approved for use in municipal divisions by the State Judicial Records Committee.

Personnel

At September 30, 2016, the municipal division employees were as follows:

Title	Name
Municipal Judge	Garry L. Helm
Court Clerk	Peggy S. Doss

Financial and Caseload Information

	Year Ended September 30, 2016
Receipts	\$321,179
Number of cases filed	3,301

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	\$ 12.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Domestic Violence Shelter	4.00
DWI Recoupment Fee	75.00
Warrant Fee ¹	50.00

¹ In September 2016, the municipal division stopped assessing warrant fees. Warrant fees previously assessed on open cases are being waived.

Office of Missouri State Auditor
Nicole Galloway, CPA

Kinloch Fire Protection District

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Kinloch Fire Protection District

Background

The district is governed by a 3-member Board of Directors. Jayna Small served as the Board President from April 22, 2013, through March 20, 2017, and was responsible for all financial activities of the district. Her husband, Darren Small, served as the district's Fire Chief from September 2014 through March 20, 2017, and was responsible for overseeing daily operations of the district.

In January 2017, we began an audit of the district due to the district's noncompliance with audit and reporting requirements. In March 2017, the United States Attorney's Office for the Eastern District of Missouri filed criminal charges against Jayna and Darren Small for conspiring to divert funds from the district's bank account for their own personal use.

Jayna Small pleaded guilty to one count of conspiracy to commit access device fraud and one count of interstate transportation of money obtained by fraud on July 24, 2017, and was sentenced to probation on October 17, 2017. Darren Small pleaded guilty to one felony count of conspiracy to commit access device fraud and one count of access device fraud on August 3, 2017, and was sentenced to 8 months in prison on October 25, 2017. Additionally, they were ordered to repay \$75,000 to the district.

The Smalls' actions represent the district's second consecutive misappropriation of monies by those in elected or appointed district positions. In April 2013, a federal grand jury indicted Darran Kelley, a former district Fire Chief (appointed in 2002), on felony charges for his unauthorized use of more than \$140,000 of district funds from January 2007 to January 11, 2013. On July 24, 2013, Darran Kelley pleaded guilty and was later sentenced to 33 months in prison on November 19, 2013.

Misappropriated Monies

Between January 1, 2014, and March 20, 2017, district disbursements totaling at least \$98,189 were improper or unsupported. The former Board President and former Fire Chief misappropriated approximately \$72,484 through improper purchases and cash withdrawals from the district's bank account. In addition, documentation to support an additional \$25,705 in disbursements during this time period was not retained.

Board of Directors Oversight and Elections

The district's Board does not perform sufficient oversight of district accounting activities. The Board did not establish adequate segregation of duties or review processes over the various financial accounting functions performed by the former Board President. The district did not hold elections for members of the Board in compliance with state law. The district did not notify the Board of Elections that it had called for any elections between 1991 and 2016.

Accounting Controls and Procedures

The district did not maintain adequate accounting records. Receipt slips were not issued for monies received and no record of receipts was maintained. In addition, no disbursement ledger was maintained. The district's disbursement review and approval process needs significant improvement. The district does not have adequate controls over checks. The district did not have a policy restricting or limiting the use of the district's debit card. The former Board President did not ensure bills were paid timely causing the district to incur approximately \$768 in late fees, convenience fees, reconnection fees, and other similar fees between January 1, 2014, and March 20, 2017. The district did not have procedures in place to prepare and file 1099-MISC forms with the Internal Revenue Service (IRS), as required.

Nepotism

In September 2014, the husband of the former Board President was appointed as Fire Chief for the district. Board meeting minutes were not available to document if the former Board President recused herself from participating in all Board discussions and/or voting associated with this appointment.

Procurement Procedures and Agreements	Controls and procedures over the district's bidding and written agreement procedures need improvement. The district does not have a formal bidding policy and bids were not solicited for required purchases made between January 1, 2014, through March 31, 2017. The district entered into an agreement with a local consulting firm in 2015 and the Assistant Fire Chief in 2016 to complete plan reviews and inspections for commercial building construction occurring within the fire protection district. These agreements lacked clear and comprehensive guidelines, timeframes, and/or locations or projects associated with each agreement. The district improperly paid for trash services for the City of Kinloch and the city still owes the district \$331 for payments made on the city's behalf for these services.
Budgets and Financial Reporting	Annual budgets are not prepared for district funds and significant improvement is needed in financial reporting practices. The district did not prepare annual budgets for district funds as required by state law for fiscal years 2014, 2015, 2016, or 2017. The district did not submit a financial report to the SAO as required by state law for the year ended December 31, 2016, and financial reports submitted for the years ended December 31, 2014 and December 31, 2015, were not accurate. The district did not obtain an independent audit of its financial statements as required by state law for the years ended December 31, 2015, and December 31, 2016.
Capital Assets and Fuel and Vehicle Usage	Controls and procedures over the district's property and fuel and vehicle usage need improvement. The district does not maintain records of capital assets and does not tag assets or perform physical inventories. The district has not established effective monitoring procedures over fuel and vehicle usage. The district did not report the value of personal (commuting) mileage for the former Fire Chief's personal use of an unmarked district vehicle on his W-2 forms as required by the IRS. The district failed to title and register a vehicle donated to the district with the DOR.
Sunshine Law, Compliance, and Bylaws	The district did not always ensure compliance with the Sunshine Law, and did not obtain surety bonds for board members. The district did not prepare or could not locate meeting notices, tentative agendas, or minutes for any board meetings or tax hearings occurring after September 26, 2013, and prior to March 28, 2017. The district has not adopted a written policy regarding public access to district records as required by state law. The district has not obtained corporate surety bonds for its board members, or filed these bonds with the St. Louis County Circuit Clerk. The district does not have up-to-date and comprehensive bylaws.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Board of Directors
Kinloch Fire Protection District

The State Auditor is required under Sections 29.230 and 321.690, RSMo, to audit the Kinloch Fire Protection District. We have audited certain operations of the district in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the period of January 1, 2014, to March 20, 2017. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the extent of monies misappropriated from the district.

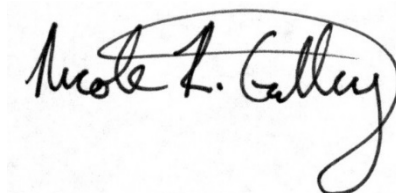

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; testing selected transactions; and inspecting capital assets. The district could not locate or provide us with board minutes for any board meetings occurring during the scope of our audit or bylaws or formal policies and procedures related to the administration of the districts operations. In addition, the district did not maintain records to support most of the district's financial transactions, including incomplete receipt records and lack of invoices or other documents to support disbursements. Because of these limitations on the scope of our audit, we could not adequately audit certain transactions.

We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Except as discussed in the second paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) misappropriated monies totaling at least \$72,484 (\$52,757 in cash withdrawals and related fees and \$19,727 in improper disbursements). In addition, \$25,705 of additional disbursements was unsupported and may be improper. The accompanying Management Advisory Report presents our findings arising from our audit of the Kinloch Fire Protection District.

Kinloch Fire Protection District

Introduction

Background

The Kinloch Fire Protection District, located in St. Louis County, was organized in 1944 under Section 321, RSMo, and operates on a volunteer basis. District operations have historically been funded by taxes levied on property located within the district and various miscellaneous revenues. In 2015, the district began collecting a permit fee for the review of building plans and performance of fire prevention and life safety inspections for commercial construction projects located within the district boundaries. With the development of NorthPark business park in North St. Louis County, including the City of Kinloch, the district's revenues increased significantly. In 2015 and 2016, the district collected approximately \$134,000 and \$51,000, respectively, for these reviews and inspections.

The district is governed by a 3-member Board of Directors. Jayna Small served as the Board President from April 22, 2013, through March 20, 2017, and was responsible for all financial activities of the district. Her husband, Darren Small, served as the district's Fire Chief from September 2014 through March 20, 2017, and was responsible for overseeing daily operations of the district. In addition, Darren Small's sister, Nicole Small, served as a Board member from April 6, 2016, through March 29, 2017.

Based on financial data we compiled and representations to the State Auditor's Office (SAO) regarding the Section 321.690, RSMo, audit and reporting requirements,¹ the district's revenues have totaled less than \$50,000 for most of the past several years. However, revenues totaled approximately \$157,973 and \$81,369 in 2015 and 2016, respectively, requiring the district to obtain an audit. Despite both verbal and written notifications to the district that obtaining an audit was required, the district failed to do so. Because the district did not obtain the required audit, Section 321.690.3, RSMo, indicates "... the state auditor shall make, or cause to be made, the required audit at the expense of the fire protection district."

The SAO began an audit of the district in January 2017 due to the noncompliance. Additionally, the Federal Bureau of Investigation (FBI) also initiated an investigation of the district. In March 2017, the U.S. Attorney's Office for the Eastern District of Missouri filed criminal charges against Jayna and Darren Small. According to the criminal complaint, Jayna and Darren Small conspired to divert funds from the district's bank account for their own personal use, including to purchase clothing, food, liquor, cigarettes and other items, and to pay for their personal household utility bills.

¹ Section 321.690, RSMo, requires certain fire protection districts to have an audit performed biennially and forward the audit report to the SAO within 6 months of fiscal year end. However, the law also provides that fire districts receiving less than \$50,000 in annual revenues may, with approval of the SAO, be exempted from the audit requirement if the district files a financial report within 5 months of fiscal year end that complies with the reporting provisions of Section 105.145, RSMo.

Kinloch Fire Protection District Background

Jayna Small pleaded guilty to one count of conspiracy to commit access device fraud and one count of interstate transportation of money obtained by fraud on July 24, 2017, and was sentenced to probation on October 17, 2017. Darren Small pleaded guilty to one felony count of conspiracy to commit access device fraud and one count of access device fraud on August 3, 2017, and was sentenced to 8 months in prison on October 25, 2017. Additionally, they were ordered to repay \$75,000 to the district.

Prior theft of district funds

The Smalls' actions represent the district's second consecutive misappropriation of monies by those in elected or appointed district positions. In April 2013, a federal grand jury indicted Darran Kelley, a former district Fire Chief (appointed in 2002), on felony charges for his unauthorized use of more than \$140,000 of district funds from January 2007 to January 11, 2013. On July 24, 2013, Darran Kelley pleaded guilty and was later sentenced to 33 months in prison on November 19, 2013.

At the time of Darran Kelley's indictment, the district's Board was entirely vacant. Therefore, the district called for an election on April 2, 2013, to elect three Board members, including Jayna Small, to fill the vacancies. Following the election, the district did not address the conditions that enabled Darran Kelley to misappropriate monies. As a result, opportunities remained enabling the Smalls' subsequent misappropriations.

Kinloch Fire Protection District

Management Advisory Report

State Auditor's Findings

1. Misappropriated Monies

Between January 1, 2014, and March 20, 2017, district disbursements totaling at least \$98,189 were improper or unsupported. Former Board President Jayna Small and former Fire Chief Darren Small, misappropriated approximately \$72,484 through improper purchases and cash withdrawals from the district's bank account. In addition, documentation to support an additional \$25,705 in disbursements during this time period was not retained and the propriety or impropriety of these disbursements could not be determined.

Prior to 2015, when the district began collecting a permit fee for the review of building plans and performance of fire prevention and life safety inspections on commercial building construction projects located within the district, the district's primary source of revenue was property tax collections. In 2015 and 2016, however, the primary revenue source was these permit fees, which represented 85 percent and 63 percent of total revenues for 2015, and 2016, respectively. The following table shows total revenues by source for calendar years (CY) 2014 through 2016, and the period ended (PE) March 20, 2017.

The district is operated by volunteers. Prior to 2015, typical significant operational costs included insurance, utilities, fire truck loan payments, dispatching services, and fire equipment and building repairs and maintenance. Beginning in 2015, the primary additional operational cost was the contractual payments associated with the district's decision to hire a contractor to conduct plan reviews and fire prevention and life safety inspections on behalf of the district. Between September 2015 and March 2017, revenues generated from permit fees for these reviews and inspections (\$189,747) substantially exceeded the associated costs (\$53,000). A review of all disbursements for the period January 2014 through March 2017 determined overall disbursements increased significantly more with the new

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

revenue source and at a much greater pace than the associated additional costs to the district.

Had disbursements been maintained at the typical level along with only necessary added costs, the district should have had a significantly higher cash balance than the \$68,929 as of March 31, 2017.

The total number of disbursement transactions for the period January 1, 2014, through March 20, 2017, was 1,434. We reviewed each transaction for supporting documentation and evaluated the purpose. Our review determined the district did not maintain any documentation to support approximately 75 percent (1,078 of 1,434) of the transactions.

Since the district did not have supporting documentation for many of these disbursements, we contacted payees and vendors in an effort to obtain invoices or other supporting documentation, or at least an explanation of the purpose of the disbursement. Based on our review of supporting documentation and additional information obtained, we classified each disbursement transaction as improper, unsupported, or reasonable. Additionally, we separately identified all cash withdrawals made from the district's bank account through ATM withdrawals or cash back transactions at local stores (if documentation was available). We considered all cash withdrawals improper.

For purposes of this finding discussion and Appendix B, disbursements classified as improper were not considered necessary or reasonable for operations of the district and/or were considered to be personal in nature. We classified disbursements as unsupported if sufficient documentation was not available and/or we could not determine the propriety or impropriety of the payment based on information obtained. Disbursements classified as reasonable were necessary for the operation of the district based on available supporting documentation and/or additional information obtained. The disbursements classified as reasonable are not included in this report.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

Appendix B provides a detailed listing of all disbursements determined to be improper for the period January 1, 2014 through March 20, 2017. For each disbursement classified as improper, Appendix B documents the vendor, purpose, and amount classified as improper. For some transactions the amount shown represents the entire transaction, while for other transactions only the portion deemed improper is shown. The appendix also provides details regarding all cash withdrawals identified.

Appendix C summarizes all improper disbursements included in Appendix B by vendor and amount, shows the total of improper disbursements by year, and the total number of transactions classified as improper for each vendor.

Cash withdrawals

We identified \$52,757 (335 separate transactions) in cash and related banking fees withdrawn from the district's bank account through ATM withdrawals, cash back transactions, and checks. The district did not maintain any documentation to support the purpose of these cash withdrawals. Appendix B provides a detailed listing of all identified cash withdrawals from the district bank account for the scope of our audit. Between November 17, 2014, the first date we identified a cash back transaction occurred during the scope of our audit, and March 20, 2017, when the Smalls resigned, cash withdrawals averaging approximately \$155 occurred on average every 2.5 days.

- Cash totaling \$31,955 was withdrawn from the district's bank account through 182 separate ATM withdrawals. In addition, \$970 in banking fees were incurred as a result of these ATM transactions.
- A total of \$12,020 was withdrawn from the district's bank account by obtaining cash back while paying for transactions with the district's debit card at Sam's Club, Schnucks, and Walmart.
- Cash totaling \$7,812 was withdrawn from the district's bank account using checks or counter checks, including a \$7,200 check issued to Jayna Small in March 2016. While the check memo indicated this cash withdrawal was for the purchase of a utility vehicle, Jayna Small later confessed to the FBI that this money was used to pay for a relative's funeral expenses.

Appendix D summarizes all identified cash withdrawn from the district's bank account for the period reviewed.

Improper disbursements

In addition to the cash withdrawals, we identified approximately \$19,727 in additional disbursements that were not considered necessary or reasonable for the operation of the district. Many of these improper disbursements were made to personally benefit the Smalls rather than help the district. See Appendix B for a complete listing of these disbursements.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Following are explanations of various disbursements we classified as improper.

- Jayna Small issued 11 checks to herself totaling \$1,600 for petty cash, firehouse repairs, lawn care, badge sales, raffle prize, and Secret Santa shopping according to individual check memos, as shown in the following table.

Date	Check Number	Purpose	Amount
1/23/2014	1017	Cash payment for installation of hot water tank	\$ 70
2/13/2014	1024	Petty cash	100
4/29/2014	1037	Cash payment for lawn care	40
6/23/2014	1039	Cash for lawn care June & July	100
6/30/2014	1040	Petty cash	100
7/7/2014	1047	(blank)	40
7/10/2014	1048	Cash for lawn care July & August	100
7/17/2014	1049	Cash for safe and badge sales	150
7/30/2014	1052	Reimbursement for washer & dryer installation	100
11/18/2016	1090	Secret Santa shopping	700
12/23/2016	1125	Raffle prize cash	100
		Total	\$ 1,600

Each of these disbursements was classified as improper based on our review of available documentation and/or discussions with district personnel. According to district personnel, the district did not maintain a petty cash fund. There was no documentation to support the reimbursements for firehouse repairs or lawn care services. In addition, the use of district funds for a raffle and Secret Santa shopping are not prudent uses of taxpayer dollars.

- Jayna Small issued 4 checks totaling \$6,200 to the former Fire Chief, Darren Small, and District Fire Captains, Tony Merkel and Jack Knudsen, as shown in the following table. The district did not maintain any documentation or explanation for the purpose of these payments; however, according to the check memo for the check issued to Knudsen, the payment was for a 2016 bonus.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Recipient	Date	Check		Amount
		Number	Purpose	
Darren Small - Fire Chief				
	8/5/2016	1086	(blank)	\$ 2,000
	11/20/2016	1123	(blank)	1,000
			Total	<u>\$ 3,000</u>
Tony Merkel - District Fire Captain				
	8/5/2016	1085	(blank)	\$ 3,000
			Total	<u>\$ 3,000</u>
Jack Knudsen - District Fire Captain				
	12/15/2016	1124	2016 Bonus	\$ 200
			Total	<u>\$ 200</u>

The Fire Chief, as well as the Fire Captains, serve the district on a volunteer basis and are not compensated. Since there is no documentation to support the purpose of these payments, these disbursements were classified as improper. In addition, additional compensation for services previously rendered, such as bonuses, are in violation of Article III, Section 39 of the Missouri Constitution and contrary to Attorney General Opinion No. 72-1955 (June 14, 1955).

- Approximately \$6,217 was spent at stores such as Sam's Club, Schnucks, and Walmart for improper items, including \$160 for tobacco products and \$86 for alcohol. Other improper items include groceries, women's and children's clothing, baby supplies, health and beauty products, over-the-counter medications, toys and video games, and household items.
- The district paid approximately \$1,511 for telephone/internet services, \$333 for trash services, and \$165 for electric services for non-business accounts that were not associated with the district or the personal residence of the Smalls. We determined the accounts associated with the trash services were related to an agreement with the City of Kinloch (See MAR finding number 5.3), however, we could not determine whose accounts were associated with the telephone/internet or electric services. Since they were not associated with the district, we classified all of these disbursements as improper.
- The district spent approximately \$1,189 on food purchases at local restaurants and fast food vendors such as McDonald's, Hometown Buffet, and Subway. According to district personnel, the district does not provide food for the volunteer firefighters. Therefore, we classified each of these disbursements as improper.
- The district purchased approximately 1,200 square feet of vinyl floor tile in June 2016 for \$987 from Home Depot. During a site visit to the district

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

fire station in April 2017, auditors observed tile floors in varying levels of condition. None of the tile flooring at the station was similar to the tile purchased or appeared to have been installed within the last 10 months. In addition, auditors did not observe any uninstalled vinyl flooring on hand at the station.

- The district paid approximately \$1,525 for utility services associated with the Smalls' personal residence. We classified each of these transactions as improper.

Vendor	Payment Dates	Amount
Ameren Electric	March 2016 - April 2016	\$ 321
AT&T	February 2014 - August 2014	304
Laclede Gas	February 2016 - April 2016	900
Total		<u>\$ 1,525</u>

Unsupported disbursements We identified approximately \$25,705 in unsupported disbursements. The district did not retain sufficient documentation to support these disbursements and we could not determine the propriety or impropriety of them based on information obtained. We classified them as unsupported.

Included in this unsupported disbursement amount is \$1,090 in checks issued to board members for board meeting attendance fees. Because the district did not prepare or could not locate board meeting minutes for any board meetings occurring after September 26, 2013, as discussed further in MAR finding number 8.1, we could not confirm Board members were in attendance for any meetings associated with these payments, and therefore, classified all of these payments as unsupported. In addition, these attendance fees are considered compensation and should have been subject to payroll and income tax withholdings, and reported by the district on W-2 forms.

Details of these payments follow:

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Board Member	Date of Check	Check Number	Amount of Check	Month(s) Paid
Jayna Small	2/2/2014	1021	\$ 50.00	January 2014
	2/26/2014	1027	50.00	February 2014
	4/29/2014	1033	100.00	March and April 2014
	7/24/2014	1050	40.00	Unknown
	12/6/2016	1094	200.00	Unknown
	Total		<u>\$ 440.00</u>	
Roy Oldham	2/2/2014	1018	\$ 50.00	January 2014
	2/26/2014	1026	50.00	February 2014
	4/29/2014	1035	50.00	April 2014
	12/6/2016	1092	200.00	Unknown
	Total		<u>\$ 350.00</u>	
Clara Jones	2/26/2014	1025	\$ 50.00	February 2014
	4/29/2014	1034	50.00	April 2014
	Total		<u>\$ 100.00</u>	
Nicole Small	12/6/2016	1093	\$ 200.00	Unknown
	Total		<u>\$ 200.00</u>	

Section 321.190, RSMo, allows board members to receive an attendance fee not to exceed \$100 for attending each board meeting. In August 2013, the Board approved the payment of \$50 to each Board member for each Board meeting attended. Section 105.300, RSMo, defines elected officers of a political subdivision as an employee for Social Security and Medicare tax purposes. For employees, the Internal Revenue Service (IRS) requires employers to report compensation on W-2 forms and withhold and remit income and payroll taxes.

The remaining unsupported disbursements totaling \$24,615 are summarized in the following table by vendor, number of transactions, and total of all unsupported amounts disbursed to each vendor.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Vendor	Number of Transactions	Amount
Fuel vendors ¹	213	\$ 5,882
Family Dollar	118	5,234
Walmart	46	2,186
Home Depot	17	1,406
Clearwire	21	1,150
Dollar Tree	36	1,126

Firestone	2	590
Valvoline	1	512
Dollar General	12	440
CINTAS Corp.	2	350
Christopher McAndrews	1	300
Target	1	236
Meineke Car	1	220
Save-A-Lot	3	171
USA's Finest Publishers	4	156
Safelite AutoGlass	1	154
Worldwide Inventory	1	113
Schnucks	2	109
Accord	2	105
Other Vendors ²	23	756
Total	549	\$ 24,615

¹ Includes disbursements made to 13 separate fuel vendors, including Gas Mart, Phillips 66, ExxonMobil, BP, Conoco, and Shell. These vendors are all located in the St. Louis area.

² Includes all remaining disbursements classified as unsupported. The total unsupported disbursement amount for each vendor was less than \$100.

Conclusion

Because of the small size of the district and personnel being primarily volunteer fire fighters, proper segregation of duties is challenging. Administrative work and oversight is left to the fire chief and Board members. In addition, concerns regarding elections and uncertainty as to the composition of the Board, as further discussed in MAR finding number 2.2, contributed to the overall disorganization of the district's governing body and resulted in insufficient oversight and controls. Despite experiencing a significant theft by former Fire Chief Darran Kelley, the Board did not implement proper controls and oversight, which allowed district funds to again be subject to mismanagement and theft.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

The lack of segregation of duties and absence of proper oversight by the Board, poor accounting controls, and the lack of proper budgeting and financial reporting procedures, as discussed in the remainder of this report, allowed for the misappropriation and misuse of district funds and noncompliance with various laws.

Recommendation

The Board of Directors should ensure the propriety of all district disbursements and ensure detailed documentation is obtained and retained to support all disbursements. The Board should take necessary action to recover the improperly disbursed monies. In addition, the Board should discontinue the practice of paying bonuses, ensure compensation paid is subject to proper withholdings, and procedures are established to prepare and file W-2 forms with the IRS as required.

Auditee's Response

We have implemented procedures to ensure all district disbursements are reasonable and necessary expenditures for the district. Documentation for all district expenditures are reviewed and approved by Board members and are scanned and retained at the district firehouse. The district is currently receiving restitution payments from the Smalls and we will follow up with the court as necessary to ensure the district recovers improperly disbursed monies. Currently, Board members are not being paid an attendance fee for attending Board meetings. However, should this change in the future, we will ensure required taxes are withheld from compensation and procedures are established to prepare and file W-2 forms with the IRS as required.

2. Board of Directors Oversight and Elections

The Board does not perform sufficient oversight of district accounting activities. In addition, the district did not comply with state law regarding the election and appointment of members to the Board.

2.1 Oversight

The Board did not establish adequate segregation of duties or review processes over the various financial accounting functions performed by the former Board President.

The former Board President was responsible for all duties related to collecting and recording monies, preparing and making deposits, and making disbursements. Neither the Board nor someone independent of the cash custody and record-keeping functions performed an independent review of accounting functions performed by the former Board President. As a result, as discussed in MAR finding number 1, the lack of adequate controls and proper oversight allowed misappropriation and misuse of district funds to occur. Issues described in section 2.2 contributed to the Board's failure to properly oversee district functions.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

To reduce the risk of loss, theft, or misuse of funds, and ensure all transactions are accounted for properly and assets are adequately safeguarded, adequate controls, including proper segregation of duties, and Board oversight of accounting functions is necessary.

2.2 Board of Directors elections and appointments

The district did not hold elections for members of the Board in compliance with state law. In addition, the Board did not appoint members due to vacancies in compliance with state law. The district's Board consists of 3 directors who are elected to serve 6-year terms with one director elected biennially. The district is required to hold an election for members of the Board on the first Tuesday in April of odd numbered years.

April 2016 election

Following the district's April 2015 election, all 3 members of the Board had been elected. However, prior to January 2016, 2 of the 3 directors had resigned and their seats were vacant. The district called for, and held, an election in April 2016 to fill the unexpired terms. Nicole Small (former Fire Chief Darren Small's sister) and DeAndre Montgomery were elected to the Board as a result of the April 2016 election.

Documents filed with the St. Louis County Board of Elections (BoE) for the April 2016 election indicated the candidates were filling unexpired terms ending in 2019 and 2021. However, the actual terms for the two vacant seats ended in 2017 and 2019. As a result, the district did not hold the required April 2017 election.

March 2017 Board appointments

On March 20, 2017, Jayna Small resigned from the Board. In addition, following the election of DeAndre Montgomery in April 2016, but prior to March 28, 2017, Mr. Montgomery resigned from the Board and moved out of the district (date unknown). While there is no documentation indicating who, if anyone, was appointed to fill Mr. Montgomery's unexpired term, it appears Roy Oldham may have been appointed. The district held a Board meeting on March 28, 2017, at which Nicole Small and Roy Oldham presented themselves as the remaining district Board members and voted to appoint Isaac Hamilton to fill the Board seat vacated by Jayna Small. Additionally, Nicole Small announced her resignation from the Board effective March 29, 2017. In anticipation of her upcoming resignation, Nicole Small and Roy Oldham voted to appoint Walter Macon to fill the Board seat to be vacated by Nicole Small the following day.

As Nicole Small was the only elected Board member at the March 28, 2017, Board meeting, neither Hamilton's nor Macon's appointments to the Board are allowed by state law. In addition, the act of appointing a Board member in anticipation of an upcoming vacancy is not authorized by state law. Board members can only be appointed when a vacancy occurs.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

August 2017 special election

In April 2017, the St. Louis County Prosecuting Attorney filed a petition with the St. Louis County Circuit Court challenging the appointments of Macon, Hamilton, and Oldham. Following this petition being filed, Hamilton voluntarily resigned from the Board on May 5, 2017. On May 11, 2017, the remaining Board members, Oldham and Macon, decided to call for a special election on August 8, 2017, to elect all 3 Directors to the Board. However, on August 4, 2017, prior to the special election, the St. Louis County Circuit Court appointed Roy Oldham, Deirdre Pickens, and Walter Macon to the Board.

Conclusion

The election held in April 2016 and the special election called for in August 2017 do not comply with state law. Section 321.210, RSMo, states the district shall hold an election for members of the board of directors on the first Tuesday in April every 2 years after the expiration of at least 2 full calendar years from the date of the election of the first board of directors. The election of the first Board occurred on April 11, 1944. To comply with this law, the district was authorized to hold its next election on April 8, 1947, and biennially, thereafter.

In addition, the election in 2016, Board appointments in March 2017, and call for a special election in August 2017 conflict with Section 321.200.2, RSMo, which requires any board vacancy be filled by the remaining elected members of the board, except when less than two elected members remain on the board any vacancy shall be filled by the circuit court of the county in which all or a majority of the district lies and shall act until the next biennial election at which a director or directors are elected to serve the remainder of the unexpired term.

2.3 Board of Elections notification

The district did not notify the BoE that it had called for any elections between 1991 and 2016. In the district's 2013 and 2015 elections, the number of candidates equaled the number of vacant board seats. Because these elections were not contested, no election (public vote) was required, however, the BoE is required to publish notice of the candidates assuming office. Since the district did not notify the BoE that it had called for such elections this information was not published as required.

Section 115.124, RSMo, states that for nonpartisan elections in political subdivisions and special districts, no election is required if the entity publishes the correct notice under Section 115.127, RSMo, and if the number of candidates who have filed for a particular office is equal to the number of seats in that office to be filled by the election. If no election is held, then the election authority is required to publish a notice containing the names of the candidates that shall assume office by the first of the month in which the election would have occurred.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Directors:

- 2.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, a documented periodic review of the district's accounting records should be performed, and monthly financial reports should be prepared and approved by the Board and filed with the Board minutes.
- 2.2 Ensure elections are held as authorized by state law and Board member vacancies are properly filled.
- 2.3 Work with the BoE to ensure that proper notice is published as required by state law.

Auditee's Response

- 2.1 *The current Assistant Fire Chief prepares a list of all district expenditures and presents this list to Board members at each Board meeting for review and approval. Additionally, we have discontinued the use of the district debit card and all checks issued by the district should contain the signature of two of the three Board members.*
- 2.2 *We will ensure elections are held as authorized by state law and Board member appointments are filled in accordance with state law.*
- 2.3 *We will work with the BoE to ensure proper notice is published as required by state law.*

3. Accounting Controls and Procedures

The district did not maintain adequate accounting records. Receipts and disbursements were not adequately recorded and the district did not track its cash balance. As a result, there is no assurance all monies collected were properly deposited or all disbursements were properly approved and for district business. In addition, controls and procedures over district disbursements need improvement.

3.1 Accounting records

The district did not maintain adequate accounting records. Receipt slips were not issued for monies received and no record of receipts was maintained. In addition, no disbursement ledger was maintained. While bank statements typically included the vendor and amount disbursed for each debit card transaction, and check images documented the check number, amount, and payee for each check that cleared the bank, the purpose of each disbursement was not documented. Receipts and/or invoices to support these disbursements were typically not retained. As a result of this lack of records, the district had no accounting records indicating the amount of cash available at any time and could not reconcile the district's accounting records to the bank.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

To ensure all monies received are properly accounted for, prenumbered receipt slips should be issued for all monies received and should be reconciled to amounts recorded and deposited. Receipt, disbursement, and cash information is necessary to prepare annual budgets and financial statements, perform monthly bank reconciliations, and support the district's accounting transactions. In addition, complete and accurate bank reconciliations are necessary to ensure accounting records are in agreement with the bank, and errors or discrepancies are detected and corrected timely.

3.2 Disbursement review and approval process

The district's disbursement review and approval process needs significant improvement. The Board could not provide any documentation supporting review and approval of bills paid. Our review of invoices obtained from the district showed the Board did not denote approval of individual invoices. In addition, the Board did not receive a copy of the district's bank statements for review. Had this been part of the Board's review, members could have identified and questioned the debit card transactions, ATM withdrawals, and checks clearing the district's bank account.

As noted in MAR finding number 8.1, minutes for any Board meetings occurring after September 26, 2013, and prior to March 28, 2017, which covers the entire scope of our audit, were not prepared or could not be located. Therefore, there is no documentation of the Board's approval of district disbursements available for the audit period.

To safeguard against possible loss, theft, or misuse of funds, the Board should approve all disbursements and review supporting documentation, bank information, and canceled checks. Board approval of disbursements should be documented by signing or initialing a monthly list of bills. To ensure obligations were actually incurred and amounts paid were proper, all disbursements should be supported by paid receipts, itemized vendor invoices or other detailed documentation with payment information clearly indicated.

3.3 District checks

The district does not have adequate controls over checks.

- The former Board President issued checks with only 1 signature. Between January 1, 2014, and March 20, 2017, 62 of the 68 checks that cleared the bank (including 2 counter checks) totaling \$106,414 were only signed by the former Board President. Five of the remaining 6 checks were issued in March 2017 (totaling \$9,604), and signed by both the former Board President and one other Board member. The other check was issued in February 2014 for \$532 and only included one Board member's signature.
- The former Board President did not issue checks in numerical sequence, properly account for the numerical sequence of checks issued, or retain voided checks. Our review of checks issued between January 1, 2014, and March 20, 2017, identified 18 of 68 checks (26 percent) clearing the

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

district's bank account were issued out of sequence and no documentation supported why this occurred. In addition, we could not determine the disposition of 49 additional checks potentially issued during this period, because they did not clear the bank, the district did not maintain a disbursement ledger, or documentation the checks had been voided was not retained or could not be located.

Dual authorized signatures of Board members help provide assurance that checks represent payment for legitimate district disbursements. To properly account for all disbursements and reduce the risk of unauthorized transactions, checks should be issued in numerical sequence, the numerical sequence of checks issued should be accounted for, and voided checks should be properly defaced and retained.

3.4 Debit card

The district did not have a policy restricting or limiting the use of the district's debit card. Between January 1, 2014, and March 20, 2017, 1,366 of the 1,434 district disbursement transactions (95 percent) totaling approximately \$147,000 were transacted using that card. We identified several concerns with the district's debit card usage.

- Cash totaling at least \$43,975 was withdrawn from the district's bank account through ATM withdrawals and cash back transactions using the district's debit card. In addition, the district incurred \$970 in banking fees because of these withdrawals.
- The district's debit card was used for approximately 60 percent of the improper disbursements (\$11,927 of \$19,727) identified in Appendix B.
- The district's debit card was used for approximately 93 percent of the unsupported disbursements (\$23,783 of \$25,705) identified in MAR finding number 1.

Complete and detailed written debit card policies and procedures are necessary to provide guidance. The Board should develop policies requiring submission of debit card receipt slips for comparison to bank statements, and requiring independent approval of purchases made. In addition, to safeguard against possible loss, theft, or misuse of funds, the Board should prohibit the use of ATM withdrawals and cash back transactions to access district funds.

3.5 Late fees

The former Board President did not ensure bills were paid timely resulting in the district incurring approximately \$768 in late fees, convenience fees, reconnection fees, and other similar fees between January 1, 2014, and March 20, 2017. To prevent these unnecessary costs, procedures should be established to ensure bills are paid timely.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

3.6 1099-MISC forms

The district did not have procedures in place to prepare and file 1099-MISC forms with the IRS, as required. As noted in MAR finding number 5.2, the district entered into agreements for permit inspections totaling \$25,000 in 2015 and \$28,000 in 2016. The district did not file 1099-MISC forms for these payments. In addition, the district may have been required to file 1099-MISC forms for other situations, but incomplete disbursement records prevented us from determining if this occurred.

Sections 6041 through 6050W of the Internal Revenue Code require non-wage payments of at least \$600 in one year for professional services or for services performed as a trade or business by non-employees (other than corporations) be reported to the federal government on 1099-MISC forms. To ensure compliance with IRS requirements, the district should establish procedures to ensure 1099-MISC forms are issued in all applicable instances.

Recommendations

The Board of Directors:

- 3.1 Ensure prenumbered receipt slips are issued for all monies received and are reconciled to the composition of receipts recorded and deposited. In addition, the Board of Directors should ensure accounting records are maintained including a record of all receipts, disbursements, and cash balances, and monthly bank reconciliations are prepared and maintained for the district's bank account.
- 3.2 Ensure complete lists of bills are prepared and the Board's approval is documented and retained. In addition, the Board of Directors should compare the approved list of bills to supporting documentation, canceled checks, and debit card transactions posted to the bank account to ensure disbursements are appropriate and adequately supported.
- 3.3 Issue checks in numerical sequence, ensure the numerical sequence of checks is properly accounted for, and retain voided checks. In addition, the Board of Directors should require dual signatures on all checks.
- 3.4 Adopt formal policies and procedures for debit card use and prohibit cash withdrawals of district funds.
- 3.5 Implement procedures to ensure bills are paid timely.
- 3.6 Prepare and file 1099-MISC forms with the IRS as required.

Auditee's Response

- 3.1 *We will issue prenumbered receipt slips for monies received and perform reconciliations to ensure all monies received are deposited. We are currently maintaining records of all disbursements as well as*

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

the bank account balance and are completing monthly bank reconciliations for the district's bank account.

- 3.2 *The current Assistant Fire Chief prepares a list of all district expenditures and presents this list to Board members at each Board meeting for review and approval. This list is compared to district invoices, as well as bank statements to ensure accuracy and is kept at the district firehouse.*
- 3.3 *We are issuing checks in numerical sequence and any voided check is canceled and retained at the district firehouse. We have discontinued the use of a district debit card and all checks issued by the district should contain the signature of two of the three Board members.*
- 3.4 *We have discontinued the use of a district debit card and we do not allow the use of counter checks.*
- 3.5 *We have implemented procedures to ensure bills are paid timely. If a bill is due before the next Board meeting is held, the Assistant Fire Chief will contact Board members to obtain approval and get a check signed by Board members.*
- 3.6 *We will ensure 1099-MISC forms are prepared and filed with the IRS as required.*

4. Nepotism

In September 2014, Darren Small, the husband of former Board President Jayna Small, was appointed as Fire Chief for the district. The district did not prepare or could not locate Board meeting minutes documenting this appointment. As a result, it is unclear if the former Board President recused herself from participating in all Board discussions and/or voting for this appointment.

Article VII, Section 6, Missouri Constitution, provides that any public official who names or appoints to public office any relative within the fourth degree shall forfeit his office. Because of the serious consequences resulting from appointing a relative, the Board should ensure its members abstain from any decision to appoint a relative and ensure that action is fully documented in the meeting minutes. Discussions and decisions concerning situations where potential nepotism or conflicts of interest exist should be completely documented so the public has assurance no district official has benefited improperly.

Recommendation

The Board of Directors ensure Board members abstain from voting when a relative's appointment is involved, and ensure compliance with the Missouri Constitution related to hiring relatives.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Auditee's Response

We will ensure Board members abstain from any discussion and voting when it relates to hiring a relative to ensure we comply with the Missouri Constitution.

5. Procurement Procedures and Agreements

Controls and procedures over the district's bidding and written agreement procedures need improvement.

5.1 Bidding

The district does not have a formal bidding policy and bids were not solicited for required purchases made between January 1, 2014, through March 31, 2017.

The district entered into an agreement with a local consulting firm in September 2015 for \$25,000, and with the district's Assistant Fire Chief in July 2016 for \$28,000, to complete plan reviews and inspections for commercial building construction occurring within the district without soliciting bids for these services. Because the district entered into the agreement with the Assistant Fire Chief (an appointed official) in 2016 without obtaining bids, this created a likely conflict of interest.

In addition, while not specifically required by state law, the district did not solicit bids for other significant purchases such as comprehensive general and vehicle liability insurance at a cost of \$6,538 in 2014, \$7,734 in 2015, \$8,595 in 2016, and \$4,354 for the first half of 2017.

Section 321.220.4, RSMo, requires the district publish notice for bids on all purchases of \$10,000 or more. In addition, Sections 105.454, RSMo, prohibits financial transactions between the district and elected or appointed officials or employees that involve more than \$500 per transaction or \$5,000 per annum, unless there has been public notice to solicit proposals and competitive bidding, provided the bid or offer accepted is the lowest received.

Competitive bidding helps ensure all parties are given an equal opportunity to participate in the district's business. Documented formal bidding procedures would provide a framework for economical management of district resources and help ensure the district receives fair value by contracting with the lowest or best bidders. Complete documentation should be maintained for all bids received and reasons noted why the bid was selected.

5.2 Written agreements

As noted in section 5.1, the district entered into agreements with a local consulting firm in 2015 and the Assistant Fire Chief in 2016 to complete plan reviews and inspections for commercial building construction occurring within the fire protection district. These agreements lacked clear and

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

comprehensive guidelines, timeframes, and/or locations or projects associated with each agreement. In addition, the district fully paid both permit inspection agreements prior to services being fully rendered.

- The 2015 written agreement indicated the firm was providing services related to plan reviews and inspections for Project Pillar by Clayco/NorthPark occurring between September 1, 2015, and October 30, 2016. The agreement did not specifically reference the location(s) this agreement was associated with or contain any criteria against which to evaluate the services provided and/or ensure all services had been rendered prior to payment. While the agreement included a payment schedule indicating 50 percent of the compensation was to be paid at the beginning of the project, and the balance paid by April 1, 2016, the district paid the entire \$25,000 on October 14, 2015. As a result, the district paid \$12,500 six months in advance of the agreement's scheduled date and had no assurance services paid for would be subsequently rendered.
- The 2016 proposal submitted did not specify the timeline or projects the proposal would cover, a payment schedule, or specific criteria against which to evaluate services rendered. Additionally, the proposal submitted by the Assistant Fire Chief to the Board and Fire Chief was dated June 30, 2016, and stated the cost for services associated with the proposal would be \$28,000 per year beginning in 2016 for any and all construction within the City of Kinloch.

It is unclear whether the district paid inspection fees to both contractors for services at the same locations because the agreements do not clearly define the scope or specific services to be provided, timeframes associated with the agreements appear to overlap, and the district did not require either contractor to submit documentation of services provided. In addition, the district did not retain or could not locate signed copies of these inspection agreements.

Written agreements provide the framework to detail services to be provided and the amount of monies to be paid. Clear and detailed written agreements are necessary to ensure all parties are aware of their duties and responsibilities, no duplication of related services are performed, to prevent misunderstandings, and ensure district monies are used appropriately and effectively. Section 432.070, RSMo, requires agreements for political subdivisions to be in writing and signed. In addition, prepaying for goods and services violates the Missouri Constitution. Article VI, Section 23 of the Missouri Constitution specifically prohibits political subdivisions of the state from lending credit or granting public money to any corporation, association, or individual. Also, it is not prudent for the district to prepay for goods or services. Advance payments increase the risk of agreement disputes and non-performance.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

5.3 Loan

The district improperly paid for trash services for the City of Kinloch and the city still owes the district \$331 for payments made on the city's behalf for these services. In February 2014, the district secured and began paying for trash services for 2 housing complexes owned by the city where the Smalls resided and entered into an unwritten agreement with the city for the district to be reimbursed for these costs. Trash services for these 2 locations were billed to accounts established in the district's name. The district canceled trash services at both locations on April 12, 2017. However, our review of expenses incurred for these accounts determined the district had incurred and paid \$4,291 for these services, but as of June 12, 2017, the city had only reimbursed the district \$3,960. The city still owes the district \$331.

District funds are restricted and earmarked for a specific purpose, the operation of the fire protection district. Therefore, the use of these funds for non-fire protection district operations is inappropriate. Also, Chapter 321, RSMo, does not include any provisions that authorize such a loan.

Recommendations

The Board of Directors:

- 5.1 Establish formal bidding policies and procedures, including documentation requirements regarding bid specifications, the bids or quotes received, and justification for bids selected. In addition, the Board of Directors should refrain from entering into business transactions with related parties unless such services or transactions are properly bid in accordance with state law and the selection process is documented.
- 5.2 Enter into signed, written agreements defining the scope of services to be provided, benefits to be received, and the manner and amount of compensation to be paid. In addition, the Board of Directors should refrain from making payments for services not substantially rendered.
- 5.3 Prohibit lending of district funds, and pursue reimbursement from the city for unreimbursed payments.

Auditee's Response

- 5.1 *We have established an informal bidding policy in which we require bids from 3 different vendors and typically select the lowest bid. However, we will work to adopt these policies in a more formal and documented manner. Additionally, we will ensure Board members refrain from entering into business transactions with related parties unless the transaction is bid in accordance with state law.*
- 5.2 *We will ensure the district enters into written agreements moving forward. We will work to ensure written agreements include sufficient detail and will refrain from making payments for services not substantially rendered.*

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

5.3 *We will not make loans to other entities. In addition, we will pursue reimbursement from the city for the balance due.*

6. Budgets and Financial Reporting

Annual budgets are not prepared for district funds and significant improvement is needed in financial reporting practices.

6.1 Budgets

The district did not prepare annual budgets for district funds as required by state law for fiscal years 2014, 2015, 2016, and 2017.

Section 67.010, RSMo, requires the preparation of an annual budget that shall represent a complete financial plan for the ensuing budget year, and also sets specific requirements for information to be included in the budget. Section 67.080, RSMo, provides that no expenditure of public monies shall be made unless it is authorized in a budget. A complete and well-planned budget, in addition to meeting statutory requirements, serves as a means to manage district resources, assists in setting tax levies, and informs the public about district operations and current finances.

6.2 Financial reporting

The district did not submit a financial report to the SAO as required by state law for the year ended December 31, 2016. Financial reports submitted to the SAO for the years ended December 31, 2014, and December 31, 2015, were not accurate. The district often incorrectly reported some disbursements as receipts on those reports. In addition, the district has not filed financial statements with the St. Louis County Clerk's office as required by state law since 1977.

Section 105.145, RSMo, requires each political subdivision to file an annual report of its financial transactions with the SAO. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. In addition, 15 CSR 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year. Effective August 28, 2017, under Section 105.145, RSMo, the SAO must notify the Missouri Department of Revenue if a political subdivision fails to file a timely financial statement. Failure to timely file a financial statement may subject the political subdivision to a fine of \$500 per day.

Section 321.180, RSMo, requires fire protection districts to submit a financial statement for the preceding fiscal year to the county clerk by April 1st of each year.

6.3 Audits

The district did not obtain an independent audit of its financial statements as required by state law for the years ended December 31, 2015, and

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

December 31, 2016. The district's revenues in these respective years totaled approximately \$157,973 and \$81,369.

Section 321.690, RSMo, requires certain fire protection districts in St. Louis County to obtain an independent audit performed biennially and to forward the audit report to the SAO within 6 months of fiscal year end.

Recommendations

The Board of Directors:

- 6.1 Prepare annual budgets that include all information required by state law, and ensure the budget is formally approved and the approval is documented in the Board minutes.
- 6.2 File accurate financial reports with the SAO and the St. Louis County Clerk's office annually as required by state law.
- 6.3 Ensure audits of financial statements are completed and filed with the SAO as required by state law.

Auditee's Response

- 6.1 *We will prepare annual budgets for the district and ensure they are formally approved.*
- 6.2 *We will ensure accurate financial reports are submitted to the SAO and the St. Louis County Clerk's office annually as required by state law.*
- 6.3 *We will ensure the district receives a financial audit as required by state law and file this audit with the SAO as required.*

7. Capital Assets and Fuel and Vehicle Usage

Controls and procedures over the district's property and fuel and vehicle usage need improvement. Additionally, a vehicle donated to the district was not titled or registered with the Missouri Department of Revenue (DOR) in the district's name.

7.1 Capital assets

The district does not maintain records of capital assets, including a fire truck, district vehicle, equipment, and other district property. Additionally, district personnel do not tag assets for specific identification or perform physical inventories on a periodic basis.

Adequate capital asset records and procedures are necessary to provide controls over district property; safeguard district assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

7.2 Fuel and vehicle usage

The district has not established effective monitoring procedures over fuel and vehicle usage. Between January 1, 2014, and March 20, 2017, the district purchased approximately \$9,800 in fuel at local gas stations for its fire truck, district vehicle, and small engine equipment. The district maintains a fuel log for the fire truck, but fuel purchases are not consistently documented in this log. The district does not maintain a fuel log for the district's vehicle, which was driven exclusively by the former Fire Chief during the audit period. In addition, vehicle usage logs are not documented for either vehicle.

Between November 2015 and March 2017, the district spent \$6,342 on fuel purchases (223 transactions), however, only \$883 of this amount (20 transactions) was documented on the fuel log maintained for the fire truck for this period. The district could not provide any documentation to support how the remaining 203 fuel transactions totaling \$5,459 benefited the district.

Maintaining and reviewing vehicle fuel and usage logs and comparing these usage logs to fuel purchases is necessary to ensure vehicles and equipment are properly utilized and decrease the risk of theft or misuse of fuel occurring without detection. Usage logs should provide sufficient details to allow the district to effectively monitor vehicle use and fuel costs.

7.3 Commuting miles

The district did not report the value of personal (commuting) mileage for the former Fire Chief's personal use of an unmarked district vehicle on his W-2 forms as required by the IRS. As noted in section 7.2, a vehicle usage log indicating business and personal use of the vehicle was not maintained.

IRS reporting guidelines indicate personal and commuting mileage is a reportable fringe benefit and require the value for all use of the provided vehicle to be reported if the employer does not require submission of detailed logs that distinguish between business and personal use. Additionally, the district may be subject to penalties and/or fines for failure to report all taxable benefits.

7.4 Vehicle title and registration

The district failed to title and register a vehicle (the vehicle discussed in section 7.3) donated to the district with the DOR. On December 4, 2014, another fire protection district donated a vehicle to the district. However, as of April 2017, the district had not titled the vehicle in the district's name or registered the vehicle with the DOR. It was still registered as owned by the district that made the donation.

Section 301.190, RSMo, requires a vehicle to be titled within 30 days after it is acquired. Section 301.020, RSMo, requires vehicle owners to register vehicles with the DOR.

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Directors:

- 7.1 Ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board of Directors should also ensure assets are properly tagged for identification, and annual physical inventories are performed and compared to detailed records.
- 7.2 Establish adequate records and procedures to effectively monitor vehicle and fuel use.
- 7.3 Comply with IRS guidelines for reporting fringe benefits related to personal miles and require logs that distinguish between business and personal use.
- 7.4 Ensure district vehicles are properly titled and registered with the DOR as required by law.

Auditee's Response

- 7.1 *We have already began preparing a detailed list of the district's capital assets. We will ensure annual physical inventories are performed and compared to detailed records.*
- 7.2 *We have already implemented procedures to monitor vehicle mileage when district vehicles are fueled. In addition, we will establish procedures to document vehicle usage.*
- 7.3 *We will review IRS guidelines for reporting fringe benefits related to the personal use of a district vehicle and ensure we are in compliance with these guidelines.*
- 7.4 *We will ensure this vehicle is titled and registered with the DOR as required by law.*

8. Sunshine Law, Compliance, and Bylaws

The district did not always ensure compliance with the Sunshine Law, and did not obtain surety bonds for Board members. Written guidelines for the administration of the district should be developed and maintained.

8.1 Meeting minutes and notices

The district did not prepare or could not locate meeting notices, tentative agendas, or minutes for any Board meetings or tax hearings occurring after September 26, 2013, and prior to March 28, 2017. In addition, there is no evidence that the district's tax rates were formally approved by the Board.

Kinloch Fire Protection District Management Advisory Report - State Auditor's Findings

Section 321.200.1, RSMo, requires notice of the time and place of future meetings be posted continuously at the district firehouse. In addition, Section 610.020, RSMo, requires public entities to give notice of the time, date, and place of each meeting and its tentative agenda, to advise the public of matters to be considered. The notice shall be given at least 24 hours prior to the meeting. Section 610.020, RSMo, also requires that minutes of meetings (open or closed) be taken and retained by the public governmental body. Meeting minutes serve as an official record of district actions and decisions. In addition, Section 67.110, RSMo, requires each governing body to hold at least one public hearing, at which citizens may be heard, prior to approval of the proposed tax rate.

8.2 Public access policy

The district has not adopted a written policy regarding public access to district records as required by state law. A written policy regarding public access to district records would establish guidelines for the district to make records available to the public. This policy should identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 321.200.1, RSMo, requires all board meeting minutes and other records be available for public inspection at the district firehouse. Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the district to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law.

8.3 Surety bonds

The district has not obtained corporate surety bonds for Board members, or filed these bonds with the St. Louis County Circuit Clerk. Section 321.160, RSMo, requires board members file corporate surety bonds, conditioned for the faithful performance of their duties as directors, in an amount not to exceed \$1,000 with the circuit clerk having jurisdiction.

8.4 Bylaws

The district does not have up-to-date and comprehensive bylaws. Upon our request, district officials could not locate or provide established bylaws. In addition, the Board did not maintain ordinances and resolutions in an organized manner and signed copies of ordinances and resolutions documenting Board approval were not always retained.

Section 321.220.12, RSMo, provides that fire protection districts have the authority to adopt and amend bylaws necessary for "...carrying on the business, objects and affairs of the board and of the district..." Additionally, good business practice dictates the district adopt bylaws to govern board elections, meetings, and rules for transacting district operations and financial matters and to ensure compliance with the bylaws. Bylaws can be used as a management tool for establishing district policies and procedures. Because

Kinloch Fire Protection District
Management Advisory Report - State Auditor's Findings

ordinances passed by the Board to govern the district and its residents have the force and effect of law, it is important ordinances be complete, organized, and updated on a periodic basis.

Recommendations

The Board of Directors:

- 8.1 Maintain complete and accurate minutes for all meetings and ensure proper notification and agendas for public meetings are given. In addition, a public hearing should be held annually to determine and set the property tax levy.
- 8.2 Develop written policies regarding procedures to obtain access to, or copies of, public records.
- 8.3 Obtain and file corporate surety bonds with the Circuit Clerk as required by law.
- 8.4 Ensure up-to-date bylaws are documented and are readily available to employees and the public. In addition, maintain a complete updated set of district ordinances and resolutions in an organized manner and ensure a signed copy of all district ordinances and resolutions are retained.

Auditee's Response

- 8.1 *We will ensure meeting minutes are maintained for all Board meetings. Additionally, we will ensure proper notification is given for all public meetings and will ensure a public hearing is held annually to determine and set the property tax levy.*
- 8.2 *We will work on developing a written policy regarding procedures to obtain access to public records.*
- 8.3 *We will contact the district insurance company to determine how to obtain corporate surety bonds and file these with the Circuit Clerk as required by law.*
- 8.4 *We are working to update district bylaws and ensure they are available to all district employees and the public. In addition, we will maintain a complete set of ordinances and resolutions passed by the Board going forward.*

Kinloch Fire Protection District

Organization and Statistical Information

The Kinloch Fire Protection District was incorporated in 1944 and is organized pursuant to Chapter 321, RSMo. The district covers the City of Kinloch (approximately one square mile) and also assists neighboring fire departments, as needed. The district has one fire station.

The elected Board acts as the policy-making body for district operations. The 3 Board members serve 6-year terms. Maximum salaries for Board members are established by state law. The district authorized members of the Board to be paid \$50 for each meeting attended. Current and former Board members and other key personnel serving the district are as follows:

Board of Directors, Current

Name	Date of Election	Term Expires
Deirdre Pickens, President	April 3, 2018	April 2023
Rosetta Falls	April 3, 2018	April 2021
Edna Reese	April 3, 2018	April 2019

Board of Directors, Former

Name	Dates of Service
Roy Oldham (1)	Multiple terms; see explanation at (1)
Walter Macon (2)	March 28, 2017 - April 2, 2018
Isaac Hamilton (3)	March 28, 2017 - May 5, 2017
Nicole Small (4)	April 6, 2016 - March 29, 2017
Jayna Small (5)	April 22, 2013 - March 20, 2017
DeAndre Montgomery (6)	April 6, 2016 - before March 28, 2017
Clara Jones (7)	April 22, 2013 - before January 1, 2016

- (1) Initially elected in April 2013, and resigned prior to January 2016. While his specific date of resignation is unknown, it appears he resigned prior to January 2016, as Nicole Small and DeAndre Montgomery both filed declarations for candidacy to fill 2 separate unexpired terms in January 2016 (with Jayna Small already serving as the third member at that time). It is not clear when Roy Oldham was subsequently reappointed to the Board, however, Roy Oldham co-signed district checks dated March 1, 2017, and presented himself as the Board Secretary at the March 28, 2017 Board meeting. On August 4, 2017, the St. Louis County Circuit Court appointed Roy Oldham to fill the unexpired term ending April 2019.
- (2) Appointed on March 28, 2017, by remaining Board members (Roy Oldham and Nicole Small) to fill Nicole Small's unexpired term. On August 4, 2017, the St. Louis County Circuit Court appointed Walter Macon to fill the unexpired term ending April 2023.
- (3) Appointed on March 28, 2017, by remaining Board members (Roy Oldham and Nicole Small) to fill Jayna Small's unexpired term. Isaac Hamilton voluntarily resigned on May 5, 2017, and this seat remained vacant until August 4, 2017, when the St. Louis County Circuit Court appointed Deirdre Pickens to fill the unexpired term ending April 2021.
- (4) On January 7, 2016, Nicole Small filed a Declaration for Candidacy to fill the unexpired term ending April 2019. Nicole Small was unopposed and assumed this seat on April 6, 2016. Nicole Small resigned from the Board effective March 29, 2017.
- (5) Resigned on March 20, 2017, following criminal charges filed on March 17, 2017.
- (6) On January 4, 2016, DeAndre Montgomery filed a Declaration for Candidacy to fill the unexpired term ending April 2021. DeAndre Montgomery was unopposed and assumed this seat on April 6, 2016. Following DeAndre Montgomery's appointment, he moved from the district and resigned his seat (date unknown).
- (7) Initially elected in April 2013, and resigned prior to January 2016. While her specific resignation date is unknown, it appears she resigned prior to January 2016, as Nicole Small and DeAndre Montgomery both filed declarations for candidacy to fill 2 separate unexpired terms in January 2016 (with Jayna Small already serving as the third member at that time).

Kinloch Fire Protection District
Organization and Statistical Information

Fire Chief

Name	Date of Appointment
Current:	
Willie Pryor	August 4, 2017
Name	Dates of Service
Former:	
Darren Small (1)	September 2014 - March 20, 2017
Christopher McAndrews	January 2014 - September 2014

(1) Resigned on March 20, 2017, following criminal charges filed on March 17, 2017.

The Fire Chief, Assistant Fire Chief, and all district firefighters serve the district on a volunteer basis. At March 20, 2017, the district had approximately 20 volunteer firefighters.

Financial Activity and
Supporting Documentation

Appendix A is a summary of the district's financial activity for the 3 years ended December 31, 2016, and the period of January 1, 2017, through March 31, 2017. This information was prepared using monthly bank statements. Appendixes B, C, and D provide a detailed listing of improper disbursements and cash withdrawals, a summary of improper disbursements by vendor, and a summary of cash withdrawals.

Appendix A

Kinloch Fire Protection District

Comparative Statement of Receipts, Disbursements and Changes in Cash Balances

	Quarter Ended March 31,	Year Ended December 31,		
	2017	2016	2015	2014
RECEIPTS (1)	\$ 58,384	81,369	157,973	31,405
DISBURSEMENTS	23,610	130,399	75,416	33,449
RECEIPTS OVER (UNDER) DISBURSEMENTS	34,774	(49,030)	82,557	(2,044)
CASH, BEGINNING	34,155	83,185	628	2,672
CASH, ENDING	\$ 68,929	34,155	83,185	628

- (1) In August 2015, the district began requiring a review of building plans and fire and life safety inspections for all commercial construction projects located within the fire protection district. The district collected fees totaling approximately \$134,100 in 2015, \$51,100 in 2016, and \$4,500 during the first quarter 2017 for these services.

Appendix B

Kinloch Fire Protection District

Improper Disbursements and Cash Withdrawals

For the Period of January 1, 2014, through March 20, 2017

Each row is a separate transaction and only includes the amount of the transaction classified as improper and/or a cash withdrawal.

- # Debit card transaction
- * Banking fees totaling \$970.19 were incurred in association with these cash withdrawals.
- ^ The actual purpose of this disbursement varied from the documented purpose. The check indicated the payment was for a utility vehicle, however, these funds were used to pay for a relative's funeral expenses.

Office of Missouri State Auditor
Nicole Galloway, CPA

Vernon County Ambulance District

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Vernon County Ambulance District

Background

The Director of Operations (Director) is the chief executive officer directly responsible for overseeing daily operations of the district, including supervision of personnel and management of financial activities. The Office Manager was responsible for all duties related to bookkeeping, payroll, billing, collecting and disbursing monies, making deposits, and providing financial reports to the Board. Former Director James D. McKenzie began employment with the district in 1987 and former Office Manager Tina L. Werner began employment with the district in 2000. The Board held a special meeting on October 23, 2015, and terminated both the former Director and Office Manager following discussions regarding the district's poor financial condition.

A federal grand jury in the United States District Court for the Western District of Missouri indicted the former Director and former Office Manager in May 2017 for embezzling more than \$260,000 from the district. The indictment alleges that from January 2013 to October 2015 the defendants participated in a conspiracy to financially enrich themselves by fraudulently obtaining and attempting to obtain money and property from district bank accounts and credit card accounts. The Board filed a civil lawsuit in Vernon County Circuit Court against the 2 former employees on May 20, 2016.

In June 2017, we began an audit of the district at the request of district residents through the petition process. The petition audit required 863 signatures from registered voters within the district and 874 signatures were certified as valid by the Vernon County Clerk. Audit procedures focused primarily on the year ended June 30, 2017.

The civil case is ongoing as of May 2018, and the federal case is scheduled to go to trial in September 2018.

Accounts Receivable Procedures

District personnel did not make sufficient efforts to restore lost billing and patient account data, and are not making proactive efforts to collect on old accounts receivable for trip charges incurred prior to October 2015. In addition, the billing agency contract does not specify billing and write-off procedures, and the district is not making efforts to collect on newer accounts once the billing agency deems them uncollectible and stops billing. Neither the Board nor district personnel adequately monitor accounts receivable write-offs, maintain sufficient documentation of collection efforts and decisions, and written policies lack sufficient details. The district's policy allowing for agency administrative discounts of ambulance billings for certain individuals may not be fully compliant with state laws. District personnel do not perform monthly reconciliations of amounts billed, payments received, amounts written off, and amounts unpaid for trip charges.

Accounting Controls and Procedures

Supervisory reviews over certain accounting functions and records need improvement. Office personnel do not issue receipt slips for all monies received or maintain a complete record of receipts. In addition, the composition of receipts is not compared to the composition of deposits by an independent person. District personnel do not perform reconciliations to ensure all monies received, whether by office personnel or the contracted

billing agency, are accounted for properly. The Office Administrator does not restrictively endorse checks and money orders immediately upon receipt.

Disbursements	The district does not always solicit bids or proposals for goods and services, document the selection process, and maintain current written contracts with some providers. In addition, the district did not have a written bid policy. The bid policy adopted after our inquiry is not sufficient. Improvement is needed in the district's disbursement review procedures to ensure all invoices are reviewed by district personnel, marked paid, and supported by documentation acknowledging receipt of goods or services. The Board approved and paid incentives to employees in December 2016, but these payments were not (1) part of formal pay plans, (2) subject to tax withholdings, and (3) reported on W-2 forms. In addition, the district does not have procedures to review and evaluate the reasonableness of vehicle usage and does not reconcile fuel usage to fuel purchases.
Financial Reports and Budgets	District personnel did not file annual financial reports for fiscal years 2007 through 2016 timely with the SAO as required by state law. District budgets do not include all statutorily required elements. The fiscal year 2017 budget did not include a budget summary, the actual beginning and estimated ending cash balances, actual receipts and disbursements for the 2 preceding years, or district indebtedness information.
Sunshine Law	The Board held 7 closed session meetings during the year ended June 30, 2017, but minutes were not prepared and subsequently approved by the Board. In addition, the Board has not adopted a written policy regarding public access to district records as required by state law and district personnel do not maintain a log of public record requests to ensure all requests are handled in compliance with state law.
Electronic Data Security	The district has not established adequate password controls to reduce the risk of unauthorized access to computer systems and electronic data.
Capital Assets	The district does not maintain records of its capital assets including buildings, land, vehicles, equipment, and other property. Additionally, district personnel do not tag assets for specific identification or perform annual physical inventories.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Board of Directors
Vernon County Ambulance District

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Vernon County Ambulance District. We have audited certain operations of the district in fulfillment of our duties. The district engaged DSWA, Certified Public Accountants, PC, to audit the district's financial statements for the fiscal year ended June 30, 2017. To minimize duplication of effort, we reviewed DSWA's audit report for the year ended June 30, 2016, since the year ended June 30, 2017, audit had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2017. The objectives of our audit were to:

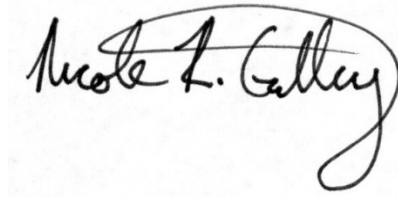

1. Evaluate the district's internal controls over significant management and financial functions.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; inspection of capital assets; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Vernon County Ambulance District.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written in a smaller, more compact script between the first and last names.

Nicole R. Galloway, CPA
State Auditor

Vernon County Ambulance District

Introduction

Background

The Director of Operations (Director) is the chief executive officer directly responsible for overseeing daily operations of the district, including supervision of personnel and management of financial activities. The Office Manager¹ was responsible for all duties related to bookkeeping, payroll, billing, collecting and disbursing monies, making deposits, and providing financial reports to the Board of Directors. Former Director James D. McKenzie began employment with the district in 1987 and former Office Manager Tina L. Werner began employment with the district in 2000.

On October 19, 2015, the Internal Revenue Service (IRS) filed a tax lien of \$213,158 against the district for unpaid payroll taxes for the quarterly periods ending December 31, 2013, through March 31, 2015. The Board held a special meeting on October 23, 2015, and terminated both the former Director and Office Manager following discussions regarding the district's poor financial condition.

After determining annual audits had not be done for the 2 fiscal years ended June 30, 2015 and 2014, the Board hired a CPA firm on October 27, 2015, to perform those audits, and discussed options to outsource key accounting functions. On November 3, 2015, the Board executed a contract with a medical billing service agency to handle all billings and collections for the district's ambulance services. The Board also outsourced accounting functions related to accounts payable, payroll, bank reconciliations, and financial statement preparation in April 2016.

The Board obtained a \$150,000 tax anticipation loan in November 2015 to maintain daily operations (salaries, utilities, fuel, and supplies) and entered into a \$450,000 secured loan agreement in February 2016 to pay outstanding debts related to federal and state payroll taxes, credit cards, and equipment. The tax anticipation loan was repaid in January 2016 and the secured loan agreement is being repaid in 60 monthly installments. The district resolved the IRS tax lien liability in February 2016.

In January 2016, the Missouri State Highway Patrol (MSHP) began an investigation after the CPA firm's auditors identified questionable transactions and concerns related to accounts receivable and unbilled trip charges. The Federal Bureau of Investigation (FBI) began an investigation of these transactions in early 2016.

A federal grand jury in the United States District Court for the Western District of Missouri indicted the former Director and former Office Manager

¹ The Office Manager position remains unfilled. Effective October 23, 2015, the Office Administrator assumed many of these duties except for certain billing and collection functions outsourced in November 2015 and accounting functions outsourced in April 2016.

Vernon County Ambulance District Introduction

in May 2017 for embezzling more than \$260,000 from the district. The indictment alleges that from January 2013 to October 2015 the defendants participated in a conspiracy to financially enrich themselves by fraudulently obtaining and attempting to obtain money and property from district bank accounts and credit card accounts.

The former Office Manager used her position to electronically transfer money from district bank accounts into personal bank accounts held by herself and the former Director, and initiate electronic bill payments from district bank accounts to pay personal credit cards held by herself and the former Director. In addition, the defendants issued payments from district credit card accounts for payment of personal utility bills of the former Director and those of his family member. The former Office Manager allegedly falsified electronic payroll records and recorded additional overtime hours resulting in electronic payments to herself and the former Director for hours not worked. The indictment indicates the former Office Manager attempted to conceal the embezzlement by entering a false deposit of \$130,000 in the accounting system, and by obtaining a \$20,000 line of credit without the Board's knowledge. In addition, the defendants allegedly destroyed district financial and business documents in an effort to conceal their embezzlement.

In addition to the conspiracy, the defendants are charged with 8 counts of wire fraud including, three counts related to thefts from the district's Christmas account for payment of the defendants' credit cards; two counts related to thefts from the district's toy drive account for transfer to the bank account of a business owned by the former Director; one count related to theft from a district credit card to pay the personal utility bills of the former Director and his family member; and, one count each related to the former Director and former Office Manager receiving compensation to which they were not entitled.

The Board filed a civil lawsuit in Vernon County Circuit Court against the 2 former employees on May 20, 2016, as an attempt to recoup some of district's funds.

In June 2017, the State Auditor's Office (SAO) began an audit of the district at the request of district residents through the petition process. The petition audit required 863 signatures from registered voters within the district and 874 signatures were certified as valid by the Vernon County Clerk. Audit procedures focused primarily on the year ended June 30, 2017. However, procedures were expanded as appropriate for certain specific issues or concerns.

The FBI and MSHP investigations and the civil case in Vernon County Circuit Court are ongoing as of May 2018. The federal case is scheduled to go to trial in September 2018.

Vernon County Ambulance District

Management Advisory Report

State Auditor's Findings

1. Accounts Receivable Procedures

Controls and procedures over accounts receivables need improvement. District records indicate billings totaled approximately \$5.4 million for ambulance services (trip charges) provided during the year ended June 30, 2017, and collections totaled approximately \$1.5 million.

The Board made the decision to outsource the billing and accounts receivable functions in late October 2015 after determining the former Office Manager had not processed insurance claims and billings for numerous trip charges. In November 2015, the district contracted with a medical billing service agency (billing agency) to provide patient billing and collection services for trip charges incurred beginning October 1, 2015.

1.1 Collection procedures

District personnel did not make sufficient efforts to restore lost billing and patient account data, and are not making proactive efforts to collect on old accounts receivable for trip charges incurred prior to October 2015. In addition, the billing agency contract does not specify billing and write-off procedures, and the district is not making efforts to collect on newer accounts once the billing agency considers them uncollectible and stops billing.

Old accounts receivable

The district is not pursuing collection of old accounts receivable. Outstanding balances for trips incurred prior to October 2015, cannot be readily determined because the district did not ensure patient account data was fully restored after the district's old billing system crashed on December 19, 2014. The district did not have proper backup procedures. At our request, the Secretary generated an accounts receivable report from the old billing system showing 876 patient accounts with amounts due totaling approximately \$1.2 million as of June 30, 2017. District personnel said these amounts are not accurate because the most recent backup available for data restoration was from October 2012, more than 2 years prior to the system crash. As a result, the district lost a significant amount of data that needed to be manually reentered into the old billing system using available records such as trip logs, insurance settlement records, and deposit records. However, in late October 2015, the Board determined very little of this data had been reentered into the system and numerous 2015 trips had not been billed. As a result, old billing system data is inaccurate and district personnel do not use it to monitor or bill unpaid balances or make write-off decisions. If a patient contacts the district to pay on an old account, the Office Administrator will accept the payment and update the patient's account in the old billing system at that time.

Newer accounts receivable

Collection procedures for newer accounts processed by the billing agency since November 2015 need improvement. The billing agency contract does not specify requirements for a minimum number of monthly patient billing attempts to collect outstanding balances or procedures for writing off uncollectible accounts. According to district personnel, the billing agency currently mails patients up to 6 monthly statements for outstanding balances after applicable insurance payments. In addition, if a patient does not remit payment or contact the billing agency for 6 consecutive months, the agency

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

considers the account uncollectible, writes off the balance due, and makes no further collection efforts. These accounts then show a zero balance due in the billing agency's system. District personnel make no further collection efforts unless a patient contacts the district about making a payment or setting up a payment plan. The billing agency contract also does not address discounts allowed for timely payment, as discussed further in section 1.2.

Good business practices require adequate collection procedures be established to ensure accounts are collected timely and bad debts are kept to a minimum.

1.2 Write-off procedures

Neither the Board nor district personnel adequately monitor accounts receivable write-offs or maintain sufficient documentation of collection efforts and decisions. Also, written policies lack sufficient details.

Monitoring

The Office Administrator does not provide complete listings of accounts receivable balances and amounts written off to the Board for review and approval. The billing agency maintains its own system to process district accounts receivable and records all accounts receivable write-offs in this system to clear the balance owed. These amounts are not reviewed or verified by district personnel independent of the receipting function. District personnel have access to the billing agency's system and can produce detailed reports of balances due and amounts written off; however, only summary reports of trip charges occurring for a 2 or 3 month period prior to Board meetings are generated and provided to the Board. At our request, the Office Administrator generated a report showing write-offs totaling almost \$4.5 million during the year ended June 30, 2017. Approximately \$2.1 million represents write-offs of contractual allowances (amount charged less amount agreed to accept for payment) for certain Medicare patients. The remaining \$2.4 million consists of unallowable charges for Medicare, Medicaid, and other insurance companies; and balances the billing agency deemed uncollectible and wrote off due to bad addresses, bad debts, bankruptcy, and deceased patients. There is no documentation to demonstrate if any of these accounts were reviewed by the Board for appropriateness and whether the district made any further collection efforts.

Documentation

The district is not maintaining sufficient documentation to demonstrate proper account handling or consideration of its collection efforts and other factors prior to approving write-offs. Patients with accounts handled by the billing agency will sometimes contact the Board and request a reduction of their bill, but it is unclear if there is any communication between the district and the billing agency of the account handling (i.e., full write-off, partial write-off, periodic payment arrangements) subsequently approved by the Board. Board minutes for the year ended June 30, 2017, show the Board reviewed letters from 5 patients requesting adjustments to amounts they owed the district. Correspondence indicates the Board approved write-offs for 2 of these accounts after considering the account activity and patients' financial

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

records. For one account the Board agreed to reduce the account balance equal to regular monthly payments made by the patient resulting in a 50 percent write-off (totaling \$1,545). However, for this account the billing agency had written off the entire balance owed as a bad debt on January 20, 2017, prior to Board approval on February 16, 2017. The Office Administrator is maintaining a separate spreadsheet to track monthly payments made to the district office on this account but did not know if the billing agency was tracking the activity. For the other account, the Board authorized the \$500 balance be written off in full. We were unable to determine how the billing agency and district handled and recorded this request and the other 3 request because the Office Administrator redacted all the patient account information on the letters to and from the patients, and did not retain any original unredacted copies of the correspondence.

Written policies

District policies for the write-off of accounts receivable and payment discounts need updating. The February 13, 2009, meeting minutes indicate the Board gave the Director authority to allow a 10 percent discount to a patient's bill upon request if the bill is paid in full within 10 days. This discount was not documented in a formal written policy. Our review of the minutes and discussions with district personnel indicates the billing agency is offering 10 and 20 percent discounts to patients if bills are paid in full within 10 days. Written policy enacted in 2013 allows discretionary write-offs for patients making payments on a significant portion of their accounts or when the debt is likely uncollectible, but does not state who is responsible for approving them.

After our inquiry, the Board adopted a written policy on August 17, 2017, allowing discretionary write-offs and authorizing the Office Manager or Director to allow a 10 percent discount to patient accounts paid prior to the statement due date. This new policy does not clarify who is responsible for approving discretionary write-offs. In addition, the Office Administrator indicated she assumed most duties of the Office Manager and the Board essentially granted her authority to approve applicable discounts to patient accounts. Because the Office Administrator is primarily responsible for receipting, recording, and depositing monies, she should not have the ability to approve these discounts

Conclusion

There are no statutes permitting the ambulance district to write-off debts as a matter of discretion. Article III, Section 39(5) of the Missouri Constitution prohibits statutes that authorize the releasing or extinguishing of debt, in whole or in part, without consideration. Write-offs of receivables should be verified and approved by a person independent of the postings of such transactions to ensure they are legitimate. Considering the risks associated with adjustments to accounts, the Board should improve its monitoring of write-offs of accounts receivable. In addition, the Board should update the district's written policies to clarify who is authorized to approve write-offs,

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

and ensure amounts written off are verified by an independent person, ensure reasons for writing off accounts are allowable per the policy, and maintain sufficient documentation of factors considered prior to approving write-offs.

1.3 Agency administrative write-offs

The district's written policy adopted in August 2017 may not be fully compliant with state laws. This policy allows for agency administrative discounts of ambulance billings in which the entire balance after insurance shall be written off for the following individuals:

- current full-time, part-time or retired employees and/or their dependents.
- active first responders of the district and/or their dependents, and past first responders who served at least 5 years and/or their dependents.
- active district Board members and/or their dependents, and past district Board members who served at least one full 3-year term.
- active and past medical directors and/or their dependents.
- firefighters, law enforcement, and first responders injured and transported in the line of duty, and dispatchers transported while on duty.

Providing write-offs to current employees could be considered part of their compensation or health insurance plan, but should be outlined in the employee benefit package. Writing off debt incurred by retired employees, past first responders, and contracted medical directors conflicts with Article III, Section 39(3) of the Missouri Constitution, which prohibits granting any extra compensation, fee, or allowance to employees or contractors for services already rendered. Writing off debt incurred by Board members could conflict with Section 190.055, RSMo, which provides the compensation for the Board, including a cap on the compensation. Additionally, Article VI, Sections 23 and 25, of the Missouri Constitution does not permit local governments to grant public money to benefit private individuals. The Board should review each of these policy provisions and consult with legal counsel as to whether forgiving these amounts is in compliance with Missouri Constitution and state law.

1.4 Accounts receivable reconciliations

District personnel do not perform monthly reconciliations of amounts billed, payments received, amounts written off, and amounts unpaid for trip charges.

Monthly reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are identified and corrected timely.

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Directors:

- 1.1 Establish sufficient procedures to collect accounts receivable. In addition, the Board should update the billing agency contract to clarify billing and collection efforts, timely payment discounts, and procedures for writing off bad debts. The Board should also ensure proper data recovery procedures are in place.
- 1.2 Update the district's policy to clarify who is authorized to approve write-offs and ensure all write-offs are verified by an independent person. The Board should periodically review detailed accounts receivable records and take action to collect on accounts the billing agency is no longer pursuing, and ensure reasons for write-offs are allowable according to the policy. In addition, the Board should ensure sufficient documentation of factors considered prior to approving write-offs is retained.
- 1.3 Reevaluate agency administrative write-offs outlined in district policy and consult with legal counsel to determine legality.
- 1.4 Ensure monthly reconciliations of amounts billed to amounts collected and delinquent accounts are performed.

Auditee's Response

- 1.1 *The district's account is reviewed by the billing service for likelihood of collection, including availability of insurance, credit rating and income, using proprietary software and information services. No account is ever charged off without Board approval. In addition to billing services, Specialized Billing and Collection Services of Texas provides the services of a traditional collection agency, including letters and phone calls to debtors and implementation of payment plans. Specialized Billing and Collection Services of Texas has given us a draft of written policies on write offs for the district and legal counsel to review for their approval. The district is researching data recovery procedures above our on-site backup, off-site backup and Cloud backup systems we currently have.*
- 1.2 *In the future, the district will generate a periodic report of accounts that Specialized Billing and Collections of Texas deems uncollectible and will review and authorize cessation of active collection efforts on accounts that the Board agrees are uncollectible. These will be decided according to factors that will be stated in the policies that are being discussed and developed by Specialized Billing and Collections of Texas, the district, and our legal counsel.*
- 1.3 *The district will consult with legal counsel and review this policy.*

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

1.4 The district will require Specialized Billing to provide the information necessary for periodic review and reconciliation.

2. Accounting Controls and Procedures

2.1 Oversight

Accounting controls and procedures need improvement. The district uses a computerized accounting system to record receipts and deposits. The district collected approximately \$2 million for trip charges, property taxes, instructional courses, equipment sales, and miscellaneous fees during the year ended June 30, 2017.

Supervisory reviews over certain accounting functions and records need improvement. The Board took actions to segregate some accounting duties and reduce the risk of employee collusion by outsourcing billing and accounts receivable functions for trip charges in November 2015 and certain bookkeeping functions related to bank reconciliations, accounts payable, payroll, and financial statement preparation in April 2016. The Board reviews detailed reports of the bookkeeping functions, but does not review detailed accounts receivable reports (see MAR finding number 1.2). The district also revised procedures as outlined in a document titled "Procedure changes after Oct. 23, 2015," requiring the Director to verify all money that comes in the mail and all deposits prepared by office personnel. The Office Administrator, and the Secretary in her absence, are primarily responsible for receipting, recording, and depositing monies. The Director's reviews are not documented and do not include a detailed review of receipt records and transactions recorded in the accounting and billing systems. Also, there is no evidence the Board formally approved these procedure changes or incorporated them into district policy.

To reduce the risk of loss, theft, or misuse of funds going undetected, the district should ensure documented independent or supervisory reviews of detailed accounts receivable reports and accounting records are performed. The Board's formal approval of procedural changes and incorporating them into district policy is necessary to help ensure employees are aware of the changes and potential impact on their duties.

2.2 Receipting, recording, and depositing procedures

Office personnel do not issue receipt slips for all monies received or maintain a complete record of receipts. In addition, the composition of receipts is not compared to the composition of deposits by an independent person.

Receipt slips are only issued upon request. No manual receipt slips were issued during an almost 9 month period from December 14, 2015, to September 7, 2016. From September 7, 2016, to June 30, 2017, only 9 manual receipt slips were issued and the method of payment was not indicated on 2 of them. The Office Administrator uses various methods to record receipts for trip charges.

- The billing agency collects the majority of payments on newer accounts (trips beginning October 1, 2015) and transmits a batch of receipts in the

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

mail to the district each week. The billing agency assigns a sequential batch number and dates each batch invoice accompanying the receipts, but the Office Administrator does not record the date she receives each batch. Instead, she makes copies of the checks and records the receipts in the accounting system when she prepares the deposit. As a result, there is no initial record of receipt. Our review of 9 batches deposited in June 2017 determined that batch number 2017-32 with a batch invoice date of June 19 was deposited on June 22, but batch number 2017-31 with a batch invoice date of June 14 was not deposited until June 26. The Office Administrator indicated she accounts for all batch numbers and attempts to deposit each batch the day received, but could not explain why batch number 2017-32 was deposited 4 days prior to batch number 2017-31.

- Customers with newer accounts sometimes remit the balance due to the district office rather than sending it directly to the billing agency. If billing statements are submitted with these payments, they are marked paid and a copy of the billing statement and a copy of the check is placed in a file folder with other collections. If a copy of the statement is not provided, a copy of the check is placed in the file folder. The Office Administrator then notifies the billing agency of payments received for recording into the billing agency's system.
- For the 6 customers making regular monthly payments to the district office on newer accounts, the Office Administrator maintains a spreadsheet for each person to track the payments and balance due. When a payment is made, the Office Administrator records the date, method of payment, check number, amount, and balance due; and provides a printout of this information to customers as their receipt. The Office Administrator then notifies the billing agency of the payment received for recording into the billing agency's system.
- For payments received on old accounts established prior to October 2015, the Office Administrator records the receipt in the district's old billing system and provides a statement showing the amounts paid and balance due to customers as their receipt. These receipts are not numbered in the district's billing system and the Office Administrator does not generate a report of receipts recorded. At our request, the Secretary generated a report showing collections totaling \$2,510 on 14 old patient accounts during the year ended June 30, 2017. We identified at least \$245 received and deposited but not recorded in the district's billing system (see section 2.3).

As a result of these multiple receipting methods, there is not a complete initial record of receipts to reconcile to postings in the accounting system, billing records, and deposits. In addition, the composition of receipts cannot be compared to the composition of deposits. The Office Administrator posts receipts to the accounting system when she prepares the deposit, but does not print a deposit summary listing the composition of receipts.

Vernon County Ambulance District Management Advisory Report - State Auditor's Findings

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of monies will occur and go undetected. To reduce this risk, procedures should be established to ensure all monies received are properly receipted, recorded, and deposited intact. In addition, internal controls could be improved by implementing documented independent comparisons of the composition of receipts to the composition of deposits.

2.3 Receipt reconciliations

District personnel do not perform reconciliations to ensure all monies received, whether by office personnel or the contracted billing agency, are accounted for properly. As a result, some transactions are not being properly or timely recorded in the billing systems, discrepancies exist between the billing and accounting systems, and errors are not detected and corrected timely.

For monies received from the billing agency, batch invoice totals and detailed receipt reports often include amounts electronically deposited into district bank accounts and transactions previously collected and deposited by district personnel. There is no review to ensure the billing agency's records agree to the district's accounting and deposit records. For example, our review of June 2017 receipts identified an electronic deposit of \$731.35 on June 29, 2017, to the district's bank account, but the district could not provide documentation the billing agency had recorded this item to the appropriate account. We also identified 2 transactions totaling \$422.96 (\$211.48 in check and \$211.48 in electronic deposit) on June 13, 2017, listed on batch number 2017-31 from the billing agency, but the electronic deposit has not posted to the bank account as of March 31, 2018.

The Office Administrator does not generate a detailed receipt report from the district's old billing system for comparison to amounts recorded in the accounting system and deposited. Our review of accounting records related to payments on 2 patient accounts established prior to October 2015 identified at least 10 receipts totaling \$245.20 recorded in the accounting system and deposited, but not recorded in the district's old billing system:

- Patient A: 3 receipts totaling \$65 dated December 16, 2016, February 13, 2017, and July 10, 2017, were not posted to the patient's account, resulting in the balance being overstated by \$65.
- Patient B: 7 receipts totaling \$180.20 dated between February 22, 2016, and September 7, 2016, were not posted to the patient's account. The memo on the patient's last check dated September 7, 2016, states "Balance \$0.00," but the patient's account shows a \$220.20 balance due as of March 1, 2018, indicating additional payments totaling \$40 may have been received prior to July 1, 2015, but not recorded in the old billing system.

Vernon County Ambulance District Management Advisory Report - State Auditor's Findings

Reconciliations of detailed receipt reports from both billing systems to accounting and deposit records are necessary to ensure all monies received are accounted for properly, accounting and billing records are in balance, and errors are identified timely. Batch invoices and receipt reports from the billing agency's system should be reviewed to ensure the billing agency's records agree to the district's accounting records and amounts deposited. In addition, detailed receipt reports should be generated from the district's old billing system and reconciled to accounting and deposit records. Prompt follow up on differences and correction of errors is necessary to ensure monies are properly handled.

2.4 Restrictive endorsement

The Office Administrator does not restrictively endorse checks and money orders immediately upon receipt. She restrictively endorses them when preparing the deposit.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, checks and money orders should be restrictively endorsed immediately upon receipt.

Recommendations

The Board of Directors:

- 2.1 Ensure documented independent or supervisory reviews of detailed accounts receivable reports and accounting records are performed. In addition, the Board should formally approve procedural changes and incorporate them into district policy.
- 2.2 Ensure official prenumbered receipt slips are issued for all monies received and all receipts are posted to the accounting system timely and deposited intact. Require batch receipts be date stamped and the numerical sequence accounted for properly. In addition, the Board should ensure documented independent reconciliations of the composition of receipts to the composition of deposits are performed.
- 2.3 Implement procedures to reconcile detailed receipt reports from both billing systems to accounting and deposit records. Any errors should be investigated and promptly resolved.
- 2.4 Restrictively endorse checks and money orders immediately upon receipt.

Auditee's Response

- 2.1 *A list of each day's deposits will be reviewed and approved and initialed by the Director daily. A daily report of "Transactions by Account" will be reviewed and initialed by the Director and retained in the district records. Accounts receivable reports will be printed as required, reviewed, and initialed by the Director. Procedural changes will be formally approved by the Board and incorporated into district policy.*

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

- 2.2 *The district will commence using a receipt book containing numbered receipts bearing the district's printed name. The Director will review the cash receipts daily to ensure that all cash and checks received are included in deposits. Batch receipts will be dated by date received. All receipts will be entered into the accounting system in a timely manner.*
- 2.3 *The district will implement a procedure to compare billing and collection reports with financial reports which are generated from the district's accounting system. Any errors will be investigated and corrected.*
- 2.4 *In the future, checks will be stamped "for deposit only" and endorsed upon receipt.*

3. Disbursements

Controls and procedures over district disbursements need improvement.

3.1 Bidding and contracts

The district does not always solicit bids or proposals for goods and services, document the selection process, and maintain current written contracts with some providers. In addition, the district did not have a written bid policy. After our inquiry, the Board adopted a written bid policy on August 17, 2017. However, the policy does not stipulate a dollar threshold at which bidding is required for most purchases of goods and services. It only provides minimum standards for bidding purchases when Board members have a financial interest, bidding various types of insurance, and obtaining architectural and engineering services. It also addresses dispositions of unwanted or surplus property. The policy omits many routine and recurring purchases for which a bid process is also beneficial.

Billing and collection services

District officials did not solicit proposals for billing and collection services when they contracted with a billing agency in November 2015, and have not updated this contract for subsequent changes. The district paid the billing agency approximately \$125,000 in fees during the year ended June 30, 2017.

The 3-year contract has automatic renewals for 2 additional years and requires the district to pay fees equal to 8 percent of all funds collected by the agency on a monthly basis. On April 21, 2016, the Board voted to upgrade the district's patient care report software to a newer version provided by the billing agency because the district's old software was not fully compatible with the billing agency's system. As compensation for use of this software, the Board agreed to increase the fees to 10 percent of collections, but did not update the contract for these new terms.

Information technology and legal services

Information technology services costing \$19,274 during the year ended June 30, 2017, were not bid and the district does not have a written contract with the provider. District personnel indicated they have used this vendor for

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

several years to perform system maintenance, upgrades, and virus protection services. In addition, the district has 2 different legal firms on retainer, but has not solicited proposals for legal services. The district paid \$3,750 for legal services during the year ended June 30, 2017.

Supporting documentation

The district does not sufficiently document sole source purchases or always retain bid documentation. The district entered into an agreement totaling \$59,361 for lease and maintenance costs for 3 chest compression machines for a 3-year period, and paid a local automotive shop \$12,603 during the year ended June 30, 2017, for multiple ambulance repairs. In both cases, district personnel indicated the purchases were sole source, but had no supporting documentation. In addition, district personnel indicated they obtained bids for medical supplies from multiple vendors, but did not retain documentation of those bids. The district paid the selected vendor \$25,310 for medical supplies during the year ended June 30, 2017.

Conclusion

This district should revise the August 2017 bid policy to address the threshold where purchases of goods and services must be bid or proposals solicited. Formal bidding procedures for major purchases or services provide a framework for economical management of district resources and help ensure the district receives a fair value by contracting with the lowest and best bidders. Competitive bidding helps ensure all parties are given an opportunity to participate in district business. Complete documentation should be maintained of all bids received and justification for awarding the bid.

Clear and detailed written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure district monies are used appropriately and effectively. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Formal written contract amendments are necessary when terms change substantially.

3.2 Review and approval
process

Improvement is needed in the district's disbursement review procedures to ensure all invoices are reviewed by district personnel, marked paid, and supported by documentation acknowledging receipt of goods or services. Our review noted various weaknesses.

- The Director does not document his review and approval of invoices. He indicated his approval for appropriateness of the expenditure and confirmation of receipt of good or services is implied when he records the invoice in the accounting system. The Office Administrator also has the ability to record transactions in the accounting system.
- We noted 5 of 25 invoices reviewed were not marked paid or otherwise canceled to prevent duplicate payments.

Vernon County Ambulance District Management Advisory Report - State Auditor's Findings

- The district does not always require documentation, such as fuel receipt slips and cash register receipt slips, to support credit card purchases. As a result, monthly statements cannot be reconciled to actual purchases and the appropriateness of purchases cannot be evaluated.

Director approval of invoices should be documented by signing or initialing invoices. Marking invoices and other supporting documentation as paid reduces the likelihood of duplicate payments, and requiring acknowledgement of the receipt of goods or services prior to payment helps ensure the district actually received all items. To ensure obligations were actually incurred and amounts paid are proper, all disbursements should be supported by paid receipts or other detailed documentation with payment information clearly indicated.

3.3 Longevity pay

The Board approved and paid incentives to employees, totaling \$2,760, on December 9, 2016. District personnel indicated longevity pay is typically paid in December each year, but was not paid in 2015 due to the district's poor financial condition. While these incentive payments were approved by the Board, they are not part of formal pay plans. In addition, these payments were not subject to tax withholdings and were not reported on employee W-2 forms. The monies are given as an incentive to employees as recognition and appreciation of their service. The amounts ranged from \$50 to \$640 based on years of service and employment status (full-time, part-time, or reserve staff).

To ensure the incentive plan is in compliance with state and federal laws and all employees are treated equitably, the provisions of the incentive plan should be clearly defined in a formal policy and reviewed by legal counsel. In addition, the district should ensure all employee compensation is subject to payroll tax withholdings and reported on employee W-2 forms.

3.4 Fuel

The district does not have procedures to review and evaluate the reasonableness of vehicle usage and does not reconcile fuel usage to fuel purchases. The district paid approximately \$31,000 for fuel during the year ended June 30, 2017.

The district utilizes fuel cards at gas stations to purchase fuel and record vehicle odometer readings. Employees do not always accurately enter odometer readings into the fuel pump at the time of fueling, making it difficult to evaluate the reasonableness of fuel costs. In addition, employees do not always submit fuel receipt slips to the district office for comparison to monthly billing statements (see section 3.2).

Adequate procedures for monitoring fuel purchases, including comparison of mileage to fuel usage, are necessary to ensure the reasonableness of vehicle use and to prevent and detect theft and misuse of fuel. In addition, accurate entry of odometer readings are necessary to document the appropriate use of vehicles and to support fuel purchases.

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Directors:

- 3.1 Update the district's bid policy and ensure all applicable purchases of goods or services are made in accordance with the policy, and retain sufficient documentation of the selection process and criteria to support purchasing decisions. In addition, the Board should obtain and/or update current contracts specifying the services to be rendered and the manner and amount of compensation to be paid.
- 3.2 Ensure the Director's approval of invoices and receipt of goods or services is documented, invoices are marked paid, and adequate supporting documentation is obtained prior to payment for goods and services.
- 3.3 Establish formal policies for incentive payments, and ensure taxes are properly withheld and payments are reported on W-2 forms. The district should also contact the IRS and the Missouri Department of Revenue to determine if amended information returns should be submitted for the unreported compensation.
- 3.4 Establish adequate records and procedures to effectively monitor fuel use for reasonableness.

Auditee's Response

- 3.1 *More detailed procedures and standards for solicitation of bids will be developed and reviewed by legal counsel to include retaining documentation and what is applicable for bid. In addition, the Board will ensure the selection processes are recorded and all contracts are up to date with terms of services and payments.*
- 3.2 *All invoices will be reviewed and approved by the Director before payment. All invoices will be marked paid when disbursement is made. The district's accounting firm reconciles checks written with invoices. All invoices and check stubs are marked paid after obtaining Board approval and signatures.*
- 3.3 *The district has implemented this recommendation.*
- 3.4 *The district will review fuel charges and vehicle mileage at least monthly and will spot check fuel charges and mileage using online access to the account as required.*

4. Financial Reports and Budgets

The district financial reports were not filed timely and budgets do not include all elements required by state law.

- 4.1 Filing of financial reports District personnel did not file annual financial reports for fiscal years 2007 through 2016 timely with the SAO as required by state law. The district

Vernon County Ambulance District Management Advisory Report - State Auditor's Findings

submitted an annual financial report for the year ended June 30, 2016, in March 2017, although it was due by December 31, 2016. Reports for fiscal years 2007 through 2015 were submitted in June 2017, with the exception of the 2010 report (not submitted as of May 2018). District personnel filed the fiscal year 2017 report timely.

Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the State Auditor's Office. Section 105.145(5), RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the State Auditor's Office. In addition, 15 CSR 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year. Effective August 28, 2017, under Section 105.145, RSMo, the State Auditor's Office must notify the Missouri Department of Revenue if a political subdivision fails to file a timely financial statement. Failure to timely file a financial statement may subject the political subdivision to a fine of \$500 per day.

4.2 Budgets

District budgets do not include all statutorily required elements. The fiscal year 2017 budget did not include a budget summary, actual beginning and estimated ending cash balances, actual receipts and disbursements for the 2 preceding years, or district indebtedness information.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the format. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of district operations. It also assists in setting tax levies and informing the public about district operations and current finances.

Recommendations

The Board of Directors:

- 4.1 Ensure annual financial reports are submitted in accordance with state law.
- 4.2 Ensure budgets contain all information required by state law.

Auditee's Response

- 4.1 *The district will file financial reports with State Auditor's Office as required by law.*
- 4.2 *The district will follow the recommendations of the Auditor beginning with the 2019 fiscal year budget.*

5. Sunshine Law

The Board's procedures for complying with the Sunshine Law need improvement.

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

5.1 Closed session minutes

The Board held 7 closed session meetings during the year ended June 30, 2017, but minutes were not prepared and subsequently approved by the Board. Without minutes of closed sessions, there is no record of the discussions held or support for the decisions made, and less assurance to the public that various statutory provisions are followed.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions. The minutes should provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions made.

5.2 Public access policy

The Board has not adopted a written policy regarding public access to district records as required by state law. A written policy regarding public access to district records would establish guidelines for the district to make records available to the public. This policy should identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the district to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law.

5.3 Record requests

District personnel do not maintain a log of public record requests to ensure all requests are handled in compliance with state law. While personnel indicated there were few requests for records, they did not document important information, such as the date a request was received, when records were provided, or important communications related to those requests.

Section 610.023, RSMo, provides each request for access to public records shall be acted upon as soon as possible, but in no event later than the end of the third business day following the date the request was received. To ensure compliance with state law, the district should document adequate information in a log to determine if requests are completed timely and all requests are adequately filled. Necessary information includes, but is not limited to, the date of request, a brief description of the request, the date the request is completed or reason why the request cannot be completed, and any associated costs of filling the request.

Recommendations

The Board of Directors:

- 5.1 Ensure meeting minutes are prepared, approved, and maintained for all closed session meetings.
- 5.2 Develop a written public access policy.

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

Auditee's Response	5.3	Ensure requests for information are responded to timely and maintain a public request log to help ensure compliance with state law.
	5.1	<i>The district agrees with the recommendations of the auditor and will comply.</i>
	5.2 & 5.3	<i>The district will direct legal counsel to develop appropriate policies and procedures.</i>

6. Electronic Data Security

The district has not established adequate password controls to reduce the risk of unauthorized access to computer systems and electronic data. Employees are not required to change passwords on a periodic basis to help ensure they remain known only to the assigned user and to reduce the risk of a compromised password.

Passwords are required to authenticate access to computers. Passwords should be changed periodically to reduce the risk of unauthorized access to and use of systems and data. Without effective security controls, there is an increased risk of unauthorized access to systems and the unauthorized use, modification, or destruction of data.

Recommendation

The Board of Directors require confidential passwords for each employee that are periodically changed to prevent unauthorized access to the district's computers and data.

Auditee's Response

The district agrees with the Auditor's recommendation and will implement a more robust electronic data security policy.

7. Capital Assets

The district does not maintain records of its capital assets including buildings, land, vehicles, equipment, and other property. Additionally, district personnel do not tag assets for specific identification or perform annual physical inventories. Insurance documents listed the value of land, buildings, vehicles, and other property at approximately \$2.7 million at December 1, 2017.

Adequate capital asset records and procedures are necessary to provide controls over district property; safeguard district assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendation

The Board of Directors ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board should also ensure district personnel properly tag, number, or otherwise identify all applicable district property and conduct and document an annual inventory.

Vernon County Ambulance District
Management Advisory Report - State Auditor's Findings

Auditee's Response

A list of all capital assets has been created and an annual inventory will be conducted.

Vernon County Ambulance District

Organization and Statistical Information

Vernon County Ambulance District was established in March 1978 pursuant to Chapter 190, RSMo. The district covers 826 square miles, has one building, and serves approximately 21,000 district residents. The district is comprised of six sub-districts of equal population with one taxpayer from each district comprising the Board of Directors of which a Chairman, Vice Chairman, and Treasurer are appointed from the group. Board members receive no compensation. As of June 30, 2017, the Board consisted of the following members:

Board of Directors

Name and Title	Term Expires
Michael Harris, Chairman	April 2018
Coeta Smith, Vice Chairwoman	April 2020
Chris Mason, Treasurer	April 2018
Jim Hibbs, Member	April 2019
April Hendren, Member	April 2019
Jeanne Baldwin, Member	April 2020

Director of Operations

The Director of Operations at June 30, 2017, was Leland Splitter and his annual compensation was \$75,389. The Director's compensation is established by the Board of Directors.

Financing Arrangements

The Board entered into a secured loan agreement totaling \$450,000 in February 2016 to obtain funds to pay outstanding debts related to federal and state payroll taxes, credit cards, and equipment. The agreement is scheduled to be paid off in 2021, but the district is making additional payments and will have the loan repaid sooner. The remaining principal outstanding as of June 30, 2017, was \$259,477.

The Board entered into a lease purchase agreement totaling \$155,800 in September 2016 to obtain funds to purchase 3 used ambulances. The lease agreement is scheduled to be paid off in 2020. The remaining principal outstanding as of June 30, 2017, was \$112,528.

Financial Activity

A summary of the District's financial activity for the year ended June 30, 2017, follows:

Vernon County Ambulance District
Schedule of Receipts, Disbursements, and Changes in Cash
Year Ended June 30, 2017

	General Fund
RECEIPTS	
Property taxes	\$ 354,545

ADMINISTRATION
Review of Article X,
Sections 16 Through 24,
Constitution of Missouri
Year Ended June 30, 2017

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Conclusions in the review of Article X, Sections 16 through 24

Background

The Constitution of Missouri was amended in 1980 to add Article X, Sections 16 through 24, commonly referred to as the Hancock Amendment. This tax limitation amendment places restrictions on the amount of personal income used to fund state government, and the amount by which fees and taxes can be increased. Mathematical formulas are used by the Office of Administration, Division of Budget and Planning (OA-BP) to determine the relevant threshold amounts each year.

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

Section 18(e) requires voter approval before taxes or fees can be increased by the General Assembly beyond a certain annual limit. Based upon the calculation provided by the OA-BP, the relevant annual revenue limit for fiscal year 2017 was \$101.5 million.

Fiscal Year 2017 Conclusions

For the fiscal year ended June 30, 2017, total state revenue was approximately \$4.2 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2017. This revenue limit has not been exceeded since the year ended June 30, 1999.

In addition, the OA-BP determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of \$2.3 million, which is under the revenue limit of \$101.5 million. The projected net increase does not include 4 bills for which the Section 18(e) fiscal impact could not be projected. Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Because of the nature of this review, no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

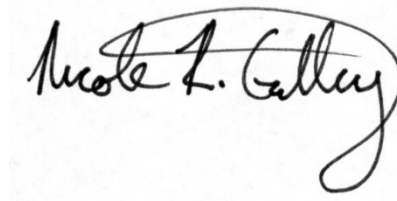

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2017, and the application to those revenues of Article X, Section 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We previously reported on revenues of the state for the years ended June 30, 1982 through 2016. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formulas to calculate the state's revenue limits.
2. Determine the specific items included in total state revenue.
3. Verify the accuracy of the revenue limit computations and compare the limits to total state revenue and projected tax and fee increases from legislative actions.
4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background, Methodology, and Conclusions present our comments and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Executive Summary

Executive Summary

The amendment, commonly referred to as the Hancock Amendment, limits annual state revenues, and tax and fee increases.

Total State Revenue (TSR) Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

For the year ended June 30, 2017, total state revenue (TSR) was approximately \$4.2 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2017. This revenue limit has not been exceeded since the year ended June 30, 1999. Over the last 5 years, the amount of TSR under the refund threshold has ranged from \$3.6 billion to \$4.2 billion.

Tax and fee increases Section 18(e)

Section 18(e) of the Hancock Amendment states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less.

For the year ended June 30, 2017, the Office of Administration, Division of Budget and Planning (OA-BP) determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of \$2.3 million, which is under the tax and fee increase revenue limit of \$101.5 million. The projected net increase does not include 4 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

A bar graph of TSR compared to the refund threshold follows:

REVIEW OF ARTICLE X, SECTIONS 16 THROUGH 24,
 CONSTITUTION OF MISSOURI
 CHART OF TOTAL STATE REVENUE VERSUS REFUND THRESHOLD

Review of Article X, Sections 16 Through 24, Constitution of Missouri Background, Methodology, and Conclusions

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

This review addresses the components of the amendment that relate to state revenues, primarily the requirements outlined in Section 18(a-d) which limit annual state revenues and Section 18(e) which limits tax and fee increases.

Total State Revenue Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

The Office of Administration, Division of Budget and Planning (OA-BP) calculates annual total state revenue (TSR), revenue limits, refund thresholds, and refund amounts.

Calculation

The table below summarizes the calculated TSR, revenue limits, refund thresholds, and refund calculations for the 5 years ended June 30, 2017.

	Year Ended June 30,				
	2013	2014	2015	2016	2017
	(in millions)				
TOTAL STATE REVENUE (TSR)

Refund	\$ 0.00	0.00	0.00	0.00	0.00

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

The calculation shows for the year ended June 30, 2017, TSR was approximately \$4.2 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2017. This revenue limit has not been exceeded since the year ended June 30, 1999.

Revenue limit formula

The OA-BP calculated the 1981 base year ratio of personal income to TSR as 5.6 percent, and uses this ratio to calculate annual revenue limit.

Section 18(a) establishes the revenue limit formula as follows:

$$\begin{array}{lcl} \text{Revenue limit} & \text{Total state revenue (TSR)} & \text{The greater of MPI in the} \\ \text{for fiscal year} & \text{in FY 1981} & \text{calendar year (CY) prior} \\ \text{(FY) 20XX} = & \frac{\text{CY 1979 Missouri}}{\text{personal income (MPI)}} \times & \text{to the CY in which} \\ & & \text{appropriations are made} \\ & & \text{for FY 20XX or Average} \\ & & \text{MPI for 3 CYs preceding} \\ & & \text{FY 20XX.} \end{array}$$

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) sets the revenue limit to ensure no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment.

The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC). The OA-BP uses the MPI first officially published by the DOC after the close of the calendar year to calculate the revenue limit for the applicable fiscal year. The OA-BP does not adjust the MPI used in the BYR or the second part of the formula for subsequent adjustments to the MPI by the DOC. Section 17(2) refers to ". . . total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests the revenue limit should be recalculated each time the MPI is adjusted by the DOC. For example, the BYR would be adjusted whenever the CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI provides at least two benefits. First, by having a consistent and unchanging BYR, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable if it is followed consistently.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$2,232.204096}{\$ 39,581.0} = .05639584891$$

In its calculations of the revenue limit, the OA-BP rounded the BYR to .056395. To determine the revenue limit for the fiscal year, this amount is multiplied by the MPI in the calendar year preceding the calendar year in which appropriations were made for the fiscal year or the average MPI for the 3 calendar years preceding the fiscal year. For the fiscal year 2017 revenue limit calculation, the OA-BP used the CY 2015 MPI which was greater than the average MPI for the preceding 3 calendar years.

Adjustments

Section 18(d) provides the revenue limit may be adjusted, ". . . if responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, effective on July 1, 1981. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that this adjustment to the revenue limit is appropriate.

Refund threshold

Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

TSR

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

included in TSR. These funds include university local funds; local sales and use tax fund collections made by the Department of Revenue; various funds held in trust for inmates, patients, etc.; and various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement systems. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and not appropriated. Thus, it is reasonable to conclude these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, 7 funds are entirely excluded and 25 types of revenues are excluded to arrive at TSR, as defined in Section 17(1). These excluded funds and revenue types, and other exclusions and limits considered to arrive at TSR are described at Appendix C. A detailed schedule of SAM II revenue, adjustments for excluded funds and revenue types and other exclusions and limits, and resulting TSR for the 5 years ended June 30, 2017, is shown at Appendix A.

Tax and Fee Increases Section 18(e)

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases.

Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. Sections 18(e) and 23 provide any taxpayer can bring suit in a court of law to enforce the provisions of the Hancock Amendment.

The OA-BP calculates the limits and monitors new legislation for tax and fee increases and decreases for each legislative session.

Calculation

The following table summarizes the OA-BP's annual projected net increases/decreases from legislative actions based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, calculated revenue limits, and projected amounts over/under revenue limits for the 5 years ended June 30, 2017.

* Legislative action amounts do not include bills for which Section 18(e) fiscal impact could not be projected.

N/A For fiscal years 2014 and 2015, the projections showed a net decrease in taxes and fees.

For the year ended June 30, 2017, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of \$2.3 million, which is under the tax and fee increase revenue limit of \$101.5 million. As noted in the Legislative actions section, the projected net increase does not include 4 bills for which the Section 18(e) fiscal impact could not be projected. As noted in the Compliance section, actual compliance can be determined after each bill is fully effective. The 2016 legislative session was the only year the limit has been projected to be exceeded.

Revenue limit formula

Section 18(e) establishes the revenue limit as the lesser of (1) \$50 million adjusted annually by the percentage change in MPI for the second previous year, or (2) 1 percent of TSR for the second fiscal year prior to the legislative session.

For fiscal year 2017, the OA-BP calculated the MPI growth limit at \$120.3 million by multiplying the fiscal year 2016 MPI growth limit (\$117.5 million) by the percentage change in the MPI for fiscal year 2015 (2.35%). The OA-BP calculated the TSR limit at \$101.5 million by multiplying the fiscal year 2015 TSR (\$10.15 billion) by 1 percent. The revenue limit was established at the lesser of these amounts, or the TSR limit of \$101.5 million.

Legislative actions

After each legislative session, OA-BP personnel prepare a spreadsheet to quantify the potential fiscal impact of tax and fee increases and decreases from legislation enacted during the session. In accordance with Section 18(e), the OA-BP includes each House Bill and Senate Bill truly agreed and finally passed during the session, except bills vetoed by the governor and not overridden by the general assembly, and the estimated fiscal impact amount.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

The OA-BP determines estimated Section 18(e) fiscal impact amounts by compiling information and amounts in fiscal notes for each bill. The fiscal notes are prepared by the Oversight Division with input from state agencies and local political subdivisions. In accordance with Section 18(e), the OA-BP compiles an amount for the first fiscal year the bill is fully effective. For most bills with Section 18(e) fiscal impact, the OA-BP determines an increase or decrease amount based on information in the fiscal note. For some bills, the fiscal note indicates the fiscal impact is "unknown." Accordingly, the OA-BP lists "unknown," rather than a dollar amount, in the legislative actions spreadsheet for these bills. OA-BP personnel indicated they did not attempt to develop a more precise estimate for this calculation because in some cases, it is not possible to quantify the potential impact of the legislation. The legislative actions spreadsheet contains a net total tax and fee increase/decrease for all bills combined. That information is compared to the calculated revenue limit to determine potential Section 18(e) compliance. The netting of the tax and fee increases and decreases is reasonable and in compliance with the amendment language.

The OA-BP legislative actions spreadsheet for the fiscal year 2017 legislative session included 54 bills, 13 of which the OA-BP determined had potential Section 18(e) fiscal impact.

Compliance

Section 18(e)(4) provides compliance with Section 18(e) shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year each individual tax or fee change is fully effective. For the fiscal year 2017 legislative session, actual compliance can be measured after each 2017 legislative session bill is fully effective.

Section 18(e)(5) provides any taxpayer or statewide elected official may bring action under Section 23 of the Hancock Amendment to enforce compliance with the provisions of Section 18(e). For actions brought by any statewide elected official, the Missouri Supreme Court shall have original jurisdiction. In such enforcement actions, the court shall invalidate the taxes and fees that should have received a public vote. The court shall order remedies in the amount of excess revenues collected, such as refunds or reductions in future taxes and/or fees.

Conclusions

TSR

For the year ended June 30, 2017, TSR was approximately \$4.2 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2017. This revenue limit has not been exceeded since the year ended June 30, 1999.

Tax and Fee Increases

For the year ended June 30, 2017, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background, Methodology, and Conclusions

\$2.3 million, which is under the revenue limit of \$101.5 million. The projected net increase does not include 4 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Appendix C

TSR Exclusions

Various revenue amounts are excluded from Statewide Accounting System for Missouri (SAM II) revenue amounts to arrive at Total State Revenue (TSR), as shown on Appendix A. These exclusions, which include certain funds, certain revenue types, and other exclusions and limits, are discussed below.

Excluded Funds

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

(A) Lottery Funds

In November 1984, the voters approved Article III, Section 39(b), Missouri Constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded. Beginning in fiscal year 2017, lottery proceeds are deposited in the State Lottery Fund. In prior fiscal years, lottery proceeds were deposited in the Lottery Enterprise Fund.

(B) Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo. The Department of Social Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Missouri Veterans Commission hold funds in trust for inmates and patients. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

(C) Student Loan Funds

Federal legislation passed in 1997 made changes in the accounting required for federal education loans. Starting in federal fiscal year 1998, the federal government considers all monies in these funds as property of the federal government or guaranty agency. As a result, the state excludes the two student loan funds held in trust.

(D) Pansy Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

(E) Division of Youth Services Child Benefits Fund

The Division of Youth Services (DYS) Child Benefits Fund was administratively created to account for payments from the Social Security Administration held in trust for the benefit of youth in the DYS custody. Funds held in trust are not deemed to be state funds, and are therefore excluded. This fund was added as an excluded fund in fiscal year 2016. In prior years, most of the fund revenues were excluded as federal funds.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

Excluded Revenues

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

- | | |
|--|---|
| (1) Federal Funds | Article X, Section 17, Missouri Constitution, specifically excludes federal funds. |
| (2) Proposition C Sales and Use Tax/Interest | In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, Missouri Constitution, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded. |
| (3) Proposition A Gas Tax and License Fee Increases | In April 1987, the voters approved Proposition A, which increased the motor fuel tax by 4 cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded. Also, see item (24). |
| (4) Bond Sales | Attorney General Opinion 22-1982 concluded that proceeds of the state's general obligation bonds were not to be included in TSR. |
| (5) Refunds | Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded. Refunds also include cost recoveries and prescription drug rebates received through the Medicaid and Children's Health Insurance programs. |
| (6) Interagency Sales and Receipts | Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded. |
| (7) Soil and Water Sales and Use Tax/Interest
and | In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c), Missouri Constitution, states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded. |
| (8) Parks Sales and Use Tax/Interest | |
| (9) Redeposit of Investment Principal | The redeposit of investment principal is excluded. |
| (10) Outlawed Checks | Outlawed checks (issued checks not cashed by the payee within the time allowed) are redeposited in the state treasury and are excluded. |
| (11) Redeposit of Loan Principal | Redeposits of loan principal are excluded. |

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

(12) Bingo Tax

The August 1992 amendment to Article III, Section 39(d), Missouri Constitution, related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo, requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.

(13) Riverboat Gambling and
Other Gaming Proceeds

In August 1992, voters approved an amendment to Article III, Section 39(d), Missouri Constitution that requires all state gaming revenues be appropriated for public education and excludes these revenues from TSR.

In 1993, the Missouri General Assembly enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. This law repealed House Bill 149 related to riverboat gaming, which had been enacted by voters as Proposition A in November 1992.

Under Senate Bills 10 and 11, the legislature imposed a 20 percent tax on adjusted gross receipts from gambling games. In November 2008, the voters approved increasing the tax to 21 percent. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d), Missouri Constitution, and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d), Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes.

On November 24, 1998, the Missouri Court of Appeals, Western District, entered its final decision in *Kelly v. Hanson*, 984 S.W. 2d 540 (Mo. App. W.D. 1998). The Missouri Court of Appeals, Western District, held that revenue from the \$1 portion of the state-imposed \$2 admission fee payable to the state is excluded from TSR, while the revenue from the payments to the state to recoup public safety and regulatory enforcement costs is included in TSR. The remaining \$1 portion of the \$2 admission fee is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

In 2016, the general assembly passed HB 1941 that requires licensed fantasy sports contest operators to pay an annual operation fee equal to 11.5 percent of the operator's net revenue from the previous calendar year. These revenues are deposited in the Gaming Proceeds for Education Fund. Section 313.822, RSMo, provides all monies deposited in the Gaming Proceeds for Education Fund are to be treated as proceeds of river boat gambling. Under Article III, Section 39(d), Missouri Constitution, these annual operation fees are excluded from TSR.

(14) Redeposit of State Funds

The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.

(15) Loan Proceeds

The state receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.

(16) Conservation Sales and Use
Tax/Interest

In *Conservation Federation of Missouri v. Richard Hanson*, 994 S.W. 2d 27 (Mo. Banc. 1999), the Supreme Court held that the revenue derived from the one-eighth of 1 percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.

(17) State Employee Expense
Reimbursement

The state receives reimbursement from private individuals, firms, partnerships, corporations, etc., for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.

(18) Recovery Costs

Monies received from others for costs incurred by the state or to be incurred by the state are excluded. Monies received from tobacco companies under the Tobacco Master Settlement Agreement are included in the recovery costs exclusion. See Tobacco Master Settlement Agreement Proceeds section. Also, see item (19).

(19) Cost Reimbursements

Monies received from other governments for reimbursements of costs incurred by the state are excluded.

Regarding items (18) and (19), the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(20) Canceled Checks

Receipts derived from the redeposit of state checks that have been canceled are excluded.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

- | | |
|---|---|
| (21) Local Match | Local governments provide funds to the state to use as a local match to qualify for federal or state funding. Since these funds are not state funds, they are excluded. |
| (22) Proceeds of Surplus Property Sales | The proceeds from some sales of surplus property are excluded. Although the constitution does not specifically mention proceeds of surplus property sales and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue. |
| (23) DHSS Program Rebates | The Department of Health and Senior Services (DHSS) receives rebates through various federal programs, including the Special Supplemental Nutrition Program for Women, Infants, and Children and the HIV Care Formula Grants. These rebates are related to purchases made with federal funds and are therefore excluded. |
| (24) Amendment 3 Revenue Derived From Highway Users | <p>In November 2004, the voters approved an amendment to Article IV, Sections 29 and 30(a) through 30(c) and added Section 30(d), Missouri Constitution, effective July 1, 2005.</p> <p>Section 30(a)(4) provides for the apportionment and distribution of net proceeds of motor fuel tax. This section further provides that, "The net proceeds of fuel taxes apportioned, distributed and deposited under this section to the state road fund, counties, cities, towns and villages shall not be included within the definition of 'total state revenues'. . . ."</p> <p>Section 30(b) provides for the use and distribution of revenue derived from highway users as an incident to their use or right to use the highways of the state (including all state license fees and taxes on motor vehicles, trailers and motor vehicle fuels and excepting sales tax on motor vehicles and trailers which are not distributed to the state road fund). This section further provides that, "The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of 'total state revenues'. . . ."</p> <p>As a result, motor vehicle sales tax and special fuel non-gas tax, and fees from motor vehicle licenses or permits, interstate transportation licenses or permits, driver's licenses or permits, overdimension/overweight permits, other licenses and permits, and non-motor fuel decals credited to the State Road Fund, State Road Bond Fund, and/or State Transportation Fund are excluded from TSR.</p> <p>The increase in interstate transportation license or permits for certain motor vehicles excluded under this section were previously excluded and, as a result, have no impact on TSR. (See item (3))</p> |

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

Sections 29, 30(c), and 30(d) have no Hancock implications.

(25) Interest - Federal

Interest assessed and received on advances made to the state by the federal government. Since the interest is due to the federal government, it is excluded from TSR.

Other Exclusions and
Limits

Other exclusions and limits have been considered to arrive at TSR, as follows:

Cash Management Improvement
Act (CMIA)

The state has to enter into an agreement with the federal government that governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.

Agency Remitted Sales Tax

Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.

Abandoned Funds Claim
Payments

Under Section 447.543, RSMo, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.

Expenditure Refunds

Under Article X, Section 17(1), Missouri Constitution, TSR shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. A schedule of expenditure refunds is included at Appendix B.

Tobacco Master Settlement
Agreement Proceeds

The OA-BP excluded \$191,261,135 received from tobacco companies during fiscal year 2017. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and state Attorney Generals. Missouri received its first payments under the settlement agreement during fiscal year 2001 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

The settlement agreement did not require a payment for 1999. Payments for fiscal years 2001 through 2017 were as follows:

Fiscal Year	Amount
2001	\$ 338,230,653
2002	172,679,543
2003	166,895,179
2004	142,829,966
2005	144,964,644
2006	133,078,222
2007	139,292,616
2008	153,277,453
2009	168,066,958
2010	140,318,927
2011	132,631,552
2012	135,246,224
2013	135,166,246
2014	66,085,418
2015	132,261,643
2016	123,645,603
2017	191,261,135

The amounts received were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "*all money recovered from others for costs incurred by the state or to be incurred by the state.*" The OA-BP believes these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. For our fiscal year 2001 report, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs prior to fiscal year 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These projects showed that Medicaid costs attributable to smoking were higher than the amount the state received from the tobacco companies under the settlement agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix C

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970 through 2007 and an estimate of state employee health care costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received. OA officials could not locate any current studies, but they believe continued exclusion is reasonable.

Federal Reimbursement
Allowance and Nursing Facility
Reimbursement Allowance

The Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program when collected by an offset against Medicaid claims, is not directly deposited in the state treasury. As a result, this revenue is not included in TSR.

Review of Article X, Sections 16 Through 24, Constitution of Missouri Appendix E

Article X, Sections 16 through 24, Constitution of Missouri (Adopted November 4, 1980, Amended April 2, 1996*)

TAXATION

Section 16. Taxes and state spending to be limited--state to support certain local activities--emergency spending and bond payments to be authorized. Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

Section 17. Definitions. As used in sections 16 through 24 of Article X:

- (1) **"Total state revenues"** includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.
- (2) **"Personal income of Missouri"** is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.
- (3) **"General price level"** means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

Section 18. Limitation on taxes which may be imposed by general assembly--exclusions--refund of excess revenue--adjustments authorized.

- (a). There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in calendar year 1979 multiplied by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the fiscal year for which the calculation is being made, or

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

the average of personal income of Missouri in the previous three calendar years, whichever is greater.

(b). For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

(c). The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.

(d). If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.

(e). Voter approval required for taxes or fees, when, exceptions--definitions--compliance procedure, remedies.

1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.

2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly" shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase shall be measured by

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after May 2, 1996, that increase the rate of an existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.

3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.

4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.

5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

Section 19. Limits may be exceeded, when, how. The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

Section 20. Limitation on state expenses. No expenses of state government shall be incurred in any fiscal year which exceed the sum of the revenue limit established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding. The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

Section 22. Political subdivisions to receive voter approval for increases in taxes and fees--rollbacks may be required--limitation not applicable to taxes for bonds.

(a). Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter or self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b). The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

Section 23. Taxpayers may bring actions for interpretations of limitations. Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained, shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix E

Section 24. Voter approval requirements not exclusive--self-enforceability.

(a). The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.

(b). The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.

* The 1996 amendment added Section 18(e).

2017 Annual Report
Missouri State Auditor

Nicole Galloway, CPA

Transparency

Accountability

Results

2018-035

Letter from Auditor Galloway

For the past three years, I have proudly served as the taxpayers' watchdog. The role of Auditor is unique in our government as the only independent position to hold government accountable. As someone who is passionate about fiscal efficiency and minimizing waste, I embrace the opportunity to protect taxpayers and ensure they get the most of their government.

In 2017, we released 155 reports that hold government agencies at all levels accountable to you — the citizens they serve. These reports revealed evidence of public corruption, highlighted inefficiencies and shined a light on waste and mismanagement. Audits get results, and these efforts have resulted in changes to operations, more effective processes, and, at times, criminal charges brought alleging corruption by public officials.

Our successes this year were thanks to the dedicated staff and the high standards set by our office. With this in mind, it was no surprise when we received the highest rating possible from a peer review by the National State Auditors Association. This recognition by our peers from across the country acknowledges our efforts to efficiently and effectively serve Missourians.

Another important factor in our accomplishments is the feedback and information we receive from Missourians who report potential wrongdoing in government. As State Auditor, I operate the state's Whistleblower Hotline. We routinely receive tips about improper government activities from those in a position to observe it. These reports are an important part of the audit process. If you see waste, fraud or mismanagement in government, report it. You can reach my Whistleblower Hotline by calling 800-347-8597, by emailing moaudit@auditor.mo.gov, or by using the online submission form at auditor.mo.gov/hotline. Callers may choose to remain anonymous.

It is my honor to serve as your advocate, ensuring government at all levels is efficient, effective and transparent.

A handwritten signature in black ink that reads 'Nicole L. Galloway'.

Nicole Galloway, CPA

Leaders & representatives from counties across the state attended State Auditor Nicole Galloway's County Government Day.

Duties of the State Auditor

The State Auditor's Office is Missouri's independent watchdog agency. The Missouri Constitution and state law give the Missouri State Auditor authority to audit:

- All state agencies, boards and commissions
- Public employee retirement systems
- Public employee healthcare systems
- State court system
- School districts
- Counties that do not have a county auditor
- Other political subdivisions upon petition by the voters of those subdivisions

The State Auditor's Office works to ensure the proper use of public funds and to improve the efficiency and effectiveness of Missouri government. Audits examine financial accountability, look for waste and opportunities for fraud, and evaluate whether government organizations and programs are achieving their purposes and operating economically and efficiently. All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

HOLDING PUBLIC OFFICIALS ACCOUNTABLE

Since being sworn into office, Auditor Galloway has:

Identified more than

\$300 million

in government waste, fraud and mismanagement

Released audits resulting in more than

30 criminal counts

alleging corruption against public officials

Former leaders of southwest Missouri road district face felony charges

Auditor Galloway issued a progress report of the embattled Buck Prairie Special Road District in Lawrence County. A 2016 audit found \$65,000 in inappropriate spending and payments. The follow-up review found improvements and new safeguards in place. After the 2016 report, the prosecuting attorney filed Class C felony charges against six individuals.

Cooper County Clerk pleads guilty to stealing from taxpayers

An audit of the Cooper County Clerk details actions taken by a now former clerk to misappropriate county funds to purchase a leased vehicle. The issues were brought to the attention of auditors during a routine audit of the county. The county clerk pled guilty to stealing, and as a condition of probation, was required to pay restitution and resign.

Evidence of theft in Chariton County Sheriff's Office

Auditor Galloway released a report detailing at least \$26,000 in funds stolen over an almost two-year period. The audit was initiated by the Sheriff after the discovery of questionable activity and confirmed \$26,277 went missing that should have been deposited in the Sheriff's fee account or inmate account. The report has been provided to law enforcement.

Audit uncovers \$100K+ missing, unaccounted for in city of Viburnum

An audit of the city of Viburnum detailed more than \$100,000 in potentially fraudulent activities by a former city clerk who served the city for 14 years. The prosecuting attorney charged the clerk with receiving stolen property, a Class B felony.

FIGHTING PUBLIC CORRUPTION

“When intentional misconduct happens, it's a matter of ethics and integrity. When public officials breach the public trust, prosecutors, law enforcement and the Auditor need to be able to effectively work together to protect citizens and remove bad actors from office.”

-Amy Fite

President of the Missouri Association of Prosecuting Attorneys and Christian County Prosecuting Attorney

As the state agency charged with investigating the misuse of public resources, the Missouri State Auditor's Office is uniquely positioned to be a vital part of anti-corruption efforts. However, there is too much red tape that prevents law enforcement and the State Auditor from easily working together to expose fraud and abuse.

In 2017, Auditor Galloway worked with legislators and law enforcement officials on bipartisan legislation to provide additional tools to fight public corruption.

The legislation was vetoed by the Governor, but has been proposed again in 2018. The measure includes greater penalties in public corruption cases and allows increased partnerships between the State Auditor and prosecutors and law enforcement in such cases.

The legislation again has the support of the Missouri Association of Prosecuting Attorneys.

Fighting

WASTE, FRAUD AND MISUSE OF FUNDS

University of Missouri System brings end to hidden “bonus” pay uncovered in audit

In March, an audit of the University of Missouri System described inappropriate bonus payments to top administrators, including incentive payments, luxury vehicle allowances and other compensation not included in published salaries. Four days after Auditor Galloway released the audit, the University of Missouri System President announced an end to bonus payments.

Evidence of \$90 million billing scheme at Putnam County Memorial Hospital

An audit of Putnam County Memorial Hospital uncovered \$90 million in inappropriate lab billings by hospital leadership and associates. The report detailed a billing scheme in which the lab services company and its affiliates conducted lab work across the country, but Putnam County Memorial Hospital billed the insurance companies using the hospital account. In exchange, the hospital received a cut of the insurance payouts.

Records and information uncovered through the course of the audit have been provided to state and federal law enforcement authorities.

Review of federal dollars finds \$1 million in questionable spending

The Statewide Single Audit annually reviews the state’s management and spending of federal dollars. The 2017 audit raised concerns with a number of oversight areas and identified \$1 million in questionable costs in social safety net programs. The review identified a lack of accountability in two agencies that administer federal funds, the Department of Mental Health and the Department of Social Services.

Protecting Whistleblowers

In June, the Governor signed Senate Bill 43, which compromises long-standing whistleblower protections, increases the threat of retaliation and fosters an environment of intimidation for those who report wrongdoing.

“The Whistleblower and Taxpayer Protection Act would reverse state government’s trend toward secrecy and fight against a chilling effect that could undermine the state’s ability to uncover wasteful, improper or illegal uses of taxpayer dollars.”

Even though state law no longer protects public employees from being fired for identifying wrongdoing in the workplace, reports to the Auditor's Whistleblower Hotline are anonymous and protected by law.

Auditor Galloway is working with lawmakers to pass legislation restoring protections and adding safeguards for public employees who report inappropriate activity in the workplace. In December, she announced that bills have been pre-filed in the House and Senate for consideration during the 2018 legislative session.

The Whistleblower and Taxpayer Protection Act positions Missouri as a leader for those who would speak out against fraud, public corruption, and government wrongdoing.

Contact the State Auditor’s Whistleblower Hotline To Report Wrongdoing

The State Auditor’s Whistleblower Hotline is a confidential resource for public employees to report waste, fraud or misuse of taxpayer dollars.

If you see waste or fraud in government, report it.

Answers

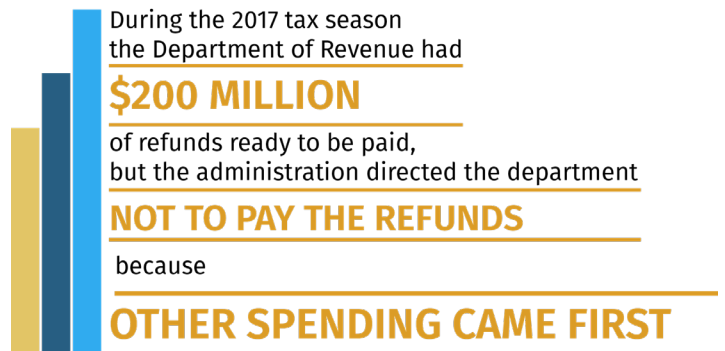

for Missourians on late tax refunds

“ My office received thousands of calls and e-mails from taxpayers who were rightfully frustrated because they were not receiving the money they were owed. This is real money to Missourians trying to pay bills and support their families. ”

In 2017, Auditor Galloway launched a review of the processes used to ensure tax refunds are paid timely and with all appropriate interest. The audit reviewed compliance and timeliness over a two-year period.

During the course of the audit, thousands of taxpayers reached out to the State Auditor's Office to report late refunds, missing interest or difficulties getting answers from the Department of Revenue. Auditor Galloway also had to take the unusual step of issuing a subpoena to obtain information on the state's management of income tax refunds.

Despite unprecedented attempts by the current Governor's administration to obstruct audit work, the audit was released and found refunds to taxpayers have been increasingly delayed at the direction of the Department of Revenue and the Office of Administration.

What taxpayers said:

Taxpayers throughout Missouri reached out to the State Auditor's Office because of delays in receiving their tax refunds. In June, Auditor Galloway called on the director of the Department of Revenue to take quick action and address taxpayers' complaints.

“

I could use the money for gas to get back and forth to work, and provide the state with more tax money that would be spent here.

If it was known that refunds were going to be late, **the taxpayer has the right to know.**

I am extremely frustrated at the Department of Revenue and the fact that **there is no penalty in place for their actions.**

It's disappointing that the state cannot process a simple tax return in less than 45 days.

”

Budget Integrity Series

provides examination into the state budget crisis

In 2017, Auditor Galloway announced her Budget Integrity Series, which examined the contributing factors to Missouri's current budget crisis. These reports highlighted years of broken promises and policy decisions based on unrealistic expectations that have left the state unprepared for an economic downturn.

Legislative giveaways undermine state's fiscal health

Auditor Galloway released an audit of the state's tax incentives and exemptions. The review found:

- The legislature lacks an accurate way to account for or track the fiscal impact of hundreds of tax breaks. Of the 209 sales and use tax exemptions on the books, only three are tracked.
- The legislature's process for estimating the impact of proposed legislation is sometimes formulated with out-of-date information and requires much greater economic analysis.
- Missouri offers the second highest discount in the nation to retailers in exchange for paying sales taxes on time. A similar discount is offered to businesses that remit their employee withholding taxes on time, which is a discount only offered in Missouri.

The audit also found payments out of the Legal Expense Fund were consistently higher than budgeted amounts. In fiscal year 2017, for example, the actual amount spent was more than \$17 million higher than what was budgeted.

Budget Impact of Tax Credits

An examination of the state's tax credit programs shows a \$3 billion tax credit liability that extends at least into the next 15 years due to credits that have been issued or authorized, but not yet redeemed. In addition, tax credit programs have cost the state \$5.4 billion over the past decade.

Legal settlements and judgments cost taxpayers more than \$115 million

A report highlighted how millions in taxpayer dollars are being spent on legal expenses with no system in place to track the amount and nature of payments.

The state's Legal Expense Fund is the pool of money used to make payments stemming from lawsuits against the state. The Office of Administration relies on an outdated system that lacks the ability to produce basic electronic reports.

The examination noted the current process makes it difficult for policymakers to get access to information about the cost of the tax credits because of incomplete or inaccurate information provided by the Department of Economic Development and other state agencies.

HOLDING SPECIAL TAXING DISTRICTS *Accountable*

Auditor Galloway is committed to shining a light on how special taxing districts, specifically Transportation Development Districts (TDDs) and Community Improvement Districts (CIDs), collect and spend taxpayer dollars.

Legislation passed during the 2017 legislative session increases government accountability by ensuring penalty provisions exist for local governments and political subdivisions that fail to submit required annual financial reports. Auditor Galloway worked with legislators to pass a bill in 2016 adding penalties for Transportation Development Districts that failed to report this information. This 2017 legislation broadens the penalties to include other local government bodies.

A series of audits have worked to bring transparency to special taxing districts.

TDD collected thousands, made no improvements

Auditor Galloway's report on the Hospital Interchange TDD in Cass County brought to light a failed project that resulted in thousands in taxes collected, but no benefits for taxpayers.

Unaccountable tax districts rack up \$1 billion in taxpayer debt

Auditor Galloway released a report on TDDs that found districts across the state engaging in questionable practices with little oversight or transparency because of the weakness of existing laws. The audit also found taxpayers on the hook for nearly \$1 billion in outstanding project costs to be repaid with sales taxes they did not vote on or approve.

“ **TAXING DISTRICTS MUST BE ACCOUNTABLE**
for every tax dollar they collect.
Laws governing special
taxing districts must be fixed. ”

Reviews of Community Improvement Districts identify pattern of problems

In 2016, a new law authorized the State Auditor's Office to audit CIDs without requiring citizens to initiate the audit through the petition process. In 2017, Auditor Galloway completed audits of four CIDs: North Oaks Plaza CID in Northwoods, BaratHaven CID in Dardenne Prairie, Independence Events Center CID in Independence and Ward Parkway Center CID in Kansas City. The audits found that projects are often plagued with problems or are not living up to their promises and led Auditor Galloway to initiate a review of CIDs throughout the state.

EMPHASIS ON *Cyber Security*

Since taking office, Auditor Galloway has focused on efforts to keep Missourians' information secure by incorporating data security into the standard audit process and regularly making recommendations to counties, municipalities and courts on ways to better safeguard electronic records.

Auditor Galloway was a recipient of the Center for Digital Education Top 30 award for her work to increase the security of student data in Missouri schools. She was recognized in part due to the success of her Cyber Aware School audits, which were designed to increase safeguards against unauthorized access to student information.

Auditor Galloway is also working to ensure parents are notified in case of a data breach at their children's school. Current state law does not require schools to notify parents if their children or family's personal information has been compromised in a cyber security incident. During the 2017 session, legislation to change the law had broad bipartisan support, but ultimately was not passed. In December, the bill was among the first to be pre-filed for the 2018 legislative session.

Some school districts have policies in place that require notification if a data breach occurs. In 2017, Auditor Galloway visited public school districts across Missouri to commend them on taking this proactive approach.

Peer review gives highest rating possible

In October, Auditor Galloway announced her office received the highest rating possible during a review by the National State Auditors Association (NSAA).

An external peer review enables the State Auditor's Office to obtain an independent assessment of whether or not its system of quality control is adequate to ensure compliance with Government Auditing Standards.

The review was conducted under the NSAA's External Peer Review Program, which is administered by the National Association of State Auditors, Comptrollers, and Treasurers. The review team included representatives from seven other state audit organizations and the federal government. A peer review is required every three years for organizations that conduct governmental audits.

Promoting family-friendly leave policies for state employees

Auditor Galloway has worked to update her office's personnel policies to be more family friendly. This includes expanding personnel policies to include responding to domestic violence as a protected leave category. She also expanded leave policies to allow for bonding time after the birth or adoption of a newborn. Auditor Galloway has encouraged other state office holders to follow her lead. Not long after, the administration extended similar leave policies throughout the executive branch of state government.

For additional 2017 information, visit auditor.mo.gov

Statewide Closeout audits

The State Auditor's Office performs closeout audits of statewide offices to assist in transitions and ensure that incoming officials are aware of areas for improvement. Auditor Galloway works independently to ensure these audits are tough, fair and thorough, no matter the party affiliation of the auditee.

Office of Missouri State Auditor
Nicole Galloway, CPA

Reynolds County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Reynolds County

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not perform an adequate supervisory review of detailed accounting and bank records. Procedures for receipting, recording, depositing, and reconciling need improvement. The Sheriff maintains some monies in a bank account outside the county treasury, in violation of state law. The Sheriff has not established adequate controls and procedures over seized property.
Property Tax System	The County Clerk and/or County Commission did not review and approve outlawed 2012 personal property taxes totaling approximately \$5,600 during the year ended February 28, 2018. The County Commission's 3 signature stamps are not adequately controlled.
Public Administrator's Annual Settlements	The Public Administrator does not always file annual settlements timely.
County Disbursements	The County Commission did not obtain proposals for legal and property appraisal services, and neither the County Commission nor the Sheriff solicited bids for prisoner meals. The county did not enter into a written agreement for the property appraisal services and did not enter into written agreements with various political subdivisions regarding the prorating of these costs among the political subdivisions.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Reynolds County

We have audited certain operations of Reynolds County in fulfillment of our duties under Section 29.230, RSMo. In addition, Daniel Jones and Associates, Certified Public Accountants, has been engaged to audit the financial statements of Reynolds County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

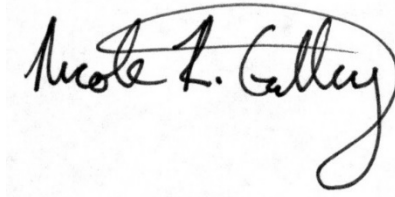

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Reynolds County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Travis Owens, MBA, CPA CFE, CGAP
In-Charge Auditor:	Anh Nguyen
Audit Staff:	Emily Warren, CPA
	Wanda S. Rice, MBA

Reynolds County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office processed receipts for civil paper service fees, bonds, inmate monies, prisoner board, and other miscellaneous receipts totaling approximately \$125,600 for the year ended December 31, 2017.

1.1 Segregation of duties and supervisory review

The Sheriff has not adequately segregated accounting duties and does not perform an adequate supervisory review of detailed accounting and bank records. The Sheriff's secretary is responsible for receipting, recording, and depositing monies; making disbursements; and reconciling the bank accounts. The Sheriff does not document his reviews of the monthly bank reconciliations, canceled checks, and other disbursement documentation. In addition, the Sheriff does not review accounting records to ensure monies received have been properly recorded, deposited, and disbursed.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits.

1.2 Receipts and deposits

Procedures for receipting, recording, depositing, and reconciling need improvement.

- During non-business hours, jail personnel issue generic unnumbered bond forms, do not maintain a log of bonds received, and do not issue prenumbered manual receipt slips for bonds received. Bond monies and a copy of the bond form are put in an envelope, and then the envelope is put in a lockbox. The Sheriff's secretary is the only person who has access to the lockbox, but is not provided with any records to know the amount of monies that should be in it. As a result, neither the Sheriff's secretary nor the Sheriff can account for all bonds received and ensure bonds are handled properly. The Sheriff's office collected approximately \$81,700 in cash bonds during the year ended December 31, 2017.
- The Sheriff's secretary does not always issue receipt slips timely or record receipts timely for civil paper service fees received, and does not always deposit these fees timely and intact. The Sheriff's office remitted approximately \$8,900 to the County Treasurer for civil paper service fees during the year ended December 31, 2017. During a cash count performed on February 8, 2018, we noted 2 of the 8 checks were for civil paper service fees and were dated December 18, 2017, and December 21, 2017, but a receipt slip was not issued for either check until February 7, 2018. The Sheriff's secretary indicated she often holds receipts until civil papers have been served or a deputy has made a service attempt because this

Reynolds County Management Advisory Report - State Auditor's Findings

process allows her to better track outstanding cases and because open cases may require refunds or additional billing for mileage.

Failure to implement adequate receipting, recording, depositing, and reconciling procedures increases the risk that loss, theft, or misuse of monies received will go undetected.

1.3 Account held outside treasury

The Sheriff maintains some monies in a bank account outside the county treasury, in violation of state law. During the year ended December 31, 2017, the Sheriff received approximately \$3,000 for calendar sale commissions (advertising) and \$1,400 in donations from a raffle held to assist the department with purchasing a police dog. This bank account held approximately \$4,000 as of December 31, 2017. The Sheriff made several purchases from this account totaling approximately \$1,900 for advertising, supplies for educational activities at local schools, motor vehicle title fees for Sheriff's office vehicles, and a police dog. While these expenditures appear reasonable, expending monies outside of the county's normal budgeting and disbursement process increases the risk of misuse or unnecessary purchases.

There is no statutory authority allowing the Sheriff to maintain an account outside the county treasury. Section 50.370, RSMo, requires every county official who receives any fees or other remuneration for official services to pay such monies to the County Treasurer. In addition, Attorney General's Opinion No. 45-1992 to the Hickory County Prosecuting Attorney, states sheriffs are not authorized to maintain a bank account for law enforcement purposes separate from the county treasury.

1.4 Seized property

The Sheriff has not established adequate controls and procedures over seized property. The seized property evidence log maintained is not complete and only includes items seized starting in July 2017. We could not trace 2 of the 5 items selected from the seized property room to the log. In addition, the Sheriff does not periodically reconcile the physical inventory to the log.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Complete and accurate inventory records including information such as description, current location, case number, date of seizure, and disposition of such property, should be maintained and periodic physical inventories should be performed and the results compared to inventory records to ensure seized property is accounted for properly.

Similar conditions previously reported

Similar conditions to sections 1.2 and 1.3 were noted in our prior audit report.

Reynolds County
Management Advisory Report - State Auditor's Findings

Recommendations

The Sheriff:

- 1.1 Segregate accounting duties or ensure documented supervisory reviews of detailed accounting and bank records are performed.
- 1.2 Issue prenumbered receipt slips for bond monies received, account for the numerical sequence of receipt slips, and maintain a bond log. In addition, manual receipt slips should be issued and recorded promptly for all civil paper service fees received, and receipts should be deposited timely and intact.
- 1.3 Transfer the balance of the bank account to the County Treasurer and close the account.
- 1.4 Maintain a complete and accurate seized property evidence log, and ensure a periodic inventory is conducted and reconciled to the seized property evidence log, and investigate any differences.

Auditee's Response

- 1.1 *I will ensure my monthly supervisory review of the bank reconciliation and bank statements is documented. Future reviews will include a detailed review of receipts and receipt slips, deposits, and disbursements on a test basis to ensure the numerical sequence of receipt slips can be accounted for and disbursements are proper.*
- 1.2 *I will begin implementing the auditor's recommendation by ordering prenumbered bond forms, prenumbered receipt slips, and a bond log or ledger for the jail. I will attempt to better segregate duties by assigning lockbox keys to other personnel without cash handling duties, and ensure an independent person is present with the secretary to open and count the lockbox and compare monies to the bond ledger. I immediately implemented the auditor's recommendation to make timely and intact deposits once auditors alerted me and I am no longer holding any checks.*
- 1.3 *I will promptly close this bank account and turn the monies over to the County Treasurer. I will work with the County Clerk and County Treasurer to process a budget amendment for these monies.*
- 1.4 *I am in the process of disposing of a large amount of old seized property that is no longer needed. Once this process is completed, the evidence officer will update his master log to include all items in our possession.*

My officers and I recently conducted a full inventory of the property room using the current evidence officer's log for more recent items, and paper case records for the older items. I was able to properly

Reynolds County
Management Advisory Report - State Auditor's Findings

account for all items held in the property room. I will continue to conduct a full inventory of the property room annually.

2. Property Tax System

2.1 Outlawed property taxes

Property tax system controls and procedures need improvement. The County Collector's office processed property taxes and other revenues of approximately \$8.2 million for the year ended February 28, 2018.

The County Clerk and/or County Commission did not review and approve outlawed 2012 personal property taxes totaling approximately \$5,600 during the year ended February 28, 2018. As a result, outlawed taxes, which constitute changes to the amount of taxes the County Collector is charged with collecting, are not monitored and errors or irregularities could go undetected. According to the County Collector, she is the only official with access rights in the property tax system to outlaw taxes, and she does not generate a report of taxes outlawed for the County Clerk or County Commission to approve.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved outlawed taxes to actual changes made to the property tax system would help to ensure changes are proper.

A similar condition was noted in our prior audit report.

2.2 Signature stamps

The County Commission's 3 signature stamps are not adequately controlled. The County Assessor's office has custody of a signature stamp for each of the County Commissioners. County Assessor's office personnel stamp each court order (addition or abatement of property taxes) with the County Commissioner's individual signature stamps and provides copies of the court orders to the County Clerk and County Collector.

To safeguard against possible loss, theft, or misuse of funds, the County Commission should establish controls over the use of and access to the signature stamps.

Recommendations

- 2.1 The County Clerk and County Commission ensure outlawed taxes are properly reviewed and approved.
- 2.2 The County Commission should establish controls over the use of and restrict access to the signature stamps.

Auditee's Response

- 2.1 *On an annual basis, we will require the County Collector provide us an itemized listing of all personal property tax accounts she is*

Reynolds County
Management Advisory Report - State Auditor's Findings

proposing should be outlawed. We will review and approve this listing before granting her authorization to outlaw the property taxes.

- 2.2 *Per discussion with the auditors, we will immediately collect the signature stamps from the County Assessor and store them in a secure location. After the auditors brought this to our attention while they were on-site, we began reviewing and approving individual court orders for additions and abatements on a weekly basis and will continue this process.*

3. Public Administrator's Annual Settlements

The Public Administrator does not always file annual settlements timely. During our review of the 9 active cases, we found 4 cases did not have annual settlements filed timely. These 4 annual settlements were filed approximately 4 to 7 months after the due date. The Public Administrator does not keep a record of when annual settlements are due to the court. Instead, she relies on the Circuit Court, Probate Division Clerk to send reminder notifications to the Public Administrator. The Public Administrator indicated she did not receive a reminder notification for some of the 4 cases. After we discussed this issue with the Public Administrator, she prepared a formal schedule of due dates for each annual settlement that she plans to periodically review to ensure annual settlements are filed before the due date.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected. In addition, Sections 473.557 and 475.280, RSMo, require the clerk of the court to notify the conservator or guardian (Public Administrator) of the deadline for the annual settlement; however, failure to receive the notice does not excuse the conservator or guardian from filing the settlements as required by law.

Recommendation

The Public Administrator ensure annual settlements are filed timely.

Auditee's Response

I immediately began implementing this recommendation while the auditors were here on-site and alerted me that it is my responsibility to ensure the settlements get filed timely. I am now tracking the due dates for all of my wards in a desk calendar, and will ensure all future settlements are completed and filed prior to the due date.

Reynolds County
Management Advisory Report - State Auditor's Findings

4. County Disbursements

Procedures related to bidding and written agreements need improvement.

4.1 Bidding

The County Commission did not obtain proposals for legal and property appraisal services, and neither the County Commission nor the Sheriff solicited bids for prisoner meals.

The services primarily related to representing the county and political subdivisions in the resolution of protested property taxes. The county paid the law firm approximately \$63,000 and the property appraisal consultant approximately \$24,000 during the year ended December 31, 2017. The County Clerk indicated county officials considered these firms sole source vendors because of their expertise and qualifications with the mining industry; however, the county did not document this reasoning for not soliciting competitive proposals. In addition, approximately \$27,000 was spent for prisoner meals during the year ended December 31, 2017. The Sheriff indicated his office primarily purchases food and prepackaged meals from a vendor who delivers the food to the jail.

Section 50.660, RSMo, provides bidding requirements. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to obtain the best and lowest price and all interested parties are given an equal opportunity to participate in county business. Documentation of the various proposals received, the selection process, and criteria should be retained to demonstrate compliance with applicable laws or regulations and support decisions made.

4.2 Written agreements

The county did not enter into a written agreement for the property appraisal services discussed in section 4.1 and did not enter into written agreements with various political subdivisions regarding the prorating of these costs among the political subdivisions.

According to the County Clerk, the county and various political subdivisions verbally agreed to share all expenses incurred related to the protested property taxes. The portion of fees owed is determined on a pro-rata basis after the assessed valuation has been resolved by the Missouri State Tax Commission. The county periodically bills the various political subdivisions for their share of the expenses.

Section 432.070, RSMo, requires government contracts to be in writing. Written agreements are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

Similar conditions
previously reported

A similar condition to section 4.1 was noted in our prior 2 audit reports and a similar condition to section 4.2 was noted in our prior audit report.

Reynolds County
Management Advisory Report - State Auditor's Findings

Recommendations

The County Commission:

- 4.1 Ensure bids are solicited for all applicable purchases of goods and services in accordance with state law, and maintain adequate documentation of decisions made.
- 4.2 Enter into written agreements with vendors and political subdivisions as required by state law.

Auditee's Response

- 4.1 *We believe each of the goods or services listed in this audit finding are sole source procurements. The attorney and appraiser each have specialized expertise, and it would not be feasible or cost effective for us to make a change in the middle of a long court battle that is nearing resolution. Also, the vendor who supplies food to the jail is the only vendor with the items needed who will deliver to our rural location.*
- 4.2 *We have has not had any difficulties collecting amounts billed to the various taxing authorities and there are no amounts currently due. The cost sharing arrangement relates to a single taxpayer who began protesting taxes many years ago. At that time the various taxing authorities were notified of the cost sharing requirements and verbally agreed to the terms and the terms have not significantly changed since that time. We anticipate this ongoing issue with the mining corporation protesting the County Assessor's method of calculating their assessed valuation will be resolved within approximately one year and these services will no longer be required in the future.*

Reynolds County

Organization and Statistical Information

Reynolds County is a county-organized, third-class county. The county seat is Centerville.

Reynolds County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 44 full-time employees and 3 part-time employees on December 31, 2017.

In addition, county operations include the Senate Bill 40 Board and the Senior Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Joe Loyd, Presiding Commissioner	\$	29,560
Doug Warren, Associate Commissioner		27,560
Eddie Williams, Associate Commissioner		27,560
Myra Turner, Recorder of Deeds		41,500
Mike Harper, County Clerk		41,500
Michael Randazzo, Prosecuting Attorney		49,000
Tom Stout, Sheriff		45,000
Wanda Corder, County Treasurer		41,500
Jeffrey N. McSpadden, County Coroner		13,500
Robyn Gray, Public Administrator		20,500
Kathy Hoffmann, County Collector, year ended February 28,	41,500	
Rick Parker, County Assessor, year ended August 31,		41,500

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Osage County

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not ensure adequate supervisory reviews of detailed accounting and bank records are performed. Receipts are not properly reconciled to deposits. The Sheriff's office does not prepare a monthly list of liabilities of inmate balances for the commissary account, and consequently, liabilities are not reconciled to the commissary's available cash balance. The Sheriff's office does not always retain bond forms or reconcile amounts per the forms to deposits, and bond forms are not prenumbered. The Sheriff's office does not always deposit receipts timely.
Reduction of Property Tax Levy	The county has not sufficiently reduced property tax levies to offset 50 percent of sales tax monies received by approximately \$95,000 during the 4 years ended December 31, 2017.
Railroad and Utility Taxes	The County Clerk prepared 2017 property tax statements for the 15 railroads and utilities using an incorrect average school tax rate.
Public Administrator's Annual Settlements	The Public Administrator does not always file annual settlements timely in compliance with state law. The Circuit Court, Probate Division, does not have a system in place to monitor and ensure timely filing of annual settlements, and does not always submit timely notices of settlements due or follow up on annual settlements not filed by the required date.
Passwords	The Recorder of Deeds and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was Fair.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Osage County

We have audited certain operations of Osage County in fulfillment of our duties under Section 29.230, RSMo. In addition, Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, has been engaged to audit the financial statements of Osage County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

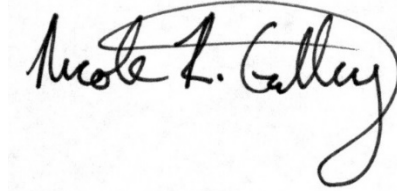

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Osage County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Osage County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office processed receipts for bonds, civil paper service, prisoner board, and other miscellaneous receipts totaling approximately \$73,000 through the fee account and inmate receipts totaling approximately \$21,000 through the commissary account during the year ended December 31, 2017.

1.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and does not ensure adequate supervisory reviews of detailed accounting and bank records are performed.

The Office Administrator is responsible for receipting, recording, and depositing monies; making disbursements; and preparing the monthly bank reconciliations for both the fee and commissary accounts. Although the Sheriff reviews and signs monthly financial reports from the Office Administrator that include a list of receipts and disbursements for the fee account, a commissary inventory sales summary, and receipt documentation from the County Treasurer, he does not document his review of the bank statements and bank reconciliations for the accounts, account for the numerical sequence of receipt slips, and ensure monies received have been properly recorded, deposited, and disbursed to the appropriate parties.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits and disbursements to supporting documentation.

1.2 Commissary receipts and deposits

Receipts are not properly reconciled to deposits. The Office Administrator does not reconcile the manual receipts slips issued to amounts deposited and does not produce receipt reports from the commissary system listing the receipts comprising each deposit.

Failure to implement adequate receipting, depositing, and reconciling procedures increases the risk that loss, theft, or misuse of monies could occur and go undetected.

1.3 Commissary liabilities

The Sheriff's office does not prepare a monthly list of liabilities of inmate balances for the commissary account, and consequently, liabilities are not reconciled to the commissary's available cash balance. Upon our request, the Sheriff's office generated a list of inmate balances totaling \$1,013 as of February 28, 2018. The Sheriff's records indicate undistributed commissary net proceeds for February 2018 totaled \$2,034. The reconciled bank balance of \$4,473 at February 28, 2018, exceeded the liabilities and undistributed commissary net proceeds by \$1,426. The Office Administrator indicated this

Osage County Management Advisory Report - State Auditor's Findings

balance represents commissary net proceeds remaining in the account from the previous Sheriff that were retained in the account for cash flow purposes, however, no records were available to support this amount.

Regular identification and comparison of liabilities to the reconciled cash balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and monies are available to satisfy all liabilities. Differences must be adequately investigated and explained.

1.4 Bond forms

The Sheriff's office does not always retain bond forms or reconcile amounts per the forms to deposits. In addition, the forms are not prenumbered. During 2017, the Sheriff's office deposited bonds totaling approximately \$22,000.

We noted bond forms could not be located for 14 bonds totaling \$6,192 deposited during 2017. In January 2018, the Sheriff's office began recording bonds sequentially on a bond log and reconciling the log to bond forms.

To reduce the risk of loss, theft, or misuse of bond monies received, and to provide assurance bond monies are accounted for properly, prenumbered bond forms should be completed and retained for all bonds and the numerical sequence of bond forms should be accounted for properly. In addition, receipt amounts on the bond forms should be reconciled to the amounts deposited.

1.5 Deposits

The Sheriff's office does not always deposit receipts timely. During December 2017, deposits of receipts for both the fee account and commissary account occurred only once, at month end. Deposits of December receipts totaled approximately \$2,800 for the fee account and \$2,100 for the commissary account. The Office Administrator indicated she typically deposits approximately weekly.

To safeguard receipts and to reduce the risk of loss, theft, or misuse of monies received, procedures should be established to ensure all monies received are deposited timely.

Similar conditions previously reported

A similar condition to section 1.4 was noted in our prior audit report, and a similar condition to section 1.5 was noted in our prior 4 audit reports. In addition, Report No. 2015-034, *Follow-Up Report on Audit Findings - Osage County* (sections 4.1 and 4.2), issued in May 2015, reported the status as implemented for section 1.4 and not implemented for section 1.5.

Recommendations

The Sheriff:

- 1.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.

Osage County
Management Advisory Report - State Auditor's Findings

- 1.2 Reconcile manual receipt slips to amounts deposited and also produce a receipts report from the system that reconciles to deposits.
- 1.3 Prepare a monthly list of liabilities for the commissary account and reconcile it to the available cash balance. Any differences between accounting records and reconciliations should be promptly investigated and resolved.
- 1.4 Prepare and retain prenumbered bond forms for all bonds received and reconcile the amounts on the bond forms to the amounts deposited.
- 1.5 Ensure monies received are deposited timely.

Auditee's Response

- 1.1 *At this time, the Office Administrator is the only full-time civilian staff and is responsible for receipting, recording and depositing monies, disbursements, and monthly bank reconciliations. The Sheriff is currently reviewing bank statements and end of month reconciliations and has begun initialing the bank statements, and we have recently adopted additional procedures whereby the Sheriff or another staff member verifies all deposits of inmate/commissary monies collected at the jail and also verifies deposits to the Sheriff's fee account.*
- 1.2 *We have begun reconciling all inmate/commissary receipts with the deposits and have begun producing a receipts report from the system and including it in the reconciliation. Also, we have begun recording the sequence of receipt numbers on the deposits slips and check register.*
- 1.3 *We have begun printing an end-of-month listing of inmate balances and attaching it to the bank reconciliation report along with the commissary net proceeds report and reconciling it to the available cash balance. In November any unclaimed money will be sent to the State Treasurer's Office Unclaimed Property Division. At this time we have retained in the account a predetermined constant amount from commissary net proceeds to provide sufficient cash to make payments when needed for commissary items and inmate balances upon their release from custody.*
- 1.4 *We will consider utilizing prenumbered bond forms, and we have recently established procedures to better account for bond forms and to reconcile those bond forms to deposits.*
- 1.5 *The Office Administrator has begun making deposits on Tuesday and Friday of each week unless a holiday falls on one of those days, then*

Osage County
Management Advisory Report - State Auditor's Findings

the deposit will be made on either the day before or the following day. If she is out of the office, arrangements are being made to have another staff member make the deposits.

2. Reduction of Property Tax Levy

The county has not sufficiently reduced property tax levies to offset 50 percent of sales tax monies received by approximately \$95,000 during the 4 years ended December 31, 2017. County officials did not accurately calculate property tax reduction amounts for the 2 sales taxes requiring reduction. We reviewed the calculations for the 4 years ended December 31, 2017, and noted the County Clerk made various errors in calculating the property tax rate. For example, the tax rate ceiling used in the calculation for 2 years exceeded the actual tax rate ceiling. As a result, the property tax rate was not sufficiently reduced.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Osage County voters enacted 2 one-half of 1 percent general sales taxes with provisions to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement based on estimated sales tax collections of the current year, and in the following year calculate any excess property taxes collected based upon actual sales taxes collected.

Recommendation

The County Commission and the County Clerk properly calculate property tax rate reductions, adequately reduce property tax levies for 50 percent of sales tax revenue, and develop a plan to correct for the accumulation of prior years' over collection of property taxes.

Auditee's Response

We will calculate future reductions and levies properly and recoup the \$95,000 over collection of property taxes over the next 5 years.

3. Railroad and Utility Taxes

The County Clerk prepared 2017 property tax statements for the 15 railroads and utilities using an incorrect average school tax rate. The average school tax rate used for the tax statements was lower than the average of the actual rates set by the school districts by \$0.0068 per \$100 assessed valuation. The error resulted in property tax collections for schools totaling approximately \$2,100 less than what they should have been. The county's procedures for preparing tax rates and tax statements were insufficient to detect the error. During the year ended February 28, 2018, the county collected property taxes from railroads and utilities totaling approximately \$1.6 million.

Section 151.150, RSMo, requires the county commission establish the average rate of taxation for school purposes for railroads and Sections 151.170 and 151.190, RSMo, require the county clerk prepare the railroad tax books and statements. Additionally, Section 153.030, RSMo, requires the taxes for utilities be levied in the same manner as for railroads. Tax statements

Osage County
Management Advisory Report - State Auditor's Findings

should be prepared using proper tax rates to ensure tax statements for railroad and utilities are accurate and collections for schools and other political subdivisions are proper.

Recommendation

The County Clerk and County Commission establish procedures to ensure the average of the school rates for railroads and utilities are proper.

Auditee's Response

We will establish procedures to ensure average school rates on future railroad and utilities taxes are proper.

4. Public Administrator's Annual Settlements

The Public Administrator does not always file annual settlements timely in compliance with state law. In addition, the Circuit Court, Probate Division, does not follow up with the Public Administrator when annual settlements are not filed by their due date. The Public Administrator is the court appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division, and was responsible for the financial activity of 19 individuals as of December 31, 2017.

Timely filing

The Public Administrator does not always file annual settlements timely. For each ward or estate, the Public Administrator is required to file an annual settlement with the Circuit Court, Probate Division, on the anniversary date of the date of letters reflecting a detailed list of assets held, as well as financial activity for the previous year. We reviewed filing dates for the annual settlements due during 2017 for the 19 ward or estates and determined the Public Administrator filed 7 annual settlements after the due date, including one annual settlement filed approximately 6 months late. In addition, he filed settlements on 2 cases for a 16-month period, which exceeded the required 12-month period.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely settlements are necessary for the court to properly oversee the administration of cases and reduce the possibility that loss, theft, or misuse of funds will occur and go undetected.

Probate Division review

The Circuit Court, Probate Division, does not have a system in place to monitor and ensure timely filing of annual settlements, and does not always submit timely notices of settlements due or follow up on annual settlements not filed by the required date.

Failure to ensure annual settlements are filed timely increases the risk that loss, theft, or misuse of funds could go undetected. Sections 473.557 and 475.280, RSMo, require the clerk of the court to notify the conservator or guardian (Public Administrator) of the deadline for the annual settlement; however, failure to receive the notice does not excuse the conservator or guardian from filing the settlements as required by law.

Osage County
Management Advisory Report - State Auditor's Findings

Recommendation

The Public Administrator ensure annual settlements are filed timely. In addition, the Circuit Court, Probate Division, should notify the Public Administrator of annual settlement deadlines timely, and follow up on settlements not filed by the required date.

Auditee's Response

The Public Administrator provided the following response:

I will work directly with my attorney and the Probate Clerk to ensure that annual settlements will be filed on time and in an accurate manner.

The Circuit Court, Probate Division, provided the following response:

We will establish procedures to make more timely notification of annual settlements that are due and follow up on annual settlements not filed by the due date.

5. Passwords

The Recorder of Deeds and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in the office of the Recorder of Deeds are not required to change passwords periodically to help ensure passwords remain known only to the assigned user. In addition, passwords for employees in the offices of the Recorder of Deeds and Sheriff are not required to have a minimum number of characters.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed or contain a minimum number of characters in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted in our prior audit report.

Recommendation

The County Commission work with other county officials to require employees maintain confidential passwords with a minimum number of characters that must be periodically changed.

Auditee's Response

We will reevaluate and upgrade our policies and work with other officials to ensure better password controls are in place.

Osage County

Organization and Statistical Information

Osage County is a county-organized, third-class county. The county seat is Linn.

Osage County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 47 full-time employees and 13 part-time employees on December 31, 2017.

In addition, county operations include the Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Dave Dudenhoeffer, Presiding Commissioner	\$	29,390
John Glavin, Associate Commissioner		27,390
Larry Kliethermes, Associate Commissioner		27,390
Cindy Hoffman, Recorder of Deeds		41,500
Patrick Steele, County Clerk		41,500
Amanda L. Grellner, Prosecuting Attorney		51,000
Michael C. Bonham, Sheriff		46,000
Tim G. Neuner, County Treasurer		41,500
Lois Jaegers, County Coroner		14,000
Paul G. Stratman, Public Administrator		25,000
Doris J. Keilholz, County Collector (1), year ended February 28,	43,000	
Ross Seals, County Assessor, year ended August 31,		41,500
Timothy Hamburg, County Surveyor (2)		

(1) Includes \$1,500 of commissions earned for collecting city property taxes.

(2) Compensation on a fee basis.

Office of Missouri State Auditor
Nicole Galloway, CPA

Supplemental Nutrition Assistance Program
(SNAP) Data Analytics Program

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Supplemental Nutrition Assistance Program (SNAP) Data Analytics Program

Program Data	<p>The Department of Social Services (DSS) needs to strengthen efforts for managing Supplemental Nutrition Assistance Program (SNAP) related data. Without complete and accurate data, it is more difficult to use data analytics to detect trends or transaction patterns indicative of potential SNAP abuse or misuse.</p>
Alerts and Reports	<p>The DSS uses some data analytic techniques to identify potentially suspicious SNAP transactions. However, the current process does not always detect transactions or recipient benefit usage patterns that may be indicative of program abuse or misuse. We noted several concerns with system alerts and reports provided to the DSS by the department's contractor and with the department's utilization of the information.</p> <p>For example, DSS investigators do not always review and investigate many of the suspicious activities identified by system alerts and reports. Of the 5,705 investigations opened by DSS investigators during the 2-year audit period, only 5 were identified as being opened because of an alert or a report. In addition, the criteria used to create alerts and reports may not be effective in generating targeted investigatory leads to identify fraud, waste, and abuse occurring in the program.</p> <p>Federal regulations require that a household reside in the state in which it has applied for SNAP benefits. However, we found recipients spent more than \$16 million using their EBT cards exclusively outside the state for 90 days or longer. Consistent or exclusive purchase patterns outside the state may be indicative of program abuse or misuse. Frequent even-dollar transactions made by a recipient can be considered a warning sign for trafficking of SNAP benefits. We found the even-dollar alert was not working as designed. As a result, the DSS was alerted to only approximately one-fifth of the transactions that met the even-dollar alert criteria, and therefore, may have failed to identify a significant amount of inappropriate activity. The DSS needs to more effectively identify potentially high risk SNAP recipients that use their EBT cards multiple times in short periods of time.</p>
Data Matches	<p>The DSS needs to more effectively utilize data matches to identify potentially improper benefits issued to recipients. Due to weaknesses in data match procedures, households involving recipients who had died or were incarcerated continued to receive and spend SNAP benefits. Without effective controls to detect benefits issued to deceased or incarcerated recipients, the DSS is at increased risk of allowing ineligible persons to receive benefits resulting in abuse and misuse of the SNAP.</p>

Vendor Contract

The DSS has not ensured services obtained from a key contract provide sufficient benefits to justify the amount paid for the services.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Dr. Steve Corsi, Psy.D., Director
Department of Social Services
Jefferson City, Missouri

We have audited certain operations of the Department of Social Services, Supplemental Nutrition Assistance Program (SNAP). This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objective of our audit was to evaluate the use and effectiveness of data analytic techniques for preventing and detecting potential program abuse or misuse.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the area audited, we identified the need for improvement of data analytic techniques utilized by the department to prevent and detect potential program abuse or misuse within the SNAP program.

The accompanying Management Advisory Report presents our findings arising from our audit of the SNAP Data Analytics program.

Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Kent Aaron Dauderman, M.Acct.

SNAP Data Analytics Program

Introduction

Background

On August 31, 1964, the United States Congress passed the Food Stamp Act of 1964 "to safeguard the health and well-being of the Nation's population by raising levels of nutrition among low-income households."¹ The Food Stamp Program, later renamed the Supplemental Nutrition Assistance Program (SNAP), allows eligible households within each state to receive an allotment of funds each month to "purchase food from retail food stores which have been approved for participation in [SNAP]."²

In Missouri, the Department of Social Services (DSS) Family Support Division (FSD) administers the SNAP program. In calendar years 2015 and 2016, the state provided more than \$2.4 billion in benefits to Missouri residents through the SNAP program. The potential for abuse and fraud may be greater in such a large program unless appropriate agency controls are in place to help minimize these risks. The federal Office of Management and Budget has designated the U.S. Department of Agriculture (USDA) SNAP program as a high-error program due to the estimated dollar amount of improper payments for federal fiscal year 2016.³

Federal program officials have had long-standing concerns that some recipients provide false information to improperly receive benefits, or misuse benefits to obtain non-food goods, services, and cash, according to the U. S. Government Accountability Office (GAO). Advances in technology have provided new opportunities to commit as well as to combat such abuse and fraud. For example, social media websites have emerged as new venues for trafficking benefits while monitoring recipient transaction data may provide insight and clues for identifying potential SNAP abuse and fraud.

Both the state and federal government share responsibility for addressing SNAP recipient fraud. The DSS is responsible for detecting, investigating, and prosecuting recipient fraud, while the USDA's Food and Nutrition Service (FNS) has traditionally focused on pursuing retailer fraud. The FNS is also responsible for guiding and monitoring state activity.

According to the GAO, reducing improper payments, including those that are the result of fraud, is critical to safeguarding funds and helping to achieve potential cost savings. As a result, leading practices highlighted by the GAO⁴ have increasingly focused on the need for program officials to take a strategic approach to managing improper payments and risks that include abuse and

¹ 7 United State Code (USC) Section 2011

² 7 USC Section 2013(a)

³ This estimated amount of improper payments represents benefits distributed in error due to administrative as well as recipient errors, not all of which can be attributed to fraud.

⁴ Report GAO-17-339SP, *Data Analytics to Address Fraud and Improper Payments*, March 2017, is available at < <https://www.gao.gov/assets/690/683859.pdf> >.

SNAP Data Analytics Program Introduction

fraud. These leading practices can provide a guide for program managers to use when developing or enhancing efforts to combat fraud in a strategic, risk-based manner.

A critical strategic approach component involves implementing preventive and detective controls, including data analytics. Data analytics is a rapidly evolving field of information science that involves a variety of techniques to examine, analyze, and interpret large volumes of data, according to the GAO and other leading practitioners. Data analytics helps facilitate decision making by identifying patterns or trends, determining whether problems are widespread and systemic in nature, and evaluating program performance and outcomes.

Recent trends in data development and advanced analysis are creating innovation possibilities that carry the promise of far-reaching economic and societal benefits, according to the GAO. Areas such as health care and public benefit systems, may be improved or even transformed by innovations derived from new data analytics. Advanced analytics includes new tools for examining large amounts of data to uncover subtle or hidden patterns, correlations, and other insights, such as anomalies, trends, or potential abuse. The use of analytic results to improve actions or decisions is being transformed - improving decisions or actions and thereby extracting new economic and societal benefits, according to the GAO.

Eligibility

Initial eligibility and periodic recertifications are regulated by a number of complex factors that are beyond the scope of our audit. However, certain basic factors facilitate understanding the topics discussed in this report.

After a recipient (or household⁵) is approved for benefits, he/she is generally required to complete a 6- or 12-month review (recertification) to determine continued eligibility for benefits. In general, an interview, conducted in person or by phone, must be completed for an initial application or for a recertification. An initial or recertification applicant must meet certain criteria including, among others, having a household gross income under 130 percent of the federal poverty level and be a Missouri resident.

Changes may occur in household circumstances during the certification period. Under the state's simplified reporting rules, households are generally only required to report when the household's gross monthly income begins to exceed 130 percent of the federal poverty level. Other changes, such as a

⁵ 7 USC Section 2012(m) states a "household" consists of the number of people (related and unrelated) that generally prepare and share food together. The income of all eligible participants in the household is counted for income determination.

SNAP Data Analytics Program Introduction

change in the state of residence, are generally not required to be reported until the recertification process.

Participation

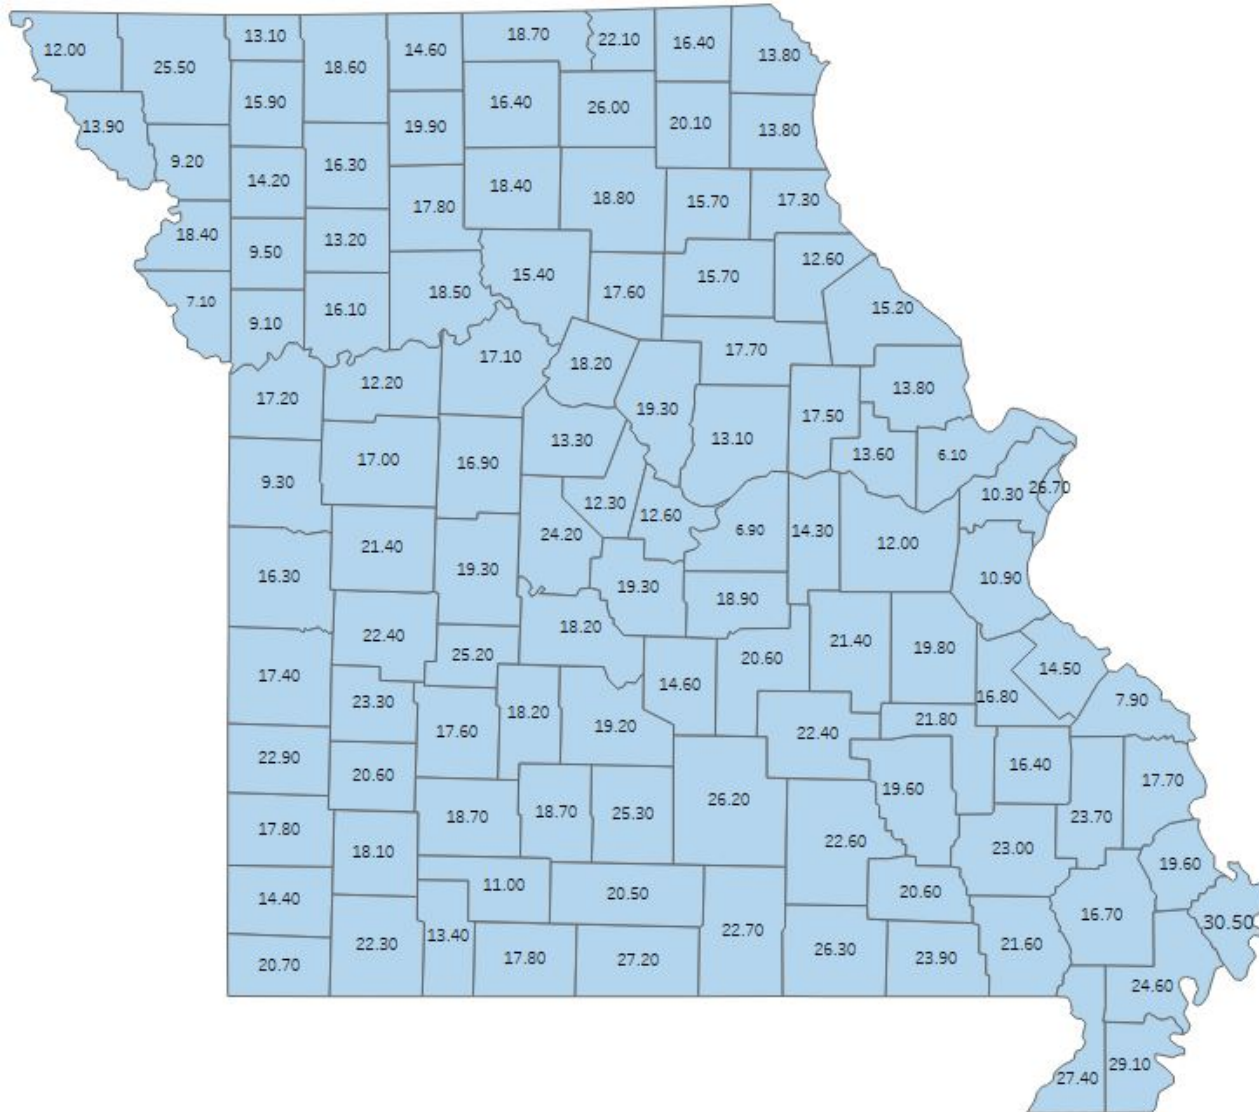

Under federal rules, to be eligible for SNAP benefits, a household's income and resources must meet certain tests. Most households must meet both the gross and net monthly income test. Gross monthly income is a household's total income before any of the program's deductions have been applied. Net income is gross income less allowable program deductions. In general, a household's gross monthly income must be at or below 130 percent of the poverty line and net income must be at or below the poverty line.

SNAP Data Analytics Program Introduction

In Missouri, 15.3 percent of individuals lived below the poverty line in 2016 according to the 2012-2016 American Community Survey 5-Year Estimates from the U.S. Census Bureau. The map below presents the percent of people, by county, living below the poverty level in 2016.⁶

⁷ The recipient numbers and participation rates are a compilation of recipients who participated in SNAP at any time during all or part of 2015 and 2016.

SNAP Data Analytics Program Introduction

In 2016, about 13.3 percent of Missouri residents participated in the SNAP program. Figure 5 presents the percent of SNAP recipients, by county, for 2015/2016.

Figure 5: Missouri SNAP Participation Rates by County in 2015/2016

Source: SAO Analysis of SNAP recipient data and U.S. Census data

SNAP Data Analytics Program Introduction

The average benefit per Missouri recipient and household each year between 2011 and 2016 is shown in Table 1.

Table 1: Missouri SNAP Average Monthly Benefits

Year	Average Monthly Benefit per Recipient	Average Monthly Benefit per Household
2011	\$ 127.05	276.16
2012	128.54	275.89
2013	128.04	272.20
2014	120.03	255.10
2015	124.18	263.07
2016	121.60	260.54

Source: SAO Analysis of USDA State Activity Reports

As shown in Figure 6, Missouri had a smaller percentage of residents receiving SNAP benefits in 2016 than 5 of the 8 surrounding border states.

Investigations

The DSS Division of Legal Services (DLS) Welfare Investigation Unit (WIU) investigates fraud and abuse committed by public assistance recipients. The WIU consists of approximately 18 investigators tasked with investigating alleged program violations for all welfare programs, including potential SNAP benefit fraud, waste, and abuse. After investigation, claims can be established against the recipients involved. Claims are categorized into one of three categories:

SNAP Data Analytics Program Introduction

- **Intentional Program Violation (IPV):** intentionally having "[m]ade a false or misleading statement, or misrepresented, concealed or withheld facts" or "committed any act that constitutes a violation of the Food Stamp Act, the Food Stamp Program Regulations, or any state statute for the purpose of using, presenting, transferring, acquiring, receiving, possessing or trafficking of coupons, authorization cards or reusable documents used as part of an automated benefit delivery system (access device)." ⁸
- **Inadvertent Household Error (IHE):** "any claim for an overpayment resulting from a misunderstanding or unintended error on the part of the household." ⁹
- **Agency Error (AE):** any claim for an overpayment caused by an action or failure to take action by the state agency. ¹⁰

According to DSS Division of Legal Services investigators, it is common during the process of an investigation for claims to be reclassified to a different category. For example, Missouri opens many investigations as IHE claims, and then reclassifies the cases to IPV claims once an investigation establishes the suspected violation was intentional. The values for Missouri reported in Figures 7 and 8 and Tables 2 and 3 present claims as initially reported to the USDA as of a point in time, and not necessarily the final classification of the claim. The DSS reclassified some of the 2016 claims presented in Tables 2 and 3, and as of April 2018, the DSS considers 861 claims to be IPV, 381 claims to be IHE, and 379 claims to be AE.

⁸ 7 Code of Federal Regulations (CFR) Section 273.16(c)

⁹ 7 CFR Section 273.18(b)(2)

¹⁰ 7 CFR Section 273.18(b)(3)

SNAP Data Analytics Program Introduction

Federal regulation¹¹ allows the state to retain 35 percent of the amount collected on IPV claims and 20 percent of the amount collected on IHE claims. The DSS established almost \$20 million in claims, collected about \$18.3 million, and retained about \$4.2 million from 2011 through 2016. The number of claims established each year between 2011 and 2016, and the dollar values of those claims, is presented in Figures 7 and 8.

Table 3: Total Claims Established by Dollar Value

State	Intentional Program Violation Claims	Inadvertent Household Error Claims	Agency Error Claims	Total Claims Established
Arkansas	\$ 733,329	1,067,262	117,737	\$ 1,918,328
Illinois	56,578	46,279,503	2,801,311	49,137,392
Iowa	108,198	2,397,534	69,432	2,575,164
Kansas	101,764	2,256,721	289,226	2,647,711
Kentucky	1,071,093	7,044,989	3,750,238	11,866,320
Missouri	199,208	2,339,619	476,199	3,015,026
Nebraska	0	1,343,866	681,256	2,025,122
Oklahoma	833,143	838,002	378,037	2,049,182
Tennessee	922,498	10,824,943	686,495	12,433,936

Source: SAO Analysis of USDA State Activity Reports

Since federal fiscal year 2011, the DSS has initially classified most of its established overpayments as either IHE or AE.

SNAP Data Analytics Program Introduction

Scope and Methodology

The scope of our audit included DSS management's approach to data analytics for preventing and detecting potential SNAP abuse, policies and procedures, and other management functions and compliance issues in place during the period January 2015 to December 2016.

Our methodology included reviewing written policies and procedures, and interviewing various DSS personnel. We obtained an understanding of the applicable controls that are significant within the context of the audit objective and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We obtained data files containing SNAP transactions and recipient records¹² for the period January 2015 through December 2016 from the Office of Administration - Information Technology Services Division (ITSD) (the division that maintains archive copies of the data). While the DSS owns this data, it is collected and managed by the contractor who operates the SNAP program for the state and provides the archived copies to the ITSD. To determine the reliability of the SNAP data, we evaluated the significance of the data to our audit objective and assessed the data by various means, including (1) interviewing knowledgeable DSS officials, (2) reviewing existing information about the data and the system that produced them, (3) performing certain analytic techniques, and (4) reviewing internal controls. The results of our testing showed the archived version of the data does not contain all data fields included in the vendor's production system and some data fields contained missing or inaccurate data (see Management Advisory Report finding number 1.1). However, through a combination of methods and because we were able to use other data fields to accomplish audit objectives, we concluded the data were sufficiently reliable for the purposes of our audit work.

We obtained a listing of deaths recorded in the state for the period 2010 to 2016 from the Missouri Department of Health and Senior Services (DHSS). We matched these records to SNAP recipient records to determine if any deceased recipient cases continued to receive and spend program benefits

¹² The recipient records include records for Electronic Benefits Transfer (EBT) cardholders and does not include records for household members who do not have an EBT card.

SNAP Data Analytics Program Introduction

after the recipient's death.¹³ Although we used computer-processed data from the DHSS for our audit work, we did not rely on the results of any processes performed by the DHSS system in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objective.

We obtained a listing of individuals incarcerated by the state during the period January 2015 through December 2016 from the Missouri Department of Corrections (DOC). We matched these records to SNAP recipient records to determine if incarcerated recipient cases continued to receive and spend benefits during the recipient's incarceration. Although we used computer-processed data from the DOC for our audit work, we did not rely on the results of any processes performed by the DOC system in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objective.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security controls from the following sources:

- National Institute of Standards and Technology (NIST)
- U. S. Government Accountability Office (GAO)
- ISACA (previously known as the Information Systems Audit and Control Association)

¹³ Acknowledgement: The data used in this document/presentation was acquired from the Missouri DHSS. The contents of this document including data analysis, interpretation or conclusions are solely the responsibility of the authors and do not represent the official views of DHSS.

SNAP Data Analytics Program

Management Advisory Report

State Auditor's Findings

1. Program Data

The Department of Social Services (DSS) needs to strengthen efforts for managing Supplemental Nutrition Assistance Program (SNAP) related data. We found the program data maintained on behalf of the DSS contained incomplete and invalid data that did not contain standardized values between fields. In addition, not all fields maintained in the vendor's system were included in the archived version of the data provided to the DSS. Without complete and accurate data, it is more difficult to use data analytics to detect trends or transaction patterns indicative of potential SNAP abuse or misuse.

The DSS contracts with an outside vendor to administer the Electronic Benefits Transfer (EBT) program. Recipients are provided EBT cards that, in conjunction with a security Personal Identification Number (PIN), allow access to benefits authorized for their cases. The EBT card can be used to access benefits including SNAP and Temporary Assistance for Needy Families (TANF). SNAP benefits can only be used at food retailers for food purchases, while TANF benefits can be used at a variety of retailers or withdrawn as cash at an ATM.

The DSS determines the amount of benefits to be authorized and loaded onto each recipient's EBT card. The contractor is responsible for making the benefits available, for processing transactions, and for tracking recipient balances, among other related duties.

Program data maintained by the contractor and program data provided to the state for archiving do not contain the same data fields and are not always complete or accurate. To improve the completeness and accuracy of archived SNAP data, DSS officials should develop and implement a process to regularly assess the consistency of information provided by the contractor.

As part of its transaction processing duties, the contractor maintains a website where recipients can login to review their transaction data. This data is also available to DSS program administrators and investigators for their research and investigation purposes through a related website. In addition, the contractor provides the state Office of Administration (OA) - Information Technology Services Division (ITSD) with a daily copy of transaction data. This record is combined into monthly files, which are retained by the ITSD.

We found not all fields in the contractor's system are included in the version provided to the ITSD for archiving and certain fields contained different values. For example, the field indicating if a transaction was completed with the EBT card present (swiped) or not (manual) is not included in the data provided to the ITSD. This field is often an indicator to alert for potential trafficking of EBT cards, and therefore important for any DSS analysis efforts.

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

We also found data quality issues with the archived transaction data. Some of these issues may have been caused by differing versions of the data. However, we identified other data quality or completeness issues with the archived version including:

- The "Clerk ID" field, used by investigators to help determine if a store employee is participating in fraudulent transactions, was blank for 82.1 million of the 89.4 million transactions occurring over the 2 year audit period.
- The "Terminal ID" field, used similarly to the Clerk ID field, is assigned by a retailer and/or the Point of Sale System vendor and is encouraged (but not required) to be a unique identifier for each terminal. The Terminal ID field is also a key field for certain system reports. We found more than 108,000 transaction records where this field was blank or contained the values "00000000", "00000001", or "00000002."

Other fields that did not agree between the two data sets include timestamps and retailer information, including name and address. According to DSS officials, the contractor indicated the reason for the timestamp difference is due to two different timestamps being recorded in transactions; the date and time when a transaction processed is maintained in the archived data while the date and time a transaction occurred is maintained in the production data available to the DSS. The archived data did not contain a value for the "Store Name" field for 82.1 million of the 89.4 million transactions during the audit period, whereas the contractors version was mostly complete. Transaction records pertaining to a single merchant location could contain several different values in the Store's Address field, for example "123 Main Street," "Acme Grocers," and "Acme Store #456." DSS officials could not identify why the retailer information was different. DSS officials said they were unaware of the issues between the production data and the archived data since the production environment provides the primary source for their data analysis efforts.

Managing data and obtaining useful information can be a challenge. As a result, it is important to work with standardized rules to ensure data is managed in a consistent, meaningful way. According to accepted standards, organizations should define and implement procedures to ensure the integrity and consistency of all information stored in electronic form such as databases, data warehouses, and data archives.

Maintaining and archiving complete, accurate, and valid data is essential for ensuring the results of any analytic technique provide useful information for making informed decisions and realizing the potential benefits of data analytics to detect fraud, waste, and abuse.

SNAP Data Analytics Program
Management Advisory Report - State Auditor's Findings

Recommendation

The DSS should strengthen efforts to improve data quality and accuracy within the SNAP system and related data archives to help improve fraud, waste, and abuse detection capabilities. Additionally, the DSS should ensure data provided by the contractor is accurate and reflective of what is recorded in the production system and includes all necessary data fields maintained by the contractor.

Auditee's Response

The DSS is in the process of developing a Request for Proposal (RFP) to be issued in 2020 that will include data improvements. In the interim, the DSS has recently developed in-house data analytic queries and processes designed to capture EBT transaction patterns indicative of retailer trafficking. The DSS continues to review processes and institute appropriate program improvements.

The "Clerk ID" and "Terminal ID" fields are retailer information which is controlled by FNS. Neither the DSS nor the contractor are able to alter this data.

2. Alerts and Reports

The DSS uses some data analytic techniques to identify potentially suspicious SNAP transactions. However, the current process does not always detect transactions or recipient benefit usage patterns that may be indicative of program abuse or misuse. While the DSS receives various alerts and reports from the contractor, these alerts and reports are not always configured correctly. In addition, the alerts are not always reviewed by staff and the DSS does not consistently investigate potentially high risk recipient behavior. As a result, high risk transactions indicative of recipients participating in inappropriate activity may not be detected timely, and the effectiveness of data analytics for preventing and detecting potential program abuse is diminished.

Using accurately configured and user-friendly data analytics and other advanced analysis techniques could allow the DSS to proactively identify potential SNAP abuse or misuse. Data analytics can provide high rates of return, allowing the DSS to use data for making informed decisions and for allocating scarce resources in a timely fashion.

We noted several concerns with system alerts and reports provided to the DSS by the contractor and with the department's utilization of the information.

2.1 Unreliable data

The *Multiple Withdrawals Same Day* report generated by the contractor's system is intended to "help [investigators] in fraud detection since it identifies households with an abnormally high number of withdrawals at a particular store on a given day," according to system documentation. However, the documentation also states for transactions to be identified on this report, they must have occurred at the same terminal (register) within the store. This contradictory flaw in the report's methodology results in two problems:

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

- Transactions occurring at multiple terminals in a single store may not be detected by the reporting methodology. As a result, the report may not include all suspicious activity that should be reviewed for possible fraud, waste, or abuse.
- If the Terminal ID field is unreliable (which appears likely given that more than 59,000 transactions had a value of "00000001" and 33,000 transactions had a value of "00000000"), there is a risk that transactions within the same store but at different terminals (with duplicated Terminal IDs) are improperly being summarized based on the erroneous Terminal ID.

In the first instance, potentially improper transactions could escape detection by the methodology and thus, not be reviewed. In the second instance, transactions that occur across different terminals could improperly be flagged as occurring at a single terminal. In either case, activity on the report for the review of investigative staff would not be accurate and could lead to inefficient use of investigative resources.

Organizations should align information technology enabled services with needs and expectations, including identification of service levels and performance indicators, according to accepted standards. Such work includes ensuring the availability of reliable and useful information for decision making.

2.2 Usage of alerts and reports

DSS investigators do not always review and investigate many of the suspicious activities identified by system alerts and reports. During the 2-year audit period, DSS investigators opened 5,705 investigations. Of these, only 5 were identified as being opened because of an alert or a report. Most investigations were opened as the result of a hotline call or a referral from another source.

The alert system only maintains alert data for a rolling 2-year period. As such, we could only obtain alert data for approximately 18 months of the audit period, June 14, 2015, through December 31, 2016. During this period, the contractor's system recorded 51,238 alerts. DSS staff stated that some of these alerts are reviewed, but due to a shortage of resources most are not reviewed. Additionally, they told us the alerts are not in an easy-to-use format and require significant manual processing to review. DSS officials indicated an investigator reviews alerts when time is available, but no documentation is retained to indicate which alerts were reviewed, the outcome of the reviews, or other factors considered when reviewing the alerts. As such, the DSS has no assurance that alerts are being effectively reviewed to detect and eliminate fraud, waste, and abuse.

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

The out-of-state alert is designed to identify recipients who transact exclusively out-of-state for an extended period of time, which can be indicative of a recipient who has moved out-of-state and should no longer be receiving Missouri SNAP benefits. We judgmentally selected 15 (of about 51,000) out-of-state alerts generated by the system for testing. We reviewed transactions, the alerts generated, and the case notes in each recipient's file. For 14 of the 15 alerts tested, it is likely the recipient was not a Missouri resident and should not be receiving Missouri SNAP benefits. Questionable transactions related to these 14 cases totaled \$49,845 as of December 31, 2016.

In one case, a recipient spent \$13,026 using his/her EBT card exclusively outside the state during 2015 and 2016. An alert was generated for this recipient indicating excessive out-of-state usage in July 2016. Case notes indicate the recipient called DSS staff in March 2016 stating he/she was about to move out-of-state. However the case was not closed until July 2017, when an investigation found the recipient was not living in Missouri. Through December 31, 2016, the recipient spent \$4,409 out-of-state after informing the DSS about moving, of which \$3,784 occurred after the alert in July 2016.

In another case, the recipient submitted an out-of-state driver's license to the DSS in July 2015, according to documentation in the case file. However the recipient continued to use his/her EBT card and spent an additional \$4,883 outside the state, including \$2,133 after an alert was triggered. DSS staff reviewed the case in May 2017, the recipient failed to respond to inquiries, and the department closed the case in July 2017.

Not complying with
state law

We found the DSS is not complying with state laws¹⁴ requiring the department to temporarily suspend (pending a department investigation of the recipient's residency status) the account of any recipient who does not make a transaction in-state at least once every 90 days, and send a warning to any recipient who has gone 60 days without making an in-state transaction about possible suspension of benefits. DSS officials indicated this law conflicts with federal regulations, which do not allow for the suspension of benefits to a participant without first following a specified process, including providing the participant notification of the proposed adverse action and an opportunity to provide additional information to prevent or file an appeal to overturn the action. By requiring the temporary suspension of benefits after 90 days of out-of-state activity, versus only requiring an investigation or a redetermination of benefits (including eligibility), the state law conflicts with federal regulations.

¹⁴ Sections 208.024.3 and 208.024.4, RSMo, established during the 2014 legislative session.

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

We contacted program officials with the USDA who confirmed the explanation provided by DSS officials. They also indicated another state had previously established a similar law, but stopped enforcing it when informed it violated federal regulations.

Conclusion

Without effectively reviewing alerts and reports,¹⁵ the DSS is at significant risk that improper transactions that have been detected could continue to occur for a significant period of time, constituting a waste or abuse of program funds.

2.3 Effective use of criteria

The criteria used to create alerts and reports may not be effective in generating targeted investigatory leads to identify fraud, waste, and abuse occurring in the program.

Alert information provided by the system contractor does not include any method to identify the recipient who triggered the alert. Instead, each alert must be manually researched by DSS staff to identify the recipient whose activity triggered the alert. The staff indicated that because of these limitations, which have been a problem since the system's implementation, they cannot determine how many recipients were detected by alerts without manually reviewing each alert, and cannot readily target those individuals who triggered alerts most often or by the largest amount. Further, they indicated if a recipient has been investigated and a valid reason for the suspicious activity determined, they cannot exclude that recipient from the applicable alert, increasing the risk that an additional, unnecessary investigation could be opened. As a result, the DSS is unable to efficiently use investigative resources to identify and pursue potential suspicious activity.

According to DSS management, enhancements to the alert and reporting process have been requested but are included with a long list of other outstanding requests to the contractor.

2.4 Out-of-State alerts

Federal regulations require that a household reside in the state in which it has applied for SNAP benefits.¹⁶ Out-of-state alerts are designed to identify recipients who transact excessively outside the state of Missouri, which could be an indicator the recipient is not a resident. We found recipients spent more than \$16 million using their EBT cards exclusively outside the state for 90 days or longer. Consistent or exclusive purchase patterns outside the state may be indicative of program abuse or misuse. Analytic efforts should focus on identifying SNAP recipients who incorrectly claim to be state residents to take advantage of SNAP benefits.

¹⁵ Alerts and reports are discussed in sections 2.3 through 2.6.

¹⁶ 7 CFR Section 273.3(a)

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

DSS officials indicated there are various reasons why a recipient may be transacting out-of-state for an extended time period and still claim Missouri residency. For example, a recipient may be serving in the military or be caring for ill family members in another state. Additionally, they indicated under "simplified reporting" rules, recipients are not required to inform the state if they move out-of-state until their next scheduled case eligibility redetermination.

The out-of-state alert rules triggered 50,950 of the 51,238 alerts received from the contractor during the period June 14, 2015 through December 31, 2016. Two versions of this rule were in place during the audit period. The first version alerted when a recipient completed 20 or more transactions outside the state (excluding border states) in a single 5-day period. The alert also had a component when a recipient transacted exclusively outside the state for at least 90 consecutive days; however, it was overridden by the 5-day criteria. This alert triggered 2,934 times between June 2015 and August 2016. The second version alerted when a recipient transacted outside the state (including border states) for at least 90 consecutive days without any in-state activity and was triggered 48,016 times between August and December 2016.

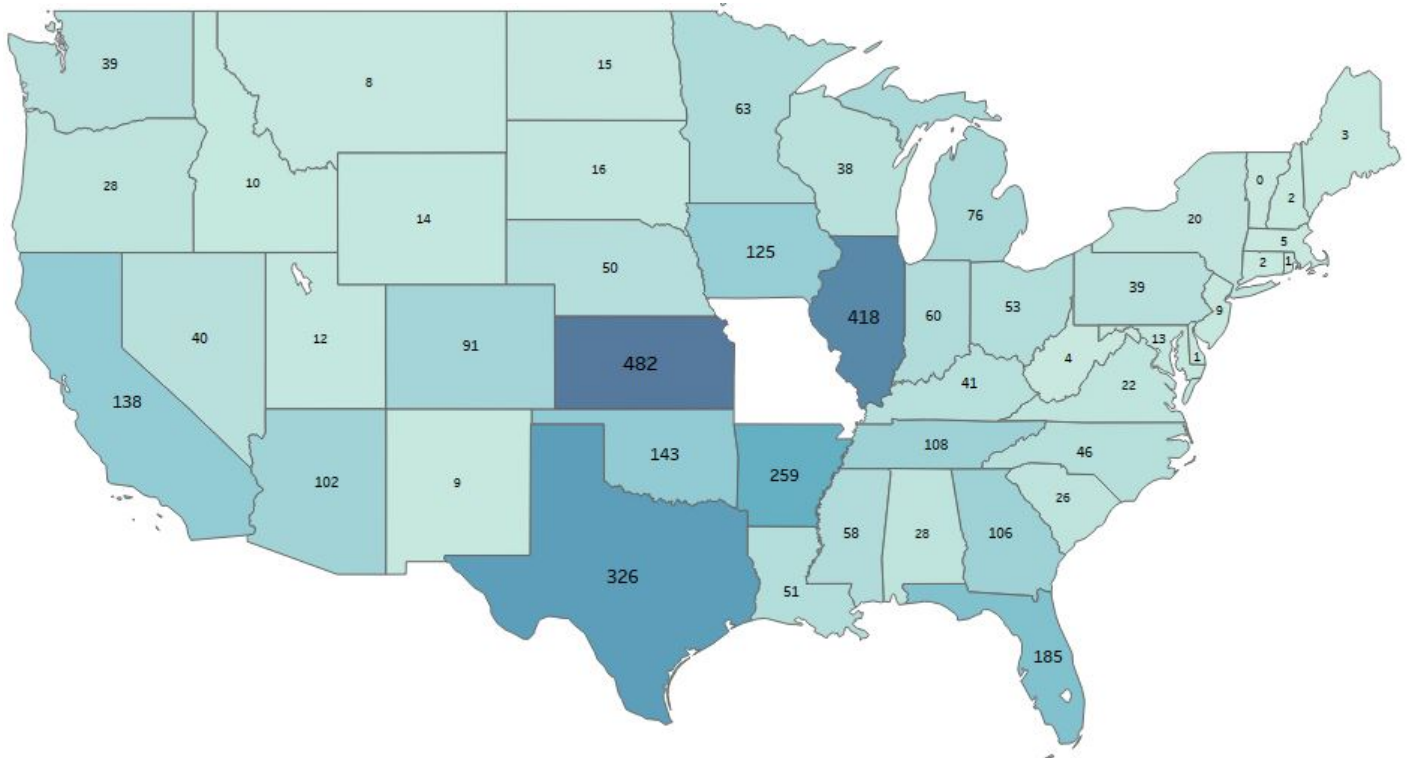

As previously noted, state law requires the DSS to temporarily suspend a recipient's participation in the SNAP program if the recipient spends SNAP benefits exclusively outside the state for a period of 90 consecutive days. We reviewed all recipient transaction records for the audit period and found 12,672 recipients who, at some point during the audit period, transacted exclusively outside the state for a period of more than 90 consecutive days.

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

SNAP recipients in 3,837 cases used their EBT cards exclusively outside the state during the entire 2-year audit period. Figure 9 shows the states where these SNAP recipients exclusively used their cards. (Not shown in Figure 9 are 5 recipients in Alaska, 2 in Hawaii, and 1 in the Virgin Islands.)

Figure 9: States Where SNAP Recipients Made Purchases Exclusively Outside of Missouri

Source: SAO Analysis of SNAP Transaction Data

Of these 3,837 recipient cases, 3,393 recipients used their EBT cards exclusively in one other state outside Missouri. Analysis of this information provides a strong indicator that recipients in these 3,393 cases likely reside in the state they exclusively had transactions in for at least the 2-year period. The other 444 recipients who used their cards exclusively outside of Missouri made purchases in more than one other state, with one recipient transacting in 13 different states over a 13 month period but never in Missouri. That case closed in January 2016.

While federal regulations allow SNAP recipients to use their EBT cards out-of-state, recipients must live within the state in which they apply for benefits. The DSS currently relies on reactive controls, such as returned mail, to identify recipients who have moved out-of-state because the alerts result in too many recipients to evaluate. Using data analytics to detect exclusive purchase patterns outside of Missouri will enable the DSS to proactively identify and investigate potential benefit abuse and misuse.

SNAP Data Analytics Program
Management Advisory Report - State Auditor's Findings

We also identified 39 recipients who spent SNAP benefits exclusively outside the state for 700 or more consecutive days. The longest of these consecutive streaks was 729 days (out-of-state transactions totaling \$617 from January 1, 2015, to December 30, 2016, all in the state of Minnesota). Table 4 shows these 39 recipients, who claim Missouri residency, but used their EBT cards exclusively outside the state for 700 or more days.

Table 4: Activity of recipients out-of-state for 700+ days

Recipient	Days Out-of-State	\$ of Out-of-State Transactions	Count of Out-of-State Transactions
01	729	\$ 617	62

35	701	1,852	65
36	700	2,001	50
37	700	413	35
38	700	3,841	149
39	700	4,179	41
Totals		\$ 146,286	3,736

Source: SAO Analysis of SNAP Transaction Data

Figure 10 shows the number and dollar value of transactions for groupings of out-of-state transactions. We identified more than 170,000 transactions where a single recipient transacted solely out-of-state for a period of 90 to 119 days, spending a total of \$4.6 million in benefits, while the 39 recipients who transacted out-of-state for 700 or more days expended approximately \$146,000 in benefits.

Figure 10: Out-of-State Transaction Series

Source: SAO Analysis of SNAP Transaction Data

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

Federal regulations allow SNAP recipients to use their EBT cards out of state; however, program recipients must live in the state in which they apply for benefits. Intentionally making "a false or misleading statement" or intentionally misrepresenting, concealing, or withholding facts constitutes an Intentional Program Violation (IPV)¹⁷ punishable by increasingly severe suspensions from the SNAP program.¹⁸

To help prevent SNAP abuse and misuse and to target cases to review, the DSS should ensure the effective use of data analytics for identifying cases where SNAP recipients make the majority of their purchases outside the state to ensure recipients are not falsifying their state of residency.

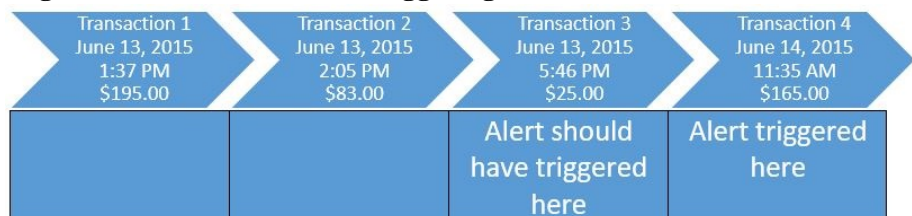

2.5 Even-Dollar alerts

The even-dollar rule triggered 246 of the 51,238 alerts received from the contractor during the period June 14, 2015, through December 31, 2016.

Frequent even-dollar transactions made by a recipient can be considered a warning sign for trafficking of SNAP benefits. An example would be a recipient allowing a merchant to charge his/her SNAP account for \$100 of groceries, but instead of receiving groceries, accepting \$50 cash, with the merchant keeping the remaining \$50. Such activity is considered to be trafficking ("The buying, selling, stealing, or otherwise effecting an exchange of SNAP benefits [...] for cash or consideration other than eligible food") under SNAP regulations.¹⁹

The Missouri alert is designed to trigger when a recipient completes three or more transactions, each for an even-dollar amount, totaling \$200 or more within a 24-hour period. However, audit testing found this alert was not actually being triggered until the 4th transaction occurred. DSS management was not aware this alert was not functioning properly until we discussed this issue with them. Figure 11 provides an example showing the alert did not trigger as designed.

Figure 11: Even-dollar alert triggering late

Source: SAO analysis of SNAP Transaction Data

¹⁷ 7 CFR Section 273.16(c)

¹⁸ 7 CFR Section 273.16(b)(1)

¹⁹ 7 CFR Section 271.2

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

We reviewed SNAP transaction records for the 2-year audit period and determined this alert should have triggered at least 1,267 times. The majority of these appear to be instances where the series of transactions in the 24-hour period ended at three, but failed to be detected because the alert erroneously did not start flagging transactions until the count equaled or exceeded 4 in a 24-hour period.

Because the alert was not working as designed, the DSS was alerted to only approximately one-fifth of the transactions that met the criteria, and therefore, may have failed to identify a significant amount of inappropriate activity. The DSS could potentially improve the detection of SNAP abuse or misuse by ensuring the alert criteria for even-dollar transactions operates correctly and by prioritizing suspicious transactions to investigate.

2.6 Successive transactions

The DSS needs to more effectively identify potentially high risk SNAP recipients that use their EBT cards multiple times in short periods of time. A real-time alert to detect successive transactions has not been established. While the DSS receives a report showing suspicious successive activities, the DSS could not provide any documentation to show the report is actually reviewed and acted upon. Additionally, this report is the same report referenced in section 2.1,²⁰ which is not always accurate due to design flaws.

For our data analytic purposes, we defined successive transactions as multiple transactions within a 5-minute period. Our research indicates this type of transaction activity could be indicative of recipients trying to manipulate spending patterns and could be used in an attempt to conceal inappropriate transactions. For example, a recipient makes a legitimate purchase and then completes a second transaction for the purpose of illegitimately obtaining cash. Successive transactions could also indicate a recipient purchasing merchandise on behalf of a second party. This type of activity is also against program regulations, which state "Program benefits may be used only by the household, or other persons the household selects, to purchase eligible food for the household."²¹

²⁰ The Multiple Withdrawals Same Day report is intended to identify households with an abnormally high number of withdrawals at a particular store on a given day.

²¹ 7 CFR Section 274.7(a)

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

We analyzed SNAP transaction data from 2015 and 2016 and found approximately 2.1 million successive transactions completed by approximately 466,000 recipients occurring within 5 minutes, as defined by the sequence rules indicated in Table 5.

Table 5: Successive Transactions

Transactions in Sequence	Number of Cases	Number of Recipients
2	2,047,086	404,154
3	75,113	54,246
4	6,815	5,889
5	1,523	1,345
6 - 10	945	868
11 - 20	75	70
21 +	8	8
Total	<u>2,131,565</u>	<u>466,580</u>

Source: SAO Analysis of SNAP Transaction Data

Without sufficiently identifying high risk SNAP recipients that use their EBT cards multiple times in short time periods, the DSS does not have the information needed to detect trends that may be an indication of potential benefits abuse. To help prevent SNAP abuse and misuse, the DSS should use data analytics to detect successive transactions that may be indicative of abuse and use this analysis, in conjunction with other risks, when prioritizing cases to investigate.

Conclusion

We identified certain areas where the DSS needs to strengthen efforts in the processes for proactively identifying, reviewing, and prioritizing potential SNAP abuse and misuse. The current processes do not always detect SNAP transactions or recipient benefit usage patterns that may be indicative of program abuse or misuse. As a result, potentially ineligible recipients continue receiving benefits.

Using accurately configured and more user-friendly data analytics and other advanced analysis techniques should help the DSS to more effectively identify potential SNAP abuse or misuse. Focusing data analytic efforts on specific purchase patterns and behavior trends indicative of a higher likelihood of program abuse or misuse, allows decision-makers to more effectively allocate scarce investigative resources in a timely fashion.

Data analytics can provide high rates of return, offering potential for significant return on investment of resources needed to establish and maintain such a program. To facilitate improvements, DSS officials should inventory their current resources, including analytic technology, techniques, data, and

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

staff, and look for opportunities to leverage existing capabilities and to develop new methodologies.

The SNAP program cannot effectively achieve its goal of assisting eligible recipients without maintaining strong program integrity. An increased emphasis on the data analytics program will help demonstrate management's commitment to program integrity and will also help ensure that SNAP benefits are used by eligible individuals for intended purposes.

Recommendations

The DSS:

- 2.1 Ensure transaction data is captured and accurately reflected in the alert reports.
- 2.2 Strengthen data analytic processes to help ensure high-risk transactions and recipient behavior are identified and reviewed. Additionally, work with the General Assembly to revise Section 208.024, RSMo, to accomplish the intent of the law while complying with federal regulations.
- 2.3 Strengthen data analytic processes by providing a more user friendly structure for reviewing and prioritizing cases for investigation and establish a process to ensure that alerts are being effectively reviewed to detect SNAP abuse and misuse.
- 2.4 Investigate cases identified as making purchases exclusively outside the state to determine if the recipients remain eligible for benefits. The DSS should also strengthen data analytic processes to more effectively identify and review recipients who spend the majority of their SNAP benefits exclusively outside the state to ensure appropriate use of SNAP benefits.
- 2.5 Strengthen data analytic processes to ensure even-dollar alert criteria functions as intended.
- 2.6 Strengthen data analytic processes to more effectively identify and review recipients who use their EBT cards multiple times in short periods of time.

Auditee's Response

2.1, 2.3,
2.5, &

2.6 *The DSS continues to review processes and institute appropriate program improvements. The DSS has recently developed in-house data analytic queries and processes designed to capture EBT transaction patterns indicative of retailer trafficking.*

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

2.2 *The DSS continues to review processes and institute appropriate program improvements. The DSS has recently developed in-house data analytic queries and processes designed to capture EBT transaction patterns indicative of retailer trafficking.*

In addition, DSS will work to propose a statutory revision that will comply with federal regulations.

2.4 *The DSS continues to review processes and institute appropriate program improvements. The DSS will implement a process for identifying and taking action on cases with exclusive usage out of state by sending the recipient a request for contact and will take action to either close or verify the recipient is still residing within the state of Missouri. FNS guidance states frequent use of benefits out of state would be a reason to request additional information about the household's residency via a Request for Contact (RFC). If the household does not respond to the RFC or responds but refuses to provide sufficient information to clarify its circumstances the State agency must issue a notice of adverse action as described in 273.12(c)(3)(i)(B). If the household responds to the RFC with sufficient information the State agency must act on the changes in accordance with 273.12(c)(1) and 273.12(c)(2). The state may not suspend or terminate benefits due to out of state transactions without following this procedure.*

3. Data Matches

The DSS needs to more effectively utilize data matches to identify potentially improper benefits issued to recipients. Due to weaknesses in data match procedures, households involving recipients who had died or were incarcerated continued to receive and spend SNAP benefits. Using data matches and subsequent analysis, we identified at least \$29,987 in SNAP benefits used by potentially unauthorized individuals. Additionally, the DSS is not in full compliance with federal regulations requiring data matches.

Data matching is the process of matching information about applicants and recipients against various data sources. Data matching can be used to determine initial and continued eligibility for SNAP benefits.

As discussed in the report's background section, recipients are authorized to receive SNAP benefits based on income and resource guidelines. After eligibility is established, recipients are certified to receive SNAP for periods ranging from 1 to 24 months depending on household circumstances and other policy options. At initial eligibility determination and generally monthly thereafter, the system loads authorized benefits to recipients' EBT cards. However, there is generally a delay ranging from several days up to a month between when the benefits are authorized to the time the benefits are actually available for use.

SNAP Data Analytics Program
Management Advisory Report - State Auditor's Findings

Death matches

DSS officials need to increase efforts to suspend benefits issued to recipients who have died.

We compared records of recipients receiving SNAP benefits to records of death certificates filed with the Missouri Department of Health and Senior Services (DHSS). We found 3,668 cases where a recipient's SNAP benefits were used 30 or more days after the recipient's date of death recorded on the DHSS records.²² We judgmentally selected 30 of these cases for a detailed review and identified \$7,403 of potentially improper transactions related to 9 cases as shown in Table 6 below.

Table 6: Transactions after date of death

Recipient	Date of Death	Date of Last Transaction During Audit Period ¹	Amount of Transactions After Death
01	April 13, 2015	October 20, 2016	\$ 262
02	July 31, 2014	January 22, 2016	366
03	October 1, 2016	December 21, 2016	193
04	June 10, 2016	December 30, 2016	2,448
05	February 7, 2016	May 7, 2016	1,310
06	August 18, 2016	October 6, 2016	745
07	November 1, 2014	May 7, 2016	388
08	December 10, 2011	August 25, 2015	203
09	February 15, 2016	August 31, 2016	<u>1,488</u>
	Total		\$ <u>7,403</u>

Source: SAO Analysis of SNAP Transaction Data

¹ According to the vendor's system, transactions for some of these clients continued into 2017.

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

Figure 12 shows an example case where recipient benefits were used after the date of death. The recipient died on April 13, 2015, and the death was reported to the DSS on May 1, 2015. The case received two additional benefit authorizations for \$131 each, effective on April 25 and May 25. The April authorization was spent between June 28, 2015, and August 9, 2015, and the May authorization was spent between August 9, 2015, and October 13, 2015, except for the final \$23.37 which was not spent until October 20, 2016. If the DSS had canceled the authorizations effective on April 25 and May 25 after being notified of the death on May 1 and prior to the authorizations first being used on June 28, the DSS could have prevented the expenditure of \$262 in benefits.

Figure 12: Example of SNAP case with benefit authorization and usage (purchases) after date of death

Source: SAO Analysis of SNAP transaction data

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

Table 7 shows a second example of a recipient whose case continued to receive SNAP authorizations and use benefits after the date of death. In this case, although the recipient died June 10, 2016, the DSS did not learn of the death until November 1. During that period, monthly benefits in the amount of \$511 were made available to the recipient's case on the 22nd day of June, July, August, September, October, and November. The first transaction against any of these 6 authorizations did not occur until October 29, two days before the DSS became aware of the death. Table 7 shows the transaction dates and number of transactions for each month's authorization. As of December 31, 2016, the recipient's EBT card still held \$107 of the October authorization and the entire \$511 November authorization. Activity on this card continued through February 2017, when benefits of less than \$1 remained available. As of January 2018, the card still remained active.

Table 7: Example of SNAP case with transactions after death

Date	Event	Transaction Dates	Number of Transactions	Dollar Value of Transactions
June 10, 2016	Recipient's Death			
June 22, 2016	June Authorization	October 29 - November 15	21	\$ 511
July 22, 2016	July Authorization	November 15 - November 30	17	511
August 22, 2016	August Authorization	November 30 - December 7	5	511
September 22, 2016	September Authorization	December 7 - December 19	13	511
October 22, 2016	October Authorization	December 19 - December 30	13	404 ¹
November 1, 2016	DSS Learns of Death			
November 22, 2016	November Authorization		0	\$ 0 ²

Source: SAO Analysis of SNAP transaction data

¹ \$107 of the authorization remained available on the EBT card as of December 31, 2016.

² \$511 of the authorization remained available on the EBT card as of December 31, 2016.

For the other 21 cases tested, information in the system generally supported that household members likely used the benefits after the recipient's death until the death was recorded in state systems or until a recertification was necessary. Upon closing a case due to a recipient's death, new cases were generally opened for the remaining household members. As a result, current processes functioned properly in many cases. The authorization of benefits after the date of death cannot be readily prevented until a death certificate is filed, which can be some time after death. However, improper use of benefits can be reduced by immediately expunging benefits added to an EBT card or by performing a case redetermination when notification is received of a recipient's death.

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

The DSS received a waiver in November 2016, from the USDA allowing the department to expunge benefits belonging to a deceased, single member household when the death is verified. Current program regulations do not require benefits to be expunged until after 365 days of inactivity.²³ As of April 2018, the functionality to expunge benefits has not been implemented in the system by the contractor because the contract amendment is still being drafted.

Incarceration matches

The DSS is not performing effective incarceration matches, or the results are not being used effectively, to identify persons ineligible to receive SNAP benefits. DSS officials could not provide us documentation to support the procedures for incarceration matches, including the data source or how often such matches are performed.

We compared records of recipients receiving SNAP benefits to records of individuals in custody of the Missouri Department of Corrections (DOC). We found 62 individuals who received SNAP benefits but were incarcerated during the entire January 2015 to December 2016 period. An additional 2,358 SNAP recipients, who were incarcerated during some portion of the audit period, were also identified.

EBT cards issued to the 62 individuals incarcerated during the entire audit period were used to make over \$50,000 in purchases from January 2015 to December 2016. We judgmentally selected 9 of these cases for a detailed review. As shown in Table 8, we identified \$22,584 of potentially improper transactions related to 8 cases. According to DSS officials, investigations had not been opened for any of these 8 cases.

Table 8: Benefits used while incarcerated

Case	Date of Incarceration	Amount of Transactions During 2015-2016
1	April 20, 2011	\$ 1,744
2	November 4, 2014	3,855
3	December 23, 2014	970
4	November 18, 2014	7,334
5	June 4, 2014	2,713
6	September 3, 2014	2,825

	Total	\$ <u>22,584</u>

Source: SAO Analysis of SNAP Transaction Data

²³ 7 CFR Section 274.2(h)

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

Case 4 in Table 8 pertains to a recipient incarcerated beginning in November 2014. SNAP records indicate this recipient's case continued to receive benefits of \$357 each month from February 2015 through October 2016, at which time the monthly benefit was reduced to \$194 before being canceled entirely prior to the November 2016 authorization. Notes in the case file explain the reduction in benefits was due to a child in the household reaching 18 years of age and thus becoming ineligible for benefits. Benefits of \$7,334 were used by the recipient's case during the period February 2015 through October 2016. At the time of our review in November 2017, the EBT card was still active and also showed available benefits from another assistance program, which had not been used in more than one year. The DSS official assisting us in evaluating these cases immediately disabled the card due to inactivity, preventing those benefits from being used.

Our review of DSS case notes provided sufficient information that when combined with the incarceration match data, warrants questioning whether a recipient was eligible for benefits or whether benefits should have been stopped or reduced. For example, we found a case where the recipient was incarcerated at the time he/she applied for benefits and a case where the recipient completed a recertification interview by phone with a DSS caseworker while incarcerated. Also noted was an instance where a complainant notified the DSS in August 2014 that the card of an incarcerated recipient had been reported stolen by an acquaintance of the recipient (presumably to obtain a replacement card), yet the DSS continued to issue benefits for the period November 2014 (issued retroactively in January 2015) through March 2016. In this instance, \$2,836 of potentially improper transactions occurred while the recipient was incarcerated.

Federal match requirements

While the DSS is performing data matches, the department is not in compliance with federal regulations requiring agencies to match records with the Death Master File maintained by the SSA.²⁴ For death matches, DSS officials indicated department staff match benefit recipients to a database maintained by the Missouri DHSS, Bureau of Vital Statistics. DSS officials said they thought the DHSS and SSA databases contained the same records. However, the DHSS database only contains records of Missouri death certificates, so death records for any recipient who dies outside the state would not be included.

DSS officials indicated the department is in compliance with federal regulations requiring agencies to match records with the SSA Prisoner Verification System.²⁵ This regulation requires the DSS to establish a system to prevent persons incarcerated for longer than 30 days from receiving

²⁴ 7 CFR Section 272.14(b)

²⁵ 7 CFR Section 272.13

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

benefits. This match is supposed to occur at the initial application for benefits and again at each recertification, typically every 6 months. DSS officials indicated they perform these matches, but noted the match information is not always accurate so they may need to contact the DOC to verify if the individual is still incarcerated. However, as noted above, recipients applied for and received benefits and completed recertification interviews while incarcerated without detection.

Additional state law

During the 2016 legislative session, the General Assembly established Section 208.065, RSMo, which requires the DSS to establish a contract with a vendor to provide verification of initial and ongoing eligibility data for SNAP benefits and other assistance programs under the DSS. This statute, which requires a contract be in place no later than January 1, 2017, states the vendor shall perform data matches to verify eligibility data. Income, resources, and assets of each applicant and recipient shall be evaluated at least quarterly. On a monthly basis, any SNAP participants who have died, moved out-of-state, or have been incarcerated longer than 90 days shall be identified. Upon completing the data matches and verifications, the contractor is to notify the DSS. DSS personnel are then required to make an eligibility determination within 20 business days.

As of January 2018, a contract for these data matches has not been established. The state's Office of Administration, on behalf of the DSS, issued a request for proposal in January 2016, but determined the only vendor price proposal was too high and should be rebid. A contract was initially awarded in December 2016, but was canceled after a losing bidder challenged the bidding process. According to a DSS official, a request for proposal was issued in December 2017 with vendor responses due in May 2018.

Conclusion

Audit results indicate data matches performed by the DSS could be more effective at detecting deceased or incarcerated recipients timely. Establishing processes for more timely data matches would help the DSS stop benefit authorizations to recipients who are no longer eligible. Without effective controls to detect benefits issued to deceased or incarcerated recipients, the DSS is at increased risk of allowing ineligible persons to receive benefits resulting in abuse and misuse of the SNAP.

Recommendation

The DSS should strengthen efforts for effectively utilizing data matches to prevent fraud, waste, and abuse of SNAP benefits. In addition, the DSS should establish procedures to comply with federal regulations requiring the use of the SSA Death Master File to identify deceased individuals.

Auditee's Response

The DSS will develop and implement a process to receive the SSA Death Master File and use it to identify deceased individuals. When a match with an active SNAP participant is determined, the DSS will send the recipient a request for contact to give the opportunity to respond to the match prior to

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

an adverse action to deny, reduce or terminate benefits as required in 7 CFR 272.14(b). The DSS will have to ensure that the SSA computer matching agreement allows for this and if it does not, the agreement will have to be amended, as required by 42 U.S.C 405(r)(3).

The DSS completes an incarceration report quarterly. When a match occurs, a letter is sent to DOC for confirmation, and then returned to the county office where the information is processed. On a daily basis for new applicants or re-certifications, a request is submitted on IIVE (SSA) with a real time interface that alerts the DSS if the individual is showing as incarcerated. Because the information on active recipients is only quarterly the DSS is unable to close/remove a person retroactively. When someone is identified in this process a claim is filed. The DSS policies and processes are in compliance with FNS rules and regulations. The DSS continues to review processes and institute appropriate program improvements.

4. Vendor Contract

The DSS has not ensured services obtained from a key contract provide sufficient benefits to justify the amount paid for the services.

The DSS entered into a contract with a third-party provider in June 2011 to administer the SNAP program for the state. The vendor's responsibilities include producing and distributing EBT cards, processing (adding) benefit authorizations to the cards, reimbursing retailers for benefits redeemed upon completion of transactions, and providing related support.

During the 2013 legislative session, the General Assembly passed Senate Bill 251 establishing Section 208.024, RSMo. This section specifies that SNAP benefits cannot be used in certain prohibited stores (including, for example, liquor stores, casinos, or gaming establishments) or in any place for the purchase of alcoholic beverages, lottery tickets, or tobacco products or for any item the DSS determines is not in the best interests of the household. To implement the statute requirements, the DSS amended its contract with the vendor to add an additional system that allows prohibited purchases to be blocked.

In addition to blocking purchases at certain locations, the system allowed the DSS to add functionality capable of notifying DSS investigators of potentially suspicious benefit usage activity. Each time a specific activity pattern is detected, the system generates an "alert" that is sent to DSS investigators for determination if the activity might indicate SNAP abuse or fraud, requiring additional investigation.

According to the January 2014 contract amendment adding this additional functionality, the DSS pays the contractor \$0.001 (one-tenth of one cent) per transaction processed in the system, plus an additional charge ranging from \$1.00 to \$5.00 per "alert" generated (varies based on the criteria the alert

SNAP Data Analytics Program Management Advisory Report - State Auditor's Findings

triggered on). The DSS also agreed to a minimum charge, regardless of actual activity, of \$10,000 each month for these services. The state averages approximately 4.5 million SNAP transactions, or \$4,500, per month in per-transaction fees against this \$10,000 minimum payment. The remaining \$5,500 is available to pay the per-alert charges or other associated costs of the contract amendment.

DSS officials could not quantify or provide support indicating what benefits the DSS receives for the contracted services. They did not provide documentation reflecting the actual amount of services received, including the number of monthly transactions assessed the per-transaction charge or the number and dollar value of the per-alert charges. According to a DSS official, the contractor invoices the DSS \$10,000 a month for the contracted services but the official could not provide any documentation to support benefits or services received. DSS staff indicated the contractor has never billed the DSS an amount greater than \$10,000. As a result, the DSS has not used the full allotment of services for which it is paying. The contract, as amended, was renewed in its entirety without changes to this service in May 2016 and June 2017.

Without actively monitoring the contract terms to verify usage and benefits received, the DSS is at risk of contracting for more services than needed and not using taxpayer dollars in an effective manner.

Recommendation

The DSS should formally evaluate the contract terms for system services to ensure the costs are appropriate for the benefits received.

Auditee's Response

The DSS is in the process of developing an RFP to be issued in 2020 that will include data improvements. The DSS continues to review processes and institute appropriate program improvements.

Village of Centertown

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Village of Centertown

Accounting Controls and Procedures	The former Village/Waterworks Clerk did not perform bank reconciliations for any of the village's 6 bank accounts for the year ended May 31, 2017. The Board of Trustees could not provide a budget for the year ended May 31, 2017, and there was no documentation to indicate the Board had approved a budget. The village did not publish financial statements as required until the semiannual financial statement for the 6 months ended November 30, 2017, was published in the December 6, 2017, newspaper. The former clerk did not maintain a capital asset list or perform a periodic inventory of capital assets. The current clerk does not restrictively endorse checks or money orders until a deposit is prepared.
Payroll Controls and Procedures	The village did not ensure payroll records were accurate. The village did not have an ordinance indicating the pay rate for the former clerk.
Utilities	The village does not periodically reconcile customer refundable water security deposit balances reported in the utility system to the security deposit bank account. Penalties were incorrectly assessed twice during one month for 3 of the 60 delinquent water accounts tested.
Sunshine Law Compliance	The former clerk did not prepare minutes for all Board meetings. The village's closed meeting procedures did not always comply with the Sunshine Law.
Data Backup	Data backups are not stored at an offsite location, and village officials do not periodically test backup data.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Chairman
and
Members of the Board of Trustees
Village of Centertown, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Village of Centertown. We have audited certain operations of the village in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended May 31, 2017. The objectives of our audit were to:

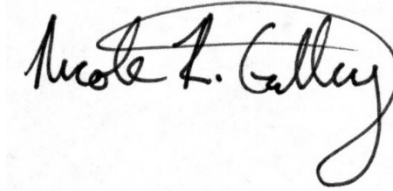

1. Evaluate the village's internal controls over significant management and financial functions.
2. Evaluate the village's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the village, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the village's management and was not subjected to the procedures applied in our audit of the village.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Village of Centertown.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Lori Melton, M.Acct., CPA
In-Charge Auditor:	Michelle Pummill, CFE
Audit Staff:	Hunter O'Donnell, M.Acct.

Village of Centertown

Management Advisory Report

State Auditor's Findings

1. Accounting Controls and Procedures

Numerous weaknesses exist with the village's accounting controls and procedures. During the year ended May 31, 2017, village receipts totaled \$136,478 for all funds.

1.1 Bank reconciliations

The former Village/Waterworks Clerk (clerk) did not perform bank reconciliations for any of the village's 6 bank accounts for the year ended May 31, 2017. The current clerk began performing bank reconciliations for the August 2017 bank statements.

Monthly bank reconciliations help ensure bank and book balances are in agreement and errors are detected and corrected timely.

1.2 Budgets

The Board of Trustees could not provide a budget for the year ended May 31, 2017, and there was no documentation to indicate the Board had approved a budget. However, there is an approved budget for the year ended May 31, 2018.

Section 67.010, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and outlines the various information be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of village operations. It also assists in setting the tax levy, utility rates, and informing the public about village operations and current finances. Once the village prepares an adequate budget annually, ongoing monitoring of budget-to-actual receipts and disbursements is necessary for the budget to be an effective management tool.

1.3 Published financial statements

The village did not publish financial statements as required until the semi-annual financial statement for the 6 months ended November 30, 2017, was published in the December 6, 2017, newspaper. The village now publishes the financial statements in local newspapers semiannually. Without publishing the financial statements, information regarding the village's financial activity and condition was not available to citizens.

Section 80.210, RSMo, requires the Board prepare and publish semiannual financial statements in a local newspaper, or if no local newspaper, to post semiannual financial statements in at least six of the most public places in the village.

1.4 Capital assets

The former clerk did not maintain a capital asset list or perform a periodic inventory of capital assets. The current clerk began creating a capital asset list in May 2017; however, this list does not include all necessary information for each item, such as the original cost or value of the item.

Village of Centertown
Management Advisory Report - State Auditor's Findings

Adequate property records and performance of annual physical inventories are necessary to secure better internal control over village property and provide a basis for determining proper insurance coverage.

1.5 Restrictive endorsement The current clerk does not restrictively endorse checks or money orders until a deposit is prepared. All 23 checks received totaling \$1,182, counted during a cash count on February 1, 2018, had not been restrictively endorsed.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, checks and money orders should be restrictively endorsed immediately upon receipt.

Recommendations

The Board of Trustees:

- 1.1 Ensure monthly bank reconciliations continue to be prepared for all bank accounts.
- 1.2 Prepare annual budgets that contain all information required by state law and ensure the Board's approval of the budgets are documented in the Board minutes.
- 1.3 Publish semiannual financial statements as required by state law.
- 1.4 Maintain an inventory list and indicate all applicable information, conduct a physical inventory count on a periodic basis, and reconcile the inventory on hand to the inventory records.
- 1.5 Restrictively endorse checks and money orders immediately upon receipt.

Auditee's Response

- 1.1 *As noted in your report, the current clerk started providing the Board bank reconciliations in August 2017. These reconciliations are also provided to the public in attendance at Board meetings and are posted to the village's website.*
- 1.2 *As noted in your report, the Board approved a budget for the year ended May 31, 2018. This budget was reviewed and adjusted in November 2017. The budget for the year ending May 31, 2019, was approved on April 24, 2018. Ordinance 169, Village Budget, and Ordinance 170, Waterworks Budget, were published and have been posted to the village's website.*
- 1.3 *The Board will continue to publish semiannual financial statements in the Jefferson City News Tribune and the California Democrat. Statements will also be posted to Centertown's post office, the village hall's bulletin board and the village's website. The next semiannual*

Village of Centertown
Management Advisory Report - State Auditor's Findings

financial statement will be published no later than June 10, 2018, for the period December 1, 2017, through May 31, 2018.

- 1.4 *The capital asset list created by the current clerk will be updated for the missing information, such as current values of items, at the next annual inventory, to take place within the next month.*
- 1.5 *The current clerk endorses checks and money orders "For Deposit Only" immediately upon receipt since February 1, 2018, following recommendation from the auditor during the cash count.*

2. Payroll Controls and Procedures

Improvement over payroll controls and procedures is needed. The village paid payroll expenses of approximately \$40,000 for the year ended May 31, 2017.

2.1 Time records

The village did not ensure payroll records were accurate. During our review of 8 payroll records, we noted the following problems.

- The village did not maintain a timesheet or other documentation for hours worked for 2 records tested.
- Timesheets or other documentation for hours worked were not signed by the individual being paid for 3 records tested.
- One paycheck was approved by the former clerk and a Board member instead of the required 2 Board members.

To adequately account for all payroll expenses and ensure the accuracy of hours worked, village employees should prepare and sign timesheets, and timesheets should contain documented supervisory or independent reviews and be approved by the Board. In addition, the Fair Labor Standards Act requires records of actual time worked by employees be maintained.

2.2 Rate of pay

The village did not have an ordinance indicating the pay rate for the former clerk. The former clerk was paid \$5 more per hour than the \$15 pay rate approved in ordinances for other clerks. The former clerk was paid \$17,430 during the year ended May 31, 2017. This amount was \$4,357.50 more than what other clerks would have been paid.

To ensure amounts paid to employees are accurate, the employee's authorized pay rate, and any subsequent changes, should be documented and approved by the Board. Without documentation of approved pay rates, there is less assurance payments to employees are properly authorized.

Village of Centertown
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Trustees:

- 2.1 Maintain documentation for time worked that is prepared and signed by employees and reviewed and approved by the Board.
- 2.2 Ensure employees are paid at an approved rate.

Auditee's Response

- 2.1 *Since May 2017, 3 of the 4 village employees prepare their own timesheets for Board review prior to issuance of payroll checks. The fourth employee's timesheet is prepared by his supervisor. Following a recommendation from the auditor during payroll review, this employee is also signing his timesheet since March 2018.*
- 2.2 *During the January 30, 2018, Board meeting, a pay scale was approved for all employees.*

3. Utilities

Accounting for water customer deposits and penalty assessments need improvement.

3.1 Water deposits

The village does not periodically reconcile customer refundable water security deposit balances reported in the utility system to the security deposit bank account. New customers are required to pay a \$100 refundable security deposit before receiving water service. The current clerk has tried to identify the water security deposits in the bank account, but these deposits are not included in the utility system for all customers. While reviewing the report of security deposits, she has noted balances for individuals who are no longer customers and is taking steps to refund money owed. She created a report of customer security water deposits totaling \$5,875 held as of January 31, 2018. The report included \$5,425 for active accounts and \$450 for inactive accounts. The report could not be reconciled to the security deposit book balance of \$12,674 at January 31, 2018, indicating an unidentified amount of \$6,799 in the security deposit bank account.

Refundable water security deposit monies are restricted funds held for customers. The Board should review water customer security deposit records to ensure all customer security deposits are accounted for properly. In addition, the clerk should maintain an accurate listing of all water security deposits held and reconcile the list monthly to monies held in the security deposit bank account.

3.2 Water account penalties

Penalties were incorrectly assessed twice during one month for 3 of the 60 delinquent water accounts tested.

Village policy as printed on each customer's monthly statement requires a 10 percent penalty be added to delinquent accounts.

Village of Centertown
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Trustees:

- 3.1 Ensure an accurate list of water security deposits is prepared and reconciled to monies in the security deposit bank account. Any discrepancies should be investigated and resolved.
- 3.2 Assess penalties on delinquent water accounts in accordance with village policy.

Auditee's Response

- 3.1 *We agree with the recommendation and are evaluating how to properly address the issue.*
- 3.2 *During the audit process it was discovered that the penalty assessed on October 17, 2016, was doubled. This affected 26 customers. The current clerk will provide a letter of explanation to each customer as well as a credit toward their June bill. We will add an additional review step during the billing phase to ensure any further duplication is corrected prior to customers receiving their bill.*

4. Sunshine Law Compliance

The village did not always ensure compliance with the Sunshine Law.

4.1 Meeting minutes

The former clerk did not prepare minutes for all Board meetings. Minutes were not prepared for meetings on September 6, 2016, October 11, 2016, January 10, 2017, March 28, 2017, and April 25, 2017. The current clerk has prepared minutes for all meetings since she was hired in May 2017.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions. Meeting minutes should include the date, time, place, members present, members absent, and a record of votes taken.

4.2 Closed meetings

The village's closed meeting procedures did not always comply with the Sunshine Law. The Board went into a closed session 5 times during the year ended May 31, 2017. We noted the following problems with closed Board meetings and minutes.

- The open meeting agenda for a May 2017 meeting did not indicate the Board would be going into a closed meeting.
- We identified discussions in 3 closed meetings that are not allowed by law. The closed meeting minutes indicated discussions occurred regarding position descriptions, election of the chairman and pro-tem, the sewer system, the water tower, bank signature card changes, insurance services, road work to be completed, the need for a village clerk, notes to be added to the water bill, and the resignation letters of Board members.

Village of Centertown
Management Advisory Report - State Auditor's Findings

Section 610.020.2, RSMo, requires posting notice of meetings at least 24 hours prior to the meeting. Section 610.022, RSMo, indicates the notice shall indicate the potential for a closed meeting and limits discussions in closed meetings to only those reasons referenced by a specific section of law permitting closure in the vote to close the meeting.

Recommendations

The Board of Trustees:

- 4.1 Maintain complete and accurate minutes for all meetings.
- 4.2 Ensure notices for all meetings are posted and topics discussed in closed meetings are allowed by law.

Auditee's Response

- 4.1 *As noted in your report, the current clerk has been preparing minutes for all meetings since she was hired in May 2017. The minutes are also posted to the village's website as well as the village hall's bulletin board.*
- 4.2 *Meeting notices are posted at village hall, Centertown's post office, and 4 local businesses at least 24 hours prior to all meetings. Notices are also posted to the village's website. We will ensure agendas include the potential reason for going into closed session and the discussions during the closed meetings stay on the approved topics. Board members are highly encouraged to attend training on the Missouri Sunshine Law by the Missouri Municipal League and Missouri Rural Water Association to alleviate any further issues.*

5. Data Backups

Data backups are not stored at an offsite location. In addition, village officials do not periodically test backup data. Failure to store backup data at a secure offsite location results in the data being susceptible to the same damage as the data on the computer.

To help prevent loss of information and ensure essential information and computer systems can be recovered, backups should be stored at a secure offsite location and tested on a periodic basis.

Recommendation

The Board of Trustees ensure data backups are stored in a secure offsite location and tested on a regular, predefined basis.

Auditee's Response

The current clerk is maintaining data backups onsite; however, it was recommended during the audit to maintain a second set offsite. On January 12, 2018, a second set was created and stored in the current clerk's home safe. On March 5, 2018, the village acquired a safety deposit box and is storing the second data backup disc at the bank. Backups are created quarterly. The current backup was tested on May 9, 2018. Future backups will be tested prior to storage.

Village of Centertown

Organization and Statistical Information

The Village of Centertown is located in Cole County. The village was incorporated in 1901. The village employed 4 part-time employees on May 31, 2017.

Village operations include water utilities and street maintenance.

Chairman and Board of Trustees

The village government consists of a five-member board of trustees. The members are elected for 2-year terms. The chairman, who is a member of the board, is elected for a 1-year term and presides over the board of trustees. The Board of Trustees at May 31, 2017, are identified below. The Board of Trustees are paid \$10 per hour.

Lucas Welch, Chairman¹
Jesse Corona
John Doyle
Heather Hunger¹
Celine Whitaker¹

¹ Lucas Welch, Heather Hunger, and Celine Whitaker took office on May 2, 2017, replacing Susan Gilliam, Nelda Hutinger, and Darron Jones.

Financial Activity

A summary of the village's financial activity for the year ended May 31, 2017, follows:

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 49 political subdivisions required to file a financial report by April 30, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in April 2018, after their filing deadline. The filing status for these 12 entities is presented in summary on page 3 and by individual entity in Appendix B-F.

Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

April 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 49 political subdivisions, other than cities, towns, and villages, with a fiscal year end of October 31, 2017. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 49 political subdivisions, 36 filed an annual financial report by April 30, 2018.

This report also includes the filing status for 12 political subdivisions, other than cities, towns, and villages, that filed their financial report in April 2018, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the cities required to file a financial report by April 30, 2018, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 14 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for cities, towns, and villages that filed at least one of the items (financial report, addendum, or certification) in April 2018, after their filing deadline. The filing status for these 37 cities, 1 town, and 3 villages is presented in summary on pages 3-4 and by individual entity in Appendixes B to E.

Monthly Report on Municipal Court and Revenue Filings

April 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 14 cities with a fiscal year end of October 31, 2017, whose financial report was due by April 30, 2018. Of these entities, 10 filed their financial report timely. There were 9 entities required to file an addendum, of which 6 were filed. There were 8 entities required to file a certification, of which 7 were filed.

This report includes the filing status for 37 cities, 1 town, and 3 villages that filed at least one of the items (financial report, addendum, or certification) in

Monthly Report on Municipal Court and Revenue Filings
April 2018
Executive Summary

April 2018, after their filing deadline. Of these entities, 12 filed an annual financial report, 11 filed an addendum, 28 filed a certification for the full fiscal year, and 1 filed a certification for only a partial fiscal year.

Thirty-Seventh Judicial Circuit
City of Winona
Municipal Division

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Thirty-Seventh Judicial Circuit - City of Winona Municipal Division

Accounting Controls and Procedures	The municipal division has not adequately segregated accounting and record-keeping duties, and neither the Municipal Judge nor city personnel performed supervisory or independent reviews of accounting and bank records. The municipal division does not have adequate receipting, recording, and depositing procedures in place. The police department has not established adequate transmitting procedures. The city and municipal division's procedures regarding bank reconciliations and liabilities need improvement. Police department personnel issue generic unnumbered bond forms, do not maintain a log of bonds received, and do not always issue prenumbered receipt slips for bonds received. The municipal division and the city have little assurance that certain court surcharges were properly used in compliance with state law. The Court Clerk does not periodically review accrued costs owed to the municipal division. The municipal division change fund is not maintained at a constant amount.
Municipal Division Procedures	The Municipal Judge does not always approve the final disposition of cases brought before the court or the fines handled through the Violation Bureau. Controls over the Municipal Judge's signature stamp are not sufficient. Municipal division case records are not maintained in an accurate and complete manner. The police department and the municipal division do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly. Adequate notice is not provided to defendants prior to bond forfeiture hearings as required by state law. The municipal division has not reviewed and determined how to disburse Court Automation Fund fees that were collected until late February 2017, when collection of the fee was determined to be inappropriate and discontinued. The Municipal Judge has not issued a court order for the schedule of fines and court costs to be collected on tickets paid through the Violation Bureau.
Excess Revenues	The city does not have adequate support for its 2016 excess revenues calculation resulting in no excess revenues owed to the Department of Revenue. However, our calculations resulted in excess revenues of at least \$21,987 owed to the Department of Revenue.
Electronic Data Security	Controls over municipal division computers are not sufficient.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge
Thirty-Seventh Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Winona, Missouri

We have audited certain operations of the City of Winona Municipal Division of the Thirty-Seventh Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2016. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.
2. Evaluate the municipal division's and city's compliance with certain legal provisions.
3. Evaluate the municipal division's compliance with certain court rules.
4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

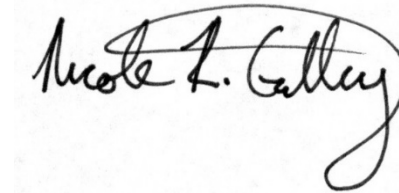

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) noncompliance with court rules, and (4) noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Winona Municipal Division of the Thirty-Seventh Judicial Circuit.

A petition audit of the City of Winona, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Thirty-Seventh Judicial Circuit

City of Winona Municipal Division

Management Advisory Report - State Auditor's Findings

1. Accounting Controls and Procedures

Significant weaknesses exist with accounting controls and procedures. During the year ended December 31, 2016, the municipal division collected \$151,645 in fines, court costs, and bonds.

Terri Denton served as the City Clerk and the Court Clerk until her termination in September 2017. A new City Clerk was hired in October 2017, and a new Court Clerk was hired in November 2017. In addition, the city opened a new municipal division bank account and a bond bank account in October 2017. We refer to Terri Denton as the Court Clerk throughout the report.

1.1 Segregation of duties and oversight

The municipal division has not adequately segregated accounting and record-keeping duties, and neither the Municipal Judge nor city personnel performed supervisory or independent reviews of accounting and bank records.

The Court Clerk was primarily responsible for duties related to collecting court monies, recording and posting these monies in the case management system, preparing deposits for the city's municipal division bank account, preparing and issuing checks, and reconciling the bank account.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by implementing documented supervisory or independent reviews of accounting and bank records.

1.2 Receipting, recording, depositing, and transmitting

The municipal division does not have adequate receipting, recording, and depositing procedures in place. In addition, the police department has not established adequate transmitting procedures.

- The Court Clerk and Assistant Court Clerk did not issue manual receipt slips for all monies received, and as a result, a complete record of monies received is not maintained. For example, during our review of deposits made between December 8, 2016, and March 28, 2017, monies totaling \$3,587 were deposited into the city's municipal division bank account, but were not issued manual receipt slips. These monies represented \$1,827 in bonds received for other counties and \$1,760 in board bills received. Some of these monies were also not recorded in the case management system that related to case activity and should have been recorded.
- The Court Clerk does not account for the numerical sequence of manual receipt slips and does not reconcile manual receipt slips issued to receipts recorded in the case management system to ensure all monies are accounted for properly. For example, a manual receipt slip was issued on April 19, 2016, for \$265 and the monies were subsequently deposited on

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

April 21, 2016; however, the receipt was not recorded in the case management system until January 30, 2017.

- The Court Clerk does not deposit receipts timely. Deposits are made approximately once a week regardless of the amount of monies collected. For example, during our review of deposits made from December 2016 to March 2017, deposits were made almost weekly and ranged from \$586 to \$4,316, with most deposits being made for more than \$1,000.
- Transmittals from the police department to the municipal division are not documented, and a reconciliation of receipt slips issued by the police department to monies transmitted to the municipal division is not performed. As a result, there is no assurance all monies collected by the police department are properly accounted for by the municipal division. The police department collects monies for bonds, accident reports, towing fees, and other various miscellaneous fees. Monies collected are periodically transmitted to the municipal division.

Failure to implement adequate receipting, recording, depositing, and transmitting procedures increases the risk that loss, theft, or misuse of monies will go undetected.

1.3 Bank reconciliations and liabilities

The city and municipal division's procedures regarding bank reconciliations and liabilities need improvement.

New bank account

The current City Clerk does not prepare accurate bank reconciliations and does not work with the current Court Clerk to prepare a list of liabilities for comparison to the reconciled bank balance for the new municipal division bank account.

Deposits in transit are not included in the bank reconciliations of the new municipal division bank account, and as a result, the reconciled bank balances are inaccurate. For example, deposits in transits totaling \$1,581 were not included in the December 31, 2017, bank reconciliation. These deposits in transit were from online payments that were recorded as received in the case management system, but were not recorded as received in the computerized accounting system. In addition, we prepared a list of liabilities for this account as of December 31, 2017. The list totaled \$14,333, while the reconciled bank balance was \$11,527, resulting in a difference of \$2,806. The difference was caused by various accounting errors totaling \$184, and receipts totaling \$2,622 that were deposited into the old municipal division bank account prior to the opening of the new bank account and were not transferred to the new bank account, where the related disbursements were made.

Old bank account

The current City Clerk discontinued depositing court collections into the old municipal division bank account in October 2017. However, the old account

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

remains open and had a reconciled bank balance at December 31, 2017, of \$5,249. We prepared a list of liabilities as of December 31, 2017, and the list totaled \$2,622 (amount owed to the new municipal division bank account), resulting in \$2,627 in the account that remains unidentified.

Missouri Supreme Court Operating Rule No. 4.59 requires reconciling all bank balances and open items (liabilities) records at least monthly. Adequate and accurate bank reconciliations and reconciling liabilities to the reconciled bank balance are necessary to ensure all accounting records balance, transactions have been properly recorded, open cases are properly accounted for, monies held in trust are sufficient to meet liabilities, and errors or discrepancies are detected and corrected timely. Additionally, maintaining an old bank account increases the risk of misuse of funds. To ensure funds are disposed of properly, the city and municipal division should attempt to identify and distribute the funds held in the old bank account, dispose of any unclaimed or unidentified funds in accordance with state law, and close the account.

1.4 Bonds

Police department personnel issue generic unnumbered bond forms, do not maintain a log of bonds received, and do not always issue prenumbered receipt slips for bonds received. As a result, neither the Court Clerk nor the City Clerk can account for all bonds received and ensure bonds are handled properly and transmitted to the municipal division timely.

To reduce the risk of loss, theft, or misuse of bond monies received, and to provide assurance all bond monies are accounted for properly, official prenumbered bond forms should be issued for all bonds received and all bonds collected should be recorded on a bond log and transmitted to the municipal division timely.

1.5 Restricted funds

The municipal division and the city have little assurance that certain court surcharges were properly used in compliance with state law. The city did not establish a separate fund and/or accounting for monies collected for the biometric verification surcharge or the law enforcement training surcharge. In addition, the city is not accounting for the monies collected and disbursed for these surcharges, does not know what has been spent or the remaining balance, and cannot demonstrate these monies were used for statutorily intended purposes.

Biometric verification surcharge

For the year ended December 31, 2016, the municipal division deposited biometric verification surcharge monies totaling \$1,394 into the city's municipal division bank account. The city passed an ordinance to begin assessing the \$2 surcharge on new cases filed starting after April 5, 2015. The city has not established a separate fund for these monies as required by statute.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

Section 488.5026.3, RSMo, requires establishment of an Inmate Prisoner Detainee Security Fund and provides requirements concerning the usage of biometric verification surcharge funds. Allowable uses include acquisition and development of a biometric verification system; maintenance, repair, and replacement of the information sharing or biometric verification system; and any expenses related to detention, custody, and housing and other expenses for inmates, prisoners, and detainees.

Law enforcement training
surcharge

For the year ended December 31, 2016, the municipal division deposited law enforcement training (LET) surcharge monies totaling \$1,519 into the city's municipal division bank account. The city passed an ordinance to assess the \$2 surcharge in November 1980. Section 488.5336.2, RSMo, requires LET surcharge funds be used only for the training of law enforcement officers.

Conclusion

To ensure compliance with applicable state laws, separate funds and/or accounting of receipts and related disbursements associated with specific activities or restricted usage should be maintained.

1.6 Accrued costs

The Court Clerk does not periodically review accrued costs owed to the municipal division. The case management system tracks accrued costs and can produce a report of balances due; however, the Court Clerk does not print and review this report to identify cases needing additional collection efforts or are potentially uncollectible. As of November 8, 2017, accrued costs recorded in the case management system totaled \$38,653. However, based on a comparison performed between manual case records and the accrued costs report, the accuracy and completeness of the report is questionable. For example, 2 cases were dismissed by the Municipal Judge in January 2017, but the accrued costs report indicated a \$100 balance was due for each case.

Proper and timely monitoring of receivables is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. In addition, proper monitoring is necessary to provide information to the Municipal Judge and to determine appropriate handling when amounts are deemed uncollectible.

1.7 Change fund

The municipal division change fund is not maintained at a constant amount. The Court Clerk was unable to tell us how much should be on hand and no records were maintained.

To safeguard against possible loss, theft, or misuse of funds, change funds should be maintained at a constant amount and the funds should be periodically counted and reconciled to the authorized balance.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

Recommendations

The City of Winona Municipal Division:

- 1.1 Segregate accounting duties or ensure documented independent or supervisory reviews of municipal division accounting and bank records are periodically performed.
- 1.2 Ensure receipt slips are issued for all monies received, account for the numerical sequence of receipt slips, reconcile manual receipt slips issued to the case management system, and deposit receipts timely. The Municipal Division should also work with the police department to document the transmittal of receipts to the municipal division and reconcile police department receipt slips to the transmittals.
- 1.3 Work with the city to prepare complete and accurate bank reconciliations, prepare and reconcile lists of liabilities monthly to the reconciled bank balances, and promptly investigate any differences. The Municipal Division should also work with the city to investigate unidentified balances in the old bank account, dispose of unclaimed and unidentified monies in accordance with state law, and close the account.
- 1.4 Work with the police department to ensure official prenumbered bond forms are issued, the numerical sequence of all bond forms is accounted for, a bond log is maintained to record all bonds received, and bond receipts are recorded and transmitted timely to the municipal division.
- 1.5 Work with the city to ensure surcharges collected for restricted purposes are adequately tracked or deposited into separate bank accounts and used for statutorily allowed purposes.
- 1.6 Establish procedures to routinely generate and review the accrued costs list, ensure proper follow up on amounts due, and provide information to, and work with, the Municipal Judge regarding amounts deemed uncollectible.
- 1.7 Maintain the change fund at a constant amount and periodically count and reconcile the monies on hand to the authorized balance.

Auditee's Response

The City of Winona Municipal Division provided the following responses:

- 1.1 *The City of Winona has terminated the former Court Clerk, the same individual that had also served as the City Clerk, and hired 2 separate individuals to serve as City Clerk and Court Clerk. The Court Clerk shall transfer all monies received by her to the City Clerk on a daily basis and each shall agree as to the amounts transferred*

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

from the municipal division to the city. The City Clerk, as opposed to the Court Clerk, shall be responsible for disbursing fines, court costs, and other monies due to other individuals, including but not limited to restitution, recoupment, jail fees, etc., to those organizations or individuals to whom the amounts are owed. The municipal division has instituted a policy wherein the Court Clerk shall, using the installed case management system, prepare monthly reports for review by both the City of Winona's Board of Aldermen and the Municipal Judge indicating cases filed, resolution of those cases and fines, court costs, and other fees received by the municipal division.

- 1.2 The Court Clerk will issue prenumbered manual receipt slips for all monies received and account for the numerical sequence of receipt slips. The Court Clerk will also reconcile the manual receipt slips to the receipts recorded in the case management system. The city has implemented procedures to deposit receipts daily. The municipal division plans to move to a fully electronic receipting system in the future.*
- 1.3 The City Clerk and Court Clerk have begun, and shall continue, to work together to accurately reconcile the bank account statements for the city's municipal division bank account. The City Clerk and Court Clerk will also prepare and reconcile a list of liabilities monthly to the reconciled bank balances and investigate any differences. In addition, the city and municipal division shall work together to determine the appropriate receipts of the funds remaining in the old bank account and shall proceed to process the monies to the State Treasurer or other legally qualified recipient.*
- 1.4 The municipal division agrees to work with the police department.*
- 1.5 The municipal division agrees to work with the city.*
- 1.6 The Court Clerk is working to review and compare all files in the case management system to all the manual court files to ensure there is no conflict between the balances shown. In addition, the municipal division has instituted a policy wherein the Court Clerk shall print monthly balance due reports and provide copies for review to the Municipal Judge, City Clerk, and Mayor. The Court Clerk and Municipal Judge will work together to take action regarding amounts deemed uncollectible.*
- 1.7 The municipal division shall maintain a change fund of \$200 and will reconcile the monies on hand to the authorized balance daily.*

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

The Police Chief provided the following responses:

- 1.2 *The police department has since the beginning of the audit implemented a "Document Receipt" policy, which makes all departments accountable for documents, money, and information transmitted between departments.*
- 1.4 *The police department has purchased a manual receipt slip book to receipt bonds and will reconcile the bond forms issued to receipt slips to account for the numerical sequence of receipt slips and bond forms. In addition, the police officers will record the receipt number and the corresponding case number from Crimestar on top of the bond forms. The police department has implemented the use of a transmittal log to document all bonds received and transmitted to the municipal division and will ensure bonds are transmitted timely.*

The City of Winona Board of Aldermen provided the following response:

- 1.5 *We have authorized the opening of 2 bank accounts for the biometric verification surcharges and the law enforcement training surcharges. Monies received from the municipal division for these surcharges will be deposited into the appropriate account and the use of monies will be monitored to ensure they are used for allowed purposes.*

2. Municipal Division Procedures

Municipal division procedures need improvement.

2.1 Case dispositions

The Municipal Judge does not always approve the final disposition of cases brought before the court or the fines handled through the Violation Bureau (VB). Additionally, the Municipal Judge's approval of amended and dismissed tickets is not always properly documented.

The Court Clerk records the case activity and final disposition of each case on the official docket sheets maintained manually in the case files and in the case management system. Our review of 60 tickets noted 46 (77 percent) of the related case files did not contain a completed manual case docket sheet signed by the Municipal Judge. In addition, the Court Clerk does not print the final docket that documents the case activity recorded in the system for the Municipal Judge's review and approval.

In addition, 7 of 10 (70 percent) amended tickets reviewed were approved using the Municipal Judge's signature stamp without subsequent approval as noted in section 2.2. The ability of the court clerks to amend and dismiss tickets without a documented review is a significant control weakness, and

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

increases the likelihood of tickets being handled improperly and the risk of loss, theft, or misuse of monies going undetected.

To ensure the proper disposition of all cases has been entered in the municipal division records, the Municipal Judge should sign the final docket of each case to indicate approval of the recorded disposition.

2.2 Signature stamp

Controls over the Municipal Judge's signature stamp are not sufficient. The Municipal Judge has authorized court clerks to apply his facsimile signature to warrants, summons notices, and agreements to amend or dismiss charges. Court clerks authorized to use the signature stamp do not initial to indicate use and there is no independent review of the documents stamped. As a result, the court clerks have the authority to process an entire case using the Municipal Judge's signature stamp without the Municipal Judge ever reviewing the case. During our review of various cases, we noted 22 cases had stamped documents and 19 (86 percent) of these cases did not have the user's initials documented or a subsequent documented approval of stamped documents.

To reduce the risk of misuse, access to the Municipal Judge's signature stamp should be limited and the use of the signature stamp on documents should be subsequently approved.

2.3 Municipal division records

Municipal division case records are not maintained in an accurate and complete manner. Case information is maintained for each defendant on docket sheets kept in manual case files as well as computerized docket sheets maintained in the case management system. The Judge records case activity and sentencing on the manual docket sheets for cases brought before the court and the Court Clerk enters the information into the case management system. We noted instances in which the information between the manual and electronic records did not always agree. In addition, the sentencing for each case is not always documented on the manual case docket sheet when multiple cases for a single defendant are brought before the court at the same time.

Supreme Court Operating Rule 4.08 requires municipal divisions to maintain a docket or backer sheet for each case. All information regarding the case should be documented including, but not limited to, a copy of the ticket, case number, defendant name, sentence, bond information, warrant information, and disposition of the case. Accurate recording of the case information is necessary to properly account for the municipal division's financial activity. Failure to implement adequate case entry procedures increases the risk that loss, theft, or misuse of funds will go undetected and that manual and/or electronic case files will contain errors.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

2.4 Ticket accountability

The police department and the municipal division do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

Police officers are responsible for signing out their ticket books, entering tickets issued into the police department's electronic record system, and transmitting issued tickets to the municipal division for processing. The Assistant Court Clerk maintains tickets received from the police department to be reviewed by the Prosecuting Attorney. After the Prosecuting Attorney signs the tickets, the Court Clerk enters the information into the municipal division's case management system for processing. However, there are no procedures to account for the numerical sequence of all tickets issued, ensure the transmittal of all issued tickets to the municipal division, or document each ticket's disposition.

Neither the police department nor municipal division employees could locate 22 of 25 (88 percent) tickets we selected for review. The Police Chief indicated he believed most of the tickets were voided and would have been shredded after 6 months. However, no formal listing of voided tickets was retained. In addition, according to the police department's records, a ticket was issued to a member of the Court Clerk's family; however, this ticket could not be located at the municipal division and there was no documentation showing the Court Clerk entered the ticket into the municipal division's case management system for processing.

Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the police department and municipal division cannot ensure all tickets are properly submitted for processing. A record should be maintained to account for the ultimate disposition of each ticket to decrease the risk of loss, theft, or misuse of funds.

2.5 Bond forfeitures

Adequate notice is not provided to defendants prior to bond forfeiture hearings as required by state law. The Municipal Judge orders bonds to be forfeited when a defendant fails to appear at a scheduled court date. However, the municipal division does not summon the defendant for a bond forfeiture hearing prior to executing the bond forfeiture order.

Section 544.640, RSMo, requires the court to enter an order of forfeiture if the defendant fails to appear in court as required. Supreme Court Operating Rule 37.26 requires the court to enter a judgment of default and execution if a forfeiture has been declared. The judgment of default and execution and notice of a scheduled hearing is required to be provided to each obligor by the clerk of the court.

2.6 Court automation fee

The municipal division has not reviewed and determined how to disburse Court Automation Fund (CAF) fees that were collected until late February

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

2017, when collection of the fee was determined to be inappropriate and discontinued. The municipal division charged and collected court costs of \$7 for the CAF fee on all cases and deposited the fees into the city's bank accounts. The municipal division collected CAF fees totaling \$11,669 during the 3 years ended December 31, 2017. The municipal division had been collecting the CAF fee since at least 2013, when it implemented the case management system.

Since the municipal division cases were heard by a municipal judge and the municipal division had not implemented the statewide court automation system, the municipal division determined it should not be assessing this fee. The municipal division should determine the proper disposition of the CAF fees collected.

2.7 Violation Bureau schedule

The Municipal Judge has not issued a court order for the schedule of fines and court costs to be collected on tickets paid through the VB. We identified several different VB schedules with varying fines and court costs used by the municipal division and police department during the year ending December 31, 2016. Police officers typically provide a copy of the schedules of fines and court costs with the ticket issued to each defendant. Without court orders authorizing the schedules and no effective dates documented on the schedules, it was unclear when each schedule was in effect. In addition, the VB schedule used by the municipal division is not posted at the VB.

Supreme Court Rule No. 37.49(d), requires the Municipal Judge to establish a schedule of fines and court costs for each offense by court order and prominently post the established schedule at the VB.

Recommendations

The City of Winona Municipal Division:

- 2.1 Ensure the Municipal Judge signs all court dockets and reviews and approves all amended and dismissed tickets.
- 2.2 Establish procedures to adequately secure and control the use of the Municipal Judge's signature stamp, including requiring the user to initial the stamp and a subsequent review and approval of stamped documents.
- 2.3 Ensure the proper disposition of cases is documented in manual and electronic records and sufficient documentation is maintained to support all case actions.
- 2.4 Work with the police department to ensure the numerical sequence and ultimate disposition of all tickets (including voided tickets) are accounted for properly.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

- 2.5 Ensure bond forfeiture procedures are in accordance with state law and court operating rules.
- 2.6 Review the past handling of the CAF fees with the Office of State Courts Administrator and legal counsel to determine if any action should be taken.
- 2.7 Establish the Violation Bureau schedule by court order and prominently post the schedule at the Violation Bureau.

Auditee's Response

- 2.1 *The municipal division has instituted a policy wherein the Court Clerk shall keep separate those cases which are resolved through the municipal division's Violation Bureau to be reviewed and initialed by the Municipal Judge on a monthly basis. Additionally, any cases that are dismissed by the Prosecuting Attorney now, and shall continue to, have a dismissal document submitted by the Prosecuting Attorney filed in the case file. Further, any amendments made by the Prosecuting Attorney to charges filed with the municipal division shall be made by written amendment submitted by the Prosecuting Attorney. The Municipal Judge will sign dismissal and amendment documents and the written docket sheet. The written docket sheet accompanying the manual case file, and not the electronic docket, shall continue to be the official record of the municipal division.*
- 2.2 *Although the Municipal Judge does now, and has since October 2016, personally signed all general warrants, the municipal division has allowed the Court Clerk to maintain a copy of the Municipal Judge's signature stamp to execute specific warrants which are requested by the Prosecuting Attorney's office on a case by case occasion. The municipal division has implemented a policy that the Court Clerk is to place her initials beside the stamped signature when used and then present to the Municipal Judge for his review and initials on the following court date.*
- 2.3 *As provided in section 2.1 above, the written docket sheet shall be the official docket of the municipal division; however, the electronic docket in the case management system will be updated by the Court Clerk within 24 hours of a written docket entry to ensure both dockets agree. In addition, for instances in which a defendant has multiple cases and mirror docket entries are required for the cases, the Municipal Judge will ensure the mirror entries are recorded prior to his departure from court to ensure case activity is adequately recorded for each case.*
- 2.4 *The Prosecuting Attorney's office and the police department are currently implementing a policy wherein there will be an accounting*

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

for all Uniform Traffic Tickets (UTT) from the issuance of said UTT books to the officers to the filing of the same with the municipal division and intervening voiding, non-filing, or dismissal that may occur prior to the filing of the UTT with the municipal division. The Prosecuting Attorney's office and the police department will each maintain logs to document the transmittal of tickets from one department to another and to document the reasoning for any voids, non-filings, or dismissals.

- 2.5 *It has been the position of the Municipal Judge that upon an individual posting a cash bond, as opposed to a third party surety bond, upon a warrant having been issued for the defendant's failure to appear at an arraignment when the individual had previously been personally summonsed by the court, and that the defendant had signed the bond paperwork acknowledging the bond hearing return date, time, and location and the possibility that the bond could be forfeited to the city upon his or her failure to appear and the defendant does indeed then fail to appear at the bond hearing, forfeiture of the bond to the city would be appropriate. However, per the Auditor's suggestions, the municipal division has implemented a policy that the individual shall be separately summonsed to the bond hearing prior to any forfeiture of a cash bond on a failure to appear at arraignment.*
- 2.6 *The municipal division and city are now seeking legal advice as to the proper disposition of the Court Automation Fees previously collected and anticipate the matter to be resolved by June 1, 2018.*
- 2.7 *The Municipal Judge had previously issued a General Order which had provided for a uniform VB schedule which had been delivered to the previous Court Clerk, but has not been able to be located within the offices of the municipal division. Therefore, the Municipal Judge shall execute a new General Order providing for the schedule of fines for purposes of the VB and ensure the General Order and schedule are prominently posted at the municipal division. The police department shall discontinue providing a schedule of the fines to individuals at the time a UTT is issued and instead shall inform the individuals that receive a UTT, which may be resolved through the VB, to contact the Court Clerk directly for the information. This will ensure the individual receives the most current information.*

3. Excess Revenues

The city does not have adequate support for its 2016 excess revenues calculation. The amounts reported by the city as general operating revenues were significantly overstated, resulting in no excess revenues owed to the Department of Revenue (DOR). However, our calculations resulted in excess revenues of at least \$21,987 owed to the DOR.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

The city's excess revenue calculation for the year ended December 31, 2016, indicated the city's 2016 revenues from traffic violations totaled \$71,472, while general operating revenues totaled \$2,275,468. Based on these amounts the percent of general operating revenues from traffic violation revenues was 3 percent, and no payment was necessary to the DOR for any excess revenues for the year ended December 31, 2016. However, our review of city accounting records indicated the total general operating revenue reported by the city for use in its excess revenue calculation was overstated by \$2,022,679. The city most likely included restricted revenues from utilities and law enforcement and capital improvement sales taxes in the general operating revenue amount reported. Restricted revenues should be excluded from general operating revenues used in the calculation of excess revenues. However, since the city did not maintain documentation of its calculation of the general operating revenue amount, we cannot determine the amounts included.

We determined total general operating revenues, using city accounting records, should have been \$252,789. In addition, a report from the case management system indicated court revenues for minor traffic violations totaled \$72,545. Based on these initial amounts, the percentage of general operating revenues from minor traffic violation revenues was 29 percent, which exceeds the 20 percent the city is allowed to retain. Based upon these initial amounts, the city should have remitted excess revenues totaling at least \$21,987 to the DOR for the year ended December 31, 2016. However, during our review of the minor traffic violation report used in the calculation above, we identified a large difference between total court revenues and court revenues from minor traffic violations. A significant amount of the difference could not readily be explained and some municipal ordinance violations were not included in the minor traffic violation report; therefore, the minor traffic violation report generated may not be accurate and complete. As a result, additional amounts may be owed to the DOR. The city performed a similar excess revenue calculation for the year ended December 31, 2015.

Effective January 1, 2016, Section 479.359, RSMo, requires cities to remit any revenues from fines, bond forfeitures, and court costs for minor traffic violations greater than 20 percent of general operating revenue to the Department of Revenue. Effective August 28, 2016, the calculation in Section 479.359, RSMo, was changed to also include fines, bond forfeitures, and court costs for municipal ordinance violations.

To ensure compliance with state law, city officials should determine if the amounts used in the calculations are accurate, recalculate the amount of excess revenues, and remit the proper amount to the state.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

Recommendation

The City of Winona Municipal Division ensure the minor traffic violation report includes municipal ordinance violations, work with the City of Winona Board of Aldermen to recalculate excess revenues for the year ended December 31, 2016, and make payment to the DOR. Adequate documentation of all calculations should be maintained.

Auditee's Response

The Municipal Division provided the following response:

We agree to work with the city.

The City of Winona Board of Aldermen provided the following response:

Due to the criminal investigation relating to the audit of the City of Winona, the City Prosecuting Attorney has determined the revenues owed for 2016 are still potentially subject to a criminal investigation. After the city audit report is received and the city is fully aware of the issues noted in the audit report, further actions will be taken to address the revenues owed for 2016. For 2017 and future calculations, the City Clerk will include all necessary requirements to accurately calculate excess revenues and maintain calculation documentation.

4. Electronic Data Security

Controls over municipal division computers are not sufficient. As a result, municipal division records are not adequately protected and are susceptible to unauthorized access or loss of data.

4.1 Passwords

The municipal division has not established adequate password controls to reduce the risk of unauthorized access to computers and data. The Court Clerk and the Assistant Court Clerk share the same user identification and password to access the municipal division software. In addition, the Court Clerk and Assistant Court Clerk are not required to change passwords periodically.

Passwords are necessary to authenticate access to computers. The security of computer user identification and passwords is dependent upon keeping them confidential and requiring users to enter their passwords when switching users. However, since passwords do not have to be periodically changed and are shared between employees, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique, confidential, contain a minimum number of characters, and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

4.2 Security controls

Security controls are not in place to lock computers after a specified number of incorrect logon attempts or after a certain period of inactivity.

Thirty-Seventh Judicial Circuit
City of Winona Municipal Division
Management Advisory Report - State Auditor's Findings

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The City of Winona Municipal Division:

- 4.1 Require employees to maintain confidential passwords that must be periodically changed.
- 4.2 Ensure municipal division computers have security controls in place to lock each computer after a specified number of incorrect logon attempts and after a certain period of inactivity.

Auditee's Response

- 4.1 *The city has implemented a policy where all the computers are password protected and changed periodically. Each authorized user of the court computer program has individual user names and passwords.*
- 4.2 *The city has implemented a policy where all computers, after a specified time of inactivity, will go to a lock screen and a password will have to be entered to access the computer. The city plans to implement controls to lock each computer after a specified number of incorrect logon attempts.*

Thirty-Seventh Judicial Circuit

City of Winona Municipal Division

Organization and Statistical Information

The City of Winona Municipal Division is in the Thirty-Seventh Judicial Circuit, which consists of Carter, Howell, Oregon, and Shannon Counties. The Honorable David Evans serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division does not utilize OSCA's statewide automated case management system known as JIS. Instead, the municipal division utilizes Summit, an automated case management system provided by Data Technologies, Inc., that has been approved for use in municipal divisions by the State Judicial Records Committee.

Personnel

At December 31, 2016, the municipal division employees were as follows:

Title	Name
Municipal Judge	William T. Hass
Court Clerk ¹	Terri Denton
Assistant Court Clerk	Elisha Pierce
Prosecuting Attorney	Jodie Brumble

¹ Terri Denton served as the Court Clerk until she was terminated in September 2017, and Tammy Kile was subsequently hired in November 2017.

Financial and Caseload Information

	Year Ended December 31, 2016
Receipts	\$151,645
Number of cases filed	873

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	\$ 12.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Sheriff's Retirement	3.00
Court Automation ¹	7.00
Inmate Security (Biometric Verification)	2.00

¹ The municipal division stopped assessing the court automation fees in late February 2017.

Office of Missouri State Auditor
Nicole Galloway, CPA

Dade County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Dade County

Sheriff's Inmate Monies and Commissary Controls and Procedures

Significant weaknesses in internal controls and recording-keeping procedures of the Sheriff's office allowed missing monies to occur and go undetected. Inmate monies totaling \$795.99 from 32 receipt slips were received and not deposited into the inmate bank account, and as a result, these monies are missing. The Sheriff has not adequately segregated accounting duties or performed adequate and timely supervisory reviews of detailed accounting and bank records. Procedures for receipting, recording, and depositing inmate monies need improvement. The Sheriff does not prepare timely monthly bank reconciliations and does not prepare a list of liabilities. The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. The Sheriff's office is collecting a \$10 drug testing fee that is not allowed by state law.

Sheriff's Controls and Procedures

The Sheriff has not adequately segregated accounting duties or performed adequate and timely supervisory reviews of detailed accounting and bank records. Bond monies and civil and criminal process fees are not deposited intact or timely and were not timely recorded in the computerized accounting system. The Sheriff does not disburse some civil and criminal process fees and bond monies timely. The Sheriff does not prepare accurate timely monthly bank reconciliations and does not prepare lists of liabilities. Access is not adequately restricted to seized cash.

County Collector-Treasurer's Controls and Procedures

The County Collector-Treasurer did not withhold amounts from tax collections for the Assessment Fund in compliance with state law. The County Collector-Treasurer did not properly review or calculate commissions taken on delinquent taxes, current railroad and utility taxes, and surtax. The County Collector-Treasurer's contracts with 5 cities to provide property tax billing and collection services have not been periodically updated and are not current.

Property Tax System

Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector-Treasurer. The County Commission does not review and approve court orders for property tax additions and abatements. The County Clerk does not have procedures in place to ensure aggregate abstracts prepared are accurate.

Electronic Data Security

The County Collector-Treasurer and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Security controls are not in place to lock computers in the offices of the Recorder of Deeds and County Assessor after a specified number of incorrect logon attempts. The Recorder of Deeds and the Public Administrator do not store data backup files at an offsite location. In addition, backups are not tested periodically in the offices of the Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was Poor .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Dade County

We have audited certain operations of Dade County in fulfillment of our duties under Section 29.230, RSMo. In addition, Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, was engaged to audit the financial statements of Dade County for the 2 years ended December 31, 2016. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2016. The objectives of our audit were to:

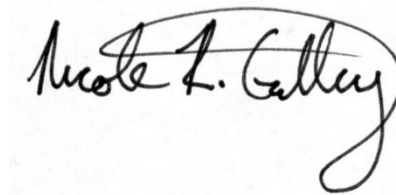

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Dade County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

	Joy Stevens, CFE

Dade County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Inmate Monies and Commissary Controls and Procedures

Inmate receipts totaling \$795.99 were received but not deposited into any of the 3 Sheriff's office bank accounts. Significant weaknesses in internal controls and recording-keeping procedures of the Sheriff's office as noted throughout this report, allowed the missing monies to occur and go undetected. The Sheriff collected approximately \$16,800 of inmate monies and commissary commissions during our review period of January 1, 2016, through August 31, 2017.

The Sheriff's office uses a computerized accounting system to track inmate monies and commissary sales. Computerized receipt slips are issued by jailers; however, some of these employees and the Administrative Assistant continue to issue manual receipt slips for inmate monies. A separate computerized accounting system is used by the Sheriff's Administrative Assistant to track other receipts, deposits, disbursements, and by the Sheriff to prepare bank reconciliations.

1.1 Missing monies

Inmate monies totaling \$795.99 from 32 receipt slips were received and not deposited into the inmate bank account, and as a result, these monies are missing. The monies were recorded by various jailers or the Administrative Assistant either on manual receipt slips or in the computerized accounting system used to track inmate monies.

- Inmate receipts (cash) totaling \$45, recorded on 4 manual receipt slips issued between February 16, 2016, and August 31, 2016, were not deposited.
- Inmate receipts totaling \$750.99, recorded on 28 electronic receipt slips in the computerized accounting system between January 1, 2016, and July 16, 2017, were not deposited.

The lack of segregation of duties, inadequate controls, and the absence of proper oversight by the Sheriff resulted in the missing monies being undetected. Our initial review of the Sheriff's accounting records, indicated inmate receipts totaling \$3,070.23, recorded on 60 receipt slips (manual and electronic) issued between January 1, 2016, and August 31, 2017, were not deposited. However, upon providing this list of receipt slips to the Sheriff, he was able to determine how some of these monies (28 of the 60 receipt slips) were handled; however, the accounting records were not corrected for the various issues (see sections 1.3 and 1.4). The Sheriff could not determine or explain the disposition of the remaining 32 receipt slips. The Supporting Documentation for Missing Inmate Receipts section provides details regarding the missing monies.

1.2 Segregation of duties and supervisory reviews

The Sheriff has not adequately segregated accounting duties or performed adequate and timely supervisory reviews of detailed accounting and bank records. The Administrative Assistant is responsible for receipting, recording, and depositing monies; and preparing checks. The Sheriff does not perform a

Dade County Management Advisory Report - State Auditor's Findings

timely review of the accounting and bank records to ensure monies received were properly recorded, deposited, and disbursed (see section 1.4).

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receipting, recording, and depositing, and disbursing monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential.

1.3 Receipting, recording, and depositing

Procedures for receipting, recording, and depositing inmate monies need improvement.

- Manual receipt slips for inmate monies are not always issued in numerical sequence. Thirty-eight receipt slips of the 338 issued from January 2016 through August 2017 were not issued in numerical sequence.
- Some cash refunds totaling \$756 refunded to inmates when released from jail from January 2016 to August 2017 were not always recorded in the computerized accounting system, resulting in the overstatement of inmates' balances. Office procedure requires inmate monies over \$5 to be deposited and refunds be issued by check. In addition, during the period February 2017 through May 2017, the Sheriff made duplicate payments by refunding \$116 by check to inmates who had already received their refunds in cash.
- The Sheriff's office does not document the transmittal of monies from the jailers to the Administrative Assistant, and the Administrative Assistant does not reconcile the composition of the receipt slips issued to the monies transmitted and deposited.
- Inmate monies are not deposited intact or timely. For example, \$110 received on August 6 and 7, 2016, was held and not deposited until the August 16, 2016, deposit totaling \$337. This money was not deposited although other money receipted from July 27, 2016, to August 9, 2016, totaling \$449 was deposited on August 10, 2016. In addition, the Sheriff's Administrative Assistant held 68 percent of inmate money more than a week before depositing it.
- Checks received are not restrictively endorsed at the time of receipt and are only endorsed when deposits are prepared. For example, a check issued from another jail to an inmate was received on August 10, 2017, was endorsed by the inmate and was still on hand at the time of our cash count on August 31, 2017. The check could have been negotiated since the Sheriff's office had not applied a restrictive endorsement on the check.

Dade County
Management Advisory Report - State Auditor's Findings

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of monies received will go undetected.

1.4 Bank reconciliations and liabilities

The Sheriff does not prepare timely monthly bank reconciliations and does not prepare a list of liabilities. The Sheriff did not prepare monthly bank reconciliations for February 2016 through December 2016 until June 2017. In addition, accurate accounting records were not maintained, and errors were not corrected timely. As a result, reports generated from the computerized accounting systems used to track both inmate monies and commissary sales and receipts, deposits, and disbursements cannot be relied upon by the Sheriff to reconcile the inmate bank account.

For example, \$561 of seized cash was incorrectly recorded in the computerized accounting system on May 26, 2016, as inmate monies. These monies were placed into evidence and not deposited into the inmate bank account. The error was not corrected until July 31, 2017. Additionally, we identified \$167 owed and refunded to inmates by check from January 2016 to August 2017, that was not deposited. Also, during our review of the December 31, 2016, bank reconciliation prepared by the Sheriff, we identified 12 deposits in transit from August 18, 2015, to October 31, 2015, totaling \$1,971 and 3 outstanding checks totaling \$477 that had already cleared the bank.

A list of liabilities is also not prepared for the inmate account. The reconciled inmate bank account balance was \$6,405 as of December 31, 2016. While the computerized accounting system used to track inmate monies can produce a list of inmate monies on hand (liabilities), such a list was not generated as of December 31, 2016. Commissary net proceeds remain in the bank account and the Sheriff does not track net proceeds. Since a list of liabilities is not maintained and commissary net proceeds are not tracked, we cannot determine if there are unidentified monies or a shortage of monies in the bank account.

Performing monthly bank reconciliations timely and preparing monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification and comparison of liabilities to the reconciled cash balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities. Various statutory provisions provide for the disposition of unidentified monies.

1.5 Inmate Prisoner Detainee Security Fund

The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. All commissary net proceeds from the commissary sales, and commissions received from the commissary vendors for purchases made by the Sheriff are retained with the

Dade County Management Advisory Report - State Auditor's Findings

inmate monies and drug testing fees, in the inmate bank account. Any amount in the bank account exceeding the inmate monies and drug testing fees is considered commissary net proceeds.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) of the commissary account into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer. In addition, Section 488.5026.3, RSMo, mandates how the funds deposited in the Inmate Prisoner Detainee Security Fund shall be used.

1.6 Drug testing fees

The Sheriff's office is collecting a \$10 drug testing fee that is not allowed by state law. The drug testing fee is collected for all drug tests administered, including the general public, unless the fee is waived by the court. These fees are deposited into the inmate bank account. The Sheriff's office does not track and does not know the amount of drug testing fees being held in the account. There is no statutory authority allowing the Sheriff to charge and collect such a fee.

Recommendations

The Sheriff:

- 1.1 Investigate the missing inmate receipts. The Sheriff should also work with law enforcement officials regarding criminal prosecution.
- 1.2 Segregate accounting duties or ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.
- 1.3 Establish procedures to issue manual receipt slips in numerical sequence, only issue refunds to inmates by check, document the transmittal of inmate monies between office personnel and reconcile the composition of receipts to the composition of amounts transmitted, deposit monies intact and timely, and restrictively endorse checks at the time of receipt.
- 1.4 Ensure monthly bank reconciliations and lists of liabilities are prepared and reconciled timely. Any differences between accounting records and reconciliations should be promptly investigated and resolved. In addition, if any monies remain unidentified, the monies should be disbursed in accordance with state law.
- 1.5 Ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to

Dade County
Management Advisory Report - State Auditor's Findings

the County Collector-Treasurer for deposit in the Inmate Prisoner Detainee Security Fund.

1.6 Discontinue charging and collecting drug testing fees.

Auditee's Response

1.1 *I will investigate the allegations and contact an outside agency to investigate should I find reasonable belief that funds have been stolen.*

1.2 *Duties will be segregated to the extent they can. I will begin having the jailers issue receipt slips, the Jail Supervisor review receipt slips and prepare the deposits, and the Administrative Assistant perform a documented review and take the deposit to the bank. I will, or I will assign the task to another for an independent and timely review of bank records and proper disbursement of funds if appropriate.*

1.3 *I have discontinued using the manual receipt slips and all inmate monies are receipted in the computerized accounting system, which automatically assigns a receipt slip in numerical sequence. I will enforce the policy of no cash refunds over \$5 and all refunds over \$5 will be deposited and refunded by check. My office primarily receives cash, and any instances when any other form of payment is received the payment method will be documented in the accounting system. The computerized accounting system is capable of generating a cash closeout report. I will begin requiring this report to be generated and reconciled by composition and totaled to the monies on hand at the end of each shift. The cash closeout report will be reviewed and reconciled to the monies on hand by the Jail Supervisor. The Jail Supervisor will prepare the deposits, and the Administrative Assistant will perform a documented review of the deposit. Deposits will be prepared on a weekly basis to ensure all monies are deposited timely. All checks received will be endorsed immediately as the checks are received.*

1.4 *I will prepare bank reconciliations and lists of liabilities monthly and investigate any differences immediately. I will distribute any unidentified monies in accordance with state law. If I am unable to perform these duties in a timely manner, I will delegate these duties to ensure the bank accounts are reconciled in a timely manner.*

1.5 *I will turn over existing commissary net proceeds to the County Collector-Treasurer and turn over future commissary net proceeds to the County Collector-Treasurer on a monthly basis to be deposited into the Inmate Prisoner Detainee Security Fund.*

Dade County
Management Advisory Report - State Auditor's Findings

1.6 *I am taking the recommendation under consideration and will seek legal advice regarding the charging and collecting of the drug testing fees.*

2. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office collected approximately \$70,000 of civil and criminal process fees, bonds, and other miscellaneous fees during the year ended December 31, 2016.

2.1 Segregation of duties and supervisory reviews

The Sheriff has not adequately segregated accounting duties or performed adequate and timely supervisory reviews of detailed accounting and bank records. The Administrative Assistant is responsible for receipting, recording, and depositing monies; and preparing checks. While the Sheriff performs bank reconciliations and signs checks, he does not timely perform a review of the accounting records to ensure monies received were properly recorded, deposited, and disbursed.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receipting, recording, and depositing, and disbursing monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential.

2.2 Depositing and recording

Bond monies and civil and criminal process fees are not deposited intact or timely and were not timely recorded in the computerized accounting system. For example, a \$5,000 cash bond received on January 12, 2016, was not recorded in the computerized accounting system until January 22, 2016, and not deposited until February 5, 2016. In another example, a \$30 civil process fee received on April 22, 2016, was held and not deposited until August 10, 2016. Civil and criminal process fees collected from January 19, 2017, through May 5, 2017, totaling \$1,256 were not deposited until May 11 through May 17, 2017. Civil and criminal process fees are typically not recorded into the computerized accounting system until the deposit is prepared.

Failure to implement adequate depositing and recording procedures increases the risk that loss, theft, or misuse of monies received will go undetected.

2.3 Disbursements

The Sheriff does not disburse some civil and criminal process fees and bond monies timely. Civil and criminal process fees collected from January to April 2016, totaling \$3,831, were not disbursed to the County Collector-Treasurer until October 2016, and civil and criminal process fees collected from May to December 2016, totaling \$5,573 were not disbursed to the County Collector-Treasurer until June 2017. Two bonds received on September 22, 2016, totaling \$400, had not been disbursed as of October 18, 2017.

Dade County
Management Advisory Report - State Auditor's Findings

Timely disbursement of monies collected is necessary to provide adequate controls over account balances and increase the likelihood discrepancies are promptly detected. In addition, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such fees monthly to the County Treasurer. Additionally, pursuant to Section 50.380, RSMo, the Sheriff may be subject to penalties for failure to timely disburse monies.

2.4 Bank reconciliations and liabilities

The Sheriff does not prepare accurate timely monthly bank reconciliations and does not prepare lists of liabilities. For example, the January 2017 fee account bank reconciliation was not prepared until June 2017, and the February 2016 through December 2016 bond account bank reconciliations were not prepared until June 2017.

The reconciled fee account bank balance was \$5,573 as of December 31, 2016, and represented the civil and criminal process fees collected and not disbursed to the county from May 2016 to December 2016 (see section 2.3). During our review of the December 31, 2016, bond account bank reconciliation, we identified \$1,298 of deposits in transit that had either already cleared the bank or were accounting errors and 5 outstanding checks totaling \$1,300 that had been returned or voided and reissued. The adjusted reconciled bond account balance as of December 31, 2016, was \$1,253. We identified liabilities totaling \$1,205, leaving an unidentified balance of \$48.

Performing monthly bank reconciliations timely and preparing monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification and comparison of liabilities to the reconciled cash balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities. Various statutory provisions provide for the disposition of unidentified monies.

2.5 Seized property

Access is not adequately restricted to seized cash. Seized cash is stored in a lock box with other receipts collected in the Sheriff's office, and as a result, the Administrative Assistant has access to the seized cash. The Administrative Assistant should not have access to the seized cash because she does not have official duties or responsibility over seized property.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of seized property.

Similar conditions previously reported

A similar condition to section 2.1 was noted in our prior 2 audit reports. A similar condition to section 2.2 was noted in our prior 4 audit reports. A similar condition to section 2.4 was noted in our prior 3 audit reports. A similar condition to section 2.5 was noted in our prior audit report. In addition,

Dade County
Management Advisory Report - State Auditor's Findings

Report No. 2013-118, *Follow-Up Report on Audit Findings - Dade County* (sections 2.1, 2.3, 2.4, and 2.5), issued in November 2013, reported the status as implemented for sections 2.1 and 2.4, and in progress for sections 2.2 and 2.5.

Recommendations

The Sheriff:

- 2.1 Segregate accounting duties or ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.
- 2.2 Ensure monies received are deposited intact and are recorded and deposited timely.
- 2.3 Ensure receipts are disbursed timely.
- 2.4 Ensure monthly bank reconciliations and lists of liabilities are prepared and reconciled timely. Any differences between accounting records and reconciliations should be promptly investigated and resolved. In addition, if any monies remain unidentified, the monies should be disbursed in accordance with state law.
- 2.5 Restrict access to all seized cash.

Auditee's Response

- 2.1 *I will perform timely reviews of the accounting and bank records and if I am unable to perform the reviews timely, I will delegate the duty to ensure a timely review of these records is performed.*
- 2.2 *I will require my Administrative Assistant to record and deposit monies intact weekly.*
- 2.3 *I will require my Administrative Assistant to prepare checks for me to sign on a weekly basis.*
- 2.4 *I will prepare bank reconciliations and lists of liabilities monthly and investigate any differences immediately. I will distribute any unidentified monies in accordance with state law. If I am unable to perform these duties in a timely manner, I will delegate these duties to ensure the bank accounts are reconciled in a timely manner.*
- 2.5 *I will work with the County Commission to determine a solution to adequately secure the seized cash.*

Dade County
Management Advisory Report - State Auditor's Findings

3. County Collector-Treasurer's Controls and Procedures

Controls and procedures in the County Collector-Treasurer's office need improvement. Property taxes and other monies collected by the County Collector-Treasurer totaled approximately \$6.6 million during the year ended February 28, 2017.

3.1 Assessment withholdings

The County Collector-Treasurer did not withhold amounts from tax collections for the Assessment Fund in compliance with state law. Assessment Fund withholdings were withheld at 1.25 percent instead of the 1.5 percent allowed, resulting in amounts being under withheld from various political subdivisions. For December 2016, \$12,672 (including \$300 related to city contracts, see section 3.3) was not withheld from various political subdivisions and disbursed to the Assessment Fund.

Section 137.720.1, RSMo, requires a one percent commission on ad valorem property tax collections allocable to each taxing authority be deducted from the collections of taxes each year and deposited into the assessment fund of the county. Section 137.720.3, RSMo, requires an additional one-half percent commission. Adequate monitoring and proper calculation of Assessment Fund withholdings is necessary to ensure compliance with statutory provisions.

3.2 Commissions

The County Collector-Treasurer did not properly review or calculate commissions taken on delinquent taxes, current railroad and utility taxes, and surtax. The County Collector-Treasurer incorrectly withheld 2 ½ percent on all delinquent taxes and surtax collected rather than the 3 percent required resulting in amounts being under withheld from various political subdivisions. These amounts are owed to the county's General Revenue Fund. For example, the County Collector-Treasurer under withheld \$6,059, in December 2016 and January 2017 from delinquent taxes, railroad and utility taxes, and surtax.

Section 54.320, RSMo, requires the collector-treasurer to collect a fee of 3 percent on all licenses, current railroad and utility taxes, surtax, back taxes, delinquent taxes and interest collected, to be deducted from the amounts collected.

3.3 Written contracts

The County Collector-Treasurer's contracts with 5 cities to provide property tax billing and collection services have not been periodically updated and are not current. The contracts were prepared in 2009. In addition, the contracts state assessment withholdings are withheld at 1.25 percent instead of 1.5 percent allowed in accordance with state law.

Section 50.332, RSMo, allows county officials, subject to the approval of the county commission, to perform tax collection services for cities they normally

Dade County
Management Advisory Report - State Auditor's Findings

provide to the county for additional compensation. Section 432.070, RSMo, requires all such contracts be in writing. Clear, detailed, and timely written contracts are necessary to ensure all parties are aware of the services to be performed and the compensation to be paid for the services.

Recommendations

The County Collector-Treasurer:

- 3.1 Review Assessment Fund withholdings for past years, calculate the amount owed by each taxing district, withhold amounts from future tax collections and disburse amounts under withheld to the Assessment Fund.
- 3.2 Recalculate tax commissions withheld from delinquent taxes, railroad and utility taxes, and surtax and correct distributions to the various political subdivisions and the General Revenue Fund. The County Collector-Treasurer should also ensure future commission calculations are accurate.
- 3.3 Work with the County Commission to obtain current written contracts with the cities for property tax collections that contain contract terms that are in accordance with state law.

Auditee's Response

- 3.1 &
- 3.2. *I have worked with the property tax computer programmer to correct future Assessment Fund withholdings and commissions, and I will work with the County Commission to consider withholding amounts and correcting distributions regarding past years.*
- 3.3 *I will work with the County Commission to prepare current written contracts and ensure the contract terms are in accordance with state law.*

4. Property Tax System

Controls and procedures over the property tax system need improvement.

4.1 Review of activity

Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector-Treasurer. The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes. In addition, the County Clerk and the County Commission do not perform procedures to verify the accuracy and completeness of the County Collector-Treasurer's annual settlements. As a result, there is an increased risk of loss, theft, and misuse of property tax monies going undetected, and less assurance the annual settlements are complete and accurate.

Dade County Management Advisory Report - State Auditor's Findings

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarizes all taxes charged to the County Collector-Treasurer, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector-Treasurer are complete and accurate and could also be used by the County Clerk and the County Commission to verify the County Collector-Treasurer's annual settlements. Such procedures are intended to establish checks and balances related to the collection of property taxes.

A similar condition was noted in our prior 2 audit reports.

4.2 Additions and abatements The County Commission does not review and approve court orders for property tax additions and abatements. During the year ended February 28, 2017, additions totaled approximately \$75,000 and abatements totaled approximately \$14,000.

The County Assessor and County Clerk process additions and abatements and print a court order; however, the court orders were not presented to the County Commission for review and approval.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, periodic reviews and timely approvals of additions and abatements, along with an independent reconciliation of approved additions and abatements to corrections made to the property tax system, would help ensure changes are proper.

4.3 Aggregate abstracts The County Clerk does not have procedures in place to ensure aggregate abstracts prepared are accurate. The County Clerk did not accurately prepare the 2016 and prior years back tax aggregate abstract. The back tax aggregate abstract filed in May 2017, did not report the 2015 and prior real estate and surtax back taxes totaling \$66,463, which were included on the delinquent property tax book generated by the County Collector-Treasurer's office. The County Clerk amended this back tax aggregate abstract in September 2017, after we brought the error to her attention.

Section 137.295, RSMo, requires the County Clerk to prepare these reports and forward them to the Department of Revenue and State Tax Commission upon completion of delinquent tax books. These reports should be reconciled to the delinquent tax books to ensure accuracy.

Dade County
Management Advisory Report - State Auditor's Findings

Recommendations

- 4.1 The County Clerk maintain an account book with the County Collector-Treasurer. In addition, the County Clerk and the County Commission should use the account book to review the accuracy and completeness of the County Collector-Treasurer's annual settlements.
- 4.2 The County Commission ensure property tax additions and abatements are properly reviewed and approved.
- 4.3 The County Clerk establish procedures to ensure back tax aggregate abstracts are prepared accurately.

Auditee's Response

The County Clerk provided the following responses:

- 4.1 *I began maintaining an account book in March 2018 for the 2018 tax year. I will use the account book to review and reconcile the annual settlement.*
- 4.3 *I will ensure the aggregate abstracts agree to the tax books and the annual settlement.*

The County Commission provided the following responses:

- 4.1 *We will use the account book prepared by the County Clerk to review and reconcile the annual settlement, and we will document our review of the annual settlement.*
- 4.2 *We will begin performing a documented review of the additions and abatements on a monthly basis.*

5. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

5.1 Passwords

The County Collector-Treasurer and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices share passwords and passwords are not kept confidential. Also, the County Collector-Treasurer does not change his password periodically.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are shared and not confidential in these offices, and passwords are not periodically changed by the County Collector-Treasurer, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique, confidential, and changed

Dade County Management Advisory Report - State Auditor's Findings

periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

5.2 Security controls

Security controls are not in place to lock computers in the offices of the Recorder of Deeds and County Assessor after a specified number of incorrect logon attempts.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

5.3 Data backups

The Recorder of Deeds and the Public Administrator do not store data backup files at an offsite location. In addition, backups are not tested periodically in the offices of the Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

To help prevent loss of information and ensure essential information and computer systems can be recovered, computer data should be stored offsite and tested on a periodic basis.

Recommendations

The County Commission work with the other county officials to:

- 5.1 Require confidential passwords for each employee that are periodically changed to prevent unauthorized access to the county's computers and data.
- 5.2 Require each county computer to have security controls in place to lock it after a specified number of incorrect logon attempts.
- 5.3 Ensure backed-up computer data is stored in a secure offsite location and tested on a regular basis.

Auditee's Response

- 5.1 *We will work with the County Collector-Treasurer and Recorder of Deeds to establish unique confidential passwords, ensure passwords are not shared, and that passwords are periodically changed.*
- 5.2 *We will work with the Recorder of Deeds and County Assessor to ensure they implement security controls for their computers to lock after a number of incorrect logon attempts.*
- 5.3 *We will work with the Recorder of Deeds and Public Administrator to have their backups stored in a secure offsite location. We will work*

Dade County
Management Advisory Report - State Auditor's Findings

with the Recorder of Deeds, Public Administrator, and Prosecuting Attorney to ensure they test their backups on a regular basis.

Dade County

Organization and Statistical Information

Dade County was a township-organized, third-class county for the year ended December 31, 2016. As of April 4, 2017, Dade County voters approved the abolishment of the township form of government. The county seat is Greenfield.

Dade County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 25 full-time employees and 9 part-time employees on December 31, 2016. The townships maintained county roads until the abolishment of the townships. Responsibility for road maintenance is now with the county. As a result of the abolishment of the townships, township officials were required by law to turn over records and title to all property to the county. In addition, all outstanding township debt became liabilities of the county.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2017	2016
Randy Daniel, Presiding Commissioner	\$	27,080
David Rusch, Associate Commissioner		25,080
Dallas Maxwell, Associate Commissioner		25,080
Carolyn Kile, Recorder of Deeds		38,000
Melinda Wright, County Clerk		38,000
Gary Troxell, Prosecuting Attorney		45,000
Max Huffman, Sheriff		42,000
Gary Banta, County Coroner		11,000
Chrissy Welch, Public Administrator		20,000
Rod O'Connor, County Collector-Treasurer (1), year ended March 31,	42,595	
Annette Black, County Assessor, year ended August 31,		38,000

(1) Includes \$4,595 of commissions earned for collecting city property taxes.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Eric Greitens, Governor
and
Board of Curators of the University of Missouri
and
Dr. Mun Y. Choi, President
University of Missouri - System Administration
Columbia, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2017-012, *University of Missouri System Administration* (rated as Fair), issued in March 2017, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the administration of the University of Missouri System Administration about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by system administration and discussions with system administration to verify the status of implementation for the recommendations. Documentation provided by the system administration included payroll detail, new policies, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during February 2018.

Nicole R. Galloway, CPA
State Auditor

University of Missouri System Administration

Follow-Up Report on Audit Findings

Status of Findings

1.1 Incentive Payments

The Board of Curators or System President approved \$819,000 in incentive payments to top executives and administrators, including the chancellors of the 4 system campuses, for their performance during the years ended June 30, 2014 and 2015. An additional \$359,000 were paid in incentive payments for the fiscal year 2017. The incentive payments were made in accordance with Board of Curators approved Collected Rules and Regulations (CCR) 20.130, which allows the President to develop a pay system to facilitate recruitment, retention, and meaningful performance assessment of executive staff.

Incentive payments were made without a formalized and clearly defined process of how the additional compensation was to be earned, giving the appearance of year-end bonuses, which may violate the Missouri Constitution. The majority of these incentive payments were paid to administrators without formal approval by the Board of Curators of the individual amounts. Also, additional compensation is not included in the individual's published salaries, thereby reducing compensation transparency to the public. While the majority of the individuals participating in the incentive program are notified of their participation in the program through an offer letter or employment contract, no documentation was provided for two associate vice president-level employees to show they were clearly notified prior to the beginning of the year they were participating in the program.

Recommendation

Ensure the incentive pay program utilizes specific and objective measurement criteria to determine when incentive payments have been earned, and ensure all individuals participating in the program are clearly designated and notified. The Board of Curators should also ensure all incentive criteria have been met, approve all such payments, and ensure reported salaries include all compensation.

Status

Implemented

The incentive payment program has been eliminated as of March 10, 2017. In addition, incentive performance plans established through contracts for individuals reporting directly to the Board, including the System President, Board Secretary, and General Counsel, have been eliminated. No incentive payments have been issued since that date.

1.2 Chancellor Transition

With the approval of the then UM System President, the Columbia campus created a new position for the former Chancellor following his resignation in November 2015. The duties of the new position (Director of National Security Research Development) were not supported by the strategic plans of the UM System or the Columbia campus, the compensation for the position was significantly higher than other research administrators, and the Chancellor was allowed to keep additional compensation not required in his original contract.

University of Missouri System Administration
Follow-up Report on Audit Findings
Status of Findings

Recommendation

Ensure compensation terms for administrators are in the best interest of the UM System, the universities, and taxpayers.

Status

Implemented

The new position was eliminated and this individual is no longer working as an administrator at the university. The individual currently works as a professor at the Columbia campus as required by his original contract.

1.3 Vehicle Allowances

Vehicle allowances paid to UM System executives appeared excessive and resulted in a lack of transparency in executive compensation. The method to calculate the vehicle allowances did not approximate the actual expenses incurred by the employees on behalf of the system. Rather, vehicle allowance amounts paid by the UM System were calculated to be equivalent to the system providing a leased luxury vehicle to each participating executive, including insurance and fuel. Fifteen positions received vehicle allowances during the year ended June 30, 2016.

Recommendation

Ensure vehicle allowances are based on reasonable estimates of actual mileage, or reimburse executives based on actual miles traveled.

Status

Partially Implemented

The UM System has stopped paying vehicle allowances for 8 of the 15 administrators who received them during the audit period. In addition, the system is phasing out two additional administrators' vehicle allowances as their contracts come up for renewal during calendar year 2018. The vehicle allowances will continue for 5 positions (the Chief of Staff, System President, General Counsel, and 2 campus Chancellors) as a component of their compensation contracts. The vehicle allowances were determined during compensation negotiations and not based on reasonable estimates of actual mileage or on actual miles traveled as recommended. The table below shows the monthly average vehicle allowance for these 5 positions. Three of the 5 allowances will be less than the amounts paid during the audit period.

Monthly Average Vehicle Allowances by Position

Position	Fiscal Year 2018	Fiscal Year 2016
System President	\$ 1,463	1,310
General Counsel	1,323	1,307
Chancellor, Rolla Campus	1,081	1,234
Chancellor, Columbia Campus	1,075	1,300
Chief of Staff	501	1,254

Office of Missouri State Auditor
Nicole Galloway, CPA

Hazelwood School District

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Hazelwood School District

Cash Handling and Accounting Controls and Procedures	Significant improvements are needed in the district's cash handling internal controls and procedures. The district has a finance handbook that addresses cash receipting and depositing procedures. However, the guidance is limited and does not address some important procedures. The district has not or is unable to adequately segregate duties, and documented supervisory or independent reviews of the accounting records are not performed. Significant weaknesses exist in receipting, transmitting, and depositing monies received at some schools. The district does not have a list of approved change funds and the authorized balances or a written policy regarding change funds.
Central High School	Some monies received were not deposited and are missing, some district personnel did not follow Board policy regarding the theft, and the Board did not pursue resolution for the full amount missing. District personnel identified deposits with discrepancies made between August 2015 and October 2016. Improvements are needed in the handling of concession sales and inventory, and popcorn and summer snack sales, and there were unaccounted for differences between sales and amounts deposited.
Attendance Data and Procedures	The district improperly reported attendance resulting in receiving overpayments in state funding of approximately \$95,000. Student attendance is not always calculated accurately and, as a result, the district claimed student attendance hours when students were not present and received excess state monies. The district's attendance system does not limit the time period when changes can be made and there is no review by district officials to ensure changes made to current school year attendance records are appropriate.
Sunshine Law	The district did not always comply with the Sunshine Law and was not always consistent or transparent when notifying the public of board meetings. The public record request log documenting compliance with Sunshine Law requests was not complete. The Board discussed some topics in closed meetings that are not allowable by state law. The Board posted agendas for some "special Board retreat meetings" differently from other meetings and these meetings were not held on set dates or at set locations that would allow the public to otherwise be aware of the meetings.
Disbursements	District controls and procedures over disbursements need improvement. The district made disbursements that did not seem reasonable and/or provide a benefit to the school district. Disbursements were miscoded, invoices lacked proper approval, sales tax was paid on several purchases, and one employee's reimbursement was not accurate.
District Policies and Procedures	Various district policies and procedures need improvement. The district and school offices do not have security controls in place to lock computers after a certain period of inactivity. The district does not have controls and procedures in place to ensure salary schedules are accurate. The district did not solicit bids or proposals for several purchases of goods and services during the 2016-2017 school year.

Capital Assets and Fuel Usage	Controls and procedures over district property and fuel usage need improvement. The district does not always follow its policies and procedures for all capital assets. The district does not reconcile fuel logs to fuel billings.
Chromebook Laptop Computers	The district did not perform a comprehensive cost study for the 2015 Chromebook computer project and the purchase was not properly bid.
Vehicle Allowances	The district has not documented the basis for vehicle allowances, the allowance amounts, and the Associate Superintendent's mileage reimbursement.
Internal Audit Function	The district lacks an internal audit function that could have helped discover and/or resolve the weaknesses addressed in this report and noted by the district's financial auditors.
Board Oversight of District Resources	The Board did not always ensure the efficient use of district resources while the district faced a reduced fund balance.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Board of Education
Hazelwood School District

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Hazelwood School District. We have audited certain operations of the district in fulfillment of our duties. The district engaged Kerber, Eck & Braeckel, LLP, Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended June 30, 2017. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2017. The objectives of our audit were to:

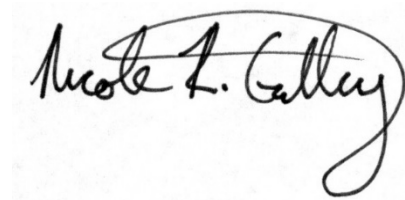

1. Evaluate the district's internal controls over significant management and financial functions.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Hazelwood School District.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Hazelwood School District

Management Advisory Report

State Auditor's Findings

1. Cash Handling and Accounting Controls and Procedures

Significant improvements are needed in the district's cash handling and accounting internal controls and procedures. District financial records show total student activity collections of over \$1.3 million for the 2016-2017 school year. These are comprised of various monies including student activity fees, athletic fees and event admissions, concession sales, and other monies. These types of receipts are at greater risk because there is a variety of handling and record-keeping methods throughout the schools. As a result of numerous control weaknesses, there is less assurance these monies have been handled and accounted for properly. We reviewed controls and procedures at Central, East, and West High Schools; Garrett Elementary School; Northwest and West Middle Schools; the Central Early Childhood Center; and the finance department.

School secretaries/cashiers are generally responsible for the receipting, recording, depositing, and reconciling of monies collected by teachers and organization sponsors and by school office personnel. Athletic event attendance and concession sales are generally handled by applicable school organizations and later transmitted to the school office. Administrators at each school provide minimal oversight of these functions and records. Further, the finance department performs minimal oversight of receipting and deposit transactions throughout the district.

1.1 Cash handling policies and procedures

The district has a finance handbook that addresses cash receipting and depositing procedures. However, the guidance is limited and does not address procedures for supervisory review of receipting and depositing, securing monies, counting and reconciling cash drawers, change funds, and record retention. The district also does not maintain an approved listing of employees with access to monies held in secure locations at all facilities. Our review determined cash handling procedures varied by location and identified several significant weaknesses. Sections 1.2, 1.3, and 1.4 discuss these weaknesses and the locations at which they were noted.

A lack of complete overall policies and procedures related to cash handling increases the risk of loss, theft, or misuse of district monies.

1.2 Segregation of duties and reviews

The district has not or is unable to adequately segregate duties, and documented supervisory or independent reviews of the accounting records are not performed. The school secretary/cashier (Garrett Elementary School, West Middle School, East High School, and the Central Early Childhood Center) receives and records monies and prepares deposits. At Central High School, one school secretary/cashier performs the duties of receiving, recording, and transmitting to the cashier monies collected for popcorn sales, summer snack sales, and transcripts in the registrar's office.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of

Hazelwood School District
Management Advisory Report - State Auditor's Findings

duties is not possible, periodic supervisory or independent reviews of the records should be performed and documented.

1.3 Receipts and deposits

Significant weaknesses exist in receipting, transmitting, and depositing monies received at some schools.

Receipt slips

Receipt slips are not consistently issued in accordance with district procedures and some receipt slips issued are not accurate or complete. In addition, supporting documentation is not always provided with monies transmitted to school secretaries/cashiers.

- Receipt slips are not issued at the Garrett Elementary School. In addition, receipt slips are not always issued at West and Northwest Middle Schools, and some receipt slips issued at Northwest Middle School are not accurate and complete. Also, Central High School personnel do not issue receipt slips for transcript fees received. As a result, deposits could not be reconciled to supporting documentation. In addition, although monies received at the finance department are entered on a receipt log, the date received is not documented.
- Receipts are sometimes received and transmitted to the secretary or cashier by several employees (teachers and activity sponsors) before deposit and there is not always adequate documentation provided (receipt slips or receipt log) to support the transmittal of monies from one employee to another. We identified this weakness at Central High School, West High School, East High School, Garrett Elementary School, and the finance department.

Depositing timely and intact Receipts are not always transmitted or deposited timely and intact.

- The Central Early Childhood Center did not timely transmit monies to Central High School secretaries for deposit. During our June 2017 cash count, we identified monies on hand totaling \$3,000 (\$1,400 in cash and \$1,600 in checks) that were held and not transmitted for more than 51 days. We also determined monies receipted during the month of July 2017 were held for up to 45 days before being transmitted.
- Monies are withheld by the Central High School athletic department from admission receipts and concession sales to establish change funds to be used for the next event (see section 1.4).
- Monies collected by teachers for student activities and by other office personnel for popcorn and snack sales may be held for extended periods of time prior to being transmitted to the school secretary/cashier for deposit. At Central High School, a former teacher held choir fundraising monies in her desk for an extended period of time before transmitting them to school administrators at their request in February 2016. The dates

Hazelwood School District
Management Advisory Report - State Auditor's Findings

recorded on the receipt slips totaling \$708 ranged from August 2015 to February 2016. The amount transmitted and deposited was only \$543. The difference of \$165 is unaccounted for. In addition, monies collected by Central High School office personnel for summer snack sales and popcorn sales are held and not deposited timely.

Reconciliation and oversight Detailed documentation to support deposits is not sent to the finance department as required by district procedures. Also, cash drawers are not always counted and reconciled daily.

School personnel are responsible for preparing deposits for periodic pick-up and delivery to the bank by an armored car service, and for providing details regarding types of monies collected and deposit information to the finance department for coding into the accounting system. Problems were identified with these processes, and with cash drawer and change fund cash count and reconciliation procedures.

- School secretaries/cashiers do not include documentation (a receipt log and/or copies of receipt slips or cash register summary tapes) in the information sent to the finance department to support deposits made by the schools. We reviewed documentation received by the finance department and noted this problem for all schools. As a result, finance department personnel cannot verify the composition of the receipt records or completeness of deposits. For example, Central High School athletic office personnel prepared 7 deposits that required a total of \$758 in corrections by the bank from August 2016 through October 2016 because the deposit slips did not agree to the total monies deposited. In addition, the finance department was unaware cash register tape receipt totals for several deposits prepared by Central High School's office personnel were changed to reduce the deposit amount to the amount of cash on hand, rather than the actual amount of monies collected. This allowed missing monies to go undetected for an extended period (see Management Advisory Report (MAR) finding number 2). District policy requires a copy of the deposit slip and a detailed receipt log (showing receipt slip numbers and receipt sources) be sent to the finance department.
- Cash drawers and change funds are not counted daily at the West High School, West Middle School, Garrett Elementary School, and the Central Early Childhood Center. District personnel indicated they are counted when deposits are prepared which is generally 2 or 3 times a week when the armored car is scheduled to pick up deposits. In addition, required cash count forms (provided by the district) were not used by personnel at West High School, West Middle School, Garrett Elementary School, and the Central Early Childhood Center; and a generic cash count form (not the district form) was used at Central and East High Schools when performing daily cash counts.

Hazelwood School District Management Advisory Report - State Auditor's Findings

Security of monies

Finance department personnel do not provide adequate physical security over monies on hand. For monies collected directly by the department, the key to the locked file cabinet where those monies are stored is located in an unlocked file cabinet. This key is accessible to numerous employees in the office who do not require access to the monies. In addition, monies transmitted to the school secretaries/cashiers for student activities, athletic events, and other sales are held in cash boxes that do not lock. Also, the district does not maintain a listing of employees at district facilities with access to locked areas where safes are located and who also know safe combinations.

Conclusion

To ensure all monies received are accounted for properly and reduce the risk of loss, theft, or misuse of funds, receipt slips should be issued for all monies received in accordance with district procedures and reconciled to the composition of receipts; and monies should be transmitted timely and intact, and properly secured.

1.4 Change funds

The district does not have a list of approved change funds and the authorized balances, or a written policy regarding change funds.

Change funds at Central High School are not maintained at a constant amount and no independent review is performed. The athletic department secretary indicated cash is retained from cash receipts for change funds and the amount varies. The secretary stated change fund amounts are determined based on the needs for upcoming events. For example, we noted change funds at a football game on October 29, 2016, were \$550, \$526, and \$300; and \$300 and \$350 for a football game on October 22, 2016. In addition, we identified, the change fund at the Central High School main office was \$21.64 above its established amount of \$200 in a April 20, 2017, cash count. The cashier stated the change fund continuously fluctuates.

To safeguard against possible loss, theft, or misuse of funds, procedures should be established to properly account for change funds.

Recommendations

The Board of Education:

- 1.1 Establish comprehensive policies and procedures that address all aspects of the cash receipting and depositing processes, and ensure district personnel perform continuous oversight and monitoring for compliance with policies and procedures.
- 1.2 Adequately segregate accounting duties or ensure documented supervisory or independent reviews of detailed accounting records are performed.
- 1.3 Ensure monies are properly receipted, transmitted, and deposited timely and intact; receipt slips indicate the method of payment; and receipts are reconciled to the composition of deposits. Also, the

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Board should ensure supporting documentation is submitted and reconciled to the transmittal or deposit information, cash drawers are counted daily, and monies are properly secured.

- 1.4 Develop written procedures for establishing and maintaining change funds that identify lists of established funds and authorized amounts, require maintenance of change funds at constant amounts, and address periodic counting and reconciliation procedures.

Auditee's Response

- 1.1 *The district agrees with the recommendation. The district will review and expand on current policies and procedures, including the finance handbook, in order to ensure that they address all aspects of the cash receipting and depositing processes and to ensure that district personnel perform continuous oversight and monitoring for compliance. The policies and procedures will provide a set of standardized accounting guidelines, procedures, and safeguards to reduce the risk of loss or theft. In addition, the policies and procedures will contain guidance on cash receipts, deposits, record retention/support, positions responsible at each site, segregation of duties and security of funds, internal review/reconciliation and oversight process, and required training for all staff responsible for cash handling prior to assuming duties.*
- 1.2 *The district agrees with the recommendation. In addition to the overall procedures noted in section 1.1, the district will review the segregation of duties at each site. Where staffing allows, financial duties will be segregated. Where it is not possible or financially reasonable, the district will initiate procedures that detail supervisory reviews of accounting records. The procedures will include the audit/review chain of the records as well as guidelines for the timely supervisory review of records.*
- 1.3 *The district agrees with the recommendation. As noted in MAR finding number 10, the district plans to restructure the finance department and specifically assign duties to an employee who is involved in the daily review of operations and activities including accounting guidelines, procedures and safeguards to reduce the risk of loss or theft, cash receipts, deposits, record retention/support, positions responsible at each site, segregation of duties and security of funds, internal review/reconciliation and oversight process, and required training for all staff responsible for cash handling prior to assuming duties. The staff member assigned will develop guidelines for training new staff as well as annual training and updates for all staff. The assigned staff member will also identify processes and procedures that require review and updates, periodically visit*

Hazelwood School District
Management Advisory Report - State Auditor's Findings

buildings to ensure that procedures are being implemented, and be available for questions and retraining as necessary.

The district will review and update procedures which will provide a set of standardized accounting guidelines, procedures, and safeguards to ensure that monies are properly receipted, transmitted, and deposited timely and intact. The procedures will contain guidance on cash receipts, deposits, record retention/support, positions responsible at each site, segregation of duties and security of funds, internal review/reconciliation and oversight process, and required training for all staff responsible for cash handling.

The district will review and revise procedures to ensure that accurate receipt slips are consistently issued, that supporting documentation is provided, and that records support the transmittal of monies from one employee to another. In addition, district procedures will outline expectations for the depositing of monies in a timely manner.

The district will review procedures and provide training to ensure that detailed documentation to support deposits is sent to the finance department. These procedures will address the need to count cash drawers and reconcile them daily.

The district has already addressed the issue of the key in the unlocked file cabinet. The district will develop a list of employees at district facilities with access to locked areas where safes are located and who know safe combinations.

- 1.4 *The district agrees with the recommendation. The district will develop written procedures for establishing and maintaining change funds. The procedures will identify lists of established funds and authorized amounts, provide procedures for maintenance of change funds at constant amounts, and provide for periodic counting and reconciliation. In addition, the policies and procedures will contain guidance on cash receipts, deposits, record retention/support, positions responsible at each site, segregation of duties and security of funds, internal review/reconciliation and oversight process, and required training for all staff responsible for cash handling.*

2. Central High School

Some monies received were not deposited and are missing, some district personnel did not follow Board policy regarding the theft, and the Board did not pursue resolution for the full amount missing. In addition, monies collected for concession, popcorn, and snack sales were not properly secured and records indicate all sales proceeds may not have been deposited. Also, inventory procedures are not adequate.

Hazelwood School District
Management Advisory Report - State Auditor's Findings

2.1 Undeposited cash receipts

District personnel identified deposits with discrepancies made between August 2015 and October 2016. The discrepancies totaled \$8,175. The former Central High School Principal admitted to taking an unspecified amount of monies and repaid \$3,080. The additional \$5,095 received and not deposited is also likely missing. The district did not pursue repayment for this additional amount.

We obtained documents related to the missing monies from the district's internal investigation (further details follow) and from other school personnel including receipt information and written statements provided to the district by various employees. Available cash register tape totals provided by Central High School employees and the Associate Superintendent of Human Resources showed the total amount receipted that should have been deposited. However, handwritten notations were made on the tapes to indicate the amount receipted should be reduced to the amount of monies actually on hand for deposit. The cashier and secretary indicated they manually adjusted the register totals to equal the actual amount deposited as directed by the former principal. The following chart shows cash receipts recorded in the school's cash register, amounts deposited, deposit shortages, and the amount repaid by the former principal.

Missing Monies

Date Received	Register Totals	Amount Deposited	Deposit Shortage
August 5, 2015	\$ 2,177	1,874	303
August 13, 2015	2,414	2,261	153
September 3, 2015	4,864	4,667	197
September 10, 2015	9,640	9,402	238
September 14, 2015	2,004	1,853	151
October 7, 2015	626	346	280
October 28, 2015	5,735	5,223	512
November 4, 2015	1,881	1,815	66
April 11, 2016	10,776	8,904	1,872
April 21, 2016	8,420	8,335	85
April 25, 2016	22,000	21,000	1,000
June 30, 2016	2,541	2,303	238
July 25, 2016	5,625	4,455	1,170*
July 26, 2016	3,865	3,585	280*
July 26, 2016	430	225	205*
July 27, 2016	5,570	5,150	420*
July 27, 2016	921	828	93*
July 28, 2016	1,138	618	520*
August 22, 2016	1,777	1,735	42*
September 16, 2016	2,432	2,332	100*
October 19, 2016	1,466	1,216	250*
Total	\$ 96,302	88,127	8,175

* The district obtained repayment for these amounts, totaling \$3,080, in November 2016.

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Internal investigation

In October 2016, the Associate Superintendent of Human Resources conducted an investigation into missing monies from receipts collected at the Central High School administration/cashier's office. The former cashier, school office secretary, and athletic director were interviewed and provided written statements and supporting documentation detailing several deposits with shortages. Employees provided statements to the Associate Superintendent of Human Resources that the former principal had access to the room where the safe holding the monies was located and had known the combination of the safe since March 2015. In addition, employees stated each time there was a shortage they informed the former principal. However, the shortages were never reported to security, district administrators, the Superintendent, or the Board as required by policy. Employees also stated the former principal told them district administration did not need to be informed.

During the investigation the former principal was found to be in violation of Board policies and placed on administrative leave. Shortly thereafter, the former principal admitted to taking monies and repaid the amount identified as missing from the period July 2016 through October 2016 (as shown in earlier table). She resigned effective October 27, 2016, and paid \$3,080 to the district in November 2016. The district did not attempt to collect additional missing monies from April 2015 through June 2016, totaling \$5,095. The Associate Superintendent of Human Resources indicated the district did not attempt to collect any of the additional missing monies from prior years from the former principal because district personnel did not believe they had sufficient evidence to prove she had taken those monies. In addition, the Board stated it agreed to this decision and discussed contacting law enforcement with district legal counsel and decided against it; however, there was no supporting documentation indicating these Board decisions.

Conclusion

Several weaknesses and lack of internal control policies and procedures (see MAR finding number 1) as well as a failure of personnel to follow existing policy for reporting suspected fraud created a situation that allowed theft to occur and remain undetected for a significant period of time. Further, both not pursuing full repayment of missing monies and not pursuing law enforcement involvement allowed the former principal to resign without penalty and remain potentially eligible for retirement.

Internal controls are necessary to adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds. Board policy DA requires any person with reasonable cause to suspect fraud to report the suspicion to the superintendent immediately, and for the superintendent to investigate the suspected fraud and report the information to the Board if the allegations are substantiated. The policy also provides for the Board to contact law enforcement after consultation with the superintendent and legal counsel. Section 105.669, RSMo, provides that participants of any retirement plan established by the state or any political subdivision who are convicted of

Hazelwood School District Management Advisory Report - State Auditor's Findings

felony stealing related to duties directly related to employment of over \$5,000 in money, property, or services are ineligible to receive retirement benefits from the plan.

2.2 Concession sales and inventory

Improvements are needed in the handling of concession sales and inventory, and popcorn and summer snack sales. Monies are collected, counted by sponsors, students, or school employees and transmitted to a school cashier for receipting and preparing deposits.

Sales procedures and records

The school uses cash boxes that do not lock to store monies collected during concession, summer snack, and popcorn sales and no sales records are maintained to track receipts. As a result, cash receipts are not secure, personnel cannot reconcile receipts to transmittals or deposits, and there is no assurance all monies collected are deposited.

We reviewed popcorn and summer snack sales for the 2016-2017 school year and determined the amount transmitted was less than the estimated sales based on inventory used. Popcorn sales receipts deposited totaled \$1,752. Based on the amount of popcorn sold we estimate the profit should have been \$5,643,¹ \$3,891 more than deposited. Summer snack sales receipts deposited totaled approximately \$1,951. The school estimated the profit for the summer snacks purchased and sold to be \$2,456, \$505 more than deposited. School personnel responsible for the sale and monitoring of the monies collected could not account for these differences.

To ensure monies are accounted for properly and transmitted or deposited, receipts should be secured and sales records should be used and reconciled to monies collected.

Inventory

School and district personnel do not maintain perpetual inventories for concession, popcorn, or summer snack sales or reconcile inventories to purchases. District personnel only perform a weekly check to determine what merchandise is needed.

Loss, theft, or misuse of school inventory may go undetected without adequate inventory records and documented reconciliations. Effective inventory internal controls require maintaining perpetual records of all inventory items and performing a reconciliation of these records to the balances obtained during the physical inventory count.

¹ The estimated profit was calculated by determining the approximate number of bags of popcorn yielded from prepackaged popcorn, 6,192, and sold at \$1.00 dollar per bag, \$6,192, and deducting the actual cost of the product purchased, \$549, resulting in an estimated profit of \$5,643. According to district personnel there was no unpopped prepackaged popcorn remaining in inventory, so our calculations assume all was sold.

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Education:

- 2.1 Ensure any future incidents of missing monies are investigated including pursuing full repayment and law enforcement involvement as appropriate. The Board should also ensure compliance with policy regarding reporting of instances of suspected fraud.
- 2.2 Ensure monies are properly receipted and establish procedures to provide assurance all monies received from sales made at schools are transmitted for deposit intact. In addition, the Board should ensure school personnel maintain inventory records and inventory balances are reconciled to purchases and sales.

Auditee's Response

- 2.1 *In relation to the incident noted in the report, district central office personnel did follow existing Board policy. In addition, personnel who failed to follow Board policy DA by failing to report the theft were properly reprimanded. After consultation with the superintendent and legal counsel, the Board made a decision not to notify law enforcement as the amount that could be substantiated regarding the individual was below the \$5,000 requirement. As the investigation revealed numerous rumors and innuendos, the district was unable to substantiate the sources of the missing \$5,095 which resulted in a lack of adequate proof to pursue restitution beyond that which was collected. Therefore, in summary, the district followed Board policy, consulted with legal counsel, and pursued and received restitution for the amounts it could confirm.*

Regarding the recommendation, the district always agrees that any incidents of missing monies should be investigated and agrees with pursuing full repayment and involving law enforcement as appropriate. In the event of any future incidents, the Board will continue to ensure compliance with the policy regarding reporting instances of potential fraud.

- 2.2 *The district agrees with the recommendation. As noted in responses to MAR finding number 1, the district will review and expand on current policies and procedures in order to ensure that they address all aspects of the cash receipting and depositing processes and to ensure that district personnel perform continuous oversight and monitoring for compliance. The policies and procedures will provide a set of standardized accounting guidelines, procedures, and safeguards to reduce the risk of loss or theft, including maintenance and review/reconciliation of inventory to purchases and sales. There will also be additional training and more supervision.*

The district will purchase locking cash boxes and require their use as part of the procedures for sales of various products and tickets. In

Hazelwood School District Management Advisory Report - State Auditor's Findings

addition, the procedures will outline the use of sales records so that cash receipts can be reconciled against sales and inventory can be tracked. Included in the procedures will be a format for tracking inventory that will be required for all entities.

3. Attendance Data and Procedures

The district improperly reported attendance resulting in receiving overpayments in state funding of approximately \$95,000. In addition, the district does not have procedures to limit when changes can be made to the attendance system and does not review changes made.

Our review of codes entered into the system and subsequent changes showed the initial coding and changes made by teachers and/or secretaries are in accordance with the district attendance handbook. However, the district's attendance system is not programmed to deduct time when appropriate. As a result, the district's reporting conflicts with state Department of Elementary and Secondary Education (DESE) guidelines.

3.1 Attendance hours

Student attendance is not always calculated accurately, and as a result, the district claimed student attendance hours when students were not present and received excess state monies. We reviewed the 2016-2017 school attendance records for Central High School, West High School, East High School, and Northwest Middle School and determined time is not deducted from student attendance hours for students arriving after "grace periods" and when they are not in attendance for part of the school day.

Teachers can only record students not in attendance at the beginning of class as tardy by marking a "T" (arrived late but within the grace period²) or absent by marking an "A" in the system. If a student comes to class after being marked absent, the "A" is removed and the full amount of class time is credited although the student was not present for the entire class period. School secretaries also change the "A" to "C" for cut if a student is absent for one class but attended the class before and after. No time is deducted from the student's attendance hours when hours are coded as "C" and the district receives credit for the student's attendance even though the student is not present. District personnel stated this is because the student is considered to be on campus even though not in class and a student on campus is considered to be under school supervision. This is not consistent with DESE guidelines that indicate the student should be under the direct supervision of a certified employee to be considered in attendance.

We determined the district overstated student attendance hours for the 4 schools by approximately 14,787 hours for the 2016-2017 school year by not

² The grace period for students to be considered on time for class is no later than 5 minutes after class officially begins.

Hazelwood School District Management Advisory Report - State Auditor's Findings

reducing attendance hours for students who did not attend class. The estimate was calculated using student attendance records coded with "C" indicating they were not in attendance during class time. Because attendance hours are used to determine state funding, in part, the overstated student attendance hours resulted in approximately \$95,000 in excess state funding for the 4 schools. If additional years or schools were reviewed the amount would likely be more. The following is a breakdown of overstated attendance hours by school.

School	Hours Not in Attendance
West High School	8,420
Central High School	4,469
East High School	1,512
Northwest Middle School	386
Total	14,787

Further, if a student arrives for his or her first class after the tardy grace period, no time is deducted from the student's attendance hours. In these cases, the time is coded as "T" (tardy) or "Q" (tardy excused), but the attendance system does not deduct time for the period the student was not in attendance when these codes are used. Grace period times used for the beginning of the day are significantly different than the 5 minute classroom grace period used by teachers. Class times are 45 minutes for middle school and 90 minutes for high school. Grace period times vary significantly between elementary (33 minutes, arriving 9:23 a.m. or earlier), middle (23 minutes, arriving 8:33 a.m. or earlier), and high schools (50 minutes, arriving 8:20 a.m. or earlier) and no documentation was available to determine how the grace periods and times were determined. We noted 1,182 student attendance records at the 4 schools reviewed were marked tardy using the "T" or "Q" code with no time deducted. This represents additional time claimed by the district as attendance when the students were not present. We were unable to quantify the amount due to the varied times of arrival and grace periods.

Accurate attendance data is necessary to ensure the district complies with applicable state and federal guidelines and appropriately claims state funding. Attendance hour reporting guidelines distributed by the DESE state, "Students must be in attendance in an instructional capacity under the direct supervision of a certificated employee of the district to be counted for attendance purposes." In addition, DESE guidelines state a district must collect attendance and absence hours in a consistent manner either by the minute or hour and the guidelines do not include provisions for "grace periods."

3.2 Attendance procedures

The district's attendance system does not limit the time period when changes can be made and there is no review by district officials to ensure changes

Hazelwood School District Management Advisory Report - State Auditor's Findings

made to current school year attendance records are appropriate. The risk of erroneous changes significantly affecting attendance reports submitted to the DESE is increased due to the extended time period during which changes can be made along with the lack of review procedures.

District procedures require recording of daily student attendance in the attendance system by each teacher or by a school secretary when a teacher is absent. The attendance secretary at each school generates a daily summary report to ensure all attendance has been entered. Changes after that day have to be made by the attendance secretary. However, changes to the attendance records can be made anytime by the attendance secretary during the current school year. Currently the attendance system cannot generate a detailed summary report documenting all changes made, further limiting the district's ability to monitor this information.

Correcting attendance data is necessary to ensure accuracy in the reporting process and any changes must be made before attendance can be certified to the DESE. However, review and approval of all changes is necessary to ensure reliability of the data.

Recommendations

The Board of Education:

- 3.1 Ensure the district corrects attendance records and complies with DESE attendance guidelines. In addition, the Board should develop a formal policy on how to record the attendance of students who arrive late for class and ensure such policy meets DESE guidelines.
- 3.2 Implement additional controls and procedures to ensure student attendance data is accurately recorded and reported, including restricting the time period when changes can be made without authorization. The Board should also ensure the attendance system is programmed to generate an audit trail report or report of changes, and that this report is reviewed for accuracy.

Auditee's Response

- 3.1 *The district agrees that attendance records should comply with DESE attendance guidelines and will review policies and procedures to ensure that this is occurring. As part of the initial review, the district is correcting the issue related to the "C" ("Cut") attendance code. This occurred when a student attended a period, missed or cut a period, then attended the next period, and was assumed to be present and in the school for the missed/cut period. As a result of this correction, a "C" will not receive any credit for attendance going forward.*

However, the district followed DESE guidance regarding the "late arrival" issue. During the 2015-16 school year the district sought additional guidance from DESE and has an email dated February 5,

Hazelwood School District Management Advisory Report - State Auditor's Findings

2016, which states that "If a student is late, for whatever reason, but arrived in time for the majority of the class period, they could be counted 'tardy' in your system but present for the class period." The district already developed its procedures for recording the attendance of students who arrive late to class based on this guidance. This procedure and the times noted are based on students who arrive and attend for the majority of the class period. Although the current procedure appears to allow a student to be tardy for more than a majority of the first period, this is due to the procedure being based on averages for all schools. Therefore, the district will update its procedure so that the minutes reflected clearly indicate that students must be in attendance for a majority of the period in order to be counted present.

- 3.2 The district agrees student attendance data must be accurately recorded and accurately reported. However, limiting the time frame during which corrections can be applied could run counter to the goal of accuracy. While the software already allows for some tracking, the district is reviewing further options for detailed audit trail documentation with the software vendor. The district will implement a procedures which will require administrative approval of any changes after a specified number of days and administrative review of the change log/audit trail by the building principal or his/her administrative designee on a regular, timely basis. The district is committed to the intent of the recommendation to create, maintain, and report accurate student attendance data.

4. Sunshine Law

The district did not always comply with the Sunshine Law and was not always consistent or transparent when notifying the public of board meetings.

4.1 Sunshine Law requests

The public record request log documenting compliance with Sunshine Law requests was not complete. We noted 4 requests from media outlets were not recorded in the log.

To ensure compliance with Sunshine Law request requirements, the district should document adequate information in its log to determine if requests are completed timely and adequately completed.

4.2 Closed meetings

The Board discussed some topics in closed meetings that are not allowable by state law. According to minutes of closed meetings, unallowable topics included graduation dates and times, polling the Board and by consensus agreeing to allow the administration to pay bills, and acquiring consulting services for the Chief Financial Officer. The Board also discussed the overall budget impact of changes in custodial positions in a closed meetings which may be unallowable. The Board did not maintain sufficient documentation to demonstrate how this discussion in a closed meeting would be allowable under the law.

Hazelwood School District Management Advisory Report - State Auditor's Findings

Section 610.022, RSMo, mandates that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in the justification for closing the meeting.

4.3 Agendas for Board retreat meetings

The Board posted agendas for some "special Board retreat meetings" differently from other meetings and these meetings were not held on set dates or at set locations that would allow the public to otherwise be aware of the meetings. The agendas for 5 of the 6 special Board retreat meetings held between July 2016 and June 2017 were not posted on the district's website like other meetings. Rather, district personnel indicated agendas for the special Board retreat meetings were physically posted at the administration building and the location where the meeting would be held. These meetings were held periodically on varied dates and at varied locations throughout the year so the public could not readily anticipate when or where such a meeting would be taking place without the agenda posting. As a result, the district was not open and transparent when informing district residents of all Board meetings allowing them to participate in matters affecting the district.

Consistent procedures for posting agendas are essential to provide transparency of the date and location of all Board meetings, and ensure the public is informed. In addition, Section 610.020, RSMo, requires all public governmental bodies give notice of the time, date, and place of each meeting, and its tentative agenda, in a manner reasonably expected to advise the public of the matters to be considered.

Recommendations

The Board of Education:

- 4.1 Maintain and update the public record request log.
- 4.2 Ensure items discussed in closed meetings are allowable topics under state law and adequately documented as such.
- 4.3 Ensure the process for posting agendas for all Board meetings is consistent to ensure the public is informed of all upcoming meetings.

Auditee's Response

- 4.1 *The district has complied with all public requests under the Sunshine Law. However, while it is not required by the Sunshine Law, the district will maintain and update a public request log as recommended.*
- 4.2 *The district agrees that it should ensure that items discussed in closed meetings are allowable topics under state law and that it should adequately document these proceedings. However, the district does not agree with the concerns noted regarding the Chief Financial Officer's services and custodial positions. Those discussions were appropriate as individual names were discussed, making it an allowable closed meeting exception. While the Chief Financial*

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Officer's services were through a consultant, there was discussion of specific individuals to serve in that role as well as a current employee who was serving as the interim director and leaving the position, which created the need for the consultant. The district acknowledges the items noted regarding the payment of bills and the graduation announcement were not appropriate for a closed meeting; however, this was atypical and not normal district practice as it occurred due to a disruption in the regular Board meeting. In the future, the district will maintain sufficient documentation to demonstrate that the discussion in a closed meeting is allowable.

- 4.3 *The district has complied with Board meeting posting requirements under the Sunshine Law. Agendas for Board retreats were posted at the administrative building and at the meeting location, as are all agendas. The district agrees that the public should be informed of all Board meetings and will ensure that the process for posting agendas for meetings is consistent by posting Board retreats on the website as well. However, while the district understands the purpose of the recommendation, the district has followed Sunshine Law posting requirements.*

Auditor's Comment

- 4.2 The district closed the meetings for discussions of contracting for consulting services and custodial staff under Section 610.021(3), RSMo. This provision permits the closure of Board meetings for the hiring, firing, disciplining, or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded. As used in this subsection, the term "personal information" means information "relating to the performance or merit of individual employees." The discussion of contracting for a consultant was not a discussion involving a district employee; therefore, the discussion was not allowable in a closed meeting. Any discussion of other individuals was not documented in the closed meeting minutes. Sufficient documentation should be included in meeting minutes to demonstrate compliance with closed meeting requirements. Additionally, the meeting minutes documenting the discussion of custodial staff referred to above do not include individual names and only include a discussion of the budget impact of custodial staff attrition and reduced hours.

5. Disbursements

District controls and procedures over disbursements need improvement.

5.1 Questionable disbursements

The district made disbursements that did not seem reasonable and/or provide a benefit to the school district.

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Missouri School Board
Association conference

The district spent at least an additional \$1,301 to have a district security guard drive Board members and the Superintendent to the Missouri School Board Association (MSBA) conference (4 days and 3 nights at the Lake of the Ozarks) in September 2016. The district did not perform a comparison of the individual travel costs of Board members to the cost of having the district provide the transportation. The table below compares the lodging and travel costs for the security guard to drive the Board members to mileage costs assuming each Board member drove his or her own vehicle.

Expenses	Amount
Van rental	\$ 471
Fuel	35
Salary (using hourly overtime rate of \$34.14)	1,562
Lodging	487
Meals	69
Subtotal	2,624
Less: Potential mileage reimbursements to Board members	(1,323)
Total Additional Cost	\$ 1,301

Charity auction

The district paid \$200 to purchase 5 tickets for a charity dinner auction at Trinity Catholic High School in October 2016. The purpose of the auction was to raise money for the catholic school. The disbursement was also miscoded as general supplies in the accounting system. Using district funds to make donations and raise money for private schools is not a reasonable and prudent use of taxpayer monies.

Retirement party

District personnel used the district credit card to pay \$373 for a retirement party at a local casino restaurant in May 2017. The receipt provided was only the credit card slip that showed total paid and did not include itemized information to show what was purchased or how many people were served. District officials stated that the Soft Drink Fund student activities monies were used so the purchase was appropriate. However, these monies are still district monies earned through soft drink sales from a district contract.

Board and Office of the
Superintendent disbursements

We reviewed all disbursements for the 2016-2017 and 2015-2016 school years allocated to the Board and the Office of the Superintendent. We noted disbursements for sympathy flowers, sympathy cards, meals, gifts, additional airline fees, t-shirts, sales taxes, excessive tipping, valet parking, bellhop and room tips, and various travel expenditures that, while possibly appropriate, should be reviewed to ensure they are the best use of district resources. The following tables document the specific disbursement categories that should be reviewed for reasonableness.

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Board of Education

Disbursement Category	School Year 2015-2016	School Year 2016-2017	Total
Other Purchased Services ¹ \$	29,416	29,024	58,440
Travel Airline	1,354	0	1,354
Travel Meals	170	94	264
Travel Transportation	627	1,472	2,099
Dues and Memberships	146,981	102,314	249,295
Meeting Expenses	11,796	10,704	22,500
General Supplies	2,219	679	2,898
Total	\$ 192,563	144,287	336,850

¹ Other purchased services include flowers, meals, gifts, and t-shirts.

Office of the Superintendent

Disbursement Category	School Year 2015-2016	School Year 2016-2017	Total
Other Purchased Services ¹ \$	474	288	762
Local Mileage and Expenses	2,982	1,846	4,828
Admin Travel Cost	2,031	6,218	8,249
Admin Travel Lodging	2,906	1,514	4,420
Admin Travel Meals	1,208	106	1,314
Admin Travel Transport	1,708	595	2,303
Admin Travel Miscellaneous	230	197	427
Meeting Expenses	12,498	6,177	18,675
General Supplies	7,833	1,766	9,599
Total	\$ 31,870	18,707	50,577

¹ Other purchased services include flowers, meals, gifts, and t-shirts.

Conclusion

While some expenditures may be appropriate, the district should continually review and evaluate the disbursements included in these categories when considering budget decisions in the future and ensure taxpayer money is used for the benefit of the students. Disbursements benefitting students may include additional technology, classroom resources, or additional opportunities for field trips. For comparison, per district officials, a field trip for an elementary school class of 25 to the St. Louis zoo would cost the district approximately \$220. Based on this, the district could pay for 749 elementary class zoo field trips (approximately 18,725 students total) with the 2016-2017 school year disbursements shown in this section. Also, total disbursements in these categories substantially decreased between the 2015-2016 and 2016-2017 school years indicating some expenditures may not have been necessary. Additionally, Board policy GCQD notes that while the Board encourages staff members to become involved in professional organizations, the demands of the organization may become a budgetary factor. A similar consideration should be given to the cost of membership, dues, and travel related to Board membership in professional organizations.

Hazelwood School District Management Advisory Report - State Auditor's Findings

Public funds should be spent only on items necessary and beneficial to the district and enhance the education process. District residents have placed a fiduciary trust in their public officials to spend district revenues in a prudent and necessary manner. Adequate controls should be in place to properly monitor these disbursements to ensure accuracy, necessity, and reasonableness.

5.2 Disbursement controls

Disbursements were miscoded, invoices lacked proper approval, sales tax was paid on several purchases, and one employee's reimbursement was not accurate. We tested 135 district disbursements totaling \$186,494 from the 2015-2016 and 2016-2017 school years and identified various problems.

- Three invoices totaling \$2,449 were miscoded when entered into the accounting system for payment. A hotel bill for \$2,104 was miscoded to a function account number not listed in the chart of accounts, airline tickets costing \$320 were coded to conference fees, and meal expenses for \$25 were coded to local mileage. Inaccurate coding prevents disbursements from being properly classified for reporting purposes and may misrepresent the actual types of disbursements made.
- The district paid \$508 in state sales tax on 52 transactions which included \$222 in sales tax charged on 4 hotel rooms and \$61 for car rentals.
- Three invoices totaling \$555 for travel reimbursements did not have documented approval from a supervisor and 2 invoices for \$174 for mileage were approved by the employees being reimbursed. In addition, 1 of the 3 travel reimbursements, which was not approved, was overpaid \$56 because the district did not take into account the travel advance already provided. District officials were unaware of the overpayment. Per district officials, this amount was repaid in October 2017.

To reduce the possibility of fraud or misuse of district assets, the Board should ensure disbursements are accurate, correctly coded, approved, and comply with district policy.

Recommendations

The Board of Education:

- 5.1 Ensure costs incurred by the district are necessary and a prudent use of taxpayer monies.
- 5.2 Ensure disbursements are properly coded and approved and sales tax is not paid.

Auditee's Response

- 5.1 *The district agrees that it should always ensure that costs incurred by the district are necessary and a prudent use of taxpayer monies. At the same time, the district believes that there is some additional*

Hazelwood School District
Management Advisory Report - State Auditor's Findings

context to the concerns outlined in the audit. First, regarding the MSBA conference, the district security guard attended for the purpose of assisting physically disabled Board members. Second, regarding the charity dinner auction, this was not a donation but was participation in a community event to which the district has historically sent representatives. Third, while the district understands the concern regarding the school level retirement party for a teacher with decades of service to the district and its students, the use of profits from soft drink sales have traditionally been given more flexibility regarding the expenditure of funds at the school level. However, the district will review the use of soft drink funds. Finally, the Board consistently reviews expenditures for appropriateness and approves all bills for payment at Board meetings. The audit report did not indicate that the Board expenditures were inappropriate, rather the audit report outlined recommendations to review and evaluate expenditures, which the district already does and will continue to do. For example, regarding the sympathy cards and flowers noted in the audit report, the Board believes they are appropriate and show concern and care when a staff member suffers a death in the immediate family. The cost is modest and monitored. In addition, the Board – as it is believed is practice with most boards – has a modest meal available before the Board meeting since meetings are in the evening and most Board members come directly from work or other commitments.

Finally, a number of other expenses, while noted as possibly appropriate, were identified in the items audited over a two-year period and are explained below. Some of these expenses included:

- T-shirts – These are shirts with the district logo which the district has purchased for Board members to represent the district at events. Much like items with specific logos are purchased for schools, this is part of representing the district in a professional manner. Costs are modest and moderate.*
- Materials shipped to home – This was the shipping of materials to an activity sponsor's home, which occurred because the activity had a competition over the holidays and the school sponsor would not have been able to pick up the item at the school as it was closed.*
- Airline fees – The district has put a procedure in place where any extra fees charged at the time of a reservation, unless necessary due to physical limitations, are to be reimbursed to the district. This has been in place for over a year.*

Hazelwood School District Management Advisory Report - State Auditor's Findings

- *Excessive tipping – The district will review and recommunicate its tipping policy and require reimbursement from any staff who exceeds the policy.*

In addition, there was an example of the number of zoo trips that could be taken with the district funds. Hazelwood School District students participate in multiple enrichment activities throughout the year, and the district will continue to support such activities, which may or may not include attending the zoo. As noted, there are a variety of ways in which funds may be spent which are necessary and beneficial to the district and those will continue to be reviewed. What was not noted in the audit report was that a significant portion of the identified funds were for the district's memberships in the Missouri School Board Association, the Missouri School Board Association policy service, Education Plus (a St. Louis area school district cooperative), and the National School Board Association, all organizations that serve to assist and guide boards and districts towards success.

- 5.2 *The district agrees with the recommendation. As noted in responses to MAR finding number 1, the district will review and expand on current policies and procedures in order to ensure that they provide a set of standardized accounting guidelines, which will include procedures to ensure that sufficient supporting documentation is maintained, disbursements are properly coded and approved, and sales tax is not paid. The position outlined in the response to MAR finding number 10, as well as other financial department staff, will consistently review expenditure codes for accuracy and appropriateness and review expenditures to ensure sales tax is not included in cases where the vendor does honor the tax-exempt status, as some out-of-state vendors do not.*

6. District Policies and Procedures

Various district policies and procedures need improvement.

6.1 Electronic data security

The district and school offices do not have security controls in place to lock computers after a certain period of inactivity. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing unattended computers and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

6.2 Salary schedules

The district does not have controls and procedures in place to ensure salary schedules are accurate. In accordance with Board policy, the Director of

Hazelwood School District Management Advisory Report - State Auditor's Findings

Human Resources (HR) compiles 12 salary schedules for various titles/functions (e.g., teachers, administrators, supervisors) and provides the schedules to the Board for approval in the spring prior to the upcoming school year. There is no review process for the salary schedule calculations prior to Board approval. The HR Department creates employment contracts based on the approved salary schedules.

The Board approved a 1 percent increase to all salaries on the 2016-2017 school year salary schedules. We recalculated the salary schedule amounts to determine if the increases were properly implemented and determined several salary pay steps for clerical employees were not increased by the approved percentage. For example, 2 salary steps decreased by approximately 1 percent and 2 salary steps increased by 2.38 and 5.3 percent. We also noted several rounding errors and inconsistencies when calculating salaries. Several salaries were rounded up to an amount higher than the next whole dollar or rounded up when they should have been rounded down.

Accurate salary schedules are essential to ensure all employees receive the correct compensation.

6.3 Competitive bidding

The district did not solicit bids or proposals for several purchases of goods and services during the 2016-2017 school year. District personnel have not solicited proposals for legal services since 2005. The district paid \$1,050,071 for legal services during the 2016-2017 school year. Additionally, purchases for mulch and swimming pool products were not bid. The district spent a total of \$22,400 and \$12,528, respectively, with mulch and swimming pool product vendors during the 2016-2017 school year. Also, a plumbing repair for \$5,576 was not bid. District personnel indicated this was an emergency repair; however, this was not documented. Since these items and services are readily available from multiple vendors, the district could benefit from a more competitive procurement process.

Competitive bidding helps ensure the school district receives fair value by contracting with the lowest and best bidders. In addition, bidding helps ensure all parties are given an equal opportunity to participate in the district's business. District policy DJF-2 states, "employees are expected to contact multiple providers before making a decision regarding purchases under \$3,500. Purchases of \$3,500 or more will be competitively bid informally, and sealed bids will be required for purchases that may exceed \$15,000."

Recommendations

The Board of Education:

- 6.1 Ensure computers have security controls in place to lock the computer after a certain period of inactivity.
- 6.2 Ensure procedures are implemented to review all employee salary schedules for accuracy and completeness.

Hazelwood School District
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 6.3 Ensure all significant purchases of goods and services are subject to a competitive procurement process. If it is necessary to purchase goods or services from a sole source vendor or on an emergency basis, the reasons should be documented.
- 6.1 *The district agrees with this recommendation and has already implemented procedures that will lock computers with access to sensitive information after a period of inactivity.*
- 6.2 *The district agrees with this recommendation and is implementing a procedure where the Human Resources office will develop salary schedules which will then be reviewed for accuracy by the finance department.*
- 6.3 *The district agrees that it should ensure all significant purchases of goods and services are subject to a competitive procurement process and that if it is necessary to purchase goods or services from a sole source vendor or on an emergency basis, the reasons should be documented. At the same time, the district notes that the mulch and pool product purchases cited were during the course of the entire year, not one time purchases that exceeded policy. However, the district agrees that it is good practice to review such purchases and determine if a competitive quote or bid process is appropriate in the future. The district will initiate a proposal process for its legal services during the next fiscal year.*

7. Capital Assets and Fuel Usage

Controls and procedures over district property and fuel usage need improvement.

7.1 Capital asset procedures

The district does not always follow its policies and procedures for all capital assets. As a result, assets are more susceptible to theft or misuse. The district's insurance carrier valued district property, buildings, and contents at approximately \$25 million as of December 2016.

District officials have not properly maintained a detailed record of all property owned by the district, developed procedures to identify capital asset purchases throughout the year, or tagged or otherwise identified all property items as belonging to the district in accordance with district policy. The district only tags assets purchased with federal awards, vehicles, Chromebook computers, and iPads. The Director of Finance and the Chief Financial Officer indicated an annual physical inventory of district property is not performed by the school district. In addition, the maintenance department does not maintain an inventory listing of used or new surplus items and equipment which have been placed in storage for future use, sale, or disposal. Also, we noted some items purchased with district credit cards were shipped

Hazelwood School District
Management Advisory Report - State Auditor's Findings

directly to teachers' and school administrators' homes increasing the possibility of misuse of district assets.

During visits to various schools we noted assets that were not tagged as district property or could not be located. For example, the district purchased 6 metal detectors in December 2008 at a total cost of approximately \$44,000 but did not properly tag and account for these items. We located 2 metal detectors in storage at both Central High School and West High School that were not tagged or identified as district property. District personnel indicated the other 2 metal detectors had been transferred to surplus and were later disposed of according to warehouse personnel; however, there are no records to support the disposition. The Director of Security and Principal at East High School did not know any details regarding when the 2 metal detectors were moved to surplus or the timing and method of disposal. District personnel stated 2 metal detectors were supposed to be installed at each of the high schools to enhance security; however, they were not installed or used.

In addition, a Cricut Explore Air Machine (electronic cutting machine) and accessories costing \$403 purchased for Northwest Middle School could not be located in the building. The school principal stated she had the machine at her residence due to the library floors being cleaned and waxed, but no approval to remove the item was produced. This piece of equipment is a tabletop device. The device has since been returned to the school.

Adequate capital asset records are necessary to better secure district property and provide a basis for determining proper insurance coverage. Board inventory management policy DID states, "The superintendent or designee will create procedures to prevent excessive, duplicative or unnecessary purchases and to properly track, maintain and dispose of property as required by law and in accordance with sound business practices. . . . The superintendent or designee shall maintain one master inventory list of district equipment. Equipment will be added to the master inventory list at the time of purchase. . . . In addition, the superintendent or designee will ensure that a physical inventory of all equipment is completed and the results reconciled with equipment documentation at least every two years. . . . District equipment and supplies will remain on district property and will not be removed unless it is for a district purpose and the removal has been authorized by the superintendent or designee or the employee's supervisor."

7.2 Fuel usage

The district does not reconcile fuel logs to fuel billings. The district maintains 2 locked bulk fuel tanks for its 135 buses and 101 vehicles and pieces of equipment. Fuel tanks can be accessed by warehouse personnel, grounds crew, security guards, maintenance personnel, bus drivers, and most coaches. The district uses fuel logs showing the date, amount of fuel pumped, mileage, and the bus or vehicle being fueled. However, no comparison is performed between total gallons pumped, gallons purchased, and gallons on hand. In addition, the fuel log is not always completed by all employees obtaining fuel.

Hazelwood School District Management Advisory Report - State Auditor's Findings

As a result there is less assurance fuel usage is accounted for properly, fuel invoices are correct, and misuse will be detected promptly. The district purchased fuel costing approximately \$461,000 during the 2016-2017 school year and \$550,000 during the 2015-2016 school year.

Procedures for reviewing fuel used and reconciling use to fuel purchases are necessary to ensure the reasonableness and propriety of fuel use and disbursements. The failure to account for fuel use could result in theft and misuse going undetected.

Recommendations

The Board of Education:

- 7.1 Ensure complete and detailed capital asset records are maintained, assets are properly tagged for identification, and annual physical inventories are performed and compared to detailed records. In addition, the Board should ensure all district property is shipped directly to district locations and maintained on site.
- 7.2 Ensure a documented periodic reconciliation of fuel purchased to fuel used is performed, with any significant differences investigated, and ensure fuel logs are completed.

Auditee's Response

- 7.1 *The district agrees with the recommendation. The district will review and update policies and procedures to ensure that complete and detailed asset records are maintained, that appropriate assets are properly tagged for identification, and that annual physical inventories are performed and compared to detailed records. This will include a review of Policy DID to ensure that it is being followed by all district staff and that staff are trained in the implementation of this policy. The procedures will also be reviewed, updated, and communicated to ensure that district property is shipped directly to the district and maintained on site and that any potential exceptions are approved by a supervising administrator and documented. The district is already developing procedures to better track surplus items, including the use of digital photos for documentation.*
- 7.2 *The district already maintains fuel logs, but will review and update procedures to ensure that fuel logs are completed for all fuel use, that there is a documented periodic reconciliation of fuel purchased to fuel used, and that any significant differences are investigated by an administrator.*

8. Chromebook Laptop Computers

The district did not perform a comprehensive cost study for the 2015 Dell Chromebook computer project and the purchase was not properly bid. Instead, the district's IT department presented the Board a cost comparison of its original plan which included the repair costs and continued use of existing 9 year old laptops and the lease purchase of the Chromebook computers. In

Hazelwood School District
Management Advisory Report - State Auditor's Findings

addition, a significant number of Chromebook computers are not in use as intended.

In 2015 the district decided to enhance the education of students by providing new Chromebook computers. The district's goal was to achieve a 1:1 ratio of Chromebook computers to middle and high school students and have elementary schools use computers set up in classrooms.

The district entered into a 4-year lease purchase for 10,000 Chromebook computers on December 14, 2015, at a total cost of approximately \$3,070,000 or \$307 each. A second 4-year lease purchase for 6,000 additional Chromebook computers costing approximately \$1,680,000, or \$280 each, was entered into on July 29, 2016. The district did not perform a comprehensive cost study or solicit bids for the purchase of the Chromebook computers prior to the Board approving the lease purchases.

A significant number of Chromebook computers are not used as intended. Chromebook computers are assigned to each student at all high schools and middle schools for use both at home and school. Students can opt out of using Chromebook computers assigned to them. A review of all high and middle schools determined approximately 1,150 students (900 at Central High School) opted out of receiving a Chromebook computer. As a result, the district has spent approximately \$340,000 (using average cost of 2 separate lease purchases or \$294) for Chromebook computers that are not in use as intended. School officials indicated some of the extra Chromebook computers assigned to a classroom rather than a student can be checked out or are kept for testing or replacements. District administrators were not able to provide specific reasons why students opted out.

Good planning, including proper bidding, and implementation followed up with continuous monitoring and reviews of district programs provide assurance district monies are spent efficiently and short- and long-term goals are accomplished.

Recommendation

The Board of Education should continually review the use of Chromebook computers and future technology purchases to ensure established goals are met and purchases are properly bid and meet the needs of the district.

Auditee's Response

The district agrees with the recommendation. The district will continually review the use of all technology purchases to ensure goals are met and that purchases meet the needs of the district, with the understanding that goals and needs can evolve with the technology program and its implementation. Also, while the implementation process for Chromebooks may have differed from the original plan, the Chromebooks are being used for their intended purpose, which is student learning and instruction.

Hazelwood School District Management Advisory Report - State Auditor's Findings

Regarding the purchase, the district's Technology Committee reviewed possible choices of cloud based offerings and decided on Chromebooks due to their ease of use, cost, and flexibility with Google applications for education. Several devices were reviewed, including Dell, HP, Lenovo, Asus, Google, and Toshiba. The lack of ability to lay the screen flat and avoid hinge breakage eliminated HP, Asus, and Google's own device at the time. The quotes received per device from Lenovo and Toshiba were more expensive than Dell Chromebooks and district technology staff were already certified on Dell hardware.

Auditor's Comment

The district did not follow its bid policy for the purchase of the Chromebook computers. Also, the district provided no supporting documentation for the quotes discussed in its response.

9. Vehicle Allowances

The district has not documented the basis for vehicle allowances, the allowance amounts, and the Associate Superintendent's mileage reimbursement.

The Superintendent and Associate Superintendent vehicle allowances are intended to compensate them for driving personal cars within the district to conduct district business. The district pays the Superintendent a \$650 monthly vehicle allowance and the Associate Superintendent a \$600 monthly vehicle allowance. Using the district's current mileage reimbursement rate of 54 cents per mile, the Superintendent would have to drive 1,204 miles and the Associate Superintendent 1,111 miles within the school district monthly (approximately 40 and 37 miles daily, respectively) to justify earning these allowances.

The Associate Superintendent's contract allows, and the district reimburses, the Associate Superintendent for mileage incurred within the district in addition to the vehicle allowance. The district paid the Associate Superintendent approximately \$250 for in-district mileage reimbursements in addition to her vehicle allowance for the school year ending June 30, 2017. This amount is also significantly lower than the vehicle allowance and indicates the larger allowance may not be necessary.

While the district reported vehicle allowances paid as taxable income, the district should periodically review the reasonableness of the vehicle allowances and mileage reimbursements and revise the Associate Superintendent's contract as needed. Vehicle allowances should be based on a reasonable estimate of miles driven for in-district business purposes, and if necessary, the district should adjust the benefits to reasonably reflect the actual expenses incurred by the employees on behalf of the district.

Recommendation

The Board of Education review vehicle allowances and set amounts to reasonably reflect the actual expenses incurred by employees. The Board

Hazelwood School District
Management Advisory Report - State Auditor's Findings

should also consider whether it is reasonable and necessary to reimburse the Associate Superintendent for mileage within the district and provide a vehicle allowance, and consider necessary contract revisions.

Auditee's Response

While the district understands the recommendation, vehicle allowances are common in superintendent contracts and are documented through the contracts. This has historically been a negotiated contractual component in at least the last five Hazelwood superintendent contracts and allows the district to remain competitive. In addition, a survey of sixteen area districts in the St. Louis region indicated that thirteen of the sixteen include this component. Regarding the Associate Superintendent, since the person in this position is retiring, this component will be ending this fiscal year.

10. Internal Audit Function

The district lacks an internal audit function that could have helped discover and/or resolve the weaknesses addressed in this report and noted by the district's financial auditors.

During fiscal year 2017, the district had total revenues and expenditures of approximately \$216.7 million and \$214.1 million, respectively, and numerous cash collection points and compliance and policy requirements; however, the district does not have an internal audit function or similar alternative arrangements for audits of various processes. If utilized properly, the internal audit function can assist management in performing its duties more efficiently and effectively, and the savings could potentially exceed the cost. In addition, an internal audit function can enhance the district's annual external audit by providing valuable information to those auditors and ensuring the district has strong internal controls and accounting procedures in place. An effective internal audit function could have helped in discovering and/or resolving many of the accounting and procedural control weaknesses, and policy and compliance issues addressed in this report.

Recommendation

The Board of Education consider appointing an internal auditor to conduct audits of district operations and activities.

Auditee's Response

The district agrees with the recommendation that an additional person reviewing district financial operations and activities would be of benefit. However, the district believes that it is the responsibility of management and administration to provide an internal audit function and resolve any accounting and procedural control weaknesses as well as policy and compliance issues. Therefore, the district plans to restructure the finance department and specifically assign duties to an employee who is involved in the daily review of operations and activities, including accounting guidelines, procedures and safeguards to reduce the risk of loss or theft, cash receipts, deposits, record retention/support, positions responsible at each site, segregation of duties and security of funds, internal review/reconciliation and oversight process, and required training for all staff responsible for cash

Hazelwood School District Management Advisory Report - State Auditor's Findings

handling prior to assuming duties. The staff member assigned will develop guidelines for training new staff as well as annual training and updates for all staff. The assigned staff member will also identify processes and procedures that require review and updates, periodically visit buildings to ensure that procedures are being implemented, and be available for questions and retraining as necessary.

11. Board Oversight of District Resources

The Board did not always ensure the efficient use of district resources while the district faced a reduced fund balance. As noted throughout the report, the district does not adequately safeguard district assets, has made numerous potentially unnecessary disbursements, did not properly plan for a substantial technology purchase, and has not provided for an internal audit function or other arrangements to oversee district assets.

The following table presents actual financial information for fiscal years 2011 through 2017 and budgeted financial information for fiscal year 2018 for the General Fund and Teachers' Fund combined.

	Fiscal Year Ended June 30,							
	2018 Projected	2017 Actual	2016 Actual	2015 Actual	2014 Actual	2013 Actual	2012 Actual	2011 Actual
Beginning Fund Balance	\$ 40,439,462	38,511,047	51,953,279	61,406,604	69,587,165	69,007,516	60,242,006	46,321,373
Revenues	191,703,497	191,362,885	185,882,890	188,623,221	184,639,756	187,801,167	197,321,315	201,223,484
Less: Expenditures	191,698,275	189,434,470	199,325,122	198,076,546	192,820,317	187,221,518	188,555,805	187,302,851
Ending Fund Balance	\$ 40,444,684	40,439,462	38,511,047	51,953,279	61,406,604	69,587,165	69,007,516	60,242,006
Net Fund Balance								
Increase/(Decrease)	\$ 5,222	1,928,415	(13,442,232)	(9,453,325)	(8,180,561)	579,649	8,765,510	13,920,633
Ending Balance as								
Percentage of								
Expenditures	21.10	21.35	19.32	26.23	31.85	37.17	36.60	32.16

The district budgeted for and incurred 3 years of operating deficits when expenditures significantly exceeded revenues for fiscal years 2014, 2015, and 2016. During these years the Board purchased Chromebooks without a comprehensive cost study and made other purchases that may not be reasonable (see MAR finding numbers 5 and 8). For fiscal year 2017, the Board decreased operating expenditures through administrative and teaching staff cuts and revenues slightly increased, resulting in the first operating surplus in 3 years. However, the operating fund balance at the end of fiscal year 2017 was approximately 21 percent of General and Teachers' Fund expenditures for that year, and is projected to remain at this same level by the end of fiscal year 2018, which is only 6 percent above the Board's preferred minimum. As previously noted, the Board also did not safeguard all assets during this time (see MAR finding numbers 1, 2, and 7).

Hazelwood School District
Management Advisory Report - State Auditor's Findings

The 2017-2018 budget also projected only a minimal increase in the combined operating fund balance of approximately \$5,000 leaving a small margin for error if revenue projections are not met. The district's budget message also notes the 2017-2018 school year would be another difficult financial year for the district. The budget also included further reductions in overall personnel costs by eliminating teacher, custodian, and administration positions.

It is essential the Board continuously oversee the use of district resources and safeguarding of assets to ensure the efficient use of district resources and adequate operating fund balances. This is especially important when the district faces a potentially difficult financial future.

Recommendation

The Board should continue to eliminate unnecessary spending and evaluate controls and management practices to ensure efficient use of district resources.

Auditee's Response

The district agrees that it should continue to review spending and evaluate controls and management practices to ensure efficient use of district resources. The review of spending already occurs through regular reports to the Board and through an inclusive annual budget process that invites community and staff members to provide input. This process has resulted in a balanced budget in the last two fiscal years despite a more than 20 percent loss in property values and the resulting loss of millions of dollars of revenue that previously caused the district to incur operating deficits. Through the regular annual independent audit, as well as through the items outlined in answers throughout this report, the district intends to continue to improve upon the evaluation of controls and practices to ensure more efficient use of taxpayer resources.

Hazelwood School District

Organization and Statistical Information

The Hazelwood School District is located in north St. Louis County.

The district operates 3 high schools (grades 9-12), 6 middle schools (grades 6-8), 14 elementary schools (grades K-5), 6 elementary schools (grades PK-5), and 3 early childhood centers. Enrollment was 17,668 for the 2016-2017 school year. The district employed 2,174 full- and part-time employees, as well as 328 substitutes (teachers, aides, custodians, food service employees, nurses, bus drivers) at June 30, 2017.

The Hazelwood School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

Board of Education

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2017, were

Desiree D. Whitlock, President
Dr. Richard A. Roberts, Vice-President
Margo McNeil, Secretary
Dr. Brenda C. Youngblood, Treasurer
Mark J. Behlmann, Member
Cheryl D. Latham, Member
Karlton Thornton, Member

Superintendent

The district's superintendent at June 30, 2017, was Dr. Nettie Collin-Hart. Her total compensation for the 2016-2017 school year was \$252,800 including an annual salary of \$235,000, a \$10,000 retirement account, and a \$7,800 car allowance. The superintendent's compensation is established by the Board of Education.

Financial Activity

A summary of the district's financial activity for the year ended June 30, 2017, follows:

Hazelwood School District
Statement of Revenues, Expenditures, and Changes in Fund Balances
Year Ended June 30, 2017

	General (Incidental) Fund	Special Revenue (Teachers') Fund	Debt Service Fund	Capital Projects Fund	2013 Bond Issue Fund	Totals

**Weigh in Motion
Contracts**

CITIZENS SUMMARY

Findings in the audit of Weigh in Motion Contracts

Conflicts of Interest and Personal Financial Disclosures

Missouri State Highway Patrol (MSHP) and Missouri Department of Transportation (MoDOT) employees, who were also on the Heavy Vehicle Electronic License Plate, Inc. (HELP) Board, did not recuse themselves from preclearance and bypass discussions, and maintained questionable relationships with HELP representatives, including actively endorsing and promoting HELP to expand into other states, as well as actively steering other states and carriers away from HELP's competition.

Some MSHP and MoDOT employees made questionable statements in communications with HELP that cast doubt on their independence and showed preferential treatment toward HELP while participating in decisions regarding commercial vehicle preclearance and bypass services, including decisions involving HELP's competitor, Drivewyze.

Three MSHP and MoDOT employees involved in decisions related to Missouri's commercial vehicle preclearance and bypass services were subsequently hired by or contracted with HELP after their retirement from the state, casting further doubt on their independence. In addition, two of these former state employees were allowed to work directly with their former colleagues in violation of state law.

The MSHP and MoDOT lacked adequate policies and procedures to identify and address conflicts of interest and actions demonstrating a lack of independence.

In May 2017, the MSHP announced that an internal review was conducted and that its employees would no longer serve on the board of HELP, Inc. However, the internal review did not include a written report. There was no documentation of changes to MSHP's internal policies as a result of the internal review.

In November 2017, after the State Auditor's Office requested additional documentation and communications, MoDOT launched an internal review. In January, 2018, more communications were turned over that included additional information not originally disclosed. In February, 2018, MoDOT officials provided us information concerning the results of their investigation, which indicated MoDOT concluded communications between one current employee and HELP had violated MoDOT's rules of conduct and disciplinary action had been taken.

Employee personal financial disclosures required to be filed with the Missouri Ethics Commission were not accurate, requiring subsequent amendments.

Weaknesses in Implementation and Planning of Preclearance and Bypass Planning Services

Poor planning on the part of the MSHP and the MoDOT led to delays and inefficiencies in the implementation of a fair and comprehensive preclearance and bypass system.

The MSHP and MoDOT did not conduct a request for proposal (RFP) when a second vendor (i.e. Drivewyze) emerged in 2013 wanting to participate in

Missouri's preclearance and bypass program. Instead, in August 2014 the MSHP entered into a memorandum of understanding (MOU) to begin a pilot project to test Drivewyze's capabilities. However, the MOU with Drivewyze did not contain clear performance requirements or expectations. Specifically, the MOU did not require Drivewyze to have access to WIM data as part of the pilot project, and did not allow for the company to install its own sensors. The MOU also did not provide Drivewyze with any formalized expectations for what was required going forward. Access to WIM data was a significant and known issue when the MSHP entered into the MOU due to that data being owned by HELP in Missouri. In other states where both HELP and Drivewyze operate, the WIMs and WIM data is owned by the state, who provides the needed data to the bypass system vendors.

Communication and Retention Policies	Communication and retention policies of the MSHP and MoDOT need improvement. The MSHP has not developed policies and procedures to ensure its employees are aware of and comply with the record retention schedules approved by the Secretary of State's Office and identify business related communications (including personal email and text messages) that are required to be retained.
---	---

The current MoDOT Director of the Motor Carrier Services Division, violated MoDOT policy by using his personal email account to conduct official MoDOT business without approval. The MoDOT's policies and procedures do not require employees to identify business related communications (including personal email messages and text messages) that are required to be retained.

HELP Membership Dues	MoDOT's payment of membership dues for Missouri's private sector representative on the HELP board was not disclosed in their annual federal grant application and were not a prudent or necessary use of state or federal funds.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
and
Patrick McKenna, Director
Department of Transportation
and
Colonel Sandra K. Karsten, Superintendent
State Highway Patrol
Jefferson City, Missouri

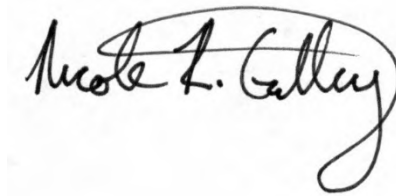

We have audited certain operations of the Department of Transportation and the State Highway Patrol related to weigh in motion contracts, in fulfillment of our duties under Chapter 29, RSMo. The scope of the audit included, but was not necessarily limited to, the year ended June 30, 2017. The objectives of our audit were to:

1. Evaluate the internal controls over significant management and financial functions related to weigh in motion contracts.
2. Evaluate compliance with certain legal provisions relevant to weigh in motion contracts.
3. Evaluate the economy and efficiency of certain management practices and operations related to weigh in motion contracts.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the management of these agencies and was not subjected to the procedures applied in our audit of the contracts.

For the areas audited, we identified (1) significant deficiencies in internal controls, (2) significant noncompliance with legal provisions, and (3) deficiencies in management practices and operations. The accompanying Management Advisory Report presents our findings arising from our audit of Weigh in Motion Contracts.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is written in a cursive style with a large, looping "G" at the end.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Robert E. Showers, CPA, CGAP
Audit Manager:	Pamela Allison, CPA
In-Charge Auditor:	Robert McArthur II
Audit Staff:	Valerie A. Dobson

Weigh in Motion Contracts

Introduction

Background

The Missouri Department of Transportation (MoDOT) is responsible for administering the Federal Motor Carrier Safety Assistance Program, which focuses on implementing monitoring tools to enforce commercial motor vehicle safety rules, regulations, and orders. The program's mission is to reduce crashes, injuries, and fatalities involving large trucks and buses. Additional enforcement and oversight is provided by the Missouri State Highway Patrol (MSHP) Commercial Vehicle Enforcement (CVE) inspectors located at both fixed and portable scale sites throughout the state. Each scale site is equipped with monitoring tools.

State and federal laws and regulations detail truck weight limit enforcement. The legal weight limits are in Sections 304.180 through 304.220, RSMo. Generally, trucks are restricted to a maximum weight of 80,000 pounds, a maximum single-axle weight of 20,000 pounds, and a maximum tandem-axle weight of 34,000 pounds. Section 304.235, RSMo requires all commercial motor vehicles to stop at an official weigh station, or to be identified through automated means approved by this state and determined to be in compliance without the necessity of stopping. These statutes provide some specific exceptions to these limits.

Missouri has the nation's 7th largest highway system. In 2016, commercial vehicle miles traveled across all MoDOT owned roadways totaled approximately 21.4 million miles daily and accounted for approximately 15 percent of all vehicle miles traveled.

Heavy Vehicle Electronic License Plate, Inc.

For more than 15 years, the MoDOT and MSHP have contracted with Heavy Vehicle Electronic License Plate, Inc. (HELP), a non-profit organization, to equip permanent scale locations with weigh in motion sensors (WIMs) and the company's preclearance service, PrePass. PrePass is an electronic screening program that allows subscribing carriers to be checked at highway speeds for safety, vehicle weight, and regulatory compliance using WIMs. Drivers of carriers subscribing to PrePass receive a green light signal (via transponder technology installed in the truck) to bypass the weigh station, if the truck is in compliance with size and weight requirements or if the weigh station is closed. HELP charges each subscribing carrier a fee for use of the PrePass service. Compliance criteria is established by the state and enforcement is performed by the MSHP utilizing information provided by the PrePass program.

In accordance with the contract, HELP owns all installed equipment (e.g. WIMs and monitoring tools) and all recorded raw data obtained from the sensors (including weight information). Missouri is the only state in the country using this arrangement to implement a bypass system (i.e. "Missouri Model"). In other states, the WIMs and weight information are owned by the state, and the states provide the weight information to bypass system vendors. HELP documentation indicates the company has invested more than \$21

Weigh in Motion Contracts Introduction

million in time and equipment in Missouri's bypass system. As of November 2017, Missouri has 19 permanent scale sites equipped with PrePass.

Board membership

Public and private sector individuals serve on HELP's Board of Directors (Board). From 2008 until April 2017, employees from the MSHP, MoDOT, and the Missouri Trucking Association (MTA), served on the board as follows:

- Colonel Bret Johnson (MSHP) began serving on HELP's Board in 2008. He was promoted from Major to Colonel in May 2015. He continued serving on the Board until August 2016 when he resigned from the HELP Board.
- Captain David Earney (MSHP) was selected by Colonel Johnson as his replacement on HELP's Board in August 2016, and served until his resignation from the Board in May 2017.
- Jan Skouby (former MoDOT Director of the Motor Carrier Services Division) began serving on HELP's Board in 2009 and continued serving until her retirement from MoDOT in October 2013.
- Scott Marion (current MoDOT Director of the Motor Carrier Services Division) served on the Board from November 2013 until his resignation from the Board in May 2017.
- Tom Crawford, MTA, served on the HELP Board as Missouri's private sector representative and had done so for several years.

Membership fees

Between fiscal years 2009 and 2017, MoDOT annually paid for one full and one associate membership with HELP. Full membership cost \$15,000, while associate membership cost \$7,500 per year, for a total of \$22,500 annually or \$7,500 per member. The full membership was for the MoDOT and MTA Board representatives and the associate membership was for the MSHP Board representative. The MoDOT and the MSHP shared and alternated the public sector board voting privileges. According to HELP, the annual membership dues covered the expenses for the representatives from the MoDOT, MSHP, and Missouri's private sector (MTA), to be on the board and attend various meetings.

Intelligent Imaging Systems, Inc.

In August 2014, the MSHP contracted with Intelligent Imaging Systems, Inc. (IIS, does business as Drivewyze) to operate a pilot program, which would provide a screening service similar to that provided by HELP. However, instead of using installed transponders, Drivewyze used cellular technology to communicate with the passing truck. The Drivewyze system also requires the use of WIMs and weight data. The MSHP, canceled the Drivewyze pilot program in May 2016 (effective August 2016).

Weigh in Motion Contracts

Introduction

Request for proposal

In October 2016, despite the MSHP's recent cancellation of Drivewyze's pilot project and due to concerns of conflicts of interest, the MoDOT determined there was sufficient evidence Drivewyze could provide the same services as HELP and subsequently issued an RFP, "to allow a fair and competitive process for the potential vendors." Missouri issued a request for proposal (RFP) for a commercial motor vehicle electronic preclearance and bypass system (RFP #6-170315DR) in February 2017. Both HELP and Drivewyze received a notice of award in April 2017, and their related contracts were fully executed February 1, 2018. Each contract has a lifespan of 3 years; allowing future additional vendors to compete in the market through a similar future RFP process. However, any future vendors would be required to install their own WIMs and assume all installation costs similar to HELP and Drivewyze.

Scope and Methodology

On April 14, 2017, due to news reports of, and discussions with law enforcement about concerns over the nature of MoDOT and MSHP's relationship with HELP, the State Auditor's Office (SAO) began an investigation under Section 29.221, RSMo. Based on the SAO's review of initial documentation and communications provided, the SAO determined an audit into various aspects of the state's involvement with HELP was warranted.

To gain an understanding of various aspects of the state's commercial motor vehicle electronic preclearance and bypass system, we reviewed additional documents and communications, financial records, proposed legislation and the related fiscal notes; interviewed various personnel of the MoDOT and the MSHP, as well as certain external parties; and performed analysis of comparative data.

We obtained an understanding of the internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contracts, grant agreements, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Weigh in Motion Contracts

Management Advisory Report

State Auditor's Findings

1. Conflicts of Interest and Personal Financial Disclosures

Missouri State Highway Patrol (MSHP) and Missouri Department of Transportation (MoDOT) employees were on the Heavy Vehicle Electronic License Plate, Inc. (HELP) Board, and maintained questionable relationships with HELP personnel, resulting in conflicts of interest. As a result of the conflicts, state employees showed preferential treatment toward HELP when another vendor for preclearance services attempted to enter the market. Neither the MSHP nor MoDOT took steps to evaluate and document whether their employee's membership on the HELP Board represented a potential conflict of interest. In addition, employee personal financial disclosures required to be filed with the Missouri Ethics Commission were not accurate, which reduced the transparency of their relationship with HELP.

Conflicts of interest

MSHP and MoDOT employees, who were also HELP board members, did not recuse themselves from preclearance and bypass discussions, and maintained questionable relationships with HELP representatives, including actively endorsing and promoting HELP to expand into other states, as well as actively steering other states and carriers away from HELP's competition. Serving on the HELP board in more than an advisory role represents a bias and lack of independence. In addition, former state employees who were subsequently employed by HELP were allowed to work directly with their former colleagues, which also creates a conflict of interest. Upon the emergence of additional vendors into the preclearance and bypass market, the MSHP and MoDOT did not establish procedures to monitor their employees activities for bias, lack of independence, and conflicts of interest.

Questionable state employee communications and actions

Some MSHP and MoDOT employees made questionable statements in communications with HELP that cast doubt on their independence and showed preferential treatment toward HELP while participating in decisions regarding commercial vehicle preclearance and bypass services, including decisions involving HELP's competitor, Drivewyze.

Three of these employees were members of the HELP Board of Directors (Board); Jan Skouby (former MoDOT Motor Carrier Services Director), Bret Johnson (former MSHP Major, then Colonel), and Scott Marion (current MoDOT Motor Carrier Services Director). Another MSHP employee, former Major Greg Kindle, also participated in decisions regarding these bypass services. A timeline of these communications, actions, and events is documented below:

- On March 11, 2011, Skouby is elected to HELP's Executive Committee.
- On September 1, 2011, Tom Crawford, MTA, emails Skouby, "Does the Drive Wyze [*sic*] deal fit in this discussion at all?" Skouby responds, "I don't think so - at least right now. The big difference is PrePass wants this as an add on to their current pricing package which means it's not available to non PrePass carriers - I hope this is addressed as new business models are developed."

Weigh in Motion Contracts

Management Advisory Report - State Auditor's Findings

- On March 20, 2012, Debbie Bax, MSHP Assistant Director - Commercial Vehicle Enforcement, received an email message from Gary Steinmetz, (employee of Xerox, Xerox was a business partner of HELP), that included an attachment regarding mobile app considerations and questions "that should be addressed by IIS [Drivewyze] if they try and push the phone app on the State. I know Jan [Skouby] wanted to test this. The same points will also apply to the system at Bloomsdale." Debbie forwarded this email and attachment to Captain Londell Jamerson, Sergeant Kevin Kelley, and Chief Commercial Vehicle Officer Neal Mager, but it is unclear if anyone at the MSHP asked these questions of Drivewyze.

The attachment included questions formulated by HELP officials that they wanted the MSHP to ask Drivewyze (HELP competitor) related to the value, integration, reliability, data integrity, security, safety, and legal issues of Drivewyze bypass service.

- On August 22, 2013, while at the HELP summer board meeting, Skouby emailed Kelly Ray (MoDOT) and Marion, "I am bringing some info home. Also, mark [sic] Dougherty [HELP] will be sending me some potential dates for us to meet with them and we need to include MSHP. See if we can implement. As an FYI, drivewyze [sic] ran out of money and just got a \$7.5 million infusion. Trying to partner with prepass. I believe it is to stay afloat, but being a bit underhanded."
- October 2013, Skouby retired from the MoDOT.
- On November 18, 2013, prior to an upcoming MSHP staff meeting planned to discuss the Drivewyze preclearance bypass system, David Bendor, IIS (Drivewyze), sent Colonel Repogle and Lt. Colonel Karsten, MSHP, a document highlighting the benefits of the Drivewyze system.
- On November 20, 2013, at 8:15 a.m., the Drivewyze benefits document was forwarded from Lt. Colonel Karsten to MSHP Majors Schmidt and Johnson. At 8:37 a.m., within 22 minutes of receiving the Drivewyze document, Major Johnson forwards it to Karen Rasumussen, President and CEO of HELP, indicating: "DrivewyZe [sic] is lobbying my colonel [sic] FYI! Can you have Mark [Doughty] or someone send me help [HELP] talking points?" Rasmussen subsequently responds "I will have something to you tomorrow. I can take every single point in their talking points and refute them. Almost all of it is bogus."

A few hours later, at 11:09 a.m. on November 20, 2013, Mark Doughty, Chief Operating Officer of HELP, emails Major Johnson, "Karen brought me up to speed on the recent DW [Drivewyze] pursuit of Missouri, so I thought I would share some recent activities with MoDOT. At MoDOT's

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

request PrePass completed a site survey and provided them with a proposal to remove ISS (aka DriveWyze) [sic] screening solution hardware and software from the Bloomfield [sic] site as it has not met their performance standards and they were dissatisfied with the support . . . I know that Karen [Rasmussen] is helping you out with some other information, but If there is any assistance I can provide let me know." Major Johnson then forwards the email message to MSHP Lieutenant Colonel Sandy Karsten, who then forwards it to Major Dale Schmidt's MSHP account. He responds from his personal email account "**We need to be cautious in listening to a competitor especially with us and MoDOT being on their board**" [emphasis added by the SAO]

- On November 21, 2013, Rasmussen provides a document highlighting the benefits the HELP bypass program to Major Johnson who responds "I think this will do it. My he [sic] colonel [sic] will follow my lead. I just needed some ammo! . . . I am leaving in the am [sic] for the MiZzou [sic] vs ole miss [sic] football game in Oxford Mississippi, Traveling with the Governor's staff. **This issue is not going anywhere if I can help it....**" [emphasis added by the SAO]
- On November 22, 2013, Rasmussen emails Major Johnson to provide information to be used against Drivewyze, "Bloomfield [sic] is the very installation that MODOT has asked us to rework, taking out the IIS [Drivewyze] equipment. Since I don't know if they have actually notified DW [Drivewyze] yet, but the so-called Smart Roadside [Drivewyze application] isn't very smart.....apparently. I didn't put in this in the talking points but you could sure mention it in the meeting."

The November 18 through 22, 2013 email messages are examples of communications that suggest bias and a lack of independence.

- On November 26, 2013, Rasmussen emails Major Johnson to gather information on internal MSHP meetings: "Anything you can share from the staff meeting re preclearance systems?" Major Johnson indicates the meeting was moved until the next Monday, but he will follow up with her.
- On December 5, 2013, Rasmussen emails Major Johnson to lobby him to call the Kansas Highway Patrol to dissuade that agency from using Drivewyze, "Sounds like our friends in Kansas are getting the full court press from DriveWyze [sic]. If you are so compelled, a call to Maj. Goodloe [Major Mark Goodloe, Kansas Highway Patrol] might be helpful. He hasn't asked me, but I can pull together the same type of report we provided to Missouri."

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

- On December 6, 2013, Major Johnson forwards Rasmussen's email message to Kansas State Highway Patrol Major Goodloe, another member of the HELP Board, indicating, "Call me later this morning if you get a chance, I don't have much other than the colonel [*sic*] was lobbied heavily by DriveWyze [*sic*] we chose to pass. Karen can prepare you some good talking points that is Kansas specific it [*sic*] that will HELP you.....no pun intended! Hope to see you soon brother."
- In May 2014, Jan Skouby (former MoDOT Director of the Motor Carrier Services Division) was hired by HELP as a regional director of Midwestern states.
- On June 17, 2014, Skouby, in her new role with HELP, emailed Major Johnson and 2 other MSHP representatives and Marion and another MoDOT representative that she is "fortunate to be able to represent HELP Inc. in Missouri. HELP Inc would like to work with you at the Bloomsdale facility to pilot the next generation of PrePass. . . . " This email message demonstrates that MoDOT did not have procedures in place to identify potential violations of state law as further described on page 25.
- On August 5, 2014, the MSHP entered into a pilot program with Drivewyze (see Appendix A). The pilot program MOU allowed Drivewyze to utilize GPS and web-based technology to provide the MSHP with a fully functional bypass program at no cost to the MSHP.
- On August 15, 2014, Marion responded to an email message from his former boss Skouby where he expresses concern over the MSHP being open to Drivewyze's proposals, and describes his desire to get someone other than Major Johnson from MSHP to come to HELP meetings so that person can hear more information about HELP's services. Marion stated to Skouby: "I mentioned to Tom Crawford [MTA] that Major Schmidt's [MSHP] replacement, Major Robinson [MSHP] was a very good guy and wants to learn quickly. My conversation with Tom was also about my concerns with the patrol's seemingly infatuation with DriveWyze [*sic*]. Tom agreed with me that Brett Johnson, who goes to HELP meetings, doesn't really work in the CMV area. Tom made some calls (he's on the Executive Board), and Major Robinson will be attending the HELP meeting with us, along with Brett. My hope is that Major Robinson can get the same assurance and confidence about HELP's new direction as I did after my first meeting."
- On August 26, 2014, Skouby and Kelly Ray are communicating regarding IIS equipment at the Bloomsdale weigh station, when Skouby tells Ray, "Actually, the roadside folks said to take down the IIS because they never use and it's laying in the counter." This email message further

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

demonstrates that MoDOT did not have procedures in place to identify potential violations of state law as further described on page 25.

- On October 15, 2014, the Drivewyze pilot program started.
- On December 1, 2014, Marion responded to a board update email message from Rasmussen, "Congrats on so many accomplishments. I'm guessing you've heard, but **Missouri is working with Jan [Skouby] to move forward with 360 SmartView. I hope having 360 right in the crossroads of the US in Missouri will spur other states and in turn, carriers to look to PrePass.**" [emphasis added by the SAO] Rasmussen replied "We are very excited about MO going for 360! Thanks, Scott [Marion], for all your support and enthusiasm. You are wonderful addition to our Board!" This email message demonstrates that MoDOT did not have procedures in place to identify potential violations of state law as further described on page 25, and also demonstrates the conflicts created by having state representatives on the HELP Board.
- On March 6, 2015, the HELP board adopted a release of information policy to ensure PrePass data and information was protected and released only under the provisions of HELP bylaws, policy, written agreements, and as required by law.
- On May 19, 2015, Colonel Johnson forwarded an email message to Major Greg Kindle that indicated a trucking company had called and said they appreciated the opportunity to participate in the Drivewyze Program and had received positive feedback from their drivers and wanted to pass that information along to the MSHP. Major Kindle responded "During our tour of the scale houses last week none of our employees like it or would recommend our continued participation." Colonel Johnson replied, "**Exactly. I'm the prepass guy.**" [emphasis added by the SAO]
- On June 1, 2015, Marion emailed officials at HELP with "confidential" documents ahead of a communication launch planned by MoDOT and the Missouri Highways and Transportation Commission (MHTC), and to discuss an upcoming presentation he is doing in Minnesota where he intends to promote HELP services to the Minnesota Transportation Department. "**Good afternoon HELP/PrePass friends! And I sincerely mean friends.**" [emphasis added by the SAO] I owe you all big-time for helping me and MoDOT out on such short notice. Our Missouri Highways and Transportation Commission Chairman, Steven Miller and myself are very appreciative and I can't wait to tell him about the benefits HELP has brought to Missouri. I've attached a couple of confidential documents that won't be officially released until after the noon press event this Wed., but I thought I'd risk getting fired to let you all have some idea of what this event is really all about. (I don't think they'd really fire

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

me!) . . . Karen [Rasmussen], on another note: I'm scheduled to speak June 17 at the Minnesota [MN] Truck Size and Weight Compliance Workshop. . . . **My instructions are to not 'sell PrePass' during my presentation, but I can use it as one of the examples that have brought us closer together here in Missouri, etc. I've had conversations with Terry [Maple, HELP] about our efforts to get PrePass into Minnesota and I assume I'll have the opportunity to talk more freely about the benefits during lunch and breaks, etc. I will follow up with you all after my trip. Maybe if I can help get them into PrePass I won't feel so bad about imposing on you all for my gig here in Missouri.**" [emphasis added by the SAO] Rasmussen replied "Scott [Marion] - You are most welcome and we appreciate the opportunity! I need to bring you (along with our HELP staff) up to date on MN. **Had dinner last night with MnDOT's Director of Operations and had a chance to tout what we do & how we do it. Lets talk later in the week after your event is over.**" Marion responded "**That would be very good and might help guide my conversations with them.**" [emphasis added by the SAO] I still think it's absurd and almost comical that a consultant is paying me¹ to tell grownups to get along. I have moved mountains for years with nothing but a dumb ass grin and sitting down and visiting with folks. I'm tempted to play a 30 second clip of Barney singing, "I love you, you love me...." and walk out of the room to try and demonstrate how fundamental being nice and cooperating is to humans, not to mention annoying purple dinosaurs! Thanks for everything Karen [Rasmussen]. Lars [Jacoby, HELP] has been a trooper during this fire drill event here in Missouri." This communication demonstrates the questionable relationship shared between MoDOT administration and HELP.

- On June 4, 2015, Marion emailed employees of HELP and PrePass thanking them for participating in the MoDOT/MHTC communication launch, adding "**Next project: getting Minnesota on board!**" [emphasis added by the SAO] Rasmussen replied "Scott [Marion]: We very much appreciate having the opportunity to participate and to support our ace HELP board member from Missouri! Are you free for a call tomorrow to discuss Minnesota?" Marion responded that he is available.
- On June 22, 2015, Marion emailed employees of HELP, as well as Crawford (MTA) about his presentation with Minnesota and openly discussed his efforts to sell the positive aspects of HELP to Minnesota officials and suggested HELP's next step in getting services started in the state: "**Hello "Best Public/Private/Partnership in the World" Friends,**

¹ Marion later clarified that he was not paid for additional services to present at the Minnesota event, but rather, his out-of-state travel expenses were covered by the organizer. His attendance at the Minnesota event was approved by MoDOT's Chief Financial Officer and he was on state time while in attendance.

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

I think there's encouraging news from Minnesota [MN]. [emphasis added by the SAO] . . . **From the one-on-one conversations I had with the MN folks last week, I got the distinct impression the DOT would like to do PrePass. The patrol group seemed to want to talk about DriveWyze [sic]. The patrol folks also had many misconceptions and frankly just plain wrong information about HELP/PrePass.** [emphasis added by the SAO] Such things as: "We don't like the fact you have to pay to belong to HELP and get PrePass" (I explained you don't have to pay to get PrePass, but belonging to HELP is very beneficial, gives you a voice, and their joint HELP membership could further the growth of their mutual relationship building efforts). "We don't like the fact that the state can't determine pull-in rates, criteria, etc. and you have to do what PrePass says" (I explained, that's not true. In Missouri, we obviously rely on HELP/PrePass expertise to guide us, but it is YOUR System and you make the decisions.) During the round table breakout sessions, they spoke of the need to have more effective, efficient enforcement. This played right into our wheel house and I and Dan Drexler, the MN FMCSA Administrator both spoke of the proven effectiveness of e-screening and by-pass capability. I spoke with Ted Coulianos [MnDOT] a couple of days after the meeting. He mentioned that after the workshop, he and a patrol person drove to some weigh stations. Ted said they felt like they needed to just go ahead and put PrePass at one site to get CVISN [Commercial Vehicle Information Systems and Networks] compliant. That was good news. Ted also mentioned that unfortunately, he was not the person who could make the final decision. Ted thought it would be a good idea if Karen [Rasmussen] or someone from HELP could come give a presentation to dispel some of the misconceptions with the MN patrol. I've visited with Karen about this and although Ted isn't the decision-maker, he is our contact to schedule future meetings to move things along. **I think it was a positive meeting for HELP's prospects.** [emphasis added by the SAO] Rasmussen responded "Scott [Marion]: This is an all-encompassing and encouraging report! John Hausladen called requesting a follow-up call with us, also had good feedback on the meeting. Terry [Maple], Jan [Skouby], Mark [Doughty], Steve [Vaughn, HELP] and I have a call scheduled with him on 6/29. Will keep you informed. **Thank you for attending the meeting and for being such a great ambassador for HELP!**" [emphasis added by the SAO]

- On July 29, 2015, Marion emails Skouby, Colonel Johnson, Lt. Kevin Kelley, Captain David Earney (MSHP), and Tom Crawford (MTA). "I have put together some highlights of our accomplishments this past year for Missouri's Update at the Help, Inc. Board meeting . . . One more thing Jan [Skouby], **I guess one never gets over the supervisor/direct report relationship. You asked for this by Thursday morning and gosh darn I got it to you before the deadline boss!**" [emphasis added by the SAO]

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

This email message demonstrates the potential conflicts for Marion to be answering to his former supervisor and colleague.

- On August 7, 2015, Marion received a request from Christopher Oliver (Xerox) to provide a reference for HELP regarding an invitation for bid request from the state of Texas for an electronic clearance system. Marion replied "Thank you for asking and yes, I would very much like to be a reference for HELP/PrePass. Let me know if I need any coaching about special circumstances or concerns surrounding the Texas bid that would be helpful for me to emphasize if they contact me."
- From August 2015 until May 2016, the Drivewyze pilot program continued to operate without WIM data, and HELP continued to operate its PrePass bypass service.
- On May 4, 2016, Colonel Johnson sends a letter to Drivewyze providing written notification of the cancellation of the Drivewyze pilot project effective August 15, 2016. The letter provided no explanation of the reasons for the cancellation.
- On May 11, 2016, Skouby emailed Ryder (provider of transportation and supply chain management products), copying Rasmussen and Marion, and asking Marion to speak to a potential client, which he does. Marion's response suggests this call was a sales call to sell the client on the benefits of HELP. From Skouby: "Aaron [Ward, Ryder] and Teresa [Grandon, Ryder] - It was great talking with you at the IRP [International Registration Plan] Annual Meeting, and I agree there are lots of opportunities to help streamline your operations. I have asked our PrePass folks to contact you and discuss how our PrePass and PrePass tolling programs might be able to assist you. Also, we discussed the transfer of fees when you add a new vehicle and the ability to have a plate inventory. I know some states do provide this, and I am most familiar with Missouri. I have copied Scott Marion, MoDOT Motor Carrier Services Director. Scott is a great person to assist you with any questions you might have in this area." On May 12, 2016, Marion replied "Jan [Skouby], I wanted to let you know that I just got off the phone with Aaron [Ward]. We talked about the cost savings he could realize by registering his vehicles in one state, etc. but I also took the opportunity to tell him about PrePass, HELP. He mentioned the nightmare of getting thousands of tolling receipts, bills, every week, etc. I explained how HELP/PrePass is a first rate, beyond reproach public/private partnership, how we are governed and decisions are made, customer service focused, and if anyone could save him time and gain efficiencies, he should work with PrePass. I couldn't resist giving him a call. **I hope he and Ryder join the PrePass/HELP family.**" [emphasis added by the SAO] Skouby responded "You are the best!!!", then Rasmussen responded "Ditto, ditto, ditto!!!"

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

- On May 25, 2016, Heath (Drivewyze) emailed Major Greg Kindle, Captain Earney, and Lt. Kelley, all of the MSHP, and proposed installing computer monitors at weigh stations and providing onsite refresher training. He also indicated in the email message that the Attorney General's office was reviewing the state's WIM data access rights. Major Kindle responded, "At this time, the Missouri State Highway Patrol does not wish to move forward with the installation of the Drivewyze monitors at our sites."
- On June 6, 2016, at 8:06 a.m., Marion emailed Skouby contact information for Shaun Ryker, Prime Inc. (trucking industry carrier).
- On June 6, 2016, at 11:08 a.m., Skouby emailed Rasmussen, Dougherty (all from HELP), Crawford (MTA), and Marion (MoDOT). The communication provides information on how Marion took part in HELP's recruitment of another new client. From Skouby: "Mark [Doughty] and I spoke earlier regarding Prime Inc. possibly moving to Drive Wyze [*sic*], and this is what has transpired. Scott Marion called me early this morning to let me know Shaun Ryker, Prime, had contacted MoDOT and indicated they were looking into Drive Wyze [*sic*]. Scott [Marion] indicated he was going to call Shaun, and since I had worked with Shaun previously at Prime, I was also going to give him a call. I spoke with Tom Crawford [MTA] because wanted to be sure he is kept in the loop - Prime is one of MoTA's [MTA] big members. In my conversation with Shaun, he indicated Prime was wanting a smaller and more up-to date transponder. Harold Butterfield [HELP] had been to Prime and shown them the new transponder for tolls and PrePass, but it is really big. However, Shaun was not aware until he spoke with Scott [Marion] and subsequently me of the advantages PrePass offered - quality of the data, the breadth of our facilities...He also did not know until Scott [Marion] first shared that Drive Wyze [*sic*] would no longer be used in MO after August. We talked some about data quality, and Shaun indicated once their analytics were done, he would be in contact again to get a better understanding. Shaun did say Drive Wyze [*sic*] presented a very impressive package, but that could be misleading if states do not use it. As Mark and I discussed, it might be beneficial for our retention staff to touch bases with our Missouri carriers. . . ."

Later that day, Marion emailed Skouby, Doughty (HELP), Rasmussen (HELP), and Crawford (MTA), "Thank you so much for the recap and follow up Jan [Skouby]. I very much appreciate you taking my call so early this morning! I also shared some beliefs, understanding, and facts based on personal experience with Shaun."

- On June 7, 2016, at 7:54 a.m., Ryker (potential HELP client) emailed Tara Spencer an email for Marion, MoDOT, "Good Morning Scott

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

[Marion], In our conversation yesterday you mentioned another state that was told by Drivewyze that they were entering into an agreement with Prepass to use their WIM. Can you remind me which state that was? It seems like it was AL [Alabama] or MS [Mississippi], but I forgot to write it down. I assure you I won't mention you in any way during our conversation with Drivewyze. Also, Jan [Skouby] reached out to me yesterday regarding this also. I really do appreciate being able to get good information from people we trust." The email message was forwarded to Marion at 9:15 a.m., who replied at 9:48 a.m., "I called him."

- On June 7, 2016, at 11:14 a.m., Marion emailed Rasmussen, Skouby, Dougherty (all from HELP), and Crawford (MTA), "Shaun Ryker with Prime contacted me again today with some follow up questions. The conversation went fine, but no indication of their plans was apparent to me. I think he's just doing his due diligence to report up."
- On June 14, 2016, Marion responded to a question from Crawford (MTA) concerning a MoDOT Request for Proposal (RFP), then adds, ". . . You know you make me laugh. Any mention of PPP or P3 [Public Private Partnership] and you break out into hives! I do the same thing when the word Drivewyze is mentioned!"
- On July 13, 2016, Colonel Johnson receives an email message from Rasmussen (HELP) forwarding him information from her communications with Drivewyze to help MSHP's efforts to end the Drivewyze pilot project. From Rasmussen: "FYI, Brian [Heath] stated that MSHP's only issue with Drivewyze was not having the WIM data." Colonel Johnson forwards this email message to Major Kindle indicating, "Please have CVE [Commercial Vehicle Enforcement division] make me a list of issues we had with drivewyze [*sic*]" which resulted in an inter-office communication dated August 12, 2016.
- On July 14, 2016, Marion responded to an email message from Kelly Ray (MoDOT) who prepared a list of issues the department had with Drivewyze. Ray asked Marion to review the list before he sends it to Kevin Kelley (MSHP Lieutenant). **Marion's reply included, ". . . Let him know I'm trying to get the list from Karen [Rasmussen, HELP] of issues nationwide."** [emphasis added by the SAO]
- On July 26, 2016, Marion forwards an email message from Rasmussen concerning Drivewyze's actions in Missouri to his Motor Carrier Services staff indicating, "Hey Brain Trust, good morning! I encourage you to read Karen Rasmussen's, the CEO of HELP, Inc., email that went out to the entire Board of Directors of HELP. Now the entire nation of law enforcement, DOT officials, and private sector board members are aware of the actions that have occurred here in Missouri regarding Drivewyze."

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

This communication demonstrates Marion's bias towards HELP which could have influenced his staff.

- On August 2, 2016, at 12:09 p.m., Marion explains in an email message to Wunderlich, MoDOT's Government Relations Director the various ways Drivewyze did not perform what was required under the MOU, including not providing WIM data. However, the same email message states the Drivewyze current MOU would not allow the company to install WIM sensors. From Marion: "After nearly two years, the MSHP exercised their right under the MOU [Memorandum of Understanding] and notified Drivewyze [DW] that the agreement would end August 15, 2016. MoDOT was/is in full agreement with this decision. In several emails and letters both agencies have reiterated to Richard [McIntosh-Drivewyze's lobbyist] the August 15 still stands, in essence "Drivewyze, get out of MO. The patrol absolutely did not like the Drivewyze product, repeatedly told DW they needed weigh-in-motion data, which DW never produced. In 2 years DW never even provided computer monitors for the pilot sites. They only agreed to provide monitors after they were told about the MOU August 15 cancellation. . . . The old MOU will not work. It only allows the pilot program. To install scales like they want will require a completely new and totally different MOU. They can't just start installing stuff on state Right of Way without an agreement. Both agencies have also told them several times a "new" MOU will need to be done. And right now we have no desire to even consider it . . . Richard [McIntosh] and DW are just trying to bully their way back in. He keeps threatening to go to the Governor. We're at the point where I say, "Good luck with that". The patrol will have no problem explaining to the Gov(ernor)/staff what a disreputable company and poor value for the taxpayer DW is."
- On August 2, 2016, at 2:37 p.m., Marion emails McIntosh (Drivewyze's lobbyist) indicating, "I guess I should risk being blunt, but Drivwyze [*sic*] has been notified of the August 15 cancellation date of the pilot MOU. This fact has been reiterated on more than one occasion by both MoDOT and MSHP. As far as we're concerned that decision is final. . . . At this point, there will be no current or future MOU. . . . At the risk of being too blunt again, we feel like we've had 2 years of unfulfilled promises, expectations and performance from Drivewyze. The recent activity to get monitors and WIM data appears to us as a "now we have no choice" decision by Drivewyze. How can we reasonably expect to trust any actions now? Missouri first allowed the Drivewyze pilot previously as you said, to allow some competition, but unfortunately the pilot has not been good. Drivewyze did not perform for the citizens of Missouri. MoDOT and MSHP are confident we have made the correct decision to no longer have Drivewyze operate in Missouri as of August 15, 2016. And we are also confident this decision can be justified and defended."

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

At 2:43 p.m. Marion forwards the email message to Lt. Kelley indicating, "I hope I don't get called on the carpet for my reply, but gosh darn, this nonsense needs to end."

- On August 2, 2016, at 2:59 p.m., Major Kindle replied to McIntosh, indicating "I fully agree with Scott Marion's response. The MOU creating the pilot program with Drivewyze will be terminated effective August 15, 2016 as previously discussed. The performance of the Drivewyze program did not meet our needs and only after telling the folks at Drivewyze that we were terminating our involvement with their program did they try to become responsive to our requests. We had requested and been promised monitors for our scale houses for over a year with no progress. This type of service is unacceptable. Let me be clear, the monitors will not solve the overall unacceptable service from the folks from Drivewyze. This lack of responsiveness has created a trust issue that will not be easily remedied."
- On August 9, 2016, Shaun Ryker (Prime) emailed Tara Spencer (MoDOT), who forwarded the email message to Marion, "Good Afternoon. I hope everything is going good with you. We received a call from Omnitracs [offers innovative software and fleet management solutions serving the transportation sector] this morning asking where we are with Drivewyze. The first thing we told them was that we're waiting for August 15th before we considered it. They assured us Drivewyze will still be functional in MO. Do you have any updated information regarding the August 15th Deadline?"

Approximately 20 minutes later, Marion emailed Ryker "As of August 15, Drivewyze will not be operating in Missouri, regardless of what they may [*sic*] telling others. This has been communicated to them by the top folks at both MoDOT and the Patrol." Ryker replied "That's what I thought."

- On August 30, 2016, the MSHP sent Drivewyze a letter documenting reasons for cancelling the Pilot Program.
- On November 14, 2016, HELP, Drivewyze, and one other vendor are notified that MoDOT plans to issue an RFP for a commercial motor vehicle electronic preclearance and bypass system.

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

- On December 16, 2016, Marion emails Rasmussen and Crawford (MTA) notification of pre-filed legislation² and provides notes of issues within the bill he felt would harm HELP.
- On December 20, 2016, Major Kindle sent HELP his resume from his MSHP email account.
- On December 21, 2016, HELP emailed Major Kindle the job description for its Regional Director position.
- On January 10, 2017, Rasmussen notifies the MSHP that she plans to attend Colonel Johnson's retirement event and plans to make a presentation on behalf of the HELP Board.
- On January 12, 2017, Rasmussen sends an email message to the HELP Board encouraging board members to attend Colonel Johnson's retirement event.
- On January 16, 2017, Major Kindle interviews with HELP at the company's Phoenix, AZ, offices for the position of Regional Director.
- On January 17, 2017, after Kindle has applied and been interviewed for a position with HELP, Rasmussen emails Kindle asking for his input on a memo she is preparing for Missouri officials highlighting the benefits of HELP's involvement in the state. The email message stated: "It was good to talk with you yesterday and to get your input on the draft 'vehicle headway', Missouri PrePass stats and spreadsheet outlining HP [Highway Patrol] benefits of our system. We are in the process of incorporating your suggestions and will have final documents to you by midday. Per your request, I will also copy in Capt. Earney and Lt. Kelley. Thanks again. Will be back to you soon and look forward to seeing you Thursday for Bret's [Johnson] retirement event."

Later the same day Rasmussen emails the memo to Kindle, Captain Earney, and Lt. Kelley at the MSHP, and suggests it would be inappropriate for her to forward the document to MoDOT, but encourages MSHP officials to do so: "Attached is a spreadsheet with three tabs prepared for Missouri, outlining the benefits of HELP membership and PrePass for the DOT and for the Patrol, as well as a compilation of PrePass industry benefits. These are our collective thoughts, but feel free to utilize what is helpful and discard the rest. Because of the pending RFP,

²Senate Bill 198 was introduced on December 9, 2016 by State Senator Rob Schaaf, which provided regulations for weigh station and inspection site bypass services. House Bill 306 (same as Senate Bill 198) was introduced by State Representative T.J. Berry. Neither bill was enacted.

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

I have not forwarded this information to anyone at MoDOT, but any of you are welcome to forward it to them."

- On January 27, 2017, Rasmussen emailed Marion "talking points" to provide information in discussions with the legislature, for which Marion thanked them (including Mark Doughty, HELP). Rasmussen replied "Scott [Marion]: Stop the presses! What I sent you was a re-constituted version of the one I had nearly finished when we talked earlier today; then my computer ate it and I couldn't retrieve it no how! When I did this version, I left out one extremely important accomplishment that evolved directly out of the HELP Board: The development, testing and deployment of the mobile PrePass Roadside Solutions [PPRS], now available to HELP states and treated just like a new site application. You may want to add it. I was speaking with Mark following the demo they gave Rep. Berry at Kearney today and he said they discussed PPRS and – bingo! It hit me that I left it out of the talking points. Mark [Doughty] said that Lt. Kelley and Jan [Skouby] both did a great job of explaining the system and Rep. Berry listened and nodded a lot. At the end of the demo, he said "I have no problem with HELP's system.....", obviously inferring he's still hung up on the COI [Conflict of Interest] issue. Stay tuned....." Later Marion thanks Rasmussen "for doing the heavy lifting for me."
- On January 31, 2017, Marion emailed Rasmussen and Doughty from his personal email account making condescending and disparaging comments regarding Missouri's legislative process and indicates "this was just my manic way of trying to always see the lighter and absurd things we get the opportunity to be a part of. If I didn't look for the "funny", I'd be way more crazy than I am. Thanks for everything you do for us. I appreciate you and Karen's [Rasmussen] support and help more than I can express." Marion later forwarded this email message to his MoDOT email account.
- On February 1, 2017, Colonel Johnson retired from the MSHP. After his retirement, Colonel Johnson filed an Article of Organization with the Missouri Secretary of State's Office on February, 24, 2017, forming a consulting firm effective March 1, 2017. HELP contracted with Johnson's consulting firm in March 2017.
- Major Kindle retired from the MSHP on February 1, 2017, and was hired by HELP as a Regional Director in March 2017. His region does not include the state of Missouri and we identified no subsequent communications from Kindle to state employees.
- On February 3, 2017, MoDOT issued a RFP for a commercial motor vehicle electronic preclearance and bypass system (RFP #6-170315DR).

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

- On March 6, 2017, Marion emailed Rasmussen and Doughty asking for advice/guidance on an upcoming meeting he had with a member of the Legislature. He informs them about his and his Director's recent meetings with Senator Schaaf, then asks ". . . Do you all have any advice about how to approach the meeting with [Senator] Schatz and also any comments for me to stress about the attached chart? [The attached chart was a hand drawn flow chart of Missouri's commercial vehicle screening and enforcement process.] I still believe the House and Senate bills have little chance of being passed and may or may not even get to the floor for debate, but I do fear a possibility of an amendment being tacked onto other transportation related bills that would forbid us from being on the HELP board. **I don't think we can afford to be complacent.** [emphasis added by the SAO] Any help or advice you can provide for these questions would be much appreciated."
- On April 7, 2017 Rasmussen emailed MoDOT Director McKenna: "Several days ago, Drivewyze submitted a "proposal" to us through Sen. Schatz. The Executive Committee's [HELP] decision was made before the latest tactic - which was to provide a reporter with untruths and innuendos - so the chairman revised the letter this morning. It is being hand-delivered to Sen. Schatz today. Through all of this turmoil, I want to express thanks on behalf of HELP for your continued belief in the value of a public/private partnership whose sole mission is truck safety and infrastructure protection!" McKenna appropriately responded "**In the midst of an active procurement, I do not believe communications between us such as your email are appropriate.**" [emphasis added by the SAO]
- On April 10, 2017, both HELP and Drivewyze received a notice of award for a commercial motor vehicle electronic preclearance and bypass system (RFP #6-170315DR).
- On April 12, 2017, Marion forwarded Rasmussen an editorial regarding Missouri's ethical dilemma regarding truck weighing.
- On April 14, 2017, Rasmussen forwarded a link to a website and petition against Missouri legislation to the personal email account of Marion.
- On April 16, 2017, Marion notified Rasmussen that he needs to file an amended PFD (Personal Financial Disclosure) with the MEC and requests information on expenses paid directly by HELP for various board meetings. Also in the email message he commented that "I realize these machinations are becoming exhausting, . . ."
- On April 18, 2017, Rasmussen forwarded a link to an ad campaign against Missouri legislation to the personal email account of Marion.

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

- On May 10, 2017, Marion emailed Rasmussen from his personal email account "I am extremely disappointed about us having to resign from the board. I realize there are folks way above me in state government who felt this decision had to be made, but I just wish people would take more than a cursory look at the facts. I could write a thousand more words about what I'm thinking and feeling, but maybe I should save that for another time. Tom [Crawford, MTA] had to fight off another amendment today that would have granted DW [Drivewyze] access to HELP's WIMs. Further proof this had absolutely nothing to do with our membership in HELP but all about DW [Drivewyze] wanting a free ride. **While I hope to someday have a more formal role with HELP, I pledge to do everything I can communicate the facts about the good work and unquestioned ethics of HELP.** [emphasis added by the SAO] I can't even fathom how someone could make false accusations to the FBI about another person and tarnishing one's good name? But DW [Drivewyze] can and will stoop to even lower tactics I'm convinced . . . This is probably emotion talking, but I think aggressive action of some kind may be necessary to preserve, protect and grow HELP. I don't know if that means legal action or changing the structure and oversight of HELP? It will undoubtedly create additional expenses as similar situations happen in other states. I don't know exactly how, but it may be possible for me to take action now that I'm off the board. I look forward to speaking to you about any way I can help. **I value your friendship so much and please let the other board members know I will miss them and to stay diligent in their good work.** [emphasis added by the SAO] I would prefer for now that this email remain confidential, but at some point maybe I could write a letter of encouragement, etc. that could be read at a future board meeting? To say I'm a little despondent would be an understatement."
- On May 10, 2017, Chuck Gohring, National Interstate Risk Management, emailed Marion about Missouri no longer being represented on the HELP board. Marion replied "Chuck, You have no idea of the stuff I've endured and still going through. I'll have to call you soon to catch you up." Gohring responded "Well, if it made Transport Topics...I can only imagine. Stay Strong!" Marion replied "Let's just say I've learned email is not always the best way to communicate!"
- On June 5, 2017, Marion sends an email message from his personal email account to former Colonel Johnson, now contracted by HELP, providing information related to WIM installation times. This email message demonstrates that Johnson may have violated state law as further described on page 25.

Weigh in Motion Contracts

Management Advisory Report - State Auditor's Findings

- On June 6, 2017, Rasmussen emails Marion at his personal email account in response to his inquiry about accidents/congestion around WIM installations.
- On June 25, 2017, at 10:23 p.m., Marion emailed Jay Wunderlich and Roberta Broeker (all of MoDOT) with a WIM risk assessment he prepared, "... all of the talk about the safety hazards and inconvenience to the public when installing and working on WIMs, prompted me to pursue a Risk Assessment about this work zone activity. I thought this would be good to provide MoDOT and both bypass providers information and awareness of the safety risks they will encounter over the life of the contracts. I have not sent the attached documents to any one as of yet, ...". Wunderlich thanked Marion for his work the next morning (June 26, 2017) at 7:35 a.m.
- On Sunday, June 25, 2017, at 10:44 p.m., approximately 21 minutes after informing Wunderlich and Broeker of the risk assessment and prior to receiving their acknowledgement and/or approval to forward, Marion emails Johnson, Rasmussen, Doughty (HELP), and Crawford (MTA) from his personal email account with MoDOT's WIM risk assessment concerning crashes at work zones involving WIM work. Marion indicates "I'm not naïve enough to say the work zones, no matter how small, are "safe places", but the risk assessment did show that the installation and maintenance of WIMs and other very similar types of work zones are one of the safest types of work we do. I have not shared the attached documents with anyone except for my boss Roberta Broeker and Jay Wunderlich, our Government Affairs guy. At the July 11 meeting that Rep. Berry has called, I plan to be quiet unless called upon because I consider the meeting a moot point since we have signed and executed agreements with both service providers. However, I will have this document with me as it dispels much of the talk about safety and inconvenience to the public. If asked, I plan to provide this to both bypass providers prior to WIM installation and maintenance work and anyone else interested, but you requested this information, so I'm sending it to you first." Subsequently, on July 6, 2017, Rasmussen requests from Marion the same MoDOT internal risk assessment he previously provided her on June 25, 2017. On July 7, 2017, Marion officially emails Rasmussen, from his state email account, that same document.

The information Marion provided to HELP in both the June 5 and June 25, 2017 email messages was only provided to HELP, and not both vendors involved in the legislation (despite Marion's comments otherwise). This information was provided in advance of an important meeting in the House Speaker's Office, on July 11, 2017, between members of HELP, Drivewyze, legislators, and members of MoDOT.

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

- On September 19, 2017, Katelyn Dwyer, American Association of Highway Transportation Officials, emailed various states to determine if they were using WIMs like the Idaho Transportation Department. Cheryl Ball, MoDOT, tells Marion she responded to Dwyer. Marion then responds himself to provide information about HELP and offers to provide contact information for HELP. From Marion: "Katelyn, Missouri uses WIMs at 19 of our weigh stations in combination with our no-cost bypass service provider PrePass and soon to be another provider Drivewyze. If you'd like to learn more feel free to give me a call. I would also suggest this website of HELP, Inc. the non-profit public/private group that provides the PrePass Services. <http://www.helpinc.us/> I could easily get you in touch with Karen Rasmussen the President and CEO of HELP, Inc. to learn more. . . ."

Conclusion

While both the MSHP and MoDOT did not initially perceive any conflict of interest with their employees being members on the HELP Board, it is clear from these communications that the relationships formed while working with HELP led to such conflicts. The communications show instances of bias and a lack of independence toward HELP. These communications also show that a MoDOT employee tasked with providing oversight to preclearance providers in the state maintained questionable relationships with HELP officials, and acted in an inappropriate capacity of promoting and selling the benefits of HELP to other states and to potential clients.

State employees subsequently employed by HELP

Three MSHP and MoDOT employees involved in decisions related to Missouri's commercial vehicle preclearance and bypass services were subsequently hired by or contracted with HELP after their retirement from the state; Jan Skouby (May 2014), Bret Johnson (March 2017), and Greg Kindle (March 2017), casting further doubt on their independence. In addition, two of these employees have had business related communications with Missouri while employed with HELP despite contrary statements made by Rasmussen, further demonstrating bias and lack of independence in decision making.

As previously noted, Major Greg Kindle actively solicited employment with HELP through his official MSHP email account on December 20, 2016 to which HELP replied the next day by emailing him the job description for its Regional Director position. We identified additional email messages, where Major Kindle made travel arrangements for his interview and conveyed his retirement plans with HELP through his official MSHP email account.

Major Kindle did not serve on the HELP Board, but was involved with maintaining the contract between MSHP and HELP (as previously noted) prior to his retirement. In addition, rather than abstaining from any involvement with HELP after soliciting employment and interviewing, Major Kindle continued corresponding with HELP regarding the firm's business in

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

Missouri and took no steps to formally notify in writing his employer of a possible conflict.

Communications with former state employees considered a conflict

Communications between state employees and their former colleagues now working for HELP put state employees in a position to be unduly influenced and would be considered a conflict of interest and a potential violation of state law. HELP officials recognized this conflict. In an email message to the HELP Board of Directors on April 7, 2017, Rasmussen indicated "We met with Bret [Johnson] after the Board meeting last month and asked him, through his Limited Liability Company, to take on a small consulting role specifically to assist Steve Vaughn [HELP] in representing HELP with the International Association of Chiefs of Police (IACP) and related organizations. Prior to executing a short-term consulting agreement, we sought legal guidance and concluded that, as a private citizen, Bret is free to do work for whomever he chooses. It is a natural fit for us given his knowledge of our organization and programs, as well as of commercial vehicle enforcement. Under our six-month agreement, he is prohibited by state law and by HELP's own conflict of interest standards from representing HELP in any way in Missouri. The same is true for Greg Kindle and Jan Skouby, both retired former Missouri state employees, neither of whom represent us in Missouri."

However, as previously noted in the email messages dated June 17, 2014, August 26, 2014, December 1, 2014, June 5, 2017, and June 25, 2017, both Skouby and Johnson have had business related communications with state employees involved in Missouri's commercial vehicle preclearance and bypass system since their retirement, which represents a conflict of interest and contradicts Rasmussen's statement and HELP's conflict of interest standards. In addition, email messages not included in the communications timeline dated June 26, 2014, August 15, 2014, October 29, 2014, April 29, 2015, July 29, 2015, and February 4, 2016, show Skouby had further influence on Missouri's commercial vehicle preclearance and bypass system.

Section 105.454.1(5) and (6), RSMo, prohibits employees from performing any service for consideration, during one year after termination of his or her office or employment, by which performance he or she attempts to influence a decision of any agency of the state, which he or she was an officer or employee or over which he or she had supervisory power, and prohibits employees from performing any service for any consideration for any person, firm or corporation after termination of his or her office or employment in relation to any case, decision, proceeding or application with respect to which he or she was directly concerned or in which he or she personally participated during the period of his or her service or employment.

Conflict of interest policies and procedures

The MSHP and MoDOT lack adequate policies and procedures to identify and address conflicts of interest and actions demonstrating a lack of

Weigh in Motion Contracts

Management Advisory Report - State Auditor's Findings

independence. Neither the MSHP nor the MoDOT took steps to evaluate and document whether their employee's membership on the HELP Board represented a potential conflict of interest and actions taken, including communications demonstrated a lack of independence. Additionally, action was not taken by either MSHP or MoDOT to ensure former state employees now working for HELP were not influencing the decision making process. In addition, the MSHP and the MoDOT's policies do not require employees to report potential conflicts of interest and do not address procedures to monitor employees involvement to ensure compliance with the established policies.

The MSHP's Rules of Conduct for Employees, Section B, Prohibited Conduct, No. 3, indicates an employee will not engage in any activity in which there is a significant potential for conflict of interest or the appearance of a conflict of interest with the lawful duties of the employee. Conflict of interest is any activity that would tend to influence a decision, create a bias or prejudice, or create a gain or loss for any person or agency, which would favor one side or the other in conflict with the employee's official duties, or that conflicts with the accomplishment of the Patrol mission or goals.

MoDOT's Conflict of Interest Policy includes the following statements:

- Employees are expected to engage in activities that are compatible with the impartial and objective performance of their duties.
- Employees should avoid any activity which improperly influences or gives the appearance of improperly influencing the performance of their duties.
- Employees shall not participate in any proceeding or decision in which the employee's impartiality might be reasonably questioned due to the employee's personal or financial relationship with a participant in the preceding.

MoDOT internal documents suggest department officials did not believe their employees membership on the HELP Board of Directors was a conflict of interest; however, the content of some of the email messages previously noted and subsequent employment of 2 MSHP and one MoDOT employees cast doubt on their independence and show preferential treatment to HELP.

The lack of proper oversight and adequate conflict of interest policies allowed potential conflicts of interest to occur and caused a lack of independence that may harm public confidence in the MSHP and the MoDOT.

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

Internal reviews and
management inquiries
undertaken by MSHP and
MoDOT

On May 10, 2017, the MSHP issued a news release indicating it provided the Attorney General's Office with all information from the "internal review," ordered by Colonel Sandra Karsten to look into the MSHP's involvement with the HELP Board. The news release indicated concerns were uncovered "with actions during the prior administration by individuals no longer employed by the Patrol."

However, during the course of our audit we asked the MSHP for additional information regarding this internal review, and MSHP officials indicated a formal written report was not completed and the results of this internal review were not documented. Their response to our inquiry follows:

"Regarding the internal review referenced in the May 10, 2017 news release, information related to the Patrol's service on the HELP, Inc. Board was reviewed. The Patrol had some concern regarding former Patrol employee(s) purportedly working for HELP, Inc. after retiring from the Patrol and was uncertain whether such concern was warranted. By May 10, 2017 separate, contractual relationships had been formed between the State of Missouri and Drivewyze and HELP, Inc., there was no further need for the Patrol to have a representative serve on the board of HELP, Inc. The Patrol provided to the AGO [Attorney General's Office] a copy of the records the Patrol had previously provided to the SAO."

While a MSHP employee resigned from the HELP Board of Directors on May 9, 2017, the MSHP did not document its internal review of employee actions or change its policies or procedures.

After various requests from our office for email messages and documents, the MoDOT provided information responsive to our requests in September and November 2017. Unbeknownst to the SAO, the MoDOT started an internal management inquiry of potential conflicts of interest in November 2017 to determine if any actions taken were inconsistent with department policy. MoDOT's internal review resulted in numerous additional email messages being provided to the SAO in December 2017. On January 3, 2018, after informing our MoDOT audit liaison we would be sending the department a management representation letter to confirm all documentation had been provided to the SAO, we were informed of MoDOT's internal inquiry and of the existence of additional email messages that would be relevant to our review. Subsequently, on January 19, 2018, MoDOT provided us a final submission of email messages completing our requests. MoDOT reviewed the email messages and conducted interviews completing their inquiry February 5, 2018. On February 7, 2018, MoDOT officials provided us information concerning the results of their investigation, which indicated MoDOT concluded communications between one current employee and HELP had violated MoDOT's rules of conduct and disciplinary action had been taken.

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

MoDOT updated its conflict of interest policy on February 1, 2017, to raise organizational attention to the issues of lobbying, acceptance of gifts, and impartiality in decision making. MoDOT officials also indicated they have expressed to their General Services Division, an organizational desire to generally have contracts and other agreements that are time specific in nature, rather than the open-ended time frame of the original Help, Inc. agreement, and to generally adhere to a 3-year time frame, with 2 optional one-year extensions.

Personal financial disclosures Employee personal financial disclosures (PFD) required to be filed with the Missouri Ethics Commission (MEC) were not accurate, requiring subsequent amendments.

- Colonel Bret Johnson failed to properly disclose his membership on the HELP Board, until amending his 2015 PFD in August 2016. In addition, Johnson never reported any expenses paid directly by HELP, or amended any of his PFDs prior to 2015. He was a member of the HELP Board between 2008 and 2016.
- Jan Skouby never disclosed her membership on the HELP Board, and only disclosed related 3rd party expenses in 2009. She was a member of the HELP Board between 2009 and 2013.
- Scott Marion initially failed to properly disclose his membership and 3rd party expenses paid by HELP on his 2014 and 2015 PFDs. In June 2017, he amended both of these PFDs to disclose his HELP Board membership and 3rd party expenses paid by HELP, and amended his 2016 PFD (filed in March 2017) for 3rd party expenses paid by HELP.

Section 105.485.2(7), RSMo, requires disclosure of the name and address of each not-for-profit corporation in which a person was a trustee at any time during the year covered by the statement, and for each such organization, a general description of the nature and purpose of the organization. In addition, Section 105.485.2(9), RSMo, requires the PFD statements contain lodging and travel expenses provided by any third party for expenses incurred outside the state of Missouri whether by gift or in relation to the duties of office of such official.

Conclusion

The involvement of MoDOT and MSHP employees on the HELP board, the content of their communications and close working relationships with HELP officials, and the subsequent employment of former state employees by HELP indicate significant conflicts of interest were present. In addition, incomplete and inaccurate reporting on PFDs did not provide adequate transparency of the relationships in place. The further lack of oversight and adequate conflict of interest policies may harm public confidence in the MSHP and the MoDOT.

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

Increased awareness of such relationships, and requiring conflicts of interest and/or situations which could present the appearance of a conflict of interest to be reported in writing would help provide transparency and full disclosure to the public.

Recommendation

The MSHP and MoDOT adopt written policies and procedures to review for potential conflicts of interest and revise their conflict of interest policies to require employees to disclose potential conflicts of interest and address procedures to monitor employees involvement to ensure compliance with established policies. The MSHP and MoDOT also need to better inform current and exiting employees regarding the requirements of Section 105.454.1(5) and (6), RSMo.

Auditee's Response

The MoDOT provided a written response. See Appendix B.

The MSHP provided a written response. See Appendix C.

2. Weaknesses in Implementation and Planning of Preclearance and Bypass Planning Services

Poor planning on the part of the MSHP and the MoDOT led to delays and inefficiencies in the implementation of a fair and comprehensive preclearance and bypass system.

The MSHP and MoDOT did not conduct a request for proposal (RFP) when a second vendor (i.e. Drivewyze) emerged in 2013 wanting to participate in Missouri's preclearance and bypass program. Instead, in August 2014 the MSHP entered into a memorandum of understanding (MOU) to begin a pilot project to test Drivewyze's capabilities. However, the MOU with Drivewyze did not contain clear performance requirements or expectations. Specifically, the MOU did not require Drivewyze to have access to WIM data as part of the pilot project, and did not allow for the company to install its own sensors. The MOU also did not provide Drivewyze with any formalized expectations for what was required going forward. Access to WIM data was a significant and known issue when the MSHP entered into the MOU due to that data being owned by HELP in Missouri. In other states where both HELP and Drivewyze operate, the WIMs and WIM data is owned by the state, who provides the needed data to the bypass system vendors.

Background on WIM data and agreements with HELP

Since 2002, the MSHP and MoDOT have contracted with HELP for the installation of WIMs and operation of Missouri's preclearance and bypass program. At the time the original agreement and subsequent 2005 agreement were executed, HELP was the only provider of these bypass services. The 2005 agreement provided no termination date, but states the parties could terminate the agreement for cause after 90 days of written notice. In addition, the 2005 agreement indicated:

"The Memorandum of Understanding does not create an exclusive relationship between the Commission and Patrol and HELP for providing

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

electronic screening services. HELP agrees that if one or more similar site systems are, or become available, the Commission and Patrol have the option of entering into similar agreement(s) that may include providing equal right of access to site components provided or funded by the Commission and Patrol, except that such use shall not interfere with HELP-provided equipment or operations. Such additional site system would have no right to use, share or interfere with the components provided or funded by HELP, including HELP owned transponders, although HELP would have the option of reaching an agreement with any other provider under which equipment provided or funded by HELP could be shared."

The above language allows HELP to control if any other potential vendors, such as Drivewyze, can access the WIM data from their scales, and does not leave the MoDOT any option to obtain such data in the future, if necessary. By not ensuring future access to the WIM data, MoDOT created a significant barrier to entry for any additional preclearance service vendors wishing to provide such service in the state.

Drivewyze pilot project

The MSHP entered into a MOU with Drivewyze in August 2014 to establish a pilot project to implement the company's system. MSHP officials indicated they entered into the pilot project with Drivewyze because company representatives stated they could provide a "fully functional bypass program." However, based on email messages in calendar years 2012 and 2013, agency management knew prior to the execution of the pilot project that HELP and Drivewyze had previously failed to execute an agreement to share WIM data at the Bloomsdale weigh station, and the Drivewyze pilot program would also lack WIM data, or at a minimum, have difficulties getting access to the data from a competitor. For example:

- On May 28, 2014, Marion noted in an email message to Lieutenant Kelley and Captain Earney, MSHP, and other MoDOT employees, that Drivewyze cannot capture WIM data because Drivewyze has not reached an agreement with PrePass "on sharing/linking systems and data, etc. So far, my discussions with the PrePass folks haven't produced much, but I'm hopeful this may be possible in the future."

This concern was reiterated during the performance of the pilot project as evidenced in the following email message:

- On October 7, 2015, Marion noted in an email message to Captain Earney and Lieutenant Kelly, MSHP, "I've read and reread and had our legal folks review our MOU with PrePass and it clearly says the only way another company can hook into PrePass provided equipment is for the other company and PrePass to reach an agreement. DriveWyze's [*sic*] issue is with PrePass, not MoDOT or the MSHP."

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

Cancellation of the
Drivewyze pilot project

Drivewyze was notified in May 2016 by the MSHP, that the Drivewyze pilot was being canceled in August 2016. The MSHP canceled the project due to the lack of access to existing WIM data and a lack of action related to installation of other assets necessary to implement the firm's preclearance and bypass system. However, due to a lack of clear performance expectations being documented in the MOU, the MSHP did not have clear criteria to evaluate Drivewyze's performance on the pilot project. As a result, MSHP did not have a clear basis to cancel the pilot project, and initially failed to clearly communicate to Drivewyze in writing the reasons for the cancellation of the project.

A letter to Drivewyze dated May 4, 2016, and signed by Colonel Johnson only indicated "This correspondence serves as the Missouri State Highway Patrol's written notification of the cancellation of the agreement with Drivewyze, Inc., effective August 15, 2016."

Formal written communication explaining why the pilot project was canceled was not provided to Drivewyze by the MSHP until August 2016, when the MSHP sent a letter to Drivewyze indicating the company had not provided weigh in motion data for commercial vehicles as part of the bypass screening process or the necessary monitors for automated identification.

It is unclear why the MSHP failed to formally communicate concerns with Drivewyze during the pilot program because internal communications between the MSHP and MoDOT concerning the pilot project's performance, were evidenced in the following email messages:

- On April 13, 2015, Kelly Ray, MoDOT, asks Lieutenant Kelley, "When are you guys planning on letting IIS [Drivewyze] know we're pulling the plug? They've asked Scott [Marion] for WIM data to plug into Drivewyze. We don't want to answer until they know."

Lieutenant Kelley responds, "How can they get WIM data if PrePass doesn't allow it? Can they get WIM data?"

Kelly Ray indicates, "They can't get it unless we battle with PrePass or simply tell IIS [Drivewyze] it's between them and PrePass but there's no sense going down that path if we're not keeping Drivewyze."

Lieutenant Kelley replies, "The reason we had decided not to keep them as far as a bypass system was two-fold. No WIM data was the biggest issue. The other reason was the need for separate computer screens to view the bypasses. **If they did that, I think we would have to be fair and keep them. Your thoughts??**" [emphasis added by the SAO]

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

Kelly Ray replies, "I know we should always be fair, but I also know how much PrePass has invested in our state. If IIS [Drivewyze] wants to provide their equipment and cut a deal with PrePass for the weights, I have no problem at all. If they expect us to provide the weight data, I'm not sure Scott [Marion] is willing to pursue. I need to talk to him in the morning. If you get a chance, you might want to see how much they're willing to provide in equipment and if they're willing to strike a deal with PrePass for the data."

Further, while the pilot project MOU indicated Drivewyze would provide MSHP "a fully functional bypass program," it did not specifically require Drivewyze to provide weigh in motion data for commercial vehicles or monitors for automated identification (the 2 reasons for the cancellation). According to MSHP officials, these items were determined to be necessary during the operation of the pilot project and verbally communicated to Drivewyze officials. However, statements made in email messages on August 2, 2016, indicate Drivewyze could not take steps to provide weigh in motion data unless the company's competitor provided the information (unlikely to occur) or a new MOU was entered as follows:

- Marion indicated, "The old MOU will not work. It only allows the pilot program. To install scales like they want will require a completely new and totally different MOU. They can't just start installing stuff on state Right of Way without an agreement. Both agencies have also told them several times a "new" MOU will need to be done."

In effect, MSHP entered into a MOU with Drivewyze to implement a pilot project and allowed that project to continue for 2 years even though they strongly suspected Drivewyze would not be able to acquire WIM data from HELP, and knowing that the existing MOU would not allow Drivewyze to install its own WIM sensors.

RFP for preclearance and bypass services

In October 2016, due to concerns of conflicts of interest, the MoDOT determined an RFP should be issued and subsequently issued an RFP in February 2017, to allow a fair and competitive process for the potential preclearance and bypass service providers. Both HELP and Drivewyze received notices of award in April 2017, and their related contracts were fully executed February 1, 2018. However, the new RFP requires both vendors to install WIMs at their own cost and weight information is owned by each vendor, which may limit future competition. If another vendor wants to enter the market in the future, the firm will also have to install additional WIMs in the roadways to obtain the required weight information.

Conclusion

Poor planning by the MoDOT and MSHP resulted in significant delays and inefficiencies in the implementation of a fair and comprehensive preclearance and bypass services. MoDOT and MSHP's agreement with HELP did not

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

allow the state access to WIM data, and the initial MOU with Drivewyze did not provide the vendor with clear expectations of performance, which led to misunderstandings as to what was expected and uncertainty in the reasons for the cancellation. Written communications are needed to avoid misunderstandings and aid the MSHP in the event the handling of the agreement is questioned. In addition, written communication would assist the vendor in understanding the need for improved performance and the reason decisions were made.

Recommendation

The MSHP and MoDOT ensure adequate planning is performed to evaluate changes in competition for program services and consider the need to rebid those services. The MSHP should also perform formal evaluations of pilot projects and ensure future contracts or agreements include clear performance expectations.

Auditee's Response

The MoDOT provided a written response. See Appendix B.

The MSHP provided a written response. See Appendix C.

3. Communication and Retention Policies

Communication and retention policies of the MSHP and MoDOT need improvement.

MSHP policies

The MSHP has not developed policies and procedures to (1) ensure its employees are aware of and comply with the record retention schedules approved by the Secretary of State's (SOS) office and (2) identify business related communications (including personal email and text messages) that are required to be retained in accordance with record retention schedules approved by the SOS. Neither issue is clearly addressed in the MSHP's Information Systems Security policy.

The MSHP does not require retention of business communications via text message, and as a result, the MSHP may not comply with record retention schedules approved by the SOS. The only record of the text message communication were the text messages available for our review on the phones of the employees.

During our review of correspondence related to the weigh in motion contracts, we found evidence that Colonel Johnson communicated via text message with a Drivewyze representative in November 2016. In addition, MoDOT provided us communications with Captain Earney via text message sent from Captain Earney's personal cell phone concerning the RFP and various news articles. Neither Colonel Johnson nor Captain Earney's text messages nor their content were retained by the MSHP.

Weigh in Motion Contracts Management Advisory Report - State Auditor's Findings

MoDOT policies

Scott Marion, current MoDOT Director of the Motor Carrier Services Division, violated MoDOT policy by using his personal email account to conduct official MoDOT business without approval. In addition, the MoDOT's policies and procedures do not require employees to identify business related communications (including personal email messages and text messages) to be retained in accordance with record retention schedules approved by the SOS.

As noted in MAR finding number 1, Marion used his personal email account to conduct state business with HELP. Marion started using his personal email account more frequently to correspond with HELP after the weigh station bypass industry came under scrutiny in late 2016.

MoDOT personnel policy No. 2503, titled Communication and Information Systems, indicates department email accounts have been provided to conduct department business and use of any other email account (i.e. personal) to do so is strictly prohibited unless approved by Information Systems management. MoDOT officials indicated Marion was not granted such approval.

In addition, the MoDOT does not require retention of business communications via text message and as a result, the MoDOT may not comply with record retention schedules approved by the SOS. The only record of the text message communication were the text messages available for our review on the phones of the employees.

Conclusion

While the Office of Administration maintains an email message archiving system that retains state agency email messages forever, use of personal email messages to correspond directly to a non-state entity is not archived. In addition, because agency policies do not adequately address retention of business related communications, we cannot be certain we were provided all such communications related to the weigh in motion contracts.

Improper methods of communication could create legal liability, cause the loss or destruction of records, create unacceptable positions for employees, and harm the public's confidence in these agencies. Both agencies are expected to abide by the record retention schedules approved by the SOS. Without clear, specific, and adequate retention policies, there may be inconsistencies in the understanding and implementation of records retention and accessibility.

Recommendation

The MSHP should establish communication and retention policies in accordance with the record retention schedules approved by the Secretary of State's office. The MoDOT should ensure personnel policies are followed regarding use and approval of personal email accounts and ensure its retention policies abide with the record retention schedules approved by the Secretary of State's office for nontransitory communications.

Weigh in Motion Contracts
Management Advisory Report - State Auditor's Findings

Auditee's Response

The MoDOT provided a written response. See Appendix B.

The MSHP provided a written response. See Appendix C.

4. HELP Membership Dues

MoDOT's payment of membership dues for Missouri's private sector representative on the HELP board was not disclosed in grant funding applications and not a prudent or necessary use of state or federal funds.

As noted in the Background section, annual membership dues totaling \$22,500 were paid by MoDOT for Missouri's 3 representatives (\$7,500 per member). The United States Department of Transportation (USDOT), Federal Motor Carrier Safety Administration's (FMCSA), Commercial Vehicle Information Systems and Networks program grant provided for a 50 percent reimbursement of HELP dues. However, payment of the MTA (private sector) representative's dues were not disclosed in the MoDOT's annual application for this funding.

In December 2016 (after the weigh in motion contracts came under scrutiny), the USDOT, FMCSA's Grants Management Office, determined that membership dues used to pay for private sector representation on the HELP Board would no longer be considered an eligible expense. Similarly, state funds should not have been used to pay for the portion of the other 50 percent of the private sector representative's membership dues.

As of May 2017, Missouri's state representatives on the HELP board have resigned due to the appearance of a conflict of interest and membership dues are no longer paid to HELP.

Recommendation

In the future, the MoDOT should refrain from paying membership dues of a private sector representative.

Auditee's Response

The MoDOT provided a written response. See Appendix B.

Weigh in Motion Contracts Organization and Statistical Information

Administering the Federal Motor Carrier Safety Assistance Program is the responsibility of the Missouri Department of Transportation (MoDOT). The program focuses on the development and implementation of tools to enforce commercial motor vehicle safety rules, regulations, and orders.

The MoDOT is responsible for coordinating the planning and construction of new scale facilities. Directed by the Support Service Bureau of the Missouri State Highway Patrol (MSHP), the Commercial Vehicle Enforcement Division (CVE) enforces all applicable federal and state rules, regulations, and statutes, related to commercial vehicle axle, gross, and licensed weight compliance.

Missouri has 113 CVE Officers/Inspectors located at 21 fixed scale sites and 18 portable scales throughout the state enforcing vehicle weight regulations. Fixed, or permanent, scale facilities are located along the Interstate or U.S. highways. Portable scales move throughout the state assigned to bypassing routes or within metropolitan commercial zones. Though permanent facilities are constructed by MoDOT, both the MSHP and MoDOT share maintenance responsibilities.

Weigh in Motion Contracts

Drivewyze Inc. Memorandum of Understanding

MEMORANDUM OF UNDERSTANDING

BETWEEN

Drivewyze Inc.

AND

Missouri State Highway Patrol

This non-binding MEMORANDUM OF UNDERSTANDING (MOU) is hereby made and entered into by and between Drivewyze Inc. ("Drivewyze") and the Missouri State Highway Patrol ("Agency").

A. PURPOSE:

The purpose of this MOU is to describe the participation of both parties in the **Drivewyze™** bypass program. This non-binding MOU discusses the participation of both parties with respect to the roles and benefits related to each party involved in the bypass program:

B. STATEMENT OF MUTUAL BENEFIT AND INTERESTS:

The bypass program will utilize GPS and web-based technology to provide the Agency with a fully functional bypass program. The bypass service and supporting technology is supplied at no cost to the Agency and is fully supported by carrier subscription fees collected by Drivewyze Inc. The **Drivewyze** technology delivers a complete commercial motor vehicle (CMV) bypass program to the State.

The **Drivewyze** technology includes a mobile device application that turns a standard in-cab hardware technologies (ie. tablet/smartphone/EOBR/ELD) into a 'smart transponder'. The bypass program also includes the **Drivewyze** Smart Roadside screening interface for enforcement staff, allowing the setup, operation and complete control of the **Drivewyze** program at a State level.

C. ROLES

The roles of both Agency and **Drivewyze** are described in this MOU.

During typical **Drivewyze** operations, the Agency shall:

- a. Work with **Drivewyze** to establish the bypass program, policies and operational framework for implementing the bypass program including:

Drivewyze is a trademark of Drivewyze Inc.

Weigh in Motion Contracts
Drivewyze Inc. Memorandum of Understanding

- a. Approval of all sites within the State where **Drivewyze** will be active.
- b. The Agency controlled bypass criteria used to evaluate bypass requests.
- c. Provide any required approvals for Drivewyze to access government information systems on behalf of the Agency for the sole purpose of providing safety and credential related information to support the bypass program.
- b. Have no obligation to bypass vehicles that do not qualify for bypass privileges as laid out in the Agency's Bypass Program operations and policy documents.
 - a. The Agency is free at any time to change the business rules governing bypass
 - b. The Agency can vary the random report rates from 0-100%
 - c. The Agency can cancel bypass operations for any carrier as it sees fit.
- c. Allow a vehicle that meets the Agency's bypass requirements to bypass a weigh station or inspection site, and treat the event as a legal bypass event.
- d. Direct frontline Agency staff members to utilize **Drivewyze** at any weigh station sites approved for bypass operations.
- e. Support the collection of any technical or operational feedback on the driver or screening interface and system performance through meetings and customer service calls in order to help improve the **Drivewyze** technology.
- f. Not be responsible for any information obtained by **Drivewyze**.
- g. Not be under any legal obligations whatsoever to **Drivewyze** or industry participants.

During typical operations, Drivewyze shall:

- a. Market and enroll drivers into the **Drivewyze** program.
- b. Provide **Drivewyze** bypass device application to drivers that enroll.
- c. Provide training to the Agency administration and frontline operators.

Drivewyze is a trademark of Drivewyze Inc.

Weigh in Motion Contracts
Drivewyze Inc. Memorandum of Understanding

- d. Provide training to the drivers and carriers.
- e. Provide the Agency with online access to the Smart Roadside Inspection System screening interface in order to view **Drivewyze** vehicle events.
- f. Provide system access and use at no cost to the Agency.
- g. Provide technical and system support services free of charge to the State and industry participants.
- h. Provide the Agency with monthly field reports presenting details of the previous month. Real time reports are also available.

D. This agreement will remain in effect indefinitely from the date of signing or until either party notifies the other that the agreement is cancelled. Either party may cancel the agreement at any time with 90 days written notice to the other party.

MISSOURI HIGHWAYS AND TRANSPORTATION COMMISSION

April 13, 2018

The Honorable Nicole Galloway
State Auditor
State Auditor's Office
Room 121, State Capitol Building
Jefferson City, MO 65101

Dear Madam Galloway:

Attached please find the Missouri Department of Transportation (**MoDOT**) response to the Weigh in Motion Contract Review Audit Report.

(I) Conflicts of Interest and Personal Financial Disclosures

DEPARTMENT RESPONSE:

(A) Background: In the Motor Carrier Safety Improvement Act of 1999, the Federal Motor Carrier Safety Administration was tasked to provide federal funds to states to create a new commercial motor vehicle (CMV) enforcement technology that would allow pre-approved CMVs to bypass weigh stations, which would increase safety on interstate highways. In 1999, the Missouri Legislature amended section 304.235, RSMo (which had previously required all CMVs to stop at a weigh station) to authorize CMVs to bypass a weigh station if the CMV is identified through new automated technology to be in compliance with state weigh limit laws.

When researching the creation of an electronic bypass system in Missouri, MoDOT considered building its own electronic bypass system. In 2002, after significant research and consideration that showed MoDOT's pursuit of its own state-owned system would require a significant investment of state funds to build and then upgrade and maintain such system, MoDOT elected to save Missouri's limited public funds and executed a contract with the only provider capable of building such a system at the time, HELP, Inc. As the auditor notes in this report, **HELP, Inc. has estimated its costs to build the preclearance system in Missouri at \$21 million, costs which otherwise would have been paid by Missouri taxpayers.**

HELP, Inc.'s electronic bypass system is a great example of the State of Missouri working with private entities to create a system that has had significant benefits to the Missouri economy and the trucking industry, without requiring Missouri and MoDOT to pay these costs.

Our mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri.

Weigh in Motion Contracts
Auditee Response - MoDOT

(B) Benefits: The Missouri economy and trucking industry have received significant benefits from the electronic preclearance weigh station bypass system that authorizes CMVs to bypass weigh stations upon electronic verification of the CMV's compliance with federal and state weight limits and authority to operate. In 2017, HELP, Inc. estimated its Missouri Pre-Pass electronic bypass system has saved 2,543,202 hours in CMV operations; saved 12,207,367 gallons of fuel; and saved \$223,233,076 in CMV operating costs in Missouri. These costs do not include the unknown, but significant, safety savings in reduced congestion and traffic incidents due to the elimination of lines of CMVs on interstate highways having to physically pull in at weigh stations. Also, the electronic bypass system has extended the life of Missouri's interstate weigh station scales by authorizing CMVs that comply with federal and state weight limits to bypass the scales and the Missouri State Highway Patrol concentrating enforcement on higher-risk carriers. By eliminating over half of the trucks that cross the scales, it effectively has doubled the weigh scales' life.

(C) Improper Communications: While there has been significant benefit for the Missouri economy since implementation of HELP, Inc.'s CMV electronic preclearance system in Missouri, MoDOT agrees there were communications by a MoDOT employee that shows a bias towards MoDOT's vendor. The emails show the MoDOT employee's involvement on HELP, Inc.'s board was used to market HELP, Inc. MoDOT has already taken several steps to correct this situation.

1. Competitive Procurement: First, in October 2016, MoDOT decided to conduct a competitive procurement to determine if any firms, in addition to HELP, Inc., could successfully provide electronic weigh station bypass services. When MoDOT initially contracted with HELP, Inc. (first in 2002, later amended in 2005), HELP, Inc. was the only provider for these services.

MoDOT's General Services division researched 50 state websites to identify electronic bypass service providers who may be able to provide these services. States were contacted if the information was not readily available on the website. Also, MoDOT engaged a representative from the Federal Highway Administration and the Missouri Office of Administration Information Technology Services division to serve on the Evaluation Team and excluded staff from its Motor Carrier Services division on such Team in order to ensure an objective review of the proposals received. A procurement like this is unusual because MoDOT knew these services would not result in an outlay of taxpayer dollars.

2. Board Withdrawal: Second, MoDOT withdrew its membership from HELP, Inc.'s board of directors on May 9, 2017. As noted above, public/private membership on the board served the state of Missouri well as MoDOT was able to test new applications and vote on new technologies for HELP's possible investment in Missouri. Over a third of the states continue to be members of HELP, Inc.'s board, usually consisting of the state department of transportation or the state police / highway patrol. Nevertheless, MoDOT determined the relationship with HELP, Inc. through participation as a board member was no longer desired, and therefore decided to remove our employee from the board.

3. Internal Review: Third, MoDOT conducted an internal review of the actions and communications of our employee who previously served on HELP, Inc.'s board and determined that the employee's actions warranted discipline.

(D) Personal Financial Disclosure Statements: MoDOT recognizes its former employees did not properly disclose their membership on HELP, Inc.'s board in required personal financial disclosure statement (PFDS) while employed with MoDOT, although one of the employee's statements was later corrected. MoDOT agrees it must improve its education of current employees who are subject to the

Weigh in Motion Contracts Auditee Response - MoDOT

section 105.485 PFDS requirement to correctly complete a PFDS, which will increase MoDOT's transparency regarding its relationships with other boards, commissions and committees.

(E) Potential Statutory Violations: The State Auditor cites some emails to conclude MoDOT did not have procedures in place to identify potential state law violations in section 105.454.1(5) and (6).

While MoDOT cannot confirm that these emails show a potential violation of section 105.454.1(5) and 105.454.1(6), MoDOT will provide information to its **current** employees in regard to these statutory prohibitions on future post-MoDOT employment. Such information will better assist our current employees in their post-employment careers.

(F) Requisite Action: MoDOT will take the following steps:

1. Conduct an inventory of the boards, commissions, committees, etc. on which current MoDOT employees serve to determine if potential conflicts of interest exist as well as whether PFDS are required to be filed;
2. Revise MoDOT policy to require our employees to annually disclose service on boards, commissions, committees, etc., and review the disclosures for potential conflicts of interest and filing of PFDS;
3. Revise MoDOT policy to identify the MoDOT staff required to file PFDS as required by sections 105.483 and 105.485 RSMo; and
4. Revise MoDOT policy to include information on section 105.454.1(5) and (6), RSMo.

MoDOT will accomplish these steps by December 31, 2018.

(2) Weaknesses in Implementation and Planning of Preclearance and ByPass Planning Services

MoDOT could have realized earlier that evolving technology may have created additional vendors for this service. Again, because MoDOT and Missouri paid nothing for HELP, Inc.'s weigh station electronic bypass services, the concept of additional competition didn't surface as quickly as it would have if state funds were paying for it. The fact the service was provided at no cost to the state was likely a major factor in the original open-ended contract term.

MoDOT has already addressed the issues raised here. It has directed staff to develop procurement and contract documents that cover a period not to exceed three years, with no more than two, optional, one-year extensions, which addresses the open-ended duration of the amended 2005 contract with HELP, Inc. MoDOT believes this change should ensure procurements of services occur regularly and will detect more quickly changes in technology or other circumstances.

(3) Communication and Retention Policies

MoDOT agrees that it will conduct an employee refresher communication on the requirement by MoDOT policy for employees to obtain pre-approval from specifically designated Information Systems management staff in order for an employee to use a personal email account. MoDOT agrees it will develop specific retention policies that are consistent with the Secretary of State's Office retention schedule related to nontransitory communications that occur by text.

We will complete these steps by December 31, 2018.

Weigh in Motion Contracts
Auditee Response - MoDOT

(4) HELP Membership Dues

Federal law authorized federal funds to be used to reimburse the payment of HELP, Inc.'s dues. Missouri's public/private membership on HELP, Inc.'s board served the state of Missouri well to test new applications and vote on new technologies for possible investment in Missouri. We no longer pay these dues, so this issue is resolved.

Thank you for allowing MoDOT the opportunity to prepare and submit this Response.

Sincerely,

A handwritten signature in blue ink, reading "Patrick McKenna".

Re: Missouri State Highway Patrol response to Missouri State Auditor Office review of
Weigh in Motion Contract

- 1. The Missouri State Highway Patrol has strong and comprehensive policies that address conflicts of interest, and the Patrol regularly trains its employees on its policies.**

The Missouri State Highway Patrol ("MSHP") has strong and comprehensive policies and procedures in place that address conflicts of interest. Existing policies require all MSHP employees to report and avoid potential conflicts of interest. In addition, MSHP adheres to Executive Order 92-04 (the code of conduct for state employees) and the Law Enforcement Code of Ethics (an internationally recognized code of conduct for law enforcement officers). MSHP General Orders 26-02 (which prohibits conduct unbecoming of Patrol employees) and 52-01 (which requires all Patrol employees to report misconduct) provide further guidance to MSHP employees. The Patrol also provides its employees with regular ethics training that reinforces its rigorous standards. These policies were in place at all times covered by this report.

Additionally, after assuming the duties of Superintendent on February 1, 2017, Colonel Sandra K. Karsten directed a thorough review of MSHP's affiliation with HELP, Inc. The MSHP completed its review in May 2017. The MSHP's review uncovered concerns with actions during the prior administration by individuals no longer employed by MSHP. Following this review, MSHP removed its member from the HELP, Inc. Board. MSHP has provided all information from its internal review to the Missouri Attorney General and the Missouri State Auditor.

As an accredited full-service law enforcement agency, the MSHP routinely conducts reviews to ensure policies and procedures are up-to-date. Moving forward, MSHP will provide additional training to all employees on identifying, preventing, and reporting conflicts of interest. In addition, all MSHP employees will be provided a copy of Section 105.454, RSMo, to ensure MSHP employees know their legal obligations.

Weigh in Motion Contracts
Auditee Response - MSHP

April 17, 2018
Missouri State Auditor's Office
-2

2. The Missouri State Highway Patrol identified and resolved to fix weaknesses in the planning and implementation of preclearance and bypass services.

After Drivewyze informed MSHP that it could provide a fully functioning weigh-in-motion (WIM) system, MSHP in August 2014 signed an agreement provided by Drivewyze to utilize such a system. As noted in the report, MSHP trusted Drivewyze would successfully complete its pilot program. It was MSHP's responsibility to monitor any WIM system data in order to enforce Missouri law.

Ultimately, Drivewyze failed to produce a fully-functioning WIM system as promised. As a result, MSHP terminated the Drivewyze pilot program pursuant to the agreement's terms. In 2017, Drivewyze reentered the Missouri market following an open procurement. Both HELP, Inc. and Drivewyze are now providing services at no cost to Missouri.

3. The Missouri State Highway Patrol ensures its adherence to communication and retention policies under Missouri law.

The MSHP has adopted records retention policies in accordance with standards created by the Secretary of State. The MSHP acknowledges the recommendations of the SAO's MAR, and will ensure compliance with applicable retention policies.

4. The Missouri State Highway Patrol had no issue relating to HELP, Inc. membership dues.

The MSHP has reviewed the SAO's findings in this section. The concerns regarding HELP, Inc. membership dues were not directed at MSHP.

Conclusion: The Missouri State Highway Patrol takes action to maintain public trust.

The MSHP strives to avoid even the perception of a conflict of interest. The MSHP cooperated fully in this audit of weigh in motion contracts. All information held by MSHP and current employees was made available to the SAO. The MSHP remains committed to meeting the highest standards of ethics and transparency.

Sincerely,

SANDRA K. KARSTEN, Colonel
Superintendent

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 80 political subdivisions required to file a financial report by March 31, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in March 2018, after their filing deadline. The filing status for these 9 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

March 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 80 political subdivisions, other than cities, towns, and villages, with a fiscal year end of September 30, 2017. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 80 political subdivisions, 72 filed an annual financial report by March 31, 2018.

This report also includes the filing status for 9 political subdivisions, other than cities, towns, and villages, that filed their financial report in March 2018, after their filing deadline. Of the 9 political subdivisions, 1 political subdivision filed a partial financial report for only a portion of the fiscal year.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the cities and village required to file a financial report by March 31, 2018, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 66 cities and 1 village is presented in summary on pages 3-4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for cities and villages that filed at least one of the items (financial report, addendum, or certification) in March 2018, after their filing deadline. The filing status for these 12 cities and 4 villages is presented in summary on page 4 and by individual entity in Appendixes B to G.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

March 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum. On March 28, 2016, the Circuit Court of Cole County issued a judgment enjoining the SAO from enforcing the provisions of Section 479.359.3, RSMo. On May 15, 2017, the Missouri Supreme Court issued a decision reversing the trial court judgment.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 66 cities and 1 village with a fiscal year end of September 30, 2017, whose financial report was due by March 31, 2018. Of these entities, 50 filed their financial report timely. There

Monthly Report on Municipal Court and Revenue Filings
March 2018
Executive Summary

were 49 entities required to file an addendum, of which 30 were filed. There were 47 entities required to file a certification, of which 31 were filed.

This report includes the filing status for 12 cities and 4 villages that filed at least one of the items (financial report, addendum, or certification) in March 2018, after their filing deadline. Of these entities, 12 filed an annual financial report, 3 filed an addendum, and 4 filed a certification.

**MissouriBUYS Statewide
eProcurement System**

CITIZENS SUMMARY

Findings in the audit of the MissouriBUYS Statewide eProcurement System

User Account Management	Office of Administration (OA) management has not fully established controls for maintaining user accounts for accessing the MissouriBUYS system. The MissouriBUYS system is vulnerable to risk of unauthorized or inappropriate activity because 39 user accounts of terminated agency employees, as well as 4 unneeded user accounts of provider support personnel, were not disabled timely. The MissouriBUYS system cannot generate effective reports enabling agencies to periodically review users' access to data, to ensure access rights are commensurate with job responsibilities and remain appropriate. As a result, no such reviews have been completed. OA management does not perform supervisory reviews of system logged actions performed by privileged users or users with significant access. The OA has not documented existing security policies and procedures.
Vendor Data	A MissouriBUYS system function allows certain agency users to export vendor registration data, including limited portions of personally identifiable information (PII).
Business Contingency Planning	OA management has conceptualized MissouriBUYS system contingency plans, including major considerations and possible approaches to continue operations and to facilitate recovery of the system if necessary. However, they have not formally documented or tested the plans, including formally assigning responsibilities for oversight and maintenance of the plans.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

We have audited certain internal controls, including security controls, designed to protect data and information maintained by the MissouriBUYS Statewide eProcurement system. This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

1. Evaluate the system's internal controls over significant management and financial functions.
2. Evaluate compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and information system control activities.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management policies and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the MissouriBUYS Statewide eProcurement system.

Audit Staff:	Kristin A. Clink, MBA

MissouriBUYS Statewide eProcurement System

Introduction

Background

The MissouriBUYS system is the state's new eProcurement system, which establishes a virtual marketplace between state departments and agencies, and vendors. Anticipated system benefits include improvements in (1) processing efficiency of requisitions, solicitations, contracts, purchase orders, invoices, and receipt of goods; (2) reporting and business intelligence; (3) identifying existing contracts and reducing spending outside of such contracts; (4) enhancing customer interaction; and (5) ensuring transparency. Examples of system features that assist these goals include a vendor registration system and public bid board. These features allow vendors to self-register and self-maintain their account, view business opportunities, and electronically submit bids or proposals. As of January 1, 2018, the system included 409 active agency users, 18,311 registered vendors, and 14,956 integrated (approved) vendors.

The state awarded the contract for the MissouriBUYS system in March 2015. Implementation efforts are still in progress. As of January 2018, major system functionality was complete, with system rollout prioritized first to central procurement personnel (purchasing and accounting) within the Office of Administration (OA), then to various power users (users with procurement duties who were ready to use the new system functionality) at select agencies. Rollout to remaining agencies is expected to conclude by July 2018. Subsequent efforts are planned to allow a degree of system participation to universities, local governments and political subdivisions.

The MissouriBUYS system replaced the state's previous On-Line Bidding and Vendor Registration system. Additionally, once rollout to the remaining agencies concludes, the Statewide Advantage for Missouri (SAM II) Financial system's procurement capabilities will be disabled, and agency-specific procurement systems and websites phased out.

The MissouriBUYS system is provided by Perfect Commerce (PC), managed by the OA, and structured under the Software as a Service (SaaS) model of cloud computing. The National Institute of Standards and Technology (NIST) defines the SaaS model as the capability provided to the consumer to use the provider's applications running on a cloud infrastructure (the underlying collection of hardware and software not managed or controlled by the consumer).¹ The SaaS model approach divides ongoing responsibilities between the PC and OA.

As the system provider, PC is responsible for ensuring the underlying cloud infrastructure operates sufficiently to support the system, programming

¹ National Institute of Standards and Technology, SP 800-145 The NIST Definition of Cloud Computing, September 2011, is available at <<http://nvlpubs.nist.gov/nistpubs/Legacy/SP/nistspecialpublication800-145.pdf>>.

MissouriBUYS Statewide eProcurement System Introduction

system changes and releasing updates to the OA for approval, performing database and security administration, and planning for disaster recovery (the technical actions needed to restore MissouriBUYS after a disaster).

As the system manager, the OA is responsible for ensuring contractual requirements are met; testing and approving updates developed by PC; maintaining policies and procedures for use of the system; processing security requests to add, change, or remove user access; and planning for business contingencies (the decisions needed to continue business operations affected by MissouriBUYS unavailability, which may invoke disaster recovery plans). The OA Division of Accounting is directly and predominantly involved in all of these tasks, but is assisted by the OA Division of Purchasing and the OA Information Technology Services Division (ITSD) to varying degrees and circumstances. Additionally, as the system data owner, the OA is ultimately accountable for system and information confidentiality, integrity and availability.

According to accepted standards, security controls are the management, operational, and technical safeguards or countermeasures prescribed for an information system to protect the confidentiality, integrity, and availability of the system and its information. Confidentiality refers to preserving authorized restrictions on information access and disclosure, including the means for protecting personal privacy and proprietary information. Integrity relates to guarding against improper information modification or destruction, and availability ensures timely and reliable access to and use of information. Effective privacy controls depend on the safeguards employed within the information system that is processing, storing, and transmitting personally identifiable information (PII) and the environment in which the system operates. Organizations cannot have effective privacy without a basic foundation of information security. Without proper safeguards and controls, information systems and confidential data are vulnerable to individuals with malicious intentions who can use access to obtain sensitive data or disrupt operations.

Scope and Methodology

The scope of our audit included internal controls established and managed by the OA, policies and procedures, and other management functions and compliance issues in place during the period July 2017 to January 2018. Our scope did not include internal controls that are the responsibility of agencies using the MissouriBUYS system.

Our methodology included reviewing written policies and procedures, interviewing various OA personnel, and performing testing. We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also

MissouriBUYS Statewide eProcurement System Introduction

obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We obtained data files from the MissouriBUYS system of user accounts having access to the system as of September 2017. Additionally, we obtained employment records of all state employees from the SAM II system. We matched these records to determine if any terminated employees had active MissouriBUYS user accounts. We provided OA officials lists of all terminated employees we found who had active access to the MissouriBUYS system, and unneeded provider support accounts.

Although we used computer-processed data from the MissouriBUYS and SAM II systems for our audit work, we did not rely on the results of any processes performed by these systems in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objectives.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security controls from the following sources:

- Missouri Adaptive Enterprise Architecture (MAEA)
- National Institute of Standards and Technology (NIST)
- Government Accountability Office (GAO)
- ISACA (previously known as the Information Systems Audit and Control Association)

MissouriBUYS Statewide eProcurement System

Management Advisory Report

State Auditor's Findings

1. User Account Management

Office of Administration (OA) management has not fully established controls for maintaining user accounts for accessing the MissouriBUYS system. Accounts assigned to terminated agency users are not always removed timely, and system provider support personnel accounts were not removed once no longer required. In addition, the system cannot generate effective reports to enable periodic reviews of user access rights; periodic supervisory reviews of privileged user actions are not performed; and existing procedures are not documented.

1.1 Termination of user accounts

The MissouriBUYS system is vulnerable to the risk of unauthorized or inappropriate activity because 39 user accounts of terminated agency employees, as well as 4 unneeded user accounts of provider support personnel, were not disabled timely.

OA management has established procedures to detect and remove such accounts. However, prior to our review of user accounts, they had only completed sporadic reviews. According to OA management, system implementation efforts have been prioritized to ensure major system functionalities were achieved. While implementation efforts were critical to the system's success, this prioritization reduced the consistency and effectiveness of established controls because terminated agency employees and some unnecessary provider support personnel continued to have active MissouriBUYS system access.

Terminated agency users

At the time of our review, 39 former employees of several state agencies still had access to the system 30 days or more after terminating employment from the agency that had granted the user access. Three of these users still had access to the system for more than a year before being removed.

OA management could reduce the risk of unauthorized access by increasing efforts to identify user accounts assigned to former employees and by providing periodic reminders to agency security coordinators of the importance of promptly removing user access assigned to former employees.

According to the Missouri Adaptive Enterprise Architecture (MAEA),² agencies must have a procedure in place for the timely notification of administrators when a user no longer needs access. MissouriBUYS procedures place the responsibility for identification of accounts belonging to terminated and transferred users with the agency employing the users. Agencies are responsible for determining which of their employees are given

² The Enterprise Architecture includes standards, policies and guidelines established by OA management. The Enterprise Architecture is made up of several information technology domains, including domains dedicated to security and information. The domains define the principles needed to help ensure the appropriate level of protection for the state's information and technology assets.

MissouriBUYS Statewide eProcurement System Management Advisory Report - State Auditor's Findings

access to the system and for ensuring all individuals who have access still need the access. When an agency user no longer needs access, MissouriBUYS procedures require agency security coordinators to submit a form to the OA security administrator requesting removal of the user's access to the system.

Although agencies are responsible for submitting requests to add, change, or remove user access rights, OA management is ultimately responsible for security of the system.

Provider accounts no longer required

At the time of our review, 4 user accounts assigned to system provider support personnel were not removed when access was no longer required. Of these, 3 were generic accounts used by specific provider support personnel before more formal, individualized accounts were established. OA personnel detected these three accounts and required the provider use individualized accounts, but did not follow through to ensure the accounts had been timely disabled. These accounts were disabled when we discussed this issue with OA management.

According to accepted standards, organizations should remove, disable or otherwise secure unnecessary accounts. Only OA management can authorize and subsequently have provider accounts removed; agencies have no responsibility for such accounts.

Conclusion

Effective procedures are especially important because the system's web-based nature allows agency employees and provider support personnel access from their homes, mobile devices, and other locations until their account is removed.

Without effective procedures to remove access, terminated employees and provider accounts that are no longer required could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair entity operations or assets, according to the Government Accountability Office (GAO).

1.2 Review of user access

The MissouriBUYS system cannot generate effective reports enabling agencies to periodically review users' access to data, to ensure access rights are commensurate with job responsibilities and remain appropriate. As a result, no such reviews have been completed.

As users' work assignments and job responsibilities change, access rights to the MissouriBUYS system may be added, changed, or removed. Over time, users can accumulate access rights that are no longer necessary, increasing the risk of inappropriate access to system data. According to the MAEA, agencies must periodically review user accounts for levels of authorized access for each user. However, agencies rely on OA management to provide

MissouriBUYS Statewide eProcurement System Management Advisory Report - State Auditor's Findings

system reports enabling such reviews. OA management told us they are working to create more detailed reports of users' security access.

Without periodically reviewing user access rights, there is an increased risk that unauthorized alterations of the rights will go undetected or that access rights may not be aligned with current job duties.

1.3 Privileged user supervision

OA management does not perform supervisory reviews of system logged actions performed by privileged users or users with significant access.

Privileged users, including OA administrative personnel and limited provider support personnel, have extensive access rights needed to keep the system and associated procedures running efficiently. The actions of privileged users warrant supervision due to the extensive rights these users are provided. However, OA management did not provide supervisory oversight or establish other mitigating controls to ensure these privileged users performed only authorized functions. Changes made by privileged users or users with significant access to MissouriBUYS are logged, but logs are not reviewed regularly for this purpose. According to OA management, supervisory reviews are not currently performed because the privileged users or users with significant access are individuals who work with OA management daily towards crucial system implementation efforts.

Routinely monitoring privileged user actions can help identify significant problems and deter individuals from inappropriate activities. Without effective monitoring, an increased risk exists that these individuals could perform unauthorized system activities without being detected.

1.4 Documentation of security policies and procedures

The OA has not documented existing security policies and procedures, including those to:

- Request, establish and maintain system accounts.
- Timely notify security administrators of employee transfers and terminations.
- Close user accounts and remove access rights for transferred or terminated employees once security administrators are notified.
- Describe assignment and use of privileged system level accounts.

We confirmed the existence of these informal policies and procedures through discussions held with OA management. However, at least some of the existing policies and procedures were not documented because OA management prioritized system implementation efforts, as discussed in MAR finding number 1.1.

According to accepted standards, documentation of all aspects of computer support and operations is important to ensure continuity and consistency. Formalizing operational practices and procedures with sufficient detail helps

MissouriBUYS Statewide eProcurement System Management Advisory Report - State Auditor's Findings

to eliminate security lapses and oversights, gives new personnel sufficiently detailed instructions, and provides a quality assurance function to help ensure that operations will be performed correctly and efficiently.

Without documented and approved policies and procedures, management may not have assurance that control activities are appropriate and properly applied.

Recommendations

The OA:

- 1.1 Periodically review user accounts to ensure access of terminated or transferred employees, as well as provider support accounts that are no longer required, is removed timely. In addition, ensure frequent reminders are provided to agency security coordinators of the importance of promptly removing user access assigned to former employees.
- 1.2 Work with the provider to ensure MissouriBUYS is capable of generating effective reports to assist agencies with reviews of user access.
- 1.3 Perform periodic supervisory reviews of defined actions performed by privileged users or users with significant access.
- 1.4 Fully document and periodically review security policies and procedures.

Auditee's Response

- 1.1 *The OA will provide employee access reports to all agencies on a monthly basis. Additionally, the OA has already implemented an improved policy of immediately "inactivating" users in MissouriBUYS once the individual has been terminated in Statewide Advantage for Missouri (SAM II) Financial or SAM II Human Resources. This will remove the ability for activity to occur.*
- 1.2 *We concur. We are working on improved reporting capabilities.*
- 1.3 *We concur. We are conducting additional supervisor reviews of system activity.*
- 1.4 *We concur. We are improving system documentation.*

2. Vendor Data

A MissouriBUYS system function allows certain agency users to export vendor registration data, including limited portions of personally identifiable information (PII). While export capabilities are common in information systems to fulfill legitimate functions, controls could be strengthened by

MissouriBUYS Statewide eProcurement System Management Advisory Report - State Auditor's Findings

restricting these capabilities to only those individuals who need such access to perform job functions.

OA management said they spoke to the system provider about establishing export restrictions and determined this capability could be developed and implemented. However, OA management has not formally requested the provider to implement export restrictions.

According to the GAO, PII refers to any information about an individual maintained by an entity, including any information that can be used to distinguish or trace an individual's identity, and any other information which is linked or linkable to an individual. According to ISACA, entities should secure information assets, potentially by restricting use and distribution of information. Otherwise, there is an increased risk that vendor data and PII will be inappropriately used or inadvertently disclosed.

Recommendation

The OA work with the provider to increase restrictions to the system's function to export vendor data, including PII.

Auditee's Response

The OA already has significant controls including mandatory background checks, employee acknowledgement of appropriate conduct, and a limited number of departmental employees authorized to request access to the MissouriBUYS system. The OA agrees to discuss the strengthening of security controls with the vendor; however, the current controls are strong.

Auditor's Comment

While we acknowledge the OA has certain critical controls in place, more can be done to strengthen security and protect information, as the OA agreed with. Limiting the ability to export vendor data to only those users who need such access to perform their jobs provides an additional layer of security, effectively helping to minimize risk of misuse of PII.

3. Business Contingency Planning

OA management has conceptualized MissouriBUYS system contingency plans, including major considerations and possible approaches to continue operations and to facilitate recovery of the system if necessary. However, they have not formally documented or tested the plans, including formally assigning responsibilities for oversight and maintenance of the plans.

Contingency planning provides an efficient approach for the timely recovery and restoration of critical processes, including business operations, according to the MAEA. Contingency plans establish policies, procedures, and technical measures that can enable operations, systems, and data to be recovered quickly and effectively following a service disruption or disaster. According to accepted standards, contingency plans should be reviewed for accuracy and completeness at least annually or whenever significant changes occur to any element of the plan.

MissouriBUYS Statewide eProcurement System Management Advisory Report - State Auditor's Findings

While responsibility for maintaining the contingency plan has been informally assigned, OA management has not documented the formal assignment of specific responsibilities for maintaining the contingency plans. According to OA management, plans have not been documented and responsibilities have not been formally assigned due to business contingency similarities between the MissouriBUYS and SAM II systems, including personnel who would carry out the plans. However, plans for the MissouriBUYS system require unique considerations over the SAM II system due to its SaaS structure.

Without a formally documented or tested contingency plan, management has limited assurance the organization's business functions can be sustained during or promptly resumed after a disruptive incident. Without a formal designation of staff responsible for oversight and maintenance, there is increased risk that contingency plans and related policies and procedures may not remain current, potentially impacting the ability to promptly restore the system and related business functions.

Recommendation

The OA should either add MissouriBUYS considerations to its existing SAM II contingency plan, or formally create a standalone MissouriBUYS contingency plan, and formally assign responsibilities for development, implementation, and maintenance of the plan to appropriate personnel. Once established, the plan should be tested on a periodic basis.

Auditee's Response

The OA will add MissouriBUYS to its existing SAM II contingency plan.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 21 political subdivisions required to file a financial report by February 28, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in February 2018, after their filing deadline. The filing status for these 21 entities is presented in summary on page 3 and by individual entity in Appendix B-C.

Monthly Report on Political Subdivision Filings

February 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 21 political subdivisions, other than cities, towns, and villages, with a fiscal year end of August 31, 2017. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 21 political subdivisions, 11 filed an annual financial report by February 28, 2018.

This report also includes the filing status for 21 political subdivisions, other than cities, towns, and villages, that filed their financial report in February 2018, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the cities, towns, and villages required to file a financial report by February 28, 2018, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 6 cities, 1 town, and 4 villages is presented in summary on pages 3-4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for cities, towns, and villages that filed at least one of the items (financial report, addendum, or certification) in February 2018, after their filing deadline. The filing status for these 28 cities, 1 town, and 5 villages is presented in summary on page 4 and by individual entity in Appendixes B to C.

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

February 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum. On March 28, 2016, the Circuit Court of Cole County issued a judgment enjoining the SAO from enforcing the provisions of Section 479.359.3, RSMo. On May 15, 2017, the Missouri Supreme Court issued a decision reversing the trial court judgment.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 6 cities, 1 town, and 4 villages with a fiscal year end of August 31, 2017, whose financial report was due by February 28, 2018. Of these entities, 7 filed their financial report timely.

Monthly Report on Municipal Court and Revenue Filings
February 2018
Executive Summary

There were 4 entities required to file an addendum, of which 2 were filed.
There were 4 entities required to file a certification, of which 3 were filed.

This report includes the filing status for 28 cities, 1 town, and 5 villages that filed at least one of the items (financial report, addendum, or certification) in February 2018, after their filing deadline. Of these entities, 32 filed an annual financial report, 3 filed an addendum, and 1 filed a certification.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
and
Board of Directors of Fire Protection
Districts in St. Louis County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our responsibilities of Section 321.690.3, RSMo, and 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audits of the fire protection districts in St. Louis County, as of and for the year ended December 31, 2016. The purpose of this review was to evaluate the districts' compliance with statutory audit requirements and SAO regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 23 fire protection districts in St Louis County. All districts except the Kinloch Fire Protection District submitted audit reports. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. As noted in our prior report, No. 2017-013, *St. Louis County Fire Protection District*, issued in March 2017, the Kinloch Fire Protection District did not obtain the required independent audit for the year ended December 31, 2015. Due to this noncompliance, the SAO is performing an audit of the Kinloch Fire Protection District for the years ended December 31, 2015, and 2016, to fulfill our obligations under Section 321.690.3, RSMo. This audit is still in process, and any additional findings and recommendations will be included in the subsequent report.

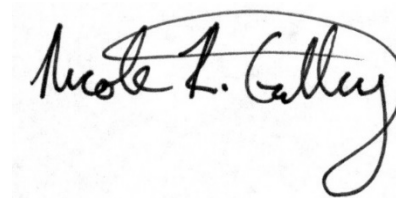

The SAO posts the individual audit reports to its website. A searchable link is available at <http://auditor.mo.gov>. A table summarizing our review of the St. Louis County fire protection district audit reports follows.

District	Audit Report Period	Report Compliance with Section 321.690.3, RSMo	Findings in Independent Audit Report
Affton	1 Year Ended 12/31/2016	Yes	Yes

Valley Park	1 Year Ended 12/31/2016	Yes	No
West County EMS	1 Year Ended 12/31/2016	Yes	No
West Overland EMS	1 Year Ended 12/31/2016	Yes	No

¹ Due to noncompliance in a previous period, the SAO is performing an audit of this district. This audit is still in process, and any additional findings and recommendations will be included in the subsequent report.

² The report was filed after the statutory deadline of 6 months after the close of the fiscal year end.

No findings resulted from our review of the audit reports submitted by the St. Louis County fire protection districts.

Nicole R. Galloway, CPA
State Auditor

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
and
Board of Directors of Fire Protection
Districts in Greene County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our responsibilities of Section 321.690.3, RSMo, and 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audits of the fire protection districts in Greene County, as of and for the year or 2 years ended December 31, 2016. The purpose of this review was to evaluate the districts' compliance with statutory audit requirements and SAO regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 11 fire protection districts in Greene County. All districts with an audit period ending December 31, 2016, except West Republic Fire Protection District, submitted audit reports. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. Some of the districts were not required to submit a report in 2017, because they obtain biennial audits and the most recent audit report submitted was for the 2 years ended December 31, 2015. These districts are expected to submit a biennial audit for the 2 years ended December 31, 2017. The West Republic Fire Protection District did not obtain an independent audit for the 2 years ended December 31, 2016, as required. The SAO contacted the district and the district engaged independent auditors to perform an audit for this time period in January 2018. Upon completion, the district should submit the audit report to the SAO.

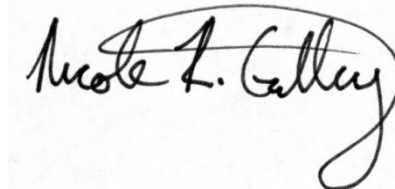

The SAO posts the individual audit reports to its website. A searchable link is available at <http://auditor.mo.gov>. A table summarizing our review of the Greene County fire protection district audit reports follows.

District	Audit Report Period	Report Compliance with Section 321.690.3, RSMo	Findings in Independent Audit Report
Ash Grove ¹			
Battlefield	1 Year Ended 12/31/16	Yes	No
Bois D'Arc ¹			
Brookline	2 Years Ended 12/31/16	Yes	No
Ebenezer ¹			
Fair Grove	2 Years Ended 12/31/16	Yes ²	No
Logan-Rogersville	2 Years Ended 12/31/16	Yes ²	No
Strafford	2 Years Ended 12/31/16	Yes ²	No
Walnut Grove	1 Year Ended 12/31/16	Yes	No
West Republic		No	Not applicable
Willard	1 Year Ended 12/31/16	Yes ²	No

¹ The fire protection district had an independent audit for the 2 years ended December 31, 2015. The district's next audit is expected to cover the 2 years ended December 31, 2017, and is required to be submitted to the SAO no later than June 30, 2018.

² The report was filed after the statutory deadline of 6 months after the close of the fiscal year end.

Except for the West Republic Fire Protection District failing to obtain and submit an audit report, no other findings resulted from our review of the audit reports submitted by the Greene County fire protection districts.

CITIZENS SUMMARY

Findings in the Fiscal Year 2017 Statewide Single Audit

Background	A single audit requires an audit of the state's financial statements and expenditures of federal awards. The state spent over \$12 billion in federal awards through 301 different federal programs during the fiscal year ended June 30, 2017. Our Single Audit involved audit work on 11 major federal programs administered by 8 state agencies, with expenditures totaling approximately \$7.8 billion. The audit reported 3 financial statement findings and 14 federal award findings, and related recommendations. The federal award findings related to 4 major federal programs at 3 state agencies. Of these audit findings, 8 have been repeated from prior Single Audits for 1 to 7 years. Several of these findings are summarized below.
Unemployment Compensation Fund - Financial Reporting and Benefit Payment Account Controls	The Department of Labor and Industrial Relations (DLIR) does not have adequate controls and procedures over financial reporting of Unemployment Compensation Fund (UCF) financial activities following the implementation of the computerized Unemployment Insurance (UI) system, UInteract, in November 2016. The DLIR implemented the UInteract system without fully developing and testing financial reports needed to manage and report UCF activities. Due to various UInteract system implementation and financial reporting problems, net accounts receivable information submitted by the DLIR to the Office of Administration - Division of Accounting for inclusion in the state's financial statements was understated for the year ended June 30, 2017. The audit identified actual understatements of net accounts receivable balances totaling \$781,763 and additional potential misstatements related to accounts receivable, cash, and/or disbursement balances. The DLIR did not reconcile the benefit payment bank account until over 1 year after system implementation.
Unemployment Compensation Fund - Segregation of Duties	The DLIR did not adequately segregate the duties of administering UI benefits and authorizing transactions from the benefit payment bank account.
Unemployment Compensation Fund - Transfers	The DLIR did not establish procedures to transfer interest and penalty collections to the Special Employment Security Fund (SESF) as required by state law. As of June 30, 2017, the DLIR had not transferred approximately \$3.4 million held in the Unemployment Compensation Fund to the SESF.
Unemployment Insurance Federal Reporting	The DLIR has not established adequate controls and procedures to prepare and submit accurate, complete, and timely federal reports for the UI program. Our review identified several federal financial reports that were not accurate and/or were not submitted within required timeframes.
Unemployment Insurance Wage Cross-matches	The DLIR - Division of Employment Security (DES) did not follow established controls over UI program eligibility and payments related to wage cross-matches, and as a result, federally-required wage cross-matches were not performed during the 9-month period after implementation of the new UInteract computerized system.
Unemployment Insurance Benefit Accuracy Measurement Program	The DES did not comply with UI program Benefit Accuracy Measurement (BAM) case investigation requirements. The DES did not complete BAM case investigations within the required timeframes and did not perform federally-required wage cross-matches during BAM paid claim case

investigations performed during the period October 2016 to July 2017. The DES has not established written policies and procedures regarding supervisory reviews of BAM case investigations.

Unemployment Insurance Maximum Benefit Amount	The DES did not properly design and implement internal controls to ensure the new computerized UInteract system correctly calculates claimant Maximum Benefit Amounts (MBA). As a result, claimants were paid a total of \$134,388 in excess of the actual MBAs allowed by law.
Child Care Eligibility and Payments Child Care Eligibility and Payments	As noted in the prior seven audit reports, weaknesses continue to exist in Department of Social Services (DSS) controls over Child Care and Development Fund (Child Care) subsidy eligibility and provider payments. Documentation was not adequate to support payments for 13 of 60 (20 percent) cases reviewed. Approximately 5.6 percent of payments reviewed were questioned.
Child Care Provider Monitoring	As noted in the prior audit report, the DSS's procedures to follow up on provider noncompliance identified during Child Care Review Team reviews are not sufficient.
Child Care Provider Eligibility	As noted in our prior four audit reports, the DSS does not have adequate controls and procedures in place to ensure "four-or-less" (FOL) child care providers participating in the Child Care subsidy program comply with statutory requirements for license-exempt status. Under state law, child care providers are exempt from licensing requirements if they care for four or less unrelated children. For some FOL providers reviewed, the DSS made Child Care subsidy payments to the providers without obtaining the required documentation to support the relationships to children in their care. We identified one instance in which the DSS paid a FOL provider \$1,524 for caring for 7 children without verifying the children-provider relationships.
MO HealthNet Division Provider Eligibility	As noted in our prior audit report, the DSS did not fully implement federal revalidation requirements for providers participating in the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). As of June 30, 2017, the DSS had not performed required revalidations for 71 percent of Medicaid and CHIP providers requiring revalidation. The federal share of payments to the 43 providers we sampled for which revalidations were not performed totaled over \$223 million during state fiscal year 2017.
Medicaid Developmental Disabilities - Comprehensive Waiver Per Diem Rates	As noted in our prior two audit reports, the Department of Mental Health - Division of Developmental Disabilities (DD) did not retain documentation to support the per diem rates paid to some providers for residential habilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Comprehensive Waiver program. The DD did not retain documentation to support per diem rates, paid at historical rates, for 7 of the 34 individualized supported living habilitation service payments tested. The federal share of payments to providers for habilitation services provided to these participants totaled \$416,966 during state fiscal year 2017.

Because of the nature of this audit, no rating is provided.

State of Missouri - Single Audit

Introduction and Summary

Year Ended June 30, 2017

Introduction

The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards administered by states, local governments, and non-profit organizations. The Office of Management and Budget (OMB) issued Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) to set forth uniform cost principles and audit requirements for federal awards to nonfederal entities and administrative requirements for all federal grants and cooperative agreements. The Uniform Guidance replaced OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is effective for single audits of fiscal years beginning on or after December 26, 2014.

A single audit requires an audit of the state's financial statements and expenditures of federal awards. The audit is required to determine whether:

- The state's basic financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles.
- The schedule of expenditures of federal awards is stated fairly in all material respects in relation to the financial statements as a whole.
- The state has adequate internal controls to ensure compliance with federal award requirements.
- The state has complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs.
- The summary schedule of prior audit findings prepared by the state materially represents the status of the prior audit findings.

The Single Audit report includes the federal awards expended by all state agencies that are part of the primary government. The report does not include the public universities and other component units which are legally separate from the state. These component units are responsible for engaging other auditors to perform their single audits. The state expended over \$12 billion in federal awards during the state fiscal year ended June 30, 2017.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2017

Summary of Single Audit Results

The following is the summary of our Single Audit results for the fiscal year ended June 30, 2017.

Financial Statements

We issued our audit report (Report No. 2018-002¹) of the state's Comprehensive Annual Financial Report (CAFR), as of and for the year ended June 30, 2017, on January 25, 2018. Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

We reported two findings related to internal control deficiencies and one finding related to noncompliance at the Department of Labor and Industrial Relations (DLIR). We consider one of the internal control deficiencies to be a material weakness and the other to be a significant deficiency. The DLIR's responses to the findings are included in this report. The DLIR prepared a Corrective Action Plan for each finding. The Corrective Action Plans were submitted to the Office of Administration (OA) and are available by contacting the OA.

Federal Awards

We issued our report on the accompanying Schedule of Expenditures of Federal Awards. Our report expressed the opinion that the schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We audited 11 major federal programs with expenditures totaling approximately \$7.8 billion, administered by 8 state agencies.

We issued a qualified opinion on 4 major federal programs and an unmodified opinion on 7 major federal programs. A qualified opinion is issued when the audit of a major federal program detects material noncompliance with direct and material compliance requirements. A qualified opinion was issued on the following major programs, administered by the DLIR, the Department of Social Services (DSS), and the Department of Mental Health (DMH):

Unemployment Insurance - DLIR
Child Care and Development Fund (CCDF) Cluster - DSS
Children's Health Insurance Program - DSS
Medicaid Cluster - DSS and DMH

In total, we reported 14 audit findings related to 4 major federal programs at 3 state agencies. Of these audit findings, 8 were repeated from prior Single Audits. These findings have been repeated for 1 to 7 years.

¹ Available on the Missouri State Auditor's Office website: <<http://auditor.mo.gov>>.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2017

Of the 14 audit findings, 13 related to internal control deficiencies. We consider 6 findings of internal control deficiencies to be material weaknesses and 7 to be significant deficiencies.

The state agencies' responses to the audit findings are included in this report. The state agencies prepared a Corrective Action Plan for each audit finding. The Corrective Action Plans were submitted to the OA and are available by contacting the OA.

In addition, the state agencies prepared and submitted to the OA the accompanying Summary Schedule of Prior Audit Findings.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2017

Of the 19 state agencies and other state offices that expended federal awards, 5 state agencies spent the majority of the awards (95 percent) during state fiscal year 2017.

Expenditures of Federal Awards by State Agency

The state expended federal awards received from 24 different federal agencies. Most of the federal award expenditures (96 percent) were from programs of 5 federal agencies.

Expenditures of Federal Awards by Federal Agency

Overall, the state expended federal awards in 301 different programs. These programs are listed in the accompanying Schedule of Expenditures of Federal Awards.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2017

The Uniform Guidance requires federal programs to be identified as Type A programs or Type B programs based on a dollar threshold. For the state of Missouri, the Uniform Guidance defines the dollar threshold as \$30 million since the federal award expenditures exceeded \$10 billion, but were less than or equal to \$20 billion.

Programs with federal award expenditures over \$30 million are Type A programs and programs with federal award expenditures under \$30 million are Type B programs. Of the 301 federal programs, 28 were Type A programs and 273 were Type B programs.

**Type A and Type B Programs
Number of Programs**

The 28 Type A programs had expenditures totaling \$11.4 billion, or 94 percent of total expenditures. The 273 Type B programs had expenditures totaling \$664 million, or 6 percent of total expenditures.

**Type A and Type B Programs
Expenditures of Federal Awards**

The Uniform Guidance requires the auditor to perform risk assessments on the Type A programs and to audit as major each Type A program assessed as

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2017

high risk based on specified risk factors. We performed a risk assessment on each Type A program and determined 18 of the 28 Type A programs were low risk and did not need to be audited as major. In accordance with the Uniform Guidance, we audited as major the 10 Type A programs assessed as high risk.

The Uniform Guidance also requires the auditor to perform risk assessments on larger Type B programs to determine which are high risk and need to be audited as major. The dollar threshold to determine the larger Type B programs is 25 percent of the Type A threshold, or \$7.5 million. We performed risk assessments on the 23 larger Type B programs and determined 1 program was high risk. In accordance with the Uniform Guidance, we audited the program as major.

The programs audited as major are listed in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. We audited 65 percent of total state fiscal year 2017 federal expenditures.

Major and Non-major Federal Programs

Type of Programs	Number of Programs	Expenditures	Percentage of Expenditures
<u>Programs Audited</u>			
Type A major programs	10	\$ 7,824,327,255	
Type B major programs	1	13,347,511	
Total major programs	11	7,837,674,766	65%
<u>Programs not Audited</u>			
Type A non-major programs	18	3,543,323,466	
Type B non-major programs	272	650,600,705	
Total non-major programs	290	4,193,924,171	35%
Total programs	301	\$ 12,031,598,937	100%

Correspondence with State Agencies

The various issues associated with the new UInteract computerized system at the Department of Labor and Industrial Relations (as discussed in finding number 2017-001) led to delays in completing the Comprehensive Annual Financial Report (CAFR) audit. See appendix A for a copy of the letter to the Office of Administration regarding these delays.

In addition, the Department of Natural Resources (DNR) did not timely submit certain required acknowledgments and representations to us for the CAFR audit and the Single Audit. See Appendixes B-1 and B-2 for copies of the letters sent to the DNR regarding these delays. The DNR subsequently submitted these items on February 16, 2018 and March 20, 2018.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the state's basic financial statements, and have issued our report thereon dated January 25, 2018. Our report expressed qualified opinions on the governmental activities and the General Fund, a major fund, because we were not allowed access to tax returns and related source documents for income taxes. Approximately 28 percent of governmental activity revenues and 33 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded. Our report expressed unmodified opinions on all remaining opinion units.

Our report on the state of Missouri's financial statements also includes a reference to other auditors who audited the financial statements of:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 77 percent of the assets and 11 percent of the revenues of the governmental activities.
2. The State Lottery and the Petroleum Storage Tank Insurance Fund which are both major funds and represent 14 percent of the assets and 69 percent of the revenues of the business-type activities.
3. The aggregate discretely presented component units.
4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation agency funds which represent 93 percent of the assets and 97 percent of the additions of the fiduciary funds.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board and the Missouri Agricultural and Small Business Development Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with these entities.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the state of Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state's internal control. Accordingly, we do not express an opinion on the effectiveness of the state's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the state's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as finding 2017-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as finding 2017-002 to be a significant deficiency.

Compliance and Other Matters

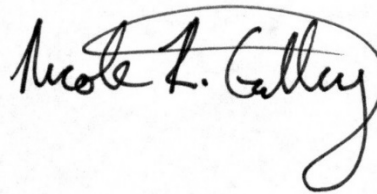

As part of obtaining reasonable assurance about whether the state of Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as finding number 2017-003.

State's Responses to Findings

The state of Missouri's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and the Corrective Action Plan. The state's responses were not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly

Report on Compliance for Each Major Federal Program

We have audited the state of Missouri's compliance with the types of compliance requirements described in the Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the state's major federal programs for the year ended June 30, 2017. The state of Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

The state of Missouri's basic financial statements include the operations of the public universities and other component units whose expenditures of federal awards are not included in the state's Schedule of Expenditures of Federal Awards during the year ended June 30, 2017. Our audit, described below, did not include the operations of these component units because they were responsible for engaging other auditors to perform audits in accordance with the Uniform Guidance, if required.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the state of Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the state's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the state's compliance.

Basis for Qualified Opinion on Certain Major Federal Programs

As described in the findings listed in the table below and in the accompanying Schedule of Findings and Questioned Costs, the state of Missouri did not comply with requirements regarding the following:

Finding Number	CFDA Number(s)	Program (or Cluster) Name	Compliance Requirement(s)
2017-004	17.225	Unemployment Insurance	Reporting
2017-010	93.575 93.596	Child Care and Development Fund (CCDF) Cluster	Activities Allowed or Unallowed, Allowable Costs/Cost Principles
2017-013	93.767 93.775 93.777 93.778	Children's Health Insurance Program and Medicaid Cluster	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Special Tests and Provisions

Compliance with such requirements is necessary, in our opinion, for the state of Missouri to comply with the requirements applicable to these programs.

Qualified Opinion on Certain Major Federal Programs

In our opinion, except for the noncompliance described in the "Basis for Qualified Opinion" paragraph, the state of Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Unemployment Insurance program, the Child Care and Development Fund (CCDF) Cluster, the Children's Health Insurance Program, and the Medicaid Cluster for the year ended June 30, 2017.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the state of Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2017.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2017-006 through 2017-008, 2017-012, 2017-015, and 2017-017. Our opinion on each major federal program is not modified with respect to these matters.

The state of Missouri's responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and the Corrective Action Plan prepared for each finding by the applicable agency. The state's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the state of Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the state's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to

determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the state's internal control over compliance.

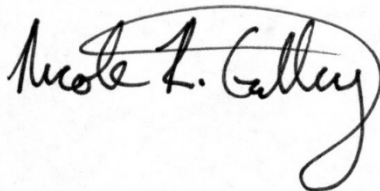

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2017-004, 2017-005, 2017-010, and 2017-012 through 2017-014 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2017-006 through 2017-009, 2017-011, 2017-015, and 2017-016 to be significant deficiencies.

The state of Missouri's responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and the Corrective Action Plan. The state's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the state's basic financial statements, and have issued our report thereon dated January 25, 2018. Our report expressed qualified opinions on the governmental activities and the General Fund, a major fund, because we were not allowed access to tax returns and related source documents for income taxes. Approximately 28 percent of governmental activity revenues and 33 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded. Our report expressed unmodified opinions on all remaining opinion units.

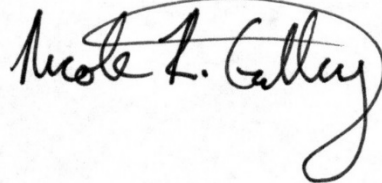

Our report on the state of Missouri's financial statements also includes a reference to other auditors who audited the financial statements of:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 77 percent of the assets and 11 percent of the revenues of the governmental activities.
2. The State Lottery and the Petroleum Storage Tank Insurance Fund which are both major funds and represent 14 percent of the assets and 69 percent of the revenues of the business-type activities.
3. The aggregate discretely presented component units.
4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation agency funds which represent 93 percent of the assets and 97 percent of the additions of the fiduciary funds.

The financial statements of the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board and the Missouri Agricultural and Small Business Development Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is not a required part of the basic financial statements. As described in Note 1 to the Schedule of Expenditures of Federal Awards, the accompanying Schedule of Expenditures of Federal Awards does not include the public universities and other component units. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the audit procedures applied by us and the other auditors in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The purpose of this report is solely to provide an opinion on the Schedule of Expenditures of Federal Awards in relation to the basic financial statements as a whole based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

State of Missouri - Single Audit

Notes to the Schedule of Expenditures of Federal Awards

Year Ended June 30, 2017

1. Significant Accounting Policies

The following is a summary of the significant accounting policies used by the State of Missouri.

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards (Schedule) of the state of Missouri is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the state's basic financial statements. The Uniform Guidance requires a schedule that shows total federal awards expended for each federal financial assistance program, the Catalog of Federal Domestic Assistance (CFDA) number, and the total amount provided to subrecipients from each federal program. Federal financial assistance programs that have not been assigned a CFDA number are identified as CFDA Number XX.Uxx, where XX represents the federal grantor agency and Uxx represents an unknown extension number.

The Schedule includes all federal awards expended by the state during the year ended June 30, 2017, except for those programs administered by public universities and other component units, which are legally separate from the state and have been excluded from this audit. They are responsible for engaging other auditors to perform audits in accordance with the Uniform Guidance, if required.

To compile the Schedule, the Missouri State Auditor's Office required each department, agency, and office that expended direct and/or indirect federal funding during the state fiscal year to prepare a schedule of expenditures of federal awards. The schedules for the departments, agencies, and offices were combined to form the Schedule of Expenditures of Federal Awards for the state of Missouri.

B. Basis of Presentation

The accompanying Schedule includes the federal award activity of the state of Missouri for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance, which defines federal awards as federal financial assistance and cost-reimbursement contracts that non-federal entities receive or administer in the form of grants, loans, loan guarantees, non-cash assistance, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include other contracts that a federal agency uses to buy goods or services from a contractor. Because the Schedule presents only a selected portion of the operations of the state, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the state.

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

The Schedule presents both Type A and B federal programs administered by the state. The Uniform Guidance establishes levels to be used in defining Type A and B federal programs. Type A programs for the state are those programs that exceeded \$30 million in federal disbursements, expenditures, or distributions. The determination of major and non-major programs is based on the risk-based approach outlined in the Uniform Guidance.

C. Basis of Accounting

Most expenditures presented in the Schedule are reported on the cash basis of accounting, while some are presented on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

D. Indirect Cost Rate

The state agencies administering the federal programs presented in the Schedule did not elect to use the de minimis cost rate per the Uniform Guidance.

2. Unemployment Insurance Expenditures

The Unemployment Insurance program (CFDA No. 17.225) is administered by the Department of Labor and Industrial Relations through a unique federal-state partnership that was founded upon federal law but implemented through state law. Benefits are paid from federal funds and state unemployment taxes that are deposited into the state's account in the Federal Unemployment Trust Fund. The state's administrative expenditures incurred under this program are funded by federal grants. For the purposes of presenting the expenditures of this program in the Schedule, both state and federal funds have been considered federal awards expended. The breakdown of the state and federal portions of the total program expenditures for the fiscal year ended June 30, 2017, is as follows:

State Portion (Benefits Paid)	\$300,031,446
Federal Portion (Benefits Paid)	15,059,971
Federal Portion (Administrative Costs)	<u>36,273,289</u>
Total Program Expenditures	<u>\$351,364,706</u>

3. Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Rebates

The state received cash rebates from an infant formula manufacturer totaling \$36,085,020 on sales of formula to participants in the WIC program (CFDA No. 10.557) administered by the Department of Health and Senior Services (DHSS). This amount was excluded from total program expenditures. Rebate contracts with infant formula manufacturers are authorized by 7 CFR Section 246.16a as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. The state was able to extend program benefits to more persons than could have been served this fiscal year in the absence of the rebate contract.

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

4. Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) Prescription Drug Rebates

The state received cash rebates from drug manufacturers totaling \$315,180,911 (federal share) on purchases of covered outpatient drugs for participants in the Medicaid and the CHIP (CFDA Nos. 93.778 and 93.767) administered by the Department of Social Services - MO HealthNet Division. This amount was excluded from total program expenditures. Rebate contracts with drug manufacturers are authorized by 42 USC Section 1396r-8 as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for medical assistance costs.

5. HIV Care Formula Grants Prescription Drug Rebates

The state received cash rebates from drug manufacturers totaling \$28,968,426 on purchases of covered drugs for participants in the HIV Care Formula Grants program (CFDA No. 93.917) administered by the DHSS. This amount was excluded from total program expenditures. The allowable use of drug rebates is restricted by 42 USC Section 300ff-26(g). Rebates represent a reduction in expenditures previously incurred for program costs.

6. Federal Loan Guarantees

Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the authority to make or ensure loans under the Federal Family Education Loans program (CFDA No. 84.032) ended June 30, 2010. The Department of Higher Education (DHE) will continue to act as the federal Department of Education's agent in fulfilling the responsibilities related to the outstanding guarantees. The original principal outstanding of all loans guaranteed by the DHE is \$1,416,223,417 as of June 30, 2017. The balance of defaulted loans (including principal and accrued interest) that the federal Department of Education imposes continuing compliance requirements of the DHE is \$266,916,444 as of June 30, 2017.

7. Non-cash Assistance

The Schedule contains values for non-cash assistance for several programs.

Supplementation Nutrition Assistance Program (CDFA No. 10.551) expenditures totaling \$1,119,417,055 represent actual disbursements for client purchases of authorized food products through the use of the electronic benefits card program administered by the Department of Social Services - Family Support Division (DSS-FSD).

The Department of Elementary and Secondary Education distributes food commodities to school districts under the National School Lunch Program (CFDA No. 10.555). Distributions are valued at the cost of the food paid by the federal government and totaled \$30,593,497.

The DSS-FSD, through the Summer Food Service Program for Children (CFDA No. 10.559), provides United States Department of Agriculture (USDA)-donated foods to providers who serve free healthy meals to children and teens in low-income areas during the summer months when school is not in session. The DSS-FSD, through the Emergency Food Assistance Program

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

(CFDA No. 10.569), provides USDA-donated foods for disaster relief and to six non-profit food banks for distribution to food pantries and community groups for feeding those in need. Distributions are valued at the federally assigned value of the product distributed and totaled \$60,834 for the Summer Food Service Program for Children and \$12,153,187 for the Emergency Food Assistance Program.

The DHSS distributes food commodities to low-income persons under the Commodity Supplemental Food Program (CFDA No. 10.565). Distributions are valued at the cost of the food paid by the federal government and totaled \$4,251,271.

The Department of Public Safety distributes excess federal Department of Defense (DOD) equipment to state and local law enforcement agencies under the DOD Excess Property Program (CFDA No. 12.U01). Property distributions totaled \$2,450,583 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 22.47 percent of the historical cost, or \$550,646.

The State Agency for Surplus Property distributes federal surplus property to eligible donees under the Donation of Federal Surplus Personal Property program (CFDA No. 39.003). Property distributions totaled \$8,087,731 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 22.47 percent of the historical cost, or \$1,817,313.

The DHSS distributes vaccines to local health agencies and other health care professionals under the Immunization Cooperative Agreements program (CFDA No. 93.268). Distributions are valued at the cost of the vaccines paid by the federal government and totaled \$67,992,751.

Year Ended June 30, 2017

Section I - Summary of Auditor's Results

Financial Statements

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP:

Qualified

Unmodified for all opinion units except for the governmental activities and the General Fund, which were qualified.

Internal control over financial reporting:

- Material weaknesses identified? X yes no
- Significant deficiencies identified? X yes none reported

Noncompliance material to financial statements noted? yes X no

Federal Awards

Internal control over major federal programs:

- Material weaknesses identified? X yes no
- Significant deficiencies identified? X yes none reported

Type of auditor's report issued on compliance for major federal programs:

Qualified

Unmodified for all major federal programs except for the following major programs that were qualified:

Unemployment Insurance
Child Care and Development Fund (CCDF) Cluster
Children's Health Insurance Program
Medicaid Cluster

Any audit findings disclosed that are required to be reported in accordance with the Uniform Guidance (2 CFR 200.516(a))?

 X yes no

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

The following programs were audited as major federal programs:

<u>CFDA Number</u>	<u>Name of Federal Program or Cluster</u>
10.558	Child and Adult Care Food Program
12.401	National Guard Military Operations and Maintenance (O&M) Projects
17.225	Unemployment Insurance
	Clean Water State Revolving Fund Cluster:
66.458	Capitalization Grants for Clean Water Revolving Funds
66.605	Performance Partnership Grants
84.010	Title I Grants to Local Educational Agencies
84.032	Federal Family Education Loans
84.367	Supporting Effective Instruction State Grant
	CCDF Cluster:
93.575	Child Care and Development Block Grant
93.596	Child Care Mandatory and Matching Funds of the Child Care and Development Fund
93.767	Children's Health Insurance Program
	Medicaid Cluster:
93.775	State Medicaid Fraud Control Units
93.777	State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
93.778	Medical Assistance Program

Dollar threshold used to distinguish
between Type A and Type B programs: \$30,000,000

Auditee qualified as a low-risk auditee? yes X no

Section II - Financial Statement Findings

2017-001. Unemployment Compensation Fund - Financial Reporting and Benefit Payment Account Controls

The Department of Labor and Industrial Relations (DLIR) does not have adequate controls and procedures over financial reporting of Unemployment Compensation Fund (UCF) financial activities following the implementation of the computerized Unemployment Insurance (UI) system, UInteract, in November 2016. As a result, certain UCF financial data submitted to the Office of Administration - Division of Accounting (DOA) for the year ended June 30, 2017, was misstated. In addition, the DLIR did not reconcile the benefit payment bank account until over 1 year after UInteract system implementation.

The DLIR implemented the UInteract system, a web-based system, to automate the process for determining eligibility and making payments for the UI program. The UInteract system replaced the legacy mainframe system that had previously been used to perform these functions. The DLIR did not purchase the UInteract system financial reporting module from the vendor, and opted to prepare financial reports in-house through the Office of Administration, Information Technology Services Division (ITSD) or by requesting ad-hoc reports from the vendor.

To compile and submit UCF financial data to the DOA for inclusion in the *Missouri Comprehensive Annual Financial Report* (CAFR) for the year ended June 30, 2017, DLIR staff along with the ITSD and the UInteract vendor, prepared and compiled various reports from the UInteract system. The CAFR for the year ended June 30, 2017, reported UCF assets totaling \$922.5 million (cash and cash equivalents of \$793.7 million and net accounts receivable of \$128.8 million), liabilities of \$19.6 million, and ending net position of \$902.9 million.

A. Financial reporting

The DLIR implemented the UInteract system without fully developing and testing financial reports needed to manage and report UCF activities. Financial reports are critical for documenting, reporting, and reconciling UCF financial activities on a daily, monthly, quarterly, and annual basis. Many UCF financial reports were not fully developed and functional until November 2017, 1 year after system implementation. Some reports were initially inaccurate and multiple revisions were necessary to provide accurate information to the DOA for the CAFR. As noted below, some revised reports were still inaccurate and led to immaterial misstatements in the CAFR. Additional revisions to these financial reports were subsequently made, but as of January 2018, some reports were still inaccurate.

Our review noted the following UInteract system implementation issues that led to inaccurate and/or delayed financial reports:

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

- The prior legacy system was not maintained as a parallel fallback until the UCF financial reports could be developed, fully tested, and validated for use.
- Some financial reports prepared from the UInteract system were prepared using incorrect programming logic, and were inaccurate and/or incomplete as a result. In addition, DLIR staff only had a limited understanding of the logic used to produce legacy system reports, making it difficult to validate and utilize similar reports in the UInteract system. Furthermore, the UInteract system reporting logic could not be verified by comparing output results to similar reports from the legacy system due to data conversion issues noted below.
- Some data was not converted completely and accurately from the legacy system to the UInteract system. For example, some converted data fields were missing, some data fields contained incompatible data, and some records were missing historical data. To correct these data conversion errors, DLIR staff indicated master records were removed, updated, and/or inserted in the UInteract system. These corrections were made in a manner that was not subject to the system's logging capabilities. In addition, corrections made in the normal course of business were reflected in the UInteract system as of the original transaction dates, and not as of the dates the corrections were made. As a result of both of these issues, reports run from the UInteract system on different dates for the same period contained different data and there are no records or other audit trails to support changes made to master records.

Reliable data and proper functioning of the UInteract system are critical to ensure accurate financial reporting. In addition to the risk of inaccurate reporting, the failure to establish adequate controls and procedures for data conversions, data corrections, and the development of accurate and timely financial reports increases the risk that fraud and/or misappropriation of assets could occur without detection. In addition, according to the Government Accountability Office² (GAO), as part of the control of master data (including customer and vendor data and records), the organization should have an effective auditing capability which allows changes to master data records to be recorded and reviewed where necessary. The most important factor supporting the auditing capability is that activity is properly captured and maintained by an automated logging mechanism.

B. Accounts receivable reports Due to various UInteract system implementation and financial reporting problems noted above, net accounts receivable information submitted by the DLIR to the DOA was understated for the year ended June 30, 2017.

² Report GAO-09-232G, *Federal Information System Controls Audit Manual*, February 2009

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

Finalized accounts receivable reports, which were not developed until 11 months after system implementation and 5 months after fiscal year end, were not adequately tested for accuracy prior to submission to the DOA. Consequently, net accounts receivable balances reported for the UCF were understated. The errors were not detected by DLIR staff and the incorrect financial information was used by the DOA to prepare the CAFR. These errors, which did not materially affect the CAFR, had not been corrected as of January 2018.

Our review of the Total Monetary Delinquencies by Year report, which supports employer receivable balances reported to the DOA as of June 30, 2017, noted the following:

- Our testing of 60 employer accounts receivable balances included in the Total Monetary Delinquencies by Year report as of June 30, 2017, identified 3 (5 percent) reimbursing employer account balances that were understated by a total of \$1,741. This understatement occurred because the receivable balances were incorrectly calculated in the Total Monetary Delinquencies by Year report. The programming logic used to prepare this report erroneously included refunds previously disbursed to some reimbursing employers. DLIR staff determined net employer receivables were understated by a total of \$573,733 during the year ended June 30, 2017, as a result of this error.
- We determined the accounts receivable balances reported in the Total Monetary Delinquencies by Year report were further misstated because the programming logic used to build the report used transaction data tables that were inaccurate due to data conversion errors. DLIR staff determined net employer receivables were understated by a total of \$208,030 during the year ended June 30, 2017, as a result of this error.
- The employer accounts receivable balances shown in the Total Monetary Delinquencies by Year report prepared on or around November 29, 2017, differed from the detailed employer accounts receivable balance data prepared on or around December 22, 2017, by approximately \$1.3 million. While both reports covered the same time period, DLIR staff indicated the reports differed due to corrections to system data made between the dates the two reports were generated.

It is essential the DLIR establish controls and procedures to prepare and submit accurate and timely UCF financial reports to the DOA. Adequate systems of internal controls include the design and operation of controls which allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

C. Benefit payment account
internal controls

The DLIR has not implemented adequate controls and procedures for reporting and reconciling benefit payment bank account activity. As a result, the cash and disbursement information reported to the DOA was potentially misstated. Any misstatements, which would not materially affect the CAFR, had not been determined or corrected as of January 2018.

Cash journals

Daily UInteract transaction summary reports, which summarize benefit payments and cancellations, do not accurately reflect actual activity. These reports are used to create cash journals which are used to prepare federal financial reports and perform monthly bank reconciliations. As similarly noted above, because cancellations of claimant benefits are dated in the UInteract system as of the original transaction date, daily transaction reports run for the same period but on different days, will contain different data when corrections are made during the time period between the dates the reports are generated. These reports are constantly changing and DLIR staff have needed to rerun these reports and revise the cash journals multiple times. For example, payments and cancellations shown in the initial (prepared in February 2017) and final (prepared in November 2017) revised cash journals for February 2017 are as follows:

	Initial Cash	Final Revised	
	Journal	Cash Journal	Difference
Cancelled Checks	\$ 30,898	36,168	5,270
Cancelled Debit Card	211,273	218,381	7,108
Cancelled Direct Deposit	29,626	27,359	(2,267)
Checks Issued	1,692,961	1,692,961	0
Debit Card Payments	9,606,494	9,616,555	10,061
Direct Deposit Payments	17,507,583	17,669,017	161,434

According to DLIR staff, some of these differences resulted from canceled and reissued payments that occurred when corrections to claimant bank accounts or debit card information were made. When these cancellations are made, the UInteract system cancels the payment on the date the payment was initially authorized, instead of the date of cancellation. When the benefits are subsequently reissued, the payment is reported on the date of reissuance.

As of the June 30, 2017 bank reconciliation, cumulative benefit disbursements per the revised cash journals were \$277,042 less than actual benefit disbursements. These differences began accumulating at the time the UInteract system was implemented in November 2016. The DLIR could provide no further explanation or support for this difference.

Without accurate transaction summary reports and cash journals, the DLIR lacks sufficient records to accurately report cash and disbursements and reconcile the benefit payment bank account.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

Outstanding check listing

The DLIR has not prepared a listing of benefit payment account outstanding checks since implementation of the UInteract system in November 2016. Instead, each month DLIR staff estimate total outstanding checks using daily transaction reports and cash journals; however, as noted above, these reports are not accurate. In the revised benefit payment bank account reconciliation as of June 30, 2017, DLIR staff estimated outstanding checks totaling \$298,580; however, without an accurate listing of outstanding checks, this amount could not be verified.

Without an accurate outstanding checks listing, the DLIR lacks sufficient information to accurately reconcile the bank account.

Bank reconciliations

Benefit payment account bank reconciliations for the period November 2016 to October 2017 were not completed until November 2017, and these bank reconciliations contained numerous errors and were not reliable. This is due, in part, to the lack of accurate daily transaction summaries, cash journals, and outstanding check listings, as noted above. More accurate bank reconciliations were prepared in January 2018, but the bank reconciliations contained several reconciling items needing additional follow up.

The failure to perform accurate and timely bank reconciliations increases the risk of misstatements of cash balances in the CAFR, including misstatements due to fraud, and possible misappropriation of assets.

Internal controls

It is essential that the DLIR establish adequate controls and procedures over the benefit payment bank account. Federal regulation 2 CFR Section 200.302 requires that a non-Federal entity's financial management system provide effective controls over, and accountability for, all funds, property, and other assets and that the non-federal entity adequately safeguard all assets and assure the assets are used solely for authorized purposes. In addition, 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government* issued by the Comptroller General of the United States and the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, provides that management should establish controls to periodically compare vulnerable assets to control records and secure and safeguard vulnerable assets.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

Recommendations

The DLIR:

- A. Develop a comprehensive plan to resolve the identified UInteract system financial reporting issues. In addition, procedures should be established to ensure corrections to UInteract system data occur in a manner subject to the system's logging capabilities.
- B. Implement controls and procedures to prepare and submit accurate and timely UCF accounts receivable reports to the DOA.
- C. Implement controls and procedures to prepare accurate reports for reporting and reconciling benefit payment bank account activity. In addition, the DLIR should ensure monthly reconciliations of the benefit payment account are performed timely and differences between accounting records and reconciliations are promptly investigated and resolved. Restatements should be made for any material misstatements identified.

Auditee's Response

Finding number 2017-001A,B,&C and finding number 2017-005 (which summarizes finding number 2017-001C in the federal awards section of the Schedule of Findings and Questioned Costs):

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

Finding Number 2017-001:

The DLIR Corrective Action Plan (CAP) states the DLIR partially agrees with the finding. The CAP indicates no disagreement with the finding, but indicates the DLIR does not agree with our classification of the finding as a material weakness.

Our decisions regarding the classification of the internal control deficiencies reported in this finding were made in accordance with AU-C Section 265, *Communicating Internal Control Related Matters Identified in an Audit*. AU-C Section 265.07 provides the following definitions regarding internal control deficiencies: A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing, or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or competence to perform the control effectively. A

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable. *Reasonably possible* is the chance of the future event or events occurring that is more than remote but less than likely. *Probable* means the future event or events are likely to occur.

As explained in the finding, the failure to design and implement adequate controls and procedures over financial reporting when the new UInteract system was developed in November 2016 led to various reporting and reconciliation problems and misstatements. The finding outlines extensive deficiencies in the DLIR's implementation of financial reporting procedures, the lack of controls to ensure completeness and accuracy of financial reports, and the lack of proper reconciliation procedures. The DLIR did not fully develop financial reports and did not complete bank reconciliations until 1 year after system implementation. Furthermore, because the reports were not adequately validated, tested, or reviewed, some reports were initially inaccurate and required revision; and as of January 2018, some reports were still inaccurate. In addition, the revised bank reconciliations prepared in January 2018 still contained several items needing follow up.

Due to the severity of these internal control deficiencies, we believe there is a reasonable possibility the DLIR's controls will fail to prevent, or detect and correct, a material misstatement on a timely basis. Even though the misstatements we identified were not material to the state's CAFR, because the deficiencies are extensive and have not yet been resolved, there is a reasonable possibility of additional unidentified misstatements during the audit period or in future periods. Examples of our consideration of risk factors outlined in AU-C Section 265.A8 during our assessment of the severity of the internal control deficiencies include (1) the controls in question cover the financial reporting for the entire UCF, (2) the controls were new due to implementation of a new system, (3) the controls were not operating during most of the audit period, (4) the deficiencies have not been resolved and future misstatements are likely, and (5) there were no compensating controls. For these reasons, we consider this finding to be a material weakness.

One of the DLIR's arguments that a material weakness does not exist is that the financial reports contain no material misstatement. However, AU-C Section 265.A5 states significant deficiencies and material weaknesses may exist even when the auditor does not identify misstatements. The DLIR also cites the indicators of material weaknesses outlined in AU-C Section 265.A11, and states "none of the above indicators are known to exist nor have been communicated to DLIR by the SAO, thus there is no evidence that any deficiency in controls rise to a level of material weakness." However, the last

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

indicator, "ineffective oversight of the entity's financial reporting and internal control by those charged with governance," describes the internal control deficiencies cited in the finding. The finding discusses various examples of how DLIR management's lack of oversight led to the reporting and reconciliation problems and misstatements. Furthermore, the indicators listed at AU-C Section 265.A11 are examples and are not considered an exhaustive list of indicators of a material weakness.

Finding Number 2017-005:

The DLIR disagrees with our decision to classify the finding related to the benefit payment bank account, also reported in finding 2017-005 of the federal awards section of the Schedule of Findings and Questioned Costs, as a material weakness.

As stated in the finding, federal regulations require the DLIR to maintain effective controls over, and accountability for, all funds of the Unemployment Insurance program. Because bank reconciliations serve as an essential internal control in the management of the Unemployment Insurance program and this control was not operating for the majority of the audit period, this finding is considered a material weakness.

2017-002.
Unemployment
Compensation Fund -
Segregation of Duties

The Department of Labor and Industrial Relations (DLIR) did not adequately segregate the duties of administering Unemployment Insurance (UI) benefits and authorizing transactions from the benefit payment bank account.

The Division of Employment Security (DES) determines claimant eligibility and authorizes UI benefit payments, and the DLIR Administration - Financial Management Unit (FM) maintains the various bank accounts of the Unemployment Compensation Fund and works with the bank to manage these accounts. However, a DES Benefits Analyst occasionally contacted the bank directly to authorize and reverse UI benefit payments from the benefit payment bank account. These bank transactions were made without any independent supervisory review, which increases the risk of misappropriation. In addition, the FM was not notified of these transactions. DLIR officials indicated these transactions occurred during November and December 2016, after implementation of the new UInteract computerized system. In January 2018, following our inquiry about the Benefits Analyst's access to the benefit payment bank account, the DES contacted the bank to remove this employee's access to the account.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by ensuring DES employees do not have access to authorize transactions from UI bank accounts. In addition, 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government* issued by the Comptroller General of the United States and the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, provides that management should consider segregation of duties in designing control activity responsibilities so that incompatible duties are segregated and, where such segregation is not practical, design alternative control activities to address the risk.

Recommendation

The DLIR, through the DES and the FM, restrict employee access to UI bank accounts and adequately segregate duties related to administering UI benefits and authorizing transactions from the UI bank accounts.

Auditee's Response

Finding number 2017-002 and finding number 2017-009 (which summarizes finding number 2017-002 in the federal awards section of the Schedule of Findings and Questioned Costs):

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2017-003.
Unemployment
Compensation Fund -
Transfers

The Department of Labor and Industrial Relations (DLIR) did not establish procedures to transfer interest and penalty collections to the Special Employment Security Fund (SESF) as required by state law. As of June 30, 2017, the DLIR had not transferred interest and penalties totaling approximately \$3.4 million held in the Unemployment Compensation Fund (UCF) to the SESF.

The DLIR, Division of Employment Security deposits Unemployment Insurance program interest and penalty collections into the UCF. Prior to implementation of the new UInteract computerized system in November 2016, DLIR Administration - Financial Management Unit (FM) personnel made monthly and quarterly transfers of interest and penalties from the UCF to the SESF to comply with state law. However, as of February 2018, the last transfer to the SESF was for a portion of the November 2016 collections. According to FM personnel, the UInteract system does not have the capability of producing manual checks necessary to transfer the funds, and alternate procedures to transfer the funds have not been developed.

Section 288.310, RSMo, requires all penalties and interest collected under the provisions of the Missouri Employment Security Law be paid to the SESF. The DLIR receives appropriations from the SESF for various administrative

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

expenses. To comply with state law and make these monies available for intended purposes, the FM needs to establish procedures to make the required transfers.

Recommendation

The DLIR establish procedures to ensure interest and penalty collections are transferred to the SESF, as required by state law.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

Section III - Federal Award Findings and Questioned Costs

2017-004. Unemployment Insurance Federal Reporting

Federal Agency:	U.S. Department of Labor (USDOL)
Federal Program:	17.225 Unemployment Insurance 2014 - UI-25214-14-55-A-29 2016 - UI-27986-16-55-A-29 2017 - UI-29906-17-55-A-29
State Agency:	Department of Labor and Industrial Relations (DLIR)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

The DLIR has not established adequate controls and procedures to prepare and submit accurate, complete, and timely federal reports for the Unemployment Insurance (UI) program. Our review of various federal reports identified several federal financial reports that were not accurate and/or were not submitted within the required timeframes.

The DLIR is required to prepare and submit various reports to the USDOL, Employment and Training Administration (ETA), on a monthly or quarterly basis. ET Handbooks³, published by the USDOL, outline the requirements for reporting financial and/or program activities. DLIR personnel pull data from the DLIR's UInteract computerized system to enter into the USDOL's computerized reporting systems to create the various reports. Similar to the problems regarding financial reporting noted in finding number 2017-001, the DLIR has encountered difficulties and delays in preparing accurate federal reports since implementation of the new UInteract system in November 2016.

Inaccurate reporting

Our review of certain federally-required reports noted three financial reports were inaccurate. While DLIR personnel, along with the UInteract system vendor, developed various queries and reports to pull data from the UInteract system, the DLIR did not perform sufficient testing or review the data to validate its accuracy and completeness prior to reporting the data in federal reports. In addition, each of these reports was prepared using system data and/or reports we identified in finding number 2017-001 as being inaccurate. Furthermore, some information in these federal reports was not supported by adequate supporting documentation. Because accurate and complete supporting documentation was not prepared, we were unable to confirm or verify some information in the reports or determine the extent of the reporting errors.

Below are some examples of the inaccuracies identified during our review of federal reports submitted for the year ended June 30, 2017.

³ *ET Handbook No. 336*, 18th Edition; *ET Handbook No. 401*, 4th Edition; and *ET Handbook No. 356*

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

- The beginning overpayment receivables balances (April 1, 2017) shown in the UInteract report supporting the *ETA 227 - Overpayment Detection and Recovery Activity* (ETA 227) report for the quarter ended (QE) June 30, 2017, did not match the ending overpayment receivables balances in the UInteract report supporting the previous QE March 31, 2017, ETA 227 report as shown in the table below.

Overpayment Type(1)	QE June 30, 2017	QE March 31, 2017
	Beginning Balance (April 1, 2017)	Ending Balance
Fraud - UI	\$8,937,160	\$18,807,046
Fraud - UCFE/UCX	117,042	108,469
Fraud - EB	4,020	270,659
Non-fraud - UI	7,901,265	8,304,247
Non-fraud - UCFE/UCX	120,795	123,076
Non-fraud - EB	0	(574)

(1) UI = Unemployment Insurance; UCFE/UCX = Unemployment Compensation for Federal Employees and Ex-service members; EB = Extended Benefits

In addition, according to DLIR personnel, upon UInteract system implementation, the ending overpayment receivables balances reported in the legacy system for the QE September 30, 2016, did not agree to the beginning overpayment receivables balances reported in the UInteract system for the QE December 31, 2016. To try to address this and subsequent balance issues, when preparing ETA 227 reports, DLIR personnel made adjustments to the amounts shown in the UInteract reports in an attempt to more accurately state the ending balances in the ETA 227 report. DLIR personnel could not provide documentation to support how the adjustments were determined or explain why the beginning and previous ending balances did not agree.

- The beginning employer receivables balances (January 1, 2017) shown in the UInteract report supporting *ETA 581 - Contribution Operations* (ETA 581) report for the QE March 31, 2017, did not match the ending employer receivables balances in the UInteract report supporting the previous QE December 31, 2016, ETA 581 report as shown in the table below.

Employer Type	QE March 31, 2017	QE December 31, 2016
	Beginning Balance (January 1, 2017)	Ending Balance
Contributory	\$7,989,632	\$5,920,001
Reimbursing	894,659	876,701

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

DLIR personnel acknowledged the report was inaccurate, but could not explain why the balances did not agree.

- Beginning in November 2016, monthly *ETA 2112 - UI Financial Transaction Summary* (ETA 2112) reports do not include amounts received from reimbursing employers. Because these amounts are not reported, Net UI Contributions reported are overstated and other amounts calculated using Net UI Contributions are misstated. DLIR personnel indicated they have not yet developed UInteract system reports to show the amounts received from reimbursing employers or to properly calculate Net UI Contributions. In addition, the Net UI Contributions reported are likely further misstated because the ETA 2112 reports were prepared using inaccurate daily transaction summary reports (see finding number 2017-001C).

DLIR personnel acknowledged each of these federal financial reports are inaccurate and indicated they are working to develop accurate reports that will be resubmitted to the USDOL when finalized.

Untimely reporting

In addition, the DLIR submitted the ETA 227 report for the QE December 31, 2016, more than 2 months late; the ETA 227 report for QE March 31, 2017, 1 week late; and the ETA 581 report for QE December 31, 2016, 2 weeks late. The *ET Handbook No. 401*, 4th Edition, requires states to submit quarterly ETA 227 reports by the first day of the second month after the quarter, and quarterly ETA 581 reports by the 20th day of the second month following the quarter.

Conclusion

It is essential the DLIR establish controls and procedures to prepare and submit accurate and timely federal reports as required. Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Such controls include designing and programming queries and reports that are complete and accurate and used to prepare reliable federal reports.

Recommendation

The DLIR establish controls and procedures to ensure required federal reports are accurately prepared and submitted in accordance with federal requirements. These procedures should ensure the UInteract system supporting queries and reports are properly designed and programmed to achieve federal reporting objectives. In addition, the DLIR should continue to review, revise, and resubmit previously submitted inaccurate federal reports.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DLIR Corrective Action Plan (CAP) states the DLIR partially agrees with the finding. The CAP indicates no disagreement with the finding, but indicates the DLIR does not agree with our classification of the finding as a material weakness.

Our decisions regarding the classification of the internal control deficiencies reported in this finding were made in accordance with AU-C Section 935, *Compliance Audits* and the *Audit Guide Government Auditing Standards and Single Audits (Audit Guide)*, published by the AICPA. The Audit Guide adapts and applies the guidance in AU-C Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, to a Uniform Guidance audit. The Audit Guide paragraph 9.47 provides the following definitions regarding internal control deficiencies: a *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable. *Reasonably possible* is the chance of the future event or events occurring that is more than remote but less than likely. *Probable* means the future event or events are likely to occur.

As explained in the finding, the failure to design and implement adequate controls and procedures to prepare and submit accurate, complete, and timely federal reports led to the submission of inaccurate and untimely reports to the USDOL. This instance of noncompliance with federal reporting requirements is considered material noncompliance due to the significance and frequency of report types and reporting periods submitted with inaccuracies. In addition, as stated in the finding, we were unable to confirm or verify some information in the reports or determine the extent of the reporting errors. The finding explains the DLIR, along with its vendor, developed various queries to pull data from the new UInteract system, but did not perform sufficient testing or review the data to validate its accuracy and completeness prior to reporting the data in federal reports. In addition, the reports were prepared using data and/or reports we identified in finding number 2017-001 (also a material weakness) as being inaccurate.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

As noted in the finding, the DLIR's controls failed to prevent and correct the material noncompliance identified. Because the internal control deficiencies have not been corrected, there is a reasonable possibility future reports will also be inaccurately submitted. Examples of our consideration of risk factors outlined in the Audit Guide paragraph 9.51 during our assessment of the severity of the internal control deficiencies include (1) the controls in question cover many types of required federal reports that together report all activities of the UI program, (2) the controls were new due to implementation of a new system, (3) the controls are related to financial reporting controls which were also identified as a material weakness, (4) there were no compensating controls, and (5) the deficiencies have not been resolved and future noncompliance is likely. In addition, the failure to submit accurate federal reports could affect the DLIR's future funding for the administration of the UI program. Further, when federal reports are not accurate, the USDOL and the DLIR cannot effectively monitor the integrity of UI program benefit processes. For these reasons, we consider this finding to be a material weakness.

The DLIR's CAP cites the four indicators of material weaknesses outlined in AU-C Section 265.A11, and states "none of the above indicators are known to exist nor have been communicated to DLIR by the SAO, thus there is no evidence that any deficiency in controls rise to a level of material weakness." However, the last indicator, "ineffective oversight of the entity's financial reporting and internal control by those charged with governance," which is adapted for Uniform Guidance audits in the Audit Guide paragraph 9.57 to "ineffective oversight by management, or those charged with governance, over compliance with program requirements where the activity is subject to a type of compliance requirement (for example, lack of adequate review of federal financial reports prior to submission to the grantor)," is specifically addressed in the audit finding. Furthermore, the indicators listed at AU-C Section 265.A11 and Audit Guide paragraph 9.57 are examples and are not considered an exhaustive list of indicators of material weakness.

2017-006.

**Unemployment Insurance
Wage Cross-matches**

Federal Agency: U.S. Department of Labor (USDOL)
Federal Program: 17.225 Unemployment Insurance
2014 - UI-25214-14-55-A-29
2016 - UI-27986-16-55-A-29
2017 - UI-29906-17-55-A-29
State Agency: Department of Labor and Industrial Relations (DLIR)
- Division of Employment Security (DES)
Type of Finding: Internal Control (Significant Deficiency) and
Noncompliance

The DES did not follow established controls over Unemployment Insurance (UI) program eligibility and payments related to wage cross-matches, and as a result, federally-required wage cross-matches were not performed during the 9-month period after implementation of the new UInteract computerized system.

The DES is charged with the administration of the UI program, including determining claimant eligibility and making benefit payments, as required by Missouri Employment Security laws and regulations. To monitor claimants' continued eligibility and ensure payments are proper, DES staff, in coordination with the Office of Administration - Information Technology Services Division, perform various periodic wage cross-matches of UI system claimant data to data obtained from third parties. Unemployment Insurance Program Letter (UIPL) 19-11 requires wage cross-matches to the National Directory of New Hires (NDNH). The mandatory use of the NDNH is based on the USDOL's authority granted under 42 USC Section 503(a)(1) and 26 USC Sections 3306(h) and 3304(a)(4). The federal guidance recommends weekly NDNH wage cross-matches and daily State Directory of New Hires (SDNH) wage cross-matches. DES procedures require the NDNH wage cross-matches be performed weekly and SDNH wage cross-matches be performed twice per week. DES staff investigate wage cross-match results to identify claimants who are ineligible and/or received improper payments. For the claimants determined to be ineligible, DES staff stop future benefit payments, establish overpayments in the UInteract system, and initiate recoupment efforts.

The DES stopped performing NDNH and SDNH wage cross-matches in October 2016, approximately 1 month prior to implementation of the new computerized system, UInteract, on November 14, 2016. The DES resumed the SDNH wage cross-matches in November 2016, but due to various system programming issues, the DES did not resume the NDNH wage cross-matches until July 2017. Because the required NDNH wage cross-matches were not performed during the 9-month period, DES staff could not timely investigate wage cross-match results for ineligible claimants and/or improper payments.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

In addition to noncompliance with federal requirements, the failure to follow established controls to perform wage cross-matches increases the risk that payments will be made to ineligible claimants, and/or improper payments will go undetected. In addition, the failure to perform prompt investigations can adversely affect the DES's ability to perform the investigations and recoup identified overpayments. Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DLIR, through the DES, ensure wage cross-matches are performed in accordance with federal requirements.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2017-007.
Unemployment Insurance
Benefit Accuracy
Measurement Program

Federal Agency:	U.S. Department of Labor (USDOL)
Federal Program:	17.225 Unemployment Insurance
	2014 - UI-25214-14-55-A-29
	2016 - UI-27986-16-55-A-29
	2017 - UI-29906-17-55-A-29
State Agency:	Department of Labor and Industrial Relations (DLIR) - Division of Employment Security (DES)
Type of Finding:	A - Internal Control (Significant Deficiency) and Noncompliance
	B - Internal Control (Significant Deficiency) and Noncompliance
	C - Internal Control (Significant Deficiency)

The DES did not comply with Unemployment Insurance (UI) program Benefit Accuracy Measurement (BAM) case investigation requirements. In addition, the DES has not established written policies and procedures regarding supervisory reviews of BAM case investigations.

The UI BAM program, administered by the DES's BAM unit, serves as a control over UI eligibility and benefit payments. The BAM program provides the basis for assessing the accuracy of UI benefit payments and denied claims, assessing improvements in program accuracy and integrity, and encouraging more efficient administration of the UI program.

Federal regulation 20 CFR Section 602.21(c) requires each state to complete prompt and in-depth BAM case investigations to determine the degree of accuracy and timeliness in the administration of the state UI law and the federal UI program with respect to benefit determinations, benefit payments, and revenue collections. The *ET Handbook No. 395*, 5th Edition, published

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

by the USDOL, Employment and Training Administration establishes time limits for completion of all case investigations and mandates the use of National Directory of New Hires (NDNH) cross-matches as part of BAM paid claim case investigations. The results of the BAM investigations are entered into the Data Collection Instrument in the USDOL's Sun computerized system.

A. Timeliness

According to DES reports of BAM paid and denied claim case investigations performed during state fiscal year 2017, the DES did not complete investigations within the required timeframes as noted in the following table:

Claims Type	Percentage of Cases Completed within 60 Days		Percentage of Cases Completed within 90 Days	
	Required %	Actual %	Required %	Actual %
Paid Claims	70	23	95	32
Denied Claims - Monetary	60	42	85	52
Denied Claims - Separation	60	32	85	41
Denied Claims - Nonseparation	60	30	85	38

DES's State Quality Service Plan for the federal fiscal year ending September 30, 2018, indicated the BAM unit experienced backlogs of BAM investigations because the BAM unit was unable to select and assign cases to BAM auditors during the period November 2016 to March 2017 due to system issues associated with the implementation of the UInteract computerized system. While this case assignment issue was being corrected, the BAM investigators were reassigned to assist with other duties. The DES hired two additional investigators in May 2017 to help reduce the backlog. In addition to noncompliance with federal requirements, the failure to complete BAM case investigations timely can adversely affect the DES's ability to recoup identified overpayments.

B. NDNH cross-matches

BAM paid claim case investigations performed during the period October 2016 to July 2017 did not include NDNH wage cross-matches. Our sample of 60 BAM case investigations during state fiscal year 2017 included 27 paid claims, of which 18 (67 percent) were not cross-matched with the NDNH.

As noted in finding number 2017-006, the DES did not perform cross-matches to the NDNH during the 9-month period due to issues with the new UInteract system. In addition to noncompliance with federal requirements, the failure to perform wage cross-matches during BAM paid claim case investigations increases the risk that payments will be made to ineligible claimants, and/or improper payments will go undetected.

C. Supervisory reviews

The DES has not established written policies and procedures regarding supervisory reviews of BAM case investigations. Supervisory reviews are a

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

control to ensure BAM case investigations are performed properly and in compliance with federal requirements, and to ensure proper resolution of identified problems.

BAM unit supervisors are not required to review each BAM case investigation, but are instructed to perform "spot checks" of these investigations. The DES has not established written criteria or guidance regarding the extent supervisory reviews should be performed. Our sample of 60 BAM case investigations noted 20 (33 percent) were not reviewed by a supervisor.

An August 2017 National BAM Peer Review conducted by the USDOL, found 7 of 15 (47 percent) BAM denied claim case investigations reviewed contained procedural issues, including not properly pursuing an issue to a supportable conclusion, not properly resolving an issue, or not applying BAM procedures correctly. Requiring supervisory reviews of all or more BAM case investigations than are currently being reviewed could help identify errors in BAM case investigations and prevent future errors.

Conclusion

Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." When supervisory reviews of BAM case investigations are not performed, the effectiveness of the BAM program is diminished, and there is decreased assurance case reviews are accurate and an increased risk of errors going undetected. To ensure controls over BAM case investigations are adequate, the DES should establish policies and procedures regarding the extent supervisory reviews should be performed.

Recommendations

The DLIR, through the DES:

- A. Ensure BAM case investigations are completed within federally-required time frames.
- B. Ensure BAM case investigations include NDNH cross-matches as required.
- C. Establish written policies and procedures regarding supervisory reviews of BAM case investigations.

	2016 - UI-27986-16-55-A-29
	2017 - UI-29906-17-55-A-29
State Agency:	Department of Labor and Industrial Relations (DLIR) - Division of Employment Security (DES)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance
Questioned Costs:	\$134,388 ⁴

The DES did not properly design and implement internal controls to ensure the new Unemployment Insurance (UI) computerized system (UInteract) correctly calculates claimant Maximum Benefit Amounts (MBA). As a result, the MBA for some claimants was incorrectly calculated and some claimants received overpayments. The DLIR made unemployment benefit payments totaling approximately \$315 million during the year ended June 30, 2017.

The DES is charged with the administration of the UI program, including determining claimant eligibility and making benefit payments, as required by Missouri Employment Security laws and regulations. Section 288.060.4, RSMo, states the maximum total amount of benefits payable to any insured worker during any benefit year shall not exceed twenty times his or her weekly benefit amount, or thirty-three and one-third percent of his or her wage credits, whichever is lesser. This is termed the Maximum Benefit Amount (MBA).

On November 17, 2017, approximately 1 year after the November 2016 implementation of the new UInteract computerized system, DES personnel discovered the system was not properly calculating the MBAs for some claimants. In January 2018, the system was reprogrammed to correctly calculate these claimants' MBAs, overpayments were identified in the system, and collection efforts were initiated. DES staff provided documentation as of December 15, 2017, showing the MBA was incorrectly calculated for 3,721 of 144,623 (2.6 percent) claims since implementation of the UInteract system, and 491 of these claims resulted in overpayments. Claimants were paid a total

⁴ Questioned costs include overpayments for the period November 2016 to December 2017.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

of \$134,388 in excess of the actual MBAs allowed by law. We question this entire overpayment amount (100 percent federal share).

The MBA calculation errors occurred because the UInteract system was not adequately tested before implementation for all situations that may affect the MBA calculation, and the errors were not detected timely because the DES did not establish adequate controls to timely monitor MBA calculations. Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government* issued by the Comptroller General of the United States and the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, states that when new controls are designed and implemented, management should ensure the controls are capable of achieving the objective and addressing related risks. In addition, management should perform ongoing monitoring to determine the effectiveness of the internal controls.

Recommendation

The DLIR through the DES continue to establish and monitor controls to ensure the UInteract system properly calculates claimant MBA and continue efforts to collect identified overpayments.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2017-010.
Child Care Eligibility and
Payments

Federal Agency:	Department of Health and Human Services
Federal Program:	93.575 Child Care and Development Block Grant 2016 - G1601MOCCDF 2017 - G1701MOCCDF 93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund 2016 - G1601MOCCDF 2017 - G1701MOCCDF
State Agency:	Department of Social Services (DSS) - Children's Division (CD) and Family Support Division (FSD)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance
Questioned Costs:	\$1,659

As noted in our prior seven audit reports,⁵ weaknesses continue to exist in DSS controls over Child Care and Development Fund (Child Care) subsidy eligibility and provider payments. Controls are not sufficient to prevent and/or detect payments on behalf of ineligible clients or improper payments to child care providers. Payments were made on behalf of one ineligible client and overpayments were made to some providers. The DSS has only limited procedures to review eligibility determinations and monitor payments to providers. During the year ended June 30, 2017, the DSS paid approximately 5,600 child care providers approximately \$150 million for services provided to approximately 63,300 children of eligible clients.

The DSS provides funds to child care providers who serve eligible clients (parents/caregivers). Clients apply to CD or FSD case workers for participation in the Child Care subsidy program. Federal regulation 45 CFR Section 98.20 provides that to be eligible for services the child must (1) be under 13 years old, or at the option of the DSS under age 19 and physically or mentally incapable of caring for himself/herself or under court supervision, (2) live with a family who meets certain income guidelines, and (3) have parents who are working or attending a job training or educational program or receive, or need to receive, protective services. Parents who are searching for a job are considered to have a need for child care for up to 90 days or the end of the month in which the 90th day occurs.

Once approved, the client selects a child care provider and the DSS enters into an agreement/contract with the provider for child care services. The DSS Income Maintenance (IM) manual requires that case workers set maximum authorized service units for the amount and type of care that best meets the family's need; maintain case file documentation, including the Child Care

⁵ *State of Missouri Single Audit*, finding numbers 2016-002A, 2015-002, 2014-005, 2013-009, 2012-11A&B, 2011-14A, and 2010-16A.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

subsidy application; and verify the need for child care to support the eligibility determination. Case workers enter the maximum authorized child care service units into the Family Assistance Management Information System (FAMIS) for each child.

The IM manual and provider agreements require providers to submit monthly invoices electronically through the Child Care Online Invoicing System (CCOIS) or manually through the Child Care Provider Relations Unit. The CCOIS interfaces with the FAMIS to process provider payments. Additionally, providers are required to maintain detailed attendance records documenting daily arrival and departure times and containing client signatures verifying the children received the services. Although all providers are required to retain attendance records for 5 years, the DSS only requires registered (license exempt) providers that submit manual invoices to submit attendance records for payment.

To test compliance with program requirements, we selected a sample of 60 children. We reviewed eligibility case documentation, related provider agreements, and payment documentation supporting one payment for each of these children. The department made payments totaling approximately \$18,740 to child care providers on behalf of these 60 children during the month reviewed. We noted the following:

- Child Care subsidy payments were made on behalf of a child when there was not a valid need for child care services for 1 of 60 (2 percent) cases reviewed. The client's employment ended in October 2016 and the client was authorized to receive child care subsidy for 90 days, through the end of January 2017, during the client's job search. The provider invoiced and received payments through the end of February 2017, 1 month after the job search period expired. Payments totaling \$1,085, made on behalf of this child and the child's siblings for the month of February 2017, were unallowable. We question the federal share of \$846 (77.99 percent).
- Documentation was not adequate to support payments for 13 of 60 (20 percent) cases reviewed. Attendance records for 2 cases were not provided by the child care provider upon our request and provider invoices did not agree to the corresponding attendance records for the other 11 cases. Unsupported payments for these 13 cases totaled \$1,043. We question the federal share of \$813 (77.99 percent). Known questioned costs for unsupported payments to child care providers represent approximately 5.6 percent of payments reviewed. If similar errors were made on the remaining population of Child Care subsidy payments, questioned costs could be significant.

The various errors noted above occurred because the DSS had limited controls to ensure eligibility determinations were accurate and payments were proper and adequately supported. At least three significant factors contributed

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

to the weak control system including: (1) limited supervisory review of Child Care subsidy eligibility determinations, (2) limited compliance reviews of child care providers, and (3) minimal other procedures in place to review provider attendance records.

In response to deficiencies identified in previous audits, the DSS implemented various controls over eligibility determinations and provider payments. During the period November 2015 to April 2017, the DSS required eligibility supervisors to review a minimum of three Child Care subsidy cases each month in the case review system. In April 2017, the DSS restructured this review process by requiring eligibility supervisors to complete 20 targeted case reviews each month, focusing on areas identified as needing improvement. The number of ineligible clients identified by our audits has declined in recent years since the DSS implemented additional controls over eligibility. In addition, federal and state reductions in eligibility restrictions when a client is not working or attending classes have reduced the potential errors in eligibility due to changes in client work or education status. In September 2013, the DSS created the Child Care Review Team (CCRT) within the Division of Finance and Administrative Services, and began performing reviews of child care providers. Although the CCRT reviews noted similar provider payment issues to those noted above, the CCRT's follow up on identified provider noncompliance is not sufficient (see finding number 2017-011).

An audit performed by the federal Department of Health and Human Services (DHHS) - Office of Inspector General (OIG), *Not All of Missouri's Child Care Subsidy Program Payments Complied With Federal and State Requirements*, released in November 2017, identified similar concerns with unsupported provider payments. The DHSS-OIG audit noted attendance records were not adequately documented for 124 of 128 provider service months reviewed and projected total overpayments of \$19.1 million for federal fiscal years 2014 and 2015. The audit reported the deficiencies occurred because the DSS did not exercise sufficient oversight over its Child Care subsidy program.

In January 2017, the DHHS, Administration for Children and Families (ACF), Office of Child Care issued a decision letter stating it concurred with our fiscal year 2015 audit finding and the DSS had not fully implemented corrective actions to address the repeating finding. The ACF further required, beginning in the quarter ended March 31, 2017, the DSS to provide quarterly updates of corrective actions taken and planned until the issues are resolved. The DSS's quarterly corrective action updates for March and June 2017 indicated the department continued to review procedures and monitor case reviews, and was in the process of contracting for an electronic timekeeping and attendance system. Subsequent updates had not been prepared as of February 2018.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

Effective September 30, 2016, 45 CFR Section 98.68 requires the DSS to document in its Child Care subsidy state plan that it has effective controls to ensure integrity and accountability in the program. To ensure controls are effective, the DSS needs to continue to review, strengthen, and enforce policies and procedures to ensure Child Care subsidy payments are made only on behalf of eligible clients, invoices agree to the corresponding attendance records, and attendance records are complete. These procedures should include sufficient monitoring of eligibility determinations and provider payments, and follow up on errors identified.

Recommendation

The DSS, through the CD and the FSD, continue to review, strengthen and enforce policies and procedures regarding Child Care subsidy eligibility determinations and provider payments. These procedures should include sufficient monitoring of eligibility determinations and provider payments and follow up on errors identified.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS partially agrees with the finding that controls are not sufficient to prevent and/or detect payments on behalf of ineligible clients. The DSS believes no further improvements to control processes over eligibility are possible. As acknowledged in the finding, improved controls and reductions in eligibility restrictions have led to fewer eligibility errors in recent audits; however, our sample did identify 1 error out of 60 cases tested, or 2 percent. During the audit, DSS officials agreed with this error and the related questioned costs; therefore, this finding remains valid.

In the CAP, the DSS states "one error does not represent a material internal control weakness nor warrant an audit finding of noncompliance." As discussed with DSS officials during the audit, the finding was not classified as a material control weakness due to the internal control deficiencies over eligibility, but due to the internal control deficiencies over provider payments. The DSS payment to an ineligible client identified in our sample is considered noncompliance under federal guidelines.

2017-011.
Child Care Provider
Monitoring

Federal Agency:	Department of Health and Human Services
Federal Program:	93.575 Child Care and Development Block Grant 2016 - G1601MOCCDF 2017 - G1701MOCCDF
	93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund 2016 - G1601MOCCDF 2017 - G1701MOCCDF

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

State Agency:	Department of Social Services (DSS) - Children's Division (CD) and Division of Finance and Administrative Services (DFAS)
Type of Finding:	Internal Control (Significant Deficiency)

As noted in our prior audit report,⁶ the DSS's procedures to follow up on provider noncompliance identified during Child Care Review Team (CCRT) reviews are not sufficient.

The CCRT is responsible for conducting compliance reviews of child care providers using a risk-based approach to identify and monitor providers determined to be at high risk of noncompliance with Child Care subsidy provider requirements. CCRT staff perform on-site and desk reviews to evaluate provider billing practices, compare attendance records to amounts invoiced, and review facility staffing ratios and fire safety. CCRT staffing levels have varied over the years due to turnover. At June 30, 2017, the CCRT consisted of one manager and three staff. The CCRT completed 576 reviews, including 133 desk reviews and 443 on-site reviews during the year ended June 30, 2017.

When the CCRT identifies provider noncompliance, the provider is required to repay any related overpayments identified; and depending on the severity of the noncompliance, the provider may also (1) be referred to provider training or (2) have its provider contract/agreement terminated. The CCRT notifies the CD if a provider should be referred for training or if a provider's contract/agreement should be terminated. The CD is responsible for contacting the provider with the necessary training or termination information. After a provider attends the required training, the CCRT may conduct a follow-up review. Providers referred to training have 45 days to complete the training. If the provider does not complete the required training timely, CD personnel notify the provider it has 10 to 15 days to complete the training or the provider's contract will be terminated.

The CCRT and the CD have not established criteria or guidance for determining the type and extent of follow-up action, if any, to address identified provider noncompliance. We reviewed documentation supporting 60 CCRT compliance reviews (49 initial reviews and 11 follow-up reviews) finalized during the year ended June 30, 2017. The CCRT determined 42 of these 60 providers were noncompliant. Two of these providers had their provider contracts terminated due to failure to cooperate with the review. Of the remaining 40 reviews, 35 had significant problems including overpayments or significant technical issues and appeared to require follow up to prevent future noncompliance, and 5 had technical issues and further

⁶ *State of Missouri Single Audit*, finding number 2016-002B.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

follow up did not appear necessary. Our review of cases requiring follow up by the CCRT or the CD noted the following:

- In 16 (15 initial and 1 follow-up) of the 35 (46 percent) reviews that appeared to require follow up, the CCRT required the providers to repay the overpayments, but took no further action to address the provider noncompliance, such as referring the provider to the CD for training or other corrective action, or conducting another follow-up review. The average identified overpayment amount for these 16 providers was \$263 for the 2-month period the CCRT reviewed. The overpayment to one of the providers exceeded \$1,000. CCRT officials indicated additional follow up was not required for these reviews and that any additional action is at the discretion of CCRT personnel.
- In 10 (5 initial and 5 follow-up) of the 19 (53 percent) reviews in which the provider was referred to the CD for training or other corrective action, the provider did not complete training within the required 45 days and the CD did not follow up timely with the provider or terminate the contract. For 3 of these reviews, including 2 with overpayments over \$13,000, the CD was unable to confirm whether the provider ever attended training.

CCRT and CD monitoring of providers serves as a control to ensure provider payments are allowable. Effective September 30, 2016, 45 CFR Section 98.68 requires the DSS to document in its Child Care subsidy state plan that it has effective controls to ensure integrity and accountability in the program. Effective monitoring procedures include adequate follow up and resolution of identified provider noncompliance. The CCRT and the CD should establish procedures to address noncompliant providers and provide for a final resolution of provider compliance. Without continued monitoring of these providers, continued noncompliance and overpayments are likely.

Recommendation

The DSS, through the DFAS and the CD, establish and enforce procedures to ensure proper follow up on noncompliance identified during CCRT reviews is performed. These procedures should include criteria for determining the type and extent of follow-up action that should be taken, and provide for continued monitoring and final resolution of provider compliance.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2017-012. Child Care Provider Eligibility

Federal Agency:	Department of Health and Human Services
Federal Program:	93.575 Child Care and Development Block Grant 2016 - G1601MOCCDF 2017 - G1701MOCCDF 93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

2016 - G1601MOCCDF

2017 - G1701MOCCDF

State Agency:	Department of Social Services (DSS) - Children's Division (CD) and Family Support Division
Type of Finding:	Internal Control (Material Weakness) and Noncompliance
Questioned Costs:	\$1,189

As noted in our prior four audit reports,⁷ the DSS does not have adequate controls and procedures in place to ensure "four-or-less" child care providers participating in the Child Care and Development Fund (Child Care) subsidy program comply with statutory requirements for license-exempt status. According to Section 210.211.1, RSMo, child care providers are exempt from licensing requirements if they care for four or less unrelated children, known as "four-or-less" (FOL) providers. For some FOL providers reviewed, DSS employees did not follow the department's procedures to ensure the providers do not care for more than four unrelated Child Care subsidy children. As a result, the DSS classified the children as related to their FOL child care providers and made Child Care subsidy payments to the providers without obtaining the required documentation to support the relationships. During the year ended June 30, 2017, the DSS paid 2,774 FOL child care providers approximately \$15.9 million for child care services. The DSS paid 922 of these FOL providers to care for a total of more than four children for at least 1 month during the fiscal year.

Child care providers must be licensed, or exempt from licensure by state statute, to participate in the Child Care subsidy program. FOL providers must sign a registration agreement with the CD attesting they understand the health and safety requirements of the program, will comply with such requirements, and will report true and accurate information. Once the FOL provider registers with the DSS, parents/caregivers (clients) participating in the Child Care subsidy program may select the provider to care for their children. FSD Eligibility Specialists (ES) authorize child care for each eligible child by provider in the Family Assistance Management Information System (FAMIS).

In March 2015, the DSS revised its procedures to identify and document provider-children relationships. The DSS Child Care policy requires clients and FOL providers of related children to complete and sign a Child to Provider Relationship form listing and attesting to the relationships between related children and the provider. The policy requires the client provide verification of listed relationships (birth certificates, marriage licenses, etc.) upon request. During the authorization process, the ES enters the

⁷ *State of Missouri Single Audit*, finding numbers 2016-001, 2015-003, 2014-006 and 2013-010.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

corresponding relationship code into the FAMIS. System edits allow the ES to authorize a maximum of four unrelated children to a FOL provider at a time, and an unlimited number of related children. However, when relationships are not supported by Child to Provider Relationship forms and/or relationship codes are not entered correctly, the system will not prevent child care authorizations and payments to FOL providers caring for more than four unrelated Child Care subsidy children.

Our prior audit (the first audit performed after the Child to Provider Relationship form was fully implemented) found the DSS had not obtained the required forms for most children reviewed; and for almost half of the FOL providers reviewed, the DSS paid for more than a total of four unrelated children and children whose relationship was not supported by a Child to Provider Relationship form. In June 2016, due to concerns regarding the implementation of the Child to Provider Relationship form, the FSD performed a review of applicable case files for the required forms. DSS officials indicated they identified many missing forms, and subsequently obtained the forms when applicable. Effective April 2017, the DSS Child Care policy requires ES to enter a relationship code of unrelated until the Child to Provider Relationship form is received. Also in April 2017, the DSS implemented procedures requiring supervisors to review a daily report of all FOL authorizations processed the previous day and make corrections as needed. Because child care authorizations are often for 12 months, and these reviews only include new authorizations, it will take a year (April 2018) to review all FOL provider authorizations.

We sampled relationship documentation for 60 FOL providers that received payments during the year ended June 30, 2017, to test the department's control and compliance with FOL requirements. We randomly selected 1 service month for each provider to determine if the Child to Provider Relationship form was completed to support the relationship for children coded in the FAMIS as related and if the provider cared for more than four unrelated Child Care subsidy children. Of the 60 providers, 17 were paid to care for related children. These providers were paid to care for 2 to 12 unrelated and related Child Care subsidy children during the month reviewed, a total of 83 children. Of the 83 children, 57 were coded in the FAMIS as related (45 with authorizations before, and 12 with authorizations after, April 2017 when additional controls were implemented).

For 3 of the 17 (18 percent) FOL providers paid to care for the 57 related children, 9 (16 percent) children were coded in the FAMIS as related, but the relationship was not supported by a Child to Provider Relationship form signed at the time of the child care authorization. The authorizations for each of these children were before April 2017 when the DSS implemented daily supervisory reviews of FOL authorizations. Of the 17 providers, 1 (6 percent) was paid for more than a total of four unrelated children and children whose

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

relationships were not supported by Child to Provider Relationship forms. Without obtaining the required forms, the DSS did not perform required procedures to verify relationships and ensure these providers complied with child care licensing laws regarding number of children served. The DSS paid this provider \$1,524 for caring for 7 children during the month. Authorizations for 6 of these children ended after the test month and there were no subsequent payments to the provider for these children. We question the federal share of the total payments when the provider cared for more than four unrelated or unverified children during the year ended June 30, 2017. We question the federal share, or \$1,189 (77.99 percent).

An eligible child care provider is defined by 45 CFR Section 98.2 as a provider for child care services for compensation that is licensed, regulated, or registered under applicable state or local law and satisfies state and local requirements, including health and safety requirements. As described in the Child Care subsidy state plan, Section 210.211.1, RSMo, states it is unlawful for any person to establish, maintain, or operate a child care facility without a valid license issued by the Missouri Department of Health and Senior Services unless the provider meets one of the listed exemptions. Section 210.211.1(1), RSMo, exempts from licensure any person who is caring for four or fewer unrelated children. Children related to the provider by blood, marriage, or adoption within the third degree are not considered in the total number of children being provided care.

In January 2017, the Department of Health and Human Services, Administration for Children and Families (ACF), Office of Child Care issued a decision letter stating it concurred with our year ended June 30, 2015, audit finding and the DSS had not fully implemented corrective actions to address the repeating finding. The ACF further required, beginning in the quarter ended March 31, 2017, the DSS to provide quarterly updates of corrective actions taken and planned until the issues are resolved. The DSS's quarterly corrective action updates for March and June 2017 indicated the department implemented system changes in FAMIS, implemented reviews of daily reports of FOL providers, and continues to review procedures.

In addition to noncompliance with state and federal laws, the failure to follow established controls to obtain Child to Provider Relationship forms can result in child care services provided by, and payments made to, ineligible providers. Federal regulation 45 CFR Section 98.11 requires the state to ensure the Child Care subsidy program complies with the approved state plan and federal requirements. Effective September 30, 2016, 45 CFR Section 98.68 requires the DSS to document in its Child Care subsidy state plan that it has effective controls to ensure integrity and accountability in the program. To ensure controls are effective, the DSS needs to continue to review, strengthen, and enforce policies and procedures to ensure clients and FOL providers comply with DSS policy and state law. These procedures should

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

ensure adequate receipt of, and proper recording of information on, Client to Provider Relationship forms in the FAMIS as required by DSS policy.

Recommendation

The DSS through the CD and the FSD continue to improve controls and procedures to ensure clients and FOL child care providers participating in the Child Care subsidy program comply with DSS policy, and FOL providers comply with state licensing requirements.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DSS disagrees with the finding because the DSS believes no further improvements to controls are possible and no corrective action is needed. The DSS's new control of supervisory review of all new authorizations was implemented in April 2017. This control was only in effect during the last 3 months of our audit period and will not be fully effective until April 2018 when all new authorizations since implementation have been reviewed. As stated in the finding, the authorizations for each of the 9 unsupported relationships noted during our audit were before April 2017. During the audit, DSS officials confirmed these relationships were not supported by the required Child to Provider Relationship form signed at the time of the child care authorization; therefore, this finding remains valid. Future audits that cover periods after the new control is fully or substantially implemented will evaluate the adequacy and effectiveness of the new control.

The DSS's Corrective Action Plan also indicates the DSS does not agree with our classification of the finding as a material weakness and a finding of noncompliance. Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, *Compliance Audits* and the *Audit Guide Government Auditing Standards and Single Audits*, published by the AICPA. The Audit Guide adapts and applies the guidance in AU-C Section 265, *Communicating Internal Control Related Matters Identified in an Audit*, to a Uniform Guidance audit. The Audit Guide paragraph 9.47 provides the following definitions regarding internal control deficiencies: a *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. The control tested (the existence of the Child to Provider Relationship form) is the DSS's only key control over child-provider relationships. Because the forms were not on file for 16 percent of the relationships reviewed and payments to FOL providers are material to the program (over \$15 million during the year), there is a reasonable possibility that material noncompliance was not prevented, or detected and corrected, on a timely basis during the audit period.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

The finding is classified as noncompliance because our testing of support for provider relationships found one provider was paid to care for more than four children whose relationships were not supported by the Child to Provider Relationship forms.

2017-013.
MO HealthNet Division
Provider Eligibility

State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Missouri Medicaid Audit and Compliance (MMAC)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance
Questioned Costs:	\$223,188,969

As noted in our prior audit report,⁸ the DSS did not fully implement federal revalidation requirements for providers participating in the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). As of June 30, 2017, the DSS had not performed required revalidations for 71 percent of Medicaid and CHIP providers requiring revalidation. There were approximately 57,900 Medicaid and CHIP providers enrolled as of June 30, 2017.

To enroll in the Medicaid and CHIP programs, providers of medical services apply to the MMAC Provider Enrollment Unit, which is responsible for determining the eligibility of Medicaid and CHIP providers and performing eligibility revalidations. Federal regulation 42 CFR Section 455.412⁹ specifies the enrollment screening (eligibility determination) requirements. Provider revalidations are performed in the same manner as enrollment screenings.

Federal regulation 42 CFR Section 455.414⁹ established additional requirements regarding provider eligibility, requiring states to revalidate the eligibility of all Medicaid and CHIP providers, regardless of provider type, at least every 5 years. Sub-regulatory Guidance published by the Centers for Medicare and Medicaid Services (CMS) on December 23, 2011, required

⁸ *State of Missouri Single Audit*, finding number 2016-003A.

⁹ Federal regulation 42 CFR Section 457.990 requires the same enrollment and revalidation requirements for CHIP providers as Medicaid providers, established at 42 CFR Part 455, subpart E, which includes Sections 455.412 and 455.414.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

implementation of the new revalidation requirements by September 24, 2016; specifically revalidations for all providers enrolled on or before September 25, 2011, were to be completed by September 24, 2016. In addition, the CMS issued the Medicaid Provider Enrollment Compendium on January 4, 2017, to clarify how states are expected to comply with the federal regulations. To implement the new requirements, the DSS established state regulation 13 CSR Section 65-2.020, which gave the DSS authority to implement provider revalidations, effective July 30, 2014; and contracted with a vendor to modify the provider enrollment system for revalidations. The system modifications were finalized July 1, 2016. MMAC Provider Enrollment Unit personnel began manually performing revalidations in April 2015, and began using the system in the revalidation process in July 2016.

As explained in our prior audit report, the DSS established procedures for performing revalidations, but as of September 24, 2016, the revalidations had not been performed for 87 percent of the Medicaid and CHIP providers requiring revalidation. According to DSS reports, as of June 30, 2017, there were approximately 33,200 active providers enrolled in the Medicaid and CHIP on or before June 30, 2012, that required revalidation. At that time, the MMAC had completed revalidations for approximately 9,700 providers, but had not completed revalidations for the remaining 23,500 providers (71 percent). DSS officials indicated the backlog of revalidations continued to occur because of difficulties associated with the system modifications and shortages of staff to handle the volume of revalidations and new enrollments. MMAC officials indicated they plan to have all revalidations completed and on a rotational 5-year schedule by December 31, 2019.

We tested 43 providers paid during the year ended June 30, 2017, to test compliance with federal revalidation requirements. We determined revalidations had not been completed for all 43 providers selected. As a result, the DSS did not comply with federal regulations established to ensure these providers continued to meet the requirements to participate in these programs. Medicaid and CHIP payments made to these 43 providers during the period of September 25, 2016 to June 30, 2017, totaled \$347,483,994. We question the federal share, or \$223,188,969 (64.23 percent).

In addition to noncompliance with federal regulations, the failure to follow established controls to perform revalidations can result in medical services performed by, and payments made to, ineligible providers. Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

Recommendation	The DSS through the MHD and MMAC revalidate Medicaid and CHIP providers every 5 years as required by federal regulations.
Auditee's Response	<i>We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.</i>
Auditor's Comment	The DSS Corrective Action Plan indicates the DSS agrees the revalidations were not performed as required but disagrees the DSS had not ensured providers continued to meet eligibility requirements. Specifically, the CAP states the DSS "strongly disagrees that DSS had not ensured these providers continued to meet the eligibility requirements to participate in Missouri Medicaid programs," and in reference to the revalidations not performed, "it is inaccurate to state it resulted in a lack of assurance of overall provider eligibility." However, the finding does not question the DSS's overall procedures to ensure eligibility of providers, but focuses on compliance with the federal regulation requiring revalidation of providers. The DSS agreed all 43 providers tested had not been revalidated as required; therefore, this finding remains valid.

2017-014.
MO HealthNet Division
Cash Receipt Controls

Federal Agency:	Department of Health and Human Services
Federal Program:	93.767 Children's Health Insurance Program 2015 - 1505MO5021 2016 - 1605MO5021 93.778 Medical Assistance Program 2016 - 1605MO5MAP and 1605MO5ADM 2017 - 1705MO5MAP and 1705MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Material Weakness)

As similarly noted in our prior two audit reports,¹⁰ the MHD did not have adequate controls in place to ensure the proper management of receipts received by the division, which totaled approximately \$1 billion during the year ended June 30, 2017. Approximately \$699 million of this amount (69 percent) was received by the MHD in the form of checks, money orders, and cash. The remaining amount was received through a contractor lockbox. These receipts include monies received from participants, providers, and insurance companies for items such as premiums, reimbursements, and taxes related to the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP).

¹⁰ *State of Missouri Single Audit*, finding numbers 2016-004A&C and 2015-009A&C.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

The MHD Financial Services Unit receives monies, posts the receipts to the Medicaid Management Information System (MMIS), and prepares deposits. MHD program staff apply the receipts to the applicable accounts receivable balances in the MMIS. For receipts received through a lockbox, a contractor posts and applies these receipts to accounts receivable balances in the MMIS and prepares the deposits.

The MHD does not adequately restrict user access within the cash receipts and accounts receivable modules of the MMIS. The Fiscal and Administration Manager Band 1 and the Accountant III continue to have the ability to record and delete receipts and update or close the related accounts receivable in the MMIS. In addition, there was no documented independent or supervisory review of the MMIS entries and changes made by these employees during the year ended June 30, 2017, which increases the risk of misappropriation. MHD officials indicated these two employees need full access to the MMIS in case of unit employee absences or turnover. The Summary Schedule of Prior Audit Findings for prior audit finding number 2016-004C indicated a regular report of instances for which transactions were entered and approved by the same user has been and will be ordered and reviewed; however, such a report was not created until January 2018, after the current audit period. In addition, the Summary Schedule of Prior Audit Findings for prior audit finding number 2016-004A indicated additional policies have been instituted to ensure cash control numbers are not deleted and the accuracy of the cash control number log is verified. However, such procedures, which include monitoring deleted cash control numbers and removing the ability to delete cash control numbers, were not performed until we made inquiries after the current audit period.

Proper segregation of duties for user access in the MMIS should separate duties involving the recording and deletion of receipts and modification of accounts receivable records. If proper segregation of duties cannot be achieved, it is essential to document independent or supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated.

Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States and the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, provides that management should establish physical controls to periodically

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

compare vulnerable assets to control records; secure and safeguard vulnerable assets; and consider segregation of duties in designing control activity responsibilities so that incompatible duties are segregated and, where such segregation is not practical, design alternative control activities to address the risk.

Recommendation

The DSS through the MHD continue to restrict user access within the MMIS and adequately segregate duties related to record keeping and asset custody, or perform documented supervisory reviews of MMIS entries and changes.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2017-015.
Medicaid Physician-
Administered Drugs

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.778 Medical Assistance Program 2016-1605MO5MAP and 1605MO5ADM 2017-1705MO5MAP and 1705MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance
Questioned Costs:	\$242,656

As noted in a prior audit report,¹¹ the MHD did not establish controls to comply with Medical Assistance Program (Medicaid) requirements to invoice prescription drug manufacturers for rebates for certain physician-administered drugs. As a result, the MHD claimed costs of physician-administered drugs that were not allowable costs of the program because rebates were not billed for the drugs.

The Deficit Reduction Act of 2005 amended section 1927 of the Social Security Act to address rebates for physician-administered drugs, which are medications administered by a physician in an outpatient hospital setting. Effective January 2008, the Social Security Act, 42 USC Section 1396r-8(a)(7) requires states to capture drug utilization data using National Drug Codes (NDCs), for single-source and top-20 multiple-source drugs from the provider when the claim is submitted to the state. As required by 42 USC Section 1396r-8, NDCs are used to identify and bill the drug manufactures for rebates for applicable drug purchases. Federal regulation 42 CFR Section 447.520 prohibits federal reimbursement for physician-administered drugs for which the state has not required the submission of claims using NDCs to identify the drugs. Based on data from manufacturers, the Department of Health and Human Services - Centers for Medicare and Medicaid Services

¹¹ *State of Missouri Single Audit*, finding number 2015-010.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

(CMS) calculates a per-unit rebate amount states can bill for each drug administered. The states are required to report the applicable drug utilization information by NDC to the manufacturers and bill the manufacturers quarterly for the drug rebate amounts. States are required by 42 USC Section 1396r-8 to offset the Medicaid prescription drug claims by the rebate amounts.

Our state fiscal year 2015 audit reported many providers did not provide the required NDCs when they submitted physician-administered drug claims through the Medicaid Management Information System (MMIS), and the MHD had not modified the MMIS to deny claims that lacked this data. Subsequent audits found the MHD established controls to ensure claims include the required NDCs and are allowable Medicaid and Children's Health Insurance Program costs. However, our testing found these new controls and procedures were not implemented for certain physician-administered drug claims for participants of the Medicaid "Gateway to Better Health" waiver. In addition, the MHD did not recoup or reimburse the DHHS for some physician-administered drug claims the MHD identified as incorrectly submitted without the required NDCs.

- For the year ended June 30, 2017, the MHD paid \$239,540 for physician-administered drug claims submitted without NDCs for participants of the Medicaid "Gateway to Better Health" waiver. Because these claims lacked the required NDCs, the MHD could not bill the prescription drug manufacturers for rebates as required by federal regulations. Therefore, these claims were not allowable for federal reimbursement. We question the federal share, or \$151,437 (63.22 percent).
- MHD personnel identified some physician-administered drug claims, totaling \$144,152, incorrectly submitted as procedural claims (which do not include NDCs) from July through October 2016. The MHD identified the erroneous claims and modified the MMIS to prevent the submission of physician-administered drug claims as procedural claims, thereby ensuring NDCs are submitted as required. However, the MHD did not recoup these identified improper payments or reimburse the DHHS for the unallowable costs. We question the federal share, or \$91,219 (63.28 percent).

Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Such controls should ensure NDCs are collected for all physician-administered drug claims, prescription drug manufacturers are billed for rebates, and only allowable costs are

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

claimed for federal reimbursement. In addition, controls should be established to recoup and reimburse the DHHS for claims identified as noncompliant.

Recommendation

The DSS through the MHD continue to establish controls to ensure the required drug utilization data is obtained for all physician-administered drug claims and claim only allowable costs for the Medicaid. These controls should include procedures to recoup and reimburse the DHHS for claims identified as noncompliant.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

Regarding the first bullet point in the finding, the DSS's Corrective Action Plan (CAP) states the DSS disagrees with the finding because physician-administered drug claims for the Medicaid "Gateway to Better Health" waiver are reimbursed by an alternate payment methodology established at 100 percent of Medicare rates, in accordance with federally-approved terms and conditions. Because Medicare does not collect drug rebates, the DSS contends the NDCs are not included on claims and rebates are not billed. However, in our review of documents provided by the DSS supporting this position, the DSS could not demonstrate the drug rebate requirement does not apply to this waiver program. Therefore, this finding is still valid.

Regarding the second bullet point in the finding, the CAP indicates no disagreement with the finding, but states the DSS disagrees with our recommendation to recoup and reimburse the DHHS for claims identified as noncompliant. The MHD determined it would not be cost-effective to require the collection of the NDCs for the small amount of these claims. Because the MHD did not recoup or reimburse the DHHS for the claims incorrectly submitted without the required NDCs, this finding is still valid.

2017-016.
Medicaid Aged, Blind, and
Disabled Eligibility

Federal Agency:	Department of Health and Human Services
Federal Program:	93.778 Medical Assistance Program 2016 - 1605MO5MAP and 1605MO5ADM 2017 - 1705MO5MAP and 1705MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)
Type of Finding:	Internal Control (Significant Deficiency)

As similarly noted in our prior three audit reports,¹² the DSS does not ensure monthly supervisory call reviews are completed as required for call center employees who perform eligibility determinations for aged, blind, and

¹²State of Missouri Single Audit, finding numbers 2016-005, 2015-012A, and 2014-013A.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

disabled individuals in the Medical Assistance Program (Medicaid). The MO HealthNet for the Aged, Blind and Disabled (MHABD) are Medicaid-funded programs administered by the MHD. Approximately 236,000 of the approximately 1 million Medicaid participants as of June 30, 2017, were MHABD participants.

FSD eligibility specialists (ES) located in processing centers and call centers, and their supervisors, are responsible for determining the eligibility of MHABD participants. Call center ES receive calls and provide support for various DSS programs, including performing eligibility determinations for some MHABD participants. FSD officials estimated 10 percent of the 570 ES working in call centers perform eligibility determinations. Call center supervisors are required to perform monthly supervisory reviews of calls to ensure compliance with federal eligibility requirements and to verify information is properly and accurately entered into the Family Assistance Management Information System (FAMIS). On January 1, 2016, the DSS issued a policy requiring call center supervisors to complete 4 reviews of calls handled by each ES monthly. The results of the supervisory reviews are used to train ES.

We sampled 60 call center ES¹³ to test the DSS's call review control and compliance with DSS policy. We randomly selected 1 month for each call center ES sampled. Documentation was not maintained to support required supervisory call reviews for 29 of 60 (48 percent) ES reviewed. Figure 1 shows the number of supervisory call reviews performed in the month selected for the 60 call center ES tested.

Figure 1: Number of ES supervisory call reviews during the month tested

¹³ We selected the sample from the population of all call center ES instead of from the population of call center ES who perform eligibility determinations because the DSS does not maintain a list of ES who perform eligibility determinations.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

DSS officials indicated reviews were likely performed as required, but documentation of some reviews could not be located due to supervisor turnover and the lack of a record retention policy. Supervisors were responsible for keeping records of reviews they performed, and the DSS did not monitor the process to ensure records were maintained. Without documentation, it is unclear if the reviews had actually been performed.

Federal regulation 2 CFR Section 200.303 requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." When supervisory call reviews are not performed as required, the department's established controls to ensure compliance with eligibility requirements are diminished, and there is decreased assurance eligibility determinations are accurate and an increased risk of errors going undetected. To demonstrate and ensure internal controls are effective, supervisory call reviews should be documented and monitored for compliance with DSS policy.

Recommendation

The DSS through the MHD and the FSD ensure supervisory call reviews are performed and documented as required by DSS policy.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

**2017-017.
Medicaid Developmental
Disabilities -
Comprehensive Waiver Per
Diem Rates**

Federal Agency:	Department of Health and Human Services
Federal Program:	93.778 Medical Assistance Program 2016-1605MO5MAP and 1605MO5ADM 2017-1705MO5MAP and 1705MO5ADM
State Agency:	Department of Mental Health (DMH) - Division of Developmental Disabilities (DD)
Type of Finding:	Noncompliance
Questioned Costs:	\$416,966

As noted in our prior two audit reports,¹⁴ the DD did not retain documentation to support the per diem rates paid to some providers for residential habilitation services provided to participants of the Home and Community Based Services (HCBS), Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program. As a result, the DD could not demonstrate amounts paid to some providers were allowable costs of the Comprehensive Waiver Program.

¹⁴ State of Missouri Single Audit, finding numbers 2016-006 and 2015-015.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

The DD with its 11 regional offices is responsible for the direct administration of various Medical Assistance Program (Medicaid)-funded HCBS programs for children and adults with disabilities, including the Comprehensive Waiver program. Various types of services are allowed under the waiver, including residential habilitation services provided to 1,848 participants in group homes and 4,713 participants served by individualized supported living (ISL) providers during the year ended June 30, 2017. Residential habilitation services include care, supervision, and skills training in activities of daily living, home management, and community integration. Providers are paid a per diem rate for each participant receiving these services, based on the individual's needs. Certain costs, such as room and board, are not allowed to be included in per diem rates under the waiver program.

Prior to October 2013, residential habilitation services per diem rates were established for all providers (historical per diem rates); however, the DD did not retain documentation of how these rates were determined or what costs were included in the rates. In October 2013, the DD began implementation of a new acuity-based system for establishing individualized per diem rates for each participant based on various factors including the participant's rate allocation score, which measures participant needs and market-based costs of services. To address prior audit findings regarding unsupported historical per diem rates, in December 2016, the DMH received a residential rate study from an outside vendor with updated acuity-based per diem rates. These updated rates are being phased in to replace existing acuity-based and historical per diem rates. The DD officials indicated the updated rates should be mostly implemented within the next few years. For participants that received residential habilitation services during the year ended June 30, 2017, DD officials indicated the DMH paid acuity-based per diem rates for approximately half the participants and historical per diem rates for the other half. During the year ended 2017, per diem payments for group home services totaled approximately \$143 million, and per diem payments for ISL services totaled approximately \$490 million.

To test compliance with various Comprehensive Waiver program requirements, we tested 60 payments to service providers during the year ended 2017. Of these 60 payments, 34 were to ISL providers and 15 were to group homes for habilitation services. The DD did not retain documentation to support per diem rates, paid at historical rates, for 7 of the 34 ISL habilitation service payments tested. The only documentation retained by the DD was the cost of living allowance (COLA) notices supporting some per diem rate increases. These notices did not support the various costs included in the per diem rates, and the DD did not retain documentation to support the original rates. The remaining 27 ISL and 15 group home payments were based on acuity-based per diem rates or historical rates that were less than or equal to acuity-based rates. Payments to providers for habilitation services provided to the 7 participants during the year ended June 30, 2017, for which the

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

historical per diem rates were not supported or exceeded acuity-based rates, totaled \$663,641. We question the federal share, or \$416,966 (62.83 percent).

Audits performed by the federal Department of Health and Human Services (DHHS) - Office of Inspector General (OIG), *Missouri Claimed Unallowable and Unsupported Medicaid Payments for Group Home Habilitation Services*, released in August 2015, and *Missouri Claimed Unallowable and Unsupported Medicaid Payments for Individualized Supported Living Habilitation Services*, released in March 2016, noted similar concerns with unsupported per diem rates for some group home payments and noted some ISL payments included unapproved and unallowable costs. The DHHS-OIG audits also determined several per diem rates that were supported by adequate documentation included room and board costs, which are not allowable under the Comprehensive Waiver program.

Without proper documentation of the payment rates, the DD cannot demonstrate that payments based on these rates are proper and only include allowable costs. Federal regulation 42 CFR Section 447.203(a) states "The agency must maintain documentation of payment rates. . . ." Federal regulation 2 CFR Section 200.403(g) states costs must be adequately documented to be allowable. Also, the approved DD Comprehensive Waiver Program Application, Appendix I: Financial Accountability, section I-2(e), states "Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of the waiver services for a minimum period of 3 years as required in 45 CFR [section] 92.42." Adequate documentation of habilitation services per diem rates is necessary to ensure compliance with the federal requirements related to the Comprehensive Waiver program and to ensure only allowable costs are included in the per diem rates.

Recommendation

The DMH through the DD ensure documentation to support habilitation services per diem rates is maintained to support Comprehensive Waiver program payments for these services as required, and ensure the rates only include allowable costs.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DMH Corrective Action Plan states the DMH disagrees with the finding because the OIG, in the audit released in March 2016, accepted the ISL budgets supporting the historical rates reviewed as sufficient documentation to support the per diem rates. However, as noted in our audit finding, the documentation provided by the DMH to support the rates for the 7 payments in question during our audit did not show how those rates were determined or what costs were included in the rates. Federal regulations require such

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

documentation. During the audit, DMH officials confirmed they had not retained documentation to support the various costs included in the original per diem rates for these 7 payments; therefore, this finding remains valid.

**Additional State Auditor's
Reports**

The Missouri State Auditor's Office regularly issues audit reports on various programs, agencies, and divisions of the state of Missouri. Audit reports may include issues relating to the administration of federal programs. We reviewed the reports issued from April 2017 to March 2018 and noted there were no reports that relate to a federal program and were required to be reported in the Schedule of Findings and Questioned Costs in accordance with the Uniform Guidance.

State of Missouri - Single Audit

Summary Schedule of Prior Audit Findings

Year Ended June 30, 2017

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The Uniform Guidance requires the auditor to follow up on prior audit findings; perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and report, as a current year audit finding, when the auditor concludes the schedule materially misrepresents the status of any prior audit finding.

Director

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The Schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The attached documents are the Summary Schedule of Prior Audit Findings for the year ended June 30, 2017, and includes all findings from the audit for the Fiscal Years ended June 30, 2016, and certain similar findings from the audits for the Fiscal Years ended June 30, 2015, 2014, 2013, 2012, 2011, and 2010.

These documents were prepared by the applicable State agencies as noted with each prior year finding.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2017

2016-001. Child Care Provider Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.575 Child Care and Development Block Grant
 93.596 Child Care Mandatory and Matching Funds of the Child Care
 and Development Fund
State Agency: Department of Social Services (DSS) - Children's Division (CD) and
 Family Support Division (FSD)
Questioned Costs: \$15,145 (2016)
Similar Findings: 2015-003, 2014-006, and 2013-010

The DSS did not have adequate controls and procedures in place to ensure "four-or-less" (FOL) child care providers participating in the Child Care Development Fund (Child Care) subsidy program complied with statutory requirements for license-exempt status. For most children reviewed, DSS employees did not follow the department's recently revised procedures to ensure FOL providers do not care for more than four unrelated Child Care subsidy children. As a result, the DSS classified the children as related to their FOL child care providers and made Child Care subsidy payments to the providers without obtaining the required documentation to support the relationships.

Recommendation:

The DSS through the CD and the FSD improve controls and procedures to ensure clients and FOL child care providers participating in the Child Care subsidy program comply with DSS policy and FOL providers comply with state licensing requirements.

Status of Findings:

The FSD receives a daily report that lists all 4-or-less authorizations from the day before. A supervisor at the Temporary Assistance/Child Care Processing Center corrects any case actions that are not completed following correct policy and/or documentation is not adequate. This list is sent to all managers on a weekly basis to share findings. FSD also keeps a master list to track if a particular office or Eligibility Specialists has a training need and advise the manager of these findings. FSD will continue to monitor to ensure policy is followed.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2017

2016-002A. Child Care Eligibility and Payments

Federal Agency: Department of Health and Human Services
Federal Program: 93.575 Child Care and Development Block Grant
93.596 Child Care Mandatory and Matching Funds of the Child Care
and Development Fund
State Agency: Department of Social Services (DSS) - Children's Division (CD), Family
Support Division (FSD), and Division of Finance and Administrative
Services
Questioned Costs: \$5,100 (2016)
Similar Findings: 2015-002, 2014-005, 2013-009, 2012-11A&B, 2011-14A, and 2010-16A

The DSS controls over Child Care Development Fund (Child Care) subsidy eligibility and provider payments were not sufficient to prevent and/or detect payments made on behalf of ineligible clients or improper payments to child care providers. Payments were made on behalf of some ineligible clients and overpayments were made to some providers.

Recommendation:

The DSS through the CD and the FSD, continue to review, strengthen and enforce policies and procedures regarding Child Care subsidy eligibility determinations, authorizations, and provider payments. These procedures should include sufficient monitoring of eligibility determinations, authorizations, and provider payments, and follow-up on errors identified.

Status of Findings:

The DSS continues to review and strengthen policies and procedures regarding child care eligibility determinations and child and provider payments.

The updated eligibility and authorization manual outlines changes that will eliminate the error for a client to be over-authorized because of a change in status through the eligibility period.

FSD began to follow the new process outlined in Memorandum OEC-6 for case review actions completed in April and May 2017. Monitoring is in place to ensure objectives are met and areas of strength or deficiency are addressed. Targeted reviews completed in April and May were evaluated and identified a training need. FSD training created an online training course that was to be completed by all staff who determine childcare eligibility. FSD continues to follow the processes outlined in Memorandum OEC-6 for case reviews.

To address documentation for payments to child care providers, the DSS issued a contract for an electronic time and attendance system on September 28, 2017.

Summary Schedule of Prior Audit Findings
Year Ended June 30, 2017

2016-002B. Child Care Eligibility and Payments

Federal Agency: Department of Health and Human Services
Federal Program: 93.575 Child Care Development Block Grant
 93.596 Child are Mandatory and Matching Fund of the Child Care
 and Development Fund

State Agency: Department of Social Services (DSS) - Children's Division (CD), Family
 Support Division (FSD), and Division of Finance and Administrative
 Services

The DSS' procedures to follow up on provider non-compliance identified during Child Care Review Team (CCRT) reviews were not sufficient. For some follow up reviews, the CCRT determined the providers continued to be non-compliant and received overpayments; but took no further action to address the continued non-compliance, such as requiring the provider to implement corrective action or conducting another follow-up review.

Recommendation:

The DSS through the CD, establish procedures to address continued provider non-compliance identified during CCRT reviews.

Status of Finding:

The CD has promulgated rules to address new child care provider requirements. CD will be reviewing its processes for follow up with CCRT regarding compliance issues noted during reviews to ensure child care providers are held accountable to comply with their contracts.

2016-003A. MO HealthNet Division Provider Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
 and Missouri Medicaid Audit and Compliance (MMAC)

The DSS did not fully implement federal revalidation requirements for providers participating in the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). The DSS had significant backlogs of provider revalidations that had not been completed as required.

Recommendation:

The DSS through the MHD and the MMAC ensure Medicaid and CHIP provider revalidations are completed every 5 years as required.

Status of Finding:

DSS has revalidated 12,170 providers out of 32,521 requiring revalidation per 42 CFR 455.414. The providers that have gone through the revalidation process thus far have shown zero instances of any improper billing. MMAC has had numerous communications with CMS regarding this issue and has a timeline in place by which to complete all enrolled provider revalidations. MMAC will have all revalidations done and up to date on a rotational five year schedule by December 31, 2019.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2017

2016-003B. MO HealthNet Division Provider Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
and Missouri Medicaid Audit and Compliance (MMAC)

The DSS did not timely review and follow up on Missouri Division of Professional Registration provider reports to determine if the providers continued to meet licensure requirements and remained eligible to participate in the Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP). The DSS had significant backlogs of identified provider licensure issues that had not been reviewed.

Recommendation:

The DSS through the MHD and the MMAC timely review and follow up on reports of identified provider licensure issues to ensure Medicaid and CHIP providers remain eligible to receive program payments.

Status of Finding:

DSS did follow up on the reports provided by Professional Registration during the audit period. DSS was not notified by Professional Registration of 14 providers with expired licenses and had begun the termination process for another 21 of the providers. The remaining providers had minor keying errors in MMIS which resulted in their being missed in the review process.

The risk that an improper payment will be made to a pharmacy with an expired license is mitigated significantly because Professional Registration is also monitoring expired licensees to ensure they are no longer operating. As noted in the audit, no payments were made to the 39 pharmacies with expired licenses.

MMAC is working with the MMIS Vendor and one of their subcontractors to receive more detailed screening and monitoring results on the licenses for applying or enrolled health care providers.

DSS continues to allocate its scarce resources to most effectively ensure the integrity of the Medicaid/CHIP program.

2016-004A. MO HealthNet Division Receipt Controls

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
Similar Finding: 2015-009A

The MHD's reconciliations of cash control numbers to deposits and monies on hand were not sufficient to account for all cash control numbers to ensure all Medical Assistance Program and Children Health Insurance Program monies received were properly deposited or returned to senders.

Recommendation:

The DSS through the MHD continue to review, strengthen, and enforce controls to ensure all receipts are deposited or returned to senders.

Status of Findings:

MHD current procedures account for monies received daily through established processes in order to ensure all receipts are properly accounted for. Additional policies have been instituted to ensure that cash control numbers are not deleted, and accuracy of the cash control number log is verified.

2016-004B. MO HealthNet Division Receipt Controls

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
Similar Finding: 2015-009B

The MHD did not restrictively endorse money orders immediately upon receipt.

Recommendation:

The DSS through the MHD establish controls to restrictively endorse money orders immediately upon receipt.

Status of Findings:

MHD's policy is to wait one business day before endorsing all money orders. As stated in previous audits, money orders when endorsed must be deposited. On average five money orders a day are returned to the sender. If MHD endorses the money order without review, a refund check would need to be issued for money orders received in error. This would further elongate the process of financial restoration to the most in need citizens of the state.

2016-004C. MO HealthNet Division Receipt Controls

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
Similar Finding: 2015-009C

The MHD did not adequately restrict user access within the cash receipts and accounts receivable modules of the Medicaid Management Information System (MMIS).

Recommendation:

The DSS through the MHD restrict user access within the MMIS and adequately segregate duties related to record keeping and asset custody, or ensure documented supervisory reviews of MMIS entities and changes are performed.

Status of Findings:

MHD has segregation of duties and user access is restricted on varying levels for the Account Clerks, Medicaid Clerks and Accountant I's in the unit. Only the Accountant III and Fiscal Band Manager or Supervisor of the unit has full access. Full access for these roles is needed to ensure operations continue to function timely in the event of absences and turnover. A Medical Management Information Systems report has been and will be regularly ordered and reviewed identifying any instances where transactions were entered and approved by an individual.

2016-005. Medicaid Aged, Blind and Disabled Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
 and Family Support Division (FSD)
Similar Findings: 2015-012A and 2014-013A

The DSS did not ensure monthly supervisory case reviews for MO HealthNet for the Aged, Blind, and Disabled (MHABD) participants were completed as required.

Recommendation:

The DSS through the MHD and the FSD follow established DSS policy to ensure monthly supervisory case reviews of MHABD cases are performed.

Status of Findings:

In order to ensure case reviews are regularly completed and to assure eligibility determinations are accurate, FSD issued policy EMAIL-IM-#67 Memorandum, repealing Memorandum IM-43 (2006). The revision requires an average of 24 targeted case reviews per supervisor who supervise eligibility specialists that determine eligibility to be completed, instead of 4 full reviews per ES, effective November 1, 2016.

Between November 1, 2016 and June 30, 2017, FSD MHABD supervisors completed an average of 24 MHABD case reviews per month.

The FSD continues to monitor MHABD case review completion to ensure case reviews are completed as directed by EMAIL IM-#67.

Summary Schedule of Prior Audit Findings
Year Ended June 30, 2017

2016-006. Medicaid Development Disabilities Comprehensive Waiver Group Home Rates
Federal Agency: Department of Health and Human Services
Federal Program: 93.778 Medical Assistance Program
State Agency: Department of Mental Health (DMH) - Division of Developmental Disabilities (DD)
Questioned Costs: \$937,867 (2016)
Similar Finding: 2015-015

The DD did not retain documentation to support per diem rates paid to some group homes for residential habilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Waiver (Comprehensive Waiver) program. As a result, the DD could not demonstrate amounts paid to some group homes were allowable costs of Comprehensive Waiver program.

Recommendation:

The DMH through the DD ensure documentation to support group home habitation services per diem rates is maintained to support Comprehensive Waiver program payments for these services as required, and ensure the rates only include allowable costs.

Status of Findings:

Since moving to an acuity-based rate methodology in FY 2014, the Division has updated the Comprehensive Waiver upon renewal in July 2016 and has obtained a rate study from Mercer in December 2016, which demonstrates the gap between existing rates paid and market costs. The Division is in the process of formalizing its rate methodology in the Code of State Regulations and no longer negotiates cost-based rates. New individuals placed in group homes follow the new rate methodology and the Division has developed funding proposals that would standardize existing rates.

State of Missouri - Single Audit
Letter to the Office of Administration Regarding Comprehensive
Annual Financial Report Audit Delays
Year Ended June 30, 2017

NICOLE GALLOWAY, CPA
Missouri State Auditor

January 16, 2018

Ms. Sarah Steelman, Commissioner
Office of Administration
State Capitol Building
201 W. Capitol Avenue, Room 125
Jefferson City, MO 65101

Dear Commissioner Steelman:

As previously communicated to your staff, we continue to experience delays in issuing our opinion on the state's Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2017. These delays result from our audit of the significant accounts of the Unemployment Compensation Fund, a major fund administered by the Department of Labor and Industrial Relations (DOLIR). Throughout the course of the audit, our DOLIR audit crew has experienced numerous delays of information requests, inaccurate reports, incorrect data, and other issues which have caused delays in finalizing audit fieldwork related to the Unemployment Compensation Fund. These issues appear to be to the result of weaknesses in the DOLIR's policies and procedures over financial reporting associated with the implementation of the new UInteract system.

As of today, there are still some outstanding issues our DOLIR audit crew is working with DOLIR staff to resolve. We will issue our opinion on the CAFR once these outstanding issues are resolved and we can assure ourselves the significant accounts of the Unemployment Compensation Fund are materially accurate.

If you have any questions, please contact Josh Allen, Audit Manager, at 573-751-4213.

Sincerely,

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain Audit
Acknowledgments and Representations
Year Ended June 30, 2017

NICOLE GALLOWAY, CPA
Missouri State Auditor

February 6, 2018

Director Carol Comer
Department of Natural Resources
1101 Riverside Drive
Jefferson City, MO 65102

Dear Director Comer:

I wanted to follow-up again as an office to determine whether the Department of Natural Resources (DNR) is intending to sign and return the Single Audit engagement letter and the Schedule of Expenditures of Federal Awards management representation letter. Government Auditing Standards require that we have these letters before we can issue an opinion on the programs.

This year's Single Audit contains two major programs under DNR's purview.¹ As is standard practice, DNR is billed for the audit of these programs, DNR has appropriation authority to pay for these programs, and DNR is reimbursed for the cost of the audit from the federal government. SAO covers the state portion of the cost to audit out of current appropriations.

The engagement letter was discussed with your staff in November 2017 and provided to DNR on November 29, 2017. SAO staff have inquired about the status of this letter with your staff multiple times since November 29th, expressing our concern with the unnecessary delay. Additionally, over the last few weeks, SAO staff have attempted to reach out to you directly by contacting your office. We have been able to confirm that you have the letter in your possession, but you have yet to sign it.

Along with the engagement letter, I am also inquiring about the status of the management representation letter for the Schedule of Expenditures of Federal Awards, which is part of the Single Audit. DNR had possession of this letter on December 20, 2017. We received a verbal commitment from DNR staff that the Department will be signing the letter but as of today have yet to receive confirmation that this occurred.

¹ The two major programs being audited this year are: (1) CFDA #66.458 Capitalization Grants for Clean Water State Revolving Funds; and (2) CFDA #66.605 Performance Partnership Grants.

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

We have significant concerns with the delays we are experiencing. DNR is the only state agency that has not returned the engagement letter and we are nearing completion of the audit. This is the second year in a row that we have experienced significant delays. We work with the Office of Administration to closely coordinate the release of both the CAFR and the Single Audit, and it is incumbent upon departments to timely sign engagement and management representation letters in order to ensure SAO's work is complete.

As a courtesy, the engagement letter and management representation letter are again attached. I ask that you respond by Friday February 9th concerning whether you intend to sign these documents. If you are going to sign, please return them by Friday February 16, 2018.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael A. Moorefield", is written over a horizontal line.

Michael A. Moorefield
Chief of Staff and Counsel

cc: Commissioner Sarah Steelman, Office of Administration

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

NICOLE GALLOWAY, CPA
Missouri State Auditor

November 29, 2017

Carol S. Comer, Director
Department of Natural Resources
1101 Riverside Drive
Post Office Box 176
Jefferson City, MO 65102-0176

Dear Director Comer,

This letter, when returned with your approval, will confirm the audit services we are to provide the Department of Natural Resources for the year ended June 30, 2017. This audit is a part of the Statewide Single Audit of the State of Missouri.

Audit Objectives

An objective of our audit is the expression of an opinion about whether the State of Missouri's Schedule of Expenditures of Federal Awards (SEFA) is fairly presented, in all material respects, in relation to the financial statements presented in the Comprehensive Annual Financial Report as a whole. The objectives also include reporting on internal control over compliance related to major federal award programs and an opinion (or disclaimer of opinion) on compliance with federal statutes, regulations, and terms and conditions of federal awards that could have a direct and material effect on each major federal award program in accordance with the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). It is our responsibility to determine the state's major federal award programs using risk assessment criteria and other guidance included in the Uniform Guidance.

The report on internal control over compliance will include a paragraph that states that the purpose of the report on internal control over compliance is solely to describe the scope of testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. The paragraph will also state that the report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, the report is a matter of public record and its distribution is not limited.

Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the Single Audit Act Amendments of 1996; and the provisions of the Uniform Guidance, and will include tests of the accounting records of major federal award programs and other procedures we consider necessary to enable us to express an opinion. We will issue written reports upon completion of our audit. Our reports will be addressed to the Governor and members of the General Assembly. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions or add emphasis-of-matter or other-matter paragraphs. If our opinion on the SEFA or our opinion on compliance is other than unmodified, we will discuss the reasons with you in advance.

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

Audit Procedures – General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the SEFA; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the SEFA. We will plan and perform the audit to obtain reasonable, rather than absolute, assurance about whether the SEFA is free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or government regulations that are attributable to the agency or to acts by management or employees acting on behalf of the agency. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements or noncompliance may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the SEFA or on the major federal award programs. However, we will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential, and of any material abuse that comes to our attention. Our responsibility as auditors is limited to the period covered by our audit and does not extend to later periods which we are not auditing.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representations from your attorneys as part of the audit. At the conclusion of our audit, we will request certain written representations from you about your responsibilities for the SEFA; federal award programs; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by general accepted auditing standards.

Audit Procedures – Internal Control

Our audit will include obtaining an understanding of the agency and its environment, including internal control, sufficient to assess the risks of material misstatement of the SEFA and to design the nature, timing, and extent of further audit procedures. As required by the Uniform Guidance, we will perform tests of controls over compliance to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each major federal award program. However, our tests will be less in scope than would be necessary to render an opinion on those controls and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to the Uniform Guidance.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards, *Government Auditing Standards*, and the Uniform Guidance.

Audit Procedures – Compliance

The Uniform Guidance requires that we plan and perform the audit to obtain reasonable assurance about whether the agency has complied with applicable federal statutes, regulations, and the terms and conditions of federal awards. Our procedures will consist of tests of transactions and other applicable

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

procedures described in the *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each major federal award program. The purpose of those procedures will be to express an opinion on the department's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Management Responsibilities

Management is responsible for (1) establishing and maintaining effective internal controls, including internal controls over federal awards, and for evaluating and monitoring ongoing activities to help ensure that appropriate goals and objectives are met; (2) following laws and regulations; (3) ensuring that there is reasonable assurance that government programs are administered in compliance with compliance requirements; and (4) ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles; for the preparation and fair presentation of the SEFA of the Department of Natural Resources in conformity with U.S. generally accepted accounting principles; and for compliance with applicable laws and regulations (including federal statutes) and the provisions of contracts and grant agreements (including award agreements).

Management is also responsible for making all program financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the SEFA, (2) access to personnel, accounts, books, records, supporting documentation, and other information as needed to perform an audit under the Uniform Guidance, (3) additional information that we may request for the purpose of the audit, and (4) unrestricted access to persons with the agency from whom we determine it necessary to obtain evidence.

Your responsibilities also include identifying significant contractor relationships in which the contractor has responsibility for program compliance and for the accuracy and completeness of that information.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the agency involving: (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the SEFA. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the agency and received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the agency complies with applicable laws, regulations, contracts, agreements, and grants. Management is also responsible for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements, or abuse that we report. Additionally, as required by the Uniform Guidance, it is management's responsibility to evaluate and monitor noncompliance with federal statutes, regulations, and the terms and conditions of federal awards; take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings; promptly follow up and take corrective action on reported audit findings; and prepare a summary schedule of prior audit findings and a separate corrective action plan.

You are responsible for identifying all federal awards received and understanding and complying with the compliance requirements and for the preparation of the SEFA (including notes and noncash assistance received) in conformity with the Uniform Guidance. Your responsibilities include acknowledging to us in the written representation letter that (1) you are responsible for the presentation of the SEFA in accordance with the Uniform Guidance; (2) you believe the SEFA, including its form and content, is stated fairly in accordance with the Uniform Guidance; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the SEFA.

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits, or other studies related to the objectives discussed in the **Audit Objectives** section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation, engagements, performance audits, or studies. You also are responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions for the report, and the timing and format for providing that information. You are responsible for submitting a corrective action plan to the OA timely to ensure the Statewide Single Audit deadline can be met.

Audit Administration, Fees, and Other

At the conclusion of the audit, the information for your agency will be added to our Statewide Single Audit report which is required to be submitted to the federal government by March 31, 2018. We will also complete the appropriate sections of the Data Collection Form that summarizes our audit findings for the State of Missouri. The Office of Administration (OA) is responsible for submitting the reporting package (including financial statements, the Statewide Single Audit report, and corrective action plans) along with the Data Collection Form to the federal audit clearinghouse by the above deadline. We will coordinate with the OA the electronic submission and certification.

The Statewide Single Audit report is intended for the information and use of the management of the state of Missouri; federal awarding agencies, pass-through entities, and federal auditing agencies; and other applicable government officials. However, pursuant to Section 29.200, RSMo, the report will be a matter of public record and its distribution will not be limited. Audit working papers are considered closed records; however, access to those working papers may be made available as necessary to federal awarding or oversight agencies when deemed appropriate by the Office of Missouri State Auditor.

For our services relating to the federal audit work required by the Single Audit Act Amendments of 1996 and the Uniform Guidance, we will request payment be made from funds received by your agency from federal sources. We estimate the federal share of the cost for our services to be approximately \$80,700. This billing does not include audit services related to the Parks Sales Tax and Soil and Water Sales Tax funds, which are paid from State Auditor's Office appropriations from those funds. Should unforeseen circumstances develop during our audit, you request additional services, or significant delays occur in obtaining requested documentation, we will discuss the situation with you, and if necessary, we will bill you for the additional costs. We will request payment of 90 percent of our fee when fieldwork on federal audit work is complete. We will bill the remainder after the audit report is delivered.

If the contents of this letter are acceptable to you, please acknowledge by signing in the space provided and returning it to us. If you have any questions, please contact Wayne Kauffman of my office at 751-4213.

Sincerely,

Kim Spraggs, CPA
Assistant Director of Audits

ACCEPTED BY: _____
(Name and title)

DATE: _____

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

[Date of CAFR Audit Report]

Honorable Nicole R. Galloway
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

Dear Ms. Galloway:

This representation letter is provided in connection with your audit of the federal awards administered by the Department of Natural Resources, which is part of the Statewide Single Audit of the State of Missouri for the year ended June 30, 2017.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of **(Date of CAFR Audit Report)**, the following representations made to you during your audit.

Schedule of Expenditures of Federal Awards (SEFA)

1. We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter dated November 29, 2017, including our responsibility for the preparation and fair presentation of the SEFA.
2. The SEFA is fairly presented in conformity with the accounting basis required by the federal agency.
3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the SEFA that is free from material misstatement, whether due to fraud or error.
4. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
5. Significant assumptions we used in making accounting estimates, including those measured at fair value, are reasonable.

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

6. Related party relationships and transactions have been appropriately accounted for and disclosed.
7. Adjustments or disclosures have been made for all events, including instances of noncompliance, subsequent to June 30, 2017, that would require adjustment to or disclosure in the SEFA or in the Schedule of Findings and Questioned Costs.
8. The effects of all known actual or possible litigation, claims, and assessments have been accounted for and disclosed.
9. Guarantees, whether written or oral, under which the department is contingently liable, if any, have been properly recorded or disclosed.

Information Provided

10. We have provided you with:
 - a. Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the SEFA, such as records, documentation, and other matters and all audit or relevant monitoring reports, if any, received from funding sources.
 - b. Additional information that you have requested from us for the purpose of the audit.
 - c. Unrestricted access to persons within the department from whom you determined it necessary to obtain audit evidence.
11. All material transactions have been recorded in the accounting records and are reflected in the SEFA.
12. We have disclosed to you the results of our assessment of the risk that the SEFA may be materially misstated as a result of fraud.
13. We have no knowledge of any fraud or suspected fraud that affects the department and involves:
 - a. Management,
 - b. Employees who have significant roles in internal control, or
 - c. Others where the fraud could have a material effect on the SEFA.
14. We have no knowledge of any allegations of fraud or suspected fraud affecting the department's SEFA communicated by employees, former employees, regulators, or others.
15. We have no knowledge of instances of noncompliance or suspected noncompliance with provisions of laws, regulations, contracts, or grant agreements, or abuse, whose effects should be considered when preparing the SEFA.

State of Missouri - Single Audit
First Letter to the Department of Natural Resources Regarding Certain
Audit Acknowledgments and Representations
Year Ended June 30, 2017

16. We have disclosed to you all known actual or possible litigation, claims, and assessments whose effects should be considered when preparing the SEFA.
17. The department has no plans or intentions that may materially affect the carrying value or classification of assets, liabilities, or equity.
18. We have identified and disclosed to you all instances that have occurred or are likely to have occurred, of fraud and noncompliance with provisions of laws and regulations that we believe have a material effect on the state's financial statements or other financial data significant to the audit objectives, and any other instances that warrant the attention of those charged with governance.
19. We have identified and disclosed to you all instances, which have occurred or are likely to have occurred, of noncompliance with provisions of contracts and grant agreements that we believe have a material effect on the determination of financial statement amounts or other financial data significant to the audit objectives.
20. We have identified and disclosed to you all instances that have occurred or are likely to have occurred, of abuse that could be quantitatively or qualitatively material to the financial statements or other financial data significant to the audit objectives.
21. There are no violations or possible violations of laws, regulations, provisions of contracts and grant agreements whose effects should be considered for disclosure in the SEFA, or as a basis for recording a loss contingency, or for reporting on noncompliance.
22. The department has satisfactory title to all owned assets purchased with federal funds, and there are no unauthorized liens or encumbrances on such assets nor has any asset been pledged as collateral.
23. With respect to federal award programs:
 - a. We are responsible for understanding and complying with, and have complied with, the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), including requirements relating to preparation of the SEFA.
 - b. We have identified and disclosed to you all of our government programs and related activities subject to the Uniform Guidance compliance audit, and have identified and included in the SEFA, expenditures made during the audit period for all awards provided by federal agencies in the form of federal awards, federal cost-reimbursement contracts, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance.
 - c. We acknowledge our responsibility for presenting the SEFA and related notes in accordance with the requirements of the Uniform Guidance, and we believe the

State of Missouri - Single Audit

State of Missouri - Single Audit
Second Letter to the Department of Natural Resources Regarding the Compliance
Management Representation Letter
Year Ended June 30, 2017

NICOLE GALLOWAY, CPA
Missouri State Auditor

February 14, 2018

Director Carol Comer
Department of Natural Resources
1101 Riverside Drive
Jefferson City, MO 65102

Dear Director Comer:

This letter serves as additional communication regarding the compliance management representation letter for the Single Audit. Audit staff provided the letter to DNR staff on Thursday, February 8, 2018, and gave instructions for signing and returning the letter. Similar to the engagement letter and the management representation letter for the Schedule of Expenditures of Federal Awards, the compliance management representation letter contains written management representations necessary to provide our opinions on the two major programs audited at the DNR¹.

As discussed with your staff, the compliance management representation letter should be dated and signed as of the date of fieldwork completion for the overall Statewide Single Audit. At this time, our expected fieldwork completion is around March 9, 2018. Once the exact date is known, our staff will contact the DNR with the date for the letter.

As discussed with your staff, here is the timeline of expectations for the compliance management representation letter:

February 8, 2018 - DNR management review the letter and contact our office regarding any concerns with the contents of the letter. DNR management identify who will provide verbal communication to our office in early March (see below), and establish a plan to ensure the letter will be signed as of the letter date and submitted to the State Auditor's office.

Early March - Our staff will contact the DNR with the date for the letter. At that time, the DNR will be asked to provide oral confirmation that management has reviewed the representation letter and will sign the letter without exception, as of the date of the letter.

Letter Date - DNR management sign the letter and return it to our office within 1 week of the letter date.

¹ The two major programs being audited this year are: (1) CFDA #66.458 Capitalization Grants for Clean Water State Revolving Funds; and (2) CFDA #66.605 Performance Partnership Grants.

State of Missouri - Single Audit
Second Letter to the Department of Natural Resources Regarding the
Compliance Management Representation Letter
Year Ended June 30, 2017

Because the written representations contained in the letter are necessary to provide our audit opinions, and because we have a deadline under federal law for issuing the Single Audit report, it is critical that the DNR sign and return the compliance management representation letter in a timely manner. If the DNR does not provide the compliance management representation letter within 1 week of the letter date communicated by our staff, we will consider such action as the department's refusal to furnish the written representations, and will express our opinions accordingly.

As a courtesy, the compliance management representation letter is again attached.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael A. Moorefield", is written over a horizontal line.

Michael A. Moorefield
Chief of Staff and Counsel

cc: Commissioner Sarah Steelman, Office of Administration

State of Missouri - Single Audit
Second Letter to the Department of Natural Resources Regarding the
Compliance Management Representation Letter
Year Ended June 30, 2017

[Date of Single Audit Report]

Honorable Nicole R. Galloway
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

Dear Ms. Galloway:

This representation letter is provided in connection with your audit of the federal awards administered by the Department of Natural Resources, which is part of the Statewide Single Audit of the State of Missouri for the year ended June 30, 2017.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of [Date of Single Audit Report], the following representations made to you during your audit.

Information Provided

1. We have provided you with:
 - a. Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the SEFA, such as records, documentation, and other matters and all audit or relevant monitoring reports, if any, received from funding sources.
 - b. Additional information that you have requested from us for the purpose of the audit.
 - c. Unrestricted access to persons within the department from whom you determined it necessary to obtain audit evidence.
2. We have disclosed to you the identity of the department's related parties and all the related party relationships and transactions of which we are aware.

State of Missouri - Single Audit
Second Letter to the Department of Natural Resources Regarding the
Compliance Management Representation Letter
Year Ended June 30, 2017

3. We have made available to you all financial records and related data relative to the federal programs and all audit or relevant monitoring reports, if any, received from funding sources.
4. There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices relative to the federal programs.
5. We have identified to you any financial audits, attestation engagements, and other studies related to the audit objectives and whether related recommendations have been implemented.
6. We are responsible for compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to us.
7. We have identified and disclosed to you all instances that have occurred or are likely to have occurred, of fraud and noncompliance with provisions of laws and regulations that we believe have a material effect on the state's financial statements or other financial data significant to the audit objectives, and any other instances that warrant the attention of those charged with governance.
8. We have identified and disclosed to you all instances, which have occurred or are likely to have occurred, of noncompliance with provisions of contracts and grant agreements that we believe have a material effect on the determination of financial statement amounts or other financial data significant to the audit objectives.
9. We have identified and disclosed to you all instances that have occurred or are likely to have occurred, of abuse that could be quantitatively or qualitatively material to the financial statements or other financial data significant to the audit objectives.
10. There are no violations or possible violations of laws, regulations, provisions of contracts and grant agreements whose effects should be considered for disclosure in the SEFA, or as a basis for recording a loss contingency, or for reporting on noncompliance.
11. The department has satisfactory title to all owned assets purchased with federal funds, and there are no unauthorized liens or encumbrances on such assets nor has any asset been pledged as collateral.
12. With respect to federal award programs:
 - a. We are responsible for understanding and complying with, and have complied with, the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).
 - b. We are responsible for understanding and complying with, and have complied with, the requirements of federal statutes, regulations, and the terms and conditions of the federal awards and have identified and disclosed to you the requirements of

State of Missouri - Single Audit
Second Letter to the Department of Natural Resources Regarding the
Compliance Management Representation Letter
Year Ended June 30, 2017

federal statutes, regulations, and the terms and conditions of the federal awards that are considered to have a direct and material effect on the programs.

- c. We are responsible for establishing and maintaining, and have established and maintained, effective internal control over compliance for federal programs that provides reasonable assurance that we are managing the programs in compliance with federal statutes, regulations, and the terms and conditions of the federal awards that could have a material effect on the programs. We believe the internal control system is adequate and is functioning as intended.
- d. We have made available to you all federal awards (including amendments, if any) and any other correspondence with federal agencies or pass-through entities relevant to the programs and related activities.
- e. We have complied with the direct and material compliance requirements including when applicable, those set forth in the *OMB Compliance Supplement*, relating to the programs and confirm that there were no amounts questioned and no known noncompliance with the direct and material compliance requirements of federal awards.
- f. We have disclosed any communications from federal awarding agencies and pass-through entities concerning possible noncompliance with direct and material compliance requirements, including communications received from the end of the period covered by the compliance audit to the date of the auditor's report.
- g. We have disclosed to you the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the audit to the date of the auditor's report.
- h. Amounts claimed or used for matching were determined in accordance with relevant guidelines in OMB's Uniform Guidance (2 CFR part 200, subpart E).
- i. We have disclosed to you our interpretation of compliance requirements that may have varying interpretations.
- j. We have made available to you all documentation related to compliance with direct and material compliance requirements, including information related to program financial reports and claims for advances and reimbursements.
- k. We have disclosed to you the nature of any subsequent events that provide additional evidence about conditions that existed at the end of the reporting period affecting noncompliance during the reporting period.
- l. There are no such known instances of noncompliance with direct and material compliance requirements that occurred subsequent to the period covered by the auditor's report.
- m. No changes have been made in internal control over compliance or other factors that might significantly affect internal control, including any corrective action we

State of Missouri - Single Audit
Second Letter to the Department of Natural Resources Regarding the
Compliance Management Representation Letter
Year Ended June 30, 2017

have taken regarding significant deficiencies or material weaknesses in internal control over compliance, subsequent to the period covered by the auditor's report.

- n. The program financial reports and claims for advances and reimbursements are supported by the books and records from which the SEFA has been prepared.
- o. The copies of program financial reports provided you are true copies of the reports submitted, or electronically transmitted, to the respective federal agency or pass-through entity, as applicable.
- p. We have monitored subrecipients, as necessary, to determine that they have expended subawards in compliance with federal statutes, regulations, and the terms and conditions of the subaward and have met the other pass-through entity requirements of the Uniform Guidance.
- q. We have issued management decisions for audit findings that relate to federal awards made to subrecipients and such management decisions have been issued within six months of acceptance of the audit report by the Federal Audit Clearinghouse. Additionally, we have followed-up ensuring that the subrecipient has taken timely and appropriate action on all deficiencies detected through audits, on-site reviews, and other means that pertain to the federal award provided to the subrecipient.
- r. We have considered the results of subrecipient audits and made any necessary adjustments to our books and records.
- s. We have charged costs to federal awards in accordance with applicable cost principles.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the County Commission
and
Officeholders of Montgomery County

We have conducted follow-up work on certain audit report findings contained in Report No. 2016-125, *Montgomery County* (rated as Poor), issued in November 2016, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the county about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by county officials and held discussions with county officials to verify the status of implementation for the recommendations. Documentation provided by the county included bank statements, reconciliations, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during February 2018.

Nicole R. Galloway, CPA
State Auditor

Montgomery County

Follow-Up Report on Audit Findings

Status of Findings

- | | |
|------------------------------------|--|
| 1. Sales Tax Procedures | We identified various concerns related to county sales taxes. |
| 1.1 Capital improvements sales tax | Some capital improvement sales tax revenue was spent for purposes not allowable under state law. The county used capital improvement sales tax revenue to purchase equipment and other items that were not capital improvement-related costs and were not allowable purchases based on the ballot language. In addition, \$250,000 in loans made during 2013 from the Capital Improvements (CI) Fund to the General Revenue (GR) Fund had not been repaid. For the years ended December 31, 2015, and 2014, the county budgeted loan repayments of \$5,000; however, no loan repayments occurred. The county did not budget a loan repayment for the year ended December 31, 2016. |

Recommendation

The County Commission discontinue using capital improvement sales tax revenue for non-capital improvement related costs and repay the Capital Improvements Fund for loans made to the General Revenue Fund.

Status

In Progress

We reviewed 7 of the 66 expenditures for equipment, projects, and repair and maintenance paid from the CI Fund during 2017. Based on the expenditures reviewed, the County Commission is using capital improvement sales tax revenue for capital improvement-related costs. In 2016 and 2017, the County Commission made payments of \$10,000 each year from the GR Fund to the CI Fund to partially repay the loan. Another loan payment of \$10,000 is budgeted for 2018. Partial loan payments are being made because the county does not have sufficient monies available in the GR Fund to fully reimburse the CI Fund.

- | |
|--------------------------------------|
| 1.2 Reduction of property tax levies |
|--------------------------------------|

The county had not sufficiently reduced the property tax levy to offset 50 percent of sales tax monies received by approximately \$106,000 at December 31, 2015, and county officials did not accurately calculate property tax reduction amounts. As a result, increased property tax levy rollbacks will be required in future years to offset this liability.

Recommendation

The County Commission and the County Clerk properly calculate property tax rate reductions, adequately reduce property tax levies for 50 percent of sales tax revenue, and develop a plan to correct for the prior year's over collection of property taxes.

Status

Implemented

We reviewed the County Clerk's property tax rate reduction calculations for 2017. The calculations adequately reduced the property tax levy for 50 percent of sales tax revenue. In addition, the property tax levy for 2017 was reduced to recover the insufficient reduction amounts from previous years.

Montgomery County
Follow-up Report on Audit Findings
Status of Findings

1.3 Excess sales tax

The county had imposed 2 sales taxes, totaling 3/4-cent, which exceeded the statutory maximum allowed for general sales taxes per Section 67.547, RSMo, by 1/4-cent. The county received approximately \$265,000 from the excess sales tax during the year ended December 31, 2015. County records provided the following information:

- In November 1993, voters approved a 1/4-cent general sales tax under Section 67.547, RSMo. The GR Fund received approximately \$265,000 in 2015 from this tax. The sales tax was primarily used for operating the county-wide dispatch center and the tax does not have an expiration date.
- In February 2007, voters approved an additional 1/2-cent general sales tax under Section 67.547, RSMo. The GR Fund received approximately \$530,000 in 2015 from this tax. The sales tax was used for general operations of the county and was renewed by voters in April 2013. The sales tax has an expiration date of December 31, 2019.

Recommendation

The County Commission review the current sales taxes imposed, research the statutory requirements for current sales taxes, and determine an allowable sales tax statute to ensure sales tax levies do not exceed statutory limits prior to submitting any future sales tax proposals to voters for approval.

Status

Partially Implemented

The 1/2-cent general sales tax approved by voters in April 2013 under Section 67.547, RSMo, was, and continues to be, in excess of the statutory maximum. The passage of Senate Bill 49, First Regular Session, 99th General Assembly (2017), added a provision to Section 67.547.3, RSMo, that states beginning August 28, 2017, no county shall submit to the voters any proposal that results in a combined rate of sales taxes adopted under this section in excess of one percent. This provision increased the statutory maximum allowed for general sales taxes per Section 67.547, RSMo, by 1/2-cent, for proposals submitted after August 28, 2017. The County Commissioners indicated they followed the progress of this legislation during 2017 and determined no further action is necessary until submitting future sales tax proposals to voters for approval.

2. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office needed improvement.

2.1 Segregation of duties

The Sheriff had not adequately segregated accounting duties and did not ensure adequate supervisory reviews of detailed accounting and bank records were performed.

Recommendation

The Sheriff segregate accounting duties or ensure independent or supervisory reviews of accounting and bank records are performed and documented.

Montgomery County
Follow-up Report on Audit Findings
Status of Findings

Status

Implemented

Independent reviews of accounting and bank records have been established. The Office Manager reviews the Office Assistant's deposits, monthly reports, and bank reconciliations of the inmate commissary account while the Office Assistant reviews the Office Manager's deposits, monthly reports, and bank reconciliations of the fee account.

2.2 Liabilities

Neither the Office Manager nor the Office Assistant prepared monthly lists of liabilities for the fee and inmate commissary accounts, and consequently, liabilities were not agreed to the reconciled bank balances.

Recommendation

The Sheriff prepare monthly lists of liabilities for all accounts and agree the totals to the reconciled bank balances. Any differences should be promptly investigated and resolved.

Status

Implemented

A monthly list of liabilities is now prepared for the fee account and compared to the reconciled bank balance. However an unreconciled difference existed for November and December 2017. This difference is being investigated and resolved. The Office Manager indicated liabilities are reviewed and compared to the reconciled bank balance for the inmate commissary account. However, a list of liabilities was not printed from the inmate commissary system and attached to the monthly bank reconciliation. On February 22, 2018, a list of liabilities for the inmate commissary account was printed and agreed to the book balance. In the future, the list of liabilities will be printed and attached to the bank reconciliation.

2.3 Commissary net
proceeds and purchases

The Sheriff had not turned over commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. In addition, the Sheriff used commissary net proceeds to purchase items for jail operations outside the normal county procurement or budget process and bid documentation was not retained for all applicable purchases.

Recommendation

The Sheriff ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to the County Treasurer for deposit in the Inmate Prisoner Detainee Security Fund. In addition, the Sheriff should ensure bids are documented for all applicable purchases in accordance with state law.

Status

Implemented

The Sheriff now disburses commissary net proceeds not necessary to meet cash flow needs or current operating expenses to the County Treasurer for deposit in the Inmate Prisoner Detainee Security Fund on a monthly basis.

Montgomery County
Follow-up Report on Audit Findings
Status of Findings

We reviewed the Sheriff's financial records for October 2017 and November 2017 and noted commissary net proceeds were disbursed to the County Treasurer for each month. Commissary net proceeds totaling \$18,533 were disbursed to the County Treasurer for the year ending December 31, 2017. In addition, we scanned expenditures made from the Inmate Prisoner Detainee Security Fund during 2017 and noted the Sheriff is obtaining bids or purchasing from state approved vendors, when applicable, in accordance with state law.

2.4 Civil paper service fees The Sheriff's office charged \$5 more for serving civil garnishments than allowed by state law.

Recommendation The Sheriff discontinue collecting the additional fee on civil garnishments.

Status **Implemented**

The Sheriff indicated he has discontinued collecting the additional fee on civil garnishments. Our review of civil garnishments collected in October, November, and December 2017 noted a fee of \$30 was collected in accordance with state law.

2.5 Phone cards The Sheriff's office did not maintain records to account for phone cards purchased and sold to inmates, and inventory remaining on hand, or conduct periodic physical inventory counts.

Recommendation The Sheriff maintain inventory records of phone cards, reconcile these records to phone cards purchased and sold, and perform periodic physical inventory counts.

Status **In Progress**

Records are now maintained to account for phone cards purchased and sold to inmates, and as of February 22, 2018, the Sheriff's office has implemented procedures to reconcile these records and identify inventory remaining on hand. Physical inventory counts to compare to inventory records will be performed on a monthly basis.

3. County Assessor's Controls and Procedures Controls and procedures in the County Assessor's office needed improvement.

3.1 Segregation of duties The County Assessor had not adequately segregated accounting duties and did not perform adequate supervisory reviews of detailed accounting records.

Recommendation The County Assessor segregate accounting duties or ensure independent or supervisory reviews of accounting records are performed and documented.

Montgomery County
Follow-up Report on Audit Findings
Status of Findings

Status

Implemented

The County Assessor indicated accounting duties have now been segregated. Three clerks are responsible for collecting and receipting monies. A fourth clerk is now responsible for preparing the monthly transmittal report and reconciling receipt slips to the monies transmitted to the County Treasurer. The County Assessor also indicated he performs a periodic review of the monthly transmittal report and the receipt slips; however, this review is not documented.

3.2 Receipting and
transmitting

The County Assessor had not established proper controls or procedures for receipting and transmitting monies. Receipt slips were not issued for all monies received, monies received were not always transmitted timely to the County Treasurer, and checks were not restrictively endorsed immediately upon receipt.

Recommendation

The County Assessor issue prenumbered receipt slips for all monies received, transmit receipts timely, and restrictively endorse checks immediately upon receipt.

Status

In Progress

The County Assessor indicated procedures have been implemented to issue prenumbered receipt slips for all monies received and to transmit receipts to the County Treasurer timely. However, during our review of the monthly transmittal reports for September, October, and November 2017, we noted receipt slips were not issued for 5 receipts recorded. We also noted the receipts for September and October 2017 were transmitted timely to the County Treasurer; however, the receipts for November 2017 were not transmitted until January 2018. While progress in implementing the recommendation was noted, continued improvement is needed to ensure receipt slips are issued for all monies received and all monies are transmitted timely. In addition, during our review on February 22, 2018, we noted all checks on hand had been restrictively endorsed.

6. Electronic Data Security

The County Assessor and Recorder of Deeds had not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices were not required to change passwords periodically to help ensure passwords remain known only to the assigned user.

Recommendation

The County Commission work with other county officials to require confidential passwords for each employee that are periodically changed to prevent unauthorized access to county's computers and data.

Montgomery County
Follow-up Report on Audit Findings
Status of Findings

Status

Partially Implemented

The County Commissioners indicated they remind other county officials during the budget process of the importance of proper security measures regarding the county's computers and data. The Recorder of Deeds indicated that following a system programming change in 2017, passwords are now required to be changed monthly. The County Assessor indicated he does not require employees in his office to change passwords periodically, but he will consider this in the future.

Office of Missouri State Auditor
Nicole Galloway, CPA

Office of State Treasurer

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Office of State Treasurer

Background

The Office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state monies not needed for current operating expenses; and to invest such monies in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, in short-term U.S. government securities, or in certain allowable commercial paper and banker's acceptances.

The State Treasurer operates in four major functional areas (1) accounting and banking services, (2) disbursements and records, (3) investments and deposit programs, and (4) unclaimed property. Auditors reviewed policies and procedures and financial records, interviewed personnel, and reviewed selected transactions related to those four major areas.

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from this audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric Schmitt, State Treasurer
Jefferson City, Missouri

We have audited certain operations of the Office of State Treasurer, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2017. The objectives of our audit were to:

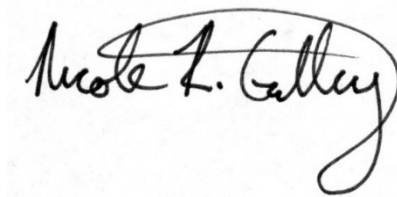

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Office of State Treasurer.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Douglas J. Porting, CPA, CFE
Audit Manager:	Robyn Vogt, M.Acct., CPA
In-Charge Auditor:	Gayle Garrison
Audit Staff:	Albert Borde-Koufie, MBA
	Emily Warren, CPA
	Tori L. Brandt

Office of State Treasurer

Organization and Statistical Information

The office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state monies not needed for current operating expenses; and to invest such monies in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and banker's acceptances.

The Office of State Treasurer operates in four major functional areas (1) accounting and banking services, (2) disbursements and records, (3) investments and deposit programs, and (4) unclaimed property.

The accounting and banking services area (1) maintains a fund accounting system to fulfill a statutory responsibility to keep separate accounts of the funds of the state and to allocate investment interest to funds, (2) maintains ledger controls on fund balances and appropriations to assure that no check is issued that exceeds the lawful appropriated balances, (3) controls receipt of state monies collected by state agencies and deposited in local banks throughout the state, (4) reconciles bank activity to receipt and disbursement activity reflected on the state books, (5) determines the amount of state monies not needed for current operating expenses, and (6) confirms daily disbursements with the bank as certified by the Office of Administration.

The disbursements and records area provides processing support to other areas of the office by (1) retrieving state checks and (2) controlling and processing outlawed checks and processing and verifying claims for replacement checks.

The investments area places state monies not needed for current operating expenses in interest-bearing time deposits, U.S. government and agency securities, commercial paper, banker's acceptances, and repurchase agreements. This area also administers the State Treasurer's statutory linked deposit program and monitors and accounts for the collateralization of state funds.

The Unclaimed Property Division administers Missouri's Unclaimed Property Act (Chapter 447, RSMo). The Unclaimed Property Division is responsible for (1) ensuring unclaimed property is reported, (2) receiving and recording reports of unclaimed property, (3) depositing unclaimed funds to the Abandoned Fund Account Fund, (4) maintaining custody and safekeeping of abandoned or unclaimed physical property, and (5) processing owner claims for abandoned funds or physical property.

On January 14, 2013, Clint Zweifel was inaugurated for his second term as the forty-fifth Treasurer of the state of Missouri. His term expired on January 9, 2017.

Office of State Treasurer Organization and Statistical Information

On January 9, 2017, Eric Schmitt was inaugurated as the forty-sixth Treasurer of the state of Missouri. His term will expire in January 2021.

As of June 30, 2017, the office had 45 full-time positions to assist in the accomplishment of its mission.

Financial Activity

A summary of the office's operating financial activity, cash and investment balances, and investment income is presented in the following Appendixes and in the Notes to the Appendixes.

Appendix A

Office of State Treasurer Statement of Receipts, Disbursements, and Changes in Cash and Investments Year Ended June 30, 2017

The accompanying Notes to the Appendixes are an integral part of this statement.

Notes to the Appendixes

1. Basis of Presentation

Amounts presented in Appendixes A through E are reported on the budgetary or cash basis of accounting. The budgetary basis recognizes revenues as cash is received and expenditures as cash is disbursed. Missouri issued a Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017, in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. The financial activity of the Office of State Treasurer is included in the CAFR.

The amounts presented in Appendix A represent receipts, disbursements, transfers, and cash and investment balances of funds that are dedicated to the activities and programs of the office.

The amounts presented in Appendixes B and C represent funds appropriated to the office by the Missouri General Assembly and expended by the office.

The amounts presented in Appendixes D and E represent all funds in the state treasury and all trust funds in the custody of the State Treasurer.

State treasury funds are subject to appropriation; trust funds are not. The appendixes do not include any funds or investments that are not in the custody of the State Treasurer.

2. Cash and Investments

Article IV, Section 15 of the Missouri Constitution establishes the State Treasurer as custodian of all state funds and funds received from the U.S. government. This section further authorizes the State Treasurer to place all such monies on time deposit, bearing interest, in Missouri banking institutions selected by the State Treasurer and approved by the Governor and the State Auditor, or in obligations of the U.S. government or any agency or instrumentality thereof maturing or becoming payable not more than 5 years from the date of purchase. In addition, the State Treasurer may enter into repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law. The State Treasurer may also invest in banker's acceptances issued by domestic commercial banks possessing the highest rating issued by at least 2 nationally recognized statistical rating organizations and in commercial paper, issued by domestic corporations receiving the highest rating issued by at least 2 nationally recognized statistical rating organizations. Investments in bankers acceptances and commercial paper shall mature and become payable not more than 180 days from the date of purchase, maintain the highest rating throughout the duration of the investment and meet any other requirements provided by law. The State Treasurer shall prepare, maintain, and adhere to a written investment policy that shall include an asset allocation plan limiting

Office of State Treasurer
Organization and Statistical Information

the total amount of state money that may be invested in each investment category authorized by law.

Deposits

The State Treasurer maintains approximately 202 demand deposit bank accounts throughout the state. These accounts include collection accounts for various state agencies and the state's primary operating accounts. Cash balances in the state's operating accounts that are not needed for immediate use are invested.

Except for \$2,860,862, the State Treasurer's deposits at June 30, 2017, were entirely covered by federal depositary insurance or by collateral securities held by the custodial banks in the State Treasurer's name.

To protect the safety of state deposits, Sections 30.270 and 110.020, RSMo, require depositaries to pledge collateral securities to secure deposits not insured by the Federal Deposit Insurance Corporation.

Investments

The State Treasurer's investments at June 30, 2017, are listed by type below to give an indication of the level of risk assumed by the state at year end. All investments are insured or registered, or have collateral held by the State Treasurer or a custodial bank in the state's name.

Investments in Custody of State Treasurer - June 30, 2017

	Reported Amount	Fair Value
Time deposits	\$ 454,627,838	454,627,838
U.S. government securities	2,420,747,683	2,411,850,114
Repurchase agreements	780,508,000	780,508,000
Other investments	5,130	81,572
Total investments	\$ 3,655,888,651	3,647,067,524

Investments are recorded at acquisition cost except "other" investments, which are recorded at par. Investments in time deposits and repurchase agreements are acquired at face value and earn a stated interest rate. Investments in U.S. government securities are acquired at fair value and mature at face value.

3. Demand Deposit and Collection Accounts

The demand deposit accounts on Appendix D are used to manage the state's daily receipt, disbursement, and transfer activities and to segregate funds available for investing.

The demand deposit accounts consist of the following:

Office of State Treasurer
Organization and Statistical Information

Demand Deposit Accounts

	June 30, 2017		June 30, 2016		June 30, 2015	
	Bank Balance (\$)	Number of Accounts	Bank Balance (\$)	Number of Accounts	Bank Balance (\$)	Number of Accounts
US Bank	1,006,127	1	2,718,966	1	2,550,938	1
Central Bank	88,675,672	32	156,046,811	32	161,954,859	33
Commerce Bank	4,160,519	8	10,950,216	8	8,999,974	9
Wells Fargo	34,374	2	75,048,536	2	75,096,454	2
UMB Bank	93,945	1	16,425	1	124,063	1

The collection bank accounts on Appendix D consist of three master concentration accounts and their related collection accounts. The master General Concentration, Conservation Concentration, and Lottery Concentration accounts were at Central Bank at June 30, 2017, 2016, and 2015 and have been reported above. The related collection account bank balances were \$3,176,418, \$3,181,451, and \$2,848,010 at June 30, 2017, 2016, and 2015, respectively.

Banking service agreements on the central demand accounts allow the State Treasurer to invest outstanding checks up until the checks clear the bank, thereby investing an amount in excess of book balances. Negative balances at June 30 (Appendix D) for any bank's appropriated funds demand deposits represent the book balance net of amounts invested.

4. Special Fund Dedicated Investments

The State Treasurer is assigned the authority for recording direct investments of special funds in the accounting system. The amounts presented as special fund dedicated investments in the appropriated funds on Appendix D represent specific investments made or held by the State Treasurer on behalf of the Pansy Johnson-Travis Memorial State Gardens Trust Fund and the State Public School Fund. The State Treasurer is responsible for purchasing, custodial, income collection, distribution, and record-keeping duties related to the investments of these funds.

The investments of the Pansy Johnson-Travis Memorial State Gardens Trust Fund are maintained in the instruments transferred to the State Treasurer from the previous trustee of the fund. The investment purchases for the State Public School Fund are made in accordance with the instructions of the State Public School Fund investment committee.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to file a report regarding federal seizures and the proceeds therefrom to the Department of Public Safety and the State Auditor's Office. Although Section 513.653.1, RSMo, only requires my office to receive these reports, my office has compiled the information presented to us by law enforcement agencies. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them, including whether or not an agency is in compliance with the statute. The primary objectives of this compilation were to:

1. Identify the reporting status of law enforcement agencies.
2. Summarize the information reported.

Conclusions regarding compliance cannot be made for law enforcement agencies that did not file a report.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits: Randall Gordon, M.Acct., CPA, CGAP

Compilation of 2017 Federal Forfeiture Reports

Executive Summary

Executive Summary

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to annually file a report regarding federal seizures and the proceeds received therefrom with the Department of Public Safety (DPS) and the State Auditor's Office (SAO). The law provides that the DPS shall not issue funds to any law enforcement agency that fails to comply.

According to the U.S. Department of Justice (DOJ) publication, *Guide to Equitable Sharing for State and Local Law Enforcement Agencies*, the DOJ Asset Forfeiture Program is "a nationwide law enforcement initiative that removes the tools of crime from criminal organizations, deprives wrongdoers of the proceeds of their crimes, recovers property that may be used to compensate victims, and deters crime." Any state or local law enforcement agency that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. Equitably shared funds must be used for law enforcement purposes, except as noted in the publication, and must increase or supplement the resources of the receiving law enforcement agency. In addition to reporting requirements under state law, there are also various program mandated accounting, reporting, and audit requirements. The U.S. Department of the Treasury also administers an Asset Forfeiture Program for similar purposes and with similar restrictions and requirements.

The DPS compiled a list of law enforcement agencies using information from the Peace Officer Standards and Training (POST) program and the Justice Assistance Grants (JAG) distribution lists, and notified the agencies of the requirement to submit reports if the agencies participated in the federal forfeiture system. The notification also included the federal forfeiture report form developed by the DPS. According to DPS personnel, the list does not represent a complete list of all agencies, but includes all agencies with commissioned officers or drug task forces receiving funding from the DPS.

There are 679 agencies on the DPS list provided to our office. Four cities reported to DPS they did not have local law enforcement in 2017 (see Appendix C). Thus, these agencies were not included in the reporting status. This report indicates the reporting status for reports received by February 28, 2018. The following table summarizes these reports.

Reporting Status	Number	Percentage
Agencies reporting participation (Appendix A)	143	21.18 %
Agencies reporting no participation (Appendix B)	287	42.52
Number of agencies reporting	430	63.70
Number of agencies not reporting (Appendix C)	245	36.30
Total Possible Reports	675	100.00 %

Compilation of 2017 Federal Forfeiture Reports Executive Summary

Of the 143 agencies reporting participation, 4 agencies failed to report to the SAO, and 2 agencies failed to report to the DPS. Reporting details are provided for all reports filed with the SAO, DPS, or both agencies. These agencies are identified on Appendix A.

A total of 287 agencies filed reports indicating no participation in the federal forfeiture system. These agencies are identified on Appendix B.

A total of 245 agencies did not respond and were not required to respond if they did not participate in the federal forfeiture system. These agencies are identified on Appendix C.

We noted reporting inconsistencies between years for some agencies. Five agencies identified on Appendix A did not file a federal forfeiture report for 2016 but reported a beginning balance as of January 1, 2017. Also, Appendix D identifies 10 agencies that did not file a 2017 federal forfeiture report, but previously reported a December 31, 2016, balance.

Conclusions regarding compliance cannot be made for non-reporting agencies. This compilation work is not an audit and as such, no verification was performed as to whether these agencies did or did not participate in the federal forfeiture system.

Note: This appendix shows the categories of the federal forfeiture report and what each agency reported. Blanks for any item indicate the agency left that item blank and zeroes indicate the agency reported zero.

- A The beginning balance plus receipts minus expenditures does not mathematically agree with the ending balance reported.
- B The beginning balance reported as of January 1, 2017, does not agree with the ending balance reported as of December 31, 2016, as shown in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*.
- C The beginning balance reported as of January 1, 2017, does not agree with the ending balance reported as of December 31, 2016, as shown in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*, but agrees with the December 31, 2016, ending balance reported in the agency's revised 2016 report submitted to our office subsequent to release of the compilation report.
- D The agency reported no participation for 2016, as shown in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*, but reported a beginning balance as of January 1, 2017.
- E The agency did not file a report for 2016, as shown in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*, but reported a beginning balance as of January 1, 2017.
- F The agency did not file a report for 2016, as shown in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*, but filed a 2016 report subsequent to the release of the compilation report that reported a December 31, 2016, ending balance that agrees with the beginning balance reported as of January 1, 2017.
- G The agency did not file a report for 2016, as shown in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*, but filed a 2016 report subsequent to the release of the compilation report that reported a December 31, 2016, ending balance that does not agree with the beginning balance reported as of January 1, 2017.
- H The DPS provided the SAO a copy of the report submitted to that department because the agency did not report to the SAO.
- I The SAO provided the DPS a copy of the report submitted to that department because the agency did not report to the DPS.
- J The agency was incorrectly reported in Report No. 2017-031, *Compilation of 2016 Federal Forfeiture Reports*, as not participating. The agency had filed a 2016 report which reported a December 31, 2016, ending balance, but this balance was not reported in the 2017 report as a beginning balance as of January 1, 2017.
- K Due to footing errors noted in various agency reports, the total beginning balance plus total receipts minus total expenditures does not mathematically agree to the total ending balance.

Office of Missouri State Auditor
Nicole Galloway, CPA

Stoddard County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Stoddard County

Stoddard County Sheltered Facilities Board	The Stoddard County Sheltered Facilities Board did not bid the construction of an office building and workshop space, and did not ensure the contractor complied with prevailing wage laws.
Sheriff's Commissary Vendor	The Sheriff did not solicit proposals or document reasons for selecting the vendor to provide third party jail commissary services.
Property Tax System	The County Clerk and/or the County Commission did not review and approve outlawed taxes from the 2011 property tax year totaling approximately \$45,000 during the year ended February 28, 2017. The county has not adequately restricted the County Collector's access to assessed valuations in the property tax system.
Electronic Data Security	The Recorder of Deeds has not established adequate password controls to reduce the risk of unauthorized access to computers and data. Passwords for employees in the offices of the Recorder of Deeds and County Assessor are not required to have a minimum number of characters. The County Assessor, County Collector, and Recorder of Deeds do not have security controls in place to lock computers after a specified number of incorrect logon attempts or after a certain period of inactivity. The County Clerk's office does not store data backups at an off-site location.
Tax Maintenance Fund Transfers	A \$30,000 transfer made from the Tax Maintenance Fund in 2017 was not in compliance with uses allowed by state law and the county does not have documentation to support the amount. In addition, transfers of \$65,000 and \$15,000 made in 2015, and 2016, respectively also do not have documentation to support the amounts transferred.
County Procedures	Neither the County Commission nor the County Clerk submitted proof of publication of the county's financial statement for the years ended December 31, 2014, 2015, and 2016, to the State Auditor's Office as required by state law. The County Commission did not hold a public hearing and approve the Stoddard County Sheltered Facilities Board property tax rate.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	11
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the County Commission
and
Officeholders of Stoddard County

We have audited certain operations of Stoddard County in fulfillment of our duties under Section 29.230, RSMo. In addition, Daniel Jones & Associates, Certified Public Accountants, was engaged to audit the financial statements of Stoddard County for the 2 years ended December 31, 2016. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2016. The objectives of our audit were to:

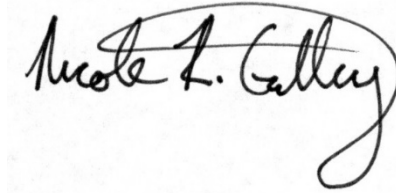

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Stoddard County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The signature is written over a light gray rectangular background.

Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Morgan Alexander
	Joel Stucky
	Mariela A. Hernandez
	Stephen Powers

Stoddard County Management Advisory Report State Auditor's Findings

1. Stoddard County Sheltered Facilities Board

The Stoddard County Sheltered Facilities Board (SCSFB) did not bid the construction of an office building and workshop space, and did not ensure the contractor complied with prevailing wage laws.

1.1 Bidding

The SCSFB did not bid the construction of an office building and workshop space costing more than \$730,000, and also did not advertise this project for bids. A SCSFB employee indicated she or a board member left messages with several contractors, but none of them returned their calls. She said a local business that had recently built a building was then contacted to obtain the name of the builder. She said that vendor was contacted and the SCSFB received a quote of \$724,000 for the project. The SCSFB used that vendor for the project. The SCSFB had no documentation regarding the contractors called, the local business, or the vendor.

As of November 2017, project costs have totaled approximately \$735,000. A SCSFB employee said the overage resulted from the project requiring moving more dirt than anticipated. The SCSFB did not obtain a change order from the contractor documenting the need for additional costs or project changes. The SCSFB also expects to make an additional payment of approximately \$20,000 to the contractor when the project is completed resulting in total costs of approximately \$755,000.

Section 50.660, RSMo, provides bidding requirements, including advertising for bids involving expenditures greater than \$6,000. Routine use of a competitive procurement process for major purchases ensures the SCSFB has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in the SCSFB business. Documentation of the various bids received, the SCSFB's selection process, and criteria should be retained to demonstrate compliance with applicable laws or regulations and support decisions made. In addition, change order documentation should be maintained.

1.2 Prevailing wage

The SCSFB did not require the project's contractor to provide supporting documentation of wages paid and did not review any payroll records to ensure compliance with prevailing wage laws. Section 290.230, RSMo, requires prevailing wages to be paid to all workmen employed by or on behalf of any public body engaged in construction projects exclusive of maintenance work. Additionally, Sections 290.210 to 290.340, RSMo, and 8 Code of State Regulations 30-3.010, provide other requirements regarding prevailing wages.

Recommendations

The Stoddard County Sheltered Facilities Board:

- 1.1 Ensure projects are bid, including advertising for bids when applicable in accordance with state law, and maintain adequate

Stoddard County
Management Advisory Report - State Auditor's Findings

documentation of decisions made. Additionally, the Board should maintain documentation of change orders.

- 1.2 Ensure that prevailing wages laws are followed for public works construction projects.

Auditee's Response

1.1 *The Stoddard County Sheltered Facilities Board will ensure future projects are bid, including advertising for bids when applicable in accordance with state law, and maintain adequate documentation of decisions made. The Board will maintain documentation of change orders.*

1.2 *The Stoddard County Sheltered Facilities Board will ensure on future projects that prevailing wage laws are followed for projects.*

**2. Sheriff's
Commissary
Vendor**

The Sheriff did not solicit proposals or document reasons for selecting the vendor to provide third party jail commissary services. The Sheriff indicated he called other county sheriffs for commissary service recommendations and commissary service providers for commission rates and selected the one he considered the best option. However, he did not maintain documentation supporting the work performed and the selection decision. Commissary revenues totaled approximately \$130,000 for the year ended December 31, 2016.

Routine use of a competitive selection process for major service providers ensures the county has made every effort to receive the best agreement and all interested parties are given an equal opportunity to participate in county business. Documentation of the various proposals received, the selection process, and criteria should be retained to support decisions made.

Recommendation

The Sheriff should work with the County Commission to ensure proposals are solicited for contracted services and document reasons for selecting a specific vendor.

Auditee's Response

From this point forward discussions with vendors will be documented for future reference.

**3. Property Tax
System**

Controls and procedures over the property tax system need improvement. The County Collector's office processed property taxes and other revenues of approximately \$22.2 million for the year ended February 28, 2017.

3.1 Outlawed taxes

The County Clerk and/or the County Commission did not review and approve outlawed taxes from the 2011 property tax year totaling approximately \$45,000 during the year ended February 28, 2017. As a result, outlawed taxes, which constitute changes to the amount of taxes the County Collector is

Stoddard County Management Advisory Report - State Auditor's Findings

charged with collecting, are not properly monitored and errors or irregularities could go undetected.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved outlawed taxes to actual changes made to the property tax system would help to ensure changes are proper.

3.2 Computer access

The county has not adequately restricted the County Collector's access to assessed valuations in the property tax system. The County Collector has access rights that allow changes to be made to individual property tax assessed valuations throughout the tax year. Because the County Collector is responsible for collecting tax payments, good internal controls require the County Collector not have access rights allowing alteration of property tax information.

To prevent unauthorized changes to the property tax records, access should be limited based on user needs. Unrestricted access can result in the alteration of data files and programs.

Recommendations

The County Commission:

- 3.1 Work with the County Clerk to adequately review and approve all outlawed taxes.
- 3.2 Ensure property tax system access is limited to only what is needed for the users to perform their job duties and responsibilities.

Auditee's Response

- 3.1 *The County Clerk and County Commission do review tax reports each month. The County Commission will approve outlawed taxes for the 2011 property tax year totaling approximately \$45,000. Each year the County Clerk and County Commission will approve outlawed taxes.*
- 3.2 *Access by the County Collector will be restricted to viewing the assessed valuations.*

4. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

4.1 Passwords

The Recorder of Deeds has not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees are not required to change passwords periodically to help ensure passwords

Stoddard County Management Advisory Report - State Auditor's Findings

remain known only to the assigned user. In addition, passwords for employees in the offices of the Recorder of Deeds and County Assessor are not required to have a minimum number of characters.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed or contain a minimum number of characters in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

4.2 Security controls

The County Assessor, County Collector, and Recorder of Deeds do not have security controls in place to lock computers after a specified number of incorrect logon attempts or after a certain period of inactivity.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

4.3 Data backups

The County Clerk's office does not store data backup files at an off-site location. The files are stored at the same location as the original data leaving the backup data susceptible to the same damage as the original data.

To help prevent loss of information and ensure essential information and computer systems can be recovered, backup computer data should be stored at an off-site location.

Recommendations

The County Commission work with other county officials to:

- 4.1 Require employees maintain confidential passwords with a minimum number of characters that must be periodically changed.
- 4.2 Ensure county computers have security controls in place to lock each computer after a specified number of incorrect logon attempts and after a certain period of inactivity.
- 4.3 Ensure backup computer data is stored in a secure off-site location.

Stoddard County
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 4.1 *Password changes and password security will be reviewed with the Recorder of Deeds and County Assessor. Each officeholder will be directed to establish adequate computer controls.*
- 4.2 *Security controls will be reviewed with the County Assessor, County Collector, and Recorder of Deeds. Each officeholder will be directed to establish effective security controls.*
- 4.3 *Data backups will be stored at an off-site location.*

5. Tax Maintenance Fund Transfers

A \$30,000 transfer made from the Tax Maintenance Fund (TMF) in 2017 was not in compliance with uses allowed by state law and the county does not have documentation to support the amount. In addition, transfers of \$65,000 and \$15,000 made in 2015 and 2016, respectively, also do not have documentation to support the amounts transferred. The County Collector collects a penalty of 7 percent of the total charged on delinquent taxes, and two-sevenths of this penalty is required to be paid into the TMF to be used for additional administrative or operational costs related to the office of the County Collector.

The County Collector transferred \$30,000 from the TMF to the General Revenue Fund on September 5, 2017. The minutes for the August 28, 2017, County Commission meeting indicated the County Collector was told the money was needed to help fund improvements and repairs to an annex building for the Sheriff's office. Thus the transfer was not related to the administration or operation of the County Collector's office. The County Collector indicated a \$50,000 transfer in 2015 was for the County Collector's portion of new tax assessment software purchased by the County Assessor and \$15,000 transferred in both 2015 and 2016 was for part-time help during tax season. However, the County Collector did not have any documentation to support these transfers.

Section 52.315, RSMo, requires TMF monies be expended for additional administration and operation costs of the County Collector's office and "shall not be used to substitute for or subsidize any allocation of the county general revenue for the operation of the office of collector." Any unexpended balance is required to remain in the TMF to accumulate from year to year and should not be transferred to the county's general revenue for non-collector related purposes prior to reaching the limits set forth in Section 52.317.1, RSMo. There was either no documentation supporting the transferred amount or the documentation was unclear as to how the transferred amount related to the administration or operation of the office of the County Collector. Therefore, these transfers were not appropriate uses of the TMF monies.

Recommendation

The County Collector ensure disbursements from the Tax Maintenance Fund are in compliance with statutory provisions, and the County Commission

Stoddard County
Management Advisory Report - State Auditor's Findings

reimburse the Tax Maintenance Fund for the improper transfers. In addition, the County Collector should maintain documentation to support all transfers made from the Tax Maintenance Fund.

Auditee's Response

The County Collector provided the following response:

The County Collector will implement the recommendation.

The County Commission provided the following response:

The County Commission will ensure future disbursements from the Tax Maintenance Fund are in compliance with statutory provisions. The County Commission will discuss the reimbursement recommendation with the County Collector.

6. County Procedures

Improvements are needed in the county's procedures over financial reporting and approving the SCSFB tax rate.

6.1 Published financial statements

Neither the County Commission nor the County Clerk submitted proof of publication of the county's financial statement for the years ended December 31, 2014, 2015, and 2016, to the State Auditor's Office as required by state law. Proof of publication is required to be submitted to our office by March 31 of the year following the end of the year. After we discussed this issue with the County Clerk, he submitted the required information to our office for those periods. We received it on November 22, 2017.

Section 50.810, RSMo, requires filing of proof of publication of the county's financial statements with the State Auditor. In addition, complete and accurate published financial statements are needed to adequately inform the citizens of the county financial activities and show compliance with statutory requirements.

6.2 SCSFB tax rate

The County Commission did not hold a public hearing and approve the SCSFB property tax rate. The property tax rate was approved by the SCSFB; however, the SCSFB does not have the legal authority to set the property tax rate.

Section 137.055, RSMo, states the county governing body shall hold a public hearing prior to approving the tax rates of the county. In addition, the Missouri Supreme Court issued an opinion in the case of *State ex rel. Indus. Services Contractors, Inc. v. County Comm'n of Johnson County*, 918 S.W.2d 252 (Mo. Banc 1996), that there is no statutory authority allowing Senate Bill 40 Boards to set the property tax levy.

Stoddard County
Management Advisory Report - State Auditor's Findings

Recommendations

The County Commission:

- 6.1 And the County Clerk ensure the proof of publication of the county financial statements is filed with the State Auditor's Office as required by state law.
- 6.2 Approve the SCSFB property tax rate in accordance with state law.

Auditee's Response

- 6.1 *The County Clerk's office will file proof of the county financial statements to the State Auditor's Office.*
- 6.2 *A public hearing will be held by the County Commission to approve the SCSFB property tax rate.*

Stoddard County

Organization and Statistical Information

Stoddard County is a township-organized, third-class county. The county seat is Bloomfield.

Stoddard County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 66 full-time employees and 17 part-time employees on December 31, 2016. The townships maintain county roads.

In addition, county operations include the Senate Bill 40 Board and the 911 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2017	2016
Greg Mathis, Presiding Commissioner	\$	35,243
Danny K. Talkington, Associate Commissioner		33,882
Carol Jarrell, Associate Commissioner		33,882
Kay Asbell, Recorder of Deeds		49,426
Joe Watson, County Clerk		49,426
Russell Oliver, Prosecuting Attorney		139,105
Carl Hefner, Sheriff		54,757
Kenny Pope, County Coroner		18,501
Pamela Lape, Public Administrator		49,426
Carla Moore, County Collector-Treasurer, year ended March 31,	62,509	
Jody Lemmon, County Assessor, year ended August 31,		48,945
Joseph Pulliam, County Surveyor (1)		

(1) Compensation on a fee basis.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the City Council
Wellston, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2017-039, *City of Wellston* (rated as Poor), issued in May 2017, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the city about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by city officials and held discussions with city officials to verify the status of implementation for the recommendations. Documentation provided by the city included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during January and February 2018.

Nicole R. Galloway, CPA
State Auditor

City of Wellston

Follow-Up Report on Audit Findings

Status of Findings

1. Accounting Controls and Procedures	Numerous weaknesses existed with the city's accounting controls and procedures. Some monies were handled and processed by employees at city hall, while other monies were deposited directly into the city's bank accounts by the payor.
1.1 Receipting and depositing procedures and recording of accounting entries	<p>The city's procedures for receipting payments and making deposits were poor, and there were no procedures to ensure all receipts were recorded in the computerized accounting system. As a result, there was no assurance all monies collected were properly receipted, recorded, and deposited.</p> <p>City personnel issued prenumbered manual receipt slips for all monies received, which were carbon copied to a manual cash receipts ledger. We compared receipts to deposits into the city's general account and road and bridge account and identified various problems.</p> <ul style="list-style-type: none">• Deposits were not always made timely and intact.• Receipt slips were not always issued in numerical sequence.• City personnel did not issue receipt slips for some transactions, and did not retain some deposit slips.• City personnel did not reconcile the amount or composition of recorded receipts to the computerized accounting system or deposits. <p>In September 2015, the city hired an independent accountant to handle the recording of all receipts and disbursements in the computerized accounting system, perform bank reconciliations, and assist the city with preparing the financial data and reports used to draft a budget proposal for the City Council.</p> <p>Based on the unavailability and disorganization of various city records, it was likely additional problems with the receipting, recording, and depositing of monies occurred.</p>
Recommendation	The City Council implement procedures requiring city personnel to make deposits intact and timely, properly account for the numerical sequence of receipt slips, issue receipt slips in numerical sequence, issue receipt slips for all monies received, and retain deposit slips. The Council should also ensure procedures are implemented to reconcile the amount and composition of receipts to the computerized accounting system and deposits.
Status	Implemented <p>City personnel said they now prepare deposits when checks and money orders received exceed \$1,000. After the city transferred all court operations to the City of St. Ann in February 2017, the city discontinued accepting cash or credit card payments. In September 2017, the Council approved hiring a part-</p>

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

time City Treasurer who makes the deposits, and the city's independent accountant (hired in September 2015) records the deposits in the computerized accounting system. The City Treasurer continues to receive on the job training for various accounting duties. The City Administrator and Assistant City Administrator receipt monies, issue receipt slips, and maintain the manual one-write accounting ledger. On a bi-weekly basis, the independent accountant matches the prenumbered manual receipt slips to the deposit slips and manual one-write accounting ledger, and accounts for the numerical sequence of all receipt slips. The independent accountant determines the proper classification for payments received, records the individual receipts and/or deposits in the accounting system, and compares the composition of checks and money orders per the receipt slips to the deposit records to ensure agreement. The independent accountant said she ensures all accounting records are organized and filed correctly to prevent them from being lost or misplaced.

We reviewed bank statements for the city's General bank account for June 2017 and December 2017 and noted deposits are being made timely. In addition, we reviewed 25 receipt slips and 5 deposits for the period January 16, 2018, through January 25, 2018, and noted all receipt slips were accounted for, deposits were made intact and timely, receipt slips were issued in numerical sequence and for all monies received, and deposit slips were retained.

1.2 Bank reconciliations

Bank reconciliations were not performed for any of the city's bank accounts during the year ended June 30, 2015. The city subsequently contracted with an independent accountant who was preparing these reconciliations monthly; however, the reconciliations were not presented to the Council, or formally reviewed or approved by the Council or other city personnel.

Recommendation

The City Council perform monthly documented reviews of bank reconciliations.

Status

In Progress

The independent accountant continues to prepare monthly bank reconciliations for all bank accounts. The Council receives a copy of the General bank account reconciliation, and approves it along with other items included in the monthly City Treasurer's report. The Council does not receive copies of the bank reconciliations for the other bank accounts. However, a majority of the Councilmembers said they do not wish to receive copies of those reconciliations, and are aware they may request to review them if considered necessary. The Mayor indicated the city plans to require the City Treasurer to begin performing an independent documented review of the monthly bank reconciliations once he has a complete understanding of the city operations and his duties.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

1.3 Segregation of duties

The Council had not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city office personnel were performed.

Recommendation

The City Council segregate the accounting duties of the city office personnel. If proper segregation cannot be achieved, ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.

Status

Implemented

As discussed in the Section 1.1 status comments, the city has implemented new controls and procedures to ensure accounting duties are adequately segregated and/or independent or supervisory reviews of detailed accounting and bank records are performed.

2. Monitoring Financial Condition

The financial condition of the General Fund had declined in recent years and was not expected to improve significantly in the immediate future. In addition, the city's financial records were not complete and accurate, making it difficult for the Council to effectively monitor the city's financial condition.

Cash flow

The city struggled to generate sufficient cash flow to sustain operations. Also, the city paid significant settlement amounts in recent years resulting from various lawsuits.

Municipal court

City personnel indicated revenues generated by the municipal court significantly declined after Senate Bill 5 took effect in August 28, 2015.

As a result of the city's poor financial condition, insufficient cash flow, and existing obligations to pay for goods and services, the city improperly expended some restricted court monies.

Cost reductions

The Council took several significant actions to improve the city's financial condition. The Council disbanded the city's police department and entered into a contract with the North County Police Cooperative to provide policing services. In addition, the Council dissolved the city's municipal division and entered into a contract with the City of St. Ann for court services.

Insufficient monitoring

The Council was not provided sufficient information to adequately monitor the city's financial condition. Members were provided a monthly financial report that summarized information from the bank statements including a summary of the beginning balance, receipts, disbursements, transfers, and ending balance for the month; but did not receive bank reconciliations or other reports that would provide more information regarding available fund balances, historical financial data, projections of current and future liabilities, and detail on the types of major receipts or disbursements.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Recommendation

The City Council ensure it receives detailed financial data monthly, perform long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

Status

Partially Implemented

Councilmembers indicated monthly City Treasurer reports are still provided for all bank accounts but they are not receiving any additional financial information. City officials and the Council are aware of and continue to closely monitor the city's declining financial condition and the city's ongoing problems generating sufficient cash flows to sustain city operations. During October, November, and December 2017, the Council held several town hall meetings and budget committee workshops to discuss ideas for increasing operating revenues and/or decreasing operating expenses. For example, the Council has discussed attempting to sell about 75 vacant city-owned lots. Councilmembers indicated if these lots are privately developed, city revenues could increase and the city's operating expenses for maintaining them would decrease. The Council has not made a final decision on what to do with the lots.

Also, Councilmembers said the city's continued participation in the North County Police Cooperative and Consolidated Municipal Court (CMC) has reduced operating expenses. They said the city must continue to pay for the court's computerized case management system, even though the city no longer operates a municipal court, because CMC staff continue to work on resolving the backlog of old cases, and the contract with the system's vendor has not yet expired. Also, we noted the city is still incurring monthly fees of about \$140 for leasing 2 credit card machines even though these machines are no longer in use. Councilmembers indicated they would work on ending these leases.

Councilmembers said the city is still struggling with generating sufficient cash flows to sustain daily operations and often cannot pay bills timely. The city continues to incur unnecessary expenses and/or make unnecessary purchases as discussed in the status comments to MAR finding number 4.5.

Although Councilmembers said they plan to closely monitor the budget once one is established (see the status comments to MAR finding number 3.1), they have not developed a formal long-term plan for the city.

3. Budgets, Financial Reporting, and Ordinances

The city had not complied with various state laws including preparing an annual budget for each fund, publishing semiannual financial statements, and filing annual financial reports timely. In addition, improvement was needed in ordinances.

3.1 Budgets

The City Council did not prepare a budget for any city funds.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Recommendation	The City Council prepare annual budgets for all funds that contain all information as required by state law, and approve the budget prior to the beginning of the operating year.
Status	Not Implemented The Council has taken some actions to move forward with drafting a budget; however, those action are incomplete and untimely. The independent accountant has drafted a fiscal year 2018 operating budget that includes only the General and Payroll Funds, but not other funds. The Council plans to vote to approve that budget at its February 2018 meeting, more than 7 months after the beginning of the fiscal year (July 1, 2017). Councilmembers said this is occurring late in the fiscal year, but they feel this first step is necessary to get them moving in the right direction. They will begin discussing the fiscal year 2019 budget in April 2018 and plan to have the independent accountant draft a full budget to include all city funds. The Council provided us with the draft fiscal year 2018 budget and we noted the budget proposal as presented did not include all statutorily required elements. The independent accountant said she will incorporate the required elements in the fiscal year 2019 budget.
3.2 Published financial statements	The city did not prepare and publish financial statements as required by state law.
Recommendation	The City Council ensure publication of the city's semiannual financial statements as required by state law.
Status	Not Implemented The city has not published semiannual financial statements. The Council plans to request the independent accountant start working on this issue when time allows, after the budget work is completed.
3.3 Filing of financial reports	City personnel did not file timely or accurate annual financial reports with the State Auditor's Office as required by state law, and continued to make disbursements after the statutorily required deadline for submitting the financial report in violation of state law. In addition, the previous report filed did not include all required elements.
Recommendation	The City Council submit annual financial reports to the State Auditor's Office as required by state law, and discontinue processing any disbursements until the financial report is properly filed with the State Auditor's Office.
Status	Not Implemented The city has not filed the required financial reports for fiscal years 2016 and 2017 and continues to process disbursements. The Council plans to request

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

the independent accountant start working on this issue when time allows, after the budget work is completed.

Statutory revisions effective August 28, 2017 (subsequent to release of the audit report in May 2017) impose additional penalties for not filing timely financial reports. The city was notified by the state Department of Revenue in January 2018 that its 2017 financial statement had not been filed by the due date. If the city does not file its report as required by this notification it may be subject to a fine of \$500 per day.

3.4 Ordinances

City ordinances were not complete or organized. Ordinances were last codified in 1996, and an up-to-date official ordinance book had not been maintained. The city did not maintain an index of all ordinances passed and rescinded.

Recommendation

The City Council ensure city ordinances are maintained in a complete, well-organized, and up-to-date manner, and establish an index of all ordinances passed and rescinded.

Status

Not Implemented

The Council has no specific plans to implement the recommendation. One councilmember said he has done some informal research regarding this matter and noted many cities post detailed information on city ordinances on their websites. He plans to request the Council vote to implement a similar feature once the city's website, which is under development, is functional.

4.1 Disbursements - Bidding

City personnel did not always solicit competitive bids or proposals for goods and services, and the city's ordinance for procurement needed to be clarified to indicate when bidding was required. City personnel indicated they only solicit competitive bids for projects funded by a federal grant for various purposes such as demolition of abandoned structures and street paving.

Section 2-8 of the city code stated sealed bids shall be solicited for any purchases exceeding \$1,000. However, section 2-9 of the code exempted bidding requirements in certain circumstances. These exceptions were broad and vague, which could lead to varying interpretations.

Examples of significant purchases of goods or services for which bids or proposals were not solicited included workers compensation insurance (\$53,199), payroll processing services (\$4,732), information technology services (\$4,541), and fuel (\$36,478).

Recommendation

The City Council solicit bids and proposals for all applicable purchases and clarify city code to indicate when bidding or solicitation of proposals is required.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Status

Partially Implemented

City officials said they have recently solicited informal bids and/or obtained price quotes for purchases of various goods and services including pothole patching, lawn mowers, asphalt paving, and tree trimming. However, with the exception of the asphalt paving project (vendor selected using sealed bids) and pothole patching (vendors were required to submit written bids) personnel obtained informal bids and/or price quotes by contacting known local vendors but did not maintain any documentation to support the information obtained. For the majority of professional services examples cited in the audit report finding, the city did not change how these services are obtained. The officials said we received some wrong information during the audit because workers compensation insurance has always been bid annually through an insurance broker.

We noted the city issued a contract dated August 2, 2017, to a local vendor to perform pothole patching. This vendor was the low bidder; however, this vendor did not incorporate with the Missouri Secretary of State's Office until August 10, 2017, and the Council approved acceptance of the contract and payment on August 16, 2017. Given the documentation and circumstances, the city selected an individual who did not have a construction and maintenance business established on the date the contract was issued.

The Council has not revised city code provisions pertaining to bidding or solicitation of proposals, and has no specific plans to do so.

4.2 Disbursements -
Mayor's fuel usage

The Mayor's use of city purchased fuel did not appear reasonable and necessary, was not properly reported as a taxable benefit to the Internal Revenue Service (IRS) on W-2 forms, and had not been authorized by the Council. Also, the city had not prepared a written agreement or guidelines regarding allowable fuel usage. The Mayor was not provided a city-owned vehicle and used his personal vehicles for city business.

The Mayor fueled his personal vehicles at the St. Louis County gas pumps and charges were billed monthly to the city. The Mayor took office in November 2014 and was provided access to the pumps starting in February 2015. During the 11 months ended December 31, 2015, the Mayor pumped approximately 1,570 gallons of fuel billed to the city.

According to the Mayor, he used his card to fuel vehicles used for city business by a public works employee who left employment in June 2015, and a code enforcement officer who passed away in February 2016. He also indicated he fueled the vehicle used by the city's building inspector.

The city did not report the fuel as a taxable benefit on the Mayor's W-2 forms, and the Mayor did not prepare or submit a mileage log to record the personal and business use of fuel.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Recommendation

The City Council implement a written agreement or guidelines governing the use of city purchased fuel. Also, the Council should consider using vehicle allowances or mileage reimbursement to better ensure the city is only reimbursing reasonable and necessary expenses incurred by officials while traveling on city business. In addition, the Council should ensure the city complies with IRS regulations for reporting taxable employee fringe benefits, and amend prior W-2 forms.

Status

Partially Implemented

The Mayor has recently been assigned a city-owned vehicle to use for city business, is allowed to use the vehicle for commuting to/from home, and was instructed to only use the fuel key for that vehicle. Also, in December 2017, the city worked with the fuel vendor to assign separate fuel keys for each of the 5 city vehicles plus one master key for fueling equipment, and each employee was provided training on how to use the system.

The Council approved a new fleet ordinance in September 2017 covering various vehicle standards and/or requirements including identification, assignment and take-home rights, and fuel. The ordinance also addressed purchasing of vehicles. The Council is currently discussing a draft fleet policy that expands on the ordinance's requirements, and plans to vote on its approval in the near future. The draft policy is comprehensive, has clearly stated objectives, and addresses various areas such as requirements and responsibilities for vehicle operators, including proper usage of municipal vehicles, maintenance, and various other topics.

Regarding the Mayor's prior or current vehicle arrangement with the city, the Council has not taken any action to ensure the city complies with IRS regulations for reporting taxable employee fringe benefits. The city did not amend prior W-2 forms.

**4.3 Disbursements -
Council approval**

The Council did not approve all disbursements. City personnel only submitted a listing of payments considered non-recurring to the Council for approval and, as a result, the Council only approved a small percentage of total disbursements. City officials considered utilities, insurance, payroll, employee benefits and deductions, fuel, interfund transfers, and municipal court activities to be recurring types of expenditures. At least some of these types of disbursements were subject to significant fluctuation each month, were of higher risk, and/or were subject to abuse.

Recommendation

The City Council review and approve all disbursements and ensure approval of disbursements is documented.

Status

Not Implemented

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

The Council approved a motion on September 6, 2017, requiring all payments from any city bank account to be formally approved by the Council prior to payment. However, we reviewed disbursements for the period September 6, 2017 to December 31, 2017, and noted the Council is not complying with this policy. We noted instances where bills, both recurring and non-recurring, were paid without documented Council approval.

4.5 Disbursements -
Unnecessary
disbursements

We identified several wasteful or unnecessary disbursements.

- The city incurred \$940 in finance charges on funding obtained from a finance company so that it could pay the annual workers compensation insurance policy premium.
- The city incurred about \$2,400 in bank service charges on the 3 bank accounts that had the most financial activity during the year ended June 30, 2015. Similar charges were also incurred on other city accounts.
- The city paid conference registration fees and booked lodging arrangements for the Mayor and 4 councilmembers to attend a conference for local government officials; however, 3 councilmembers did not attend. The city received only a partial refund, forfeiting about \$680.
- The city paid a utility bill several weeks after the due date, incurring late fees of \$72.

Recommendation

The City Council ensure purchases are reasonable and prudent uses of public funds.

Status

Not Implemented

The independent accountant said the city is still incurring additional charges on the workers compensation policy because premiums are paid in monthly installments, but the city is no longer incurring loan financing costs. Due to continued cash flow issues, the city is still incurring significant late fees and the financial situation has continued to worsen. We reviewed several recent invoices and identified additional examples of wasteful or unnecessary disbursements.

- In May 2017 the city purchased, through a financing agreement, 5 new commercial mowers and other mowing equipment at a cost of nearly \$39,000. The majority of councilmembers agreed this was a tough but necessary decision because various citizens were demanding better maintenance and upkeep of about 75 vacant city-owned lots, and city parks. The equipment is primarily used to mow these lots and parks that cover minimal acreage. Also, the second monthly invoice for this purchase included a \$27 late fee because of late payment for the first invoice.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

- The January 2018 invoice from the City of Vinita Park for policing services showed the city had a balance due of almost \$161,000 that included the recurring contractual monthly charge for November 2017, December 2017, and January 2018, plus a 5 percent late fee on the past due balances.
- A utility company invoice dated September 7, 2017, indicated the vendor requested the city post a deposit of \$10,090 to continue receiving street lighting services. The city's balance had accumulated over 2 months and exceeded \$10,400. The city did not immediately comply as requested by the vendor, but subsequently submitted a payment for \$10,193 on October 11, 2017, for the past due balance and late fees.
- The city continues to incur significant bank service charges. As of January 2018, the city had 11 bank accounts open at 2 different banks. The banks assessed service and/or analysis charges totaling about \$574 for December 2017. Two accounts had negative cash balances.

We also noted that the Mayor issued checks to cash and obtained 4 cashier's checks from the Road and Bridge Account for \$2,100 during the months of June, July, and August 2017, and the Council did not approve these transactions. The Mayor provided invoices for the services paid, which included emergency street repair, tree removal, and debris removal. The Mayor said he wrote the checks in this way because no official checks were on hand for the account and he had to use counter checks provided by the bank. The Councilmembers indicated they subsequently instructed the Mayor not to issue checks without their approval in the future. We noted 3 of the 4 checks only had 1 signature, which violates city policy.

5. Sunshine Law

The Council generally met twice per month and did not always comply with the Sunshine Law.

In May 2016, the city received a letter from the Missouri Attorney General's Office (AGO) outlining the results of that office's investigation and review of the city's compliance with certain aspects of the Sunshine Law. The letter noted various compliance concerns and requested city officials take corrective actions. We identified similar concerns.

5.1 Record requests

The city did not timely respond to public record requests, and the City Administrator (the city's custodian of records) did not maintain a log of public record requests and did not always document the date a request was received. The city was sued twice for failure to respond to requests. The city did not implement any changes in procedures to prevent future violations of the Sunshine Law.

Recommendation

The City Council ensure requests for information are responded to timely and maintain a public request log to help ensure compliance with state law.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Status

Partially Implemented

The City Administrator indicated she had developed an electronic log to track Sunshine Law requests, but she could not provide it to us. Instead, she provided numerous email messages the city had received in recent months but only a few were Sunshine Law requests. For those requests, documentation showed the city responded within 3 business days as required.

5.2 Closed sessions

The city did not comply with state law regarding closed sessions.

Reasons for closing meetings

Open meeting minutes did not document the specific reasons or section of law allowing the meetings to be closed. Most meeting notices and agendas included a statement that a closed session would be held, in the event the Council wanted to enter closed session, and the statement generally included the same list of potential discussion matters.

Allowable topics

Some topics discussed and voted on in closed Council meetings were not allowable under the Sunshine Law.

Recommendation

The City Council ensure specific reasons for closing a meeting are documented in the open minutes, and ensure only topics allowed by state law are discussed in closed Council meetings.

Status

Partially Implemented

We reviewed all closed session minutes provided for the period July 2017 through December 2017. The city attorney said the Council and city officials are doing better staying on point in the closed meetings and only discussing the topics cited as reasons for entering closed session. We did not identify any instances of unallowable topics being discussed.

Open meeting minutes still do not document the specific reasons or section of law allowing the meetings to be closed. City officials continue to prepare meeting notices and agendas in the same manner noted during the audit, and indicated no plans for changing this process.

5.3 Meeting minutes

Minutes for several Council meetings could not be located, and sufficient documentation was not retained when Council meetings were canceled. In addition, for the minutes provided, the City Administrator had not signed them as the preparer, and some minutes had not been subsequently approved by the Council or approved timely.

Recommendation

The City Council maintain complete and accurate minutes for all meetings and ensure meeting minutes are signed by the preparer. Also, ensure meeting minutes are timely reviewed and approved.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Status

Not Implemented

We reviewed all open and closed session minutes provided to us for the period July 2017 through December 2017. The city could not locate closed minutes for 3 closed meetings held during that time. The City Administrator had not signed any of the minutes as the preparer. Also, closed minutes from February and March 2017 were not approved timely, and minutes of 2 closed sessions held in April 2017 had not been approved.

5.4 Agendas

The city did not include sufficient details in meeting notices and agendas to advise the public of all matters to be considered. Notices and agendas included vague statements such as new business, unfinished business, and old business. In addition, the meeting notices and agendas were not provided for some meetings.

Recommendation

The City Council ensure proper notification and agendas for public meetings are given and sufficiently detailed.

Status

Partially Implemented

Councilmembers are now required to submit their agenda items to the Mayor several days prior to the scheduled meeting so these issues can be added to the official agenda before it is printed. The notices and agendas we reviewed included significantly more detail on the topics to be discussed. The city could not locate or provide the agendas from 2 meetings held in September and October 2017.

6.1 Salaries and Employee
Leave - City
Administrator leave
payouts

The City Administrator received two payouts of accrued vacation leave, one of which was not adequately supported by the city's leave records. These payouts violated the city's personnel policy and were not approved by the Council. In addition, while the Council was notified of concerns regarding the first leave payout, sufficient actions were not taken to further investigate the matter. Personnel policies do not specify who should authorize payment of accrued leave and the Council does not pre-approve payroll transactions, increasing the risk that improper payments may occur and not be detected.

In April 2014, the City Administrator was paid for 290 hours of vacation, costing the city about \$5,000 but the payout was not supported by the city's leave records. The City Administrator indicated the payout was valid because employee turnover in the bookkeeping department prior to 2014 resulted in record-keeping errors that understated her vacation leave balance by 200 hours; however, she provided no additional records or other documentation to support this claim. In addition, the City Administrator was paid for 64 hours of vacation in December 2015, costing the city about \$1,100, without Council approval.

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

Recommendation

The City Council review and revise personnel policies to ensure provisions regarding vacation leave and payouts are clearly defined. Additionally, the Council should determine if recovery of overpayments is warranted, pre-approve any future vacation payouts before they occur, and develop procedures to monitor employee leave records.

Status

Partially Implemented

Councilmembers said they held discussions after the release of the audit and decided not to pursue recovery of monies from the City Administrator due to the poor leave balance records. A majority of the Councilmembers at our meeting agreed that no payouts of leave would be made in the future unless authorized by the Council. The Council has not made a formal decision on changes to personnel policies or prepared a draft of proposed changes, but Councilmembers said revisions to the personnel manual will be a priority in the near future. The Council has taken no action to develop procedures to monitor employee leave records for accuracy and completeness.

**6.2 Salaries and Employee
Leave - Mayor pro-tem
salary**

The city violated state law and overpaid an elected official who served a dual role.

The former mayor was removed from office by a judge's order in May 2014, and the position remained vacant until a new mayor was elected and took office in November 2014. During the time of the vacancy, a court-appointed receiver provided independent oversight over the city's financial transactions. The City Council elected a new Mayor Pro-Tem in September 2014 who served as Acting Mayor until November 2014 and continued to serve in the role of Mayor Pro-Tem. The city overpaid the Acting Mayor a pro-rated salary of about \$1,625 over a three-month period. During this time, she improperly received both the monthly salary as a councilmember of \$625 plus the monthly salary as mayor of \$1,667.

Recommendation

The City Council review and determine if recovery of the overpayment is warranted, and ensure any similar future payments, if needed, comply with state law.

Status

Implemented

The Council held further discussions and consulted with the city attorney after the release of the audit. Based on those discussions and the city attorney's verbal opinion, a decision was made not to pursue recovery of monies from the Mayor Pro-Tem.

7. Restricted Monies

The city was not properly tracking and recording certain restricted monies. State motor vehicle-related and half-cent Capital Improvements Sales Tax monies were comingled with general purpose monies rather than being accounted for in separate funds. City personnel deposited these monies into

City of Wellston
Follow-up Report on Audit Findings
Status of Findings

the General Fund, and while they tracked receipts by restricted source, they did not track the subsequent disbursements and balances. As a result, the city could not determine what portion of the General Fund represents restricted monies. Also, the city could not demonstrate disbursement of the funds occurred in accordance with state law, applicable ballot language, and/or city ordinance.

Recommendation

The City Council determine the amount of restricted monies in the General Fund and establish separate funds or a separate accounting of these monies.

Status

In Progress

No actions had been taken prior to our follow-up review to implement this recommendation. In January 2018, the Council instructed the independent accountant to establish separate bank accounts for the restricted monies to allow for more transparent tracking of the associated receipts and disbursements. This change is expected to be implemented within 60 days.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 33 political subdivisions required to file a financial report by January 31, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in January 2018, after their filing deadline. The filing status for these 37 entities is presented in summary on page 3 and by individual entity in Appendix B-C.

Monthly Report on Political Subdivision Filings

January 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 33 political subdivisions, other than cities, towns, and villages, with a fiscal year end of July 31, 2017. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 33 political subdivisions, 23 filed an annual financial report by January 31, 2018.

This report also includes the filing status for 37 political subdivisions, other than cities, towns, and villages, that filed their financial report in January 2018, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the cities, towns, and villages required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180. No cities, towns, or villages had a fiscal year end of July 31, 2017; therefore, no financial reports, addendums, or certifications were due by January 31, 2018.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

This report includes the updated filing status for cities, towns, and villages that filed at least one of the items (financial report, addendum, or certification) in January 2018, after their filing deadline. The filing status for these 71 cities, 1 town, and 12 villages is presented in summary on page 4 and by individual entity in Appendixes A to D.

Monthly Report on Municipal Court and Revenue Filings

January 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum. On March 28, 2016, the Circuit Court of Cole County issued a judgment enjoining the SAO from enforcing the provisions of Section 479.359.3, RSMo. On May 15, 2017, the Missouri Supreme Court issued a decision reversing the trial court judgment.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

No cities, towns, or villages had a fiscal year end of July 31, 2017; therefore, no financial reports, addendums, or certifications were due by January 31, 2018.

Monthly Report on Municipal Court and Revenue Filings
January 2018
Executive Summary

This report includes the filing status for 71 cities, 1 town, and 12 villages that filed at least one of the items (financial report, addendum, or certification) in January 2018, after their filing deadline. Of these entities, 70 filed an annual financial report, 12 filed an addendum, and 14 filed a certification.

Office of Missouri State Auditor
Nicole Galloway, CPA

**Compilation of 2017 Criminal
Activity Forfeiture Act Seizures**

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Compilation of 2017 Criminal Activity Forfeiture Act Seizures

Background	State law requires prosecuting attorneys and the Attorney General to report seizures made under the Criminal Activity Forfeiture Act (CAFA) to the State Auditor and the Director of the Department of Public Safety.
CAFA Seizure Reports Submitted	The State Auditor's Office received 116 CAFA seizure reports from prosecuting attorneys and the Attorney General for property seized during the 2017 calendar year. State law states intentional or knowing failure to comply with reporting requirements shall constitute a class A misdemeanor.
Disposition of the Seizures Reported	The overall dollar value for property seized in 2017 was \$7,053,456. Of that total, \$679,549 was returned, \$3,256,377 was transferred to a federal agency, and \$180,363 was transferred to the state. The disposition for \$2,542,029 was pending at the time of reporting, and no disposition was reported for \$322,784. Dispositions reported by each prosecuting attorney and the Attorney General are included in an appendix attached to the report.
Reporting of Seizures Information	State law states prosecuting attorneys and the Attorney General are to report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions.

Because of the nature of this compilation, no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

As required by Section 513.607, RSMo, we have compiled the 2017 Criminal Activity Forfeiture Act (CAFA) seizure reports submitted to the State Auditor by prosecuting attorneys and the Attorney General. The compilation is limited to information that is submitted to the State Auditor's Office. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them. The primary objectives of this compilation were to:

1. Compile the 2017 CAFA seizure information reported.
2. Identify officials who submitted 2017 CAFA seizure reports to the State Auditor.

Section 513.607, RSMo, requires prosecuting attorneys and the Attorney General to report CAFA seizures for the previous calendar year by January 31, to both the Director of the Department of Public Safety and the State Auditor. Of the 116 potential reporting officials, we received all 116 CAFA seizure reports.

Compliance with Section 513.653, RSMo, which requires law enforcement agencies involved in using the federal forfeiture system to submit reports regarding federal seizures and the proceeds therefrom to both the Department of Public Safety and the State Auditor's Office, will be separately reported.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Senior Analyst:	Jill Wilson, MBA

Compilation of 2017 Criminal Activity Forfeiture Act Seizures

Executive Summary

CAFA Seizure Reports Submitted

The State Auditor received 116 of the total possible 116 CAFA seizure reports from prosecuting attorneys and the Attorney General for property seized during calendar year 2017.

Section 513.607.10, RSMo, states intentional or knowing failure to comply with any reporting requirement shall be a class A misdemeanor punishable by a fine of up to \$1,000.

Disposition of the Seizures Reported

We compiled the disposition of seizures as reported by prosecuting attorneys and the Attorney General for property seized during calendar year 2017. The following table lists the overall dollar value of the dispositions by category as reported to the State Auditor for 2017, 2016, and 2015.

Reported Disposition	2017		2016		2015	
Pending	\$ 2,542,029	36.0 %	\$ 2,588,046	41.4 %	\$ 2,005,199	33.4 %
Returned	679,549	9.6	482,142	7.7	416,612	6.9
Transferred to Federal Agency	3,256,377	46.2	2,745,658	43.9	3,167,512	52.8
Transferred to State	180,363	2.6	97,067	1.6	62,733	1.0
Other	72,354	1.0	15,680	0.2	0	0.0
Disposition Not Reported	322,784	4.6	324,733	5.2	350,978	5.9
Total	\$ 7,053,456	100.0 %	\$ 6,253,326	100.0 %	\$ 6,003,034	100.0 %

See Appendix I for the 2017 CAFA seizures disposition as reported by each prosecuting attorney and the Attorney General.

Reporting of Seizures Information

Section 513.607.8, RSMo, states prosecuting attorneys and the Attorney General are to report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions. See Appendix II for the number of 2017 CAFA seizures that reported this information.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

During my term as State Auditor, the office has conducted a series of audits, referred to as the Budget Integrity Series, focused on the integrity of the state budget. Audit report topics included the Hancock Amendment, timeliness of individual income tax refunds, the cost of tax incentives and exemptions, tax credit programs, and public higher education funding and affordability, among others. This report is the culmination of the series, and was compiled using information from those audits, as well as a contracted economic analysis performed by the University of Central Missouri, and other recent comparative studies. This report is intended to present key economic data impacting Missouri's budget, to communicate the impact of current and potential budget conditions on Missouri families, and to identify the impact of various economic stress factors on the budget.

The increased stress on the Missouri budget from an eroding tax base while expenditures increase has resulted in the General Assembly cutting discretionary budget areas such as education and transportation. As a result, Missouri families face an increased burden from higher local education and transportation taxes as well as increased higher education costs. Additionally, the current budget condition has greatly reduced Missouri's ability to manage cash flows and forced the use of contingency funds for temporary cash flow shortages rather than longer-term budgetary support making the state's budget increasingly sensitive to economic downturns.

The state's long-term fiscal health is in the best interests of all taxpayers, and requires careful review and evaluation from policymakers. This report makes information identified during multiple audits available for evaluation and consideration, and discusses the potential impact of economic stress on the Missouri budget. The Missouri legislature and Governor share the responsibility of crafting our state budget. It is my hope that this report helps them better prepare for the difficult decisions regarding the economic challenges facing our state, for the benefit of all Missourians.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Robert E. Showers, CPA, CGAP
Audit Manager:	Kelly Davis, M.Acct., CPA, CFE

State Budget Stress Test

Introduction

Background

Missouri is experiencing a continued period of low unemployment and the state's economy and fiscal position ranks above many states in national comparisons; however, the state budget continues to face shortfalls as discussed in the report.

Missouri economic statistics

Missouri ranked eleventh nationally in fiscal health, according to a July 2017 study by the Mercatus Center at George Mason University,¹ and fifteenth in a 2017 State Business Tax Climate Index published by the Tax Foundation.² The seasonally adjusted unemployment rate of 3.4 percent for November 2017 is also a historic low and lower than the national average of 4.1 percent. At the same time, Missouri lost just over 20,000 jobs (.7 percent) during the 12 months ended September 2017, according to United States Bureau of Labor Statistics data.³ This falls behind the national employment trend of positive job growth over that period. According to estimates from the U.S. Bureau of Economic Analysis, Missouri ranked 22nd nationally in gross domestic product (GDP) at \$263.4 billion in inflation-adjusted dollars as of the second quarter of 2017.⁴ Missouri GDP increased .45 percent during that period while nationally inflation-adjusted gross domestic product increased 2.05 percent over that period.⁵

Missouri budget process

The Governor and the General Assembly determine the state's annual fiscal year budget.⁶ The state budget is comprised of approximately equal parts federal funds for specified purposes, state constitutionally-dedicated revenue, and general revenue.

By October 1 of each year, state offices and agencies submit budget requests for the following fiscal year⁷ to the Office of Administration Division of Budget and Planning and the General Assembly. Traditionally, the Governor and Senate and House of Representatives (House) Appropriation Chairs

⁷ Missouri's fiscal year runs from July 1 through June 30 of the following year.

State Budget Stress Test

Introduction

determine a consensus revenue estimate, to approximate the amount of funds available for the state budget.⁸ The Governor must submit an executive budget to the General Assembly within 30 days after the legislative session convenes, with copies available to the public.

While both legislative chambers may conduct committee hearings contemporaneously, the 13 budget bills originate in the House. After approval by the House, the bills go to the Senate. The Senate, typically, adopts its own substitute bills and conference committees meet in late April or early May to reconcile the bills. The deadline for final legislative approval is one week before the end of the legislative session. Truly Agreed To and Finally Passed bills are sent to the Governor, who may sign a bill, veto it in its entirety, or more typically, line-item veto specific appropriations. The legislature may override any veto by a two-thirds majority vote, which may occur during the legislative session (depending on the date of the bill's passage) or in the September veto session.

Scope and Methodology

This report compiles recent applicable findings from State Auditor's Office (SAO) reports related to the Missouri budget and key economic data impacting the Missouri budget. Our methodology included reviewing recent legislation, national and state economic data, comparative state budget information, other "stress test" analyses conducted, and analyzing key budget data.

The SAO also contracted with the University of Central Missouri (UCM) to analyze General Revenue Fund historic inflow and outflow data and model the impact of various factors on the Missouri budget. The UCM economists prepared a report⁹ and applicable information from that report is included in this report. In addition, the economists developed various modeling tools that are available on the SAO website and were used in the stress test analysis.

⁸ State law does not require a consensus revenue estimate, and in 2014, the Governor and legislature could not agree on one for fiscal year 2015.

State Budget Stress Test

Summary of Results

1. Missouri's Financial Position and Recession Preparedness

State taxes remain low compared to other states, as does economic performance. Significant downward pressure on the state tax base and state revenues in combination with increased mandatory expenditures in Medicaid has resulted in reductions in discretionary state budget items that significantly impact Missouri families. In addition, the state is without sufficient contingency funds to address budget shortfalls in the event of an economic downturn. Action is needed to ensure the state can fulfill its obligations to its citizens and ensure the state has adequate contingency funds available to avoid drastic budget cuts in the event of a recession.

1.1 State taxes are low and have shown slow growth

Historical federal data¹⁰ shows that, with a tax collections-to-gross domestic product (GDP) ratio of .04, Missouri was among the lowest taxed states in the nation from fiscal year 1999 to 2015. Over that period, federal data also shows Missouri had the 3rd lowest rate of tax growth (-0.1 percent), and only two states (Michigan and Louisiana) had a worse real economic growth rate than Missouri (.7 percent).

As shown in Figure 1, when adjusted for inflation, state General Revenue (GR) Fund revenues have just begun to return to pre-2007 recession levels. Adjusted GR Fund revenues have experienced average annual revenue growth of 1.14 percent from 2003 to 2017.

Figure 1: General Revenue Fund revenues, by source, fiscal years 2003 - 2017, adjusted for inflation

Source: SAO and UCM analysis of Economic and Policy Analysis Research Center (EPARC), University of Missouri, and SAM II data. Inflation factors from UCM economists analysis of Consumer Price Index (CPI) data from <<https://fred.stlouisfed.org/series/CPIAUCSL>>.

Reductions to income tax

Recent audits have included information on legislative reductions to corporate and individual income tax revenue. Most notably, the audit of state

¹⁰ Acevedo, Christopher D, Cravioeanu, Mihaela O., and Crooker, John R.; University of Central Missouri, *Missouri Budget Integrity*; November 26, 2017.

State Budget Stress Test Summary of Results

Sales tax revenues have declined

incentives and exemptions¹¹ cited the implementation of Senate Bill (SB) 19 (2015) to reduce corporate income taxes in recent years that has reduced corporate income tax revenue by approximately \$177 million in 2016 and 2017. In addition, SB 509 (2014) will result in individual income tax rate reductions that are estimated to reduce individual income tax revenue by as much as \$621 million annually when fully implemented by 2022. Also, Missouri continues to be the only state currently offering a withholding tax discount for timely payment of withholding taxes. This discount costs the state approximately \$29 million in revenue in fiscal year 2017.

Sales and use tax revenues over the past 15 years have declined by an average of .11 percent per year when adjusted for inflation. See Figure 2 for GR Fund sales and use tax collections, adjusted for inflation. This data is consistent with audit findings presented in a recent audit of tax incentives and exemptions that found the General Assembly has taken various actions, including passing additional sales tax exemptions, to place downward pressure on the state's sales tax base and reduce state revenues. The audit found new exemptions have been added without adequate tracking to determine their impact.

Figure 2: Sales and use tax collections fiscal years 2003 - 2017, adjusted for inflation

Source: SAO analysis of EPARC and Department of Revenue data. Inflation factors from UCM economists analysis of CPI data from <<https://fred.stlouisfed.org/series/CPIAUCSL>>.

The General Assembly has also not taken action to reduce or eliminate the 2 percent discount businesses receive for timely payment of sales tax to the state. As discussed in the audit of tax incentives and exemptions, the state's sales tax discount is the second most generous such discount in the country and costs the state approximately \$60 million per year. By continuing to erode the sales tax base, the state has become increasingly reliant on individual

¹¹ SAO, *Cost of Tax Incentives and Exemptions*, report number 2017-113, issued October 2017.

State Budget Stress Test Summary of Results

income tax revenue for general revenue funding, making the state's tax base more sensitive to economic fluctuations. For example, in 2003 individual income taxes made up 53 percent of GR Fund revenues, but in 2017 they made up approximately 65 percent of these revenues. See the Supplemental Information section for more detail.

Tax credit redemption trends A recent audit of tax credit programs¹² shows that tax credit redemptions continue to increase and have exceeded \$500 million every fiscal year since 2009. In addition, the state has approximately \$3 billion in tax credits authorized and unredeemed that will reduce revenues for years into the future. The varying carryforward provisions of the state's tax credit programs result in significant volatility in tax credit redemptions from year to year, and cause uncertainty in the budget process.

Recent decisions to not authorize current year Low Income Housing Tax Credits will reduce the state's long-term obligations, but will have little to no short-term impact on state revenues.

Federal tax bill will reduce revenues Recent studies have evaluated the potential impact of the federal tax changes enacted in December 2017. Due to Missouri's tax code being coupled with the federal tax code, these changes will impact state tax revenues. The state tax calculation uses the federal tax deduction claimed by a taxpayer when determining state taxes owed. The federal tax bill changes, which primarily become effective January 1, 2018, will increase the standard deduction, while also eliminating personal exemptions, and also reduce some itemized deductions. An analysis performed by the Economic Policy Center and Research Center (EPARC) at the University of Missouri estimated the net impact of this federal legislation to Missouri's GR fund would be to reduce revenue by \$58 million per year. Other analyses have estimated the impact at over \$500 million per year.

Avoiding a reduction in state revenues due to changes in the federal tax law would require legislative action by the General Assembly.

1.2 Expenditures

State expenditures continue to rise as the state faces downward pressure on revenue. Additionally, some mandatory expenditure items increasingly comprise a larger portion of the GR Fund budget forcing the General Assembly to make cuts in other areas. Figure 3 shows the composition of GR Fund expenditures since 2003. Overall, expenditures have increased since 2010, but are still below pre-recessionary levels, when adjusted for inflation. In 2003, Medicaid expenditures comprised 19 percent of GR Fund expenditures and 23 percent in 2016 while higher education expenditures fell from 13 percent of GR Fund expenditures to 10 percent.

¹² SAO, *Tax Credit Programs*, report number 2017-51, issued June 2017.

State Budget Stress Test Summary of Results

Figure 3: Composition of General Fund Expenditures by Function (adjusted for inflation), in millions, fiscal years 2003-2017

Source: National Association of State Budget Officers, State Expenditure Reports, 2003-2016, <<https://www.nasbo.org/reports-data/state-expenditure-report/state-expenditure-archives>>, accessed December 20, 2017 and January 22, 2018. The 2017 expenditure data is estimated. Inflation factors from UCM economists analysis of CPI data from <<https://fred.stlouisfed.org/series/CPIAUCSL>>.

Medicaid

Mandatory Medicaid spending continues to increase and comprise a larger percentage of the overall budget. Figure 4 shows GR Fund Medicaid expenditures, adjusted for inflation, since 2003.

Figure 4: Medicaid General Revenue Fund expenditures (adjusted for inflation), in millions, fiscal years 2003 to 2017

Source: National Association of State Budget Officers, State Expenditure Reports, 2003-2017, <<https://www.nasbo.org/reports-data/state-expenditure-report/state-expenditure-archives>>, accessed December 20, 2017 and January 22, 2018. The 2017 expenditure data is estimated. Inflation factors from UCM economists analysis of CPI data from <<https://fred.stlouisfed.org/series/CPIAUCSL>>.

State Budget Stress Test Summary of Results

While the majority of Medicaid costs are reimbursed by the federal government (approximately an average of 62 percent¹³), Missouri is required to contribute a portion of the costs to maintain federal funding. The Centers for Medicare and Medicaid, Office of the Actuary projects the annual average growth rate of Medicaid expenditures from 2016 to 2025 to be 5.7 percent nationally, a faster rate than the projected average annual GDP growth of 4.8 percent.¹⁴ Additionally, because Medicaid¹⁵ eligibility is based on income and was not expanded as part of the Affordable Care Act, Medicaid spending will be increasingly sensitive to any future economic downturn.

Pension liabilities continue to grow

Unfunded pension liabilities continue to grow in the state's primary pension fund and now exceed \$4.2 billion. Unfunded pension liabilities in the Missouri State Employees' Retirement System (MOSERS) have increased an average of 13 percent per year since 2010, and have grown by 232 percent from pre-recession levels in 2008 to 2017. Over that time the funded ratio for the MOSERS fund has gone from 86 percent to 67 percent. Figure 5 shows the MOSERS unfunded liability and the funded ratio from fiscal year 2008 to 2017.

Figure 5: Unfunded MOSERS fund liabilities, in millions, and funded ratio, fiscal year 2008 to 2017

¹⁵ Missouri's Medicaid program eligibility is based on income and determined as a percentage of the federal poverty level. Missouri's program covers the disabled/blind, elderly, custodial parents, children, and pregnant women.

State Budget Stress Test Summary of Results

Legislative changes in 2011 required new state employees to contribute to the pension plan. Despite this change, pension fund assets have not kept pace with actuarial liabilities, resulting in the increase in unfunded liabilities.

1.3 Insufficient contingency funding

Missouri's Budget Reserve Fund (BRF), which acts as the state's "rainy day fund," does not maintain sufficient reserves to insulate the state budget during an economic downturn. According to a 2017 stress test report from Moody Analytics,¹⁶ Missouri ranks 42nd in the nation in terms of preparedness for a moderate economic downturn. According to data presented in the report, Missouri requires a BRF fund balance of approximately \$900 million just to be considered 'somewhat prepared' for a moderate recession. In contrast, the balance of the BRF at June 30, 2017 was \$591 million.

According to the Moody report, the Missouri economy is particularly sensitive to economic downturns, resulting in larger revenue reductions and larger Medicaid expenditure increases in the event of a recession. In terms of combined fiscal shock, the report ranks Missouri as the 6th most sensitive state to a moderate recession. This increased sensitivity can be attributed, in part, to the state becoming more reliant on income taxes, and less reliant on sales taxes, for general revenue. The lack of Medicaid expansion, while keeping state spending for the program lower, also makes state Medicaid spending more sensitive to economic downturns. According to the report, the fewer individuals covered by the state's Medicaid program under normal conditions means a sharper increase in enrollments during economic downturns.

Increased borrowing from the Budget Reserve Fund

The audit of timeliness of income tax refunds¹⁷ documented the state's increased borrowing from the BRF to cover cash flow issues, including the ability to make timely tax refunds, in the GR Fund throughout the fiscal year. There are no constitutional restrictions on how much of the fund can be used for cash flow needs. As a result, borrowing from the BRF has continually increased since the last recession, including borrowing \$500 million from the fund in fiscal year 2017. While the GR Fund repaid these borrowed funds by May 16, 2017, as required by the Missouri Constitution, the BRF is increasingly being relied upon to fund normal operations of the state and would, therefore, not be available for budget stabilization should the need arise.

Figure 6 shows a comparison of the fund balance, by month, in the BRF in fiscal year 2008 (pre-recession) and fiscal year 2016 and 2017. While the

¹⁶ Moody Analytics, *Stress Testing States*,

¹⁷ SAO, *Timeliness of Income Tax Refund Issuance*, report number 2018-001, issued January 2018.

State Budget Stress Test Summary of Results

BRF balance never dropped below \$400 million during fiscal year 2008, the fund balance dropped below \$400 million for 9 months during each of fiscal year 2016 and 2017. In fiscal year 2017 the fund balance dropped below \$200 million for 6 months, and reached a low balance of \$100 million.

Figure 6: Budget Reserve Fund balance, by month, fiscal year 2008, 2016, and 2017

Source: SAM II data

Budget Reserve Fund restrictions

Constitutional provisions¹⁸ regarding the BRF limit the balance of the fund to 7.5 percent of general revenue collections. Based on this restriction, the balance of the BRF at June 30, 2017, would have been limited to approximately \$660 million (7.5 percent of the \$8.79 billion net general revenue collections in fiscal year 2016). The actual fund balance was \$591 million. Both amounts are well below the preparedness balance suggested by the Moody Analytics report (approximately \$900 million). With legislative approval the balance of the fund can accumulate to as high as 10 percent of general revenue collections. In fiscal year 2017 that limit would have been \$879 million. Therefore, even if the BRF balance was at its constitutional maximum it would still be short of the estimated balance needed to be considered prepared.

Additional restrictions exist for using the BRF for budget stabilization purposes. To be used for this purpose the legislature must approve such a use by a 2/3 vote. Such an approval can make timely access to contingency funds difficult. According to the Moody's Analytics report, having clear rules for when reserve funds can be used and for what purpose can help avoid indecision by policymakers when funds are needed, and help avoid the need

¹⁸ At the end of any fiscal year any Budget Reserve Fund balance exceeding 7.5 percent of the general revenue collections must be transferred to the GR Fund as required by the Missouri Constitution, unless the legislature directly appropriates a higher amount in the Budget Reserve Fund (except the balance in the fund at year-end cannot exceed 10 percent of general revenue collections).

State Budget Stress Test Summary of Results

for more drastic budget decisions when contingency funds exist to help avoid such decisions.

Hancock Amendment limitations

Article X, Sections 16 through 24, of the Missouri Constitution, commonly referred to as the Hancock Amendment, places restrictions on the amount of personal income used to fund state government, and the amount by which fees and taxes can be increased. Specifically Section 18(e) requires voter approval before taxes or fees can be increased by the General Assembly beyond a certain annual limit. As discussed in the review of compliance with Hancock Amendment requirements,¹⁹ based upon the calculation provided by the state's Office of Administration, the relevant annual revenue limit for fiscal year 2017 was \$101.5 million.

The limitations placed on the legislature by the Hancock Amendment do not allow legislators and policymakers the flexibility to reverse cuts to revenue that may exceed expectations. Once laws are passed to reduce revenue, in the form of tax rate reductions, sales tax exemptions, or otherwise, revenues cannot be increased above the Section 18(e) threshold via legislative changes without a public vote. Due to such a strict limitation, legislators and policymakers must ensure the fiscal impacts of proposed legislation is estimated accurately, are not understated, and taxpayers are getting the promised return on investment.

1.4 Missouri families face an increased burden

Missouri families are increasingly impacted by state budget decisions, including reduced funding for education, as well as many taxes being shifted to the local level, including property taxes for education and special taxing district sales taxes for development. In the case of higher education, reductions in state funding leads to increased costs being directly passed on to students and families in the form of higher tuition and fees. Other legislative decisions, such as maintaining low unemployment benefits, also negatively impact Missouri families.

Elementary and secondary education funding

State funding for elementary and secondary education (ESE) was reduced significantly in 2010 as a result of the recession. As shown in Figure 7, spending on ESE has increased steadily since the recession, but is still lower than pre-recession levels when adjusted for inflation. Overall, expenditures for ESE have increased by an average of .79 percent per year from 2003 to 2017, when adjusted for inflation. As reported in the Missouri School Data Reporting audit,²⁰ Missouri ranked 29th nationally in spending per student for the 2013-2014 school year and the \$11,293 average per student is 8.4 percent below the national average of \$12,335.

¹⁹ SAO, *Administration Review of Article X, Sections 16 Through 24, Constitution of Missouri Year Ended June 30, 2016*, report number 2017-033, issued May 2017.

²⁰ SAO, *Missouri School Data Reporting*, report number 2017-146, issued December 2017.

State Budget Stress Test Summary of Results

Figure 7: ESE expenditures (adjusted for inflation), in millions, fiscal year 2003 to 2017

Source: National Association of State Budget Officers, State Expenditure Reports, 2003-2017, <<https://www.nasbo.org/reports-data/state-expenditure-report/state-expenditure-archives>>, accessed December 20, 2017 and January 22, 2018. The 2017 expenditure data is estimated. Inflation factors from UCM economists analysis of CPI data from <<https://fred.stlouisfed.org/series/CPIAUCSL>>.

As a result of minimal growth in state funding for ESE, school districts are increasingly dependent on local funding. In fiscal years 2015 and 2016, Missouri had the 4th highest percentage of ESE funding from local sources in the country, and was ranked 48th in ESE funding from state sources according to the National Education Association (NEA).²¹ Per an October 2017 Missouri Department of Elementary and Secondary Education report,²² the number of schools with over 50 percent of revenue coming from local sources increased between fiscal years 2006 and 2016 to 170 of the 517 (33 percent) school districts. Overall, 350 of the 517 school districts (68 percent) had an increase in the percentage of local funding between fiscal years 2006 and 2016. As school districts face reduced state revenues and become more dependent on local tax revenues, districts may be forced to request increased property tax levies, increasing the burden to families, or cut key educational programs. Increased reliance on local property taxes will also lead to increased inequality between school districts in the state.

Higher education funding

The recent audit evaluating funding and affordability of public higher education²³ reported that when compared to other states, Missouri ranked

²¹ NEA Rankings and Estimates, Rankings of the States 2016 and Estimates of School Statistics 2017, <http://www.nea.org/assets/docs/2017_Rankings_and_Estimates_Report-FINAL-SECURED.pdf>, accessed November 13, 2017, pp. 63-64.

²³ SAO, *Public Higher Education and Affordability*, report number 2016-071, issued August 2016.

State Budget Stress Test Summary of Results

43rd in the nation in state funding for higher education per \$1,000 in personal income and state appropriations provided to 4-year public institutions decreased. Average state appropriations per full-time equivalent (FTE) student declined from \$7,778 per student in fiscal year 2009 to \$6,332 per student in fiscal year 2015. Higher education institutions have responded by increasing tuition and supplemental fees as a way to generate additional revenue. As shown in Figure 8, this increases the amount paid by Missouri families and places a further burden on those families sending children to public institutions.

Figure 8: Net tuition and fees per FTE student, in dollars, fiscal year 2009 to 2015

Source: Prepared by the SAO using the Integrated Post-Secondary Education Data System tuition data and enrollment information from the Missouri Department of Higher Education.

Local sales and use taxes continue to increase

Figure 9 shows sales taxes at the local level have shown continued growth over pre-recession levels. While there are many reasons local governments are increasing the use of local sales taxes, a recent audit of Transportation Development Districts²⁴ and the ongoing audit of Community Improvement Districts have shown the increase is, in part, due to an increase in special taxing districts. Such taxes typically go toward financing development projects rather than the general needs of the public. Increased sales taxes at the local level do not impact state revenues, but represent an additional cost to Missouri families.

Unemployment insurance benefits

Missouri's unemployment insurance laws make the state's benefits among the lowest in the nation. State unemployment trust funds are funded with taxes collected from employers in the state and unemployment benefits are paid to eligible workers who are unemployed through no fault of their own. The maximum unemployment insurance benefit duration period in Missouri is 20 weeks. Only two states have a benefit duration period shorter (Florida and North Carolina), and 44 states and the District of Columbia have durations of 26 weeks or more. Missouri's maximum weekly benefit amount of \$320 is the 6th lowest in the country, and is at least 30 percent lower than the national average.²⁵

According to the United States Department of Labor, unemployment insurance helps prevent families from falling into poverty and provides economic stimulus, particularly in times of recession. Providing such minimal unemployment insurance assistance places an additional burden on Missouri families and places additional pressure on the state budget during times of recession due to reduced consumer spending by unemployed individuals during those periods and a heavier reliance on social service programs.

Conclusion

Missouri has historically been a low tax state. Despite the low tax rate and a long-standing reputation for being business friendly, the state has also historically been a slow growth state. While Missouri has experienced a period of record low unemployment and job growth since the 2008 recession,

²⁵ Unemployment benefits comparison by state, <https://fileunemployment.org/unemployment-benefits-comparison-by-state>, accessed January 23, 2018, and updated through independent verification of various state labor websites.

State Budget Stress Test Summary of Results

when adjusted for inflation, state revenues are roughly equal to pre-recession periods, General Revenue Fund expenditures are below pre-recession levels, state expenditures for elementary and secondary education as well as higher education are down and below national averages, and cash flow balances do not always allow for timely payment of income tax refunds. In addition, the burden of funding roads and elementary and secondary education has been shifting to the local level, and costs of higher education have been passed on to students. During good economic times, when reserve funds should be replenished, the state is instead in a position of needing to borrow from reserve funds for normal operations. The use of BRF monies throughout the year to cover cash flow shortages will result in such funds not being available for budget stabilization when a recessionary economic period hits. Not having sufficient budget reserve funds available for budget stabilization will necessitate drastic budget cuts when the economy can least afford them, and will be in areas that directly impact Missouri families.

2. Stress Test

Missouri, as well as the nation, is experiencing an extended period of positive economic growth following the 2008 recession, with current record low unemployment levels. Despite these positive economic conditions, the state's financial condition has not shown significant improvement. According to the National Bureau of Economic Research, the United States economy began a period of economic expansion in June 2009, which puts the current period of economic expansion at 103 months. The previous 5 economic expansions since 1980 averaged 60.4 months, with a median expansion period of 74 months, and the longest expansion period being 121 months. Periods of economic retraction are inevitable, and the near-term likelihood of such a period increases with every month of expansion. With this in mind, it is in the best interest of the state and its taxpayers that policymakers plan ahead for downturns in the economy.

In an effort to examine the condition of the Missouri economy and state budget, as well as to determine the impact of an economic downturn on the state budget, the State Auditor's Office contracted with economists from the University of Central Missouri (UCM) to analyze these issues. In addition, we asked the economists to develop an economic forecasting model to assess the impacts of economic stress on the state budget. A report²⁶ prepared by the economists summarizes the analysis performed and the methodology of the forecasting model. The developed stress test model allows users to apply various stresses on the state economy to estimate the impact on the state budget. The contracted report and interactive tool are available at

²⁶ Acevedo, Christopher D, Cravioeanu, Mihaela O., and Crooker, John R.; University of Central Missouri, *Missouri Budget Integrity*; November 26, 2017.

State Budget Stress Test Summary of Results

www.auditor.mo.gov. The model is based on trends in historical data and uses updated data from www.fred.stlouisfed.org to project the results produced.

2.1 Unemployment change

The unadjusted online stress test model²⁷ projects unemployment to increase to approximately 9 percent (2009 recession levels) in fiscal year 2021. Such an increase in unemployment levels is projected to result in GR Fund revenues of \$8.8 billion in fiscal year 2021, a \$600 million shortfall from the fiscal year 2018 GR Fund budget of \$9.4 billion.

These estimates do not take into account the tax rate reduction impacts of SB 509 (2014) or recent federal tax law changes. These revenue cuts would be in addition to the stress test model reductions above. When combined, the GR Fund is potentially facing a revenue reduction of \$1 billion from the fiscal year 2018 budget level in the event of such a recession. Such a significant reduction in revenues would necessitate an equivalent amount of spending cuts. Based on spending cuts made during the previous recession, the majority of budget cuts will be felt in higher education and elementary and secondary education.

As discussed on page 10, existing contingency funds are not sufficient to avoid or soften the budget cuts necessary to balance the budget in the event of a recession. In addition, if budget reserve funds continue to be used to cover cash flow shortages for operational expenses, the amount of contingency funds available for budget reserve, or "rainy day" purposes in the event of a recession will be minimal. As also discussed previously, various conditions make Missouri's budget more sensitive to recessionary periods, including an increased reliance on individual income taxes for revenue, and a lack of Medicaid expansion making Medicaid expenses more volatile. Action is necessary by the General Assembly and the Governor to address the issues of budget volatility, and improvements to the state's contingency fund would also help protect the state budget from recessionary periods.

2.2 Employment trends and impact of increased employment

Creating jobs, thereby increasing employment, has commonly been promoted as necessary to improve the state budget, and cited as a reason to justify income tax cuts. While adding jobs will always increase state revenues, it is important to analyze the potential fiscal impact of doing so, and put any potential employment growth into historical context.

According to data from the United States Bureau of Labor Statistics, there were an average of 2,952,310 people employed in Missouri during fiscal year 2016. Using fiscal year 2016 data, the state collected approximately \$2,973 per worker in GR Fund revenue for the year. Based on this average, the state

²⁷ Projected based on no change to the employment, unemployment rate, real wage, and productivity variables in the online model.

State Budget Stress Test Summary of Results

would have to create approximately 168,000 jobs²⁸ paying the state average wage to generate \$500 million in GR Fund revenue. For historical context, a net of 177,853 jobs were added to the Missouri economy from October 2010 to September 2017; a period which has seen record positive job growth. See Figure 10 for changes in Missouri's employment and unemployment levels over this timeframe. In addition, Missouri's total employment level has decreased approximately 33,000 jobs during 2017,²⁹ including 2 consecutive months where the state lost approximately 18,000 jobs per month. This decline in employment was also accompanied by a decline in the state's overall workforce.³⁰ Also, as of September 2017, there were approximately 116,000 unemployed workers in the state's workforce. See Figure 10 for historic employment levels.

Therefore, to achieve significant improvement to the state budget through added jobs, not only must new jobs be created, but the state workforce must add workers qualified to fill jobs that pay the state average wage.

Figure 10: Number of individuals employed and unemployed, October 2010 to September 2017

Source: United States Bureau of Labor Statistics data,

<<https://data.bls.gov/timeseries/LASST2900000000000006>>, accessed January 23, 2018.

2.3 Wage trends and impact of increased wages

Wages in Missouri have not kept pace with inflation. According to the UCM analysis, while total wages in Missouri have increased in recent years, they are roughly 2 percent below pre-recession levels, and are currently equivalent to wages from 1999, when adjusted for inflation (see Figure 11). On a per hour basis, wages are currently \$24.68 per hour, down from a high of approximately \$25 in 2016. The UCM economic stress test tool allows users

²⁸ $\$500,000,000 / \$2,973 = 168,180$ jobs

²⁹ United States Bureau of Labor Statistics data through September 2017, <<https://data.bls.gov/timeseries/LASST2900000000000006>>, accessed January 23, 2018.

³⁰ Overall workforce is the combination of employed individuals and unemployed individuals actively looking for work.

State Budget Stress Test Summary of Results

to estimate the impact of increasing wages. According to the tool, a \$1 increase to wages to \$25.68, which is higher than hourly wages have ever been in Missouri and would be considered a significant increase, would result in an increase in net GR Fund revenues of approximately \$300 million. This analysis tells us an increase in wages produces positive economic impact, as would be expected, however, the impact of a significant increase in wages does not produce significant enough GR Fund revenues to overcome current budget shortfalls.

Figure 11: Missouri wages, adjusted for inflation, fiscal years 2003 to 2015, in billions

Source: Acevedo, Christopher D, Cravioveanu, Mihaela O., and Crooker, John R.; University of Central Missouri, *Missouri Budget Integrity*; November 26, 2017, page 28, Figure 18.

2.4 Impacts of reduced income tax rates

The UCM economic analysis evaluated the potential impacts of a reduction in Missouri's top individual income tax rate from 6.0 percent to 5.9 percent; a reduction which takes place in 2018 as a result of SB 509 (2014).³¹ According to that analysis, a .1 percent reduction in the state income tax rate produces an increase in the state's economic activity of .6 percent. However, the additional economic activity is not sufficient to generate enough additional revenue to the state to make up for the corresponding loss in revenue created by the rate reduction. While the UCM report does not include specific dollar estimates, the result is a net reduction in state revenues. According to fiscal note estimates of the bill's impact, revenue reductions could exceed \$600 million annually when fully implemented. According to the UCM analysis, based on Missouri's current and historic tax rate structure, no level of income tax rate reductions will result in a net increase in revenues to the GR Fund.

³¹ The bill allows for the reduction of the top individual income tax rate by .1 percent annually if certain economic thresholds are met until the rate reaches 5.5 percent.

State Budget Stress Test Summary of Results

Conclusion

The information presented in this report shows that Missouri's budget is not adequately prepared for an economic downturn. Increased reliance on individual income tax revenue has made the budget more sensitive to economic downturns, and inadequate contingency funds will not allow for a sufficient cushion to prevent drastic budget cuts that will impact Missouri families. Recent legislation reducing tax rates for individuals and corporations were enacted with expectations of increased employment and wages. However, moderate increases in the labor force since the recession, and recent declines in the labor force and employment, are signs that significant gains in employment can't be relied on to rescue the state budget. Similarly, wages in Missouri have historically lagged behind inflation and have not recovered from pre-recession levels. While improving wages to Missouri workers is necessary and will provide positive revenue to the state, any increases in wages cannot be relied on to provide the revenue needed to avoid significant budget cuts. Cuts to income tax rates already in law will not provide enough economic activity to overcome the significant revenue decreases expected, leaving the state with no option but to cut services, and reduce funding to areas that have already seen their funding reduced since the recession, such as elementary and secondary education and higher education.

State Budget Stress Test

Supplemental Information

The following information is supplemental to the report, and is presented for informational purposes only.

Figures A and B show the distribution of General Revenue (GR) Fund revenues for fiscal years 2003 and 2017. This information is presented to show the changes to the diversification of GR Fund revenues over time. Note the increase in the dependence on individual income tax revenue.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 312 political subdivisions required to file a financial report by December 31, 2017, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in December 2017, after their filing deadline. The filing status for these 8 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

December 2017

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 312 political subdivisions, other than cities, towns, and villages, with a fiscal year end of June 30, 2017. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 312 political subdivisions, 235 filed an annual financial report and 1 filed a partial financial report by December 31, 2017.

This report also includes the filing status for 8 political subdivisions, other than cities, towns, and villages, that filed their financial report in December 2017, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the cities, towns, and villages with a June 30, 2017, fiscal year end, that were required to file a financial report by December 31, 2017, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 257 cities, 5 towns, and 66 villages is presented in summary on pages 3-4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for cities and villages that filed at least one of the items (financial report, addendum, or certification) in December 2017, after their filing deadline. The filing status for these 10 cities and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to D.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

December 2017

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 257 cities, 5 towns, and 66 villages with a fiscal year end of June 30, 2017, whose financial report was due by December 31, 2017. Of these entities, 196 filed their financial report timely and 2 filed a partial financial report. There were 149 entities required to file an addendum, of which 86 were filed. There were 137 entities required to file a certification, of which 76 were filed.

Monthly Report on Municipal Court and Revenue Filings
December 2017
Executive Summary

This report also includes the filing status for 10 cities and 3 villages that filed at least one of the items (financial report, addendum, or certification) in December 2017, after their filing deadline. Of these entities, 6 filed an annual financial report, 2 filed an addendum, and 7 filed a certification.

CITIZENS SUMMARY

Findings in the audit of Sixth Judicial Circuit - Village of Ferrelview Municipal Division

Background	In August 2017, the Board of Trustees of the Village of Ferrelview voted to discontinue the village's municipal division. Pending traffic tickets were dismissed and court personnel either applied bond monies on hand to fines and court costs due or refunded the bonds. Final dissolution of the court is pending resolution of defendant licensing issues with the Department of Revenue, final storage of court files, and closure of court bank accounts. The Court Clerk position will be eliminated effective February 28, 2018. The village continues to employ a Police Chief, although he was suspended indefinitely with pay in December 2017. The Board's plan for future law enforcement activities is uncertain. Some findings in the report focus on issues that need resolution before final dissolution can occur or are required by law to be resolved, and include recommendations. Other findings do not contain recommendations due to the municipal division having been dissolved and the police department is no longer issuing traffic tickets.
Excess Revenues	The calculation of excess revenues by the village for 2016 shows the statutory percentage of court revenues allowed to be retained was exceeded. Approximately \$30,000 was calculated as the excess, but no money has been remitted to the Department of Revenue (DOR) as required. Adequate documentation was not retained to support the calculations and the Village Treasurer, who also serves as the Court Clerk, indicated some errors may exist in the amounts used in the calculation. Excess revenues calculations were not prepared for 2013 to 2015 so it is unclear if any excess revenues were due to the DOR for those years.
Liabilities	Unidentified balances exist in the municipal division bank accounts. Although the municipal division has ceased collections of fines and court costs and no longer receives bond monies, the bank accounts used to account for these functions still have balances. Since the court is now dissolving, the municipal division will need to determine the disposition of this money.
Municipal Division Procedures	Neither the Municipal Judge nor village personnel performed supervisory or independent reviews of accounting functions and records. Proper segregation of duties within the municipal division was not possible because the Court Clerk is the only municipal division employee. The Prosecuting Attorney did not sign 19 of 60 tickets we tested.
Ticket Accountability	Neither the police department nor the municipal division had developed adequate procedures to account for the numerical sequence or ultimate disposition of tickets issued. In addition, numerous tickets were unaccounted for during the audit period.

Due to the nature of this report, no overall rating has been provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Presiding Judge
Sixth Judicial Circuit
and
Municipal Judge
and
Honorable Chairman
and
Members of the Board of Trustees
Ferrelview, Missouri

We have audited certain operations of the Village of Ferrelview Municipal Division of the Sixth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2016. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.
2. Evaluate the municipal division's and village's compliance with certain legal provisions.
3. Evaluate the municipal division's compliance with certain court rules.
4. Evaluate the village's compliance with state laws restricting the amount of certain court revenues that may be retained.

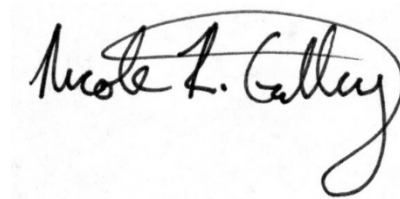

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) noncompliance with court rules, and (4) noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the Village of Ferrelview Municipal Division of the Sixth Judicial Circuit.

A petition audit of the Village of Ferrelview, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Sixth Judicial Circuit

Village of Ferrelview Municipal Division

Introduction

Background

On August 1, 2017, the Board of Trustees (Board) of the Village of Ferrelview voted to discontinue the village's municipal division. Village officials expressed concerns about excess revenues from traffic tickets owed to the Department of Revenue.

Ongoing court operations ceased August 1, 2017. Pending traffic tickets were dismissed and court personnel either applied bond monies on hand to fines and court costs due or refunded the bonds. Pending warrants were also canceled and traffic tickets are no longer issued for ordinance violations in the village. Final dissolution of the court is pending resolution of defendant licensing issues with the Department of Revenue, final storage of court files, and closure of court bank accounts. The Court Clerk position will be eliminated effective February 28, 2018. The village continues to employ a Police Chief, although he was suspended indefinitely with pay by the Board in December 2017. The Board's plan for law enforcement activities is uncertain.

The municipal division was still in operation during the audit period and ceased ongoing operations before our audit fieldwork. Because MAR finding number 3 relates to operations of the court prior to closure, and the court is in the process of dissolution, no recommendation is provided. Given the current status of the police department and because tickets are no longer being issued, no recommendation for MAR finding number 4 is provided. Other findings focus on issues that will need resolution before final dissolution can occur or are required by law to be resolved, and include recommendations.

Sixth Judicial Circuit

Village of Ferrelview Municipal Division

Management Advisory Report - State Auditor's Findings

1. Excess Revenues

The village does not have adequate support for its 2016 excess revenues calculation, did not prepare a calculation for 2015, and has not remitted excess revenues to the Department of Revenue (DOR) even though the 2016 calculation shows the statutory percentage of court revenues the village is allowed to retain was exceeded.

The village failed to retain adequate documentation to support the calculation filed with the State Auditor's Office (SAO) for the year ended December 31, 2016. The Village Treasurer, who also serves as the Court Clerk, indicated the annual general operating revenue amount was based on amounts presented in the financial statement filed with the SAO; however, we could not agree the amounts to the financial statement originally submitted to the SAO on June 21, 2017, or the revised financial statement submitted on June 30, 2017. Also, both financial statement versions included a notation that the Village Treasurer was still working to correct errors in the village's financial records and, thus, amounts provided might not be accurate. The Village Treasurer indicated she determined the amount of fines and court costs to use in the calculation by reviewing the one write ledger. While the ledger provides information regarding the type of violation, there was no supporting documentation showing how she accumulated the amounts for the calculation. The Village Treasurer indicated fines and court costs related to some violations may have been included in error.

The village's 2016 calculation indicates the percentage of annual general operating revenue from fines, bond forfeitures, and court costs for minor traffic violations was 43 percent (the statutory threshold for 2016 was 20 percent) resulting in approximately \$30,000 due to the DOR. Because of potential additional errors in the financial records and uncertainty regarding the fines and court costs amount, it is unclear how much is actually due.

Calculations for excess revenues were not prepared and submitted to the SAO from 2013 to 2015. It is unclear whether any amounts are due to the DOR for those years.

Section 302.341.2, RSMo (as it existed from August 28, 2013, to August 27, 2015), required villages to provide an accounting of the percent of annual general operating revenue from fines and court costs for traffic violations in their annual financial report submitted to the SAO (as required by Section 105.145, RSMo), and required villages to remit any such revenues in excess of 30 percent of annual general operating revenue to the DOR.

Effective August 28, 2015, and also August 28, 2016, Section 479.350, RSMo, was changed to provide new definitions for elements of the excess revenues calculation, including adding municipal ordinance violations as an element. Section 479.359.1, RSMo, requires villages to annually calculate the percent of annual general operating revenue from fines, bond forfeitures, and court costs for minor traffic violations and municipal ordinance violations and

Sixth Judicial Circuit
Village of Ferrelview Municipal Division
Management Advisory Report - State Auditor's Findings

send any excess revenues to the DOR. Section 479.359.2, RSMo, reduces the amount of these revenues the village may retain in the future.

To ensure compliance with state law, village officials should correct errors in the financial statements, determine if the amounts used in the calculation are accurate, recalculate the amount of excess revenues, and remit the proper amount to the state.

Recommendation

The Village of Ferrelview Municipal Division work with the Village Board of Trustees to recalculate excess revenues for calendar year 2016 and make payment to the DOR. In addition, calculations for past years should be prepared as appropriate and any excess revenues remitted to the DOR. Adequate documentation of all calculations should be maintained.

Auditee's Response

The Village Board of Trustees provided the following response:

We will work with the Village Treasurer to recalculate excess revenues for 2016 and will make the required payment to the Department of Revenue as soon as feasibly possible. We hope to complete this process by April 30, 2018. We will also have the Village Treasurer review prior years' financial records to determine if any excess revenues were collected. Documentation of all amounts determined will be retained.

2. Liabilities

Unidentified balances exist in the municipal division bank accounts. The fines and court costs account has a reconciled balance of \$375 and the bond account has a reconciled balance of \$278 as of October 31, 2017. The Court Clerk indicated lists of liabilities (open items) have not been prepared for either account in recent years. She said all open bonds have been refunded or applied to outstanding fines and court costs and she did not know what these balances represent. In addition, as of October 31, 2017, the judicial education bank account had a balance of \$190 to be used for training of court personnel. Since the court is now dissolving, the municipal division will need to determine the disposition of this money.

Missouri Supreme Court Operating Rule No. 4.59 (Uniform Record Keeping System) requires reconciling all bank balances and open items records at least monthly. Additionally, Missouri Supreme Court Operating Rule No. 4.56 requires the municipal division to prepare a record of open items monthly. Regular identification and comparison of liabilities to reconciled cash balances is necessary to ensure records are in balance, transactions are properly recorded, and errors or discrepancies are detected and corrected timely. Various statutory provisions provide for the disposition of unidentified monies.

Recommendation

The Village of Ferrelview Municipal Division review bank account balances and liabilities to determine the appropriate disposition of funds held.

Auditee's Response

The Court Clerk provided the following response:

I will do a final determination of bank account balances and confer with the Board of Trustees as to the appropriate disposition of these funds.

3. Municipal Division Procedures

The municipal division had weak procedures.

3.1 Oversight

Neither the Municipal Judge nor village personnel performed supervisory or independent reviews of accounting functions and records. Proper segregation of duties within the municipal division was not possible because the Court Clerk was the only municipal division employee.

The Court Clerk was responsible for all duties related to collecting court monies, recording and posting payments to the municipal division's records, making deposits into the municipal division's bank accounts, and disbursing funds to the village.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by implementing documented supervisory or independent reviews of accounting records.

3.2 Prosecutor approval

The Prosecuting Attorney did not sign 19 of 60 (32 percent) tickets we tested. Missouri Supreme Court Rule 37.35 states citations shall be in writing and signed by the prosecutor and filed with the municipal division. The Prosecuting Attorney's review, documented with his signature, is needed to provide assurance that proper cases and charges are filed with the municipal division.

4. Ticket Accountability

Neither the police department nor the municipal division had developed adequate procedures to account for the numerical sequence or ultimate disposition of tickets issued. In addition, numerous tickets were unaccounted for during the audit period.

During the audit period, officers issued tickets from 2 sequences of tickets, with each sequence containing 1,100 tickets (44 ticket books). An assignment log was not maintained to indicate which ticket books were assigned to officers. The Court Clerk maintained a computerized numerical ticket log for both sequences of tickets. Tickets issued by officers were submitted to the Police Chief for review before being sent to the municipal division for processing, at which time the Court Clerk would enter the ticket information into the applicable ticket log. The logs had numerous gaps in sequence, although no explanations were provided to the municipal division by the

Sixth Judicial Circuit
Village of Ferrelview Municipal Division
Management Advisory Report - State Auditor's Findings

Police Chief. We reviewed ticket logs and unissued tickets on hand in the police department and identified 139 unaccounted for tickets. We selected 67 tickets from the logs for testing and neither the municipal division nor the police department could locate 7 of those tickets.

Without properly accounting for the numerical sequence and ultimate disposition of tickets, the municipal division and police department cannot be assured all tickets issued are properly submitted for processing. In addition, accounting for ultimate disposition of all tickets issued decreases the risk of loss, theft, or misuse of funds.

Sixth Judicial Circuit

Village of Ferrelview Municipal Division

Organization and Statistical Information

The Village of Ferrelview Municipal Division is in the Sixth Judicial Circuit, which consists of Platte County. The Honorable James W. Van Amburg serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the village treasury. The municipal division did not utilize OSCA's statewide automated case management system known as the Justice Information System. Prior to dissolving, the municipal division maintained manual records.

Personnel

At December 31, 2016, the municipal division employees were as follows:

Title	Name
Municipal Judge	Michael J. Svetlic
Court Clerk	Mickey Vulgamott
Prosecuting Attorney	Scott Campbell

Financial and Caseload Information

	Year Ended December 31, 2016
Receipts	\$71,826
Number of cases filed	604

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	\$ 11.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Domestic Violence Shelter	2.00

To address our responsibilities of Section 217.595.6, RSMo, we have audited the revenues and the expenditures of the Working Capital Revolving Fund, as part of our audit of the state's Comprehensive Annual Financial Report (CAFR), as of and for the year ended June 30, 2017, and have issued our report (Report No. 2018-002), dated January 25, 2018. The state's CAFR is comprised of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information (including the Working Capital Revolving Fund) of the state of Missouri, and the related notes to the financial statements.

Our report expressed qualified audit opinions on the governmental activities and the General Fund opinion units and unmodified opinions on the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information (including the Working Capital Revolving Fund) opinion units of the state of Missouri, as of June 30, 2017.

No findings resulted from our audit procedures related to the Working Capital Revolving Fund.

Stacy Neal
Director

January 25, 2018

The Honorable Eric R. Greitens
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report (CAFR) of the State of Missouri for the fiscal year ended June 30, 2017. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and her opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform guidance).

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Article IV, Section 27 of the Missouri Constitution, amended in 2014, requires the Governor to notify the General Assembly if the Governor reduces allotments when it appears revenues will be less than estimated. This Section then gives the General Assembly the authority to overturn any of the Governor's restrictions with a two-thirds vote, similar to the procedure to overturn a veto. Unexpended appropriations lapse at the end of each fiscal year, unless reappropriated to the following budget fiscal year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Missouri's annual growth rate maintains an upward trend nearly 7 years after the recession. The expansion after the recession that ended in the summer of 2009 has continued despite European fiscal and geopolitical troubles, volatile stock markets, and national policy uncertainty. Between June 2016 and June 2017 Missouri added over 46,600 jobs, a 1.6% employment growth. The healthcare and social services industry, alone, added 8,146 jobs during 2016. As of June 2017, Missouri's unemployment rate was 3.8%, the lowest it has been since September 2000 and also lower than the U.S. unemployment rate of 4.5% as shown in the following graph.

Source: MERIC 2017 Missouri Economic Report

Missouri's gross domestic product (GDP) increased 1.1% from 2015 reaching \$263.9 billion in 2016. Nationally, GDP increased 1.5% over the same period. From 2012 to 2016, Missouri industries produced a total \$11.3 billion more in goods and services, growing at an annualized 1.1% per year. The graph below shows the annual growth rate for Missouri Real Gross State Product.

Source: MERIC 2017 Missouri Economic Report

Long-Term Financial Planning

During the 2014 legislative session, the legislature passed Senate Bill 509 and Senate Bill 496, relating to changes to the State's income tax structure. The legislation reduced the maximum tax rate on personal income, created an income tax deduction for business income as well as increased a personal exemption for individuals that have an adjusted gross income of less than \$20,000. The implementation of the tax cut is gradual with a 0.10% decline each calendar year and will go into effect following fiscal years where net general revenue collections grow at least \$150 million. Estimates indicate that the bills will cost at least \$620 million annually once fully in effect, which will occur in fiscal year 2023 at the earliest, due to a phased implementation. General revenue growth for fiscal year 2017 triggered the income tax reduction in tax year 2018. The estimated income tax revenue reduction for fiscal year 2018 is \$80 million.

The State has continued to implement a program of renovating capital assets by issuing bonds at historically low interest rates. The Board of Public Buildings (BPB) issued Series A 2017 bonds for \$77,165,000 in September 2017, utilizing Senate Bill 723 authorization. Senate Bill 723 authorized the Board to issue \$314.3 million in bonds to provide continued funding for capital improvement projects for the State Capitol Building, State buildings, Veteran's homes, Correctional facilities, State Parks, and State educational institutions. Additional series of BPB bonds are expected to be issued within the next year.

Relevant Financial Policies

Article X, Sections 16-24 of the Constitution of Missouri (the “Tax Limitation Amendment”), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually based on a formula, which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year, the excess revenue will be refunded based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or, if the General Assembly approves by a two-thirds vote, an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995-1999. The State has refunded to income taxpayers \$979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2017, inclusive. The State is currently \$4.0 billion below the limit and does not expect the limit to be exceeded in fiscal year 2018.

Major Initiatives

Missouri will continue to focus on streamlining government functions and investing in its citizens. Major initiatives include a focus on education and the well-being of Missouri citizens.

Education. Missouri continues to invest in education. The fiscal year 2018 budget passed by the legislature fully funded the K-12 Foundation Formula. Additionally, House Bill 93 establishes four adult high schools to be operated by a Missouri nonprofit organization. An "adult high school" is defined as a school for an individual who is at least 21 years old without a high school diploma, offers industry certification programs that include a high school diploma and provides on-site childcare for students. Missouri is also working with private sector partners to enable every public school in the State to build the infrastructure for quality internet access. The legislature appropriated \$6 million, which enables the State to receive \$39 million in matching federal E-Rate funds for the schools.

Health. Senate Bill 139 protects the MORx program. The program helps low-income Missourians pay for their prescription drugs. The entire MORx program was scheduled to expire in August 2017. Senate Bill 139 extended the MORx program until at least 2022.

Review of Regulations. Executive Order 17-03 directed each state agency to undertake a review of state regulations under its jurisdiction within the Code of State Regulations. With this review, each state agency is to encourage the public to submit comments to identify ineffective, unnecessary, or unduly burdensome rules on citizens, stakeholders, regulated entities, businesses, those working for the State, or other parties. By June 30, 2018, every state agency shall take action necessary to repeal or to cease rulemaking for any regulation that does not meet the criteria of the Executive Order.

Review of Tax Code. Executive Order 17-07 creates the Governor's Committee for Simple, Fair, and Low Taxes. The goals of this committee is to compare Missouri's tax credit programs and tax rates with peer states, to assess the economic impact of existing tax credit programs, to assess the possibility of financing cuts to state tax rates and tax credit programs, and to provide recommendations for comprehensive tax reform legislation.

2017 Tax Legislation. During the 2017 legislative session, the General Assembly passed one tax related bill that will have an impact to the general revenue funds. Senate Bill 16 exempts delivery charges from sales tax. The official fiscal note estimate was that the bill could cost more than \$100,000; however, after further review, the cost is believed to be significantly higher and some estimates put the cost at \$2.3 million or more per year.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

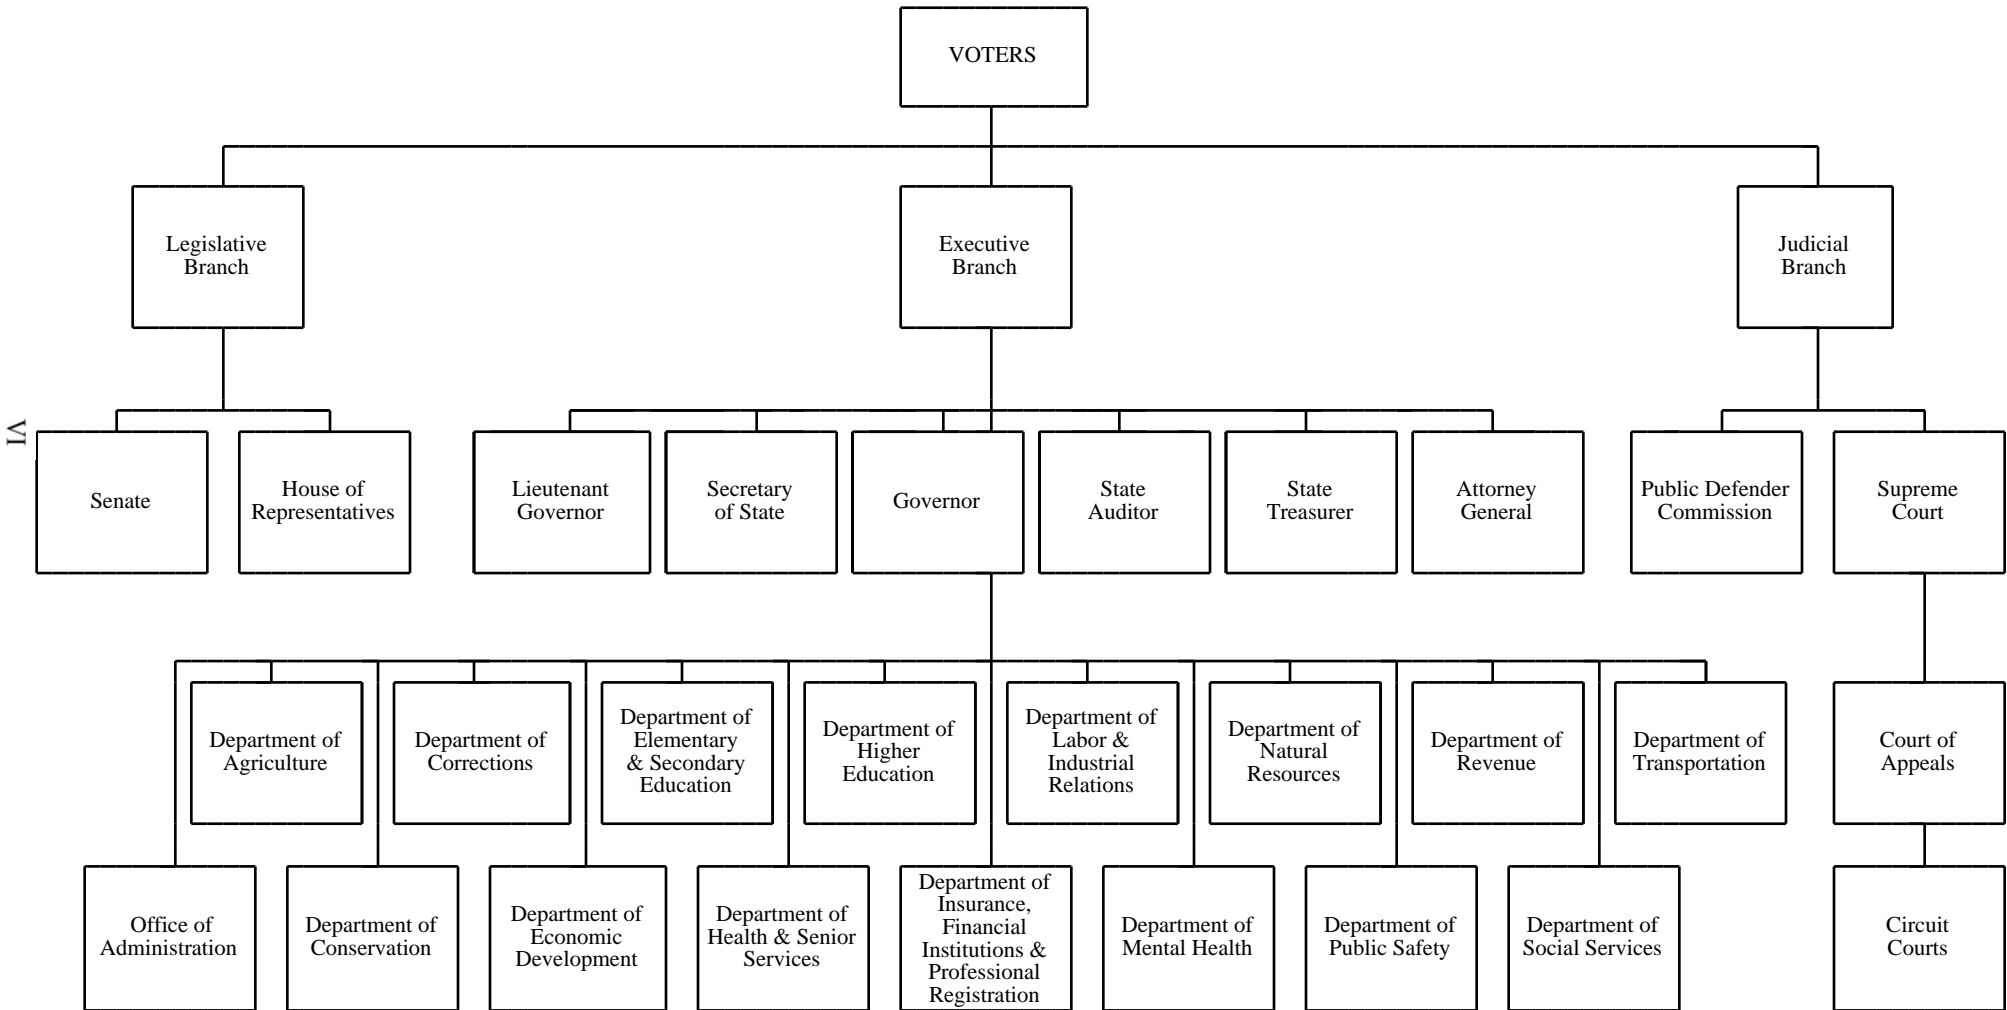

A handwritten signature in dark ink that reads "Stacy Neal". The signature is written in a cursive, flowing style.

INDEPENDENT AUDITOR'S REPORT

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the state's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain entities. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. Those entities were:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 77 percent of the assets and 11 percent of the revenues of the governmental activities.
2. The State Lottery and the Petroleum Storage Tank Insurance Fund which are both major funds and represent 14 percent of the assets and 69 percent of the revenues of the business-type activities.

3. The aggregate discretely presented component units.
4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation agency funds which represent 93 percent of the assets and 97 percent of the additions of the fiduciary funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board and the Missouri Agricultural and Small Business Development Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinions on the governmental activities and the General Fund opinion units and our unmodified opinions on all remaining opinion units.

Basis for Qualified Opinions on the Governmental Activities and the General Fund

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Department of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of *Director of Revenue v. State Auditor* 511 S.W.2d 779 (Mo. 1974). Approximately 28 percent of governmental activity revenues and 33 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Qualified Opinions

In our opinion, based on our audit and the reports of other auditors, and except for the possible effects of the matter described in the "Basis for Qualified Opinions on the Governmental Activities and the General Fund" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the state of Missouri, as of June 30, 2017, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, for the fiscal year ended June 30, 2017, the state of Missouri implemented Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures*, and GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; the Budgetary Comparison Schedule-General Fund, Major Special Revenue Funds; the Schedule of Changes in Net Pension Liability and Related Ratios; the Schedule of Proportionate Share of the Net Pension Liability; and the Schedule of State Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, and the other information, which consists of the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

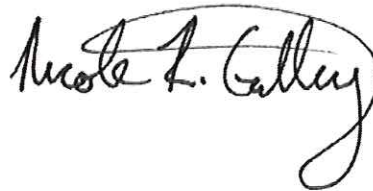

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and

other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, and except for the possible effects on the supplementary information of the matter discussed in the "Basis for Qualified Opinions on the Governmental Activities and the General Fund" paragraph, the supplementary information, as listed in the table of contents, is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The information in the introductory and statistical sections has not been subjected to the audit procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, our report dated January 25, 2018, on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters is issued under separate cover in the Single Audit Report. The purpose of our report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of Missouri's internal control over financial reporting or on compliance. Our report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of Missouri's internal control over financial reporting and compliance.

The Management's Discussion and Analysis provides a narrative overview and analysis of the financial activities of the State.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's financial activities for the fiscal year ended June 30, 2017. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government-Wide:

- *Net Position.* Assets and deferred outflows of the State of Missouri exceeded liabilities and deferred inflows at the close of fiscal year 2017 by \$29.1 billion. Of the \$29.1 billion, “unrestricted net position” is reported as a negative \$5.0 billion, offset by \$4.1 billion in “restricted net position” and \$29.9 billion net investment in capital assets.
- *Changes in Net Position.* The State's total net position increased by \$151.0 million in fiscal year 2017. Net position for governmental-type activities decreased by \$4.9 million.
- *Excess of Revenues over (under) Expenses.* During fiscal year 2017, the State's total revenues of \$27.1 billion were \$150.3 million greater than total expenses of \$26.9 billion (excluding claims adjustments, capital contributions, transfers, and extraordinary items). Of these expenses, \$15.0 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$12.0 billion.

Fund-Level:

- *Governmental Funds – Fund Balance.* At the close of fiscal year 2017, the State's governmental fund assets exceeded liabilities by \$5.1 billion, a decrease of \$152.2 million or 2.9% from the prior year. The decrease was due to the net effect of several factors. Taxes increased \$327.1 million primarily from an increase in individual income tax and sales and use tax received. Contributions and Intergovernmental revenue increased \$237.4 million due to an increase in Medicaid and Other Assistance Programs and consequently related expenditures in human services also increased by \$592.2 million. Education expenditures also increased by \$178.6 million primarily due to an increase in funding for State K-12 schools.
- *General Fund – Fund Balance.* At the end of the current fiscal year, the State's General Fund reported a balance of \$1.4 billion.

Additional information regarding individual funds begins on Page 10.

Debt Issued and Outstanding:

- The primary government's total long-term obligations related to bonds payable decreased \$317.6 million, or 9.3%, over the prior year. The outstanding bonds payable represents 33.7% of financial assets (cash, receivables, and investments) and 7.4% of total assets. Missouri Department of Transportation called Series 2006-Refunding and Series 2007 bonds resulting in a decrease of \$117,825,000. Missouri Development Finance Bond for the Fulton State Hospital Project Series 2016 was issued in the amount of \$97,225,000. Additionally bond payments of \$297,025,000 were made during the fiscal year. Additional detail is available in *Note 12*.

Revenue Limit:

- The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2017, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as *net position*. Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, and insurance coverage. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, and Missouri Wine and Grape Board.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. A reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Petroleum Storage Tank Insurance, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules for the Missouri Road Fund, non-major special revenue, debt service, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased \$151.0 million or 0.52% during fiscal year 2017. Net pension liability increased \$1.3 billion and related deferred outflows of resources increased \$1.0 billion. This increase was mainly due to changes in pension plan assumptions and differences between projected and actual earnings on pension plan investments. Capital assets increased \$237.3 million mainly in construction and infrastructure in progress. Construction in progress increased \$64.2 million for Fulton State Hospital and Board of Public Buildings bond projects which were issued to improve the capital assets of the state. Net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by \$333.2 million or 1.0%. The net investment in capital assets and restricted net position, components of net position, increase was primarily due to the increase in capital assets of \$237.3 million and a decrease in related outstanding bond and capital lease obligation of \$317.1 million.

Net investment in capital assets, which includes capital assets, bonds payable, and capital lease obligations, is the largest component of the State's net position at \$29.9 billion or 103.0%. These assets include construction in progress, software in progress, infrastructure in progress, land, easements, land improvements, buildings, equipment, software, and trademarks which are not easily converted to cash or readily available to pay state debts as they come due.

Restricted net position of the primary government totaled \$4.1 billion or 14.1% of total net position vs. 15.1% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

STATEMENT OF NET POSITION

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of \$15.0 billion and general revenues of \$12.0 billion for total revenues of \$27.1 billion during fiscal year 2017. Expenses for the State during fiscal year 2017 were \$26.9 billion. Total net position, net of contributions and transfers, increased by \$151.0 million.

Governmental Activities

The net position of governmental activities decreased \$4.9 million in fiscal year 2017. General and program revenues of governmental activities were \$880.8 million more in fiscal year 2017 than in fiscal year 2016.

As shown in the Revenues by Source chart below, approximately 47.6% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 45.1% of total revenue. Charges for services contributed 7.0% and various other revenues provided 0.3% of the remaining governmental activity revenue sources.

The State's governmental activities program expenses for fiscal year 2017 were \$1.2 billion more than fiscal year 2016. The most notable increases are a \$191.5 million increase in education and a \$617.4 million in human services. These expenses are directly related to the government funding priorities of education and a higher demand for social services such as Medicaid. However, increases occurred in all functions except all other due to an increase in pension expense in all State retirement plans.

As shown in the Expenses by Function chart below, expense for Human Services makes up the largest portion, 54.0%, of total governmental activities expenses.

Business-Type Activities

Net position of the State's business-type activities increased \$156.0 million in fiscal year 2017, mainly due to an increase in cash in Unemployment Compensation. The increase was due to an improved economy and a low unemployment rate which is allowing excess cash to remain in the fund.

Revenues of business-type activities totaled \$2.0 billion. As shown in the Revenues by Source chart below, 71.5% of the revenues came from charges for services. Operating grants and contributions provided 27.8% of the total revenues and all other revenues provided 0.7%.

Expenses of business-type activities totaled \$1.5 billion. As shown in the Expenses by Fund chart below, State Lottery makes up the largest portion with 69.3% of total business-type expenses. Unemployment Compensation comes in second at 20.6%, followed by Veterans' Homes at 7.4%, Petroleum Storage Tank Insurance at 1.3%, State Parks and DNR at 0.8%, Historic Preservation at 0.1%, State Fair Fees at 0.3%, and Surplus Property at 0.2%.

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2017, the State's governmental funds reported combined ending fund balances of \$5.1 billion. Approximately 60.4% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Funds	Total
Nonspendable	\$ 54,304	\$ 71	\$ 331	\$ 38,790	\$ 59,859	\$ 153,355
Restricted	341,053	212,592	136,860	684,758	482,962	1,858,225
Committed	590,697	2,551	1,570,667	—	41,171	2,205,086
Assigned	156,557	62,361	110,896	—	248,853	578,667
Unassigned	295,364	—	—	—	(17,628)	277,736
Total	\$ 1,437,975	\$ 277,575	\$ 1,818,754	\$ 723,548	\$ 815,217	\$ 5,073,069

The General Fund is the chief operating fund of the State. At the end of fiscal year 2017, the State's General Fund reported a total fund balance of \$1.4 billion, a decrease of \$15.7 million from fiscal year 2016. Revenues increased a total of \$562.1 million. This was mainly due to an increase in taxes of \$286.6 million, as well as an increase in contributions and intergovernmental of \$206.5 million due primarily to an increase in individual income and sales tax, as well as an increase in Medicaid and Other Assistance Programs revenue. Total expenditures went from \$17.9 billion to \$18.5 billion between fiscal years 2016 and 2017, an increase of \$627.5 million. Expenditures for human services increased \$570.3 million related to the increase in the number of people utilizing Medicaid and Other Assistance Programs and \$55.2 million in education expenditures due to increased funding for K-12 schools.

The Public Education Fund provides general and special education services to the children of the State and other related functions, such as library services and student loans. Total fund balance decreased from \$298.8 million last year to \$277.6 million this year, a decrease of 7.1%. Total revenues increased by \$35.7 million offset by an increase of expenditures of \$64.8 million. This was primarily due to an increase in funding for K-12 schools.

The Conservation and Environmental Protection Fund provides the preservation of the State's wildlife and environment. At the end of fiscal year 2017, the fund balance was \$1.8 billion, an increase of \$49.8 million from fiscal year 2016. The majority of this increase was due to an \$80.2 million dollar increase in loans receivable from the additional awarding of loans in fiscal year 2016 which are now being repaid. Total expenditures increased by \$12.0 million, mainly due to an increase in natural and economic resources related to new clean water and drinking water projects.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. The decrease in fund balance of \$105.1 million can mainly be attributed to the increase in debt service as the Missouri Department of Transportation called the Series 2006-Refunding and Series 2007 bonds in the amount of \$117.8 million. Revenues increase slightly by \$15.6 million mostly due to the timing of the federal grant reimbursements related to project expenditures associated with advance construction projects.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the “Unemployment Compensation Law.” This tax finances benefits for workers who become unemployed through no fault of their own. The Petroleum Storage Tank Insurance Fund accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks. The fund pays cleanup expenses for petroleum leaks or spills from underground storage tanks and certain above ground storage tanks as well as third party property damage or bodily injury resulting from such discharges. This fund is one of the largest insurers of storage tanks in the country.

The State Lottery Fund’s net position decreased by \$2.6 million in fiscal year 2017, which is partly the result of fluctuations in market yields, which increase or reduce the unrealized gain on investments. Total operating revenues increased by 2.5%, while operating expenses increase by 4.2% in fiscal year 2017. Prize expense increased by \$43.2 million, while sales increased \$34.2 million. The sales increase was the result of an increase in Scratchers and Pull-Tab sales, and a decrease in Draw Game sales mainly due to Powerball. Powerball sales were down \$35.9 million due to the prior year's record \$1.59 billion Powerball jackpot.

The Unemployment Compensation Fund’s net position increased by \$163.0 million due to an increase in cash in the fund of \$205.9 million. The increase in cash is due to an improved economy and low unemployment rate which is allowing excess cash to remain in the fund. Once the cash balance has reached the statutorily established levels that trigger contribution rate reductions, then employer contribution rates will be lowered, which occurred in 2017. Accounts receivable decreased by \$35.2 million, mainly because the new employer rates decreased from 3.51% to 2.7%.

The Petroleum Storage Tank Insurance Fund’s net position decreased by \$6.2 million due to an increase in claims paid in fiscal year 2017 and a reduction in net claims reserves.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted amounts, and increases to estimated appropriations, which occur during the fiscal year.

Budgeted appropriations for fiscal year 2017 from the General Fund were \$26.2 billion original budget and \$26.1 billion final budget. Actual spending was \$24.3 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year, but the expenditures may occur over several years.
- Capital improvement appropriations were restricted during the budget process.

Budgeted revenues/transfers in for fiscal year 2017 for the General Fund were \$25.4 billion original budget and \$25.2 billion final budget. Actual revenue/transfers in was \$24.3 billion.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 145 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2017, was \$32.8 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure.

Capital Assets of the State include (in thousands):

	Governmental Activities	Business-Type Activities	Total
Construction in Progress	\$ 308,053	\$ 45,452	\$ 353,505
Software in Progress	87,960	—	87,960
Infrastructure in Progress	1,478,649	—	1,478,649
Land	3,095,379	32,602	3,127,981
Permanent Easements	3,909	—	3,909
Land Improvements	208,276	18,972	227,248
Temporary Easements	1,513	50	1,563
Buildings and Improvements	3,387,916	33,025	3,420,941
Equipment	1,328,823	50,670	1,379,493
Software	228,107	735	228,842
Trademarks	17	—	17
Infrastructure	50,174,198	—	50,174,198
<i>Subtotal</i>	60,302,800	181,506	60,484,306
Less Accumulated Depreciation/ Amortization	(27,624,228)	(64,135)	(27,688,363)
Total Capital Assets, Net	\$ 32,678,572	\$ 117,371	\$ 32,795,943

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2017, the primary government had total general obligation and other bonded debt outstanding of \$3.1 billion. Of this amount, \$154.8 million comprises debt backed by the full faith and credit of the government.

Principal amounts retired or refunded in fiscal year 2017 were \$54.1 million for general obligation bonds and \$360.8 million for other bonds.

The State of Missouri is proud to have maintained a Triple-A credit rating since 1989 from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable of the State include (in thousands):

	Governmental Activities	Component Units	Total
General Obligation Bonds	\$ 154,830	\$ —	\$ 154,830
Other Bonds	2,943,825	2,116,337	5,060,162
Total	\$ 3,098,655	\$ 2,116,337	\$ 5,214,992

Additional information on long-term debt can be found in *Notes 11, 12, and 13* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

The State's economic outlook for Fiscal Year 2018 anticipates continued improvement in employment and wages, with continued growth in state revenue collections. During the Fiscal Year 2018 budget process, staff from the House, Senate, the University of Missouri and the Division of Budget and Planning developed a revenue estimate of 3% growth for Fiscal Year 2017 and 3.8% growth for Fiscal Year 2018. The actual Fiscal Year 2017 revenue collections increased by 2.6% growth when compared to the Fiscal Year 2016 collections. The 3.8% growth estimate for Fiscal Year 2018 will not provide sufficient resources to cover anticipated spending, therefore, the Governor restricted approximately \$251 million in July.

Since 2010, personal incomes have increased, on average, 3.2% annually for the State and 4.3% for the nation. The average income of a Missouri citizen was \$43,723 in 2016, which was lower than the national average of \$49,571. Missouri's per capita personal income grew 3.2% from the first quarter. While the State's per capita income is lower than the national average, so is the cost of living. Missouri is among the most affordable states as it had the eleventh lowest cost of living costs in the United States in 2016. The below graph depicts the components of personal income, with transfer payments (such as social security, Medicare, etc.) comprising 20.0% of the State's total personal income, due in part to the State's aging population.

**Components of Personal Income
Missouri - 2016**

Source: Missouri Economic Report, 2017, U.S. Bureau of Economic Analysis 2016.

The outlook for general revenue for fiscal year 2018 remains uncertain. Most economic forecasts are calling for moderate economic growth. Equity markets have been strong in the first half of 2017, but have become more volatile as national and global uncertainty continues. While the number of jobs is steadily improving, the rate of growth has slowed as the labor market reaches full employment. Growth in sales tax is expected to moderate as consumers have released most of the pent up demand from the Great Recession.

Missouri's strong fiscal management and directives to review the State Code of Regulations and the tax code are ways in which Missouri is looking to streamline functions and decrease costs for the citizens of the State. Conservative management, including Missouri's constitutional provisions for the Governor to line item veto and restrict expenditures below appropriated levels, ensures the budget is balanced each year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

*The **Governmental Funds** focus on current financial resources.*

Governmental Fund Financial Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education - Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection - Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund - Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements and Schedules for non-major funds as part of Supplementary Information.

STATE OF MISSOURI
RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION
June 30, 2017
(In Thousands of Dollars)

Total Fund Balances - Governmental Funds	\$ 5,073,069
--	--------------

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental funds are not financial resources and are not reported in the funds. These assets consist of (Note 5):

Construction in Progress	307,810	
Software in Progress	87,234	
Infrastructure in Progress	1,478,649	
Land	3,087,657	
Permanent Easements	3,909	
Land Improvements	205,276	
Temporary Easements	1,513	
Buildings and Improvements	2,898,236	
Equipment	1,197,975	
Software	202,617	
Trademarks	17	
Infrastructure	50,174,198	
Accumulated Depreciation/Amortization	<u>(27,291,240)</u>	
		32,353,851

Deferred inflows of resources related to the State's revenues that will be collected after year-end, but are not available soon enough to pay for the current period's expenditures are deferred in the funds.	1,103,079
--	-----------

Deferred outflows and inflows of resources related to pensions are applicable to future reporting periods and therefore, not reported in the funds.	1,525,649
---	-----------

Deferred outflows and inflows of resources related to deferred charges or credits on debt refundings and other assets are applicable to future reporting periods and therefore, not reported in the funds.	79,543
--	--------

Some liabilities are not due and payable in the current period and therefore, not reported in the funds. Those liabilities consist of (Note 11):

Due to Other Entities	(1,361)	
General Obligation and Other Bonds Payable	(3,098,655)	
Unamortized Bond Premium	(203,179)	
Accrued Interest on Bonds	(28,591)	
Obligation under Lease Purchases	(60,674)	
Pollution Remediation	(47,431)	
Compensated Absences	(170,261)	
Claims Liability	(37,989)	
Contingent Liabilities	(1,911,336)	
Net Other Postemployment Benefit Obligation	(1,094,726)	
Net Pension Liability	<u>(5,770,683)</u>	
		(12,424,886)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position.	<u>423,055</u>
--	----------------

Net Position of Governmental Activities	<u><u>\$ 28,133,360</u></u>
---	-----------------------------

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES IN
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2017
(In Thousands of Dollars)

Net Change in Fund Balances - Total Governmental Funds	\$	(153,162)
--	----	-----------

Amounts reported for governmental activities in the Statement of Activities are different because:

Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.		948
---	--	-----

Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of \$918,546 exceeds depreciation/amortization of \$665,754 in the current period.		252,792
---	--	---------

In the Statement of Activities only the gain/loss on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus the change in net position differs from the change in governmental fund balance by the net book value of the assets sold.		(18,317)
--	--	----------

The net effect of the donation of capital assets increased net position.		196
--	--	-----

Deferred inflows do not provide current financial resources and are not recognized as revenues until available in governmental funds.		78,104
---	--	--------

Pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.

Pension Contributions		497,049
Pension Expense		(747,416)

Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of

Net Position (Note 11):

Bonds Issued	(97,225)	
Bond Premiums and Refunding Costs	(5,877)	
Bonds Retired	414,850	
Capital Leases Issued	(1,539)	
Capital Lease Payments	22,087	
		332,296

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, not reported as expenditures in governmental funds (Note 11):

Amortization of Bond Premium and Refunding Costs	28,016	
Decrease in Accrued Interest	4,507	
Decrease in Pollution Remediation	2,294	
Increase in Due to Other Entities	(3)	
Increase in Compensated Absences	(83)	
Increase in Contingent Liabilities	(139,611)	
Increase in Claims Liability	(106)	
Increase in Net Other Postemployment Benefit Obligation	(91,293)	
		(196,279)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities.		(51,158)
--	--	----------

Change in Net Position of Governmental Activities	\$	(4,947)
---	----	---------

The notes to the financial statements are an integral part of this statement.

*The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.*

Proprietary Fund Financial Statements

Major Funds

State Lottery - Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation - Accounts for contributions and payments collected under the provisions of the “Unemployment Compensation Law” to pay benefits.

Petroleum Storage Tank Insurance - Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, *The Financial Reporting Entity*, for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, *Determining Whether Certain Entities are Component Units*, added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*, improves financial reporting by amending GASB Statement No. 14, *The Financial Reporting Entity*, and Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government. GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, requires component units to be blended if they are incorporated as not-for-profit corporations and the primary government is the sole corporate member.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Governmental Funds:

Board of Fund Commissioners – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

Board of Private Investigator and Private Fire Investigator Examiners – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. The Board is appointed by the primary government. It is therefore considered blended special revenue fund and shown in the financial statements as part of the primary government.

Board of Unemployment Fund Financing – The Board was created by state law to provide a method of providing funds for the payment of unemployment benefits and maintaining an adequate fund balance in the Unemployment Compensation Fund. The Board is comprised of the Governor, Lieutenant Governor, Attorney General, the Director of the Department of Labor and Industrial Relations, and the Commissioner of Administration. The Board is substantively the same as the primary government and is therefore reported as part of the primary government, within the General Fund .

Coordinating Board for Early Childhood – The Board was created by state law within the Missouri Children’s Services Commission. The Board’s purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri’s children from birth through age five. The 17 member Board is composed of representatives from the Governor's Office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. The majority of the board members are appointed by the primary government and, therefore, separate financial statements are not required for the Board.

Missouri State Penitentiary Redevelopment Commission – The Commission was established to coordinate the planning and redevelopment of the old Jefferson City Correctional Center. The ten member commission consists of three members appointed by the Jefferson City mayor, three members appointed by the Cole County Commission, and four members appointed by the Governor. The majority of the board members are appointed by the primary government. Therefore, it is considered a blended special revenue fund and is shown in the financial statements as part of the primary government.

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds and pay the costs of operations.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Significant Accounting Policies (cont.)

Conservation Employees' Insurance Plan – The Plan provides health and life insurance coverage to eligible employees and retirees of the Missouri Department of Conservation. The Plan is administered by a five member board of trustees made up of three members of the Plan appointed by the Conservation Commission which consist of two Conservation employees and Division Chief, the Chief Financial Officer, and the Human Resources Division Chief. Copies of the Plan's financial statements may be requested from:

Missouri Department of Conservation
P.O. Box 180
Jefferson City, Missouri 65102

Transportation Self-Insurance Plan – The Plan provides fleet vehicle liability, workers' compensation, and general liability insurance. The Plan is administered by the Missouri Department of Transportation. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Missouri State Employee's Insurance Plan – The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Consolidated Health Care Plan (MCHCP) – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; six members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Insurance, Financial Institutions and Professional Registration; and the Commissioner of Administration. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

MoDOT/MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, and disability benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. The MOSERS Board of Trustees also oversees the State's Deferred Compensation Plan which is administered by a third party. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) – The System provides retirement, survivor, and disability benefits to qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the Missouri State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by the Missouri State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired Missouri State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and
Highway Patrol Employees' Retirement System
P.O. Box 1930
Jefferson City, Missouri 65102-1930

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Significant Accounting Policies (cont.)

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post-employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan – The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25, \$30, or \$35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010. Copies of financial statements for both Plans may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
Jefferson City, Missouri 65102-0209

Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

Missouri Health and Educational Facilities Authority – finances health and educational facilities.

Missouri Higher Education Loan Authority – provides a secondary market for loans made under the Federal Family Education Loan Program.

Missouri Housing Development Commission – finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

Missouri Technology Corporation – promotes the modernization of businesses through the development of science and technology applications.

Missouri Public Entity Risk Management Fund – provides liability protection to participating public entities, their officials, and employees.

State Environmental Improvement and Energy Resources Authority – finances, acquires, constructs, and equips projects to reduce, prevent, and control pollution and develop the energy resources of the State.

Jackson County Sports Complex Authority – responsible for construction, operation, and financing of the Jackson County Sports Complex.

Kansas City Regional Sports Complex Authority – responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

St. Charles County Convention and Sports Facility Authority – responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization – organized for boll weevil eradication.

KCT Intermodal Transportation Corporation – organized to pay for a railroad bridge in the Blue Valley Industrial District in Kansas City.

Westside Intermodal Transportation Corporation – organized to pay for rail additions and improvements of the Kansas City Terminal Railway.

Universal Service Board – organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

Interstate Commission for Adult Offender Supervision – responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

Board of Trustees of the Missouri Mesothelioma Risk Management Fund – provides coverage of liabilities for participating employers relating to mesothelioma awards.

P-20 Council – organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

Missouri Propane Safety Commission – responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

Missouri Family Trust Board of Trustees – provides trust services for persons with disabilities.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets plus deferred outflows and liabilities plus deferred inflows with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

The difference between fund assets plus deferred outflows and liabilities plus deferred inflows is reported as "Net Position" on the government-wide, proprietary, and fiduciary fund statements and "Fund Balance" on the governmental fund financial statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets, deferred outflows, liabilities, and deferred inflows associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes and licenses, fees, and permits.

Missouri Road Fund – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

Petroleum Storage Tank Insurance – accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks. Major revenues are from fees.

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other entities.

Discretely Presented Component Units:

Major

College and Universities account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of 92 days or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. This definition excludes Fiduciary funds. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

E. Investments

These are long-term investments with an original maturity greater than 92 days which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. Repurchase agreements held by the State Treasurer's Office are reported at amortized cost. The Missouri State Public Employees' Deferred Compensation Plan and the Missouri State Public Employees' Deferred Compensation Incentive Plan report their Stable Value Funds at contract value. All other investments of the State are reported at fair value.

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and agency funds.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, and acquire capital assets. These receivables at June 30 are classified as “due from other funds” or “due from primary government/component units” on the Balance Sheet and Statement of Net Position. Payables are classified as “due to other funds” or “due to primary government/component units” on the Balance Sheet and Statement of Net Position (see *Note 16*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as “advances to other funds” or “advances to primary government/component units” on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as “advances from other funds” or “advances from primary government/component units” on the Balance Sheet and Statement of Net Position (see *Note 16*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated acquisition value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement (see *Notes 5 and 6*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software and trademarks – \$5,000, and equipment – \$1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, and infrastructure – 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 to 15 years, and software – 3 to 5 years.

J. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position/Balance Sheet may report a separate line item for deferred outflows of resources. Deferred outflows of resources consist of the decrease of net position by the State that is applicable to a future reporting period and will not be recognized as outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position/Balance Sheet may report a separate line item for deferred inflows of resources. Deferred inflows of resources consist of the increase of net position by the State that is applicable to a future reporting period and will not be recognized as inflow of resources (revenue) until then.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

K. Unearned Revenues

Unearned revenues are amounts collected in advance of the year in which earned.

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).
2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).
3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Health and Educational Facilities Authority, the Regional Convention and Sports Complex Authority, the Missouri Development Finance Board, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).

5. Obligations under lease/purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11*).
6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 11 and 23*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

7. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds, but are recorded as expenditures when paid (see *Note 11*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State. However, unused sick leave may be converted to additional credited service upon retirement (usable only for benefit computation, not eligibility).

8. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred, but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 11, 22, and 24*).
9. The State provides postemployment health care and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT/MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer (see *Note 8*).
10. The State has two major retirement systems which cover substantially all State employees and a retirement plan for University of Missouri employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple employer defined benefit public employee retirement plan administered by MOSERS. MOSERS also administers the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employee retirement plan. The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see *Note 7*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

M. Net Position

Net Position is reported in three categories:

Net Investment in Capital Assets – An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributed to acquisition, construction, or improvement of those assets.

Restricted Net Position – An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2017, net position restricted by enabling legislation equaled \$511,411,000 for governmental activities.

Unrestricted Net Position – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

N. Interfund Transactions

During the fiscal year, the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions consist of these three types:

1. Transactions that would be treated as revenues or expenditures/expenses, if they involved organizations external to the State, are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered and to agency funds for contributions for employee benefits.
2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 1 - Significant Accounting Policies (cont.)

3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 17*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the governmental activities are eliminated at the Government-Wide Statement of Activities.

O. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

Property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2017:

- GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, which addresses financial reporting for Other Postemployment Benefits in defined benefit and defined contribution plans administered through trusts meeting specified criteria, as well as guidance for plans not in a trust. For plans administered through trusts meeting the specified criteria, the standard requires a statement of fiduciary net position and a statement of changes in fiduciary net position, as well as note disclosures and RSI. The implementation of this statement did not have an impact on the State's Comprehensive Annual Financial Report, however the Missouri Consolidated Health Care Plan, the MoDOT and MSHP Medical and Life Insurance Plan, and the Conservation Employees' Insurance Plan implemented this statement in their separately issued financial statements.
- GASB Statement No. 77, *Tax Abatement Disclosures*, which requires note disclosure of programs of state and local governments that reduce tax revenues through agreements made with individuals or entities where the individual or entity promises to take specific action that contributes to the economic development of the government. It also requires disclosure of tax abatement programs initiated by other governments that reduce the reporting government's tax revenues. The implementation of this statement affects disclosures found in *Note 20 - Tax Abatement Disclosures*.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 2 - Reporting Changes and Classifications (cont.)

- GASB Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, which addresses a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and with state or local governmental employers whose employees are provided with such pensions. The statement establishes new guidance for these employers, including requirements for recognition and measurement of pension expense and liabilities, note disclosures, and RSI. The implementation of this statement did not have an impact on the financial statements.
- GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, which requires blending component units which are incorporated as not-for-profit corporations in the financial statements when the government is the sole corporate member. The implementation of this statement resulted in the blended presentation in the University of Missouri's financial statements and note disclosures of the Medical Alliance, Columbia Surgical Services (CSS), and Columbia Family Medical Services (CFMS). The Medical Alliance and CSS had previously been reported as discretely presented component units while CFMS began operations in fiscal year 2017.
- GASB Statement No. 82, *Pension Issues, an amendment of GASB Statements Nos. 67, 68, and 73*, which addresses the presentation of payroll-related measures in RSI, the selection of assumptions and the treatment of deviations from guidance in Actuarial Standard of Practice for financial reporting purposes, and the classification of payments made by employers to satisfy member contribution requirements. The implementation of this statement affects disclosures found in *Note 7- Retirement Systems* and RSI.

Note 3 - Deposits and Investments

The State Treasurer's Office maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2017.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer's Office to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% in excess of FDIC coverage with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

Primary Government

At June 30, 2017, the bank balance of the primary government's deposits was \$1,420,813,000. Of the bank amount, \$2,944,000 was exposed to custodial credit risk by being uninsured and uncollateralized, \$16,195,000 by being uninsured and collateralized with securities held by the pledging financial institutions, \$788,297,000 was held by the U.S. Treasury, and the remainder was not exposed to custodial risk.

Fiduciary

At June 30, 2017, the bank balance of the deposits of the fiduciary funds was \$111,832,000. Of the bank amount, \$54,000 was exposed to custodial credit risk by being uninsured and uncollateralized.

Component Units

Information on the component units' deposits is available within their individual financial statements.

B. Investments

Statutes authorize the State Treasurer's Office to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury, or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2017.

The State Treasurer's Office minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer's Office also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the State Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer's Office minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Wells Fargo Bank, National Association, or at one of the State Treasurer's Office approved collateral custodians.

Primary Government

At June 30, 2017, the reported amount of the primary government's investments was \$3,404,520,000. Of this amount, \$151,664,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

Fiduciary

At June 30, 2017, the reported amount of the fiduciary funds investments was \$16,329,857,000. Of this amount, \$19,961,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

Component Units

Information on the component units investments is available within their individual financial statements.

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer's Office. The externally-held internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer's Office minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 2.5 years, and holding at least 25% of the portfolio's total market value in securities with a maturity of 12 months or less.

*The State Treasurer's Office reports their repurchase agreements in the amount of \$780,508 at amortized costs. The Missouri State Public Employees Deferred Compensation Plan and the Missouri State Public Employees Deferred Compensation Incentive Plan reports their Stable Value Funds in the amounts of \$480,000 and \$335,000 respectively, at contract value.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer's Office from investing more than 10% of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 5% of the total portfolio per issuer and no more than 15% of the total portfolio may be invested in repurchase agreements with a single counterparty. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2017, the State did not have any instances of noncompliance with these requirements and policies.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

Fair Value Measurement

The State of Missouri categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurements and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

- Level 1 – Unadjusted quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are unobservable.
- Level 3 – Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lower level input that is significant to the valuation. The State's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The State Treasurer's Office uses the market approach for the determination of the fair value of investments, except for repurchase agreements, which are measured at amortized costs.

Debt, equities, and investment derivatives classified in level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Debt securities and liabilities classified in level 2 have non-proprietary information that was readily available to market participants from multiple independent sources, which are known to be actively involved in the market. Pricing inputs may include market quotations, yields, maturities, call features, and ratings. A portion of the derivative securities classified in level 2 are securities whose values are derived daily from associated traded securities. Other investments listed as level 2 include debt securities where an independent pricing evaluator had direct observable information, including: trading volume, multiple sources of market data and benchmark spreads. FX forwards are included due to the valuation coming from observable forward rates on the underlying currencies. The equity index swap is included because valuation inputs include an observable interest rate and the underlying index.

Private equity securities classified at level 2 are valued at the price observed in subsequent market activity.

Investments listed as level 3 include debt securities where an independent pricing evaluator did not have direct observable information for comparable securities. Significant inputs used in the valuation are not available aside from the evaluator providing the price. Direct investments in private equity, real estate, credit, and real assets are included because the valuation techniques utilize discounted cash flows or other non-observable market information.

The following is a description of valuation methodologies used for assets recorded at fair value.

¹Activist equity— This value is 100% from MPERS. Consisting of 2 funds, this strategy focuses on obtaining publicly traded shares of companies and effecting changes within the companies that it owns whether that be value creation through operational, financial or corporate governance changes. One fund's focus is on North American companies and the other fund's focus is on European and Nordic companies. Due to contractual lock-up restrictions and the necessity for activist managers to retain capital in order to realize desired company changes, 50% of this strategy's investments are eligible for redemption on a rolling 3-year basis. The remaining 50% are eligible for redemption on a rolling 1-year basis.

²Commodity trading advisors— This value is 100% from MPERS. Consisting of 1 fund, the focus is on a systematic strategy that follows medium-term trends. The value of this investment is eligible for redemption in the next 2 months.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

³Long/short equity hedge funds – This value is 89.9% from MOSERS and 10.1% from MPERS. Consisting of 3 funds for MOSERS and 3 funds for MPERS, this strategy invests both long and short in U.S. and global equity securities, with a goal of adding growth and minimizing market exposure. Due to contractual lock-up restrictions, these investments remain restricted from anywhere ranging from 4 to 18 months for MOSERS and 6 to 9 months for MPERS.

⁴Equity market neutral hedge fund – This value is 86.8% from MOSERS and 13.2% from MPERS. For MOSERS, this consists of 1 fund whereby the strategy invests both long and short in U.S. and global equity securities, with the goal of having little to no net market exposure. This investment is redeemable quarterly and is not subject to lockup restrictions. For MPERS, this consists of 1 fund whereby the strategy invests in both long and short equities capturing price differences and seeks to maintain a neutral exposure to the market by having no sector, industry, market capitalization, or country biases. Due to contractual lock-up restrictions, the value of these investments is eligible for redemption in the next 4 months.

⁵Event driven hedge funds – This value is 95.0% from MOSERS (with a redemption period of 60-65 days) and 5.0% from MPERS (with a redemption period of 90 days). Consisting of 2 funds for MOSERS and 1 fund for MPERS, this strategy seeks to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a merger, corporate action, or related event. Due to contractual lock-up restrictions, (a) approximately 29% of the value of these investments are eligible for redemption quarterly, with the remaining 71% of the value of these investments remaining restricted for 4 to 20 months for MOSERS and (b) the value of these investments is eligible for redemption in the next 4 months for MPERS.

⁶Fund-of-funds – This value is 100% from MOSERS. Consisting of 1 fund, this fund seeks to provide diversification by holding a number of funds within a single fund structure. This investment is redeemable monthly and is not subject to lock-up restrictions.

⁷Global asset allocation – This value is 100% from MPERS. Consisting of 1 fund, this strategy is highly diversified and uses fundamental research to develop systematic rules for trading positions. Due to contractual lock-up restrictions, the value of these investments is eligible for redemption in the next 4 months.

⁸Pending liquidated hedge funds – This value is 99.6% from MOSERS and .4% from MPERS. MOSERS has 12 hedge funds that have been fully redeemed as of June 30, 2017, which are awaiting final distribution of the proceeds. Approximately 83% of the value was received within 90 days of June 30, 2017. The remaining 17% will be received upon sale of the underlying investments or upon completion of the audit of the firm's annual financial statements. MPERS has a small investment in 3 hedge funds that are in liquidation and have been closed, which are awaiting the sale of the final assets.

⁹Macro hedge funds – This value is 100% from MOSERS. For MOSERS, consisting of 2 funds, this strategy seeks to take advantage of macroeconomic dislocations between countries by trading a number of different markets and financial instruments. This investment is redeemable monthly and quarterly and is not subject to lock-up restrictions.

¹⁰Merger arbitrage hedge fund – This value is 100% from MOSERS. Consisting of 1 fund, this strategy invests in the common stock of companies that are involved in publicly announced mergers and seeks to generate attractive returns while dampening volatility. These investments are redeemable monthly and are not subject to lock-up restrictions.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

- ¹¹Multi-strategy hedge fund – This value is 74.9% from MOSERS and 25.1% from MPERS. Consisting of 1 fund for MOSERS and 3 funds for MPERS, these strategies seek to generate attractive returns or diversify risk while reducing volatility. For MOSERS, this investment is redeemable quarterly and is not subject to lock-up restrictions. For MPERS, due to contractual lock-up restrictions, the value of these investments are eligible for redemption in the next 6 to 9 months.
- ¹²Risk parity funds – This value is 100% from MOSERS. Consisting of 2 funds, these strategies attempt to build a more efficient portfolio through an equal risk methodology. They take long only positions across equity indices, developed nominal bonds, TIPS, commodities and credit. Diversification benefits decrease both the expected return and volatility thus requiring leverage to maintain a similar return to a more conventional portfolio. This investment is redeemable monthly and is not subject to lock-up restrictions.
- ¹³Risk premia hedge funds – This value is 100% from MOSERS. Consisting of 2 funds, these strategies seek to capture hedge fund betas through the use of systematic, bottoms up security selection across major hedge fund strategies. Style premia such as value, momentum and carry help build the long/short portfolios. This investment is redeemable at least monthly and is not subject to lock-up restrictions.
- ¹⁴Structured credit – relative value – This value is 100% from MPERS. Consisting of 1 fund, this strategy's main focus is to benefit from valuation discrepancies that may be present in related financial instruments by simultaneously purchasing or selling these instruments. Due to contractual lock-up restrictions, all funds are eligible for redemption within the next six months.
- ¹⁵Commingled international equity funds – This value is 79.3% from MOSERS (with a redemption period of 65 days) and 20.7% from MPERS (with a redemption period of 0-30 days and 90 days). These international equity funds (3 for MOSERS and 3 for MPERS) are considered to be commingled in nature. For MOSERS, each are valued at the net asset value held at the end of the period based upon the fair value of the underlying investments. For MPERS, due to contractual lock-up restrictions, 70% of this capital is eligible for redemption in 1 month; the remaining 30% has daily liquidity.
- ¹⁶MOSERS Investment Portfolio (MIP) fund - This value is 83.5% from the Deferred Compensation Plan and 16.5% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur monthly. The significant investment strategies are designed to achieve long-term total returns, comprised of capital appreciation and income. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments nor does the Plan have any contractual obligations to further invest in any of these funds.
- ¹⁷Missouri target date funds - This value is 77.8% from Deferred Compensation Plan and 22.2% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur daily. The significant investment strategies of the funds are to seek the highest total return over time, consistent with the fund's asset mix. The asset allocations within these target date funds adjust automatically over time. Each fund invests more aggressively in its early years and becomes more conservative as it reaches its time horizon. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments nor are there any contractual obligations to further invest in any of these funds.

Note 3 - Deposits and Investments (cont.)

¹⁸Private equity, real estate and timber funds – This value is 100% from MOSERS. MOSERS' private equity portfolio consists of 48 funds with exposure to buyout funds, distressed funds, infrastructure, energy, royalty funds, and special situations. The real estate portfolio, comprised of five funds, invests mainly in U.S. commercial real estate. The timber portfolio consists of 4 funds which invests in global timberland. The fair values of the majority of these funds has been determined using net assets valued 1 quarter in arrears plus current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments as the funds are liquidated, which on average, can occur over the span of 5 to 10 years.

The State Treasurer's Office requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments.

The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

Note 3 - Deposits and Investments (cont.)

C. Securities Lending Program

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Certain securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default. On June 30, 2017, MOSERS had no credit risk exposure to borrowers because the collateral amounts received exceeded amounts out on loan.

Deutsche Bank AG, New York Branch served as the agent for the fixed income, domestic equity, and international equity securities lending programs. MOSERS reduces credit risk by allowing Deutsche Bank to lend these securities to a diverse group of dealers on behalf of MOSERS. Deutsche Bank provides indemnification against dealer default. With each of MOSERS' securities lending programs, a majority of loans are open loans and can be terminated on demand by either MOSERS or the borrower. Net income from the three lending programs is split on a 90/10 basis between MOSERS and Deutsche Bank, respectively.

Daily monitoring of securities that are on loan ensure proper collateralization levels and mitigate counterparty risk. Cash collateral from all three programs is commingled and invested in a separately managed short-term investment account for MOSERS. The cash collateral account is managed by Deutsche Bank. On June 30, 2017, there were no securities on loans or cash collateral held in the account. At June 30, 2017 and June 30, 2016, MOSERS had earned \$22,000 and \$0, respectively, on the securities lending program.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. MPERS custodial bank, Northern Trust, is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

MPERS may lend securities and receive cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. MPERS cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers are required to deliver collateral for each loan equal to: 1) 102% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities denominated in United States dollars or whose primary trading market is located in the United States, and 2) 105% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States.

MPERS did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

MPERS and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2017, the cash collateral fund had a fair value of \$56,823,000.

At June 30, 2017 and June 30, 2016, MPERS had earned \$278,000 and \$203,000, respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

D. Derivatives

Missouri State Employees' Retirement System:

While the Board has no formal policy specific to derivatives, Missouri State Employees' Retirement System (MOSERS), through its external investment managers, holds investments in futures contracts, swap contracts and forward foreign currency exchange contracts. MOSERS does not anticipate additional significant market risk from the swap arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. For the year ended June 30, 2017, the change in fair value of the foreign exchange contracts resulted in \$3,200,000 of investment income. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. MOSERS also invests in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. At June 30, 2017, MOSERS Foreign Currency Forward Contracts had a pending receivable of \$37,025,000 and a pending payable of \$36,865,000 resulting in a final asset of \$160,000.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2017. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Futures Contracts:

<u>Notional Amount</u>	<u>Exposure</u>
\$1,593,465	\$24,097

Swap Contracts:

<u>Notional Amount</u>	<u>Counterparty Exposure</u>
\$1,491,463	\$3,853

Foreign Currency
Forward Contracts:

<u>Notional Amount</u>	<u>Exposure</u>
\$160	\$160

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 3 - Deposits and Investments (cont.)

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

MPERS has an investment policy which holds investments in future contracts, swap contracts, options contracts, and forward foreign currency exchange contracts. Derivative financial instruments involve credit risk and market risk. The notional value related to these derivative instruments are generally not recorded on the financial statements; however, the change in market value of these instruments is incorporated in performance.

The following table (in thousands of dollars) summarizes the various contracts in MPERS portfolio as of June 30, 2017. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Type	Notional/Fair Value		Unrealized Gain (Loss)	
Futures Contracts	\$	210,481	\$	15,329
Swap Contracts		26,936		2,923
Rights/Warrants		12		—
Foreign Currency Forward Contracts		(20,458)		(1,308)
Total	\$	216,971	\$	16,944

Through the use of derivatives, MPERS is exposed to risk if the counterparties involved in the contracts are unable to meet the term of their obligation. MPERS investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. MPERS anticipates the counterparties will be able to satisfy their obligations under the contracts. The associated counterparty's credit rating is an A-.

Component Units:

Information on the component units derivatives is available within their individual financial statements.

E. Assets Held in Escheat

The Unclaimed Property Division of the Missouri State Treasurer's Office holds unclaimed stocks, bonds, mutual fund positions, and other securities that have been turned over by their holders on behalf of the securities' owners. The State takes custody of these securities until the owner claims them or if unclaimed, liquidates them after 18 to 24 months. The State holds the securities in order to return them to their owners. The State does not report these securities as investments because they do not meet the Governmental Accounting Standards Board's definition of "investments". This is because the State does not hold the securities for income or profit, nor do the securities have a present service capacity for the State. A total of \$23,998,000 of these unclaimed securities is shown as "Assets Held in Escheat" on the private-purpose trust funds combining statement of fiduciary net position in Unclaimed Property.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 4 - Governmental Fund Balance

A. Governmental Fund Balance Classifications

The State's fund balances are classified as:

Nonspendable – Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

Restricted – Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the restraints.

Assigned – Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed. The constraint for assigned fund balance is established by the Revised Statutes of the State of Missouri.

Unassigned – Amounts that do not meet the criteria of any of the classifications listed above.

Fund Balance Classifications by Purpose – In the basic financial statements, the fund balance classifications are presented in the aggregate. The following displays the fund balances by major purpose (in thousands of dollars):

	Nonspendable	Restricted	Committed	Assigned

B. Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 4 - Governmental Fund Balance (cont.)

C. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the Governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the Governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each house. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2017, was \$590,374,000.

Capital Asset Impairment

Due to a fire which destroyed the Thousand Hills Service Buildings, owned by the Department of Natural Resources (DNR), an impairment amount of \$39,000 is reported as an extraordinary item in the Proprietary Funds Statement of Revenues, Expenses, and Changes in Fund Net Position. Due to flooding, Current River Lake House, owned by DNR, was damaged. An extraordinary item of \$114,000 is reported in the Proprietary Funds Statement of Revenues, Expenses, and Changes in Fund Net Position.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 6 - Leases

Capital

The State has entered into various agreements to lease buildings, equipment and software. GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease liability).

Capital leases for the internal service funds, enterprise funds, and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Internal Service Funds	Enterprise Funds	College and Universities
2018	\$ 7,724	\$ 4,931	\$ 129	\$ 7,312
2019	6,550	3,081	—	7,300
2020	5,474	2,021	—	6,069
2021	5,048	1,178	—	5,666
2022	4,501	121	—	5,424
2023-2027	5,240	604	—	19,342
2028-2031	2,247	362	—	1,292
Total Minimum Lease Payments	36,784	12,298	129	52,405
Less Amount Representing Interest	(2,880)	(466)	(1)	(6,896)
Present Value of Net Minimum Lease Payments	\$ 33,904	\$ 11,832	\$ 128	\$ 45,509

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under this lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued \$21,820,000 of Leasehold Revenue Refunding Bonds Series A 2013 and \$7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding \$20,805,000 of Leasehold Revenue Bonds Series 2005 and \$7,100,000 of Leasehold Revenue Bonds Series 2006, respectively. The payments on these leases are subject to annual appropriation by the State legislature.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 6 - Leases (cont.)

Following is a summary of the future minimum lease payments to pay interest and principal of the Leasehold Revenue Bonds (in thousands of dollars):

Fiscal Year Ending June 30	Internal Service Funds
2018	\$ 2,418
2019	2,416
2020	2,412
2021	2,414
2022	2,413
2023-2027	12,039
2028-2031	9,624
Total Minimum Lease Payments	<u>33,736</u>
Less Amount Representing Interest	<u>(6,426)</u>
Present Value of Net Minimum Lease Payments	<u><u>\$ 27,310</u></u>

Series A 2005 Refunding Certificates of Participation dated March 1, 2005, in the amount of \$120,490,000 refunded \$13,945,000 of Missouri Public Facilities Corporation Certificates of Participation (Acute Care Psychiatric Hospital Project) Series A 1994, \$13,400,000 of Missouri PRC Corporation Certificates of Participation (Psychiatric Rehabilitation Center Project) Series A 1995, \$9,915,000 of Northwest Missouri Public Facilities Corporation Certificates of Participation (Northwest Missouri Psychiatric Rehabilitation Center Project) Series B 1995, and \$83,480,000 of Missouri Public Facilities Corporation II Certificates of Participation (Bonne Terre Prison Project) Series A 1999. The State issued Refunding Certificates of Participation Series A 2011 dated June 7, 2011, in the amount of \$76,910,000. The Refunding Certificates of Participation refunded \$76,065,000 of Series A 2005 Refunding Certificates of Participation.

The State's obligation under these leases does not constitute a general obligation or other indebtedness of the State. The certificates of participation represent proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate and are subject to annual appropriation by the State legislature.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 6 - Leases (cont.)

Following is a summary of the future minimum lease payments for the Certificates of Participation (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds
2018	\$ 13,665
2019	13,668
Total Minimum Lease Payments	<u>27,333</u>
Less Amount Representing Interest	<u>(563)</u>
Present Value of Net Minimum Lease Payments	<u><u>\$ 26,770</u></u>

Assets acquired through these capital lease agreements are recorded as capital assets at the lower of the present value of the minimum lease payments or the fair value at the time of acquisition. The following is the value of the property under capital lease by asset category as of June 30, 2017 (in thousands of dollars):

	Governmental Funds	Internal Service Funds	Enterprise Funds	College and Universities
Buildings	\$ 209,094	\$ 41,865	\$ —	\$ 26,676

Note 6 - Leases (cont.)

Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating, because the lease period is one year with multiple renewal options. Future minimum commitments due under operating leases as of June 30, 2017, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Enterprise Funds	Component Units
2018	\$ 20,284	\$ 323	\$ 11,591
2019	789	308	7,851
2020	634	117	6,459
2021	591	4	5,055
2022	567	1	3,516
2023-2027	868	—	7,471
2028-2032	53	—	—
2033-2037	50	—	—
2038-2042	50	—	—
2043-2047	50	—	—
2048-2052	50	—	—
2053-2057	50	—	—
2058-2062	50	—	—
Total Minimum Commitments	<u>\$ 24,086</u>	<u>\$ 753</u>	<u>\$ 41,943</u>

Expenditures for rent under operating leases for the years ended June 30, 2017 and June 30, 2016 were \$22,740,000 and \$43,145,000, respectively.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 6 - Leases (cont.)

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the leased facilities and land is \$93.3 million less accumulated depreciation of \$22.5 million for component units. The Department of Natural Resources (DNR) has \$71,000 in income from easements on DNR property. This income will be received in perpetuity. The contract conditions and amount for each individual easement can change with the sale of the property requiring the easement. New contracts will be negotiated with new property owners. Future minimum receivables, payable from lessor arrangements as of June 30, 2017, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Component Units
2018	\$ 4,045
2019	3,831
2020	3,467
2021	3,402
2022	3,389
2023-2027	17,002
2028-2032	16,718
2033-2037	17,030
2038-2042	15,179
2043-2047	7,274
2048-2052	2,637
2053-2057	1,787
2058-2062	1,711
2063-2067	500
2068-2072	500
2073-2077	500
2078-2082	500
2083-2087	500
2088-2092	500
2093-2097	50
Total Minimum Receivables	<u>\$ 100,522</u>

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all State employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). MOSERS is comprised of the Missouri State Employees' Plan (MSEP), a cost-sharing multiple employer defined benefit public employee retirement plan and the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employees' retirement plan.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

Plan Descriptions

The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple employer defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 104.010 and 104.312-104.1215, RSMo.

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 1, 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

The Judicial Plan is a single-employer defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 476.445 to 476.690, RSMo. The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. General employees are fully vested after 5 years of creditable service if covered by the MSEP and MSEP 2000 plans and after 10 years of creditable service if covered by the MSEP 2011 plans. Elected officials are fully vested after 4 years of creditable service and Members of the General Assembly are fully vested after 6 years of creditable service. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The retirement eligibility requirements are as follows for general employees:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 55 with at least 10 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.6% multiplied by the final average pay multiplied by years of credited service.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 57 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less than 12 years of service or age 60 with less than 15 years of service with a reduced benefit that is based upon years of service relative to 12 or 15 years.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Judicial Plan 2011

Age 67 with 12 years of service
Age 62 with 20 years of service
Employees may retire early at age 67 with less than 12 years of service with reduced benefits or age 62 with less than 20 years of service with a reduced benefit based on years of service.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Retirement Systems (cont.)

MSEP 2011

Age 67 with 10 years of service
Age 55 with age and service equaling 90
or more (Rule of 90)
Employees may retire early at age 62 with
at least 10 years of service with
reduced benefits.
The base benefit in the general employee
plan is equal to 1.7% multiplied by the
final average pay multiplied by years
of credited service.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer defined benefit public employee retirement plan administered in accordance with Sections 104.010-104.1093, RSMo.

MPERS is considered a single-employer plan because its membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan-2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 1, 2011. The Year 2000 Plan-2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 10 years of creditable service.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years
of service
Age 65 with 5 or more years of service
Age 60 with 15 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 55 and active with 4 or more years
of service
Age 55 with 5 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)
Mandatory retirement at age 60

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

All non-uniformed members may retire early with reduced benefits at age 55 with at least 10 years of service.

The base benefit in the Closed Plan is equal to 1.6% multiplied by the final average pay multiplied by years of creditable service. For members of the uniformed patrol, the base benefit is calculated by applying the same formula, then multiplying the product by 1.33%.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the increase in the Consumer Price Index (CPI) with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter, the 4% minimum rate is eliminated. For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI, up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 48 with sum of age and service
equaling 80 or more (Rule of 80)
Mandatory retirement at age 60 with
5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service.

The base benefit in the Year 2000 Plan is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 80, and uniform patrol members retiring at the mandatory retirement age (currently 60), receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI, up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:

Age 67 with 10 or more years of service
Age 55 and active with sum of age and service
equaling 90 or more (Rule of 90)

Uniformed patrol members:

Age 55 and active with 10 or more years
of service
Mandatory retirement at age 60 with no
minimum service amount, active only.

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 10 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 10 or more years of service. COLAs are provided annually based on 80% of the change in the CPI, up to a maximum rate of 5%.

The base benefit in the 2011 Tier is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 90, and uniform patrol members retiring at the mandatory retirement age (currently 60) or at age 55 with 10 years of creditable service, receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Retirement Systems (cont.)

Single-Employer Plans:

Employees Covered by Benefit Terms – Single-Employers Only

As of June 30, 2016 valuation, membership consisted of the following:

	<u>Judicial Plan</u>	<u>MPERS</u>
Retirees, beneficiaries, and disabilities currently receiving benefits	540	8,684
Terminated employees entitled to, but not yet receiving benefits	27	2,334
Active		
Vested	408	5,520
Nonvested	—	1,921
Total Membership	<u>975</u>	<u>18,459</u>

Contributions

Per Chapter 104.436, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.00% of their annual pay. The State's required contribution rate for the MSEP and the Judicial Plan year ended June 30, 2016, were 16.97% and 58.45% of annual payroll, respectively. The contribution rates as a percentage of covered payroll for the MSEP and the Judicial Plan for the year ended June 30, 2016, were 16.96% and 58.59%, respectively. Contributions to the pension plan from the MSEP Plan and the Judicial Plan were \$270,198,000 and \$33,642,000 respectively, for the year ended June 30, 2016.

Per Chapter 104.070, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MPERS Board of Trustees. Beginning January 1, 2011, employee contributions of 4.00% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Employer contributions are determined through annual actuarial valuations. Administrative expenses are financed through contributions from participating employers and investment earnings. The state's required contribution rate, as adopted by the MPERS Board of Trustees, for the year ended June 30, 2016, was to be at least 58.00%. The contribution rate as a percentage of covered payroll for the MPERS plan year ended June 30, 2016, was 58.00%. Contributions to the pension plan from the MPERS plan were \$199,609,000.

For the portion of the MSEP Plan relating to the State's component units, the required contribution rate for the year ended June 30, 2016, was 16.97%. The contribution rates as a percentage of covered payroll for the year ended June 30, 2016, range from 16.93% to 16.98%. Contributions to the pension plan were \$57,219,000 for the year ended June 30, 2016.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2017, a liability was reported for the State's proportionate share of the net pension liability for the MSEP and the MSEP-CU plans based on an actuarial valuation as of June 30, 2016. The State's proportionate share of the net pension liability was based on the State's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for plan year ended June 30, 2016.

STATE OF MISSOURI

Net difference between projected and actual earnings on pension plan investments	623,549	11,968	140,722	132,048	—	—	76,260	—
Changes in proportion and differences between pension plan contributions and proportionate share of contributions	32	—	—	7,496	3,938	—	—	3,934
Contributions subsequent to the measurement date	274,510	34,252	206,563	58,181	—	—	—	—
Total	<u>\$ 1,334,749</u>	<u>\$ 90,829</u>	<u>\$ 347,285</u>	<u>\$ 290,195</u>	<u>\$38,027</u>	<u>\$ 3,718</u>	<u>\$119,562</u>	<u>\$ 11,153</u>

Amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU
2018	\$ 262,596	\$ 19,101	\$ (16,351)	\$ 57,776
2019	262,623	16,206	(13,797)	57,565
2020	387,942	15,455	28,007	82,427
2021	109,051	2,097	23,301	23,093
Totals	<u>\$ 1,022,212</u>	<u>\$ 52,859</u>	<u>\$ 21,160</u>	<u>\$ 220,861</u>

Actuarial Assumptions

The total pension liability at June 30, 2017, is based upon the June 30, 2016, actuarial valuation for MOSERS and MPERS using the entry age normal actuarial cost method. Significant actuarial assumptions used in the June 30, 2016, actuarial valuations are the following:

	MSEP and MSEP-CU	Judicial	MPERS
Price Inflation	2.5%	2.5%	3.0%
Salary Increases	3.25-8.75%	3.0-5.2%	3.5-11.0%
Investment Rate of Return	7.65%	7.65%	7.75%

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

The actuarial assumptions used in the June 30, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015. As a result of this actuarial experience study, the MOSERS Board made various demographic and economic assumption changes to more closely reflect actual experience. The most significant changes included lowering the assumed annual investment rate of return from 8 % to 7.65 % and the adoption of the above mortality tables. The changes in assumptions recorded as deferred inflows and outflows of resources were due to these changes from the actuarial experience study.

Mortality rates, for post-retirement mortality, used in evaluating allowances to be paid to non-disabled pensioners were the RP-2000 Combined Healthy Mortality Tables projected 16 years and set back one year for males and females for MPERS. MOSERS mortality rates were based on the RP-2014 Healthy Annuitant Mortality table, projected from 2006 to 2026 with scale MP-2015 and scaled by 120%. MOSERS pre-retirement mortality table was the RP-2014 Employee Mortality table, projected from 2006-2026 with scale MP-2015 and scaled by 95% for males and 90% for females. MPERS pre-retirement mortality rates used was 70% for males and 50.

Amounts reported in the June 30, 2016, actuarial report are assumptions reflecting adjustments to expected rates of withdrawal, disability, normal and early retirement, mortality, and merit and seniority pay for MPERS. The actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015 for MOSERS and July 1, 2007 through June 30, 2012 for MPERS. The adjustments were made to more closely reflect actual experience.

The long-term (30 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate rates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for the MSEP and Judicial Plan and arithmetic real rates of return for MPERS for each major asset class included in the target allocation are summarized in the table below:

Asset Class	MSEP and MSEP-CU		Judicial		MPERS	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity					30%	4.80%
Private Equity					15%	6.50%
Fixed Income					25%	0.50%
Real Assets					5%	4.75%
Real Estate					10%	2.75%
Hedge Funds					15%	2.75%
Beta-balanced	80.0%	5.7%	80.0%	5.7%		
Illiquids portfolio**	20.0%	7.3%	20.0%	7.3%		
	<u>100.0%</u>		<u>100.0%</u>		<u>100%</u>	

** Illiquid portfolio upper limit at 27.5% of capital, no new commitments past 23%.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

Discount Rate

A single discount rate based on the expected rate of return on pension investments of 7.65%, 7.65%, and 7.75% was used to measure the total pension liability for MSEP, Judicial Plan, and MPERS, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate for MPERS. The projection of cash flows used to determine the discount rate assumed that employee contributions at the current contribution rate and that contributions from employers will be made at required rates, actuarially determined for MOSERS. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MSEP Net Pension Liability	6.65% \$5,025,193	7.65% \$3,816,328	8.65% \$2,802,799
Judicial Plan Net Pension Liability	6.65% 471,242	7.65% 415,565	8.65% 367,892
MPERS Net Pension Liability	6.75% 2,210,589	7.75% 1,769,659	8.75% 1,401,144
MSEP-CU Net Pension Liability	6.65% \$1,064,174	7.65% \$808,175	8.65% \$593,542

Payables to the Pension Plan

As of June 30, 2017, the State had payables of \$13,449,000 to MOSERS for the outstanding amount of contributions to the pension plan, relating to a two week lag in payroll.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separate financial reports issued by MOSERS and MPERS:

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees. As authorized by Section 172.300, RSMo, the University's Board of Curators administers the Retirement Plan and establishes its terms.

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Academic members who provide summer teaching and research service receive additional summer service credit. The Board of Curators may periodically approve increases to the benefits paid to existing pensioners. However, vested members who leave the University prior to eligibility for retirement are not eligible for these pension increases. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. Up to 30% of the retirement annuity can be taken in a lump sum payment. In addition the standard annuity can be exchanged for an actuarially-equivalent annuity.

As of June 30, 2017, membership consisted of the following:

Vested members	18,233
Inactive vested members	4,215
Pensioners and beneficiaries	<u>9,242</u>
Total Membership	<u><u>31,690</u></u>

Contributions

The University's contributions to the Retirement Plan are equal to the actuarially determined contribution rate (ADC). The ADC for those employees hired before October 1, 2012 averaged 9.5% of covered payroll for the year ending June 30, 2017. The ADC for those employees hired after September 30, 2012, averaged 5.6% of covered payroll for the year ended June 30, 2017. Employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1 at the beginning of the University's fiscal year, to reflect the actuarially determined funding requirement from the most recent valuation, as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year. The University contributed \$96,631,000 during the fiscal year ended June 30, 2017.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

Employees hired after September 30, 2012, participate in a single employer, defined contribution plan. Each year the University contributes 2% of each employee's eligible salary to a 401(a) plan. The University will match up to 3% of the employee contribution to the 457(b) plan with those going into the 401(a) plan. Employees are immediately 100% vested in their contributions. The University's base contributions and matching contributions vest following three years of consecutive or nonconsecutive service. The defined contribution plan recognized \$13,891,000 of pension expense and \$3,472,000 of forfeitures for the year ended June 30, 2017.

Net Pension Liability

The Retirement Plan's net pension liability was measured as of June 30, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2016. Roll-forward procedures were used to measure the Retirement Plan's net pension liability as of June 30, 2017. For the year ended June 30, 2017, fiduciary net position as a percentage of the total pension liability amounted to 86.97%.

Changes in net pension liability (in thousands of dollars):

Pension Expense

Annual pension expense consists of service cost and interest on the pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as a deferred outflow/inflow of resources and recognized in pension expense over a five year period.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

For the year ended June 30, 2017, the Retirement Plan recognized pension expense of \$117,940,000. At June 30, 2017, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 6,846	\$ 44,857
Net difference between projected and actual earnings on pension plan investments	93,518	—
Total	<u>\$ 100,364</u>	<u>\$ 44,857</u>

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of these items:

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources
	Recognition
2018	\$ 15,077
2019	61,543
2020	17,353
2021	(33,353)
2022	(4,941)
Thereafter	(172)
Totals	<u>\$ 55,507</u>

Actuarial Assumptions

The October 1, 2016, actuarial valuation utilized the entry age actuarial cost method. Actuarial assumptions included:

Inflation	2.75%
Salary Increases	4.1% - 4.9%
Investment Rate of Return	7.75%

For purposes of determining actuarially required contributions, the actuarial value of assets was determined using techniques that spread effects of short-term volatility in the market value of investments over a five-year period. The underfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis over 27 years from the October 1, 2016, valuation date. Mortality rates were based on the RP-2000 Combined Health Mortality Table projected to 2023 using Scale BB.

The actuarial assumptions used in the October 1, 2016, valuation were based on the results the most recent quinquennial study of the University's own experience covering 2008 to 2012.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 7 - Retirement Systems (cont.)

The annual money-weighted rate of return is calculated as the internal rate of return on pension investments, net of pension plan investment expense. The money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return (loss) on pension plan investments for the years ended June 30, 2017, was 11.0%. The following table provides long-term expected rates of real return:

	Target	Long-Term Expected Real Rate of Return
Domestic large cap equity	18%	6.5%
Domestic small cap equity	2%	6.5%
Domestic fixed income	3%	1.7%
International equity	19%	6.7%
Emerging markets equity	6%	9.3%
International fixed income	4%	1.8%
Real estate	6%	4.3%
Private equity	10%	11.6%
Absolute return strategies	8%	4.1%
High yield fixed income	10%	4.1%
Emerging markets fixed income	6%	4.5%
Treasury inflation protection	2%	1.7%
Floating rate bank loans	4%	2.6%
Global inflation-linked bonds	2%	1.7%
	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the University contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. For the October 1, 2016, actuarial valuation, 7.75% was used as the net long-term expected rate of return.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MU Net Pension Liability	6.75% \$999,575	7.75% \$522,264	8.75% \$115,926

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT and MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing, multiple employer plan, while MHPML and CEIP are both single-employer plans. MOSERS is an insured, defined benefit insurance plan and is currently administered through The Standard insurance company. It is financed on a percentage of payroll and is purchased as a group policy through competitive bids. The eligible number of retirees/long-term disability claimants for MCHCP, MHPML, and CEIP for health care benefits are approximately 21,132, 6,328 and 882 respectively. The number of retirees/long-term disability claimants currently participating in MOSERS, MHPML, and CEIP for life insurance benefits are 26,008, 3,978, and 502 respectively. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. MOSERS employer contribution rates are set by The Standard insurance company. MHPML and CEIP life insurance benefits are funded through employee contributions. MHPML and CEIP employer contribution rates are set by the Plans Board of Trustees and approved by their respective Commission. Contributions are established and may be amended by the MCHCP Board of Trustees within the authority granted under Chapter 103 of the Revised Statutes of Missouri (2000) as amended ("RSMo") 103.003 through 103.178. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Insurance policies are purchased for life insurance benefits and are the liability of the insurance carrier.

During fiscal year 2017, the State contributed \$1,925,000 and recognized \$1,925,000 in expenditures for MOSERS life insurance.

For fiscal year 2017, the State's contributions were 53.16% of the total (employer/employee) contributions made for other postemployment benefits.

Funding Policy

The contribution requirements of MCHCP, MHPML, and CEIP are established and may be amended by the State legislature, Missouri Highways and Transportation Commission, and the Conservation Department Board of Trustees, respectively. State contribution rates for MCHCP are based on the State's approved appropriation and the number of anticipated participants. The required contribution for MHPML and CEIP is based on an actuarial study and is financed on a pay-as-you-go basis. For fiscal year 2017, MCHCP, MHPML, and CEIP contributed \$67.4, \$25.1 and \$4.3 million, respectively. Retiree contributions during fiscal year 2017 for MCHCP, MHPML, and CEIP were \$52.2, \$22.4, and \$2.8 million, respectively.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 8 - Other Postemployment Benefits (cont.)

Annual OPEB Cost and Net OPEB Obligation

The MCHCP, MHPML, and CEIP annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45, *Accounting and Fiscal Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of MCHCP, MHPML, and CEIP annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the net OPEB obligation (in thousands of dollars):

	MCHCP	MHPML	CEIP
Annual required contribution	\$ 106,802	\$ 73,610	\$ 11,392
Interest on net OPEB contribution	20,352	23,385	2,316
Adjustments to annual required contribution	(14,914)	(32,515)	(2,353)
Annual OPEB cost	112,240	64,480	11,355
Contributions made	(67,399)	(25,063)	(4,320)
Increase in net OPEB obligations	44,841	39,417	7,035
Net OPEB obligation, beginning of year	357,046	584,625	61,762
Net OPEB obligation, end of year	\$ 401,887	\$ 624,042	\$ 68,797

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2017 are as follows (in thousands of dollars):

	MCHP			MHPML		
	Fiscal Year Ending			Fiscal Year Ending		
	06/30/17	06/30/16	06/30/15	06/30/17	06/30/16	06/30/15
Annual OPEB Cost (AOC)	\$ 112,240	\$ 101,903	\$ 108,266	\$ 64,480	\$ 65,105	\$ 72,601
Percentage of AOC	60.05%	64.96%	57.81%	38.87%	38.49%	37.87%
Net OPEB Obligation	\$ 401,887	\$ 357,046	\$ 321,343	\$ 624,042	\$ 584,625	\$ 544,582

	CEIP		
	Fiscal Year Ending		
	06/30/17	06/30/16	06/30/15

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 8 - Other Postemployment Benefits (cont.)

Funded Status and Funding Progress

The funded status of the Plans as of June 30, 2017, are as follows (in thousands of dollars):

	<u>MCHCP</u>	<u>MHPML</u>	<u>CEIP</u>
Actuarial Accrued Liability (AAL)	\$1,837,900	\$ 793,246	\$ 175,716
Less Actuarial Value of Plan Assets	125,400	—	—
Unfunded Actuarial Accrued Liability	<u>\$1,712,500</u>	<u>\$ 793,246</u>	<u>\$ 175,716</u>
 Funded Ratio	 6.82%	 0.00%	 0.00%
 Covered Payroll	 \$1,609,500	 \$ 356,149	 \$ 67,400
 UAAL as a Percentage of Covered Payroll	 106.40%	 222.73%	 260.71%

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation for fiscal year ending June 30, 2017, MCHCP used the entry-age method while MHPML and CEIP used the projected unit credit cost method. The actuarial assumptions for MCHCP, MHPML, and CEIP include a 5.7%, 4.0%, and 3.8% discount rate, respectively. For MCHCP, the projected annual health care cost trend rate for non-Medicare health care is 6.5% in fiscal 2017, decreasing by 0.25% per year to an ultimate rate of 5.0% in fiscal year 2023. The projected annual health care cost trend rate for Medicare health care is 7.5% in fiscal year 2017, decreasing by 0.25% per year to an ultimate rate of 5.0% in fiscal year 2027. The UAAL is being amortized at a level dollar amount over an open basis, over a 30-year period.

College and Universities:

University of Missouri System

In addition to the retirement benefits described in *Note 7*, the University provides postemployment medical care, dental care, and life insurance benefits to eligible employees who retire from the University and to employees receiving long-term disability benefits by means of a single-employer, defined benefit plan. Currently, 7,683 retirees/long-term disability claimants meet the eligibility requirements. These postemployment benefits are funded through both employer and employee contributions. For fiscal year 2017, the University's contributions were 59.19% of the total (employer/employee) contributions made for other postemployment benefits.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 8 - Other Postemployment Benefits (cont.)

Currently, the number of retirees/long-term disability claimants participating in medical care, dental care, and life insurance are 6,279, 6,481, and 3,470 respectively. During fiscal year 2017, the University and its employees contributed \$36,144,000 for other postemployment benefits. The expenditures recognized by the University for (employer/employee) other postemployment benefits were \$36,059,000.

Funding Policy

Contribution requirements of the employees and the University are established and may be amended by the University's Board of Curators. The University has no obligation to make contributions in advance of when insurance premiums or claims are due for payment. It currently funds postemployment benefits at a level no less than the pay-as-you-go basis. In fiscal year 2017 and 2016, the University contributed \$21,394,000 and \$26,207,000, or 93.2% and 90.8%, of the annual required contribution (ARC), respectively.

Annual OPEB Cost and Net OPEB Obligation

The University's annual other postemployment benefit (OPEB) cost is calculated based on the ARC of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the University's net OPEB obligation for fiscal year 2017 (in thousands of dollars):

	<u>University of Missouri System</u>
Annual required contribution	\$ 22,958
Interest on net OPEB obligation	7,440
Adjustment to annual OPEB obligation	<u>(8,134)</u>
Annual OPEB cost	22,264
Contributions made	<u>(21,394)</u>
Increase in net OPEB obligation	870
Net OPEB obligation (asset), beginning of year	<u>212,572</u>
Net OPEB obligation, end of year	<u><u>\$ 213,442</u></u>

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2017 was as follows (in thousands of dollars):

	<u>University of Missouri System</u>		
	<u>Fiscal Year Ending</u>		
	<u>06/30/17</u>	<u>06/30/16</u>	<u>06/30/15</u>
Annual OPEB Cost (AOC)	\$ 22,264	\$ 28,986	\$ 58,462
Percentage of AOC	96.09%	90.40%	43.98%
Net OPEB Obligation	\$ 213,442	\$ 212,572	\$ 209,793

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 8 - Other Postemployment Benefits (cont.)

Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2017, was as follows (in thousands of dollars):

	<u>University of Missouri System</u>
Actuarial Accrued Liability (AAL)	\$ 464,734
Less Actuarial Value of Plan Assets	35,145
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$ 429,589</u>
Funded Ratio	7.56%
Covered Payroll	\$ 1,188,977
UAAL as a Percentage of Covered Payroll	36.13%

Actuarial Methods and Assumptions

July 1, 2015 was the date of the last valuation. The University of Missouri used the projected unit credit actuarial cost method of valuation. The actuarial assumptions for University of Missouri System included a 3.5% rate of return, net of administrative expenses. The projected annual health care cost trend rate is 7.5% to 11.5% initially, reduced by 0.5% decrements to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, level percent of pay, over a 30-year period.

During fiscal year 2016, the University's Board of Curators approved new plan provisions for retiree insurance offerings available to current employees upon their retirement that would reduce the University's actuarial accrued liability. As a result of the changes, the plan reduced the Accrued Actuarial Liability by \$170,097,000. This change will be amortized into the Unfunded Actuarial Liability over a period of 30 years.

Note 9 - Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Copies of the Plan's financial statements may be requested from:

Plan Administrator

Note 9 - Deferred Compensation (cont.)

Missouri State Public Employees' Deferred Compensation Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees' Deferred Compensation Plan. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employees as well as rollovers from other qualified plans. During fiscal year 2017, net rollovers and contributions to ICMA-RC were \$70,275,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator

Note 12 - Bonds Payable

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 12 - Bonds Payable (cont.)

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Water Pollution Control Bonds:				
Series A 2010-Refunding	7/27/10	\$ 81,450	A 2001	\$ 15,030
			A 2002	20,225
			B 2002-Refunding	12,990
			A 2005-Refunding	8,595
			A 2007	31,385
Series A 2012-Refunding	9/27/12	62,460	A 2002	3,225
			B 2002-Refunding	64,080
Fourth State Building Bonds:				
Series A 2010-Refunding	7/27/10	9,060	A 2002-Refunding	8,970
			A 2005-Refunding	1,470
Series A 2012-Refunding	9/27/12	100,395	A 2002-Refunding	110,535
Stormwater Control Bonds:				
Series A 2010-Refunding	7/27/10	15,150	A 2001	7,320
			A 2002	8,475
			A 2005-Refunding	905

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 12 - Bonds Payable (cont.)

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2017, \$594,494,240 of the Water Pollution Control Bonds; \$250,000,000 of the Fourth State Building Bonds; and \$45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is \$130,505,760 and for Stormwater Control Bonds is \$155,000,000. There is no remaining authorization for the Fourth State Buildings Bonds.

General obligation bonds issued and outstanding as of June 30, 2017, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Water Pollution Control Bonds:						
Series A 2007	4.0 - 5.0%	6/1; 12/1	11/07	12/1/21	\$ 50,000	\$ 9,095
Series A 2010-Refunding	4.0 - 5.0%	12/1; 6/1	7/10	12/1/22	81,450	49,665
Series A 2012-Refunding	3.0 - 4.0%	10/1; 4/1	9/12	10/1/19	62,460	19,670

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 12 - Bonds Payable (cont.)

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals \$1,545,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Board of Public Buildings:				
Series A 2011-Refunding	09/27/11	\$ 143,020	A 2001	\$ 126,850
			A 2003	12,620
			A 2006	3,175
Series A 2012-Refunding	08/23/12	278,835	A 2003	285,340
Series A 2013-Refunding	10/11/13	29,370	A 2003	30,195
Series A 2014-Refunding	08/19/14	88,680	A 2006	87,225
Series A 2015-Refunding	04/01/15	20,250	A 2011-Refunding	21,380

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2017, the Board of Public Buildings Bonds had issued \$1,068,010,000 of the bond authorization. The remaining authorization is \$476,990,000.

The Board of Public Buildings Bonds issued and outstanding as of June 30, 2017, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Board of Public Buildings:						
Series A 2011-Refunding	1.0 - 5.0%	4/1; 10/1	9/11	10/1/28	\$ 143,020	\$ 91,190

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29-34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2017, the Missouri Highways and Transportation Commission had issued \$3,812,195,000.

Total Missouri Development Finance Board Revenue Bonds					<u>\$ 30,100</u>	<u>\$ 19,696</u>

As of June 30, 2017, the debt service requirements for principal and interest in future years for the Missouri Development Finance Board Revenue Bonds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2018	\$ 214	\$ 126	\$ 340
2019	223	123	346
2020	232	120	352
2021	11,892	116	12,008
2022	252	101	353
2023-2027	1,438	448	1,886
2028-2032	1,779	332	2,111
2033-2037	2,197	189	2,386
2038-2040	1,469	32	1,501
Totals ⁽¹⁾	<u>\$ 19,696</u>	<u>\$ 1,587</u>	<u>\$ 21,283</u>

⁽¹⁾The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 12 - Bonds Payable (cont.)

The annual debt service schedule assumes an interest rate of 0.098%, representing the interest rate at June 30, 2017, for the Series 2000B and Series 2000C bonds. The annual debt service also assumes an interest rate of 4.25%, representing the interest rate as of June 30, 2017, for the Seventh Street Garage Series 2010A bonds. As of June 28, 2012 through April 30, 2015, the Board entered into an interest deferral agreement whereby the bond interest rate for the Seventh Street Garage Series 2010A bonds is the lesser of the modified pay rate or 4.25% annually.

Bond Transactions of the State of Missouri - The following schedule is a summary of bond activity for the fiscal year ended June 30, 2017 (in thousands of dollars):

	Governmental Funds		Component Units	
	General Obligation Bonds	Other Bonds	Revenue Bonds	Totals
Bonds Payable at July 1, 2016	\$ 208,880	\$ 3,207,400	\$ —	\$ 3,416,280
Bond Issuance	—	97,225	—	97,225
Bonds Retired	(54,050)	(360,800)	—	(414,850)
Subtotal	154,830	2,943,825	—	3,098,655
College and Universities ⁽¹⁾	—	—	2,096,641	2,096,641
Missouri Development Finance Board	—	—	19,696	19,696
Bonds Payable at June 30, 2017	<u>\$ 154,830</u>	<u>\$ 2,943,825</u>	<u>\$ 2,116,337</u>	<u>\$ 5,214,992</u>

⁽¹⁾ Detailed information for college and universities are not shown.

Note 13 - Defeased Debt

A. Current Year Debt Defeasance

On August 10, 2016, the Southeast Missouri State University issued \$25,025,000 of System Facilities Revenue Bonds, Series 2016C, with interest rate ranging from 2.00% to 3.00%. As a result of the refunding, the University reduced its total debt service payments by \$3,068,337 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$2,723,714.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by the advance refunding of bonds. Irrevocable escrow accounts, containing proceeds of the refunding bond issues in the form of cash and U.S. government securities, are used to pay principal, interest, or redemption prices of the defeased bonds as and when due.

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Position.

Governmental Activities - As of June 30, 2017, bonds outstanding of \$21,380,000 are defeased.

College and Universities - As of June 30, 2017, bonds outstanding of \$278,765,000 are defeased.

Note 15 - Deferred Inflows and Outflows

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 15 - Deferred Inflows and Outflows (cont.)

The components of deferred outflows of resources and deferred inflows of resources reported in the government-wide financial statements as of June 30, 2017, are as follows (in thousands):

	Primary Government			Component
	Governmental Activities	Business-Type Activities	Total	Units
Deferred Outflows of Resources				
Pension Differences Between Expected and Actual Experience	\$ 42,597	\$ 1,449	\$ 44,046	\$ 15,169

The loans from the component units were for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Position, interfund payables and receivables were eliminated as follows: governmental activities in the amount of \$6,995,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 17 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2017, were as follows (in thousands of dollars):

Transfers In:					
	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Governmental Funds
Transfers Out:					
General Fund	\$ —	\$ 1,014,739	\$ 965	—	\$ 309,767
Public Education	23,510	—	—	—	—
Conservation and Environmental Protection	704	—	—	—	2,539
Non-Major Governmental Funds	18,006	5,050	—	459,141	5,600
State Lottery	—	291,686	—	—	—
Unemployment Compensation	376	—	—	—	2,078
Non-Major Enterprise Funds	30	—	—	—	1,022
Internal Service Funds	1,924	—	10	—	103
Totals	<u>\$ 44,550</u>	<u>\$ 1,311,475</u>	<u>\$ 975</u>	<u>\$ 459,141</u>	<u>\$ 321,109</u>

Continues Below

	State Lottery	Non-Major Enterprise Funds	Internal Service Funds	Totals
Transfers Out:				
General Fund	\$ —	\$ 695	\$ 153	\$ 1,326,319
Public Education	—	—	—	23,510
Conservation and Environmental Protection	—	—	—	3,243
Non-Major Governmental Funds	—	4,750	—	492,547
State Lottery	—	—	—	291,686
Unemployment Compensation	—	—	—	2,454
Non-Major Enterprise Funds	—	—	—	1,052
Internal Service Funds	27	37	26	2,127
Totals	<u>\$ 27</u>	<u>\$ 5,482</u>	<u>\$ 179</u>	<u>\$ 2,142,938</u>

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

There were transfers of capital assets for \$920,000 from a non-major special revenue funds to the enterprise funds. These are reported as capital contributions in the enterprise funds and excluded from the non-major special revenue funds; therefore these transfers are also not included in the reconciliation.

College and Universities	\$ 5,681,853	\$ 132,284	\$ 5,814,137
Total Component Units	<u>\$ 5,681,853</u>	<u>\$ 132,284</u>	<u>\$ 5,814,137</u>

Breakdown of restatements by type:

- General Fund, the restatement was due to a decrease in accounts receivable of \$1,605,000 and an increase in loans receivable of \$1,542,000.
- Conservation and Environmental Protection, the restatement was due to a decrease in accounts receivable of \$32,000.
- Non-major special revenue funds, the restatement was due to a decrease in investments of \$196,000.
- Non-major enterprise funds, the restatement was due to a decrease in capital assets (net of accumulated depreciation/amortization) of \$33,000 and an increase in unearned revenue of \$651,000.
- Non-major internal service funds, the restatement was due to a decrease in investments of \$296,000, a decrease in accounts receivable of \$84,000, an increase of capital assets (net of accumulated depreciation/amortization) of \$1,833,000, a decrease of accounts payable of \$7,000, and an increase of obligations under lease purchase of \$1,298,000.
- Discretely presented component units - colleges and universities, the restatement was due to a decrease in prepaid expenses and other current assets of \$152,000. For the University of Missouri, financial statements were restated to reflect the adoption of GASB Statement No. 80, *Blending Requirements for Certain Component Units*. (See Note 2). The cumulative effect of the change in accounting principle resulted in a increase in beginning net position of \$132,436,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 18 - Restatements (cont.)

- Pension (and other employee benefit) trust funds, the restatement was due to an increase of investments at fair value of \$296,000, an increase of capital assets (net of accumulated depreciation/amortization) of \$6,000, and an increase of accounts payable of \$7,000.

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, other assets decreased by \$2,336,000, capital assets (net of accumulated depreciation/amortization) increased by \$14,446,000, obligations under lease purchase decreased by \$1,298,000, and deferred outflows of resources for refunding bonds increased by \$1,594,000.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds.

Note 19 - Fund Deficit

The following funds had a deficit balance:

Enterprise Fund – Petroleum Storage Tank Insurance – At June 30, 2017, this fund had a net position deficit of \$32,306,000. The deficit at June 30, 2016 was \$26,061,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2020, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Under Section 319.132, RSMo, the Board of Trustees has authority to increase the transport load fee to a maximum of \$60 per 8,000 gallons. In addition, under Section 319.133, RSMo, the Board can increase annual participation fees to a maximum of \$500 per tank per year. These facts, along with the knowledge that PSTIF's claim reserves are set using very conservative assumptions, assure that adequate revenues will be available to meet its liabilities. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Enterprise Funds – State Lottery and Missouri Veterans' Homes, and Internal Service Funds – Natural Resources Cost Allocation, Economic Development Administrative, Professional Registration Fees, and Missouri State Employees Insurance Plan – At June 30, 2017, these funds had a net position deficit of \$3,178,000, \$46,706,000, \$6,338,000, \$1,467,000, \$3,075,000, and \$84,000 respectively. These funds, except for the Missouri State Employees Insurance Plan, started to have deficit balances in fiscal year 2015 due to the implementation of GASB 68 and the reporting of net pension liabilities. It is expected that these liabilities will be funded over time. The Missouri State Employees Insurance Plan has a deficit due to administrative costs allocated exceeded reimbursement received.

Distressed Areas Land Assemblage	397
TOTAL	\$ 369,937
Chapter 100 Personal Property Tax Exemption - maximum amount exemption certificates issued	\$ 1,819

*Amount unknown

Housing

The Missouri Low Income Housing Tax Credit (MOLIHTC) is authorized by Sections 135.350-135.363, RSMo, and provides a tax credit to qualified owners of affordable rental housing. To qualify upon application, a development must 1) rent at least 20% of its units to families earning 50% of the area median family income or 2) rent at least 40% of its units to families earning 60% of the area median family income, each adjusted for family size. The MOLIHTC generates equity investments that are purchased by the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. The investor of the MOLIHTC can redeem the credit by applying it dollar for dollar to the following types of tax liabilities: income tax, corporate franchise tax, insurance premium tax, other financial institutions tax, or express company tax. MOLIHTC properties must comply with tenant eligibility, property maintenance, and fair housing law throughout a 15-year period. The Missouri Housing Development Commission monitors the properties for compliance and reports non-compliance to the Internal Revenue Service and Missouri Department of Revenue. Property owners found to be out of compliance are subject to recapture through the provisions of Section 135.355, RSMo and IRS §42. The MOLIHTC reduced State taxes by \$165,662,000 during fiscal year 2017.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 20 - Tax Abatements (cont.)

The Neighborhood Preservation Tax Credit is authorized by Sections 135.475-135.487, RSMo, and provides incentives for homeowners in lower income areas who rehabilitate or construct owner-occupied homes in qualifying or eligible areas of the State. Upon application, the eligible property must be in a qualifying area with a median household income of less than 70% of the median household income for the metropolitan statistical area (MSA) or non-MSA; or be located in an eligible area with a median household income of 70-89% of the median household income for the applicable MSA or non-MSA. Recipients are eligible to receive a credit for 15% of eligible costs up to \$25,000 per residence for new residences in eligible areas; 15% of eligible costs up to \$40,000 per residence for new residences in qualifying areas; 25% of eligible costs with a minimum of \$10,000 and not to exceed \$25,000 per residence for substantial rehabilitation in eligible areas; 35% of eligible costs with a minimum of \$5,000 or 50% of purchase price and not to exceed \$70,000 per residence for substantial rehabilitation in qualifying areas; and 25% of eligible costs with a minimum of \$5,000 and not to exceed \$25,000 per residence for non-substantial rehabilitation in qualifying areas. The abatements can be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. A taxpayer, other than the owner-occupant who receives a certificate of tax credit, shall have 30 days within the date of the sale to furnish satisfactory proof that the residence was sold at market to the Director of the Department of Economic Development (DED). If the Director determines that the residence was not in good faith intended for long-term owner occupancy, then the Director may revoke any tax credits issued and seek recovery of those credits pursuant to Section 620.017, RSMo. There are no other commitments made as part of the agreement. The Neighborhood Preservation Tax Credit reduced State taxes by \$3,147,000 during fiscal year 2017.

Business Recruitment

Missouri Quality Jobs is authorized by Sections 620.1875-620.1890, RSMo and provides tax incentives to qualified companies for facilitating the creation of new jobs or the retention of existing jobs in the State. This program has been replaced by Missouri Works, except for current projects. To qualify, the company must create a minimum number of jobs within the project facility within 2 to 3 years after the approval of the Notice of Intent and must maintain those jobs for the duration of the benefit. The average wage of the new jobs must equal or exceed the average county wage and the company must offer health insurance and pay at least 50% of the premium. The company must also submit an annual report. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. Missouri Quality Jobs reduced State taxes by \$62,528,000 during fiscal year 2017.

The Missouri Works - Business Incentives is authorized by Sections 620.2000-620.2020, RSMo and provides tax incentives for qualified companies to create or retain jobs in the State. To qualify for the credit, a company must create or retain a minimum number of new jobs at the project facility with average wages of 80%, 90%, 120%, or 140% of the county average wage, must offer health insurance and pay at least 50% of the premium, must meet the required number of jobs within 2 years of the Approval of the Notice of Intent, must maintain those minimums for the duration of the benefit, and must submit an annual report. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. Taxes may be recaptured due to misrepresentation, out-of-state relocation, or failure to file an annual report. The agreement requires 100% of the benefits received to be repaid within 60 days for misrepresentation or out-of state location or one year for failure to file an annual report. There are no other commitments are made as part of the agreement. Missouri Works - Business Incentives reduced State taxes by \$35,066,000 during fiscal year 2017.

Note 20 - Tax Abatements (cont.)

Missouri Works New Jobs Training and Job Retention Training are authorized by Sections 620.800-620.809, RSMo. New Jobs Training provides assistance to eligible companies to train workers in newly created jobs. To qualify, the company must create new jobs in the State; the project must include eligible training costs, as well as other eligibility criteria such as types of occupations, wage rates, and turnover rates. Job Retention Training provides training assistance to eligible companies for job retention efforts. To qualify, a project must be for an existing Missouri company making a capital investment of at least 5 times the total project costs, retaining at least 100 eligible jobs at the facility for at least one year, located in a border community, or be determined to represent substantial risk of relocation. Eligible companies for both programs include manufacturing, research and development, or those engaged in interstate commerce. The company must retain the eligible jobs in the project for at least 5 years and use the funding only toward eligible project costs. These programs are administered locally through community colleges. While the recipient's taxes are not actually reduced, a portion of normal withholding payments (paid to the Department of Revenue) are deferred to pay for eligible project costs. The amount that can be deferred is 2.5% of the payroll for the first 100 jobs in the project and 1.5% of the payroll for the remaining jobs in the project. The company may file withholding claims for the project until the budgeted project funds are disbursed; typically for a period of 3-5 years, with maximum limit of 8 years. There are no other commitments under these programs. Recapture provisions apply in accordance with Section 620.017, RSMo in which the recipient shall repay training funds under these programs if the jobs included in the project are moved out of Missouri or are eliminated within five years of the date the project is approved by DED. The Director of the Division of Workforce Development within DED shall have the authority and discretion to exempt the recipient in whole or in part of such repayment. Missouri Works New Jobs Training and Job Retention Training reduced state taxes by \$4,380,000 and \$6,029,000, respectively, during fiscal year 2017.

The Missouri Manufacturing Jobs Act is authorized by Section 620.1910, RSMo and provides incentives in the form of retaining withholding taxes to expand manufacturing facilities for an existing product or the creation of a new product. This program sunset in 2016 and no new applications are being accepted. To qualify, manufacturing companies must have a North American Industry Classification System (NAICS) of 33611, which is an establishments primarily engaged in (1) manufacturing complete automobile and light duty motor vehicles or (2) manufacturing automobile and light duty motor vehicle chassis. The company must manufacture goods at a facility in the State throughout the period benefits are received, and make a capital investment at a facility of at least \$75,000 per retained job for the manufacture of a new product within 2 years of beginning to retain withholding taxes or commit to make a capital investment of at least \$50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within 2 years of beginning to retain withholding taxes. Qualified suppliers of an eligible manufacturer must attest to DED that they derive more than 10% of its total annual sales revenue from sales to a qualified manufacturing company, add 5 or more new jobs for a period of 3 years, pay wages for the new jobs equal to or exceeding the county average wage using the NAICS industry classification, but are not less than 60% of the statewide average wage, and the company must offer health insurance and pay at least 50% of the premium. If qualified, the company is allowed to retain 100% of the withholding tax that would otherwise have been paid in to the State for those jobs for 10 years for qualified manufacturers or 3 to 5 years for qualified suppliers. There are no provisions for recapture and no other commitments are made as part of the agreement. The Missouri Manufacturing Jobs Act reduced State taxes by \$15,351,000 during fiscal year 2017.

Note 20 - Tax Abatements (cont.)

Business Use Incentives for Large-Scale Development (BUILD) is authorized by Sections 100.700-100.850, RSMo. The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance of Board of Certificates (bonds or notes), where the principal and interest will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri State income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has insufficient Missouri income tax liability to offset the credit. A business can apply these credits against income tax, bank tax, insurance premium tax, or other financial institutions tax. To qualify, an eligible industry in manufacturing, processing, assembly, research and development, agricultural processing or services in interstate commerce must invest a minimum of \$15 million; or \$10 million for an office industry in an economic development project; and create a minimum of 100 new jobs at the project facility within 3 years, or a minimum of 500 jobs if the project is an office industry, or a minimum of 200 new jobs if the project is an office industry located within a distressed community as defined in Section 135.530, RSMo. The tax credits become subject to recapture if the company does not expend the minimum investment on or before the first test date established in the program agreement, or create and maintain the minimum number of new jobs on or before the first test date. The first test date is the last day of the closest calendar quarter ending 3 years following bond closing. The tax credits are also subject to recapture if the company eliminates or announces its intention to eliminate all the new jobs at the project within 2 years of the first test date. If subject to recapture, the company shall, within 30 days following written demand from the Board, reimburse the Board in full for the face amount of the tax credits received from the date of execution of the program agreement to the date of such demand. There are no other commitments made as part of the agreement. The BUILD program reduced State taxes by \$10,433,000 during fiscal year 2017.

The Enhanced Enterprise Zone is authorized by Sections 135.950-135.973, RSMo and provides tax credits to new or expanding businesses in enhanced enterprise zones. To qualify, a company must create or maintain at least 2 new jobs and make at least \$100,000 in eligible investments. In addition, a Notice of Intent must be approved by DED, and the business must submit an annual report. Eligibility for the credit is determined by the zone based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Taxes are reduced by claiming a tax credit against the Missouri income tax liability owed to the State. The tax credits are calculated at 2% of new payroll and .5% of new investment. There are no provisions for recapture and no other commitments are made as part of the agreement. The Enhanced Enterprise Zone reduced State taxes by \$6,254,000 during fiscal year 2017.

The Business Facility Tax Credit is authorized by Sections 135.100-135.150 and Section 135.258, RSMo and provides to facilitate the expansion of new or existing facilities in Missouri. To qualify, a Notice of Intent must be approved by DED; the facility must create at least 2 new jobs and make \$100,000 in eligible investments or pursuant to HB 191 (2009), for “headquarters” that commence operations and “headquarters” of certain “employee-owned” businesses that commence or expand operations must create 25 new jobs and make \$1,000,000 in new investment. The company must submit an annual report to DED. Taxes are reduced by claiming a tax credit against the Missouri tax liability owed to the State. The tax credits are calculated as \$75 to \$150 per new job and \$75-\$150 for each \$100,000 in new investment for up to 10 years. The tax credits for headquarters are calculated as the greater of \$400/new job + 4% of new investment or \$500 per new job + \$500 per each \$100,000 in new investment for up to 10 years. The credit may be applied against income tax, insurance premium tax, or insurance company retaliatory tax. This Program has sunset as of January 1, 2005 except that headquarters that commence or expand operations on or before December 31, 2019 may be eligible for the program. There are no provisions for recapture and no other commitments are made as part of the agreement. The Business Facility Tax Credit reduced State taxes by \$4,047,000 during fiscal year 2017.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 20 - Tax Abatements (cont.)

The Film Production Tax Credit is authorized by Section 135.750, RSMo and provides a tax credit for in-state expenditures on film production projects. This program has sunset and no new applications are being accepted. Upon application, tax credits are reserved so long as the film is under 30 minutes in length, has an in-state budget in excess of \$50,000, or is over 30 minutes in length and has an in-state budget in excess of \$100,000 and has been approved by DED and the Missouri Film Office. The tax credit is issued for qualifying expenditures on the project which must be submitted to DED. Taxes are reduced by claiming a tax credit against tax liability owed to the State. The tax credit is calculated at 35% of the qualifying expenditures and may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Film Production Tax Credit reduced State taxes by \$2,376,000 during fiscal year 2017.

The Amateur Sports Ticket Sales Tax Credit is authorized by Section 67.3000, RSMo and provides an incentive to encourage the location of competitively bid amateur sporting events in Missouri. Upon application, applicants must submit predictions on the anticipated economic benefit to the State. Applicants will be evaluated based upon anticipated and verified economic performance. The program is available to one or more certified sponsors, endorsing counties, endorsing municipalities, or a local organizing committee, acting individually or collectively. The program provides tax credits equal to the lesser of: \$5 per admission ticket sold to the event; or 100% of eligible costs incurred by the applicant. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit and may be taken against income tax, bank tax, insurance premium tax, and other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Amateur Sports Ticket Sales Tax Credit reduced state taxes by \$1,317,000 during fiscal year 2017.

The Rebuilding Communities Tax Credit is authorized by Section 135.535, RSMo and provides a tax credit for eligible businesses locating, relocating, or expanding within a distressed community. This program has been replaced by Missouri Works, except for current projects. To qualify, a business must have fewer than 100 full-time employees, 75% of which must be located in the distressed community; be primarily engaged in manufacturing, biomedical, medical devices, scientific research, animal research, computer software design, computer software development or computer programming, which includes Internet, web hosting, and other information technology, wireless, wired or other telecommunications, or a professional firm. The business must submit an annual tax credit application documenting eligible expenditures on the project to DED. Once approved, the tax credit is calculated at 40% or 25% of the qualifying expenditures and may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Rebuilding Communities Tax Credit reduced State taxes by \$476,000 during FY17.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 20 - Tax Abatements (cont.)

The Development Tax Credit is authorized by Sections 32.100-32.125, RSMo and provides incentives to facilitate a business project in order to create new jobs. This program has been replaced by Missouri Works, except for current projects. Tax credits are issued to approved taxpayers that make an eligible donation to a non-profit corporation. The non-profit leases assets to an approved company. The company must create a specified number of jobs within 2 years and be in a distressed or blighted area. In many instances, the taxpayer that makes the donation is also the company that is creating the economic impact. The donor that makes the contribution must submit a tax credit application to DED. Once approved, taxes are reduced by claiming a tax credit against Missouri tax liability owed to the State. The tax credit is calculated at 50% of the eligible donation and may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, other financial institutions tax, or express company tax. No other commitments are made as part of the agreement. DED may recapture tax credits up to the amount issued if the non-profit fails to complete the project or comply with the agreement. The non-profits only and not the donors are subject to the recapture. The Development Tax Credit reduced State taxes by \$346,000 during fiscal year 2017.

Chapter 100 Personal Property Tax Exemption is authorized by Section 144.054 (2), RSMo and provides a state and local sales tax exemption on tangible personal property leased by a company from the City or County. To qualify, cities and counties may apply to DED on behalf of eligible companies for which Chapter 100 bond proceeds are used to purchase tangible personal property which is leased back to the company. DED may apply discretionary benefit exemption if the benefit contained in a formal DED proposal is accepted by the company. Since DED cannot enact the sales tax exemption on the lease without the underlying Municipality Chapter 100 in place, any inclusion in a formal DED proposal will be coordinated with the Municipality and their economic developer. The proposal must have been accepted by the company prior to any project announcements, no approval or issuance of the bonds may have taken place, and the tangible personal property may not have been purchased prior to the acceptance of the proposal. The project must also be competitive, have comprehensive local incentive participation, have above average wages with benefits, be located in an economically distressed or blighted area, have a positive state fiscal impact, and have an indication that the municipality has offered the local Chapter 100 exemptions. The company receives the exemption on sales tax as the facility, construction materials, and certain tangible personal property may be purchased as exempt by the City or County and then leased back to the company. The company will be responsible for the payment of sales tax on purchases exceeding the maximum accepted in the proposal, ineligible purchases, or the revenue stream generated by lease of ineligible personal property. There are no provisions for recapture and no other commitments are made as part of the agreement. For fiscal year 2017, DED has provided certificates for the exemption of state sales tax related to lease payments of tangible personal property under a Chapter 100 structure for 8 separate projects. The sales tax is applicable to the lease payments made over a period not to exceed 20 years by statute and restricted further by local ordinance. The sales tax exemptions are only applicable if tangible personal property purchases are made within established project time periods, as listed on the certificate. The fiscal year 2017 project certificates total a cumulative amount of State sales tax not to exceed \$1,819,000 over the terms of the respective leases.

Note 20 - Tax Abatements (cont.)

Data Center Sales Tax exemption is authorized by Section 144.810, RSMo and incentivizes the location and expansion of data centers in the State by providing an exemption of the sales and use taxes associated with a variety of activities necessary to build a new facility or expand an existing facility. To qualify, companies must create 5 new jobs and \$5 million in investment for expanding facilities or create 10 new jobs and \$25 million in investment for new facilities within certain time frames. A company is refunded their sales and use taxes for new purchases related to the data center project for the period prior to meeting the threshold for participation and then be exempt for a period of no more than 10 years for expanding facilities or 15 years for a new facility. Taxes may be subject to recapture if the full investment projected is not met or if the jobs created are not maintained, causing the cost/benefit to the State to be negative, or if the company does not meet the minimum thresholds. Taxes will be recaptured up to the amount that creates a positive cost/benefit to the State, or if the company does not meet the minimum thresholds, the full exemptions to date must be repaid. No other commitments are made as part of the agreement. Data Center Sales Tax Exemption amounts are not tracked.

Redevelopment

The Historic Preservation Tax Credit is authorized by Sections 253.545-253.561, RSMo and provides an incentive for the redevelopment of commercial and residential historic structures in the State. Upon application, the eligible property must be listed on the National Register of Historic Places, be certified by the Missouri Department of Natural Resources as contributing to the historical significance of a certified historic district listed on the National Register, or located within a local historic district that has been certified by the U.S. Department of Interior. The costs and expenses associated with the rehabilitation must exceed 50% of the total basis of the property. All approved applicants must commence rehabilitation within 2 years of the date of issuance of the letter of approval from DED. The program provides state tax credits equal to 25% of eligible costs and expenses of the rehabilitation of approved historic structures, which the recipient is able to use to reduce their outstanding tax liability in an amount equal to the value of their tax credit. The credit may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Historic Preservation Tax Credit reduced State taxes by \$49,743,000 during fiscal year 2017.

Note 20 - Tax Abatements (cont.)

Brownfield Remediation is authorized by Sections 447.700-447.718, RSMo and provides incentives to business or developers to redevelop property contaminated with hazardous waste. To qualify, the property must be abandoned or underutilized for at least 3 years, and contaminated with hazardous substance, the applicant cannot be a responsible party, the project must be accepted into Department of Natural Resource's Voluntary Cleanup Program, the project must be endorsed by city or county government, must create at least 10 new jobs or retain 25 jobs, the project must create a positive net state economic benefit, and must demonstrate need for the credits. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit. The tax credits may be issued for up to 100% of eligible costs and expenses for remediating the project property. The tax credit may also include up to 100% of the costs of demolition that are not directly part of the remediation activities. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by Department of Natural Resources (DNR). The tax credits may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. The tax credits may be subject to recapture in the event the owner sells the abandoned or underutilized property within a 5 year period after the receipt of remediation tax credits, grants, loans or loan guarantee. Subject to Sections 447.700-447.718 RSMo, the owner shall repay a portion of the tax credits and grant funds provided based on the percentage of the owner's investment for the project to DED's total financial assistance, upon achieving an annual internal rate of return of 25%. The internal rate of return calculation shall be documented by the owner's capital gains tax calculation. Owner investment is equity and debt for the eligible project. At the end of the project, a purchaser who has performed voluntary remediation action certifies to DNR that the goals of the purchaser's voluntary remediation plan have been attained. DNR verifies the remediation plan goals are achieved and issues a certificate that states that the site has been cleaned up to DNR standards pertaining to the property itself and therefore protects both current and future owners of the property. Brownfield Remediation reduced State taxes by \$2,385,000 during fiscal year 2017.

Distressed Areas Land Assemblage is authorized by Section 99.1205, RSMo and provides incentives to redevelop blighted areas. This program has sunset and no new applications are being accepted. To qualify, the area must be at least 75 acres; at least 80% of the area must be within a Distressed Area or a federal Qualified Census Tract; the redeveloper must acquire at least 50 acres of the area; the average parcels per acre must be 4 or more; and less than 5% of the acreage for acquisition by the redeveloper under the redevelopment plan shall consist of owner-occupied residences. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit. The tax credits are provided to the redeveloper based on 50% of the acquisition costs, including maintenance costs, and 100% of the interest costs incurred for a period of 5 years after the acquisition of an eligible parcel. The credits may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. Any funds generated through the use or sale of the tax credits issued shall be used to redevelop the eligible project area. There are no provisions for recapture and no other commitments are made as part of the agreement. Distressed Areas Land Assemblage reduced State taxes by \$397,000 during fiscal year 2017.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 21 - Commitments

Contracts

The Department of Conservation had contracts outstanding of \$1,416,000 for construction and \$435,000 for land acquisition contracts at June 30, 2017. These contracts are funded through the special revenue funds from specific sales tax, fees, and permits.

The Department of Natural Resources had construction contracts outstanding at June 30, 2017 of \$33,000. This project is funded through a capital projects fund.

The Department of Transportation had long-term contracts of \$643,138,000 outstanding at June 30, 2017. These contracts are paid from capital projects funds with approximately 84% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2017 of \$145,191,000. Approximately 10.9% will be paid from the General Fund, 4.0% from special revenue funds, 84.3% from the capital projects funds, 0.7% from enterprise funds, and 0.10% will be paid from internal service funds.

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$10.8 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2017 was \$364,000. Payment of principal and interest must be completed by March 2038.

As of June 30, 2017, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$194,434,000. The payments are as follows:

2018	\$	21,564,000
2019		22,296,000
2020		23,052,000
2021		23,834,000
2022		24,642,000
2023-2025		79,046,000

Truman State University had approximately \$4,213,000 in outstanding commitments for various construction contracts at June 30, 2017.

Southeast Missouri State University had outstanding commitments of approximately \$28,950,000 related to construction contracts at June 30, 2017.

Missouri State University had approximately \$41,737,000 in outstanding commitments for various construction contracts at June 30, 2017.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 21 - Commitments (cont.)

University of Central Missouri had approximately \$4,217,000 in outstanding commitments related to construction contracts at June 30, 2017.

Northwest Missouri State University had approximately \$15,885,000 in outstanding commitments related to various construction contracts at June 30, 2017.

Note 22 - Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to State statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. Incurred but not reported (IBNR) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for approximately 3% of all State buildings, with the remainder uninsured. The buildings are insured through purchased property insurance and through the Property Preservation Fund. Buildings insured through the Property Preservation Fund are backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims from data provided by an actuary. Liabilities are reported at their discounted value, assuming an investment yield of 2%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, underwritten by a commercial insurance company, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is based on known insurance claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 22 - Risk Management and Insurance (cont.)

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for policyholders and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discounted rates ranging between 0.5% and 3.0% based on future investment yields. The University of Missouri System is included with college and universities as a major component unit of the State.

Missouri State University is exposed to various risks of loss. These include loss related to torts; business interruption; employee injuries and illnesses; employee health, dental and accidental benefits; natural disasters; damage to and destruction of assets; and errors and omissions. Commercial insurance coverage is purchased for claims arising from such matters other than those related to natural disasters and employee health benefits, general liability, and workers' compensation. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self-Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self-insures the workers' compensation benefits for all state employees, including University employees.

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 23 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Section 260.371.7, RSMo, states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2017, the State was participating in the cleanup of sixteen Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$47.4 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Office of Administration (OA), Division of Facilities Management, Design and Construction, performed mold remediation, hazardous material removal, and abatement in five State sites during fiscal year 2017. There is no remaining obligation as of June 30, 2017. These costs were based on contractual pricing estimates and are subject to change if the pollution remediation requires more time or material than was estimated.

The Missouri Department of Transportation (MoDOT) is aware of a contaminated site (related to building and grounds) due to a fuel leak. The potential for pollution remediation exists; however, at this time, MoDOT's portion of the costs for the cleanup cannot be determined.

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The site is listed on the National Priorities List (NPL) and is governed by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). At this time, the Department of Public Safety's portion of the costs for the cleanup cannot be determined.

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation	Fiscal Year Remediation Liability 6/30/2016	Current Year Assessments and Estimated Changes	Payments	Fiscal Year Remediation Liability 6/30/2017	Due Within One Year
Hazardous Waste Fund	Superfund Sites	\$ 49,229	\$ 1,090	\$ (2,888)	\$ 47,431	\$ 5,594
Facilities Maintenance Reserve Fund	Mold Remediation, Asbestos Abatement & Radon Mitigation	496	63	(559)	—	—
Total Governmental Activities		<u>\$ 49,725</u>	<u>\$ 1,153</u>	<u>\$ (3,447)</u>	<u>\$ 47,431</u>	<u>\$ 5,594</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 23 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2017, the DNR, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$311,332,000. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

At June 30, 2017, eleven Municipal Solid Waste Landfills (MSWLFs) and two waste tire facilities have defaulted. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with the DNR Solid Waste Management Law and Regulations. At June 30, 2017, it is expected that \$1,526,000 will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets.

The University of Missouri System has been working with the Voluntary Cleanup Program at DNR to characterize subsurface contamination on a University owned property. The University has received the results of the two-year sampling process in fiscal year 2016. The University is awaiting a determination from DNR. The site is now on the National Regulatory Commission (NRC) license and must be decommissioned. Upon further review of the documents, the University determined that it does not believe that the documents support the decision to add to the site to the NRC license. The University made a formal request to remove the site from the NRC license and is currently waiting on a response from NRC. As a result, the University is unable to estimate future costs on cleanup of the site at this time. The University has not commenced any actions requiring the recognition of a liability for this property.

Note 24 - Contingencies

Contingent claims liabilities are reported when it is probable a loss has occurred and the amount can be reasonably estimated. These losses include estimates of claims which have been incurred but not reported, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 24 - Contingencies (cont.)

As at June 30, 2017, amount of contingent liabilities was \$71.2 million. Changes in reported liability since June 30, 2016, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2016-2017	\$ 39,040	\$ 69,802	\$ (37,692)	\$ 71,150
2015-2016	19,921	37,812	(18,693)	39,040
2014-2015	19,756	12,106	(11,941)	19,921

Section 287.220.8, RSMo, requires an actuarial study of the Second Injury Fund be made every year to determine solvency of the fund. Figures presented below for current year claims and changes in estimates are based on 2016 actuarial study. As at June 30, 2017, the amount of liabilities for Second Injury Fund was \$1.8 billion. Changes in reported liability since June 30, 2016, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2016-2017	\$ 1,732,685	\$ 206,662	\$ (99,161)	\$ 1,840,186
2015-2016	1,684,732	151,464	(103,511)	1,732,685
2014-2015	1,653,182	120,377	(88,827)	1,684,732

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements by the grantor agency for expenditures disallowed under grant agreements. The State believes such disallowances, if any, would be immaterial in the next fiscal year.

Sales and Use Tax Lawsuits:

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. A settlement was reached regarding some claims, filed by multiple taxpayers, related to the Southwestern Bell cases. No current liability remains as at June 30, 2017. Refund claims related to similar cases filed by other companies are still pending verification. Exclusive of interest, which could be substantial, the negative financial impact on the State is estimated at \$11.3 million, of which \$5.9 million is related to the General Fund.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 24 - Contingencies (cont.)

The State is also involved in tax litigation not included in the fiscal year 2017 liability amount. It is reasonably possible an adverse court decision may result in an estimated loss of \$2.0 million.

The Attorney General, on behalf of other state agencies, is involved in litigation for tort claims including wrongful death, motor vehicle accidents, medical malpractice, assault and battery, and deliberate indifference, as well as employment discrimination claims not included in the 2017 liability amount. It is reasonably possible an adverse court decision may incur an estimated loss of \$2.6 million.

Tobacco Master Settlement Agreement:

The amount of money received by the State from participating tobacco manufacturers under the 1998 Tobacco Master Settlement Agreement (MSA) is subject to downward adjustments if the State fails to diligently enforce model legislation required by the MSA. In 2006, tobacco manufacturers instituted binding arbitration to determine which states diligently enforced the model legislation for 2003. In September, 2013, the arbitration panel ruled Missouri and five other states failed to diligently enforce MSA statutes in 2003. Under the ruling, Missouri's share of the downward adjustment was \$70 million. Missouri typically receives between \$130 and \$150 million in MSA settlement funds annually. This arbitration award reduced fiscal year 2014 receipts to approximately \$60 million.

The State appealed the arbitration panel's decision. In February 2017, the Missouri Supreme Court ruled that the arbitration panel had exceeded its authority in computing the amount of Missouri's liability. The court ordered the independent auditor for the MSA to recalculate the credit Missouri owed to the tobacco manufacturers to \$20 million, which resulted in an additional \$50 million payment to the State. The tobacco manufacturers paid Missouri the improperly withheld \$50 million, plus interest, in April 2017.

The tobacco manufacturers also contest Missouri's enforcement of the model legislation for 2004 and subsequent years, each of which is subject to binding arbitration similar to the 2003 proceeding. Arbitration regarding diligent enforcement for 2004 is ongoing and is unlikely to conclude before October 2018. If the panel finds that Missouri was not diligent in 2004, the State will again face a downward adjustment on their next annual payment.

The ultimate resolution of the next several arbitration proceedings between the tobacco manufacturers and Missouri cannot be predicted. Neither the precise timing nor the ultimate resolution of the tobacco manufacturers adjustment disputes for 2004 and beyond, or their financial impact on the State, can be predicted with any degree of certainty.

Natural Resource Settlements:

The Department of Natural Resources works jointly with the United States Fish and Wildlife Service and the United States Forest Service to recover damages from parties responsible for causing injuries to natural resources. Funds from these settlements are typically held in the federal treasury in a joint account administered by the United States Department of Interior. Expenditures of these funds may only be by mutual agreement of the Missouri Trustee Council (the Department of Natural Resources, the United States Fish and Wildlife Service and, at times, the United States Forest Service) and such funds may only be used to restore, replace, or acquire natural resources similar to those that were injured. As of June 30, 2017, the balance of Missouri-related joint settlement funds in the Department of Interior restoration fund is approximately \$48 million.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 24 - Contingencies (cont.)

Department of Health and Senior Services

The Nurse Student Loan Program provides forgivable student loans to eligible Missouri undergraduate, graduate, post-graduate, and doctoral nursing students in exchange for service in underserved communities and facilities in the state. Current annual award levels, based on statute, are a one-time amount of \$2,500 for LPN students and \$5,000 for professional nursing students. Loans are repaid either through service in an underserved area, or via cash repayment at 9.5% simple interest. For repayment via service, participants provide one year of professional service for each school year a loan is received, up to a maximum of 5 years. The number of loans awarded per year varies based upon available funding, number of previous students anticipating continued funding, and number of eligible new applicants.

The Health Professional Student Loan Program is a competitive state program that awards forgivable loans to students pursuing health care training leading to Missouri licensure. Eligible disciplines are primary care physicians, primary care dentists, and dental hygienists. The amount of funding provided depends upon the student's chosen discipline and educational status. Repayment of loans can be completed either through obtaining employment to earn forgiveness or through cash repayment at 9.5% simple interest. Forgiveness is based upon the number of loans received and is earned at a rate of one year of professional service for each loan received, up to a maximum of 5 years. Qualifying employment is considered as full-time, direct patient care at a facility located in an area of need also referred to as a Health Professional Shortage Area.

The purpose of the Missouri Health Professional State Loan Repayment Program (SLRP) is to improve access to primary care by assisting rural and underserved communities with recruitment and retention of primary care providers. SLRP offers eligible healthcare providers an opportunity to receive up to \$50,000 in financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services at an ambulatory public, nonprofit or private nonprofit primary care practice site located in a federally designated Health Professional Shortage Area (HPSA).

The Missouri Nurse Loan Repayment Program (NLRP) offers Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs) an opportunity to receive financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services in an area of defined need in the State of Missouri.

For all types of loan programs, in the event of a default, i.e. the loanee does not complete the service agreement, the loan status changes to repayment. In the event the loanee does not repay according to the terms of their agreement, the Department of Health and Senior Services will work with the Attorney General's Office to try to collect the outstanding receivables. The current total amount of loans outstanding is \$7.7 million; the total amount in repayment is \$2.8 million. There is no correlation between who will or will not repay their debt once a default has occurred since it is subject to each individual case and the legal remedies pursued. Therefore the amount of loss cannot be reasonably estimated.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 25 - Nonexchange Financial Guarantees

The following nonexchange financial guarantees are extended by the Missouri Agricultural and Small Business Development Authority (MASBDA) and the Missouri Department of Agriculture (MDA). The exchange financial guarantees are not recognized as a liability, which indicates that the State will most likely not be required to make a payment related to the nonexchange financial guarantees. As of June 30, 2017, the State extends the following financial guarantees:

Programs	Maximum Guarantee Period	Total Number of Loans Outstanding	Total Dollar Amount of Loans Outstanding (in thousands)	Total Dollar Amount Guaranteed by the State (in thousands)
Missouri Value-Added Loan Guarantee Program	10 Years	14	\$ 786	\$ 393
Single-Purpose Animal Facilities Loan Guarantee Program	10 Years	7	472	236
Crop and Livestock Loan Guarantee Program	2 Years	29	155	70

Missouri Value-Added Loan Guarantee Program

The Missouri Value-Added Loan Guarantee Program provides up to a 50% first-loss guarantee on loans, of \$250,000 or less, made by lenders for the purpose of agricultural business development. The loan guarantee is for a duration of up to 10 years. The program is intended to create new economic activity by creating or retaining jobs. Loans guaranteed by the value-added loan guarantee program can be used to finance agricultural property, which includes land, buildings, structures, improvements, and equipment used for the purpose of processing, manufacturing, marketing, exporting, or adding value to an agricultural product. Loans may also be guaranteed to buy stock in a new generation processing entity that processes an agricultural product. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2017.

Single-Purpose Animal Facilities Loan Guarantee Program

The Single-Purpose Animal Facilities Loan Guarantee Program is designed to provide banks and other lenders with a 50% first-loss guarantee on loans of up to \$250,000 for up to 10 years. Independent livestock producers may use the loans to finance, refinance or restructure breeding or feeder livestock, earthworms, land, buildings, facilities, equipment, machinery and animal waste systems for producing poultry, swine, beef and dairy cattle, or other livestock. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2017.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 25 - Nonexchange Financial Guarantees (cont.)

Crop and Livestock Loan Guarantee Program

The Crop and Livestock Loan Guarantee Program, authorized in Section 261.027(3), RSMo, is a 50% guarantee on a loan made to a 4-H and Future Farmers of America (FFA) member who borrows money to purchase livestock, input, etc., for their Supervised Agriculture Education (SAE) project. Loans eligible for the program are limited to the purchase of livestock, feed, seed, fertilizer, and other miscellaneous out-of-pocket expenses directly related to the project. In the event of a default, the MDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2017, there are five loans that the Attorney General's Office is doing collections on. The judgment amounts on these five loans total \$10,000. They have recovered \$5,000 on these loans.

Note 26 - Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

The Authority is considered a joint venture of the State, County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B), and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund \$2,845,000 and \$113,170,000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued \$49,585,000 in Series C 2007 refunding bonds to refund \$61,285,000 of original principal of the Series C 1997 refunding bonds. In August 2013, the Authority issued \$65,195,000 in Series A 2013 refunding bonds to refund \$65,385,000 of Series A 2003 bonds and issued \$32,560,000 in Series B 2013 refunding bonds to refund \$32,180,000 of Series B 2003 bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. See *Note 12* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 27 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation/depreciation of the endowments is \$4,467,000. Of this amount, \$1,899,000 is reported as restricted non-expendable, \$2,564,000 is reported as restricted expendable, and \$4,000 is reported as unrestricted net position. The University of Missouri reported a net appreciation/depreciation of restricted non-expendable net position in the amount of \$161,596,000 which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, please see the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.134, RSMo. These policies are entity specific and vary with each institution.

Note 28 - Conduit Debt

As of June 30, 2017, the Missouri Development Finance Board issued \$1,637,968,000 in Private Activity Bonds and \$2,612,179,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2017, were approximately \$428,906,000 and \$1,089,449,000 respectively.

The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

The State Environmental Improvement and Energy Resources Authority, a related organization of the State of Missouri, issues Water Pollution Control and Drinking Water Revenue Bonds on behalf of the Department of Natural Resources. The outstanding balance on these bonds as of June 30, 2017, is \$660,425,000.

The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of the State Environmental Improvement and Energy Resources Authority.

Note 29 - Subsequent Events

Bonds

On September 7, 2017 the Board of Public Buildings of the State of Missouri issued \$77,165,000 of Special Obligation Bonds, Series A 2017. These bonds bear interest from 2.0% to 5.0%, due in semi-annual installments beginning April 1, 2018.

Federal Tax Reform

On December 22, 2017, the federal government passed the Tax Cuts and Jobs Act. The full-year impact on the State's revenues from individual income tax returns is an estimated reduction of \$58 million.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Note 29 - Subsequent Events (cont.)

University of Missouri

On July 17, 2017, the University notified Fulton Medical Center, LLC (the “Company”) and Nueterra Holdings, LLC that it was exercising its put option to sell its membership interest in the Company pursuant to the terms of the Operating Agreement of the Company. The Company and Nueterra Holdings, LLC have not closed on the University’s put option and the impact of the exercise of the option on the guarantees provided by the Medical Alliance for Fulton Medical Center, LLC debt is not known.

Missouri State University

In November 2017, the University signed a commitment letter to issue bonds of up to \$36,255,000 for the purpose of refunding the Series 2005 and Series 2014 bonds outstanding at June 30, 2017. The commitment letter agrees to interest rates of 2.15% and 2.63% with the bonds maturing in 2024 and 2036.

Retirement Systems

Senate Bill 62 passed in July 2017. Senate Bill 62 allows the MOSERS and MPERS Boards of Trustees to choose to establish a buyout program for terminated vested members with such program authorization expiring May 31, 2018. Each board may set rules for administration of each system's buyout program. Any terminated vested member who participates in the program and then returns to state employment will be considered a new employee and placed in the MSEP 2011 plan for state employees hired for the first time on or after January 1, 2011. Senate Bill 62 also contains provisions that will, effective January 1, 2018, reduce the 10-year vesting period for MSEP 2011 members to a 5-year period, and provides that new terminated vested members of the MSEP 2011 will (1) not be eligible to receive service credit at retirement for unused sick leave accruals, (2) have a 2-year delay for the first COLA payment, rather than the current 1-year delay, and (3) have a member's survivor benefit commence at the time when such member would have been eligible for normal retirement rather than at the time of such member's death. These provisions are estimated to result in a reduction of the annual employer contribution requirements for both MOSERS and MPERS.

The MOSERS Board certified contribution rates for the fiscal year 2019 at 20.21% of payroll for the MSEP and 63.71% of payroll for the Judicial Plan. This was an increase from the 2018 rates of 19.45% and 62.09% and was primarily a result of lowering the investment return assumption from 7.65% to 7.5%.

Required Supplementary Information (RSI) includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, and the Notes to RSI on Budgetary Reporting.

STATE OF MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY REPORTING
June 30, 2017

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where actual revenues are recognized when cash is received, and actual expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2017, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at <http://oa.mo.gov/accounting/reports/annual-reports/appropriation-activity-reports>. The original budget expenditures and transfers are for what was originally appropriated for each fund. The final budget expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the final budget column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between budgeted and actual expenditures on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2017, is shown below (in thousands):

	Final Budget Transfer		Actual Transfer	
	In	Out	In	Out
GENERAL FUND	\$ 3,108,715	\$ (3,108,715)	\$ 2,852,142	\$ (2,852,142)
SPECIAL REVENUE FUNDS				
Public Education	392,823	(392,823)	380,935	(380,935)
TOTAL	<u>\$ 3,501,538</u>	<u>\$ (3,501,538)</u>	<u>\$ 3,233,077</u>	<u>\$ (3,233,077)</u>

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

Contributions as a percentage of covered payroll	8.44%	8.80%	9.36%	10.54%

Note: Schedule revised to show by most recent fiscal year end rather than the measurement date.

Note: This schedule is ultimately required to show information for ten years. However, until a full ten-year trend is compiled, only the years that information is available will be reported.

Notes to the Schedule:

Changes of benefit terms. There were no changes to benefit terms in the plans for the year ended June 30, 2016.

Changes of assumptions.

For MOSERS: Economic and demographic assumptions were updated by the Board of Trustees on July 16, 2016 to be first effective for the June 30, 2016 valuation. The most significant changes to these assumptions were the reduction of the investment return assumption from 8 percent to 7.65 percent and the adoption of new mortality tables. Mortality rates for post-retirement mortality are now based on the RP-2014 Healthy Annuitant mortality table, projected to 2026 with Scale MP-2015 and scaled by 120%. The pre-retirement mortality table used is now the RP-2014 Employee mortality table, projected to 2026 with Scale MP-2015 and scaled by 95% for males and 90% for females.

For MPERS: No changes in assumptions.

For MU: No changes in assumptions.

***Supplementary Information** includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (Missouri Road Fund), as well as the Combining and Individual Fund Statements and Schedules for the General Fund and all Non-Major Funds.*

The Combining and Individual Fund Statements and Schedules

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison schedule is provided for all non-major governmental funds with the exception of capital projects funds.

*The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.*

Non-Major Special Revenue Funds:

Professional Registration - Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance - Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair - Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance - Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement - Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation - Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other - Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

*The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.*

Permanent Funds:

Arrow Rock State Historic Site Endowment - Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

Confederate Memorial Park - Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

State Public School - Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

Smith Memorial Endowment Trust - Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

*The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.*

Non-Major Enterprise Funds:

State Fair Fees - Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks - Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services - Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving - Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Missouri Veterans' Homes - Accounts for fees to provide services for persons confined to one of the veterans' homes.

State Agency for Surplus Property - Accounts for the surplus property operation.

Department of Revenue Information - Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

*The **Internal Service Funds** account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.*

Internal Service Funds:

Natural Resources Cost Allocation - Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments - Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation - Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving - Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving - Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving - Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust - Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative - Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees - Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan - Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan - Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan - Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan - Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan - Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

*The **Fiduciary Funds** account for assets held by the State in a trustee or agent capacity.*

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan - Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan - Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust - Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan - Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan - Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust - Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Johnson-Travis Memorial Trust - Accounts for all moneys, stocks, and securities given to the State by Miss Pansy Johnson or for the benefit of the Pansy Johnson-Travis Memorial State Gardens. Moneys will be used solely to establish, develop, and maintain the gardens.

Unclaimed Property - Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Agency Funds:

Social Security Contributions - Accounts for the receipt of contributions from various state funds for the State's share of social security contributions, which are due to the Federal Social Security Administration.

Missouri State Employees' Voluntary Life Insurance - Accounts for moneys withheld from employees' compensation for the contracts entered into with life insurance companies.

Program - Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution - Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

*The **Statistical Section** presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.*

STATE OF MISSOURI
STATISTICAL SECTION
June 30, 2017

Index and Overview

This part of the State's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Position by Component	213
Changes in Net Position	214
Fund Balances - Governmental Funds	216
Changes in Fund Balances - Governmental Funds	217

Revenue Capacity

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry	219
Revenue Base - Personal Income by Industry	220
Personal Income Tax Revenue	221
Personal Income Tax Rates	222
Revenue Payers by Industry	223
Personal Income Tax Filers/Liability	224

Debt Capacity

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt	225
Pledged Revenue Coverage	227

Demographic and Economic Information

These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators	228
Economic Indicators	229
Principal Employers	230

Operating Information

These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function	231
Operating Indicators by Function	232
Capital Asset Statistics by Function	234

Sources: Unless otherwise noted, the information in these schedules is derived from the State of Missouri Comprehensive Annual Financial Report for the years shown.

N/A = not available

¹ Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

² Operating Expenses do not include depreciation/amortization.

³ Coverage equals net available revenue divided by debt service.

CITIZENS SUMMARY

Findings in the audit of the Timeliness of Income Tax Refund Issuance

Background	The Department of Revenue (DOR) is required to pay interest to individual taxpayers if refunds are not paid within 45 days of filing a return. The DOR must pay interest to corporate taxpayers if refund are not paid within 120 days. Interest paid to individuals totaled \$306,077 in fiscal year 2016 on 82,983 refunds, and \$423,366 in fiscal year 2017 on 154,985 refunds. During those fiscal years, the records also indicate the state paid interest on corporate income tax refunds totaling approximately \$4,000 and \$28,000, respectively.
Individual Income Tax Refunds Not Paid Timely	The state has paid individual income tax refunds in an increasingly untimely manner, with significant delays in fiscal years 2015, 2016, and 2017. Based on state income tax refund data, in fiscal year 2008 the state had paid out 80 percent of total refunds by April 17. In contrast, for the 3 fiscal years ended June 30, 2015, 2016, and 2017, the state did not reach that payout level until May 20, June 20, and June 22, respectively. In fiscal year 2016, an estimated 485,000 of the approximate 1.8 million individual income tax refunds were paid more than 45 days after being received (27 percent). Data was not available as of fieldwork completion, but the number of refunds paid past 45 days for fiscal year 2017 is expected to be higher than 2016.
Reduced Cash Flow Limits the State's Ability to Make Timely Payments	The state does not have sufficient cash available in the General Revenue (GR) Fund to ensure individual income tax refunds are paid timely. The amount of cash reserves available in the GR Fund has significantly decreased over the past 10 years. As a result, borrowing from the Budget Reserve Fund has increased since the 2008 recession. The state has had to use the money borrowed from the Budget Reserve Fund for other operating obligations, making less funding available for paying individual income tax refunds.
Refunds Are Not Paid in the Order Processed	State law does not specify that income tax refunds must be paid in the order in which they are received or processed. As a result, the DOR has established a priority system for paying individual income tax refunds. The DOR's practice has been to issue larger refund amounts first in an effort to reduce the interest that must be paid by the state. The result is longer delays for taxpayers receiving smaller dollar refunds.
Current State Laws Are Unfair to Taxpayers	Current state laws regarding interest on income tax refunds are unfair to taxpayers. During calendar year 2017, the state paid interest to taxpayers at an average rate of .7 percent for late payment, while taxpayers paid an average rate of 4 percent for late payment, and also had to pay penalties to the state for failure to pay and failure to file. In addition, state law does not clearly require the state to pay interest on untimely refunds to taxpayers until the accrued interest owed exceeds \$1. As a result, taxpayers were not paid an estimated \$116,000 in interest accrued on their income tax refunds during fiscal year 2016.
Interest Erroneously Not Paid to Taxpayer	When state law was changed in 2015 to reduce the timeframe for paying interest from 90 to 45 days, DOR personnel did not update the department's computerized tax system timely to reflect the law change, resulting in an estimated \$29,000 in interest owed but not actually paid to taxpayers.
Inconsistent Regulation on Refund Interest	The DOR's regulation on refund interest is not consistent with state law and has not been revised since 1986.

Due to the limited objectives of this audit, no overall rating has been provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Eric R. Greitens, Governor
and
Members of the General Assembly
and
Joel W. Walters, Director
Department of Revenue
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

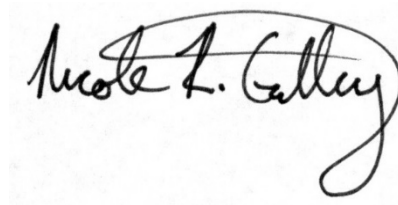

We have audited certain operations of the Department of Revenue and the Office of Administration related to the timeliness of income tax refund issuance in fulfillment of our duties under Chapter 29, RSMo. The scope of the audit included, but was not necessarily limited to, the year ended June 30, 2016. The objectives of our audit were to:

1. Evaluate the internal controls over significant management and financial functions related to the timeliness of income tax refund issuance.
2. Evaluate compliance with certain legal requirements related to the timeliness of income tax refund issuance.
3. Evaluate the economy and efficiency of certain management practices and operations related to the timeliness of income tax refund issuance.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis, except as explained in the Scope and Methodology section of this report related to Office of Administration management's refusal to provide certain written representations.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of this report, and due to the majority of the findings being legislative in nature, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in findings 1 through 4 of the Management Advisory Report. The views of responsible Department of Revenue officials were obtained and included where appropriate.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) deficiencies in management practices and operations. The accompanying Management Advisory Report presents our findings arising from our audit of the timeliness of income tax refund issuance.

In-Charge Auditor:	Joshua Shope, M.Acct., CPA
Audit Staff:	Shelbi M. Becker

Timeliness of Income Tax Refund Issuance

Introduction

Background

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution as the central collection agency for state revenues. The DOR Taxation Division administers and collects personal and business taxes, including individual and corporate income taxes, and initiates refunds for overpayments. DOR records indicate during the fiscal years ended June 30, 2017 and 2016, the department collected approximately \$7.3 billion and \$7.2 billion in individual income tax receipts, and paid related refunds of approximately \$1 billion and \$998 million, respectively. During those fiscal years, the records also indicate the department collected approximately \$435 million and \$486 million in corporate tax receipts, and paid corporate income tax refunds totaling approximately \$159 million and \$182 million, respectively. DOR records indicate the state paid interest to taxpayers for individual income tax refunds totaling approximately \$423,000 in fiscal year 2017 and approximately \$306,000 in fiscal year 2016. During those fiscal years, the records also indicate the state paid interest on corporate income tax refunds totaling approximately \$4,000 and \$28,000, respectively.

Statutes establishing interest requirements

Prior to 2002, Section 143.811.4, RSMo, required the state to pay interest to taxpayers if the state did not pay income tax refunds within 4 months after the last day prescribed for filing a tax return or within 4 months after the return was filed, whichever was later. As required by Section 32.065, RSMo, the interest rate was the adjusted prime rate charged by banks, as determined by the Board of Governors of the Federal Reserve System. During the 2002 legislative session, the General Assembly passed legislation establishing Sections 32.068 and 32.069, RSMo, which, among other things, changed interest provisions to reduce interest rates the state had to pay. According to DOR officials, 2001 was the first year the state had difficulty issuing income tax refunds timely due to cash flow problems. Section 32.068, RSMo, established the interest rate for refunds to be equal to the previous 12-month annualized average rate of return on all funds invested by the State Treasurer, rounded to the nearest 1/10 of 1 percent. Section 32.069, RSMo, specified the date interest would begin accruing by requiring interest to be paid on any refund or overpayment if it was not refunded within 120 days from the latest of the following dates (1) the last day prescribed for filing a tax return or refund claim, without regard to any extension of time granted; (2) the date the return, payment, or claim was filed; or (3) the date the taxpayer filed for a credit or refund and provided accurate and complete documentation to support such claim.

Section 32.069, RSMo, was revised by the General Assembly in 2010 to decrease the number of days the state had to pay refunds before interest would be owed on an individual income tax refund from 120 to 90 days. The corporate income tax interest provision remained at 120 days.

Effective August 28, 2015, Section 32.069, RSMo, was again revised by the General Assembly to decrease the number of days the state has to pay refunds before interest would be owed on an individual income tax refund from 90 to

Timeliness of Income Tax Refund Issuance

Introduction

45 days and established the date the return is filed as the date from which interest would begin accruing if the refund was not paid within the 45 days. The corporate income tax interest provision remained at 120 days.

Payment process

When processing and making refund payments, the DOR is contacted regularly by the Office of Administration (OA) during February through June about the dollar amount allocated to the department to make refund payments that day or week. These allocations are based on the OA's continual monitoring of the cash flow of the General Revenue (GR) Fund, as explained in Management Advisory Report (MAR) finding number 2.

The DOR assigns each individual income tax refund a priority category, which allows department personnel to put an emphasis on certain types of refunds. Corporate income tax refunds are processed in the order they are received.

Reasons for delays

Most refunds will accrue interest if they are not paid out by the time frames established in Section 32.069, RSMo. However, if a taxpayer neglects to include all relevant information and documentation when filing a return or a notice of adjustment suggesting a financial change to the return is sent to the taxpayer by the DOR, interest will normally begin accruing at a later date (e.g., the date the taxpayer provides all relevant documents to the DOR).

DOR officials stated the main reasons for delays in issuing refunds include the following:

- lack of cash allocated to the DOR by the OA for issuing refunds from the GR Fund.
- submission errors by taxpayers requiring DOR personnel to manually review the returns.
- apportioned tax credits.¹
- amended returns filed by taxpayers.²
- audited returns.³
- legal settlements.⁴
- protested returns.⁵

¹ Apportioned tax credits are tax credits held until June each year to determine if taxpayers, in total, are claiming more than maximum limit allowed by statute. If the limit has been exceeded, the DOR must apportion the tax credit between all returns claiming the tax credit.

² The DOR must receive a transcript from the Internal Revenue Service (IRS) to verify acceptance of the taxpayer's amended federal return, if applicable, which usually exceeds 45 days.

³ Each year the DOR chooses returns to audit based on various factors.

⁴ If a return is involved in a lawsuit, the refund is held until the lawsuit has been resolved.

⁵ If the taxpayer's refund is denied by the DOR or the DOR determines the taxpayer owes additional taxes, the taxpayer may file an official protest with the DOR.

Timeliness of Income Tax Refund Issuance Introduction

Scope and Methodology

To gain an understanding of the timeliness of income tax refund issuance, we reviewed written policies and procedures, redacted income tax records,⁶ and other pertinent documents; interviewed various personnel of the DOR, the OA, and the State Treasurer's Office; and tested select income tax returns to ensure interest was paid to taxpayers when required, and the correct interest rate was properly applied.

We obtained an understanding of the internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

During our audit, officials from the DOR and OA impeded audit staff from completing work timely. DOR and OA personnel delayed responses to audit questions and were unwilling to meet to discuss audit issues timely. Some documentation from the DOR was delayed to such an extent that the State Auditor had to issue a subpoena⁷ to the DOR to obtain the documentation. In addition, certain documentation had to be requested multiple times by the auditors to ensure we obtained sufficient, appropriate audit evidence. This lack of timely access to documentation and personnel delayed completion of the audit.

In addition, officials from the OA refused to provide certain written representations to our office as requested. While such management representations are not specifically required by Government Auditing Standards for performance audits, it is standard practice of the State Auditor's Office to require such representations be provided to help ensure adequate audit evidence has been obtained. Historically, state agencies have not refused to provide such assurances.

⁶ The DOR redacted all personally identifiable taxpayer information from the records we received during the audit based on its interpretation of the Missouri Supreme Court decision in the case of *Director of Revenue v. State Auditor* 511 S.W.2d 779 (Mo. 1974). The redactions by the DOR did not prevent us from obtaining sufficient evidence to meet our audit objectives.

⁷ After much delay from the DOR, on April 18, 2017, the DOR sent a letter to the State Auditor questioning the Auditor's authority to perform the audit and denying access to certain requested records. Based on that letter, the State Auditor issued a subpoena to obtain the requested records. See Appendixes A and B for a copy of the letter and the subsequent subpoena. The requested records were provided to us by the DOR after the subpoena was issued.

Timeliness of Income Tax Refund Issuance

Introduction

We asked OA management to provide, among other things, the following written representations:

- "We have not knowingly withheld from you any records that in our judgment would be relevant to your audit."
- "We are responsible for the department's compliance with provisions of laws, regulations, contracts, and grant agreements applicable to it; and we have identified, and disclosed to you, all such provisions that we believe have a significant effect on the timeliness of tax refunds issuance."

OA management refused to provide these written representations and instead provided the following representations, which significantly altered the meaning of these representations:

- "We have not knowingly withheld from you any records you requested that in our judgment would be relevant to your review."
- "We are responsible only for the department's compliance with provisions of laws and regulations relating to the timing of tax refunds applicable to the department; and we have responded to any questions regarding the same that you identified."

In effect, OA officials declined to provide assurance they (1) had not withheld relevant information from the audit staff and (2) had disclosed all provisions of laws, regulations, contracts, and grant agreements that the agency believed would have a significant effect on the audit.

We met with certain OA officials on November 8, 2017, to discuss these changes. At that meeting, they affirmed the refusal to provide the requested written representations.

Refusal to provide such written representations is concerning and may indicate information relevant to our audit was knowingly withheld from us by OA management in an attempt to conceal inappropriate activities and/or noncompliance with state laws, regulations, contracts, or grant agreements.

Timeliness of Income Tax Refund Issuance

Management Advisory Report

State Auditor's Findings

1. Individual Income Tax Refunds Not Paid Timely

The state has paid individual income tax refunds in an increasingly untimely manner, with significant delays in fiscal years 2015, 2016, and 2017. Based on state income tax refund data, in fiscal year 2008 the state had paid out 80 percent of total refunds by April 17. In contrast, for the 3 fiscal years ended June 30, 2015, 2016, and 2017, the state did not reach that payout level until May 20, June 20, and June 22, respectively. See Figure 1.1 for a depiction of the comparative timing of income tax refund payments.

Figure 1.1: Percent of total refunds paid from January 1 to June 30, by fiscal year, for Fiscal Year 2008, 2015-2017

Source: Data from the state's computerized accounting system (SAM II)

In addition to the dollar value of refunds being paid increasingly later in the year, the number of refunds being delayed has also increased significantly. The number of refunds paid in the month of June has increased from approximately 42,000 (2 percent of total refunds) in fiscal year 2008, to an average of approximately 367,000 (22 percent of total refunds) in the 2 fiscal years ended June 30, 2017. Figure 1.2 shows the trends in number of refunds issued, by month from January to June.

Refunds increasingly delayed

In fiscal year 2016, an estimated 485,000 of the approximate 1.8 million individual income tax refunds were paid more than 45 days⁸ after being received (27 percent). At the time of our data request, the fiscal year 2017 data was not complete; however, based on other data trends throughout this report, the number of individual income tax refunds that exceeded 45 days for fiscal year 2017 is likely higher than in 2016. As a result of paying income tax refunds increasingly later in the year, the state has paid approximately \$729,000 in interest to individual taxpayers over the past 2 fiscal years. Interest paid totaled \$306,077 in fiscal year 2016 on 82,983 refunds, and \$423,366 in fiscal year 2017 on 154,985 refunds.

⁸ This number includes refunds with interest paid to taxpayers and refunds with interest under \$1 not paid to taxpayers (see MAR finding number 4.2 for an explanation of why interest under \$1 is not paid).

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

Figure 1.2: Number of individual income tax refunds issued from January to June, 2008 and 2015-2017, by fiscal year

Source: DOR records

Conclusion

State laws reducing the timeframe the DOR has to pay refunds before interest accrues were presumably intended to improve timely payment of such refunds; however, these laws have not worked as intended. In the 2 years since state law was changed to reduce the allowable timeframe the DOR had to make refund payments from 90 days to 45 days before paying interest, both the number of returns accruing interest and the amount of interest paid by the state has increased. The increasing number and amounts of individual income tax refunds being paid later in the year, and incurring increasing interest penalties, is a significant issue to the taxpayers of the state. This report discusses the significant causes of the identified trends, as well as other issues related to the timeliness of income tax refund issuance and the impact on taxpayers.

2. Reduced Cash Flow Limits the State's Ability to Make Timely Payments

The state does not have sufficient cash available in the General Revenue (GR) Fund to ensure individual income tax refunds are paid timely. As a result, the state has experienced an increase in the number of refunds being paid late and an increase in the amount of interest paid to taxpayers. General revenue cash reserves have been depleted since the 2008 recession, requiring the OA to increasingly borrow budget reserve funds for operational obligations. Therefore, budget reserve money is not available during individual income tax season to help pay refunds timely.

Cash management and the use of the Budget Reserve Fund

The OA is responsible for monitoring revenues and expenditures in the GR fund. Based on estimates of revenues, historical spending data, and appropriations for expenditures, each day the OA projects the amount of monies available for spending for the day, month, and fiscal year. To ensure the state has enough available cash to make any planned or unplanned payments, the OA looks at long-term obligations to make strategic decisions about the use of available GR cash. If the GR fund is not projected to have sufficient cash to cover all known and potential expenditures anticipated in the coming days and months, the OA must allocate the cash available among the different expenditure types, including tax refunds, bond obligations,

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

public education payments, public assistance payments, and state payroll, among other obligations.

To ensure adequate cash is on hand to pay the above obligations, the OA is allowed to borrow from the Budget Reserve Fund on a short term basis when necessary. Under the Missouri Constitution, Article IV, Section 27(a), the Commissioner of Administration is allowed to transfer monies each year, as set by appropriations,⁹ from the Budget Reserve Fund to the GR Fund, if necessary, to meet the cash requirements of the state, and must repay these transfers before May 16 of the same fiscal year. The Budget Reserve Fund shall not exceed 7.5 percent of net general revenue collections¹⁰ for the previous fiscal year.¹¹

Borrowing from the Budget Reserve Fund has increased since the 2008 recession. Figure 2.1 shows the amounts borrowed from budget reserve, by fiscal year.

Figure 2.1: Amounts borrowed from Budget Reserve Fund, 2008-2017, by fiscal year

Source: Office of Administration records

Cash reserves have been depleted

The amount of cash reserves available in the GR Fund has significantly decreased over the past 10 years. Figure 2.2 shows the state's GR Fund cash balance at January 1, less any loans from the Budget Reserve Fund. The balance at January 1, 2017, was negative \$86 million, and was the first

⁹ For fiscal year 2017, the General Assembly appropriated \$500 million for Budget Reserve Fund expenditures.

¹⁰ Net general revenue collections are all revenues deposited into the GR Fund less refunds and revenues designated by law for a specific distribution or transfer to another state fund.

¹¹ At the end of any fiscal year any Budget Reserve Fund balance exceeding 7.5 percent of the general revenue collections must be transferred to the GR Fund as required by the Missouri Constitution, unless the legislature directly appropriates a higher amount in the Budget Reserve Fund (except the balance in the fund at year-end cannot exceed 10 percent of general revenue collections). Such appropriation was not made; therefore, the maximum amount the Budget Reserve Fund could have been at June 30, 2017, was approximately \$659 million (7.5 percent of the \$8.79 billion net general revenue collections in fiscal year 2016). The actual fund balance was approximately \$591 million.

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

negative balance since January 2010, following the 2008 recession. The January 2017 balance was also approximately \$608 million less than the pre-recession January 2008 balance. While borrowings from the Budget Reserve Fund allowed the state to continue to meet its obligations and were replenished by May 16 every year, as required by the Missouri Constitution, this trend indicates the state has not replenished its overall cash reserves following the 2008 recession.

Figure 2.2: General Revenue Fund cash balance, net of budget reserve borrowing, at January 1, by year

Source: Office of Administration records

Due to the decrease in cash available depicted in Figure 2.2, the OA has had to use money borrowed from the Budget Reserve Fund for other operating obligations, making less funding available for paying individual income tax refunds.

The reasons for the reduced fund balance of the GR fund and causes of the cash flow shortage are beyond the scope of this report. However, previous audit reports¹² address various issues related to reductions to the state's tax base and reductions to tax revenues, and growth in spending in certain areas.

Delays in issuing refunds not due to DOR inefficiencies

According to DOR records, during April 2017 and through the majority of June 2017, the DOR had tax refunds totaling over \$200 million processed and ready to be paid, but could not proceed with payment due to the lack of cash available in the GR Fund. Near the end of June 2017, after other state obligations had been paid, the state had sufficient cash available in the GR Fund to pay approximately \$50 million in tax refunds each business day from June 21, 2017, to June 26, 2017, effectively paying out all processed refunds.

¹² Report No. 2017-113, *Cost of Tax Incentives and Exemptions*, issued in October 2017, Report No. 2017-051, *Tax Credit Programs*, issued in June 2017, Report No. 2017-018, *Statewide Single Audit*, issued in March 2017, Report No. 2017-098, *State Legal Expense Fund*, issued September 2017, and Report No. 2017-099, *Legal Expense Fund Letter*, issued September 2017.

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

Conclusion

Even with an increased reliance on budget reserve borrowing, the timeliness of income tax refund issuance has worsened in recent years. The state is experiencing significant cash flow shortages. As a result, the number of taxpayers receiving their income tax refunds untimely, and the amount of interest paid on those refunds continues to increase. The cash available to pay state obligations, including income tax refunds, is reliant upon the budget process. State policymakers must address this issue to ensure all state obligations, including tax refunds, are being paid timely.

Audit limitation based on
OA's refusal to provide
certain written representations

OA management refused to provide certain written representations that would provide assurance we received all information from the OA relevant to our audit, and that management disclosed all legal provisions that would have a significant effect on the audit. Such representations provide additional assurance that the audit evidence obtained is sufficient and appropriate. Without such representations from management it is unclear if the OA knowingly withheld information that could have had an impact on our audit conclusions and recommendation for this finding. See the Scope and Methodology section of this report (page 6) for additional information on the representations the OA refused to provide.

Recommendation

The General Assembly take action to improve the cash reserves available in the GR Fund.

3. Refunds Are Not Paid in the Order Processed

State law does not specify that income tax refunds must be paid in the order in which they are received or processed. As a result, the DOR has established a priority system for paying individual income tax refunds. The DOR's practice has been to issue larger refund amounts first in an effort to reduce the interest that must be paid by the state.

The DOR's tax system groups individual income tax refunds by return type and assigns each a priority category in the DOR's tax system. Refunds are typically paid based on the following priorities:

- Priority 1: Expedited Refunds - These are refunds the DOR has moved to this priority from a lower priority to expedite payment. Based on DOR's interpretation of case law,¹³ department officials did not grant us access to personally identifiable taxpayer information; therefore, we could not determine which taxpayers had their refunds moved to Priority 1 to expedite payment. However, DOR officials stated the primary reason refunds are moved here is to avoid paying interest.

¹³ Missouri Supreme Court decision in the case of *Director of Revenue v. State Auditor* 511 S.W.2d 779 (Mo. 1974).

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

- Priority 2: Debt Offset Refunds - These are refunds for debt owed by taxpayers to the DOR, Internal Revenue Service, other Missouri state agencies, and other states with reciprocal offset agreements.
- Priority 3: Property Tax Credit Refunds - Individuals over age 65 and individuals who are disabled, if they are under certain income thresholds, can receive a property tax credit on their state income tax returns.
- Priority 4: Electronically-filed and 2D Barcode Returns with Refunds - The 2D barcode returns are paper returns printed from an electronic tax return file. They contain barcodes that can be scanned into the DOR computerized system and do not have to be manually processed by the DOR. In fiscal year 2017, electronically-filed and 2D barcode returns account for approximately 92 percent of all the individual income tax returns filed.
- Priority 5: Current Year Paper Returns with Refunds - These returns must be manually processed by the DOR.
- Priority 6: Miscellaneous Refunds - Miscellaneous refunds include refunds from prior year returns, amended returns, and current returns that require adjustments to be made in the tax system by the DOR personnel. These refunds must be manually reviewed and then moved to a higher priority.
- Priority 7: Temporary Hold to Check for First-time Filers - These are returns in which the taxpayer has requested the refund be direct deposited. These refunds are held here for one day to determine if the taxpayer is a first-time filer. If the taxpayer is a first-time filer, the system changes the refund from direct deposit to a paper check. This process was put into place by the DOR at the beginning of the 2016 filing season to help prevent refund fraud. If the taxpayer is not a first-time filer, the return is automatically moved back to the priority in which it normally would have been placed.
- Priority 8: Fraud Refunds Not Issued - These are refunds that have been flagged as possible fraud based on various information received or not received from the taxpayer. They are held until DOR personnel can manually review the refunds. If they are determined not to be fraudulent, the refunds are assigned a higher priority.
- Priority 9: Refunds Over \$40,000 or Amnesty Accounts - These refunds must be manually reviewed and then moved to a higher priority. Amnesty accounts are for taxpayers with delinquent tax balances that will have the interest and penalties waived if the delinquent taxes are paid by an established date determined by the DOR.

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

Refunds are paid in the order they are received within each priority. Each day refunds are typically paid starting with the highest priority category and continuing until all monies allocated by the OA for tax refunds have been expended that day (see MAR finding number 2 for more information about how the OA determines how much money to allocate each day). During cash flow restrictions, there is not enough money allocated each day to pay out all the priority categories. Therefore, on any given day, DOR officials may choose to pay all refunds in a lower priority category before a higher priority category to help limit the amount of interest due on refunds in the lower priority categories.

The tax system prevents DOR personnel from paying only select refunds within a priority; therefore, with management approval, select returns can be moved to the highest priority to expedite a refund. According to DOR officials, the practice has been to move large dollar refunds to Priority 1 in an effort to reduce the interest that must be paid by the state. As a result, smaller refund amounts are held increasingly longer by the DOR because interest on these refunds is less likely to exceed the \$1 threshold for which interest will be paid (see MAR finding number 4.2 for further explanation of the \$1 interest threshold).

Conclusion

Because no requirement exists to pay refunds in the order processed, the DOR has made the fiscal decision to pay larger dollar refunds before smaller dollar refunds in an effort to reduce interest costs. The result is longer delays for taxpayers receiving smaller dollar refunds. Requiring refunds to be paid in the order they are processed and approved for payment could result in increased interest costs to the state, but would improve the timeliness of refunds for individuals with smaller tax refunds and would result in more equitable treatment of all taxpayers owed an income tax refund.

Recommendation

The General Assembly evaluate and consider requiring individual income tax refunds be paid in the order they are approved for payment.

4. Current State Laws Are Unfair to Taxpayers

Current state laws regarding interest on income tax refunds are unfair to taxpayers. Taxpayers must pay a significantly higher interest rate when making late tax payments than the state is required to pay on delayed refunds, and taxpayers are not compensated for waiting for refunds unless interest exceeds \$1.

4.1 Interest rate due to taxpayers is minimal

The current interest rate paid by the state for late income tax refunds, as defined by state law, is minimal and does not adequately compensate taxpayers for the use of their money. Taxpayer penalties and interest rates on tax payments due to the state are much more significant and provide appropriate motivation to taxpayers to make payments timely.

Sections 32.068 and 32.069.2, RSMo, require the state to pay taxpayers interest on any individual tax refunds not paid within 45 days of filing the related return at an interest rate equal to the twelve-month annualized average

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

rate of return on all funds invested by the State Treasurer. During calendar year 2017, the interest rate averaged .7 percent.

In contrast, Section 32.065, RSMo, sets the interest rate paid by taxpayers for late payment of taxes as the adjusted prime rate charged by banks determined by the Board of Governors of the Federal Reserve System. During calendar year 2017, the interest rate averaged 4 percent. In addition to having to pay a 4 percent interest rate, taxpayers must also pay penalties for failure to file or failure to pay their income taxes. According to Section 143.741, RSMo, a penalty is imposed at a rate of 5 percent each month, not to exceed 25 percent of the unpaid balance, for taxpayers who fail to file by the due date. In addition, taxpayers are imposed a penalty at the rate of 5 percent of the unpaid balance for failure to pay, pursuant to Section 143.751, RSMo.

Table 4.1 shows the interest that would have to be paid by the state for a \$250 or \$1,000 refund based on various refund payment dates compared to the interest and penalties an individual taxpayer would owe if the taxpayer owed those amounts and paid taxes the same number of days late (interest rates as of June 30, 2017).

Table 4.1: Interest paid by the state on a \$250 and \$1,000 refund, by the number of days late, and comparison of interest and penalties paid by taxpayers on amounts due to the state

Amount	Days Late	Interest Paid By the State (1)	Interest and Penalties Paid by the Taxpayer
\$ 250	46	\$ 0.00	\$ 13.76
250	100	0.00	15.24
250	200	0.00	17.98
250	365	1.75	22.50
1,000	46	0.00	55.04
1,000	100	1.92	60.96
1,000	200	3.84	71.92
1,000	365	7.00	90.00

(1) The \$0.00 amounts in this column represent interest amounts under \$1. The DOR does not pay interest to taxpayers until the interest amount exceeds \$1 (see MAR finding number 4.2 for further details).

Conclusion

The current rate of interest paid by the state on late income tax refunds does not provide adequate compensation to taxpayers for the use of their money. In addition, taxpayers are treated in an inequitable manner by being required to pay an interest rate that is significantly greater than the interest rate paid by the state. Taxpayers are also required to pay additional penalties for late filing and/or late payment, while the state does not have to pay any penalties for issuing refunds untimely.

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

4.2 Interest not paid until it exceeds \$1

State law¹⁴ does not clearly require the state to pay interest on untimely refunds to taxpayers until the accrued interest owed exceeds \$1. Based on our review of DOR refund data, there were 402,000 individual income tax refunds paid during fiscal year 2016 that were more than 45 days late and received no interest. As a result, taxpayers were not paid an estimated \$116,000 in interest accrued on their income tax refunds during fiscal year 2016. At the time of our data request, the fiscal year 2017 data was not complete. However, based on other data trends throughout this report, interest accrued under \$1 in 2017 is likely higher than in 2016.

Based on the average .6 percent interest rate paid during fiscal year 2016, we determined a refund would have to be at least \$1,316 for it to accrue \$1 of interest on the forty-sixth day after filing. Table 4.2 show the length of time, in days, it would take for various refund amounts to accrue \$1 of interest in fiscal year 2016.

Table 4.2: Length of time to accrue \$1 of interest, by refund amount

Refund Amount	Number of Days until \$1 of Interest
	Accrues
\$ 1,000	61
500	122
100	606
50	1,211

Based on the data in Table 4.2, it is fiscally advantageous to the state for the DOR to prioritize larger refund amounts to avoid paying interest because smaller refunds are unlikely to accrue interest that exceeds \$1. For fiscal year 2016, approximately 71 percent of all refunds issued by the DOR were less than \$500. As a result, approximately 1.2 million of the approximately 1.8 million refunds paid by the DOR in fiscal year 2016 could have been held by the DOR for nearly 4 months (122 days) after the filing date before accruing \$1 in interest.

Conclusion

Due to state law not clearly requiring interest to be paid until it exceeds \$1, many taxpayers with individual income tax refunds past 45 days do not receive interest and are forced to wait for their refund without any compensation from the state.

Recommendations

- 4.1 The General Assembly evaluate state law regarding the interest individual taxpayers receive for late paid tax refunds and consider making changes to ensure the state and taxpayers are treated in a more equitable manner.

¹⁴ The DOR interprets Section 143.811.1 RSMo, to mean no interest for untimely refund payments shall be allowed or paid on tax refunds unless it exceeds \$1. See MAR finding number 6 for more explanation of the department's interpretation of this section.

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

- 4.2 The General Assembly evaluate whether state law should be clarified to require interest be paid on tax refunds if the interest amount is less than \$1.

5. Interest Erroneously Not Paid to Taxpayers

When state law was changed in 2015 to reduce the timeframe for paying interest from 90 to 45 days, DOR personnel did not update the department's computerized tax system timely to reflect the law change, resulting in an estimated \$29,000 in interest owed but not actually paid to taxpayers.

Section 32.069.2, RSMo, effective August 28, 2015, decreased the number of days for which interest was required be paid on an individual income tax refund from 90 days to 45 days. However, due to various factors, the DOR did not update its computerized tax system for this change until January 4, 2016. Therefore, any refunds paid by the DOR from August 28, 2015, through January 4, 2016, were only paid interest if they exceeded 90 days when they should have been paid interest after 45 days. During that time an estimated 1,200 refunds (totaling \$29,000) each had at least \$1 of accrued interest that was not paid. DOR personnel stated they were aware of this issue, but had not considered refunding the taxpayers the interest owed to them after the system was updated.

Recommendation

The DOR review refunds paid from August 28, 2015, through January 4, 2016, and pay affected taxpayers any interest they are owed.

Auditee's Response

As of 2017, the DOR is under new leadership and is looking closely at a number of areas of improvement, this being among them. The DOR understands this recommendation and will evaluate providing the refunds as recommended.

6. Inconsistent Regulation on Refund Interest

The DOR's regulation on refund interest is not consistent with state law and has not been revised since 1986.

State regulation 12 CSR 10-2.070, which requires interest to be paid on refunds not paid to taxpayers within 120 days, was established by the DOR in 1976 and was not revised when the authorizing statute was amended. The regulation requires refunds to be issued in accordance with Section 143.811, RSMo, and interest to be paid in accordance with Section 32.065, RSMo. Since the enactment of this regulation, state laws requiring interest to be paid on refunds have incurred three significant revisions, while the regulation has remained unchanged.

Effective in 2002, Section 32.065, RSMo, no longer controls income tax refund interest. Section 32.068 and 32.069, RSMo, were enacted in 2002 requiring refunds to have interest paid using the annual rate of interest as calculated by the State Treasurer and corporate and individual tax refunds to be issued within 120 days of the following dates (1) the last day prescribed for filing a tax return or refund claim, without regard to any extension of time

Timeliness of Income Tax Refund Issuance Management Advisory Report - State Auditor's Findings

granted; (2) the date the return, payment, or claim is filed; or (3) the date the taxpayer filed for a credit or refund and provided accurate and complete documentation to support such claim. In addition, revisions were made to Section 32.069, RSMo, in 2010 and 2015 reducing the amount of days for individual income tax refunds to be owed interest from 120 to 90 to 45 days. The 2015 revision also changed the date individual income tax refund interest began to accrue to the date the return was filed.

The DOR does not pay interest on individual tax refunds if the interest amount is less than \$1, based on its interpretation of Section 143.811.1, RSMo. Section 143.811.1, RSMo, only references the interest rate determined by Section 32.065, RSMo, without any reference to Sections 32.068 or 32.069, RSMo, which are the current interest provisions for individual income tax refunds.

The DOR's interpretation of this statute section has not been promulgated in a rule. According to Section 536.010, RSMo, a "rule" is defined as each agency's statement of general applicability that implements, interprets, or prescribes a law or policy or it describes the organization, procedures, or practice requirements of any agency. The DOR's interpretation is generally applicable as it affects a large number of taxpayers' ability to receive interest from the state. Under this law, the DOR is required to promulgate its interpretation as a rule. DOR's current regulation on refund interest is not consistent with state law.

Recommendation

The DOR revise its regulation of interest on refunds, to reflect current state law and its interpretation of the law.

Auditee's Response

The DOR understands this recommendation and will begin the process to revise the regulation.

April 18, 2017

Paul Harper, General Counsel
Missouri State Auditor's Office
301 West High St.
Jefferson City, MO 65101

Dear Mr. Harper:

It is my understanding that the State Auditor's Office ("SAO") would like to know whether documents exist within the Department of Revenue ("Department") that we would consider responsive to the ten requests for information we have received associated with the audit referenced the SAO's letter dated March 2, 2017 and addressed to former Acting Director Wood Miller.

On March 6, 2017 the Department received the following requests for information (in bold):

1. **The total amount of interest paid for Corporate and Individual Income tax refunds for FY2012, FY2013, FY2014, FY2015, and FY2016.**

Pursuant to the Department's April 17, 2017 letter to the SAO, the Department is compiling the information and will produce the information by April 21, 2017.

2. **How many refunds were untimely which led to interest being paid for Individual and Corporate Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016?**

Pursuant to the Department's April 17, 2017 letter to the SAO, the Department is compiling the number of refunds in which the Department paid interest for FY2012, FY2013, FY2014, FY2015, and FY2016, and the Department will produce that information by April 21, 2017.

Timeliness of Income Tax Refund Issuance
Letter from the Department of Revenue to the State Auditor Denying
Access to Certain Records

3. The total number of refunds issued for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.

Pursuant to the Department's April 17, 2017 letter to the SAO, the Department is compiling the information and will produce the information by April 21, 2017.

4. The total number of returns processed (whether the taxes were refunded, paid, or are still owed) for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016?

Pursuant to the Department's April 17, 2017 letter to the SAO, the Department is compiling the information and will produce the information by April 21, 2017.

5. The general reasons for why Corporate and Individual Income tax refunds are not being issued timely?

Subject to the concerns raised in the Department's April 17, 2017 letter, information regarding the general reasons impacting the timing of corporate and income tax refunds will be provided by April 21, 2017.

6. Any documentation of controls or procedures for the handling of Corporate and Individual income tax refunds for revenue.

This request seeks information for the purpose of an unconstitutional performance audit. The Department does not believe that the Auditor's Office is constitutionally empowered to conduct a performance audit and requests that the SAO state whether it is conducting a performance audit. The Department further requests that if the SAO believes the Auditor is authorized by law to review this information, the SAO inform the Department of the basis of the Auditor's authority.

7. A short memo listing the steps taken by the Department from when the refund is received, reviewed, and then refund returned to the taxpayer, and an estimated timeframe for the Department uses to issue the refund (if known).

This request seeks information for the purpose of an unconstitutional performance audit. The Department does not believe that the Auditor's Office is constitutionally empowered to conduct a performance audit and requests that the SAO state whether it is conducting a performance audit. The Department further requests that if the SAO believes the Auditor is authorized by law to review this information, the SAO inform the Department of the basis of the Auditor's authority. Subject to and without waiving the foregoing objection, an estimated timeframe for the Department to issue the refund does not currently exist.

Timeliness of Income Tax Refund Issuance
Letter from the Department of Revenue to the State Auditor Denying
Access to Certain Records

On March 20, 2017, the Department received the following requests for information:

1. Does the DOR have a real-time report(s) that shows the number of individual income tax refunds that are over 45 days and a running total of interest owed?

The Department is able to generate reports showing the number of individual income tax refunds that are over 45 days and a running total of interest owed.

2. Does the DOR have a real-time report(s) that shows the number of corporate tax refunds that over 120 days and a running total of interest owed?

The Department is able to generate reports showing the number of corporate tax refunds that are over 45 days and a running total of interest owed.

3. If so, can we obtain a copy of the report(s) on a regular basis (receive it on the same day every week) until our audit has concluded?

This request seeks information for the purpose of an unconstitutional performance audit. The Department does not believe that the Auditor's Office is constitutionally empowered to conduct a performance audit and requests that the SAO state whether it is conducting a performance audit. The Department further requests that if the SAO believes the Auditor is authorized by law to review this information, the SAO inform the Department of the basis of the Auditor's authority.

As stated in my letter to you from April 17, 2017, despite having joined the Department of Revenue very recently, I am committed to working with the SAO in the best interests of the people of Missouri. While maintaining the constitutional and privacy concerns I raised in my April 17, 2017 letter, I will provide the foregoing documentation by Friday, April 21, 2017.

Sincerely,

A handwritten signature in black ink that reads "Joel Walters". The signature is written in a cursive style with a large, stylized "J" and "W".

Joel Walters

State Auditor Subpoena of Department of Revenue Records

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control as previously requested by the State Auditor's Office (As documented in the letters contained in Exhibits B and C):*

1. Any and all documentation or reports related to the total amount of interest paid for Corporate and Individual Income tax refunds for FY2012, FY2013, FY2014, FY2015, and FY2016.
2. Any and all documentation or reports related to the number of refunds that were untimely which led to interest being paid for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.
3. Any and all documentation or reports related to the total number of refunds issued for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.
4. Any and all documentation or reports related to the total number of returns processed (whether the taxes were refunded, paid, or are still owed) for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.
5. Any documentation of controls or procedures for the handling of Corporate and Individual income tax refunds for Revenue.
6. Any reports or other documentation that shows the number of individual tax refunds that are currently over 45 days and the total of interest owed.
7. Any reports or other documentation that shows the number of corporate tax refunds that are currently over 120 days and the total of interest owed.

You must also bring sufficient witnesses to testify on the record regarding the following:

1. The general reasons for why Corporate and Individual Income tax refunds are not being issued timely.
2. The steps taken by the Department from when the refund is received, reviewed, and then refund returned to taxpayer, and an estimated timeframe for the Department to issue the refund.
3. On any matter related to the above referenced documents.

* This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo. To the extent that the documents contain personally identifiable tax information, such information should be redacted.

NICOLE GALLOWAY, CPA
Missouri State Auditor

March 30, 2017

Wood Miller, Acting Director
Missouri Department of Revenue
301 West High St., Room 670
Jefferson City, MO 65101

Dear Acting Director Miller:

As you know, this office is currently auditing the Department of Revenue regarding the issuance of tax refunds. Our auditors requested the following information on March 6, 2017:

1. The total amount of interest paid for Corporate and Individual Income tax refunds for FY2012, FY2013, FY2014, FY2015, and FY2016.
2. How many refunds were untimely which led to interest being paid for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.
3. The total number of refunds issued for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.
4. The total number of returns processed (whether the taxes were refunded, paid, or are still owed) for Corporate and Individual Income tax for FY2012, FY2013, FY2014, FY2015, and FY2016.
5. The general reasons for why Corporate and Individual Income tax refunds are not being issued timely?
6. Any documentation of controls or procedures for the handling of Corporate and Individual income tax refunds for Revenue.
7. A short memo listing the steps taken by the Department from when the refund is received, reviewed, and then refund returned to taxpayer, and an estimated timeframe for the Department uses to issue the refund (if known).

Additionally, on March 20, 2017, our auditors requested the following additional information:

1. Does the DOR have a real-time report(s) that shows the number of individual tax refunds that are over 45 days and a running total of interest owed?
2. Does the DOR have a real-time report(s) that shows the number of corporate tax refunds that are over 120 days and a running total of interest owed?

Timeliness of Income Tax Refund Issuance
State Auditor Subpoena of Department of Revenue Records

3. If so, can we obtain a copy of the report(s) on a regular basis (receive it on the same day every week) until our audit has concluded?

Our auditors followed up with our audit contact, Lynn Bexten, on a few occasions in March to request an estimate of when we would receive responses to our requests. Ms. Bexten was unable to provide any information about the timeline for responses. You and I spoke on March 28, 2017, and you stated that the Department is currently working on the requests but could not specify a timeframe for when responses would be provided. To date, no information requested has been provided by the Department.

Section 29.235.1, RSMo, requires this office to conduct its audits in accordance with standards established by the Comptroller General of the United States (commonly known as the "Yellow Book"). The Yellow Book requires that auditors obtain sufficient and appropriate evidence to support all of its findings and conclusions. Furthermore, under Section 29.235, RSMo, the auditor is authorized to examine all books, accounts, records, reports, and vouchers of any entity subject to audit. Section 29.235, RSMo, further authorizes the State Auditor's office to issue subpoenas as needed to conduct an audit under Chapter 29.

The auditors have requested these documents so that they may perform the audit of the Department. Any further delay will increase the time it takes to complete this audit. I would ask that by April 10, 2017, you provide responses to the requested information. If some of the information cannot reasonably be provided by that date, I ask that you contact me so that we can discuss a mutually agreeable date for that information's release.

If you have any questions, you may contact me by email at Paul.Harper@auditor.mo.gov or by telephone at (573) 751-4213.

Sincerely,

Paul Harper
General Counsel

Timeliness of Income Tax Refund Issuance
State Auditor Subpoena of Department of Revenue Records

NICOLE GALLOWAY, CPA
Missouri State Auditor

April 10, 2017

Joel Walters, Acting Director
Missouri Department of Revenue
301 West High St., Room 670
Jefferson City, MO 65101

Dear Acting Director Walters:

I am responding to your letter dated April 7, 2017, in which you requested more time to provide the requested information concerning the issuance of tax refunds audit.

As outlined in my letter dated March 30, 2017, to Acting Director Miller, this office began requesting information on March 6, 2017. The March 6th request was merely an inquiry regarding historical information related to corporate and individual income tax refunds. Additionally, on March 20, 2017, this office made a second request for further information, requesting whether the Department had any real time tax refund reports and, if so, a timeframe on their availability.

Auditors from this office followed up with Lynn Bexton throughout the month of March to request an estimate of when this office would receive the information. Because no estimate was forthcoming, I called Acting Director Miller on March 28, 2017, to obtain the status of our request. Acting Director Miller informed me during that conversation that the Department was working on the documentation but that he could not provide an estimate of when the Department would have the information ready for the Auditor's Office.

As you know, I sent the March 30th letter to Acting Director Miller outlining the conversations and requesting that the Department send the requested information by April 10, 2017. Additionally I asked Acting Director Miller to contact me if some of the information cannot be obtained by that date to discuss a mutually agreeable date for the remainder of the information.

As of this date, more than a month after the original request, this office has received no information and no estimate of when the Department of Revenue would provide the documentation, even on the simple questions of whether the Department produces real time reports. We would ask that you provide all requested documents no later than next Monday, April 17, 2017, so that the audit is not delayed any further.

Timeliness of Income Tax Refund Issuance
State Auditor Subpoena of Department of Revenue Records

Please be aware that the State Auditor and her authorized representatives under law have access to the records of state departments. I would hope that this matter can be resolved without further incident. Please be aware that additional delays may require this office to use other legal means to obtain the documents necessary to complete our review.

If you have any questions, you may contact me by email at Paul.Harper@auditor.mo.gov or by telephone at (573) 751-4213.

Sincerely,

A handwritten signature in cursive script, reading "Paul Harper", is written over a horizontal line.

Paul Harper
General Counsel
